Tuesday, Mar. 20, 1973

## SRSC Pres. Accepts It

### Pa. State College System Has Highest Tuition in U.S.

APSCUF, the teacher's union, and the student government are calling for a coalition of teachers and students to fight a proposed \$50 tuition hike and the recent retrenchment of 20 faculty positions and educational programs at Slippery Rock State College.

APSCUF points out that Slippery Rock's President Watrel is virtually alone among the 14 state college presidents. The others are fighting the budget cuts: he is not. The coalition is demanding administrative accountability for the President's decision to support the budget cuts by submitting to the tuition hikes and retrenchments. When the 13 other state colleges can stand firm, it must be determined why retrenchment and tuition hikes are the sole alternatives to the budget crisis at SPSC.

Likewise, the coalition would like to find the basis for the \$50 tuition hike and the principle used to determine which programs, departments and faculty members were to be retrenched.

The APSCUF-Student Government strategy is to join the other state colleges is exerting strong pressure on the State Legislature. There are 90,000 teachers and many more parents and students eyeing the legislature at this time. A letter writing campaign is already underway. A joint meeting of APSCUF and the Student Body is scheduled for March 21 where Martin Moran, the Executive Director of APSCUF, will be the principle speaker.

APSCUF and Student Government feel that the following facts should be considered by the legislature: The students of the Pennsylvania

State Colleges now pay the highest tuition for state colleges in the nation, 40% higher than the national median, and nearly 30% higher than the median for the land-grant colleges. At the same time Pennsylvania is 42 in the nation--eighth from the bottom--in per capita outlay for higher education. National labor unions are arguing that it is as hard today for the children of blue collar workers to at-

tend college as in 1915. Clearly facts like these gave President Watrel reason to have pressed the case harder with Harrisburg than he did. The money should come from the legislature not from more tuition hikes or further cuts in college faculty and programs.

Efforts are already being made by some campus faculty and administrative leaders to brand these moves as "rabble-rousing" or as an attack upon

this administration. The APSCUF-Student Government move is to bring upon this legislature which is in the best interests of the entire college.

It is felt that the President should have solicited the cooperation of APSCUF and the students in a lobbying effort in Harrisburg rather than attempting to bear the brunt of responding to the cuts alone.

## Agenda of Tomorrow's SCC Meeting

1. Discussion of PCU constitution
2. Mr. Harris Lipez will address senate concerning

- negotiations with WPBZ.
3. Revised SCC Constitution will be presented.

Columnist Jack Anderson spoke last night to a good-size crowd in Thomas Field House on "The People's Right to Know". For the complete story, turn to page 3.

# Art Courses Are Explained

by Dar Zeigler

The art department is not planning to offer any new courses in the fall. However, several present ones will have new names. According to Mr. William Foster, department chairman, the new titles will give students a better idea of the scope of certain courses.

"Experimental Art" will be known as "Fibers and Fabrics." Weaving and dyeing will be explored in depth and students will be able to make their own tapestries and rugs.

"Creative Art" has been renamed "Design II: Materials and Techniques." Despite its awesome sounding title, the course is a basic introduction to three-dimensional art. Both sculpture and sandblasting will be covered. In addition, students will make collages. This course is especially recommended for elementary majors.

Foster believes that there is a remote possibility that the art department will be located in the new Fine Arts building by fall. However, he states that a move probable date is Spring, 1974.

Shown above is the policeman who was on duty at the dance Saturday night. Is this what it's come to?

# Letters To The Editor: BUY BAGGIES INSTEAD??

To the Editor:

There are 165 courageous people at the Dow Chemical plant in Bay City which has been on strike for 14 months. They would like to enlist the aid of your student newspaper and members of the student body so that we may survive. Dow Chemical is using its unlimited resources in an attempt to destroy us economically and eliminate the collective bargaining process of our Local Union which is 14055 of the United Steel workers.

Many workers and their families have suffered unlimited hardships in the loss of income and personal property which they have had to sell in order to feed their families because Dow Chemical refuses to resolve an unjust labor dispute provoked by Dow Chemical and its local management.

In the interest of humanity we ask that you print this letter in your college paper and that the student body aid us by refusing to buy Handi-

wrap plastic food wrap and Ziploc bags which are made at the Bay City plant.

If there are individuals or groups on campus who would like to aid us in this humane endeavor, please contact me at the address which is given below. We request that they boycott the above mentioned products which are produced by Dow Chemical in Bay City and by any other aid or activities which may aid our cause.

Please print this letter in your student newspaper and if possible send me a copy.

Thank you,  
Martin Schwerin  
401 N. Chilson St.  
Bay City, Michigan  
Local 14055

## Not A Pro

To the Editor:

I would like to direct this to "A Student In Theatre".

I am not pretending to be a professional critic or any other type of professional. If you got that impression, I'm sorry and ask that you accept my apologies.

But, to turn my attention to a more important point. If "A Student In Theatre" feels my review of "Indians" was inaccurate and unjust, I have a question for that student. Would you be willing to write reviews of plays for the *Eagle Eye*? If so, why didn't you volunteer to do so when the *Eagle Eye* appealed to the students of Lock Haven State to write for the paper?

Please, for the sake of the College Community will you, as well as others who think the *Eagle Eye's* reporting is not as good as it should be, get off your ass and do your part... Or, be happy with what is offered to you as readers.

Respectfully,  
D.Z.

# Skills, Judgment VISTA Ideals; Apply Now To Be A Volunteer

VISTA and Peace Corps are looking for seniors to help people to identify and solve their overwhelming problem of poverty and all its assorted ills...not enough food or the right kind of food, malnutrition, disease, substandard housing and illiteracy. Promoting self-help, help people realize that they have the capacity to improve their way of life is the common aim of a VISTA or Peace Corps Volunteer.

Sharon is on campus today in the Placement Office. It is advantageous for seniors to apply now, because 80% of training is usually held during the summer months and processing takes some time.

Wanted are Liberal Arts Grads to work in VISTA and

Peace Corps, French and Spanish Majors to work in Africa and Latin America, and Secondary Education majors to serve in the Amazon Basin.

These are just a few of the specific requests that VISTA and Peace Corps are now trying to fill. A representative from VISTA and the Peace Corps is on campus today looking for seniors to fill these and other jobs in both programs.

"We want Volunteers with skills and judgement as well as ideals. VISTA, with 4,006 full time volunteers and the Peace Corps with more than 6,500 volunteers on duty, have put an increasingly high priority on those having knowledge in the professional, education and health fields," said Sha-

ron McKinley, former Peace Corps Volunteer.

Volunteers turn words like brotherhood, service and love into small miracles---a new school, a freshwater well, vaccination against smallpox, an adult who can read or write, or a child who has enough to eat.

Sharon stated that Peace Corps is looking for seniors with degrees in liberal arts and those with degrees in business, engineering, nursing and teaching of math, science, physical education and vocational and industrial arts.

VISTA and Peace Corps are voluntary programs to attack America's poverty-related, social and economic problems, as well as those which exist in developing countries abroad

## Anderson Warns Against Secrecy

# Press Must Be Watchdog

by Sandy Gartner & Carol Segars

"Our government would be much better off if it always told the truth. The government ought to never lie to the people."

These were the words of Jack Anderson as he spoke to a large audience at Thomas Fieldhouse last night.

Anderson stated that a controversy exists today between newsmakers and newsgatherers. He explained that his concept of a good newsman is one who reports what is actually happening. This can only be done through reliable sources.

"Now the only sources who will really tell us, the sources who are uninhibited, are sources whose identity cannot be divulged," said Anderson.

He then went on to say that Henry Kissinger will never tell him anything that the President doesn't want him to know. "I want to know what the President doesn't want me to know. I want to know what the President is trying to hide, and you ought

and fact Anderson said, "It seems to me that the government makes a great mistake when it tries to get down on the Communist level and trade lies."

He also feels that the United States has lost a great asset in the world struggle, the reputation for telling the truth.

"Every government by its nature seeks to stay in power," said Anderson. To

not the governors."

Anderson further stated that the men who work for us from the President down to the lowliest bureaucrat are our servants. Since we pay their salaries, they are supposed to serve us. "But there is something about power that changes men. The President gets lifted up on the Olympian Heights into that rarified atmosphere up there where he looks down upon the rest of

pare the censorship of the Kremlin to White House secrecy. He illustrated this by showing that there was very little difference between the Russian government keeping secret from its people the purchase of U.S. wheat, and the U.S. Government concealing from its people the government support of Pakistan in the India-Pakistan War. "What is the difference between what the Kremlin censors and what the White House classifies?" said Anderson.

On the other hand, Anderson admitted that we do have different systems. In the U.S. the press is not owned by the government, therefore, we have the right to dig out government secrets to inform the people, and we did it. But the government is going to do all in its power to prevent it.

The speaker then delved into the Watergate Case, citing the unnecessary presence of John Dean, White House aide, at FBI interviews. He stated that Dean's presence inhibited sources from revealing information. "Concerning the Nixon Administration's handling of the Watergate incident Anderson stated, "They're never going to tell you anything that they don't want you to know."

Anderson then explored some of the motives for government secrecy in Nixon's administration. He feels that since only Nixon, Kissinger, and select aides are presented with all the facts concerning a situation, they believe only they know what's best

cont. on p. 4

to want to know, too," said Anderson.

Next he stated that of late the government has been caught in one awkward lie after another until the government is no longer believed even when it tells the truth. As a strong believer in truth

stay in power, Anderson commented that governments must control the flow of information. He then went on to compare totalitarian and democratic forms of government control of the press. "Those who govern you are not that much different from those who govern Russia and China. Because those who govern you would also like to control the flow of information to the people. Because they too would like to stay in power. But their methods must be more subtle and sophisticated."

Anderson went on to state that in this country the Government does not own the press. The press is free to oppose, expose, criticize and condemn.

According to Anderson, our forefathers selected the best watchdog on government available, the press. And they intended that the press should represent the governed

us," said Anderson.

By pointing out the many ways that government tries to make its job easier, Anderson contends, "Your government every day is turning more and more into a Frankenstein monster which may one day turn on us." The only watchdog to guard against this happening is the press.

Anderson went on to com-

cont. from p. 3

for the country. They begin to believe that their policies are best since no one else understands the problems. "They also believe," said the columnist, "that the country will be stronger if we have national solidarity."

Anderson believes that this particular Administration has been harsh on the press. "Past administrations, all administrations, have had the same objective, to control the flow of information to the people. All administrations have had the same desire to make themselves look good, to conceal, to cover, to hide their mistakes, to play up and publicize their triumphs. But past administrations have seduced us, but President Nixon clobbers us."

He then went on to describe President Nixon as being the master of the paperwork of the Presidency without understanding the human undercurrents. Because of his harsh campaign tactics, Nixon drew counterfire from the press. Hence, Nixon has grown to hate the press. He is not likely to embrace it instead. Said Anderson, "He's more likely, and he did, unleash Spiro the Terrible upon us."

"He created the cli-

mate," said the newsman, "and has lead to the arrest of many newsmen, he fought in a different way, he's against us. He hit us and he did it because he believes he's right, because he feels that he's doing what's best."

Anderson then gave as an example his friend, Ferdinand Marcus, President of the Phillipines. Once a

staunch defender of democracy, Marcus turned dictator. One of his first actions as dictator was to seize control of the press and arrest its editors. "You see my friends," Anderson warned in his conclusion, "you can't trust them."

A combined press conference, question and answer period followed the speech.

# Spring Football Practice Starts

Spring football practice at LHS is slated to kickoff on Monday, March 26. The Bald Eagles of head coach Bob Weller are scheduled for three weeks of drills.

The gridders will practice Monday through Thursday 4:30-6 p.m. with an inter-squad game set for Thursday, April 12.

Coach Weller will be looking for defensive players as the first defense unit returns only four regulars including three-year regular Mel Able, end; Harry Sherman, 260-pound middle guard; Bob Seal, tack-

le, and halfback Chuck Glass.

The outlook is much brighter on offense with 17 of the 25 returning lettermen expected to see action on the offensive unit.

Heading the list is two-time ECAC All-Star Chuck Vennie, and fullback Bob Kline who rushed for 643 yards and scored 12 touchdowns. Dan Wood, will fill the other halfback slot.

Lock Haven's outstanding junior quarterback Ed McGill, who ranked second in the nation in pass completion per-

centage, will miss spring ball due to illness but according to Coach Weller it is hoped Ed will resume his football career in the fall. Handling the signal-calling chores in the spring drills will be freshman letterman Dave Bower of Montoursville, McGill's understudy last fall.

## Goodling, Paulin Selected For Pa. All-Star Squad

Two outstanding members of the 1972-73 LHS basketball team have been selected for Pennsylvania Conference Western Division All-Star squad honors.

Russ Paulin 6-foot-7 senior center, was picked for the second team and junior guard Warren Goodling received Honorable Mention honors.

Paulin led the Bald Eagles in rebounding with 189 for a 9.9 average per-game and was the second leading scorer with 237 points for a 12.4 mark. In conference games his rebounding mark of 10.0 was the second best in the

Western Division. He holds both the single game and season rebounding records at Lock Haven.

Goodling, the super 5-foot-9 jump shot artist, led the Bald Eagles in scoring this season with 297 points for a 14.1 average. His foul shooting percentage of .860 for 37-43 is a new all-time LHSC season record.

Selected for the division first team were Randy Allen, Indiana; Joe Sebestyen, Clarion; Roy Stauffer, Edinboro; Cleve Steward, California, and Mark Balbach, Slippery Rock.

## Flea Market Needs You!

Flea market? Nope, we ain't got no fleas (not for sale anyway), but we do have:

- 1 Riding Lawn Mower
- 1 Honda 305 Motorcycle
- 1 Guitar (complete with case)

A pair o' shoes  
Some records  
Some tapes  
Some artwork  
and thensome.

Well, if you think you're interested, c'mon down today, Wednesday or Thursday to the small conference room of the PUB.

Of course then, you don't only have to buy. You can come to look, too. But even better, why not bring something down to sell? The way it works, you see, we (the Folk Society) get 10% of whatever you charge and you get the rest. The proceeds go to buy materials for the library: which ain't bad, I guess, 'cause no matter how you look at it, you win.

Hours are from 10-12 a.m. and 6-8 p.m. Tuesday. Wednesday's hours are 1-3 and 6-8 and Thursday's hours are 1-4:30 and 6-8. Hope to see you there.
