Lock Haven State College

Tuesday, Feb. 13, 1979

## WORLD NEWS BRIEFS

President Carter said yesterday that patriotism consists of more than flag waving, paying taxes, and voting. It also includes voluntary energy conservation.

The body of an 11 year old girl, Linda Vanderveen was found Monday only 8½ hours after she was kidnapped while helping other grade school children cross the street in Grand Rapids, Michigan.

the sixth-grader was the daughter of the city's Civil Service Director.

A Washington bound Allegheny Airlines propjet crashed in a snowstorm Monday on take-off from Benedum Airport in Clarksburg West Virginia. One crew member, and one passenger were killed in the crash, all 23 other on board the craft were injured. Most injuries were minor.

The Ayatollah Khomeini has won his revolution against Shah Mohammed Reza Pahlavi. The next few days will be critical for the 78 year old religious leader who has begun the process of forming an Islamic Republic. He must win the obedience of the heavily armed rabble in the streets.

## Certified CPR Students can Assist Others

By DIANE ORBAN

Students with their cardiopulmonary resuscitation instructor certificates are welcome to assist others in obtaining their certification and to renew their own certification for another year by team-teaching with Mr. Shultz in his safety concepts/advanced first aid sections.

Time available for choosing are Monday, Wednesday and Friday at 1:10 or Tuesday and Thursday at 8:00, 9:30 or 2:10.

A commitment of five (5) class periods at the chosen time is required. See Mr. Shultz before Friday, Feb. 16 if interested.

MEMBERS of the 1979 Polish Exchange Program between Lock Haven State College and Marie Sklodowska University in Lublin, Poland, and LHSC Administrators gather in the Board Room in Sullivan Hall.

## Eleven Polish Scholars Presently On Campus

Eleven Polish scholars (from the Marie Curie Sklodowska University in Lublin, Poland) are the representatives of the Polish Exchange program this semester at Lock Haven State College. The scholars, most of who arrived in late January, will teach or act as advisors for the various departments of the college.

Dr. Iemowit Pietras, professor of political science, is the Polish advisor for the exchange group. Pietras is scheduled to deliver a public lecture on the "Polish Political System" on Tuesday, February 20. The lecture will be the first in a series of four lectures to be delivered by the Polish scholars throughout the semester.

Dr. Lech Antonowicz, professor of international public law, is teaching a Liberal Arts/Social Science seminar on Socialist and Communist Institutions. Both Antonowicz and Pietras are serving as resource persons in the history, economics, and political science departments at the college.

Three other members of the Polish exchange are professors in the economics and political science fields of study; Dr. Jan Waszczyński is a professor of political economy, Mr.

Kazimierz Lobaza is a specialist in the planning and political economy field, and Dr. Andrzej Balaban is a professor of state law. Lobaza and Balaban are scheduled to lecture later in the semester on "Market and Planning in a Socialist Economy", and the "Inner Organization of the Sejm".

Four members of the Polish exchange are professors of English; Wiktor Gonet, Eleonora Horosz Kiewicz, Joanna Draz Kiewicz-Klimaszewska, and Joanna Durczak, all have their Master of Arts Degrees in English. Ms. Draz Kiewicz-Klimaszewska will be teaching a course on Beginning and Intermediate Polish at the Williamsport Area Community College. Professor Durczak is the wife of a Polish professor who was a member of the 1978 Polish Exchange group. Durczak will present a public lecture later in the semester entitled "In Search of America".

Representing the departments of the Sciences are three Polish professors. Dr. Jerzy Niecko is a specialist in chemical technology, and Dr. Stanislaw Halas specializes in Physics-spectrometry mass. Dr. Monika Buraczynska, professor of microbiology, is the only member of the

Polish Exchange who is not located at LHSC. Dr. Buraczynska is working with the science department at Brown University, Providence, Rhode Island.

Approximately ten Lock Haven State College students are to study in Poland this semester. The students are scheduled to leave the week of February 12, and will spend four months in Poland. Advisors for the

Lock Haven group are Dr. John McGowan and Dr. Charles Hayes. McGowan and Hayes are already in Poland as part of the exchange program.

The Polish Exchange Program was organized last year by Dr. Marcus Konick, Director of International Education and Exchange. Coordinator for this year's Polish Exchange is LHSC professor, Charles Kent.

## CAS Approves Decision

(HARRISBURG) --- The Commonwealth Association of Students (CAS) endorsed Acting Secretary of Education, Robert Scanlon's decision to lower basic tuition for out-of-state graduate students and reduce summer session tuition for out-of-state undergraduates attending Pennsylvania's 14 state-owned institutions.

"The reduction and/or elimination of the fee differential will certainly increase access to education in Pennsylvania and will make studying in the Commonwealth more attractive to out-of-state students," said CAS Executive Director Kathleen Downey.

"Our campuses located close to state border lines will benefit from increased enrollments which will, in

turn, make our offered programs more cost effective," the student lobby leader explained.

The fee structure change, effective this summer, will enable out-of-state full-time graduate students to pay \$475 per semester tuition as opposed to the previous \$890 fee. Out-of-state undergraduates attending summer sessions will be charged \$39 per credit instead of

## All-College Reception Set

notice to management, faculty, staff, and students: As a part of the program arranged for the visit of the Board of Directors of Pennsylvania's state colleges and university to our campus on Thursday, February 15, and Friday, February 16, there will be an all-college reception in

## Evaluators to Appraise LHS

By SUSAN SHELLY

Despite the low temperature in Bentley Hall Sunday night, members of two accreditation teams were warmly welcomed by faculty, administrators and students at a dinner held in their honor.

The Middle States Association of Colleges and Secondary Schools and the National Council for Accreditation of Teacher Education teams arrived at Lock Haven State on Sunday to determine if the college will retain its accreditation. The procedure is repeated every seven or eight years. The evaluating teams will appraise various aspects of the college and make recommendations for improvement. They will also assess a self-evaluation booklet compiled by faculty, administration and students called *An Institutional Self-Study*.

Mr. Robert Bravard, director of library services, who acted as chairman of the editing and publishing committee for that booklet, was confident that LHSC will retain its accreditation. "It's not something we're worried about," he stated.

Dr. John Zaharis, Vice President of Academic Affairs was head of the steering committee which organized much of the evaluation procedures.

The evaluation teams will be on campus until Wednesday afternoon.

\$71 per credit.

The new Secretary of Education, in a January 26 memo to all Pennsylvania state-college and university presidents, said he approved the fee changes based on recommendations from the Board of State College and University Presidents and Board of Directors, as well as from Commissioner of Higher Education Warren Ringler.

the lobby of Joan Fine Arts Center, at 4:30pm to 5:15pm on Thursday, February 15. The entire campus community is cordially invited to attend. We hope you will find it possible to join us in honoring the Board of Directors on this occasion.

# Information On The Educational Testing Services Divulged

The next time you pick up a well-sharpened No. 2 pencil and begin to hurriedly answer a standardized, multiple-choice test, chances are that your test is one of more than eight million given annually by the Educational Testing Service (ETS). You may know ETS manufactures SATs, LSATs, GREs and GMATs. With these tests along, ETS influences the educational and career opportunities of millions of people. But the power of ETS does not begin or end with those tests. ETS markets 299 different tests. ETS tests are used to determine entrance to over 60 occupations including firefighters, actuaries, policemen, real estate brokers, sailors, teachers, gynecologists, engineers, and auto mechanics. ETS test results are the standards of access to some of the most powerful professions: Foreign Service officers, New York stockbrokers, lawyers in over 40 states, CIA agents. Two million elementary students take ETS tests, and ETS is even developing ways to test infants. ETS helps determine who will be eligible for financial aid and how much they will receive. The financial information ETS obtains on nearly two million families is more detailed than a mortgage application or an IRS return. ETS consultants and trainees help shape education and labor allocation policy in scores of countries, including Singapore, Brazil, and Saudi Arabia. And ETS has test centers in 120 countries.

In thirty years, probably 90 million people have had their schooling, jobs, prospects for advancement, and beliefs in their own potential directly shaped by the quiet but pervasive power of ETS.

What is the Educational Testing Service? How has it centralized so much power? Is it accountable to anyone, or anything? Should your opportunities be so influ-

enced by ETS' standards of aptitude or intelligence?

Despite its massive influence, few people question ETS. Students may want to tear up test forms in moments of frustration, but few of us think of challenging the corporation that makes the tests. We will soon release a lengthy report on ETS, written by Allan Nairn, which we hope will help people understand, and question, the unique and unregulated power of this corporation.

Indeed, ETS is, in non-dollar ways, a large corporation. It has more customers per year than GM and Ford combined. Despite its non-profit status, it declares roughly a million dollars in "non-profits" each year. This money is plowed back into corporate expansion and maintaining the ETS estate, which includes a 400 acre headquarters in Princeton, New Jersey, a \$250,000 home for the president, William Turnbull, and a three million dollar hotel/conference center all built with student test fees. Its revenue from test fees enables ETS to double in size every five years from 1948 to 1972, a rate of growth faster than IBM.

ETS's sales and near monopoly power, combined with its privileged legal status as a non-profit corporation, make it unprecedented in corporate history. ETS is exempt from federal and state income taxes, is effectively beyond the reach of many anti-trust laws, and has no stockholders. ETS escapes the restraints governing other corporations because it is an "educational" institution.

The power of ETS is massive, as even one ETS executive conceded. "No matter what they try to tell you here about how we really don't have much power," he said, "we know we do. We know we're the nation's gatekeeper." This gatekeeper can deter-

mine who enters college, graduate and professional schools, as well as many occupations and professions. Is that power legitimate?

ETS defends its role as the gatekeeper by claiming it has developed the "science of mental measurement," but as our report will argue, the tests measure nothing more than how you answered a few multiple-choice questions. The correlation between SAT scores and first-year grades in college, for

example, is often lower than the correlation between the test scores and the income of the test taker's parents. At best, standardized tests measure the specialized skill of test-taking, but they do not measure key determinants of success such as writing and research skill, ability to make coherent arguments, creativity, motivation, stamina, judgment, experience, or ethics.

ETS not only influences how institutions judge individuals, however; it also

influences how individuals judge themselves. As Nairn says, "A false self-estimate or image is instilled in the mind of the individual who receives a standardized test score. For although the scores are significantly determined by social class, he is told they are objective, scientific measures of the individual."

Moreover, test takers are subject to numerous injustices, ranging from incorrect scoring of tests, to late reporting of applicant information, to secret eval-

uation of grades and test scores and they have no recourse.

We must begin to examine the examiners.

There is a growing movement to reform and restructure the testing industry. In New York, Ohio, Texas, and other states, student-run Public Interest Research Groups (PIRGs) have introduced "Truth in Testing" legislation in their state legislatures. This legislation would force ETS and other testing companies to disclose test questions and answers, and all studies and data on the tests; it would also require companies to keep information on applicants confidential. Disclosing test answers would enable students to contest disputed answers, and thus eliminate much of the mystery surrounding the tests. ETS has said it is willing to release 99% of its test data. But, Nairn says, the bulk of this 99% is the material provided by the test-takers themselves -- name, social security number, etc. Nairn says it is crucial to disclose that last one percent, as it includes ETS' extrapolations from the information provided by test-takers such as predictions of future academic success.

The testing reform movement has other facets. Jesse Jackson is organizing around the issue of the ETS National Teacher Examinations which have systematically eliminated qualified black applicants from teaching jobs. The FTC has apparently found, contrary to ETS claims, that certain kinds of prep or cram courses can raise test scores but the report has been withheld at this time. And several members of Congress have called for an investigation of the testing industry.

Students now have opportunities to challenge the test makers.

Individuals interested in this issue, or in sponsoring Truth in Testing legislation, can contact Ed Hanley at our office at P.O. Box 19312, Washington, D.C. 20076.

ROY MILES recently assumed duties as food service manager at LHSC. He was previously head chef. [Photo by MIKE BAYLOR]

## Roy Miles Becomes New Manager

By CHRISTOPHER FLYNN

There's an old face in new clothing wandering around Bentley Dining Hall these days. His name is Roy Miles and he's the new director, but you're probably still puzzling over why he looks at least somewhat

familiar.

Up until the end of last semester, Miles was the executive chef at LHS, a position which he had held since 1976. Miles is no new comer to the food service industry. Having graduated from Penn State quite a few

years ago, he has worked in food service ever since. Miles said that after receiving his degree he could have gone after a job in the management end of food service immediately, but he felt that he would gain more practical experience working in the preparation end of the field. He feels this experience has paid off immensely.

Right now Miles is a recognizable figure in the cafeteria, he's the guy with his arm in a sling. The thumb on Miles' left hand was severely damaged in a loading accident in December.

Miles is obviously optimistic about his job, and hopes to receive feedback not only from the Food Service Committee, but also from individual students. Miles stated, "If it wasn't for the student, we wouldn't be here."

Roy Miles is a man who enjoys what he's doing. He's providing an important service and is very much aware of that.

A special note; tomorrow at lunchtime Mexican food will be the order of the day.

# THE B O O K E N D

# Freshmen From The Bench Spark Eagles To Victory

By PETE BIELSKI

The play of Bob Horodyski and Terry Gilman ignited a 40 point second half explosion, as the Bald Eagles whipped Slippery Rock Saturday night 67-54 at Thomas Field House.

Combining on many back door plays, the freshman

duo came off the bench and sparked 20-9 scoring advantage over the final 7:20 of the contest. Horodyski scored nine of his twenty points during this span, two buckets coming on picture passes from Gilman. Dave Roth also performed well, as the Eagle bench took up the slack, and guided the

young squad to a convincing victory.

Doug Legette, coming off a 27 point performance at Edinboro, had a off night, scoring only 4 points. The freshman from Chester had the flu, thus, affect the potential star's ability.

Kenny Richter turned in his usual fine performance, as the all-conference sophomore guard from Hershey scored 15 in addition to keeping the young Eagles poised while the game was close.

In picking up their fifth

win in eighteen games, Coach Brad Black was impressed with the Eagles team play. Commenting on the second half, Black said 'Bobby (Horodyski) really sparked the team when he came in, and did a good job. Dave Roth also played well, really helping out on the boards. Overall,

it was a good team effort.'

The Eagles played Wilkes College last night--and face Indiana at home on Wednesday. The JV squad lost to Slippery Rock's JV after holding a five point half-time lead, 80-72. Mike Sollecito and Kris Bankovski again paced the team, combining for 43 points.

## Wrestling News

By TOMMY PETERMAN

Five LHS wrestlers placed in the 36th annual Pennsylvania State College Athletic Conference Tournament this past weekend at California State College. Top place finishers were junior Dave Moyer, 142, and sophomore Doug Gallaher, 150. Also placing 4th at 167 pounds was junior Mike Nauman with Joe Baranik placing 5th in the 158 pound class and Tim Thompson earned a 5th at 190 pounds. The Haven placed 6th in the 13 team tournament with 50½ points. The nation's 14th ranked NCAA-Division I team, the Huskies of Bloomsburg took top honors followed by Clarion State. Two Bald Eagles reached the semi-finals, but Gallaher lost a close 13-10 decision to Jody McMullin ESSC, and Nauman dropped a 10-6 decision to tough Jim Vargo of ESSC. The Bald Eagles were shut out of the winners' circle for the first time in five years after having two champs in 1978 and three champs in 1977. Eight of the 10 men scored wins for the Bald Eagles with five placing for a good team balance, but there were no super stars to take individual titles. LHS has produced 116 PSCAC champs and over 300 place finishers. The tournament is no longer the climax to the wrestling season since the inception of the NCAA qualifying tournaments. Winning matches but not placing for the Bald Eagles were John Unangst, 126; Austin Shanfelder, 177, and Gregg Koontz, Hwt. Lock Haven's Mike Nauman won the Fastest Fall Award when he decked Daren Keen of Kutztown in just 2:21. Nauman hit Keen with a head lock in the consolation finals. Bill DiPaoli, California's 118 pounder won the OWa and had the most falls in least aggregate time.

The Bald Eagles (10-10) are back on the mats Thursday night against the Nittany Lions of Penn State at 7:30 in Rec Hall and close out the season their dual meet season against the Mountaineers of West Virginia on Sunday at 1:30 pm in Thomas Field House. The last weekend in February the Haven competes in the EWL at Pitt. Dave Moyer, 142, has the best record at 21-5 and is ranked 5th in the East at 134 pounds.

Eagles versus PSU battle should be a toss-up on Thursday evening. PSU is on an eight match losing streak, but is expected to have four injured starters back in their line-up, including EWL champ Dan Pfautz, 177. Hopefully the young Bald Eagles well balanced dual meet team can make up for the lack of several super stars against the Nittany Lions...Coach Dr. Ken Cox is anxiously awaiting the arrival of freshman Kenny Parsley on the mats next season. Parsley, a 1978 PIAA-AAA champ had to red shirt this season but has four big years ahead of him, as foes transfer John 'Red' Campbell...Parsley has great talent and has the potential to duplicate 'All-American' Mike Moore's great accomplishments on the mat...Coach Cox only has several real holes to fill in the upcoming recruiting war next month.

DAVE THOMPSON scores against Slippery Rock in Saturday night's game. [Photo by MIKE FAHRENBACH]

### BOX SCORE—LOCK HAVEN

	F.G.	F.T.	TOTAL
Richter	7	1-4	15
Thompson	4	0-0	8

## Foul Shooting Contest Sponsored

Who has the smoothest set shot at Lock Haven State? The Bald Eagle golf team wants to know and is sponsoring the third annual foul shooting contest. Cash prizes for winners include:

- 1st place--\$15.00
- 2nd place--\$10.00
- 3rd place--\$5.00

For a grand total of \$30.00 in prize money. The rules are simple. For \$.50, each contestant gets twenty shots. The entries who sink the most win the cash. You can enter as often as you

wish.

The shoot-out will be held in Zim. Gym II on Thursday, Feb. 15--from 12:30-2:00 pm and 6 pm till 9 pm. All ties will be played off at 9 pm. So bring your touch along and we'll see you there, for the Third Annual Foul-Shot Shoot Out.

All varsity and junior varsity players from both the women's and men's basketball teams are ineligible.

## Brandell And Mazyck Lead Gymnasts To Important Victory

By ROSELLE ROBAK

The Lock Haven State College women's gymnastic team swept two of the top three place winners in each event in winning effort during Saturday afternoon's tri-meet in Zimmerli gymnasium. The Haven women amassed 90 points in the tri-meet, whipping Ursinus with a 78 score and Edinboro's squad finished with a 65.65.

Martha Brandell and Rachine Mazyck led the Bald Eagle gymnasts to one of their finest afternoons they have ever enjoyed on the mats. Mazyck was a double-winner as she captured firsts in the vaulting and uneven parallel bars with a 7.05 and 5.85 score in each. Brandell was LHS' most consistent performer as she garnered three second places in the meet including vaulting, uneven, and balance beam.

Darcy Hill's performances also added substantial points to the Haven total as she tied for third in the vaulting event with a 6.7, and won the floor exercise with a strong tumbling routine for a 7.5 score.

The victory was especially sweet for Coach Lu DeWette and her charges as three members of the team are sidelined with injuries. Sheila Kelly, Marianne Lester, and captain Sue Woolston are regular performers who are lost indefinitely due to various ailments.

Captain Woolston spoke for the team when after the meet she remarked, "With all the injuries we still pulled through and did a good job and enjoyed a good meet."

Vaulting, the meet's opening event, is one of the Eagles strongest which they proved by making an almost complete sweep; Ursinus's Carol Hess tying Hill for third. Mazyck

performed a Yamashita for top-honors while teammate Brandell showed off her handspring vault for a 6.75--good enough for second place.

Mazyck and Brandell were also a one-two combination in the uneven parallel bars with Hess again taking 3rd place honors. Mazyck hit personal best on the bars with her fine 5.85 score. The tiny gymnast used a press, handstand mount and a consistent, routine with no stop or falls in her winning performance.

Brandell's bar routine was awarded a 4.85 on the basis of difficulty, good amplitude and a well-executed hecht dismount.

The Haven's domination continued into the balance beam competition where Brandell was awarded second and Jolene Wetherell finished third. Hess continued to be outstanding for Ursinus as she won the beam competition. Wetherell's routine featured all superior moves excluding her aerial walkover dismount.

In the final event, floor exercise, the Eagle gymnasts finished one-two as Hill won the event and Sue Moser placed second. The wiry Hill was awarded a 7.5 and Moser a 6.75. Hill needs one more 7.5 score to qualify for regional competition. Edinboro's Linda Page eeked out a third place in floor for Edinboro's

only place winner.

Carol Hess was named the meet's all-around gymnast with 23.15 total points in four events. As Brandell didn't compete in floor she was ineligible for all-around honors for which she is usually in the running.

Coach DeWette had nothing but praise for her team now 4-2, after the meet. "I'm pleased for the

kids, they put out 100%. With each meet they are improving and the schedule is getting harder. I was pleased with Jackie Stempel's routine on beam--she threw her back handspring. Darcy (Hill) did well coming off an injury and Martha was injured but competed anyway."

The team's next competition is with University of Penn on Feb. 14th.

## Track Indoors At Bucknell

BY GARY SIEGEL

On Saturday the Lock Haven State men's indoor track team competed in an open meet at Bucknell University.

Top finishers for the Bald Eagles were sophomore Mark Alles who placed third in the pole vault with a record jump of 14 feet, which topped the old mark of 13'6" set by Jeff Mann.

Senior Captain Stan Burke and sophomore Andy Herbster placed 4th and 5th respectively in the high jump.

Joe Leva placed third in the shot put with a heave of 47 feet 2 inches.

Other fine performances were turned in by sophomore Brian Adams with a 53.9 in the quarter, just .5 secs off of the school record. Freshman Roger Lee ran a very impressive 6.6 60 yard dash. In the 60 yard high hurdles Daryle Walton ran a 8:55 to make it to the finals.

The team will next compete at the Delaware Invitational meet on Saturday and Sunday afternoons.
