GS major now available

By TINA BROOKS
Staff Reporter

A major in General Studies has been approved for Lock Haven State College and the program has ten students enrolled this semester according to Dr. Hugh Williamson, Dean of the School of Arts and Sciences.

Final approval for the General Studies Program came from Pennsylvania Secretary of Education, John C. Pittenger in July. Late last spring the program was approved by all campus review boards.

A limit of 20 students are allowed to be admitted into the program for the first year. All students presently in the program are upperclassmen. In the fall of 1977, freshmen will be able to enter college as a General Studies major.

Dr. Williamson describes the major as "a very open-ended interdisciplinary option". As part of the program a student has to complete the 60 semester hour general education requirements, which is mandatory for any LSH student. The remaining 68 semester hours needed for graduation are used for courses, internships, independent studies, etc. that meet the educational needs and career objectives of the individual student.

The General Studies major is offered as either a Bachelor of Science or a Bachelor of Arts Program. If a student wishes to take it as a BA program he must also fulfill the liberal arts seminar and foreign language requirements.

Mainly, the General Studies program is aimed at the non-traditional student. Dr. Williamson defined the non-traditional student as a student who has a very high

degree of self-direction, a student whose educational experience may be extended over a long period of time or a student whose vocational objectives are not fitted by any existing program.

"Now enrolled in the program," stated Dr. Williamson, "is a girl who is interested in doing graduate work and research in physiology of physical education and related matters". She will be a scientist but the area of application will be physical education. She will be a scientist but the area of application will be physical education. She needs work in both science and phys. ed."

When a student applies for the program he is asked to identify his unique vocational and intellectual objectives. Before registering each semester the student who is admitted to

the program must submit a credit proposal and he must indicate his particular objectives for that semester.

The students proposal is reviewed by the General Studies Review Board and the Dean of the School of Arts and Sciences. If the students' proposal is not approved the review board and the Dean will work in conjunction with the student to develop an acceptable proposal.

Members of the General Studies Review Board are: Dr. Arden Holland, School of Education, Dr. Dora Vandine, School of Health, Physical Education and Recreation; Dr. Paul Klens, Natural and Mathematical Science; Prof. John Johnston, Social Science and Prof. May Ireland, Humanities. Mr. Robert Bravard, Director of Library Services, is an ex-officer member of the

FSO test date arranged

By DEB KERNER
Staff Reporter

Foreign Service Opportunities will be offered again this year to students of Lock Haven State College. The State Department and the United States Information Agency have indicated particular interest in increasing the number of women and minorities serving as Foreign Service Officers (FSO) and Foreign Service Information Officers (FSIO).

The written examination for both the Foreign Service Officers and the Foreign Service Information Officers will be administered on Dec. 4, 1976. But in order to be assigned to a local test center an applicant should apply early. Applications for the examination must be received no later than Oct. 24, 1976. Applications should

be submitted to C. Herbert Larson, Jr., Director of Placement, located in the Career Development Center, Raub Hall Lobby.

All FSO candidates are obligated to take the English Expression and General Background section of the exam. Also required is a single functional field examination relating specifically to the requirements of the four func-

PMEA sponsor: music workshop for October 2

By SUE SHELLY
Staff Reporter

A Music in Special Education Workshop, sponsored by the Pennsylvania Music Education Association and the Lock Haven State College Music Department will be held on Saturday, October 2, 1976 in room 336 of the Sloan Fine Arts Center. Registration will begin at 8:30 and the workshop will run from 9 am to 1 pm

The program is open to the public and there is a five dollar registration fee. This fee does not apply however, to members of the PMEA, the Music Education National Conference, or LHSC students with a validated I.D..

Ms. Mary Ann Rotili will be the workshop clinician and Dr. H. Faith McNitt will act as chairperson. Practical ideas and materials will be stressed.

The workshop is expected to have particular appeal for Special Education, Early Childhood, and Classroom

Teachers, as well as Music Specialists. Although no reservation is necessary, an indication of the number of people who will be attending the workshop would be appreciated. If you plan to attend, please contact Dr. McNitt in Sloan 323 or at Ext. 432.

"Enemy" has roles for thirteen

Under the direction of Kim Gazabat the College Players will present "An Enemy or the People," a play written by Henrik Ibsen.

Gazabat, an English major in his senior year plans to take this classic drama of a man who speaks the truth of what he has discovered, and

present it in a rehearsal atmosphere.

Auditions will be held this Thursday, September 16 and Friday, September 17 at 6 pm in Sloan 321. "Enemy's" cast includes roles for 10 men and three women. Numerous scripts are available in the library.

CAS and the Issues

by Paul Benkert

This coming weekend, September 17, 18, and 19, the Commonwealth Association of Students will hold their first statewide conference of the 1977 academic year. Once every two months, the entire legislative body meets to discuss matters at hand, and to plot out a course for the association to follow in the coming weeks and months. We discuss a wide range of topics from pending legislation affecting students and young people, to possible services for our members.

At present there are several pieces of legislation which we are interested in. One is House Bill 1833, the "Capital Appropriations Bill." This bill would provide state funds for new construction and needed repairs and improvements at all state facilities. Lock Haven would receive money for lighting Sloan Theatre, renovating

Thomas Fieldhouse and for purchasing new land for future use.

Another bill is Senate Bill 224, the "Commonwealth University Act." This bill would combine all of the state colleges into a university system, similar to the Suny system now operating in New York. However, this bill seems to be stalled at the moment, with no action likely to be taken this year. In the past we have supported the "Post Card Registration Bill," which now allows voters to register by mail, and the ill-fated 19 year old drinking bill.

We are investigating the possibility of operating a cut-rate travel program for our members, and are looking into other services we could possibly provide.

At any rate, this is what we are doing now. Is this what you want us to be doing?

Letters to the Editor 'Reformists' draw response

To the Editor:

To the Students of LHSC:

The students of LHSC are faced with the same problem that has faced mankind from the very beginning of time; that problem is "APATHY." Most students don't really care what happens in a lot of situations because they are not directly involved. Some have had no problems returning books, cashing checks, or trying to drop a course-so they are not really concerned about a fellow student who has run into this problem. It is time though for all students to make a decision, either "for" or "against" some of these situations. Get involved! Get the Facts! Find out how a problem may affect you in the future as it presently affects your fellow student.

Get your Senators and Representatives to form some committees to look into these student's problems, but you've got to help don't just

complain about it get on that committee and serve-help yourself and your fellow students

It may cost a small fortune to hire a pharmacist to

About those dum letters you printed in Monday's Eagle Eye. I think "Name withheld by request Jr." is a reel jurk. He's out of his hed. Anyone perverted enough to talk about human sacrifices should be shot. Besides, anyone who doesn't sine his name is one step lower than a wimp-assed faggot.

As for Wampole's letter, was so bad it wasn't even worth reeding. I think he is one of those sudo-intellectalls that Agnew was talking about. If Joe Nagy doesn't trust him, that's good enough for me. I'm

Helluva Band — by Angel

Here is the next Led Zeppelin and the way Led Zep's been going it seems they want to give their title away. Their last LP, *Presence* was good enough to laugh at. Jimmy Page and Robert Plant might think that one can moan for singing and then the other play a quick guitar riff then back to the moaning to capture an audience. How wrong they are!! The masses are not that much asses.

By just looking at the members of Angel you would swear, "oh, just another British band." But wait, names like Mickey Jones, Punky Meadows, Frank Dimino can't be all that bad. They must be Americans. Yep, and Americans who want to give us music to be proud of. These guys are so good that they could back up the Stones, Zep and Floyd and still have the crowd going crazy over them. Their music is not all studio like Queen and Kiss. Kiss makes up for this in their act even-though the music is overly distorted.

In Angel there is Barry Brandt on drums and Mickey Jones as the bassist. Greg Giuffraia plays organ, piano, clarinet, harpsichord, mellotron, string ensemble, and all synthesizers. (I can't wait to see what new instruments he picks up for the next LP.) Punky Meadows in on guitars and Frank Dimino takes care of the vocals.

The album, *Helluva Band* is the Angel's second. The first song, "Feeling Right" starts out with some good synthesizer. It's difinetly a good mood opener. Punky plays some amazing lead guitar series and then the synthesizer comes in to play the same series. They both take turns showing off for a few minutes then both instruments entwine which makes it hard to figure out which instrument is which.

The second song, "Fortune" starts out with synthesizer but at a much slower speed also there is church singing eavesdropping in the background. The song ends with a wild barrage of synthesizers attacking the songs.

The third song is "Anyway You Want It" which is a good rock and roll dance number. It holds the same beat and doesn't change style. Not much synthesizer here.

The last song on side one is "Dr. Ice" which clearly shows the style of Frank Dimino singing. Many times he extends his notes and keeps them floating with the synthesizer.

The second side starts with a song, "Mirrors" which is

Olnick on sports

A few weeks ago, I wrote a baseball column with my predictions for teams making the playoffs and the World Series, and also some individual awards, but it looks like I'll have to throw that column away and write this one instead. So much has happened lately, showing that baseball, as well as any sport, is unpredictable at best.

The most surprising episode, as any baseball fan is aware, is the sudden collapse of the Philadelphia Phillies, coupled with resurgence by the Pittsburgh Pirates. Most people had the Phillies locked into the first place position, with a 13 game lead only two and one half weeks ago. That lead has now shrunk to five and one half games, and is in danger of shrinking even faster before the season is over.

My personal prediction is that the Phillies will still win the National League East, due to the fact that the Pirates cannot keep expecting the excellent pitching they have received lately, and the Phillies cannot expect to stay in their hitting slump much longer. Sooner or later, these Phillie bats will start cranking again, and the Lumber Company will be fading back.

The Reds ought to win the NL West, and the Yankees will win the AL East. The AL West is more interesting, because Kansas City's injury-riddled pitching staff is barely able to keep the team treading water from a strong Oakland challenge.

Much of Oakland's challenge will depend on a suit

filed by A's owner Charlie Finley in court to free him in selling three of his star players pitcher Vida Blue to the Yankees, along with pitcher Rollie Fingers is successful in his suit, Oakland will lose those three players for money, but no players—thus killing off the A's chances for this season. Hopefully, the decision will not be rendered until after the season is over—thus giving the Oakland team a chance to win their division this year. Because of all their troubles, I think Oakland will fall short and Kansas City will end up on top in the American League West.

Going out on a real limb now, I will predict the Yankees over Kansas City in the

Haven Harriers defeated by 'The Rock', 37-20

Last Saturday the Harriers of Lock Haven suffered a sound defeat from the Rockets of Slippery Rock by a score of 37-20.

Taking the number one spot of the race was the Rockets' Grabazul with a time of 26:58.

Freshman Rick Blood of the Haven placed second and Eagles George Settle and Tim Buntrock were eighth and ninth respectively.

Also participating in the tough 5 mile race from LHS were; Greg Hughes, Scott Sick, Paul DeWalt, Mark Elasser, Greg Loht, Kip

Fishing tourney yields 9th place honors for LH

By DOUG GRIETZ
Staff Reporter

For the third consecutive year Lock Haven State was among twelve (six American and six Canadian) teams entered in the 20 annual International University Sports Fishing Seminar and Competition.

LHS, represented by Captain Ken Ferringier, Rick Walsh, Jeff Smith, and Bill Turbitt, placed ninth with a total of 186½ pounds of fish. Rick Walsh landed a twelve pound cod—the biggest catch for the Haven.

Other teams included; University of Massachusetts, Yale University, University of New Brunswick, Princeton University, Saint Frances Xavier University, University of

Western Ontario, Harvard University, Dalhousie University, Dartmouth College, University of Toronto and Sair Marys University.

In this deep sea tournament which was held off Cape Mar and Wedgeport off the shore of Nova Scotia, the four man team from each institution competed for the University Cup. The Cup was awarded to the University of Massachusetts, who's team gained the most points, scored by point per pound of fish. The Blue-nose Trophy was awarded to Princeton University for catching the largest fish; a 35 pound cod, and the Nova Scotia International Trophy was awarded to the United States who topped Canada 25-pounds to 1702 pounds in combined score from each nation.

Dr. Bruce Young, who accompanied the students stated, "It was a rewarding experience for us all and we enjoyed

'reformist' draws response

cont. from page 2

dispense drugs in the "student" bookstore as well as meet the federal requirements to do such a service for fellow students. Then where will the cost of the activity fee go??

As for hiring Fred, consider the higher prices you may be changing the fellow students who are commuters or are doing their student teaching. Is it fair to make a profit for the "benefit" of all students by charging approximately one-fourth of the student population for this service?? I have eaten in the Eagle Wing thousands of times over a five year period and I have never had a sandwich that did not meet sufficient meat standards. But, if someone doesn't get his money's worth it could be because of a poor investment of his own time and efforts to get reliable services for all his fellow students as well as himself.

Maybe a student or two would be willing to help you serve on a committee to investigate the advantages of a four day week and an unlimited drop-add period! How about it?? Speak now or forever hold your peace!

A student concerned about his fellow student would not allow the "restriction of pedestrian travel on the Glen Road" to become his "fetish" but he might realize that someone allowed an "adult" a driver's license so that he/she may break up a 15 mph law to run down yourself or a fellow student. Right!!

As for escalators and monorails, two legs are better than one or even none — or have you forgotten about your fellow students who have wheels for legs and sticks for eyes??

Some problems are of a moral or spiritual nature, but, then again not everybody who acknowledges God as the Supreme Being, even considers God's Word when deciding about an abortion or the North Korean situation. Yes, again you are dealing with Human Nature, Human Error, and Human "personality" conflicts. But be careful how you decide to react to certain problems as you may be

involved with the fellow students you didn't consider today in your future life.

As for poor spending of student funds, whose fault is it that six thousand dollars was spent "unworthly"? Were you there to voice a "NO" vote or were you considerate of the fellow students who play-acted and enjoyed something which he/she truly believed in and had faith in that project bringing joy to other students??

Yes, APATHY runs rampant across America and the campus of L.H.S.C. Students must stand up and make a firm decision about all of life's problems and the student must consider all factors involved. Serve on those committees and do something.

review board.

Dr. Williamson noted that the General Studies major is under the supervision of the School of Arts and Sciences for administrative purposes only.

"The General Studies Major should not be viewed as an easy way out. In the first place the student is involved in the same educational strategies as any other program. What we are trying to do is make it possible for students with special needs, objectives or talents to utilize resources of the college in a special way," emphasized Dr. Williamson.

Dr. Williamson said that this program cannot be used to obtain a degree in teacher education. The main reason is Pennsylvania's system of certifying a teacher by giving prior approval to a college's teacher education.

Programs operating on the same principle as LHS's General Studies program are not uncommon in the nation. LHS is the first state college in Pa.

concert guide

cont. from page 2

another fast pacer. The second song "Feeling's" is the slowest and mellowist song off the LP. At times the vocals remind me of Queen's. The lyrics are quite nice and deserve attention. Here is a verse:

Feelings reach out and hold me,
Hold me close by your side.
So you see you've become a part of one,
A part which has helped me to live.
Can't help myself from this tutoring inside,
Possessed by love is a pain I cannot hide.

The next song, "Pressure Point" steps the pace back up with some quick guitar and vocals mixed with many types of synthesizer. But the leads in this song drag out and could be much shorter. The next song, "Chicken Soup" is a lot like "Pressure Point" so there is no need to discuss it.

The last song Angel's theme is a catchy song strictly instrumental. It was also done on their first album with synthesizer as the basis but replaced by guitar on this LP.

Angel is one band to watch out for. Beware big groups. Don't sit on your ass too long or you'll lose your seat.

I rate it a B+.
