LOCK HAVEN STATE COLLEGE, LOCK HAVEN, PENNSYLVANIA

Friday, January 28, 1966

New Construction at LHSC Planning Under Way

Construction totaling \$13,000,000 to provide new buildings and facilities at the Lock Haven State College is included in the new Scranton administration capital budget.

The projects for our campus are part of the legislation authorizing construction of state facilities for all the departments and agencies of the Commonwealth. The local allocations fall into three categories, according to Richard T. Parsons, our college president.

The first group of six projects including a new laundry, maintenance and garage building, a student community center, an infirmary, a new library, an addition to the science building, and additional facilities to serve these structures, have been authorized and plans have been drawn or are now being completed. The amount allocated for these facilities is \$3,943,770.

The second group of projects for which funds are made available in the new budget includes a new women's dormitory, a practice field and football stadium, a new physical education building, a new residence for the president of the college, acquisition of land for parking facilities and building sites, and demolition of the present administration building.

The land to be acquired would include some of North Fairview Street beyond the new dining hall and some along the Susquehanna River west of the Gulf gasoline station. The total cost of these projects, for which planning has not yet been started, is estimated at \$6,005,379.

In the third category are planning and design appropriations for three more major structures and the conversion of the present library into an administration building. The amount allocated for the planning and design of the four major projects in the third group, consisting of those for which no construction money is included, is \$243,938.

While the construction allocation would not be made until the next capital budget is drawn up, the total anticipated cost of these projects — a music and drama building, another women's dormitory and another dormitory for men, and the conversion of the present library building into a new administration building — would bring the total cost of the new buildings, covered by the budget allocations for the actual buildings, and advance preparation of the plans to \$13,074,149.

The buildings on the immediate schedule are topped by the new library, for which the con-

struction estimate is \$1,317,317. The addition to the science building, which will be placed directly behind Ulmer Hall, on North Fairview St., is estimated to cost \$1,162,775. The student community center will cost \$617,064, according to the budget estimate, and the laundry, maintenance and garage buildings will cost \$403,839, as listed in the budget. The infirmary estimate is \$196,514, and the additional utilities are figured at \$246,261.

Piano Duet to Give Recital

Renee MORISSET and Victor BOUCHARD are two young Canadian pianists whose lives are united by the bonds of marriage and of music. They both studied in Paris for several years after having obtained first prizes in piano at the Conservatory of Music in their native city of Quebec. They have been performing as a professional two-piano team since 1955. Morisset and Bouchard have already appeared as soloists with the principal Canadian Symphony Orchestras (Montreal, Toronto, Winnipeg, Vancouver, Quebec City, Victoria) and have given more than 200 recitals across Canada. Since 1957, they have toured many times with great success in Europe (England, France, Portugal, Holland, Belgium, Switzerland, Italy). It was in Paris that they made the two major recordings of two-piano and piano-duet music for the National Record Club. They have made their United States debut with a recital at Carnegie Hall in January 1965.

They will give a recital at Lock Haven Teacher's College on February 3, 1966, at 8:15 o'clock in Price Auditorium. Students will be admitted upon presentation of their activity card.

Madrigal Singers

The University of Maryland Madrigal Singers were organized in the fall of 1958 by a group of students who met informally during the noon hour to sing madrigals. The group, composed of undergraduates drawn from several colleges of the University, is under the direction of Rose Marie Grentzer, Professor of Music.

The madrigal is one of the oldest of musical forms, and since its inception in the fourteenth century it has undergone considerable development. Originating in Italy, it was at first a musical setting of a lyric poem of the period, composed of two or three voices singing without accompaniment. The name of the form is possibly derived from *matricale*, a poem in the mother tongue, or *mandriale*, a pastoral poem.

The repertoire of the Madrigal Singers includes a wide variety of both Italian and English madrigals and of the parallel French form, the chanson. In addition, however, the repertoire contains works both earlier and later than the Renaissance madrigal. Medieval songs for two or three voices, Baroque airs, and contemporary chansons are often performed. A number of ancient instruments — rebec, lute, recorder, and harpsichord are drawn upon to provide the authentic atmosphere that audiences everywhere have found enjoyable. Colorful costumes in the style of the period, designed and made by students in the University's College of Home Economics, add a further authentic touch to the performances.

Bookstore Hours

The Smith Hall textbook room hours for spring semester 1966 are as follows:

- Thursday 27**
6:00 to 9:00 p.m.
- Friday 28**
8:30 to 11:30 a.m.
1:30 to 4:00 p.m.
7:00 to 9:00 p.m.
- Saturday 29**
8:30 to 11:30 a.m.
1:30 to 4:00 p.m.
- Sunday 30**
Closed
- Monday 31**
8:30 to 11:30 a.m.
1:30 to 4:00 p.m.
7:00 to 9:00 p.m.
- Tuesday 1**
8:30 to 11:30 a.m.
1:30 to 4:00 p.m.
- Wednesday 2**
8:30 to 11:30 a.m.
1:30 to 4:00 p.m.

After February 2 all textbooks will be on sale at the Book Store in Sullivan Hall.

Jon Masood receives keys to new S.C.C. car

New S.C.C. Car Skip Wins Eye Contest

The S.C.C. bought a new car. It is a 1966 Plymouth station wagon, and it replaces the 1958 Chevrolet which, incidentally, looked like a fugitive of Sam's junk yard. The new car was purchased with S.C.C. funds from Clair McCormick, the local Plymouth-Chrysler-Imperial dealer. Our recently acquired vehicle, a nine-passenger wagon equipped with automatic transmission, is to be used by student organizations at LHSC.

Student Aid Program

Applications were filed by LHSC to participate in student financial aid programs in 1966-67 under the provisions of the Higher Education Act of 1965. Application was filed with the Department of Health, Education and Welfare, Office of Education for federal funds totaling \$163,395.

Of this total, \$86,625 is for the continuance of the National Defense Student Loan Program to aid an estimated 250 students here. The federal grant will be matched by \$9,625 from local funds contributed by the S.C.C., the college's Alumni Association, and a small amount contributed from the faculty Christmas Card Program.

Request was also made for \$65,970 to support the College Work-Study Program which will aid an estimated 128 students. This program also requires matching funds of \$2760 from the college and other non-profit organizations which use student help under this program. These organizations are the Ross Library and the Lock Haven Hospital.

Federal funds totaling \$10,800 have been requested for the new Educational Opportunity Grants Program and was created by the Higher Education Act.

The editor and staff of the Eagle Eye wish to extend their most sincere congratulations to Skip Mattas who won the Eagle Eye Contest. Mr. Mattas correctly identified the man whose picture appeared in the last issue as Mr. Peter Sellers.

In his entry, Skip wrote that "He (Sellers)" generally wears a toupee. He has been seen in the local movie theatres in a number of roles. I saw him last in "A Shot in the Dark."

Mary Jo Rosato, who resides in room 113 of Woolridge Hall, entered the Contest also; just about 20 minutes after Mr. Mattas did. Miss Rosato stated that the man was Peter Sellers, and that he is an actor who usually wears a toupee. She said that she had seen him last in "What's New, Pussycat?" Another contestant was Mike Ambrose who commutes to LHSC from Lock Haven. He submitted nearly the same information as did Miss Rosato, the only difference being that Mike said he had seen Peter Sellers in a movie entitled "The Mouse That Roared."

TONGUE TWISTER

- A Box of Biscuits
- A Box of Mixed Biscuits
- A Biscuit Mixer

These grants will be awarded to exceptionally needy full-time students during the next academic year who but for such a grant would be financially unable to pursue a course of study at the college. It is estimated that 22 students will be assisted through the Opportunity Grant Program.

The student aid programs at Lock Haven State College are administered by Jack R. Morrison, Dean of Student Affairs.

The Legend of Falling Rock

Chief Thundercloud, mighty leader of the Palitsu Indians was a kind, elderly Chief. His tribe had their campfire grounds along the banks of the crystal Susquehanna River in the late 1700's. They were a quiet, peace-loving tribe who were satisfied with their honest, simple life. They had no desire to become a mighty Indian nation by killing and brutal violence of other sorts. In fact they never caused any disturbances unless their tribe was in danger.

Chief Thundercloud had a very beautiful daughter named Princess Slides. The Chief and his squaw were discussing the fact that their daughter was of marriageable age. Upon agreeing that she was, they decided to hold a contest to determine which of the braves would receive her hand in marriage.

The following day, Chief Thundercloud announced the rules of the contest. The young brave who brought in the most wild game after a week's hunt would marry Princess Slides.

Three braves entered the contest — Yellow Feather, Eagle Eye, and Falling Rock. Seven suns passed, and Yellow Feather came in from the hunting grounds with two deer, three turkeys, two hands of rabbits, and some quail. Now it was Eagle Eye's turn to demonstrate his hunting skills. A week passed, and Eagle Eye returned; he had heap more game than Yellow Feather did. Eagle Eye had four deer, eleven turkeys, six hands of rabbits, and 19 Do-Do birds. This magnificent feat put Eagle Eye in the lead. At last, Falling Rock had his chance to prove that he was the greatest hunter in the tribe.

A week passed and Falling Rock had not returned. Another week, and finally a full moon had gone by, and no one had seen a sign of Falling Rock. The Chief became deeply concerned, so he called forth to the campfire all of the braves in the tribe. The braves searched the hunting grounds for Falling Rock, but to no avail. The braves and Thundercloud walked sadly back to their home, wondering fearfully about the fate of their beloved brother.

As we travel the highways and scenic country roads in the state of Pennsylvania, we see many things — roadside rests and picnic areas, beaches, fruit stands, and signs that direct traffic and warn us of unforeseen dangers which may lurk around the next bend in the road. We also see signs that read: WATCH OUT FOR FALLING ROCK and SLIDES.

Wrestlers Triumph

WRESTLING BOX SCORE

- LHSC 33 — Shippensburg 5
- 115—Melchior (LH) dec. Brandt, 18-3.
 - 123—Lorson (LH) dec. Miller, 6-3.
 - 130—Larson (LH) dec. Reddin, 10-8.
 - 137—Lowman (S) dec. Miller, 15-1.
 - 145—Waltz (LH) dec. Hershberger, 10-0.
 - 152—B. Blacksmith (LH) dec. Gruver, 8-0.
 - 160—Klingaman (LH) drew with Whitisel, 4-4.
 - 167—J. Blacksmith (LH) dec. Wetzel, 7-0.
 - 177—Smith (LH) pinned Jones, 2:24 of 2nd.
 - 191—Swope (LH) pinned Smith, 2:57 of 2nd.
- Heavy Weight—Elling (LH) dec. Brown, 8-0.

"Prescription Specialists"

At the Monument

From a Bewildered Ballplayer

by STEVE DALEY

The sport of basketball has for decades thrived as the most popular winter sport in the United States. The first basketball game, which was played on a concrete floor with a peach basket, has today matured to a colorful contest on a polished wooden floor framed by a 20,000-seat arena. Although the Thomas Field House is limited to a capacity of 2000, to see even this number of seats occupied at LHSC means that the students are supporting another activity.

This unique situation, which is contrary to the national trend, is not as baffling as it may seem; it can be attributed to a number of factors. Most important is the players' overall lack of height, not skill, on the court itself. For instance, Edinboro State College maintains a varsity squad with seven players who are over six-foot-five, while Lock Haven's varsity squad is comprised of an average height of five-foot-eleven.

Secondly, this school is handicapped in that it cannot offer scholarships as do the other colleges with which we must compete. The example at Ithaca College is cited. Ithaca offers scholarships in all fields of varsity athletics. Its basketball squad receives two full-time scholarships to be used at the coach's discretion for recruiting the bigger and more skilled players.

Finally, this lack of height and sufficient funds has caused LHSC to have dropped from the winning ranks, and this disappointment has decreased the number of fans attending home games. During the years 1951-54, the basketball team won the majority of its games before full houses. Today the squad is lucky to manage three victories and draw 300 fans a game.

The problem is not unsolvable. With greater financial assistance the basketball coaches could lure the bigger men to this college. This is the only hope for a winning season which would again draw the large crowds.
