

Construction To Begin On LHS Fine Arts Building

The construction of the Fine Arts Building at Lock Haven State College will begin in January 1971.

The building, which will be three levels constructed of limestone and brick, will house the Theatre and Music Arts and the majority of the art classes.

The facilities will include individual rehearsal and practice rooms, band and chorus rehearsal studios, an audio tape deck library, and art studios for painting, sculpturing and arts

and crafts. Scene, costume, and storage areas, a press room, and private painting studios will also be provided. Thirty air-conditioned faculty offices will be located in this building.

An unusual aspect of the building will be the theatre which will have both a proscenium stage and a theatre in the round. The stage will be able to be elevated in three positions enabling students in the Theatre

Arts to produce various productions and allowing greater participation by the audience during the programs. The theatre surrounded by an art gallery, will seat three hundred.

Mr. Young, Assistant to the President at LHS, stated that the most important aspect of the building is that it will enable the college to offer majors in the three areas of Art, Music, and Theatre.

The approximate cost of the building will be two million dollars, not including the half million dollars needed for equipment. LHS will receive approx-

imately six hundred thousand dollars from the Feceral Construction Grant.

Building construction should be completed early in 1973.

Attendance Regulations Changed

following attendance regulations have been adopted by the faculty and approved by the administration, effective

November 3.

"1. Regular attendance at classes and fulfillment of the responsibilities for meeting class requirements for each course are primarily the responsibility of the student.

2. The student shall not be penalized for absences caused by his participation in collegeapproved activities or by conditions beyond his personal control.

3. No faculty member is under any obligation to provide make-up work for any student who has an unexcused absence

from any class. It is the responsibility of the student to consult with the faculty member concerning absences from class.

4. No faculty member shall lower a student's grade solely because of absences since lack of performance may in itself constitute a penalty.

The regulations that have been adopted were based upon the report of a faculty-student committee. To a large extent they make the student responsible for his own decisions.

Any changes or modifications of the regulations as stated require the approval of the fa-culty."

A basic change from the previous attendance regulations, adopted in 1962, is the elimination of required class attendance on the two days before and the two days after vacation.

A further change deletes the requirement that "each instructor will report to the Dean of Academic Affairs the name of any student who has missed class for three consecutive sessions."

Faculty Spotlight

This will be a weekly column spotlighting a member of the faculty.

Mr. James E. Christopher, instructor of Physical Education holds the spotlight in this article of the new column.

Christopher's educational consists of attending high school in Chicago, Illinois,

receiving his bachelors degree from Carthage College in Kenosha, Wisconsin, and masters degree from Henderson State College, Arkansas. He is presently

doing graduate work at Spring-

field College, Massachusetts. Having much experience a basketball coach, he coached at Carthage for two years and Edinboro for four years, and we are proud to have him as a coach at LHS.

Christopher has a philosophy: "never make predictions" when asked the question: "How does the team look for the coming year?"

Student emphasis was put on the subject of enthusiasm at the games. Christopher stated he was "very impressed" with past games and "hopes for con-tinued enthusiasm." To him the students' enthusiasm at LHS is "the best in the conference."

Mr. Christopher is married and has two children, Kelly Rach and Karianne. The family resides in Lock Haven.

Food For Thought

NIBS GORDON

The newest building on campus is the Zimmerli Gymnasium. This building has been earmarked for student use for physical education and recreation purposes.

This is fine, except for one major drawback: the building closes at 6:00 p.m. on weekdays, and is not open at all on the

Lack of supervisory personell is given as the reason for turning three gyms, a pool, and a handball court into a giant

In order to have this changed, student responce is desperately needed. If enough students request that the building be opened, there is a good possibility that Dr. Matthew Maetozo can find a way to overcome the supervisory problem.

If you would like the Zimmerli Gymnasium to be open past 6:00 p.m. on weekdays, and opened during the weekends, sign your name to the following form and return it to the Eagle Eye office, or to Nibs Gordon. Upon collection, these forms will be presented to . Dr. Mactozo

Because the Zimmerli Gymnasium was built with recreation in mind, I request that the building be made available to students on weekends and beyond 6:00 p.m. on weekdays.

Harriers Get money To Attend NAIA's

Yesterday's Eagle featured and article on the three cross country runners who have qualified for the National Championships.

Fortunately, a better way of financing their trip has been found than asking students as was originally intended.

Because of a possible transferral of funds, and the increased sale of wrestling season tickets, money will be made available for the trip.

James Dolan, the cross country coach had this to say on the new situation: "I personally want to thank all the students, fraternities, ans sororities for the support they have given us by donating money already, and those who were planning on doing so. Those who have contributed will be given their money back."
