S.C.C. organizes for new year

By LARRY SCHMIDT
News Editor

Lock Haven's student government officially began operations for the year when S.C.C. President Joe Euculano welcomed 29 newly elected senators to the first S.C.C. meeting last night at 7:00 p.m. on the ground floor of Parsons Union Building.

Primarily an organizational meeting, most of last night's action centered around reports from the S.C.C.'s standing committees and appointments of students to join with faculty and administrators in serving on several college-wide committees.

The appointments made assigned students to participate in committees on admissions and academic regulations, international education, continuing education, curriculum research, student personnel services and athletic policy advisory. Additionally, the S.C.C. began attempts at finding persons to fill the positions of parliamentarian, social committee chairperson, food service chairperson and campus CAS coordinator.

The senate appropriations committee was selected when Paul Benkert, David C. Heverly and Andy Kyle were elected to join the executive committee in completing the council.

One area of interest that received no definite action, however, was senate confirmation of this year's S.C.C. budget. Action was delayed to allow the student senators time to consider the proposal before voting. Euculano told the senators "I wouldn't expect you to approve the budget without seeing it," and upon request stated that duplicates of the budget proposal will be

made and distributed prior to the next meeting.

Reviewing the current fiscal situation Euculano explained that the S.C.C. is now

operating on a budget passed, because of time limitations, by the summer interim committee. He cited the need for an

SENATE BEGINS NEW YEAR - - The S.C.C. Executive Committee, headed by President Joe Euculano, discussed the 1975-76 budget with the S.C.C. Senate Wednesday night. Out of the 29 newly elected senators, only eight have had previous experience. [Photo by VUKOVIC.]

Liquor control to tighten Saturday

Fans attending tomorrow's Jack Stadium dedication game will be reminded of the college regulation regarding alcoholic beverages and screened as they pass through the entrance gate, according to dedication co-chairmen Fran Cornelius and Tod Eberle.

"We were concerned from a safety standpoint" explained Cornelius, who also serves as assistant to the vice president for administration. He referred to last weekend's game when a bottle was thrown from the stands to the track, and also cited potential danger to intoxicated fans seated on the cliffs surrounding the stadium.

Cornelius referred to the college regulation which pro-

hibits alcoholic beverages on campus. "We're going to catch it at the gate as much as we can," he said, adding "We want to do things to avoid

Is 'nearly nude' enough?

By PHILIP BURLINGAME
Assistant News Editor

College police rescued an intoxicated, nearly nude male student from a girl's restroom in McEntire Hall on September 10 at midnight. The student, identified as a freshman resident of Smith Hall, was given a cold shower before being tucked into bed by the police and hall manager.

The following evening two

Students asked to assist with new directory

The S.C.C. was asked all students to cooperate in the preparation of this year's student directory. "It's for the students, and it's not going to be given to any organization" stated President Joe Euculano.

All students having a validated I.D. are entitled to a directory, which will include a listing of each student's name, major, local and home address, and local and home phone number.

Students are requested to verify this information, already compiled by the S.C.C., either Monday from 11-2 or 4-7 in Bentley Lounge, or Tuesday from 11-2 or 4-7 at the PUB ground floor desk. Verification can also be made Wednesday through Friday from 8-12 or 1-4 at the PUB Secretary's Office.

Any students wishing to

AND ETC.**

BAR YOUR WINDOWS AND LOCK YOUR DOORS -- While most people enter the dorms by means of the front door, this person seemed to find that scaling the wall was a more direct approach. What girl could resist the advances of a man knocking on her fifth floor room window? We doubt that this method will replace the ever faithful elevators, but it could be the answer to limited visiting hours. So for all those who believe in the human fly and especially for those who do not -- take heed!

'Exorcist' survives supernatural trend

By TOM MURRAY
Art Editor

With the enormous advance publicity and media hype, anyone seeing "The Exorcist" at the height of its popularity could feel cheated were he not reduced to a quivering mess by the end of the film. Cooler heads prevail, however, and the nation has turned its paranoia from demons in the night to sharks in the swimming pool.

The result is that "The Exorcist" may now be viewed for what it is: a supernatural thriller of exceptional calibre.

The story is no doubt familiar: a young girl begins misbehaving in the most extraordinary ways, including convulsions, levitations and unladylike language. All medical and psychiatric attempts to cure her fail. As a last resort an exorcism is performed and the child is saved.

A strong point of the film is the steady rate of plot development. Nothing is more

movie. "The Exorcist" moves right to the meat of the story, building a strong momentum into the climactic exorcism sequence.

The exorcism scenes make the film the finest of the

Letter to the editor

To the Editor:

This letter is in response to the article of Tuesday, September 16, concerning the tutoring program at Lock Haven State College. In order to alleviate misrepresentation and confusion, I feel I must clarify the stated purposes of the Student Assistance Program which is a cooperative effort of Act 101 and Special Services.

Due to external funding, the program must adhere to specified eligibility guidelines. However, the Student Assistance Program does not label or categorize or use any stereotype terms to classify students in the program.

supernatural genre since "Dracula." Up until this point, the film relies heavily on excessive shock material. The vomiting and contorting is as gross as purported, but Linda

tion such as high school transcripts and SAT scores may reflect academic deficiencies in a student's background, the staff does not maintain any official documentation of the type of information. However, our emphasis is upon the student's current academic status which involves factors such as the student's course load, grade point average and particularly the student's need for tutorial assistance in regard to a specific course(s) or course area. There is no set criteria for determining if a student needs a tutor. It should be pointed out that a student does not have to be on academic

Ahmad Jamal - Sept. 24-27 - Bijou Cafe - Upper Darby, Pa.

LP REVIEWS

"Sabatoge" by Black Sabbath...

This album could take you by sabatoge. The first side hits like the ole quick tempo Black Sabbath. Every song on the first side is good rocking and reeling. Songs "Hole in the Sky" and "Melgomania" are the better ones.

On the second side the

Blood, Sweat and Tears - Sept. 26 - Gettysburg College, Pa.

Jean-Luc Ponty - Sept. 29 - Westchester St. College, Pa.

Savoy Brown - Sept. 30 - Roxy Theatre - Northampton, Pa.

Rod Stewart and Faces - Oct. 1 - Spectrum - Phila., Pa.

Kiss - Oct. 3 - The Tower - Upper Darby, Pa.

songs are quite mellow and more into the head, not a usual characteristic of Black Sabbath. Occassionally they will step it up to let you know they are not all the time mellow. There are two moods to this album - the rocking first side and the calmer second. This album is a definite buy for Black Sabbath fans and for those who aren't, take a chance. I rate it B+.

"Hair of the Dog" by Nazareth...

This Scottish band needed a good one especially after their last LP, "Rampant," and this is it. Three out of four songs on the first side are hard rock and roll. The other song mellows things out and is good enough for a hit single. It's funny; every song on this side could be a hit single.

The second side starts out with the hardest song on the LP, "Beggars Day." The next two songs are mediocre, but the last, "Please Don't Judas Me," is another goodee. This album is a definite buy for any rock and roll fan. P.S. These guys are good in concert too. I rate it A.

"Four Wheel Drive" by Bachman Turner Overdrive...

The opening cut is the name of the album. This song sounds slightly simple because of the repetition of four chords throughout the number - monotonous, huh. The next cut, "She a Devil" is of the same caliber, believe it or not

coholic beverages into the stadium, whether coolers of beer or individual bottles, will be requested to leave them in the parking lot or take them home. When asked what action will be taken against any fans openly drinking in the stands, Cornelius stated "They can't legally take it, I don't think." In this case, the person will be asked to take the beverage out of the stadium. "Our main concern is safety," he stressed.

probation or failing a particular course in order to be given tutorial assistance. The staff encourages each student to express his or her needs through personal interviews.

I want to take this opportunity to announce that effective this semester, the Student Assistance Program is broadening its outreach and that the tutorial service is available to all students at Lock Haven State College. The program is designed to help students recognize and develop their own existing skills for purposes of overcoming academic weaknesses. This involves helping the student to develop positive attitudes toward learning, increasing self-discipline, and stimulating intellectual curiosity. Those students who need assistance in a particular course will study regularly with a tutor qualified to tutor that subject. All tutorial sessions take place in the Educational Opportunity Center located in G-1 of Smith Hall. All students who are interested in participating in the "College Tutorial Service" should inquire at the center.

by college police while attempting to remove an article of furniture from Gross Hall. The apprehension took place at 11:00 p.m. at the Lambda Chi house.

Three separate incidents of illegal drug use have resulted in the apprehension of seven LHSC students and one non-student. College police cited the suspects for violation of the Pennsylvania Drug, Device and Cosmetic Act.

A follow-up investigation has uncovered a third juvenile, age 17, who was the alleged "master mind" of the P.U.B. ripoffs. Charges have been filed with Clinton County juvenile authorities.

resulting in an automatic penalty kick against LHS. "Fitz" made a beautiful save on the ensuing free kick but the referee signaled that the Eagle netminder had moved before the ball was touched so the shot was re-taken. Derr converted the second free kick

giving the Huskies its only goal of the afternoon against a stingy Eagle defense.

Lock Haven fired 27 shots at the Bloomsburg net while the Huskies could manage a mere five shots in each of the 45 minute stanzas. LHS also held the edge in corner kicks, 6-3.

exorcist survives supernatural

cont. from page 2

Blair screaming obscenities does not elicit terror.

The acting is adequate throughout the film. Ellen Burstyn is suitably bordering on hysteria as the possessed child's mother. Jason Miller is the assistant exorcist suffering guilt feelings and loss of faith. Linda Blair, as the possessed girl, is the anti-thesis of Shirley Temple.

"The Exorcist" is a technically proficient film. Music is kept at a minimum, enhancing the sinister quality of the background noise.

Photography and special effects must meet high standards to create the correct mood and keep the story plausible. The sterile white of the psychiatric clinics forms an interesting contrast with the dark room of the exorcism. A surreal vision technique is used sparingly to good effect.

The makeup man could have been more subtle. At some points the girl looks more clownish than demonic. Also, a spot under Linda Blair's left ear was overlooked.

In the final analysis, the best index of a horror film's merit is its gut level effect on the audience. On this basis "The Exorcist" succeeds admirably.
