#### SHOULD AULD ACQUAINTANCE BE FORGOT?

This year took a big jump just that it is our life's work. Fresh recently. A few weeks ago I was writing an editorial welcoming the freshmen, and now I'm trying to pound out something that will be an appropriate farewell to the seniors. Time moves on and carries us with it. The seniors are leaving us, and we are sorry because they won't be the fixtures on campus won't be the fixtures on campus to visit and we'll get a few pointers that we found comfortable and on how to quell a rebeilious fellow friendly. Their rooms will be occupied by someone new, and a few of er came back, if they left on Satpied by someone new, and a few of them will be mentioned in the classes of next year, and next year, and next year by instructors who remember them for some out-standing characteristic.

Most of them are going out into lieve we'll land in when we begin, But the force of gathering moment-um has carried them as it will carry nm nas carried them as it will carry tus, to the inevitable, and we'll be glad because by that time we'll be are forgotten if they are ever read in the teaching field that we will know come and can never really go.

men, fresh, out of high school, are too used to rebelling against tru-ant officers and rules to be able to reconcile themselves to the idea of being in a classroom all their lives.

So to the seniors we say, "Good Luck" and not, "Good-Bye," Most of them will come back next year to visit and we'll get a few pointers er came back, if they left on Sat-urday and never returned, they would still hold a place in the memory books of all of us. It will be a chapter for some and it will be only a paragraph in the book of

All we want is anything (even a horse and wagon) that will provide comfortable stand ing room. (Comfortable means upright not s-shaped). The next time we have a swimming party, notice the bruises on the Syvania workers imbs. These black and blue spots were acquired on the bus, and we're NOT kidding. But the bruises are not the only hazard connected with our trip to work. I shudder to think what would happen if one of those fantastically over-crowded busses would ever wreck or catch fire. It would ever wreck or catch fire. It takes fifteen minutes to "unpack" under normal conditions. Think of an accident and buy an insurance policy; dream of it and wake up screaming; do something about it

Ah. May! th of May is always wel come. It brings excitement, emoific? All right.

we have the seniors, or shall I say, now we haven't the se-niors. In a week they'll be able to call T. C. their Alma Mater. We'll miss them all.

-So what if they haven't eve sinited or spoken to us for the past month. Can they help it that they were too busy chewing their nails and adding up quality points. All fun, kids.

-Mr. and Mrs. Stahl of the beaming faces are having a grand time—trying to have a honeymoon and have Ruthie go to classes a

# These Past 4 Years

By A Senior

Four years, ago, this year's se-niors very timidly entered this in-stitution. The first few days were spent in orientation to college life. As for me and several other daystudents, it was more or less of a bunch of so-so, but now it seems as though it was mighty worth-

Oh, brother, that first year! En-Biology, Place and Purpose of Education, P. T., Swimming— Mack Gray, Morris Hodes, Don Mack Gray, Morris Hodes, Don Kress, real guys—and oh yes, can't forget History of Civ. All in all, we really had a great time. And that Frat initiation—whery Mack Gray, Joe Long, Bill Harbach, and Garth

Kraemer were the new initiates.
Sophomore year-Still taking required subjects, plenty of work but still grand fun—Can't forget that really bruising P. T. course of Max really bruising P. T. course of Max Bossert's—running the 3 miles in 18 minutes. Best runners in this were Ken Hager and Joe Nevins. Major and minor subjects—Jun-ior year, Most of the fellows were

gone, but that Navy; how Cook and Gray used to hate them. Plen-ty of work, beautiful scenery that blowing, and those boys

marching.

As for the Senior year—three days early — purpose — training echool. Were some of those Seniors ever scared! However, most of them seemed to get a good start.

Just rushing around—classes in the library, class in the training school ibrary, class in the training school another class in the library, a home-room lunch period in the Training School. Whew! Sure was work then, but already they are Training School. Whew: Sure work then, but already they are memories. Then the work then, but all wonderful memories. Then the "Hoe-Downs"—good exercise if nothing else. That dance band sure was on the ball. Mid-year tests, vacations, back to work, more Hoe-Downs, the date bureau, and the trip by some kids to THAT dance in Renovo—music fashioned by the Collegians. Finally—the last tests

we will get here.

This sure has been four great years, probably four of the greatest of our lives. It has really been
