PRESIDENTS

Charles H. Fisher	1920-1923
G. C. L. Riemer	1923—1927
Francis B. Haas	1927—1939
Harvey A. Andruss	1939—

Bloomsburg State College traces its beginning to 1830 when a private academy was opened in Bloomsburg. During the next two years, under the leadership of C. P. Waller, a graduate of Williams College, it became a successful and well-established school. After Mr. Waller left in 1841, the academy continued through varied fortunes until 1856, when it was chartered and incorporated as the Bloomsburg Literary Institute.

The following decade, including the critical years of the Civil War, was a period of struggle for the Institute, but in 1866 the election of Professor Henry Carver as Principal brought a change. Under his strong leadership the early policies of the school were established and a building to house 300 students was erected. This building, the present Carver Hall, was dedicated, with gala observance by the townspeople, on April 4, 1867. Members of the first class at the new school — D. J. Waller, Jr., George E. Elwell, and Charles Unangst — by popular subscription raised \$1,200 in a single week for the bell, which formerly called the students to classes.

In the autumn of the same year, a view of the new school on the hill "ablaze with lights" suggested to John P. Wickersham, State Superintendent of Public Instruction, that the location would be ideal for a State Normal

School whose establishment in the Sixth District was then pending. After necessary negotiations, official action, and the construction of a new dormitory, the school became the Bloomsburg Literary Institute and State Normal School on February 19, 1869.

The next eight years were trying ones that included the resignation of Professor Carver, two interim Principalships under Charles G. Barkley (1871-1872) and the Reverend John Hewitt (1872-1873), a fire that totally destroyed the dormitory, and the short-term Principalship of Dr. T. L. Griswold (1873-1877). But in Dr. Griswold's administration the school did begin paying expenses and did construct a new dormitory, the original part of the present Waller Hall. The installation of Dr. D. J. Waller, Jr., in 1877 as Principal brought thirteen years of stability and growing prosperity to the school. While he was Principal, the Model School and the east wing of the dormitory were built.

Dr. Judson P. Welsh succeeded as Principal in 1890, when Dr. Waller resigned to become State Superintendent of Public Instruction. Additions to the four-story dormitory and to the gymnasium were built under Dr. Welsh, and Science Hall was opened in 1906, shortly after his resignation.

Dr. D. J. Waller, Jr., returned as Principal in 1906. In 1916 the Bloomsburg Literary Institute and State Normal School was purchased by the Commonwealth of Pennsylvania and became the Bloomsburg State Normal School. In 1920, at the age of 74, Dr. Waller retired.

The emphasis of instruction at the Normal School was changed by its next Principal, Dr. Charles H. Fisher (1920-1923), from Secondary and college preparatory work for special teachers to full-time education of teachers. Dr. G. C. L. Reimer followed Dr. Fisher as Principal and remained in office until the institution became a State Teachers College in May, 1927.

Under the administration of Dr. Francis B. Haas (1927-1939), the College made great advancements in the program of teacher education and in the physical plant. Eighteen acres of land were added to the school's property; several buildings were constructed, including a laundry, the Elementary Training School, the Gymnasium, the Junior High School, and the Shop and Maintenance Building; and other construction work was completed. Dr. Haas resigned in August, 1939, to assume, for the second time, the duties of State Superintendent of Public Instruction for Pennsylvania. Dr. Harvey A. Andruss, who had organized and directed the Department of Business Education and had served as Dean of Instruction from 1937-1939, was appointed to succeed Dr. Haas as President. During the next two decades of hot and cold wars, the campus was enlarged, new buildings were added, and the number of students and faculty were trebled or quadrupled.

Early in 1960, Bloomsburg became a State College. In the same year, the College celebrated the Thirtieth Anniversary of the Division of Business Education, received continuing accreditation from the Middle States Association as a degree-granting institution, and was approved by the State Council of Education to inaugurate a program of graduate studies leading to the Master of Education degree, beginning in June, 1961. The scope of curriculum offerings was broadened in May, 1962, when the College received permission from the State Council of Education to grant the Bachelor of Arts degree in the Humanities, the Natural Sciences, and the Social Sciences.

The approved Campus Plan has been modified to provide buildings for an expected enrollment of 3,000 students by 1970. The capacity of the heating plant has been doubled, and new mains for storm sewage, sanitary sewage, steam, and water have been extended to bracket the western area of the campus at a total cost of nearly 'one million dollars. Two dormitories to accommodate 500 women students were completed for occupancy in September, 1964, at a cost of more than 2 million dollars.

Programmed construction, either in actual contracts awarded or in plans in various stages of development, design, or study involves a total of more than 5.8 million dollars. During 1965, construction will begin on a new library, auditorium, men's dormitory, and athletic fields and track. A new science classroom building and two new high-rise dormitories to accommodate 672 men are in the process of planning and design.

The college year 1964-1965 was highlighted by a year-long observance of the 125th anniversary of the founding of the college and the 25th anniversary of the administration of President Harvey A. Andruss; 1964 also marked the ninety-fifth year of teacher education at Bloomsburg. An impressive series of special events, programs, convocations, and publications marked these milestones of educational progress and distinguished service to the Commonwealth of Pennsylvania.

CAMPUS AND BUILDINGS

CAMPUS. The State College property comprises about 60 acres, of which over forty acres form the campus proper. The campus lies on a hillside from which one looks down over Bloomsburg homes toward the bright ribbon of the Suequehanna and beyond to the softly tinted distant hills. The campus contains an athletic field, tennis courts, and a general recreation field.

The buildings of the State College reflect the growth of the institution.

CARVER HALL. Carver Hall, erected in 1867, and named for Henry Carver, the first Principal, stands at the head of Main Street. Its white bell tower and pillared entrance form a picturesque approach to the College campus and buildings. The building contains an auditorium seating 900, which has just recently been completely renovated and redecorated. Administrative offices are located in this building.

NOETLING HALL. Noetling Hall, named for William Noetling, the head of the Department of Pedagogy from 1877-1900, is directly behind Carver Hall. On the first floor are housed classrooms and faculty offices. Adequate and attractive lounges, including a compact kitchen unit for day women are located on the first floor. The Audio-Visual Education Laboratory is housed on the second floor.

WALLER HALL. The main dormitory, Waller Hall, named for D. J. Waller, Jr., Principal of the College for 27 years, is four stories high with a frontage of 165 feet and a wing 40 by 104 feet enclosing a patio and fountain. This building is equipped with one passenger and one freight elevator. The ground floor of this building contains the lobby, the College Library, the post office, and offices for the Superintendent of Buildings and Grounds, the Dean of Students, the Dean of Women, and the Director of Public Relations. Five modern enclosed fire towers minimize fire hazards. The women's dormitory occupies the second, third, and fourth floors, and the rooms contain beds, dressers, chairs, and study tables.

The infirmary is located on the second floor, with registered nurses in attendance.

The Alumni Room on the first floor of Waller Hall is furnished as a reception room for Alumni and Faculty. College trophies are displayed in

26 Bloomsburg State College

this room. The lobby, with its tapestries and comfortable furniture, is a favorite social meeting place. In 1949 a brick and tile structure replaced "The Long Porch" overlooking The View—the Susquehanna River beyond the town and Catawissa Mountain beyond the river. In spring, summer, and autumn, students have gathered here for more than half a century to enjoy this panorama.

HUSKY LOUNGE. This former gymnasium adjoins Waller Hall. Space is provided for a completely equipped Snack Bar with booths and tables for dining. An elevated television lounge on the east side and the College Store on the west side of the lounge provide additional student facilities.

FACULTY LOUNGE. An attractively furnished room has been reserved for faculty use near the Husky Lounge. It contains lounge chairs, sofas, and an apartment-style kitchen unit. Faculty committeees also meet in this room.

OLD NORTH HALL. North Hall, formerly a men's dormitory, is a short distance from Waller Hall. The first two floors of this three-story building are presently being used to provide temporary offices for departmental chairmen and faculty. This building will be razed during 1964 to make room for a new dormitory for men.

SCIENCE HALL. Science Hall, built in 1906, is equipped for laboratory work in biology, chemistry, and physics. It contains a number of classrooms and two lecture rooms with projectors, screens, and other visual education apparatus. This building has been renovated and rewired, and modern fire towers have been added.

BENJAMIN FRANKLIN LABORATORY SCHOOL. The Benjamin Franklin Laboratory School building was opened for use in 1930. It is designed, planned, and equipped in accordance with the best modern practice. It provides facilities for demonstration and experimentation from the kindergarten to the sixth grade, as well as a special classroom for the mentally retarded. A newly furnished children's library is located on the first floor, while a Curriculum Materials Center has recently been developed in the basement.

LAUNDRY. The laundry provides, in a separate plant, the best modern equipment for handling the laundry needs of the College.

CENTENNIAL GYMNASIUM. The Centennial Gymnasium is located on the eastern boundry of the campus, near the Athletic Field. It contains a large main gymnasium with a playing court of 48 by 84 feet, and two smaller auxiliary gymnasiums, each with an adjoining locker room. To the rear of the main floor is a swimming pool 75 by 30 feet, which meets intercollegiate standards. This building houses, in addition, complete office and classroom facilities for Health and Physical Education Department, and a basement locker room for varsity athletic teams.

NAVY HALL. This building was made available to the United States Navy for its V-12 officer training program during World War II. It contains eleven classrooms, as well as faculty offices. The ground floor has been completely remodeled to provide facilities for the Department of Special Education. This area includes clinics for speech and hearing therapy, reading improvement, and psychological services. A large area designed for group activities and clinical observation augments the more specialized functions of the department. A language laboratory has been installed on the first floor, along with an arts and crafts center.

SHOP AND STORAGE BUILDING. This structure is a modern brick building adjoining the laundry. It is used for shop and storage purposes, making it possible to concentrate the maintenance equipment and services here.

HEATING PLANT. The Heating Plant, situated on the northwest corner of the campus, has been greatly enlarged and fully modernized to take care of the increased needs of the new college buildings. A large addition, costing \$600,000, was completed in September 1963. The increased boiler capacity will supply heat for new buildings in the proposed Campus Plan.

COLLEGE COMMONS. The College Commons, a dining hall, was completed in December, 1956, at a cost of more than \$500,000. The oakpaneled hall accommodates 800 students, who dine at tables with space for eight. A continuous glass wall on the south side of the building creates a light and airy atmosphere. The latest type of refrigeration and food handling equipment has been installed in the modern tiled kitchen and accompanying storage rooms. A subway connects the College Commons with the women's dormitories.

28 Bloomsburg State College

LIBRARY. The Library, moved to its present site in the spring of 1958, is located on the first floor of Waller Hall, opposite the main entrance. It now has nearly 70,000 volumes of fiction, non-fiction, and bound magazines, in stacks which were planned for a 100% increase. It also has a good collection of newspapers, periodicals, pamphlets, and pictures. The seating capacity is well over 100. Additional facilities of 30,000 volumes are available at the Bloomsburg Public Library. The college has recently entered into a cooperative arrangement with Town officials permitting joint use of this institution.

NEW NORTH HALL. The new dormitory for men, with accommodations for 200 students, has a number of special features, including lounge and recreation rooms, administration rooms, laundry room, and an apartment for the Dean of Men. Its attractively decorated bedrooms are furnished with single beds, bureau, study table and lounge chairs. Built-in closets provide space for clothing and other personal effects.

WILLIAM BOYD SUTLIFF HALL. William Boyd Sutliff Hall, a new classroom biulding adjacent to Centennial Gymnasium, has fourteen classrooms, plus faculty offices. The first floor houses classrooms, laboratories for chemistry, physics, botany, zoology, survey physical science and biological science, and geography. Eight specialized classrooms on the second floor are used for instruction in business education. The offices of the Directors of the Business Education Division and the Graduate Studies Division are also located on the second floor.

EAST HALL AND WEST HALL. Two new dormitories, East Hall and West Hall, with accommodations for 492 women were occupied for the first time in September, 1964. Each residence hall, divided into two wings, is four stories high with fully automatic, hydraulic elevators. Special features include large recreation rooms, lounge areas on each floor, post office boxes, intercommunication systems, storage areas for luggage, and well-furnished study rooms. Each dormitory has offices and living quarters for a dean or resident counselor.

Student rooms are tastefully furnished with single beds, bureau, built-in desks, bureaus, and closets, providing space for clothing and personal effects.

BLOOMSBURG PLANS FOR THE FUTURE

A two-phase plan for the development and expansion of Bloomsburg State College has been announced by Dr. Harvey A. Andruss, President of the College. President Andruss outlined the phases of the plan which will accommodate an enrollment of 3,000 students by 1970.

To prepare for this anticipated increase in student enrollment, the General State Authority has purchased the Bloomsburg Country Club property at a cost of \$100,000 and the Dillon homestead adjoining the present athletic field on Mt. Olympus at a cost of \$50,500. Other residential properties contiguous to the present campus will be purchased as soon as they become available.

A campus plan, developed by President Andruss and approved by the Board of Trustees, represents the college of tomorrow at Bloomsburg, which is expected to accommodate 3,000 students on the present campus by 1970. It provides for a living area in which all dormitories, dining rooms, heating plant, maintenance building, laundry, and administration buildings will be located. The Learning Area will include laboratory schools, classroom buildings, library and present gymnasium. A field house and playing fields, including a quarter-mile track, will be built in the Recreational Area on the east campus.

The newly-purchased Country Club property will be used for a second campus, and plans are now being developed for the beautiful hilltop site. It is believed that this campus will accommodate an additional 2,000 students in a lower (two-year) division program of studies.

New North Hall, the first of three new men's dormitories, was opened in September, 1960, housing 200 male resident students. Old North Hall will be razed to provide a site for a second Men's Dormitory for 300, located adjacent to the present College Commons. Waller Hall and Noetling Hall will be demolished so as to provide a dining hall and community activities center, facing East Second Street. In time, a third women's dormitory will be located around the site of the present Science Hall. East and West Halls were occupied for the first time in September 1964.

Carver Hall will continue to be used as an Administration Building, while a new auditorium to seat 2,000 students will be constructed at the end of Spruce Street, with the rear of the building facing Light Street Road.

30 Bloomsburg State College

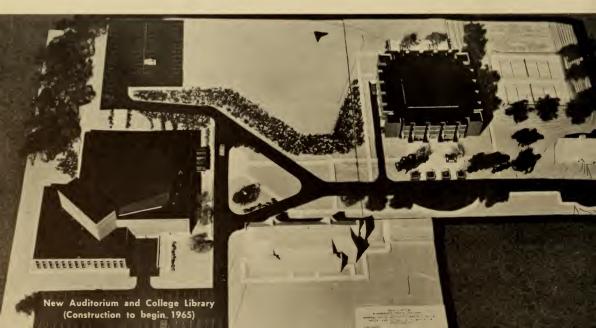

Bids were received in late 1964 by the General State Authority for the construction of the new auditorium to seat 2,000 persons and a new library to shelve 200,000 volumes. Each building will cost approximately \$1,400,000 and will provide much-needed accommodations for a steadily increasing enrollment. Construction of a second men's dormitory to house 300 students will also get under way during 1965 with an allocation of \$1,200,000 provided by the General State Authority.

In order to provide more adequate facilities for intramural and varsity athletics and recreation, a new athletic field will be built east of Mt. Olympus at an estimated cost of \$591,000. Construction is expected to begin early in 1965, although no completion date has been set.

The College has also been advised by the Department of Public Instruction that a sum of almost \$2,500,000 has been approved in the proposed capital budget for 1965-66 for the construction of a new science building and a third men's dormitory to accommodate 300 students.

Other buildings which will need to be constructed in the more distant future are an additional Maintenance Building and a field house.

A student capacity of 3,000 assumes that dormitories will accomodate 1,800 students, while off-campus students living in the Town of Bloomsburg and those commuting to the campus each day will number about 1,200.

UNIFORM FEES, DEPOSITS, AND REPAYMENTS IN PENNSYLVANIA STATE COLLEGES

(Subject to Change without Notice)

I. Community Activities Fee

A fee to be determined by each institution will be collected from all students and administered under regulations approved by the Board of Trustees through a cooperative organization. This fee will cover the cost of student activities in athletics, lectures, entertainments, student publications, accident insurance, et cetera; provided, that students taking extension courses, or regular session students taking less than nine credit hours, may secure the benefits of the Community Activities Program by the payment of the Community Activities Fee.

II. BASIC FEES

- 1. Semester of eighteen weeks:
- (a) A basic fee for each student in each curriculum is charged as follows:

	Regular	Special	Totals
Elementary Education	\$125.00	(none)	\$125.00
Secondary Education	125.00	(none)	125.00
Business Education	125.00	\$12.00	137.00
Special Education	125.00	10.00	135.00
Arts and Sciences	150.00	(none)	150.00

SEMESTER FEES

This fee is fixed by the Board of Trustees as necessary for the proper operation of the College as provided in Section #2008 of the School Laws of Pennsylvania.

- (b) Students taking nine or less credit hours shall pay at the rate of \$12.50 per credit hour (Teacher Education); \$15.00 per credit hour (Arts and Sciences); students taking ten or more credit hours shall pay the regular basic fees; basic fees for special curriculums shall be pro rated on the basis of an eighteen credit hour load.
- (c) Students taking extension courses shall pay at the rate of \$12.50 per credit hour (Teacher Education); \$15.00 per credit hour (Arts and Sciences); provided that the regular fees for special curriculums shall be pro rated on the basis of an eighteen credit hour load.

32 Bloomsburg State College

2. Summer Sessions:

- (.a) \$12.50 per credit hour (Teacher Education); \$15.00 per credit hour (Arts and Sciences); out of state students, \$20.00 per credit hour. (See paragraph VI—Fees for Out-of-State Students). A minimum fee of \$37.50 will be charged for Pennsylvania students and \$60 for out-of-state students.
- (b) In addition to the above fees, students in the special curriculums will be required to pay a fee to cover the cost of materials, supplies, equipment, and special services used in the laboratories, or clinics of the special curriculums.

Business Education Fee—\$2.00 per three week session. Special Education Fee—\$5.00 per three week session.

- (c) Students enrolled for periods of instruction differing from the schedule, pay fees in addition on a pro rata basis of the schedule of fees provided for the regular three weeks summer session.
- III. HOUSING FEES
 - 1. Housing rate for students shall be \$153.00 per one-half semester and \$51.00 for a three-weeks Summer Session. This includes rooms and meals.
- (a) Students expecting to occupy dormitory rooms in September must pay \$153.00 (one-half of the housing fee for a semester) before August 15. The remainder, \$153.00, may be paid before November.
- (b) For the purpose of meeting the requirements in those colleges where off-campus rooming students board in the college dining room, the housing rates shall be divided as follows: \$8.00 for room and \$9.00 for table board.
 - 2. Housing rates for employees other than those included in the State Classification Schedule (faculty, clerks, and others) shall be \$15.00 per week.

3. The rate for transient meals and lodging shall be:

Breakfast, \$0.60; Lunch, \$0.85; Dinner, \$1.25; Room, \$1.50.

IV. DAMAGE FEE

Students shall be rosponsible for damages, breakage, loss, or delayed return of college property.

V. INFIRMARY FEE

After three days in the college infirmary, students shall be charged an additional \$1.00 for each day in excess of that period.

Day students who may be admitted to the infirmary shall pay board at the rate of \$2.00 a day. This charge includes the regular nurse and medical service, but does not include special nurse or special medical service.

VI. FEES FOR OUT-OF-STATE STUDENTS

Students whose legal residence is out of the State of Pennsylvania shall be charged at the rate of \$20.00 per semester hour of credit.

If out-of-state students are enrolled in a special curriculum, they shall pay the special fees as found in II, 1-a, in addition to the regular fee of \$20.00 per semester hour of credit, as stated in the preceding paragraph.

VII. DEGREE FEE

A fee of \$5.00 shall be paid by each candidate for a degree to cover the cost of diploma.

VIII. RECORD OF TRANSCRIPT FEE

One dollar (\$1.00) shall be charged for the second and each subsequent transcript of records.

IX. DELINQUENT ACCOUNTS

No student shall be enrolled, graduated, or receive a transcript of his record until all previous charges have been paid.

X. Fee for Late Registration and Late Payments

Each student registering after the date officially set for registration shall pay an additional fee of \$1.00 per day until the student is in regular attendance in accordance with the regulation of the Board of Presidents, provided that the total amount of Late Registration Fee shall not exceed \$5.00, except when because of illness or any other unavoidable causes, permission for late registration has been secured in advance from the President. The same regulations shall apply to approved inter-semester payments and all checks returned by the Commonwealth for reason of "insufficient funds." 34 Bloomsburg State College

XI. Schedule Change Fee

A \$2.00 fee for students, who, once they have conferred with the scheduling officer and have decided on their schedule, change their class schedules for personal or other considerations.

XII. SPECIAL CLINICAL SERVICES

1. Diagnostic evaluation of reading skills which includes selected standardized reading tests, Lavell Hand-Eye Co-Ordination Test, and telebinocular examination—\$15.00.

2. Reading Clinic Services daily for one hour for a six-week period -\$20.00.

For the regular semesters of the college year effective Second Semester 1962-1963:

- 1. Diagnostic evaluations of reading skills-\$15.00.
- 2. Reading Clinic Services twice a week per semester-\$25.00.

B. DEPOSITS (Subject to Change without Notice)

Advance Registration Deposit

An Advanced Registration Deposit of \$50.00 shall be made by all new students; \$10.00 of this amount shall be paid when the student requests registration. It is deposited with the Revenue Department to the credit of the Student's Basic Fee. It is not repayable.

When a student is approved for admission to college, the remaining \$15.00 of the Advanced Registration Deposit of \$25.00 shall be collected, along with the Community Activities Fee of \$50.00 for the year.

Returning students shall pay Advanced Registration Deposit of \$50.00 to Community Activities Fund.

REFUND AND REPAYMENT POLICY

The advance registration deposit will not be refunded to any student who has been accepted by the Director of Admission for admission, or to any student who is temporarily suspended, indefinitely suspended, dismissed, or who voluntarily withdraws from college. A repayment will not be made except for personal illness, which is certified to by an attending physician, or for such other reasons as may be approved by the Board of Trustees.

If any fees other than the Activities Fees are paid by Bank Drafts, Post Office Orders, or Checks, they must be made out for the exact amount which is being paid, and drawn payable to the order of the Commonwealth of Pennsylvania. All Post Office Orders paying such fees must be drawn on the Post Office at Harrisburg, Pennsylvania. If the Activities Fee is not paid in cash, a separate order must be drawn payable to "Community Activities." Post Office Orders for these fees must be drawn on the Post Office at Bloomsburg.

Students who meet the admission requirements of the college, but who do not report at the beginning of the semester, will not receive a repayment of these advanced deposits. However, they may receive a repayment of the Community Activities Fee of \$50.00, and returning students who have made preliminary enrollment deposits to Community Activities may receive a repayment of that fee, if they make written application to the Business manager of the College before September or December of the semester when they expect to enter.

Any other inquiries relating to fees should be addressed to Mr. Paul G. Martin, Business Manager, Bloomsburg State College, Bloomsburg, Pennsylvania.

C. NO OTHER FEES OR DEPOSITS PERMITTED

No fees or deposits, other than as specified above, may be charged by a State College.

D. REPAYMENTS

- I. REPAYMENT WILL NOT BE MADE
- 1. To students who are temporarily suspended, indefinitely suspended, dismissed, or who voluntarily withdraw from college for any cause whatsoever.
- 2. For any part of the advance registration deposit for any cause whatsoever.
- II. A REPAYMENT MAY BE MADE FOR personal illness, the same being certified to by an attending physician, or for such other reasons as may be approved by the Board of Trustees for the amount of the housing and contingent fees paid by the student for that part of the semester which the student does not spend in college.

SUMMARY OF EXPENSES

(Subject to Change without Notice)

The cost of one semester for students living at

	Home	College
Basic Fee (Teacher Education)	\$125.00	\$125.00
Arts and Sciences	150.00)	(150.00)
Housing Fee (Board and Room)	(none)	306.00
Community Activities Fee	25.00	25.00
Books and Supplies (Estimated)	60.00	60.00
- Total	\$210.00	\$516.00
(\$235.00)	(\$541.00)

Business students pay \$12.00 additional.

Special Education Students pay \$10.00 additional.

Out-of-state students pay \$20.00 per semester hour of credit.

At the time of application new students are furnished with a summary of estimated expenses for the current college year. The payment of all fees is due as directed by the Business Office. The college reserves the right to withhold all information regarding the record of any student who is in arrears in the payment of fees or other charges, including student loans. The college does not offer a time payment plan, and students living in college residence halls are required to pay one-half of the semester housing fee before August 15, the remainder must be paid before Novmber 1.

A billing statment of student accounts will be mailed prior to registration each semester. All accounts must be paid as directed by notice which accompanies the billing statement. Failure to comply with this requirement will eliminate a student from registration. *Keys*

Each student secures a room key or locker lock for \$1.00. This deposit is refunded when the key or lock is returned.

Baggage

Incoming baggage should be clearly marked with the owner's name and "Bloomsburg State College, Bloomsburg, Pennsylvania."

Guests

Arrangements for room guests at Waller Hall and North Hall must be approved by the Dean of Women or the Dean of Men. The guest rates are as follows: Breakfast, \$0.60; Luncheon, \$0.85; Dinner, \$1.25; Room, \$1.50.

Books and Supplies

Books and supplies are estimated at \$60.00 for each semester. (Costs for Freshmen may be slightly higher.) Students may secure books and supplies at the College Store. This store is operated on a cash basis.

College Banking

The Business Office is prepared to handle deposits of cash for students in order that they may secure small amounts of money at convenient times.

OTHER REGULATIONS

Notice of Withdrawal

Students leaving the college *must* notify the Office of the Dean of Students and the Office of the Dean of Instruction of their withdrawal. Regular charges will be made until the notice of withdrawal is forwarded to the Business Office by the Dean of Instruction.

Physical Education Equipment

Students must wear regulation uniforms for all physical education classes. These are to be purchased in the College Store after the student arrives at College, in order that the outfits for the group may be uniform in style and color.

Laundry

The College has discontinued personal laundry service with the exception of bed linens which are supplied by the College Laundromats are available in New North Hall and in the community. Commercial laundry service is available in the town of Bloomsburg.

Student Residence

Students not living at home and not working in homes approved by the college, *must live in the dormitories if rooms are available*. They must not leave dormitory rooms vacant before the end of the semester.

Residence on Campus

Each dormitory room is furnished with double-decker or single beds, mattresses and pillows, dressers, study table and chairs. Sheets, pillow cases, and white spreads are furnished for the beds.

Students must provide the following equipment:

- 1. A mattress pad for mattress 36 by 75 inches.
- 2. A cloth or plastic cover for pillow 21 by 27 inches.
- 3. Blankets or bed comforters.
- 4. Towels.

5. A large laundry bag (sold at College Store) plainly marked with the student's name. All clothing and other articles to be sent to the college laundry must be marked with woven name tapes (women students), and hotiron transfer tape or woven name tapes (men students).

- 6. Metal wastebasket.
- 7. Study lamps. (approved by college)

Resident Students Living Off Campus

In situations where dormitory housing may not be available, upon notification from the College, students are required to select off campus rental accommodations from lists of College inspected and approved rooms and apartments in the Town of Bloomsburg. Lists of approved off campus housing may be obtained from either the Dean of Men or the Dean of Women.

Each resident student living off campus is required to enter into a written agreement with his householder or landlord covering the period of proposed tenancy, using Student Housing Agreement forms provided by the College.

It is expected that resident students living off campus will conduct themselves with the same decorum expected of other resident students and that they will comply with the house rules and regulations of their householders or landlords.

An assistant to the Dean of Men and an Assistant to the Dean of Women supervise the housing of resident students living off campus.

Commuting (Day) Students

Dayroom facilities are provided for women and men students who do not live on the campus or in off campus rental housing approved for resident students. The women's day room is located in temporary quarters in the lower level of the Curriculum Materials Center in the Benjamin Franklin School. Comfortable lounge furniture provides for rest and relaxation. Locker space and facilities for study are also available.

The men's day rooms are on the basement floor of Science Hall. The spacious lounge has facilities for study, recreation, lunch, and storage.

TYPES OF STUDENT ASSISTANCE

EMPLOYMENT POLICY

- 1. Application (based on need) for student assistance will be filled out by the student seeking employment and filed with the Dean of Students.
- 2. Hourly rates of payment will range from \$.50 to \$.80.
 - (a) Payments to entering students will range from \$.50 to \$.65.
 - (b) College dining room and kitchen employment will be paid at rates of \$.65 to \$.75 per hour.
 - (c) Specific recommendations shall be made by the supervising employee to the Dean of Students for rates in excess of those set forth above.
- 3. Responsibilities of supervisors of student employment.
 - (a) An evaluation of each student employee shall be made by his supervisor in the following terms:
 - 1. Very satisfactory.
 - 2. Satisfactory.
 - 3. Unsatisfactory, with appropriate comment.

The lower part of the application form will be detached so that it may be placed in the student's personnel folder in the office of the Dean of Students at the end of each college year until the Senior Year, when it will then be transferred to the Placement Folder of the graduating student.

- (b) Those who certify student payrolls and supervise student employes have authority to terminate the employment of any student who consistently refuses to conform to the standards set up by the supervisor. However, the Dean of Students shall review all cases in terms of future employment.
- 4. Responsibilities of student employees.
- (a) Student employees are expected to maintain standards of performance which include punctuality, attendance, and satisfactory discharge of the duties assigned.
- (b) Each student employee is entitled to have one week-end off each month if his assignment involves duties on Friday, Saturday, or Sunday. If an employee expects to absent himself for

more than one week-end a month, he must advise his immediate supervisor one week in advance, and if the work schedule permits, the supervisor may change his work schedule. In the event the work schedule is interrupted by absence of more than one week-end a month by the student employee, he must secure a qualified substitute, satisfactory to the supervisor, and present these arrangements for approval before his absence.

- 5. Household work in private homes in Bloomsburg is sometimes available for students. This work may be secured with the help of the college or of friends. These homes must be approved by the Assistant to the Dean of Men or Assistant to the Dean of Women. Students should contact the Dean of Students for information.
- 6. Other employment is available from time to time through the requests that reach the Dean of Students who will post a general announcement to the student body, and will arrange for interviews between students and prospective employers.

Scholarships

1. The Alumni Association offers scholarships ranging from \$50.00 to \$100.00 per year, depending upon demonstrated need and ability of the student. Application blanks may be secured from the Dean of Students, and preference is given to worthy Freshmen and Sophomore students. Selection is made by the Faculty Scholarship Committee and approved by the President of the College.

2. College Community Scholarships, payable from profits of the College Book Store and Husky Lounge Snack Bar, are administered under the same general policy as stated for Alumni Scholarships.

3. The Shuman Award is given to an outstanding Freshman, Sophomore, or Junior athlete. The candidates must have a 2.3 quality point average for the previous semester and a 2.0 cumulative average. He must be of good moral and ethical character, show emotional stability, and indicate that he will be a reliable member of the teaching profession.

4. Other scholarships are the Bruce Albert Memorial Scholarship of \$120.00; the President's Scholarship of \$100.00; Rhodes Scholarship of \$200.00; Lucy McCammon Scholarship of \$200.00; Faculty Association Scholarship, \$100.00; B.S.C. Columbia County Alumni Association; Day Men's Association; Men Residents' Scholarship. Dean William Boyd Sutliff Memorial Scholarship. The Bloomsburg Parent-Teacher Association also awards scholarships from time to time to college students. Recipients of these scholarships are selected according to college policy.

5. None of these scholarships is available to students prior to the first nine-weeks grading period of any college year.

LOAN FUNDS

1. The Alumni Loan Fund is available to Junior and Senior students. Information may be secured from the Dean of Students. The amount loaned to any one person may not exceed \$1000.00, and loans are to be repaid in monthly installments of not less than \$20.00, beginning four months after graduation. No interest is charged on such loans.

2. The Kehr-Ward Fund is available for loans not exceeding \$50.00 (strictly an emergency loan). This fund was established in memory of Miss Irma Ward by the Alumni who worked in the Dining Room while she was College Dietician from 1924 to 1939. These loans are repayable within the college year in which they are made.

3. The Bakeless Memorial Fund resulted from an initial contribution to a loan fund in memory of Oscar Hugh Bakeless and his wife. An equal amount raised by the College Community will be included in this loan fund, which is available to any student meeting the requirements of general loan fund policies set by the Alumni Student Loan Fund Committee.

FEDERAL LOANS

The National Defense Student Loan program operates under regulations promulgated by the National Defense Education Act of 1959. The U. S. Congress makes special appropriations to the Department of Health, Education, and Welfare, part of which is allotted by the Secretary for loans to needy students preparing to teach in the public schools of the United States.

The allotment to BSC is supplemented by the profits from the College Book Store. Applicants for loans are required to sign a loyalty oath and promissory note. Under present administrative policy, a student may secure no more than \$750 a year from this fund.

Repayment of loans begins one year after the student finishes or withdraws from college. Ten yearly payments at 3% interest annually are required. Those persons teaching in Public Schools for five years following graduation will have half of the loan forgiven.

ADMISSION REQUIREMENTS

Following is a statement of the general policies controlling admission regulations. Enrollment is conditional until the applicant has met all the requirements set forth in the following statements:

A — Admissions

1. General scholarship as evidenced by graduation from an approved secondary school or equivalent preparation as determined by the Credentials Evaluation Division of the Pennsylvania Department of Public Instruction. College authorities will make an appraisal of the student's detailed secondary school record in order to determine his capacity to do satisfactory college work. In all cases the college shall seek further evidence from the results of the Scholastic Aptitude Test of the College Entrance Examination Board. Arrangements for taking this test are left to the applicant.

2. Satisfactory character and personality traits as well as proper attitudes and interests as determined by the high school principal, guidance director, or other school officials acquainted with the student.

3. Health and physical condition as evidenced by a health examination by the student's family physician reported on a prescribed form and approved by the college physician. No student shall be admitted who has, in the opinion of the college, disabilities which would impair his ability to pursue a normal college program.

4. Recommendations of two or more college staff members following a personal interview with the applicant.

5. For admission to special curricula, the college may require the candidate to take an appropriate aptitude test in the special field in order to obtain further evidence of ability to succeed in the student's chosen field.

B - Testing

1. To assist in the counseling of students, the college may require each freshman to take such other tests as the College Deans advise.

2. In order to determine the student's achievement for further guidance the college may administer to all sophomore students a battery of achievement tests. A careful study of each individual student by selected faculty members is recommended before the end of the sophomore year.

3. In order to measure the academic success of the student, as well as the effectiveness of the instructional program of the college, the college may administer a standardized terminal test.

C - Revision

1. The testing and admissions program shall be reviewed annually in January of each year, and proposed changes may be submitted to the Board of Presidents for consideration at that time.

STUDENTS ENROLLING FOR FIRST TIME NOTE CAREFULLY:

A. ALL NEW APPLICANTS must have the following blanks sent by the person indicated directly to the college in advance of (a) the personal conference, (b) the medical examination, and (3) the written examination.

- 1. By the applicant application for admission.
- 2. By a physician report of the physical examination.
- 3. By the high school principal high school record and evaluation.

These blanks will be forwarded to applicants on request. Personal conferences may be had by arrangement with the Director of Admissions. These personal interviews may be arranged for any day from 9 A.M. to 5:00 P.M., and Saturday 9:00 A.M. to noon.

The credit unit on which entrance qualification is based represents not less than 120 sixty-minute periods of prepared work or the equivalent.

VETERANS AT BLOOMSBURG

The educational opportunities for Veterans authorized by Public Law 550 (Korean Veterans), and, in special cases Public Laws 16 and 894, are available. The College is cooperating with the Veterans' Administration in offering the regular degree curriculums to those desiring to teach in the fields of elementary, secondary, business, or special education.

Graduates of approved four-year high schools are admitted to these educational programs upon application, in conformity with the established entrance requirements.

Veterans who are not graduates of four-year high schools may be admitted to the College under certain provisions as set forth in Bulletin 1, *The Pennsylvania Plan for Evaluation of Secondary Credentials, for Examin*- ations and for the Issuance of the High School Equivalent Diploma under Act Number 212, Approved May 15, 1945, issued by the Department of Public Instruction, September 7, 1945. Veterans who desire information should contact the Director of Admissions to determine whether or not they are eligible for admission under this plan.

To qualify for educational benefits under the G.I. Bill of Rights, all Veterans are required to present a *Certificate for Education and Training*, secured from the nearest Regional Veterans' Administration Office, at time of original registration.

The College does not accept credits for courses taken under the United States Armed Forces Institute Program, but credits earned in residence or in extension work at accredited colleges or universities will be evaluated for transfer by the Dean of Instruction. All evaluations are tentative until the student has been in residence for one semester.

ACADEMIC REGULATIONS

SCHEDULING CLASSES

The installation of IBM data processing equipment has enabled the college to perform certain routine administrative tasks with greater efficiency. Prior to the beginning of each semester, the student prepares a class schedule with the help of a faculty advisor. After this schedule has been approved by the divisional director involved, it will be printed in the IBM Center and handed to the student at registration. Any changes in this schedule must be approved by the Dean of Instruction. At the end of each grading period, members of the faculty record grades on IBM course cards, which become the basis of the permanent record of each student.

PROVISION FOR SUPERIOR STUDENTS

A student whose work for a semester average 3.0—"B," or above may petition the Dean of Instruction for approval to schedule course work in addition to that normally scheduled for that semester (16 credit hours).

TRANSFERS AND EVALUATIONS

Students wishing to transfer to this college may be candidates for admission only if:

1. They have been in attendance at other colleges for four semesters or less.

2. They have a record of honorable dismissal or completion of their work at other colleges with a quality point average of C-plus or better.

3. They have no evidence on their record of having been on social or academic probation at other colleges.

A student seeking from another college must present a letter of honorable dismissal and a complete record of the work taken at his former college. These records shall be sent directly from the college to the office of the Director of Admissions.

The applications of students meeting the above qualifications will receive the same consideration as those of other new candidates, but the applicant must demonstrate better--than-average results on the S.A.T. portion of the C.E.E.B. examinations and have personal characteristics pointing to success as a Bloomsburg student.

The quota of transfer students is not to exceed 10% of any entering group.

In evaluating and crediting the work of a student transferring from another college, credit shall be given only for work having a grade one letter point or the equivalent above the lowest passing grade of the institution from which the student is transferring.

All evaluations are made by the Dean of Instruction and are subject to change according to any revisions made in the requirements for graduation.

Advanced credit will be given for equivalent courses in accredited institutions of college grade, but no student may obtain a Bachelor of Science or Bachelor of Arts degree at Bloomsburg without a minimum residence of one year in the curriculum in which the student intends to graduate. Students desiring to take work at any other institution must make written application to the Dean of Instruction for approval in advance. Otherwise credits may not be accepted. *Correspondence courses are not offered or accepted by this college*.

PROGRESS REPORTS AND RECORDS

For the purpose of reporting the progress of each student, each semester is divided into periods of nine weeks. During each period the instructor hands to the Dean of Instruction a special deficiency report at any time the student is not doing satisfactory work. At the end of nine weeks a complete grade report is made to the parents of each student. At the end of the semester final grades are reported, recorded upon the permanent progress card of each student, and filed. The report is then sent out as before. Any parent not receiving such a report at the end of the eighteen weeks' period should notify the Dean of Instruction so that a duplicate may be mailed.

SYSTEM GRADING

The system of grading used at this college and its interpretation is as follows: A — very high; B — high; C — average; D — low; E, failure involving repetition of the entire course. W — a withdrawal, approved by the Dean of Instruction while the student is passing the course. Incomplete work not handed in, or material does not satisfy the instructor's standards or the course requirements. Condition — work which, although sufficient in quantity, is of such a quality as not to warrant the giving a grade of E or failure, but may if certain conditions are met result in a passing grade.

QUALITY POINT SYSTEM

For each semester hour A carries 4 quality points. For each semester hour B carries 3 quality points. For each semester hour C carries 2 quality points. For each semester hour D carries 1 quality point. For each semester hour E carries 0 quality points. A grade of W is not considered in computing quality points. Incomplete is not considered in computing quality points. Condition is not considered in computing quality points.

To be graduated, a student must have not less than an average of 2.0 quality points.

REMOVAL OF "CONDITIONS" AND "INCOMPLETES"

Each instructor listing a condition or an incomplete at the end of a semester shall file with the Dean of Instruction a detailed statement of the steps to be taken by the student for the removal of such condition.

A printed form (blue) must be secured at the office of the Dean of Instruction to be used when a condition or an incomplete has been removed. It is the responsibility of the student to have this form signed by the instructor removing the condition, and to present it to the Dean of Instruction for recording.

If the condition is not removed within one calendar year, the grade automatically becomes an E and the course must be repeated. This is also true of the grade "Incomplete."

PRE-REQUISITES FOR STUDENT TEACHING

A student is eligible for assignment to student teaching if he has attained a quality point average of 2.0 in not less than 90 credit hours.

Residence Required for Graduation

The minimum period of residence at this college is one year or its equivalent. Former students certified for teaching by having completed two or three years of college work who are candidates for the Bachelor of Science Degree in Education, must complete at least one-half of the remaining work required for the degree in residence at Bloomsburg. Residence credit may be earned in the classes of a regular semester, in summer school, or in Saturday classes for teachers-in-service.

Requirements for Graduation

The conferring of the degree of Bachelor of Science in Education, or any other degree which the Bloomsburg State College is authorized to grant, and the Application for the Pennsylvania Teaching Certificate require the following:

- 1 Completion of 128 semester hours of credit in a specified undergraduate curriculum, or 30 hours of graduate credit in courses required for the degree of Master of Education.
- 2 A condition of health and physical fitness, which assures teachers for the Commonwealth of Pennsylvania who will possess the vigor and vitality necessary for this profession.
- 3 Emotional stability, as evidenced by active participation in college social and academic activities.
- 4 Personality traits considered by the college to be adequate for a member of the teaching profession.
- 5 High moral and ethical standards of conduct.

The college reserves the right to withhold the degree or the application for a certificate to teach in the Commonwealth of Pennsylvania if one or more of these conditions for graduation are not met.

Academic Regulations 49

All candidates for degrees are individually responsible for meeting all the requirements for graduation outlined above.

ACADEMIC PROBATION

At the end of each grading period a student who has a quality point average of less than 2.0 will be placed on probation until the next grading period. If at the end of that grading period he has not attained a 2.0 average, he may be given an opportunity to meet with a faculty committee composed of the director of his curricular division and a minimum of three instructors who have taught or are currently teaching the student.

The purpose of this kind of meeting is two-fold (1) to enable the student to determine the causes of his apparent failure, (2) to enable the faculty committee to assess the professional interest and promise to the student, and to determine whether or not the student will be able to profit educationally by remaining in college. The action of any faculty committee is subject to the approval of the Dean of Instruction and the President of the College.

The privilege of meeting with a faculty committee will be extended to a student only one time during his attendance at the college unless extenuating circumstances should warrant a second conference.

PLACEMENT TESTS

Every new student entering Bloomsburg State College required to take a battery of tests covering English, reading, social studies, science, mathematics, and contemporary affairs. The results of the tests are converted into percentiles, both local and national, and are projected on a graph called a profile. These profiles are available through the office of the Dean of Students. Every student is given an opportunity to go over his profile, noting the area of his strength and weakness. He sees himself in relation to the group of students entering Bloomsburg State College, as well as to the national group of students entering liberal arts colleges and pre-professional schools.

CHANGE IN CURRICULUM

In order to change his curriculum, a student must obtain permission in writing from the directors of the curriculums involved, and present this request to the Dean of Instruction whose approval is required before the change in curriculum becomes effective. All requests must bear the signature of the applicant's parents.

STUDENT TEACHING

AN OVERVIEW

Faculty and administration of Bloomsburg State College consider the student teaching assignment to be the culmination of four years of pre-professional education leading to teacher-certification. For this reason, an entire semester of the academic program for each student is reserved for student teaching. A student teaching assignment requires that the student spend the entire day from Monday through Friday in supervised educational activities in public schools, for the duration of one semester. In addition to receiving twelve semester hours of credit for student teaching, the student teacher is also enrolled in Professional Practicum and receives in addition, two semester hours' credit for satisfactory participation. Professional Practicum may be scheduled on or off the college campus.

In order to orient student teachers more effectively to public school programs, the calendar of schools to which they are assigned is followed. However, the college calendar will determine opening and closing dates for student teaching assignments.

STUDENT TEACHING CENTERS

In meeting its responsibility for providing high quality graduates for the teaching profession, the college carefully selects student teaching centers and cooperating teachers. Each curricular division of the college has centers established as follows:

Division of Business Education

Student teachers are assigned to the following schools: Louis Dieruff Senior High School, Allentown; William Allen High School, Allentown; Liberty Senior High School, Bethlehem; Easton Area Senior High School, Easton; Berwick Senior High School, Berwick; Bloomsburg Area Senior High School, Bloomsburg; Central Columbia Junior-Senior High School, Espy; Danville Senior High School, Danville; Milton Senior High School, Milton; junior high schools in Bloomsburg, Danville, and Berwick are also utilized.

Division of Elementary Education

School districts which are cooperating in the student teaching program are Berwick Area Joint Schools, Bloomsburg Area Joint Schools, Selinsgrove Area Joint Schools, Danville Area Schools, and Sunbury Area Schools. The Benjamin Franklin Laboratory School on campus also serves as a center for student teachers.

Division of Secondary Education

Cooperating with this division in the preparation of student teachers are the Berwick Area Joint High School, Berwick; Central Columbia Joint High School, Espy; Bloomsburg Senior High School, Bloomsburg; Danville Senior High School, Danville; Milton Senior High School, Milton; Council Rock High school, Newtown; Bristol High School. Bristol; Warrior Run Joint Senior High School, Watsontown, R.D.; Southern Area Senior High School, Catawissa, R.D.; Sunbury Area Senior High School, Sunbury; four senior high schools and four junior high schools in Pennsbury, Bensalem Township, and the Bristol-Delhaas School Districts in Bucks County.

Division of Special Education

Student teachers in Special Education are assigned to the Selinsgrove State School and Hospital and to the public schools of Lycoming, Schuylkill and Montgomery Counties through the offices of the superintendents of those counties.

As greater numbers of students are assigned to student teaching through increased enrollment, other centers will be developed. A student may be assigned to a school district or county for an entire semester, or he may be re-assigned in mid-semester to other school districts or counties.

College Laboratory School Facilities

The Benjamin Franklin Laboratory School on the campus houses a kindergarten, and grades one to six inclusive. An Elementary Education curriculum materials center was completed in 1964.

COURSES FOR IN-SERVICE TEACHERS

Course work for teachers-in-service is resident work so that all the facilities of the college, such as the library and laboratories, are available for the use of the student. Classes generally meet Saturday mornings.

The possibility of offering any course is dependent upon two things: first, the demand of teachers-in-service for the course; and, second, the availability of the faculty instructor.

Regular members of the faculty will teach the courses. A fee of \$12.50 is charged for each credit hour. In accordance with the certification regulations of the Department of Public Instruction, six (6) credit hours per college semester is the maximum amount which may be taken by a regularly-employed teacher.

PROGRAM OF GRADUATE STUDIES

The Bloomsburg State College is authorized by the State Board of Education of the Commonwealth of Pennsylvania to offer a program of graduate studies in Business Education, Elementary Education, Special Education (mentally Retarded or Speech Correction), English, and Social Studies, including Geography.

Upon completion by a student of the requirements established by the Graduate Council of the College, the Master of Education degree in Business Education, Elementary Education, English and Social Studies, including Geography will be conferred. The program of graduate studies has as its primary purpose the increasing of the comptency of elementary school teachers, teachers of business subjects, special class teachers, speech correctionists, English, Social Studies and Geography teachers in Pennsylvania.

Persons desiring to enroll in graduate courses must file an application for admission and meet the requirements established by the Graduate Council. Students wishing to earn the Master of Education degree must, in addition, request admission to candidacy for the degree.

The following fees are applicable to the program of graduate studies:

Matriculation Fee	0						
(Payable at time of application for admission							
to graduate courses. Not refundable or ap-							
plicable to graduate tuition.)							
Graduate Tuition Fee	0 per sem. hr.						
Activities Fee (summer term only)\$ 3.	0 per three- week session						
\$ 6.0	0 per six- week session						
Graduation and Diploma Fee\$10.0	0						

(Not including rental of cap, gown, and hood)

Detailed information relating to the program is contained in the Graduate Studies Bulletin. Requests for this bulletin, for application forms, and for additional information concerning the program should be addressed to Dr. Robert C. Miller, Director of Graduate Studies.

PLACEMENT SERVICE

A measure of a college's contribution to American education might well be the success it has in placing its graduates in the educational field. Bloomsburg is proud of its placement record. Continuous follow-up studies of graduates of the past twenty-two years indicate that practically ninety percent have taught school, and that another seven percent have been gainfully employed outside of the teaching profession.

The college maintains the Placement Service for a two-fold purpose: to serve the public schools of Pennsylvania by bringing to the attention of school officials worthy candidates for teaching positions, and to help Bloomsburg graduates secure their first teaching position.

Alumni of the college are urged to regard the Placement Service as a permanent point of contact. The office frequently has calls for experienced

teachers. Alumni should notify the Director of a change in position, of graduate work pursued, changes in his certification, new addresses, and other pertinent information.

All communications relating to placement should be addressed to Mr. Elton Hunsinger, Director of Placement, Bloomsburg State College, Bloomsburg, Pennsylvania.

SUMMER SESSIONS

The summer sessions are designed primarily to enable Pennsylvania teachers to advance professionally and to meet the certification standards approved by the State Board of Education. All of the courses offered will be on a college level, and will be of particular interest to the following:

- (1) Undergraduate qualifying for advanced standing or the removal of conditions.
- (2) Teachers-in-service qualifying for (a) advanced state certification, (b) the degree of Bachelor of Science in Education, and (c) the Permanent College Certificate.
- (3) College graduates qualifying for state certification through courses in education and student teaching.

Students attending the summer sessions may schedule as many semester hours as there are weeks in the session.

Special opportunities will be provided during the summer sessions for persons certified to teach on the secondary level to work toward certification which will include teaching on the elementary level.

The enrollment in the summer session will be limited to teachers-in-service, presently-enrolled students of the college, and others who have been in attendance at an accredited college. Students from other colleges enrolling at Bloomsburg for the first time should present evidence of having attended another college and a written statement from their college certifying that they are in good academic standing.

A copy of the current summer session bulletin will be sent upon a request addressed to the Dean of Instruction.

STUDENT PARTICIPATION IN COLLEGE GOVERNMENT

Since Bloomsburg State College is a professional institution for the education of teachers for our public schools, the college requires the maintenance of high standards in academic work, balanced programs of social and recreational activities, and opportunities for the development of initiative and leadership. The attainment of these objectives is aided by a sound health program, favorable study conditions, a good library, and supplementary social and recreational activities.

In general, these opportunities are provided through a broad program of college organizations and activities which are developed and controlled through the participation of the entire college in the Community Government Association. This organization, through the College Council, is the general control body for the various college activities. In accordance with the constitution of the Community Government Association, resident affairs are handled for women by the Association of Resident Women, and for men by the Men Residents' Council. The activities of students not living in the dormitories are handled for the women by the Day Women's Association, and for the men by the Day Men's Association. The detailed plans for student participation in college community life are presented in *The Pilot*, the college handbook, issued at the beginning of the fall semester.

Community Government Association

The Community Government Association cooperates with the administration in promoting personal and group responsibility in regulating all student affairs.

The College Council, which meets every two weeks, acts as the executive board of the Community Government Association. The presidents of the following groups automatically become members of the council: Association of Association; Day Women's Association; Day Men's Association; Men Residents, Resident Women, Senior, Junior, Sophomore, and Freshman Classes; Editor of The Maroon and Gold. The College Council administers the affairs of the association, formulates its policies, and acts upon cases involving violation of the association, formulates its policies, and acts upon cases involving violation of the regulations of the Community Government Association.

Association of Resident Women

This association is an organization of resident women. Its administrative body in the Governing Board whose members are selected from each class. The Governing Board has the responsibility of making and enforcing regulations, directing social life, and promoting the general welfare of all women students.

Day Women's Association

The Day Women's Association is an organization of women not living in the college dormitories. The governing body is the Official Board consisting of a President and Vice-President elected by the entire association, and two representatives from each class. Its purpose is to promote the general welfare of the day women, and to cooperate with the other student organizations in matters affecting the general welfare of the institution.

Day Men's Association

The Day Men's Association is an organization of men who commute from their homes to the college. The Governing Board consists of a President, Vice-President, Secretary and Treasurer. The association carries on a varied program of activities for its own welfare and for the benefit of the College community.

Men Residents' Council

The Men Residents' Council is the governing body for resident men students including unmarried men living in rented accommodations in the Town of Bloomsburg as well as those living in campus dormitories. The administrative body is composed of the President, Vice-President, Secretary, and Treasurer. By means of this organization, the men cooperate with the administration in fostering personal and group responsibilities.

EXTRA-CURRICULAR ACTIVITIES

All students are required to take part in one extra-curricular activity one semester each year in addition to assembly attendance. The students are eager to take this opportunity to train themselves in this important and interesting phase of modern school work. The extra-curricular work during the past year included the following:

Amateur Radio Club

The Bloomsburg State College Amateur Radio Club is an organization composed of students interested in the art of Amateur Radio Communication. Requirements for admission are an interest in "Ham Radio Communication," a desire to be a "ham" operator, and satisfactory standing in college.

Athenaeum Club

The purpose of the Athenaeum Club is to enable students to become acquainted with, and appreciative of, classical music.

Athletics

In addition to the required courses in physical education, men receive extra-curricular credit for football, basketball, track, wrestling, swimming, cross-country, golf, tennis, baseball and intramural participation. Women receive extra-curricular credit participating in a well-organized program of intramural and extra mural activities.

B Club

The B Club is an organization of women who have earned a given number of athletic points. The club creates an increasing interest in sports and sportsmanship.

Bloomsburg Players

The Dramatic Club provides a workshop for those who wish training in educational dramatics. It stages plays for college affairs and for the public. It has installed a chapter of Alpha Psi Omega, national honorary dramatic fraternity, on the campus.

Business Education Club

Organized in 1930 in order to give students a wider range of experiences, the Business Education Club affords all students of the Division of Business Education an opportunity to participate in an organization designed to develop professional interest in business education.

Cheerleaders

Cheerleaders, who stimulate an active interest in all sports, are chosen from members of the student body.

Chess Club

The purpose of the Chess Club is to provide students with an opportunity to play chess. The club is divided into beginners, average and experienced. All members compete for position on the college chess team, which competes with other colleges.

Circle K

Circle K is a Kiwanis affiliated organization serving the college and community. The purpose of this organization is to foster a spirit of cooperation among the members of the club in serving the college and community. Membership is open to male students.

Class Organization

For purposes of government and conduct of social affairs, the Senior, Junior, Sophomore, and Freshman Classes are organized under these officers: President, Vice-President, Secretary, Treasurer, Man Representative, Woman Representative, and Class Advisor. The last officer is a member of the faculty.

College Choraleers

The College Choraleers is composed of both men and women students of the College Community. Its purpose is to provide joyful and purposeful singing.

Council for Education of Exceptional Children, Alpha Chapter

The Council for Exceptional Children, Alpha Chapter, was organized on the Bloomsburg State College campus in February, 1960. This was the first college or university chapter in Pennsylvania to be affiliated with the state and national councils.

The purpose of this organization is to promote the welfare and education of exceptional children by coordinating the work of students enrolled in the Division of Special Education with the agencies and individuals, public and private, who are interested in the movement.

English Club

The purpose of the English Club is to stimulate interest in Literature and the Fine Arts. Membership is open to students majoring in English and to other interested students. Meetings are held twice a month and varied programs are presented: the reading of papers and informal talks by students and faculty, the playing of records, followed by group discussion, the reading and discussion of poems, plays, and novels. From time to time many of the members as a group visit neighboring cities and universities to enjoy cultural programs related to their interests.

Forensic Society

The purpose of the Forensic Society is to encourage an interest in intercollegiate debate. The club sets as its goal the formation of teams that will actively participate in debate with other colleges. Participation in oratorical and extemporaneous speech contests is a recent addition to the society's activities.

International Relations Club

The International Relations Club is an organization of students interested in current events and problems in the world today. The purpose of this club is to develop among its members an interest and a greater knowledge of national and international affairs.

Le Cercle Francais

Le Cercle Francais, organized in September 1961, is a conversational French club for the purpose of improving the pronunciation and fluency of spoken French. Membership is open to any student who has a genuine interest in the art of conversation and a sincere desire to improve in the spoken language. Students enrolled in this Club meet monthly during the college year.

Maroon and Gold Band

Consisting of seventy members, the band offers training in group and ensemble playing. The band plays at all athletic functions and other college affairs. Students with musical talent will benefit by participating in this organization.

Science Club

Members of the student body who are interested in natural and physical science constitute the group. Subjects for study and observation include the history of the various branches of science, plant and animal life, geology and mineralogy, chemistry, and physics.

Student Christian Association

Members are affiliated with the Student Christian Movement, the Young Men's Christian Association, and the Young Women's Christian Association. Through it bi-weekly meetings, vesper services, assembly programs, and a party for new students during Freshman Week, the Association aims to develop the religious and social aspects of college life.

Student Education Association of Pennsylvania

This group is an organization of students who are preparing for the teaching profession. The purpose of the organization is to promote interest in education and to familiarize prospective teachers with the problems, obligations, and opportunities awaiting them in the near future.

Varsity Club

Men who have won a major letter award in any authorized intercollegiate sport comprise the membership. All men students who have won such an award at Bloomsburg are eligible for membership.

Veterans' Association

The purpose of the Veterans' Association is to orient and educate any student about his prospective military obligations, and to keep veterans informed on all matters concerning their governmental benefits and responsibilities, past and present.

ALUMNI ACTIVITIES

A graduate of the college automatically becomes a member of the Bloomsburg State College Alumni Association upon the payment of dues. This also entitles the member to receive the *Alumni Quarterly*, a publication of the organization.

There are county groups which are fully organized and actively engaged in supporting programs of activities. Meetings are held by county prior to college reunions. Two dates are set aside especially for the Alumni: they are Homecoming Day in the fall, and Alumni Day in the Spring.

The Alumni Association supports various projects at the college, including scholarships and loans for students, and book purchases for the library.

COLLEGE PUBLICATIONS

THE MAROON AND GOLD

The college paper is published weekly by a student staff. It keeps the student body informed of current college happenings.

THE OBITER

This yearbook is published each spring by the graduating class. It contains a review of the activities of the class, with pictures of college activities, campus, students, clubs, and teams.

THE OLYMPIAN

Students publish this literary magazine. In this publication contributors will find an outlet for literary expression in the fields of poetry and prose. Unpublished work of nationally-known writers is sometimes included as a special feature.

THE PILOT

This is an annual handbook, edited by the Office of the Dean of Students, which informs students about college life at Bloomsburg. It serves as a guide to freshmen and also as an information booklet for upper classmen.

PLACEMENT BROCHURE

Annual publication of the Placement Service, this brochure contains photos of graduating seniors, plus personal data of interest to employing officers in the schools of the Commonwealth.

PROFESSIONAL FRATERNITIES

National honorary and professional fraternities which foster and advance educational ideals through scholarship, social efficiency, and moral development, have chapters on the campus.

KAPPA DELTA PI (Coeducational Honor Society in Education)

Kappa Delta Pi originated at the University of Illinois in 1909 as the Illinois Educational Club, and was incorporated June 8, 1911, under the laws of the State of Illinois as the Honorary Education Fraternity. On October 4, 1932, this title was changed to Kappa Delta Pi, an Honorary Society in Education, and was so registered at the office of the Secretary of State at Springfield, Illinois. Both men and women who have a scholarship record in the upper quartile of the institution are eligible for membership. Kappa Delta Pi is both an undergraduate and graduate society, now comprising 228 chapters.

PHI SIGMA PI (Professional Education Fraternity for Men)

Phi Sigma Pi, a National Educational Fraternity, was founded at the State Teachers College, Warrensburg, Missouri, on February 14, 1916. The objective of the fraternity is to maintain a professional educational fraternity for men in teacher training institutions. The organization is based on scholastic attainments and seeks to advance educational ideals, promote close fellowship, improve the training of teachers, and uphold just and efficient government.

ALPHA PSI OMEGA (Coeducational Dramatic Fraternity)

Alpha Psi Omega, national dramatic fraternity, was organized in 1925 at Fairmont State College, Fairmont, Virginia, to provide an honor society for those doing a high standard of work in college dramatics, and to secure for them the mutual helpfulness provided by a large national fraternity. The Bloomsburg chapter, Alpha Omicron, was organized in March, 1928. GAMMA THETA UPSILON (Coeducational Geography Fraternity)

Gamma Theta Upsilon originated in the Geography Club of the Illinois State Normal University on May 15, 1931. Delta Chapter was organized at Bloomsburg in October, 1931. Membership is limited to students making special preparation to teach geography. The purpose of this organization is to advance the professional study of geography both as a cultural discipline and a practical subject for study and investigation.

PI OMEGA PI (Professional Business Education Fraternity)

Pi Omega Pi, organized in 1923 at the Northeast Missouri State Teachers College, is a professional business education fraternity. Membership is open to students in the Division of Business Education who have demonstrated keen professional interest in business teaching; who have attained above average scholastic standing; and who have participated actively in the Business Education Club.

Alpha Delta Chapter was installed at the Bloomsburg State College on May 2, 1935. The aims of the fraternity are: (a) to promote interest in scholarship in business education; (b) to encourage high ethical standards in business and professional life; and (c) to contribute to the professional development of the prospective business teacher.

SIGMA ALPHA ETA (Honor Speech and Hearing Fraternity)

The Iota Chapter of Sigma Alpha Eta, National Honor Speech and Hearing Fraternity, was installed at Bloomsburg February 19, 1951.

This fraternity has the following objectives: to create and stimulate an interest in the fields of speech and hearing; to encourage professional growth by providing learning experiences not offered in formal courses; to foster a spirit of unity among persons with a common goal; to offer opportunities for social and professional fellowship; to inspire a high plane of achievement in academic and clinical activities.

ALPHA PHI OMEGA (National Service Fraternity)

Dedicated to the principles of Leadership, Friendship, and Service, Alpha Phi Omega assembles college men in the fellowship of the Scout Oath and Law, in SERVICE to the student body and faculty, youth and the community, and the nation as citizens. The Xi Lambda Chapter of Alpha Phi Omega, founded in May 1962, was installed at Bloomsburg State College on October 26, 1963.

PROGRAMS OF STUDY DIVISION OF ELEMENTARY EDUCATION

Students in Elementary Education must be made aware of and sensitive to the problems which children encounter in their growth and development, and how those problems affect their learning. Instruction and practice in program planning and budgeting of the school day are provided to the end that they will know how to recognize individual differences.

The human relations skills which will help students gain necessary rapport and standing among their associates as they work toward improved practices are an integral part of this program of studies.

Students in this curriculum are required to choose their electives from a sequence of courses* which will give them an unusual depth of training and experience in one area of the elementary program of studies. This "Area of Competence" will not only help students to overcome academic weaknesses but it will also help to equip the elementary teacher to serve as a resource person in the schools in which he will teach.

THE FOUR YEAR ELEMENTARY CURRICULUM

Provisional College Certificates issued on the basis of the four year elementary curriculum are valid for Kindergarten and Grades One to Six inclusive as well as for Grades Seven and Eight under the old 8-4 system.

(For administrative reasons the sequence of courses is subject to change. The first number after each course refers to clock hours, while the second indicates the credit hours.)

DIVISION OF SECONDARY EDUCATION

Programs of studies in Secondary Education have been designed to give students the academic and cultural background necessary to make them competent in their respective fields. Moreover, consideration has been given to other areas of pupil needs in the basic educational program for teachers. Courses in professional education and psychology stress the needs of youth and the principles of learning applicable to meeting these problems. Emphasis is placed on the dynamics of mental hygiene pertaining to youth and the community.

In order to strengthen academic competence, the new curriculum in Secondary Education abandons the traditional concept of major and minor concentrations. Students are required to major in one area or in one fixed combination of closely-related disciplines.

THE FOUR YEAR SECONDARY CURRICULUM

This curriculum leads to certification for teaching specific subjects in a senior high school or in a regularly organized junior high school. To insure the specialized preparation essential to effective teaching, the program places emphasis on the arts and sciences, but at the same time pays adequate attention to professional courses.

Note: Effective immediately, all students in Secondary Education must complete Ed. 374 — Teaching of Reading in Academic Subjects — 2 credit hours. This course was recently mandated by the State Board of Education; it is required course in professional education.

(For administrative reasons the sequence of courses is subject to chance. The first number after each course refers to clock hours, while the second indicates the credit hours.)

COURSE DESCRIPTIONS

DEPARTMENT OF ART

Art 101 — Introduction to Art

An analysis of the structure of art and the relationship of structure to civilization, communication and expression.

Art 201 — Methods and Materials in Elementary School Art 3 cr. brs.

Introduces the student to the theories and techniques of teaching art in the elementary school and to experiences with the art process.

Art 303 — Crafts for the Elementary Grades 3 cr. hrs.

Vital experience with craft activities that could be used in the primary and intermediate grades. Attention is given to the possibilities crafts offer for teaching the mentally handicapped.

Art 304 — Crafts for the Secondary School 3 cr. brs.

Laboratory experiences in craft activities that could be used in the secondary school and in teaching older youth who are mentally retarded.

Art 311 - American Art History 3 cr. brs.

A detailed study of the visual arts in America including Indian crafts, revival architecture and contemporary painting.

3 cr. brs. Art 321 — European Art History

A detailed study of the history of the visual arts on the European continent from the Greek era to the present.

Art 331 - Oriental Art History

A detailed study of the history of the visual arts in Japan, China, India and the countries of the Near East.

Art 399 - Drawing

A study of the fundamental problems in drawing, stressing the perception of volume, value, line and organization of the two-dimensional surface.

Art 401 — Painting I

Active experience using various painting media with emphasis on personal growth in expression.

3 cr. hrs

3 cr. hrs.

3 cr. brs.

A continuation of Art 401. A studio course in composition, color, technique, and interpretation of visual experience. Prerequisite: Art 401.

Art 403 — Painting III

Art 402 - Painting II

Advanced work planned for individual needs. Prerequisite: Art 402.

Art 404 — Sculpture

Studio exploration of three dimensional expression.

DEPARTMENT OF ENGLISH

Eng. 101 - English Composition

Close study of reading and writing to produce proficiency in both. Frequent themes, intensive study of the principles of rhetoric and grammar.

Eng. 102 - English Composition

A continuation of English 101, with increasing emphasis on effective diction, tone, and style. In addition to regular compositions and book reviews, a term paper is required. Prerequisite: Eng. 101.

Eng. 201 — Advanced Composition

Assumes satisfactory basic knowledge of grammar and rhetoric; aims to develop in the student a greater mastery over the element of effective writing. Various models of good English prose are analyzed. Frequent compositions from 300 words up to 2,000 words are assigned, read, and discussed in class. Prerequisite: Eng. 102.

Eng. 202 - Creative Writing

At least three original short stories and five original poems receive critical analysis by the instructor and by the class in group discussion. Form, metrics, imagery and diction are evaluated.

Eng. 207 — Survey of World Literature

Acquaints the students with many of the most important literary works of the western world, and with significant literary genres and literary movements.

Eng. 208 — Survey of World Literature

A continuation of English 207, generally covering works of more recent date than those in English 207. Considerably more collateral reading. Prerequisite: Eng. 207.

Eng. 231 — British Writers

Required second-semester course for English majors. Selections from Chaucer, Spenser, Shakespeare, Bacon, Donne, Milton, Dryden, Swift, Pope, Boswell and Johnson.

Eng. 232 — British Writers

Required third-semester course for English majors. Selections from Wordsworth, Coleridge, Byron, Shelley, Keats, Tennyson, Browning, Arnold, Shaw, Yeats, and Eliot. Prerequisite: Eng. 211.

Eng. 249 — Shakespeare

Required for English majors, to be taken in third or fourth semester. Study of eighteen of Shakespeare's plays with emphasis on Shakespeare as poet and playwright, and attention to conditions of the Elizabethan Theater and to the history of the Shakespearean text.

Eng. 301 — Journalism

An introduction to the fundamentals of news gathering, reporting and editing. Includes both the study of criteria for newspaper evaluation and a brief survey of newspaper development in the United States.

Eng. 307 — Russian Literature in Translation

An introduction to the "golden age" of Russian literature — from Pushkin to Sholokhov. Readings in English of novels, poems, plays and short stories. Attention given to ideas reflected in the works as well as to the medium through which they are dramatized.

Eng. 312 — Ideas in Litrature

Examines such recurrent concepts in literature as the conflict between freedom and fate, the place of good and evil in the scheme of things, and the role of the individual in society.

Eng. 316 — Children's Literature 3 cr. k

Examination and study of literature for children, with emphasis on criteria for selecting literature for the classroom and the library, suggestions for presenting literary works in the elementary classroom, and basic literary concepts. Required of all students in Elementary Education.

3 cr. hrs.

Eng. 321 — Short Story

An introduction to the French, Russian, English, and American short story, through reading and analysis of representative samples. One original short story, and one oral critical analysis of a well-known short story are required of each student.

Eng. 322 — Modern Drama

Major Continental, English, and American plays from Ibsen to O'Neill, with emphasis on contemporary attitudes, themes, and structure as contrasted with those traditional dramatists. A course in earlier drama and in Shakespeare is recommended as a prerequisite.

Eng. 323 — Modern Drama

Continues English 322, covering more recent drama, from the 30's to the present: the later O'Neil through Arthur Miller, Bertolt Brecht, Eugene Ionesco, Edward Albe, and others.

Eng. 324 — Modern Novel

Reading limited to British and American novelists from D. H. Lawrence to Faulkner. Treats the current novel as a developing art form, as a vehicle providing insight into human problems, and as a reflection of the modern

Eng. 325 — Poetry

Designed to permit student exploration of the genre, under guidance of instructor. The nature of poetry — its aims, how it is created, historical and individual changes and variations in manner and matter.

Eng. 326 — Modern Poetry

An introduction to contemporary poetic movements through study of Emily Dickson, T. S. Eliot, E. E. Cummings, Robert Lowell, Allen Ginsberg, Thomas Hardy, Gerard Manley Hopkins, W. B. Yeats, W. H. Auden, Dylan Thomas, and other poets.

Eng. 331 - English Conference

Various courses of specialized interest offered occasionally; e.g., Literature of Biography, The Essay, Blake and Yeats, Later American Prose, Literary Masterpieces.

3 cr. brs.

3 or. brs.

Eng. 341 — Early and Middle English Literature 3 cr. brs.

A study of Beowulf and other Old English works in translation and of medieval chronicles and romances including Sir Gawain and the Green Knight and Le Morte d' Arthur.

Eng. 342 - Early English Drama

Early native drama, including miracle and mystery plays, morality plays, and interludes, Elizabethan dramatists: Heywood, Marlowe Kyd, Jonson, Webster, Middleton and Ford.

Eng. 343 — Chaucer

Study of Chaucer's major poetry, with practice in speaking and reading Middle English and with major emphasis on Chaucer's literary achievement and his humanism.

Eng. 347 — The Renaissance in England 3 cr. brs.

The non-dramatic prose and verse of the period, emphasizing the last quarter of the century. The humanists: Erasmus, More, Castiglione, Elyot, Ascham; Renaissance forms and ideas in Lyly, Sidney, Spenser, Daniel, Drayton, Shakespeare, Marlowe, Chapman, Greene, and others.

Eng. 352 — 17th Century Literature

Poetry and prose, beginning with Jonson. The rival traditions of Donne and Joson in such poets as Herbert, Vaughn, Quarles, Cowley, Herrick, and Marvell. Principal prose writers: Burton, Browne, Taylor, Fuller, Baxter, Bunyan, and Dryden.

Eng. 356 - Restoration and Later Drama 3 cr. brs.

Wycherley, Etherege, Congreve, Farquhar, Dryden, and Otway, with consideration of Moliere's influence in Restoration drama. Eighteenth century sentimental comedy and tragedy, and reaction against it in Goldsmith and Sheridan. Trends in 19th century drama.

Eng. 357 — 18th Century Literature

Survey of literature of the Augustan Age in England: Addison and Steele, Swift, Pope, Boswell, and Johnson; forerunners of the Romantic Revival; beginnings of the British novel; the plays of Addison, Steele, Sheridan, and Goldsmith.

3 cr. brs.

3 cr. brs.

3 cr. brs.

Eng. 358 - 18th Century Novel

Emphasizes major novels of Defoe, Richardson, Fielding, Smollett, Sterne, and Austin; traces the development of the English novel from picaresque to realistic.

Eng. 363 — 19th Century Novel

The major British writers of the Victorian Period, with supplementary readings in the works of the great continental novelists.

Eng. 366 — Romantic Literature

Covers the more important poets, such as Wordsworth, Coleridge, Keats, and Shelley; emphasizes prose writing, including criticism, of Hazlitt, Lamb, DeQuincey, and Carlyle, and the work of Hunt, Landor, and Peacock.

Eng. 370 — Victorian Literature

Gives attention to poets and poetry of the period, but emphasizes major prose writers, including Newman, Huxley, Carlisle, Mill, Ruskin, Arnold, Morris, Pater.

Eng. 381 — American Literature

Surveys American Literature from its Colonial beginnings through the Civil War, with emphasis on the writers of the American Renaissance.

Eng. 382 — American Literature

Continues English 381, covering major writers and significant social and literary movements up to the present day.

Eng. 385 — The American Novel

Surveys development of the novel in America from Charles Brockden Brown to the present, with emphasis on outstanding American novelists of the Twentieth Century.

Eng. 401 — Structure of English 3 cr. brs.

A descriptive study of the phonology, morphology, syntax, and graphic formulas of modern American English.

Eng. 402 — History of the English Language 3 cr. hrs.

A descriptive study of the causes and effects of phonemic, morphological, syntactic, and semantic change in the English language from the Anglo-Saxon conquest to the present.

Eng. 405 — Criticism

For advanced students majoring in English. Admission must be arranged with instructor. Examines works of major critics: Plato, Aristotle, Longinus, Sidney, Boileau, Coleridge, and others. Applies critical principles to literary texts.

DEPARTMENT OF SPEECH

Speech 101 - Fundamentals of Speech

The study and practice of skills in oral communication. Emphasis is on sound organization and effective language; with awareness of different speech patterns, and audience adaptation.

Speech 103 — Basic Speech

The beginning speech course for Liberal Arts majors. Includes material covered in Speech 101, with additional theory and practice in the requirements for effective speaking.

Speech 206 — Oral Interpretation of Literature 3 cr. brs.

A study of the intellectual and emotional meanings used in the presentation of poetry and prose. Practice in the skills required for the successful reading aloud of these meanings to a group of listeners.

Speech 208 — Introduction to Theatre Arts 3 cr. hrs.

A survey of the arts of the theatre: directing, play production, theatre history, stage design and acting. The student is given a broad general background in theatre.

Speech 211 — Theatre Production

A study of the physical aspects of producing a play: scene design, costuming, makeup, properties, stage management and business procedures. The student is thus equipped with the basic skills for the technical work of production. Crew work is assigned.

Speech 221-Argumentation

The basic principles of argument, with practice in debate. The fundamentals of logic are provided. Stress is on the techniques of effective thinking and speaking on controversial issues.

3 cr. brs.

3 cr. brs.

3 cr. brs.

.

3 cr. hrs.

Speech 231 — Introduction to Radio and Television

A survey of communication practices and techniques in the media of radio and television. The student is given practice in these techniques, and is provided with a background of their dynamics in relation to modern society.

Speech 241 — Voice and Diction

A study of the vocal organs and their function. Designed for students who wish to improve their vocal quality and who have no voice defects.

Speech 301 — Advanced Speech

A continuation of Speech 101 for the student at the Junior class level. Emphasis is placed on the more advanced practice of speaking before classroom groups. Reading aloud, group discussion and persuasion are the areas of concentration. Prerequisite: Speech 101.

Speech 311 — Directing

A comprehensive study of staging a play, from the selection of a script up to the opening performance. Each student directs and participates in classroom projects. Lab hours required.

Speech 312 — Fundamentals of Acting

An introduction to the theories and techniques of acting. A study of the development of the character physically, emotionally, and intellectually. Individual and group exercises.

Speech 314 — Costuming for the Stage

Costuming for the theatre through application of historical developments and elements of design to the requirements of the theatre. Lab hours required.

Speech 315 - History of the Theatre

Study of the major periods of theatrical history from the viewpoint of play and the production. A survey of the theatre from the beginnings in Greece to Current Theatre, with consideration given to the influences of Asiatic and African cultures.

3 cr. hrs.

3 cr. bry.

2 cr. brs.

3 cr. brs.

3 cr. hrs.

3 cr. brs.

Speech 318 — Discussion

A study of the principles and processes of group discussion in policy making situations and interpersonal relations. Practical problems in leadership and participation are provided.

Speech 319 — Children's Theatre

A survey of dramatic literature for children and an investigation into the theories and techniques of theatre for children. Creative dramatics is introduced. Lab hours required.

Speech 321 - Persuasion

Analysis of problems of human motivation as encountered in audience situations. A study and practice of both the ethical, and scientific approach, by the speaker. Methods of applying a knowledge of the basis and tools of persuasion presented in detail.

Speech 325 — Extempore Speech

An advanced public speaking course. Theories of, and exercises in, the four types of speaking. Major emphasis is on the composition and delivery of the extemporaneous speech.

Speech 490 — Speech Seminar 3 cr. brs.

A survey of the field of speech, with special emphasis on either public address, or dramatic art. Purpose is to broaden the 'student's knowledge in his special field of learning by research, and investigative papers and projects.

DEPARTMENT OF FOREIGN LANGUAGES

FRENCH

Fr. 101 — Beginning French (For students with no previous study of French)

An audio-lingual approach toward the rapid development of acceptable pronunciation, vocabulary accumulation in a contextual frame of reference. Understanding and speaking stressed.

Fr. 102 — Beginning French 3 cr. hrs.

Continuation of the development of basic skills of understanding, speaking, reading, writing, with some increase in amount of reading and writing.

3 cr. hrs.

3 cr. brs.

3 cr. hrs.

Fr. 103 — (For students having two or more years of French background) 3 cr. brs.

Outside reading of material having a modern *modus vivendi* content. Compositions are assigned; pronunciation perfected as well as intonation, fluency of basic dialogues.

Fr. 104 — Intermediate French 3 cr. hrs. A cultural reader and a fiction story are concluded by the end of this

A cultural reader and a fiction story are concluded by the end of this course. Students should be able to comprehend without translating.

Fr. 210 — Contemporary Literature of France 3 cr. hrs.

Presentation of selected literary works and classroom discussion. Classes are held primarily in the foreign language.

Fr. 211 — Contemporary Literature of France 3 cr. hrs.

Additional works of modern-day France, graded according to the level of the class.

Fr. 301 — Advanced Conversation and Composition 3 cr. brs.

Speech production with native pronunciation, fluency, intonation, para-language and kinesics is designed to bring about optimum ability to communicate. Written composition stresses correct writing forms, grammatical structures. Prerequisite: French 104, 211.

Fr. 302 — Advanced Conversation and Composition 3 cr. brs.

Continued class oral work, discussions of topics which are oriented to contemporary culture. Development of expression, identification of regional dialects, colloquialisms.

Fr. 310 — The Culture and Civilization of France 3 cr. brs

Designed to give students a thorough understanding of French government, costoms, education, fine arts, folk lore and history. Current events are viewed through French magazines and newspapers.

Fr. 311 — The Culture and Civilization of France 3 cr. hrs.

Continued study of available materials which represent the present way of life and the philosophies behind French nationalism.

Fr. 315 — The French Short Story

Selected short stories are read and discussed as to content, genre significance, philosophy.

Fr. 316 — The French Novel 3 cr. brs.

Selected French novels are read and discussed in class.

Fr. 321 — The History of French Literature 3 cr. brs.

A survey course intended to show not only the development of French genre but also to give the student an insight into material which he should read more intensively on his own.

Fr. 401 - French Linguistics

Designed to present to the general aspects of phonetics, pnonemics, semantics, morphology, etymology, comparative linguistics, historical linguistics, and specifically, the principles behind the audio-lingual approach. Films and tapes are used extensively.

Fr. 402 — The Methods and Materials of Teaching French 3 cr. brs.

An intensive investigation of the methods of teaching which are successful today. Materials are discussed, copies of texts are examined, the audio-lingual approach is practiced after demonstration films are viewed.

SUMMER ELECTIVES

Fr. 203 — Ramified Conversation

A Middlebury-type program for which residence is desirable but required only if enrollment permits. Extensive use made of film strips, films, models, picture charts. Excursions are made into town to visit the hotel, post office, parks, stores, to discuss in the target language the real environment.

Fr. 204 - Seminar in France

Six to eight weeks in France at the University of Dijon. This studypracticum permits the student to get native instruction in the native setting. The students are housed in dormitories and attend the summer course for foreign students. Daily and weekend excursions to places of interest are included in the program. Resident Evaluators from Bloomsburg accompany the group to assist students and keep records of progress. Two semesters of French are required for participation in this program.

6 cr. hrs.

3 cr. brs.

3 cr. brs.

French students should be reminded of the special Pennsylvania Junior Year Abroad at Besancon, France. This 30 credit seminar is highly advisable for serious students of foreign languages. The Chairman of the Department of Foreign Languages can supply the details of the program.

GERMAN

Ger. 101 — Beginning German (For students with no previous study of German) 3 cr. brs.

An audio-lingual approach toward the rapid development of acceptable pronunciation, vocabulary accumulation in a contextural frame of reference. Understanding and speaking are stressed.

Ger. 102 — Beginning German

Continuation of the development of basic skills of understanding, speaking, reading, writing, with some increase in amount of reading and writing.

Ger. 103 — Intermediate German (For students with two or more years of German background) 3 cr. brs.

Outside reading of material having a modern *modus vivendi* content. Compositions are assigned; pronunciation perfected as well as intonation, fluency of basic dialogues.

DEPARTMENT OF EDUCATION AND PSYCHOLOGY

EDUCATION

Ed. 101 — Introduction to Education

The five major aspects of American education: (1) organization and administration, (2) areas of education, (3) personnel in education, (4) provisions for educational materials and environment, and (5) interpretation of education are introduced.

Ed. 202 — Methods and Materials in Elementary School Science 3 cr. hrs.

Includes scientific concepts and facts of most interest to children. Includes the environmental experiences of children, and new areas where the experiences of children are limited.

2 cr. brs. Ed. 301 — Audio-Visual Education

A comprehensive study of all communicative media. Opportunity to develop skills in the use of various teaching tools is provided during the laboratory periods. Prerequisite: Psy. 301.

3 cr. brs. Ed. 311 - Educational Measurements

The principles testing in the various fields of subject matter. Methods of grading and problems involved, representative standardized tests and the vocabulary of measurement. Prerequisite: Psy. 301.

Ed. 321 — Early Childhood Education

Problems peculiar to nursery school and kindergarten age boys and girls. Programs, materials, activities, and equipment necessary for working effectively with those age groups. Prerequisite: Psy. 311.

Ed. 341 — Introduction to Guidance and Counseling

To introduce the teacher and prospective pupil personnel worker to the guidance point of view in the public school system. Basic guidance principles and procedures with the emphasis on the role and interaction of the counselor and other pupil personnel workers.

3 cr. brs.

3 cr. brs.

3 cr. brs.

Ed. 342 — Introduction to the Study of Occupational and Educational Information

Developed for those who teach occupations and advise students in the selection of occupations. Study of major occupational areas and sources of educational information to be used in occupational guidance.

Ed. 343 — Counseling Techniques

Presents the general nature of the counseling process and the tools that are used to implement its functioning. Various problems, studies, and approaches are considered.

Ed. 351 — Teaching of English in the Secondary School 3 cr. brs.

Investigates the following areas; general objectives of the secondary school in respect to this particular descipline; daily and long range planning with emphasis on resource unit construction; and examination of courses of study to familiarize and provide information on the scope and sequence of the discipline; a knowledge of the research concerning current methods of teaching this discipline; a compilation of materials, resources, and bibliographies pertinent to this area; and opportunities to examine, construct and apply tests, as well as, other forms of evaluating, diagnosing, and reporting pupil progress. Prerequisite: Psy. 301.

- Ed. 352 Teaching of Mathematics in the Secondary School See Ed. 351 for course descriptions.
- Ed. 353 Teaching of Biological Science in the Secondary School See Ed. 351 for course descriptions.
- Ed. 354 Teaching of Physical Science in the Secondary School See Ed. 351 for course descriptions.
- Ed. 355 Teaching of Social Studies in the Secondary School See Ed. 351 for course descriptions.

Ed. 361 — Problems of Secondary Education Including Guidance 3 cr. brs. Problems in teaching with particular emphasis upon the first years includes problems of pupil-growth and development, curriculum, and counseling. Prerequisite: Psy. 301.

Ed. 371 — Teaching of Reading in the Elementary Grades. 3 cr. hrs. Developmental reading from readiness through the entire elementary school curriculum. Principles, problems, techniques, and materials used in the total elementary school program.

Ed. 372 — Foundations of Reading Instruction 3 cr. brs. The reading program in the secondary school, including the area of comprehension, speed, study skills, library skills, recreation and enrichment,

and method of using information. Development of a secondary school reading program required of each student. Prerequisite: Psy. 301.

Ed. 373 — Diagnostic and Remedial Reading 3 cr. hrs. Diagnostic and remedial procedures in the area of reading, emphasizing both standardized and informal techniques. Designed for elementary and/or secondary school teachers. Each student is required to develop a remedial reading program. Prerequisite: Ed. 371.

Ed. 374 — Teaching of Reading in Academic Subjects 2 cr. hrs. Developing the understandings and improving techniques for developing reading skills applicable to the secondary school. Emphasis on readiness, comprehension, silent reading, and oral reading through secondary school academic subjects. Required of all students majoring in Secondary Education.

Ed. 381 — Seminar in Elementary Education 6 cr. brs. A study of the ways in which elementary schools are organized to solve the problems of the great individual differences among children, and of research related to experimentation in this field. Prerequisite: Psy. 301.

Ed. 401 — Student Teaching in the Elementary School 12 cr. hrs.

Scheduled on full semester basis with a minimum of 30 hours per week. Opportunities for direct participating experience at two grade levels and in as many areas of the elementary curriculum as possible. Association with carefully selected master teachers.

Ed. 402 — Student Teaching in the Secondary School 12 cr. hrs. Scheduled on full semester basis with a minimum of 30 hours per week. Requires the construction or adaptation of a resource unit for use by the student teacher during this period as well as daily planning and guided observation. Students are exposed to actual teaching and other experiences to give them a wide sampling of the activities of the professional teacher.

Ed. 411 - Professional Practicum

Operated concurrently with Student Teaching and includes orientation to Student Teaching, planning, professional growth in service, placement, school law and classroom management.

Ed. 421 - Curriculum Development

An examination of current curricular offerings of Elementary and Secondary schools. Emphasis placed upon philosophical, social, political and technical trends in the community, nation and the world, and the effect they have upon the role of the teacher and the school in curriculum development.

PSYCHOLOGY

Psy. 201 — General Psychology

Develops an understanding of how people behave and why they behave as they do. Heredity and environment, the nature and function of perception, emotions and thought, the forces that bring about various kinds of behavior, and the problems of personal adjustment.

Psy. 301 — Educational Psychology and Evaluative Technique 3 cr. hrs.

Principles of learning and techniques of evaluation. Functional applications in educational practice are observed in cooperating and demonstration schools. Prerequisite: Psy. 201.

Psy. 311 — Child Growth and Development 3 cr. brs.

The principles of human development which have most significance for understanding and working with children in elementary school classrooms and activities. Prerequisite: Psy. 201.

Psy. 321 — Mental Tests (Group)

The nature of psychological tests is explored and methods used in standardizing and validating them are studied. Students learn about a variety of tests by actually taking such tests, administering them, and interpreting their results.

Psy. 322 - Mental Tests (Ind.)

The nature of intelligence is studied and ways of measuring it considered. Emphasis is placed on the administration and scoring of the Stanford-Binet and the Wechsler Intelligence Scale for Children.

2 cr. brs.

3 cr. brs.

3 cr. hrs.

3 cr. hrs.

Psy. 331 - Mental Hygiene

A discussion of the processes necessary for the development of a healthy mental state. Practical applications of principles of good mental hygiene demonstrated. Field trips to nearby mental institutions. Prerequisite: Psy. 301.

Psy. 401 — Abnormal Psychology 3 cr. brs.

Mental abnormalities including symptoms, diagnosis, and treatment. Problem cases and characteristics of handicapped and subnormal children Prerequisite: Psy. 201.

Psy. 411 — Adolescent Psychology 3 cr. hrs.

The physical, social, and psychological attributes of youth from age eleven to twenty and their adjustment in a dynamic society. Prerequisite: Psy. 301.

Psy. 421 — Clinical Psychology 3 cr. hrs.

The making of case studies; the administration of various tests; the use of clinical instruments; and the interpretation, recording and reporting of findings. Intelligence tests (verbal and non-verbal), personality and ability tests. Prerequisite: Psy: 322.

Psy. 431 — The Study of Personality 3 cr. brs.

The nature and organization of personality and the dynamic forces that shape the individual. Personality types, conscious and unconscious processes, individual differences, abnormal trends, and ways of measuring personality characteristics. Prerequisite: Psy. 201.

DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION

PHYSICAL EDUCATION

P.E. 101 — Physical Fitness Education

Team activities, such as soccer, speedball, touch football, volley ball, basketball, softball, track and field, vaulting, and tumbling. An individual physical fitness inventory is taken, and attention is given to posture and body carriage.

.

1 cr. br.

1 cr. br. P.E. 102 — Aquatics

Development of skills and attitudes toward swimming competence, Beginning swimming and general lifesaving techniques.

P.E. 201 — Recreational Physical Education 1 cr. br.

Development of skills and attitudes toward recreational activities now commonly engaged in our society are stressed. Archery, handball, tennis, golf, bowling, and badminton are covered.

P.E. 222 -- Dance 1 cr. br.

Development of skills centered around the dance. Folk, square, and other forms will be included. Arts and Sciences students only.

P.E. 311 — Methods and Materials in Health 3 cr. brs. and Physical Education for the Elementary Grades

Helps Elementary Education students develop sound principles and procedures in meeting the physical and emotional needs of the child, and includes basic fundamentals of growth and development. Laboratory experience is included.

P.E. 312 — Recent Developments in Elementary Physical Education 3 cr. brs.

A comparative study of physical education programs around the country with emphasis on the latest developments and trends in the field and implications for the future.

3 cr. brs P.E. 341 — Adapted Physical Education

An introduction to the nature of handicap conditions and their psychological implications.

3 cr. brs. P.E. 331 — Recreation Education

Leisure-time activities of adolescents and adults. Review and analysis of educational implications.

P.E. 400 — Seminar in Newer Practices in Elementary Health 6 cr. brs. and Physical Education

Emphasis is placed on the new proposals of the Department of Instruction for elementary school instruction in health and physical education. Note: Offered only during the Summer Sessions.

HEALTH

He. 101 — Principles of Hygiene

Anatomical and physiological systems of the human body as a foundation for the development of good health principles and attitudes.

DEPARTMENT OF MUSIC

MUSIC

Mus. 101 — Introduction to Music

A background and understanding of music and the various media through which music is expressed. Selected masterpieces, composers, musical forms and styles considered.

Mus. 212 — Methods and Materials for Teaching Music 3 cr. brs. in Elementary School

Music in the elementary school and the correlation of music with other subjects. Prepares the grade teacher to teach his own music in a self-contained classroom or under supervision from a music specialist.

Mus. 331 - History of Music

A study of music from Bach to the present day with emphasis upon active listening and the development of a musical vocabulary.

Mus. 332 — American Music

A study of the works of selected American composers with reference to characteristics indigenous to American music.

Mus. 431 — Music of the Romantic Era 3 cr. brs

A study of nineteenth century European music.

Mus. 432 — Twentieth Century Music 3 cr. brs.

A study of contemporary music, with emphasis on selected representative works.

Area of Competency in Music

The following courses have been recommended by the Department of Music for students in Elementary Education who are seeking an Area of Competency in Music. Selection of courses should be made only with the help of the Chairman of the Department of Music.

2 cr. brs.

3 cr. brs.

3 cr. brs.

Mus. 122 — Keyboard Music

Group piano instruction with emphasis on creating and playing accompaniments for songs, and sight reading music.

Mus. 221 — Harmony I

A study of music theory including tonic, subdominant, and dominant harmonies leading to altered chords and modulation. Experiences in Keyboard and sightsinging will be provided.

Mus. 222 — Harmony II

A continuation of Harmony I including the studio of the supertonic, submediant, and mediant harmonies. In addition to keyboard experiences, the development of rhythmic vocabulary, and harmonic dictation, selected compositions will be analysed.

Mus. 321 — Choral Techniques

Class voice instruction with emphasis on the development of techniques and abilities necessary for participation in choral groups. Principal attention will be given tone production, proper breathing, and appropriate literature.

Mus. 322 — Directed Study

Individual study under the direction of a faculty member which may extend areas normally covered in specialized music courses.

Mus. 421 — Literature and Materials of Music 3 cr. brs.

Advanced vocabulary, aesthetic function, and elements of music studied through actual occurrence. Presents a gradual progression, ultimate synthesis, and growth of music through the individual's cultural context.

DEPARTMENT OF SCIENCE

BIOLOGY

Biol. 103 - 104 — General Biology I and II

Emphasizes the fundamental principles and theories of life exhibited in plants and animals. Local field trips, class demonstrations, and laboratory studies are included.

3 cr. hrs.

3 cr. brs.

8 cr. brs.

ature.

3 cr. brs.

3 cr. hrs.

Biol. 211 — Invertebrate Zoology

Representatives of each phyla are studied as part of the laboratory work. Morphology, physiology, development, and variations of each organism. Ecology and evaluation of these forms in relation to the economy of man.

Biol. 212 — General Botany

History, definition, and scope of the plant kingdom. Laboratory study includes cells, leaves, roots, stems, flowers, seeds, anabolic and catabolic metabolism. Conservation, economic and esthetic value, evolution and genetics of plants.

Biol. 232 — Field Botany

Plants in their natural environments, forests, fields, bogs, streams, and ponds. Plant culture is observed in local greenhouses, nursery farms, and gardens. Prerequisite: Biol. 212.

Biol. 234 — Field Zoology

Animals observed and classified in the field. The study of physical and physiological adaptations to environment fish and game culture and control of predators from the economic point of view. Prerequisite: two years of biology.

Biol. 241 — Plant Anatomy

The study of cell structure in plants and relationship to the physiological functions of the plant. The phyletic development of plant cells and the tissues, especially those concerned with the gross structure of roots, stems, and leaves. Prerequisite: Biol. 212.

Biol. 242 — Ornithology

Birds identified in the field and from museum specimens; songs, feeding habits, nest building, and care of young, migration, economic importance are presented. Prerequisite: one year of biology and consent of instructor.

Biol. 251 — Entomology

A field course in the general study of insects, involving collecting, mounting, and classifying local specimens. The morphology, physiology, life histories, and habits of harmful and beneficial insects. Prerequisite: Biol. 211.

3 cr. brs.

3 cr. brs.

4 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

4 cr. brs.

- 1 1

Biol. 252 — Parasitology

A study treating the taxonomy, structure, and biology of animal parasites, including those of importance to man. Prerequisite: Biol. 211.

Biol. 312 - Ecology

Principles and concepts pertaining to energy flow succession patterns, limiting factors, habitat studies and population studies at the species, interspecies, and community level. Prerequisite: Biol. 211, 212.

Biol. 314 — Fresh Water Biology

An advanced course in the biology of streams, lakes and ponds and their relationship to the health and welfare of the country. Prerequisites: Biol. 211, 212, 312 or permission of the instructor.

Biol. 321 — Comparative Vertebrate Anatomy 3 cr. brs.

Lectures on the morphology by systems of Fishes, Amphibians, Reptiles, Birds, and Mammals. Laboratory dissection of the cat by each member of the class. Comparisons made with the skeleton and manikins of the human body. Prerequisite: two years of biology.

Biol. 331 - Vertebrate Physiology

The study of functions of tissues, organs, and systems, specimens of Amphibians, Reptiles, Birds, and Mammals. Prerequisite: Biol. 321.

Biol. 332 — Histology

A study of the morphological characteristics of animal tissues. In its broader aspects, the course correlates structural features with physiological functions. Prerequisites: Biol. 321, 331.

Biol. 341 — Genetics

The science and theories of inheritance in plants and animals. The practical application of genetics in animal breeding, plant propagation, and improvement of the human race. Prerequisites: Biol. 211, 212.

Biol. 351 - Microbiology

Microorganisms in relation to man as they occur to soil, water, sewage, food, domestic animals, and plants. Useful and harmful protozoa, bacteria, fungi, and invertebrates. Prerequisites: Biol. 211, 212.

3 cr. brs.

3 cr. brs.

3 cr. hrs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

Biol. 371. — Ichthyology

A field course including collection, taxonomy, structure, and ecology of fishes.

Biol. 401 — Radiation Biology

Physical and genetic effects of radiation on plants and animals; radioactive fall-out and its biological consequences; applications of radioisotopes in biological research; use of radiation sources and detectors. Prerequisites: Biol. 341.

Biol. 411 — Embryology

The development of vertebrates through various stages of Amphioxus, frog, chick, and pig. The formation of adult structures from germ cells through maturation, segmentation, germ layers, and systems. Prerequisites: Biol. 321, 341.

Biol. 421 — Plant Physiology

Chem. 111 — General Inorganic Chemistry

The physiological processes of plants and their effect on growth of the vegetative and reproductive organ. Prerequisites: Biol. 241, Chem. 111.

Biol. 452 — Evolution

The history, development, and philosophy of the theories of the evolution of living organisms. Past and present life forms, natural selection, and the ecological phenomena of population and community development. Prerequisite: Biol. 341, 411.

Biol. 490 — Seminar in BiologyCr. Hrs. to be arrangedBiol. 492 — Research Topics in BiologyCR. Hrs. to be arranged

CHEMISTRY

Basic principles, laws, and concepts of general inorganic chemistry; the non-metallic elements, formula writing, and equation writing, and balancing, as well as simple chemical calculations.

Chem. 112 — General Inorganic Chemistry 4 cr. hrs.

A continuation of Chem. 111; the study of the metallic elements, their procurement and refinement together with a detailed survey of their compounds and uses to man. Prerequisite: Chem. 111.

.

4 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

Chem. 221 - Qualitative Inorganic Analysis

A study of the systematic identification and separation of the common cations and anions. The theory of ionization, mass action, and chemical equilibrium as it applies to analytical chemistry. Prerequisite: Chem. 112.

3 cr. hrs. Chem. 222 — Quantitative Inorganic Analysis

The fundamental principles of gravimetric and volumetric analysis, with development of ability in performing quantitative chemical calculations. Prerequisites: Chem. 221, Math. 222.

Chem. 331 — Organic Chemistry

The Aliphatic Series, or open chain compounds of Organic Chemistry, involving the more important of these compounds; their synthesis, reactions, occurrence, and uses. Prerequisites: Chem. 111 and 112.

Chem. 332 - Organic Chemistry 4 cr. hrs.

A continuation of Chem. 331. The Aromatic Series or ring compounds of the hydrocarbons are studied. Their synthesis, reactions, occurance, and uses are emphasized, and type mechanisms are noted. Prerequisite: Chem. 331.

Chem. 322 — Qualitative Organic Analysis

A laboratory course in the qualitative analysis of organic compounds. The analysis of carbon compounds accomplished by means of separation and identification. Methods and techniques studied, applications to industry and scientific research emphasized. Prerequisite: Chem. 332.

Chem. 411 — Physical Chemistry

The study of physico-chemical principles in the behavior of matter. The implications of energy relationships, kinetics of chemical reactions, phase rule, equilibria, molecular weights, melting point phenomena. Prerequisite: Chem. 112, Phys. 112, Math. 311.

Chem. 425 - Water Analysis

The Chemical, physical, and biological phases of water analysis. Laboratory exercises include the examination of water from the entire hydro cycle. Prerequisite: Zool. 111, Chem, 111, Bot. 341.

2 cr. brs.

3 cr. brs.

4 cr. brs.

3 cr. brs.

Chem. 431 — Industrial Chemistry

The application of chemistry to modern industry. The operating efficiency, equipment, the methods of attacking new problems of industry through research. Each student selects a simulated research problem to be developed experimentally, and prepares an oral and written report. Prerequisites: Chem. 112, Phys. 112.

Chem. 441 — Biochemistry

The chemistry of substances comprising living organisms, plants, and animals. Biological processes with chemical backgrounds or chemical interpretations are investigated. Photosynthesis, blood chemistry, extraction and separation of organic substances. Prerequisites: Chem. 112, Bot. 112, or Zool. 112.

Chem. 490 — Chemistry Seminar Cr. Hrs. to be arranged

Chem. 492 — Research Topics in Chemistry Cr. Hrs. to be arranged

Laboratory investigations of selected problems for advanced students. Registration by consent of instructor.

PHYSICS

Phys. 101 — Basic Physical Science

Basic principles of physics, chemistry, astronomy, geology, and meteorology with consideration to machines, heat, light, sound, electricity, atomic structure, chemical elements, chemical reactions; and current advances in electronics, space flight, and atomic energy. Students majoring in Physical Science may substitute Phys. 111 or Chem. 111.

Phys. 111 — General Physics

The basic principles of Mechanics, Mechanics of Fluids, and Heat. Fundamentals of motion, machines, states of matter, transfer of heat, expansion, and thermodynamics.

Phys. 112 — General Physics

The principles of elementary wave motion, sound, light and elementary optics, electrostatics and an introduction to the fundamentals of current electricity and magnetism. Prerequisite: 111, Math. 112.

4 cr. brs.

4 cr. brs.

3 cr. hrs.

3 cr. brs.

Phys. 202 - Science in Modern Civilization

Nontechnical views of a wide variety of sciences ranging from cosmology to nuclear physics. Appreciations of the contributions made by the sciences to modern civilization are promoted.

Phys. 225 — Demonstrations in Physics

Provides prospective teachers practical experience for conducting demonstrations. Techniques in the use of equipment. Prerequisites. Chem. 112, Phys. 112.

Phys. 305 — Earth and Space Physics

The principles of Physics applied to planetary motion and rocketry. A survey of the solar system and Kepler's Law, space flight, and guidance, the principles of pure Physics involving Newton's Laws, escape velocities, vectors, trajectories, fuels, gyroscopes, and current developments in space science. Prerequisite: Phys. 112.

Phys. 314 — Electricity and Magnetism 4 cr. brs.

An intermediate level study of the electric field, potential, dielectric properties, capacitance, and direct and alternating currents. The study of magnetism includes magnetic fields, electromagnetic induction and magnetic properties of matter. A brief introduction to electromagnetic waves is included. Prerequisite: Phys. 112, Math. 311.

Phys. 315 - Electronic and Solid State Physics 4 cr. brs.

Qualitative treatment of crystal structure; mechanical, thermal, dielectric, and magnetic properties of solids; theory of metals; semiconductors. Theory of electron tubes emission, tube characteristics, rectifiers, emplifiers, oscillators, special circuits. Prerequisites: Phys. 112, Math. 311.

Phys. 321—Introduction to Atomic Physics 3 cr. brs.

An introduction to fundamentals of atomic structure: the electron, Bohr's theory of the hydrogen atom, and extending to X-rays, the photoelectric effect, and other fundamental processes. The study of radioactivity includes natural and artificial transmutation and elementary treatment of fission and fusion. Prerequisites: Phys. 112, Math. 311.

3 cr. brs.

Phys. 411-Mechanics

A course in intermediate mechanics treating statistics and dynamics of particles and extended bodies, motion of bodies by conservative and dissipative forces, energy relations, impulse and momentum, rotation of a rigid body, angular momentum, and elasticity. Prerequisites: Phys. 112, Math. 311.

Phys. 412 - Optics

Brief review of geometric optics; extended treatment of topics in physical optics including diffraction, interference, polarization and spectra. Prerequisites: Phys. 112, Math. 311.

Phys. 413 — Wave Motion, Sound, and Heat 4 cr. brs.

Temperature measurements, thermal expansion, calorimetry, heat transfer, properties of gases, thermodynamics, and wave motion as applied to sound. Prerequisites: Phys. 112, Math. 311.

Phys. 490 — Physics Seminar

Cr. Hrs. to be arranged

DEPARTMENT OF MATHEMATICS

Math. 101 — Fundamentals of Mathematics I

Consideration is given to mathematics as a universal language essential to quantitative communication in a technial age. A study of the logical basis of deductive science, the structure of the number system, sets, and functions.

Math 102 — Fundamentals of Mathematics II 3cr. hrs.

Continuation of Math. 101. Includes a discussion of polynomial algebra, elementary geometry and trigonometry. Prerequisite: Math. 101.

Math. 111 — College Algebra

Designed to strengthen and increase the concepts developed in secondary school algebra. Emphasis is placed on understanding the basic skills necessary for application to the sciences and to further mathematical study.

Math. 112 — Trigonometry

Designed to have the student become proficient in the use of the trigonometric functions. Also includes algebraic, logarthmic, and exponential functions.

3 cr. brs.

3 cr. brs.

3 cr. brs.

4 cr. brs.

Math. 116.— Introductory Statistics

This course aims to develop the ability to read, interpret, and construct tables of statistical data; to compute values for the various statistical measures; and to apply the basic skills of statistics to the biological sciences. Biological sciences majors only. Prerequisite: Math. 111.

Math. 211 — Analytic Geometry

A critical study of the conic sections and limits. The fundamental ideas and applications of differential calculus. Prerequisite: Math. 112.

Math. 212 — Differential Calculus

A study of differentials and various differentiation techniques for transcendental functions. Definite integrals and indefinite integration. Prerequisite: Math. 211.

Math. 216 - Statistics

Descriptive and inferential statistics, with emphasis in probabilistic distribution. Both discrete and continuous probability density functions are discussed. Practical training in the calculation of various statistical measures and the use of automatic calculators is obtained in the laboratory. Prerequisite: Sophomore Standing.

Math. 224 — College Geometry

Elementary geometry from an advanced standpoint. Incidence geometry in planes and space, geometric inequalities, properties of the triangle, the quadrilateral, the circle and sphere. Prerequisite: Math. 112.

Math. 246 - Field Work in Mathematics

Mathematics takes on new interest when it is applicable to life situations. Instruments used in the field are the slide rule, angle mirror, hypsometer and clinometer, plane table, vernier, transit, and scale drawing. Summer School only. Prerequisite: Math. 112.

Math. 311 - Integral Calculus 3 cr. brs. Continuation of Math. 212. Includes vectors, polar calculus, determinants and solid geometry.

Math. 312 - Differential Equations

Elementary ordinary differential equations; infinite series and power series, LaPlace transforms. Prerequisite: Math. 311.

3 cr. hrs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. hrs.

3 cr. brs.

3 cr. hrs.

Math. 321 — Introduction to Modern Algebra 3 cr. brs. Modern algebra and its concepts and terminology. Subjects discussed

include Sets, Symbolic Logic, Groups, Fields, Relations, and Functions. Prerequisite: Math. 212.

Math. 324 — Modern Geometry

Econ. 313 - Industrial Relations

Continuation of Math. 224. Constructions, Jordan measure, volumes, hyperbolic geometry, and a general discussion of the postulational method. Prerequisite: Math. 224.

3 cr. brs.

3 cr. brs.

Math. 411 - Advanced Calculus 3 cr. brs. Continuation of Math. 311. Partial derivatives; multiple integration with applications, sequences, series, and convergence. Prerequisite: Math. 311.

Math. 421 — Linear Algebra 3 cr. hrs. Vectors, n-dimensional vector space. Determininants, matrices. Transformations, quadratic forms and applications in 3-space. Prerequisite: Math. 321.

DEPARTMENT OF SOCIAL STUDIES

ECONOMICS

Econ. 211 — Principles of Economics 3 cr. brs. The fundamental forces that influence the production, distribution and consumption of wealth. Historical and current basic principles of economic theory, and concepts in price and value.

Econ. 212 - Principles of Economics 3 cr. brs. The determination of price by supply and demand, distribution of in-

come, the pricing of the productive factors, international trade and finance, and current economic problems. Prerequisite: Econ. 211.

The practical questions in our modern industrial organization in the fields of management, labor unions and the economic life of members of the working force. The history of organized labor and the growth of theories in management current policies in the national and state governments to control industrial relations. Prerequisite: Econ. 211.

Econ. 413 — Money, Banking and Fiscal Policy

The historical background and development of monetary practices and principles, the principles of banking, with special attention to commercial banking and credit regulations, and current monetary and banking developments, Prerequisite: Econ. 211.

Econ. 423 — History of Economic Thought

The different economic theories propounded in the past and their effect on present day thinking about economic, business, and political systems. The surplus value theory, economic planning as a part of government responsibility, relations of family budgets to Engel's Law, government responsibility for employment, and rent control. Prerequisites: For Bus. Ed. students — Econ. 211, 212, and Hist. 223. For other students — Hist. 212, 222, and Econ. 211.

HISTORY

Hist. 211 — History of Civilization to the 17th Century 3 cr. hrs.

The development of western and some eastern institutions, beginning with the early civilizations of the Nile and the Tigris-Euphrates Valleys; continuing to the opening of the 18th century. Significant contributions are examined.

Hist. 212 — History of Civilization Since the 17th Century 3 cr. hrs. The effect of previous development upon the modern period; continuing development of those institutions and cultures through examination of the commercial; industrial and agricultural revolutions, political evolution, and social and intellectual changes.

Hist. 221— History of the United States and 3 cr. brs. Pennsylvania to 1865

A chronological study of the United States covering the period from the Discovery of America through the Civil War. Social, economic, political, and cultural history, and the same aspects of Pennsylvania.

Hist. 222 — History of the United States and 3 cr. hrs. Pennsylvania Since 1865

Political, social, and economic developments of the United States from the Civil War to the present. Similar developments in Pennsylvania history treated concurrently.

3 cr. brs.

Hist. 223 — Economic History of the United States 3 cr. brs.

Begins with the European background for colonial expansion and continues to the present. The growth of American economic institutions.

Hist 231 — History of Europe from Renaissance to 1815 3 cr. brs.

The political, social, economic and cultural development of Europe from 1300 to 1815. The Renaissance and Reformation, the appearance of modern economic institutions, such as capitalism, and the emergence of national states in western and eastern Europe. The subsequent advancement or decline of these is examined.

Hist. 232 — History of Europe Since 1815 3 cr. brs.

The rise of nationalism, the evolution of liberalism and the new imperialism in conjunction with other significant economic, cultural, political and social developments. The great conflicts of the twentieth century and the rise of the ideologies.

Hist. 244 — History of Russia

The pre-Kievan period to the present. The Kievan State, the rise of Muscovy, and the creation of the empire under Peter the Great and Catherine II, the revolutionary movement, the revolutions of 1905 and 1917, the N. E. P., the five year plans, the U.S.S.R. in World War II, and the subsequent development of Soviet Power.

Hist. 253 — History of Latin America

The contributions of Indian culture, explorations of the conquistadores, Iberian colonial institutions, the struggle for independence, and the formation and growth of the twenty states.

Hist. 323 — History of Colonial America

Discovery and exploration of the new world and the settlement and development of Dutch, English, French, Spanish and Swedish Colonies. The rise of divergent interests and the struggle for empire between France and England. Colonial influence on the early culture and institutions of the United States and upon subsequent developments. Prerequisite: Hist. 222.

Hist. 325 — Social and Cultural History of the United States 3 cr. hrs.

Aspects of American life, such as religion, education, social structure and institutions, cultural and intellectual achievements. Emphasis upon the many factors and forces which molded and modified that society and culture. Prerequisite: Hist. 222.

3 cr. brs.

3 cr. hrs.

Hist. 326 — Diplomatic History of the United States

The methods by which our diplomats and statesmen achieved or failed to achieve success in our various foreign relations involving many counties, and the determining factors at the time at home and abroad. Emphasis given to the machinery of diplomacy. Prerequisite Hist. 222.

Hist. 327 — Twentieth Century United States History 3 cr. brs.

Recent United States history both in the light of the emergence of the United States to the status of a great World Power and in the context of the political, economic, and social forces at work internally. Prerequisite: Hist. 222.

Hist. 333 - Social and Cultural History of Modern Europe 3 cr. brs.

The major social and cultural developments within European civilization since 1500. Cultural developments, general trends, such as Romanticism and Realism, and an examination of the fine arts, literature and philosophy. Prere-Prerequisite: Hist. 232.

Hist. 353 - Latin America and the United States 3 cr. brs.

The past thought and culture of Ancient Far Eastern peoples as they help to explain the present, with emphasis on the more recent history of the area. The impact of the West upon major political, social, economic and intellectual problems and developments in the Far East.

Hist. 344 — Twentieth Century World History 3 cr. brs.

The breakdown of European policy and the growth of new economic and political doctrines — Fascism, Communism and Nazism. War becomes the means of settling disputes and freedom tends to be replaced in men's minds by their desire for security. Prerequisites: Hist. 222 and Hist. 232.

Hist. 345 — History of England

British development from prehistoric times to the present. Includes the commercial, agricultural and industrial revolutions, the struggle between Monarch and Parliament, religious changes and the creation of the Empire. Prequisite: Hist. 232.

Hist. 353 - Latin America and the United States

The diplomatic, economic, social, and cultural relations between the Latin American nations and the United States from colonial times to the present, with emphasis on the Monroe Doctrine, western hemispheric relations since 1900, and the Organization of American States.

3 cr. brs.

3 cr. brs.

Hist. 423 — Problems in United States History 3 cr. brs.

The persistent and recurring problems of the United States are examined in terms of analysis of the problems, previously suggested solutions, and the forces that have created the problems. Prerequisite: Hist. 222.

Hist. 433 — History of the Renaissance and Reformation

The transition from the medieval to the Modern Age. The new forms of urban social and economic life, humanism and achievements in the fine arts, exploration, progress in science and invention, and the nature of the new national states of Europe.

Hist. 443 — Selected Contemporary Cultures 3 cr. brs.

Contemporary developments in selected cultural areas of the world to promote better world understanding. Current problems, achievements and failures of people and social orders in the fields of art, religion, philosophy, politics, literature, music, customs, education and social relations.

PHILOSOPHY

Phil. 211 — Introduction to Philosophy

An attempt to develop systematically a number of general topics which the sciences, in their attempts to specialize, do not encompass. Some of these are forms of argument, kind of knowledge, nature of reality, individual and social values, and standards of conduct.

Phil. 302 - Logic

A study of the laws of systematic thinking. Included is an examination of logical forms of argumentation, the syllogism, and the methodology of the deductive sciences.

Phil. 306 - Philosophy of Religion

A critical analysis of religious faith. Particular attention is given to the nature of religion, evidence supporting religious belief, and problems and challenges to religion. Prerequisite: Phil. 211.

POLITICAL SCIENCE

Pol., Sci. 211 - United States Government

A study of American national government with emphasis on basic concepts, structure, powers, procedures and problems.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

Pol. Sci. 313 — State and Local Government

A comparison of the states' structural institutions, together with an examination of the functions and problems of state, municipal, and special governmental units. Prerequisite: Pol. Sci. 211.

Pol. Sci. 314 — Political Parties and Elections

The structures and functions of political organizations, minor parties, campaign financing, theories of voting and voting behavior, and the role of pressure groups. Prerequisite: Pol. Sci. 211.

Pol. Sci. 323 — Comparative Governments

Based primarily on the governments of the United Kingdom, France, Western Germany, and the Soviet Union, with comparison of institutions and political systems of the selected countries and the contemporary innovations of these four forms of government in non-European States. Prerequisite: Pol. Sci. 211.

Pol. Sci. 324 — International Relations

Political theory of the state, sovereignty, and government, and a detailed examination of their component parts. The sources of national power, the results of national power, in the form of disputes, conflicts, and wars, or alliances, balances of power, and settlements of international law in international courts. Prerequisite: Pol. Sci. 211.

Pol. Sci. 433 - History of Political Thought

Important political theorists of the past and their proposals with reference to their validity at the time, and their application and acceptance today. Liberty, authority, democracy, individualism, nationalism, and internationalism. Prerequisite: Hist. 212, 222; Pol. Sci. 211.

SOCIOLOGY

Soc. 211 — Principles of Sociology

The basic characteristics of group behavior, the organization of society and culture, individual and community adjustments, in the light of their origin, development, form, and functions.

Soc. 313 -- Contemporary Social Problems

Urgent social problems and proposals offered for their solution. Topics include social change, personal mal-adjustment, social disorganization, mobility, delinquency, racial and economic tensions, and special problems of youth, families and aging. Prerequisite: Soc. 211.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. hrs.

Sec. 315 — Racial and National Minority Groups 3 cr. brs.

An analysis of racial and minority relations involving racial, national, and religious minorities in the United States. Emphasis will be placed on the present system of minority relations with efforts being made toward possible adjustments. Prerequisite: Soc. 211.

Soc. 323 — Introduction to Anthropology 3 cr. hrs

Human prehistory, physical types of man, language distributions, cultural and social achievements of pre-literate peoples, cultural processes and the role of culture in personality formation.

Soc. 325 — Comparative Non-Literate Cultures. 3 cr. brs.

Intensive functional analysis of selected non-literate societies in contrasting cultural and natural areas (Africa, Pacific Islands, etc.) Prerequisite: Soc. 211 or 323.

Soc. 331 — Marriage and Family

Cultural traditions of the marriage and the family and the new problems in social behavior these institutions face in a changing society.

DEPARTMENT OF GEOGRAPHY

Geog. 101 — World Geography

Patterns of the natural environment throughout the world such as climate, soil, and vegetation, and man's adjustment to them, with special emphasis placed upon man's economic and cultural responses.

Geog. 121 — Economic Geography 3 cr. brs.

The economic regions of the world together with their relationship to current world economic problems.

Geog. 223 — Geography of the United States and Pennsylvania 3 cr. brs.

Pennsylvania and its relationships to the nation, the physical setting, present inhabitants, occupations, resources, present use of resources, and future outlook.

Geog. 224 — Geographic Influences in American History 3 cr. brs.

The relationship between the historical movements in the Unitd States and the natural environment as a stage on which the action is portrayed. Prerequisite: Hist. 222.

Geog. 233 — Geography of Europe

Europe's physical characteristics, topography, transportation systems, resources, population, and trade.

Geog. 243 — Geography of Asia

The physical characteristics of Asia and its social, cultural, and economic aspects.

Geog. 244 — Geography of Latin America

A regional study of South America, Central America and the islands of the Caribbean Sea. The human and physical factors of the geographic environment.

Geog. 245 — Geography of Africa

The physical geographic elements (climate, soils, natural vegetation, minerals, physiography and water) as they relate to agriculture, grazing, mining, manufacturing, transportation, communication, and political boundries for all of Africa.

Geog. 246 — Geography of the Soviet Realm 3 cr. hrs.

The physical and human geography of the Soviet Union is studied along with some emphasis upon the relationship between that country and the so-called "satellite" nations.

Geog. 247 — Geography of the Pacific Realm 3 cr. hrs.

The physical and cultural geography of Australia, New Zealand, the Philippines, Hawaiian Islands, Micronesia, Melanesia, and Polynesia is studied.

Geog. 323 — Political Geography

This course includes an analysis of the factors — physical, human, and economic — which influence the changing pattern of the political map of the world.

Geog. 355 — Physiography

The study of the dynamic, tectonic, and graduational forces, which, in conjunction with climatic and biologic forces, have shaped the earth into its present form and are constantly refashioning and modifying it.

Geog. 354 - Climatology

Climate, (temperature,, moisture, pressure and winds, air masses and storms) and the distribution of varied climates over the earth.

3 cr. brs.

3 cr. bis.

3 cr. brs.

cr. prs.

3 cr. hrs.

3 cr. brs.

Geog. 355 — Cartography

The use, construction, and interpretation of maps, models, globes, charts, and geographic diagrams are presented.

Geog. 356 — Meteorology

A study of the atmosphere and the laws and underlying principles of atmospheric changes.

Geog. 357 — Physical Geology 3 cr. brs.

The landscape in relation to the structure of the earth's crust. The agencies continually at work changing the earth's forms, the classification and interpretation of rocks, and the evolution of life.

Geog. 358 — Conservation of Natural Resources 3 cr. hrs

The extreme importance to our economy and to our very lives of this nation's vital resources. Conservation of soils, forests, grasslands, waters, minerals, the air, and human resources.

Geog. 361 — Historical Geology

Chronology of earth history as interpreted from rocks and fossils. Maps, slides, specimens, films, field trips, and correlative reading supplement lectures. Prerequisite: General Biology 103-104 or Geog, 357-Physical Geology.

Geog. 451 — Field Techniques in Earth and Space Science 3 cr. brs.

Intensive field training in the use of equipment and techniques in the areas of geology, astronomy, meteorology, and cartography. Each area is offered in successive years under the guidance of the instructor normally responsible for that area. Permission of the instructor required to enroll.

Geog. 453 - Astronomy

3 cr. brs.

The solar system, its physical characteristics and motions, the interesting phenomena of our galactic systems, and those of extra-galactic space, together with the study of constellations.

DIVISION OF BUSINESS EDUCATION PURPOSE

The State Department of Public Instruction has designated the Bloomsburg State College as one of the institutions in which secondary business teachers of the Commonwealth may be educated. The primary purpose of

3 cr. brs.

3 cr. hrs.

the program of the Division of Business Education is to prepare teachers for the junior and senior high schools of Pennsylvania.

Upon completion of the Business Education Curriculum, the Bachelor of Science Degree is conferred and application may be made to the State Department of Public Instruction for a teaching certificate. The courses included in the curriculum qualify graduates to secure certification to teach business subjects in any junior or senior high school in Pennsylvania.

ENTRANCE REQUIREMENTS

The Business Education Curriculum has proved so popular since it was first introduced in 1930 that only a limited number of selected students are admitted. All prospective students who plan to select this curriculum should apply to the Director of Admissions early in the year preceding the year in which they expect to enroll in the college. Only those high school students whose records indicate the ability to complete the curriculum satisfactorily are accepted. This does not mean that students applying for admission must have had business courses in high school or business college. Many students who have bad no previous business training complete successfully the Business Education Curriculum.

As this curriculum is of college grade, advanced standing is not granted for work completed in secondary schools, business colleges, or non-accredited business schools.

ADVANCED STANDING

Applicants for admission to the Business Education Curriculum who have earned credit at other colleges or universities should submit a transcript of this credit when applying for admission. Advanced standing will be granted for courses completed at other institutions of college grade when, in the judgment of the Dean of Instruction, such courses are equivalent to subjects prescribed in the Business Education Curriculum.

If a tentative evaluation of courses completed at other colleges or universities is desired, a transcript showing the names of the courses, the grades, and the credit hours earned should be sent to the Director of the Division of Business Education. A tentative evaluation can be requested prior to making application for admission to the college.

REGULATIONS GOVERNING CERTIFICATION OF BUSINESS TEACHERS

(Effective October 1, 1963)

The following regulations governing the issuance of certificates for the teaching of business subjects in the secondary schools of Pennsylvania have been approved by the State Board of Education to become effective October 1, 1963:

- I. Provisional College Certificate Issued to persons who have met the basic requirements for the issuance of the Provisional College Certificate and who have met the following specific requirements:
 - A. Completion of thirty-six credit hours in business education including twelve credit hours distributed in at least four of the following subjects: bookkeeping, business law, business organization and management, economics, office practice (required), and principles of selling, and
 - B. Completion of the requirements of two or more of the following:

Bookkeeping	12	credit	hours
Retail Selling	9	credit	hours
Shorthand	9	credit	hours
Typewriting	6	credit	hours

II. Permanent College Certificate — The Provisional College Certificate will be made permanent on evidence of three years of successful teaching on the Provisional College Certificate in the public schools of Pennsylvania and the satisfactory completion of 24 credit hours (effective October 1, 1963) of post baccalaureate study subsequent to the granting of the Bachelor's Degree. Students should be aware that the State Board of Education may in the future increase the number of credit hours of post baccalaureate study required for the issuance of a Permanent College Certificate.

PLACEMENT OF GRADUATES

Graduates of the Division of Business Education are given assistance by the college in securing teaching positions. This assistance is provided without charge by the Placement Service which maintains contacts at all times The faculty of the Division of Business Education also have a special interest in securing desirable positions for graduates and provide assistance whenever possible. The Placement Service of the college is also available without charge to any alumnus of the Division of Business Education who desires to secure a new position.

EQUIPMENT AND FACILITIES

The faculty of the Division of Business Education recognizes that business skills cannot be learned wholly from textbooks but must be acquired through practice in the use of machines and equipment found in the modern office. Business students are provided the opportunity to acquire skills in the operation of up-to-date office machines and equipment by having available for their use the most modern adding, calculating, bookkeeping, duplicating, dictating, and transcribing machines possible as well as manual and electric typewriters.

The new building which howses the Division of Business Education was specifically designed to accommodate the needs of a growing business education program. In developing the plans for the construction of Sutliff Hall, careful consideration was given to changes which are occurring and which will probably occur in the automated business office and the effect these changes will have on preparation programs for business teachers. The opportunity to attend classes in a building specifically designed for a modern business education program permits students to gain experience that will be valuable to them in suggesting facilities for equipping a business education department in the secondary school.

OFFICE PRACTICE AND BUSINESS EXPERIENCE

The student completing the Business Education Curriculum has an opportunity to spend one year in office and secretarial practice courses. During one semester each student acts as a business worker in a campus office where he is held responsible for the same vocational efficiency as the regularly employed office workers. This experience is supplemented by class instruction in the following office skills and business knowledges: alphabetical,

geographical, and numerical filing; dictation and transcription at high rates of speed; stencil preparation, including the use of the mimeoscope and the operation of the multilith, varityper, and mimeograph; preparation of master sheets and operation of liquid process duplicating machines; operation of dictating and transcribing machines; operation of adding, calculating, and bookkeeping machines; and the preparation and use of business papers. The student is also given an opportunity to visit the College Data Processing Center for observation and practice.

Up .. . and In

THE FOUR-YEAR CURRICULUMS IN **BUSINESS EDUCATION**

The Business Education curriculum authorized by the State Board of Education prepares students for certification to supervise or teach business subjects.

Unsatisfactory completion of the basic year of the curriculum students must choose one of the sequences (General, Secretarial, or Accounting) shown on the following pages. STUDENTS NEED NOT HAVE HAD BUSINESS TRAINING IN HIGH SCHOOL to complete the business sequences.

For administrative reasons the sequence of courses in subject to change. The first number after each course refers to clock hours, while the second indicates the number of credit hours.

COURSE DESCRIPTION DIVISION OF BUSINESS EDUCATION

Bus. Ed. 101 — Introduction to Business Organization and Finance 3 cr. brs.

Business activity with attention to types of business organization, managerial controls utilized in business and financing of business enterprises.

Bus. Ed. 301 — Elementary Typewriting 2 cr. brs.

Presentation and mastery of the keyboard and operating parts of the typewriter; stroking techniques and control emphasized; instruction in preparing business letters, manuscripts, carbon copies, envelopes, business forms, and cards; teaching techniques.

Bus. Ed. 202 — Elementary Typewriting 2 cr. brs.

Production techniques; typing letters, envelopes, and cards; multiple carbon work, preparation of manuscripts, tabulation, and legal forms; preparation of stencils and liquid process masters; teaching techniques. Prerequisite: Bus. Ed. 201 Elementary Typewriting.

Bus. Ed. 211 - Elementary Shorthand 3 cr. brs.

Beginning course in Gregg Shorthand Simplified in which theory is presented with dictation woven into an integrated course; fluent reading and writing of familiar and unfamiliar material.

Bus. Ed. 212 - Elementary Shorthand

Development of ability to read shorthand notes; fluency of writing and correctness of outlines stressed; dictation and transcription teaching methods and techniques. Prerequisite: Bus. Ed. 211 Elementary Shorthand.

Bus. Ed. 221 - Principles of Accounting

Development of the accounting cycle covering both service and merchandising activities of a sole proprietorship; consideration of special journals and special ledgers, accrued and deferred items, and business papers.

Bus. Ed. 222 — Principles of Accounting 3 cr. hrs.

Further development of the accounting cycle; recording, summarizing, and interpreting financial data for partnerships and corporations; development of an understanding of the voucher system. Prerequisite: Bus. Ed. 221 Principles of Accounting.

3 cr. brs.

3 cr. brs.

Bus. Ed. 241 — Salesmanship

Fundamental principles underlying the sales process; consideration of the salesman in relation to his firm, his goods and his customers; a study of the approach, demonstration, and close of individual sales transactions.

Bus. Ed. 301 — Advanced Typewriting

Advanced application of typewriting skills. Accuracy, speed, and job techniques; spelling, grammar, and principles of teaching stressed. Coordinated with Advanced Shorthand for those students seeking certification in Shorthand. Prerequisite: Bus Ed. 202 (Elementary Typewriting).

Bus. Ed. 311 — Advanced Shorthand

Practice in dictation and transcription of shorthand, with speed and accuracy stressed; grammar, shorthand penmanship, and principles of teaching of shorthand. Prerequisite: Bus. Ed. 212 (Elementary Shorthand).

Bus. Ed. 312 - Secretarial Practice

Stenographic and secretarial activities; dictation of type of correspondence; study of problems and procedures encountered in business offices; consideration of office etiquette; supervised secretarial work in school offices. Prerequisite: Bus. Ed. 311.

Bus. Ed. 321 — Intermediate Accounting

Preparation and interpretation of principal accounting statements; theoretical discussion of the standards of good accounting practice, with emphasis on current items. Prerequisite: Bus. Ed. 222 (Principles of Accounting).

Bus. Ed. 322 — Intermediate Accounting

Further discussion of the standards of good accounting practice with emphasis on non-current items; solution and discussion and various contemporary accounting problems; detailed analysis of major financial statements of business organizations. Prerequisite: Bus. Ed. 321.

Bus. Ed. 331 - Business Law

Legal rights and liabilities; fundamental principles of law applicable to business transactions with specific consideration of law as it pertains to contracts, bailments, personal and real property, and sales; sources of law and the judicial system.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

2 cr. brs. beed, and

Bus. Ed. 332 - Business Law

Fundamental principles of law as they pertain to guaranty and surety contracts, insurance, principal and agency relationships, employer-employee relationships, bankruptcy proceedings, estates and trusts, and various forms of business organizations. Prerequisite: Bus. Ed. 331 (Business Law).

3 cr. brs.

Bus. Ed. 333 — Business Correspondence and Reports 3 cr. brs.

Review of essentials of grammar; study of the vocabulary of business; preparation of business forms; writing business letters of various types; preparation of personal data sheets; organization and preparation of business reports. Prerequisite: Bus. Ed. 202 (Elementary Typewriting).

Bus. Ed. 334 — Advanced Mathematics (Business Mathematics) 3 cr. brs.

Basic concepts and principles related to fundamental business operations. Credit, insurance, taxes, selling and finance, investments, the interpretation of statistical data; methods of teaching business arithmetic in the secondary school.

Bus. Ed. 341 — Principles of Retailing 3 cr. brs.

A study of the principles of successful retailing. The course covers the scope of retailing, the dynamic changes currently under way, the retail store, retail organization, buying, selling, receiving, pricing, inventories, location and policy.

Bus. Ed. 351 — Teaching of Business Subjects in the 3 cr. hrs. Secondary School

Psychological foundations of teaching; methods of teaching shorthand, typewriting, bookkeeping, and basic business subjects; basic skill building procedures; demonstration teaching; lesson planning.

Bus. Ed. 361 — Problems of Business Education in the 3 cr. brs. Secondary School

The objectives of secondary business education; guidance, placement, follow-up; administration of the business department; physical layout, equipment, supplies, selection of textbooks; curriculum and its development; tests and measurements; current trends in business education. Bus. Ed. 401 — Clerical Practice and Office Machines 3 cr. hrs.

Office dictating and transcribing machines, key-driven and rotary calculators, printing calculators, adding-listing machines, and automated office practices; filing systems, business papers, and office procedure; teaching techniques in the secondary school. Prerequisite: Bus. Ed. 202.

Bus. Ed. 402 — Student Teaching in Business Subjects in the 12 cr. brs. Secondary School

Supervised educational activities in the secondary school. Students observe and teach in actual classroom situations through the cooperation of business departments in various student teaching centers of the College.

Bus. Ed. 411 — Professional Practicum (including School Law) 2 cr. brs. in Business Education

Operated concurrently with Student Teaching in Business Subjects in the Secondary School and deals with orientation to Student Teaching, planning, professional growth in service, placement, school laws, classroom management.

3 cr. brs. Bus. Ed. 421 - Cost Accounting

The elementary of production costs using the job order system, the process cost system, and the standard cost system; development of the ability to interpret the meaning of cost data. Prerequisite: Bus. Ed. 222.

3 cr. brs. Bus. Ed. 422 — Auditing Theory and Procedure

Principles, standards, procedures and techniques applicable to internal and public auditing; consideration of the audit report and development of working papers for preparation of the report. Prerequisite: Bus. Ed. 222.

Bus. Ed. 423 — Federal Tax Accounting

Procedures in accounting as dictated by Federal tax laws; study of laws governing the preparation of Federal Income Tax returns for individuals and small business. Prerequisite: Bus. Ed. 222.

Bus. Ed. 431 — Office Management

A study of the principles of management as they apply to the office with consideration given to organizational principles, office layout, equipment, personnel relations, standards of production, wage scales, procedures, and budgeting.

East Hall (New Women's Dormitory)

DIVISION OF SPECIAL EDUCATION

PURPOSE

The State Department of Public Instruction has designated the Bloomsburg State College, Bloomsburg, Pennsylvania, as one of its colleges in which students of the Commonwealth may be educated as teachers of the speech and hearing handicapped, and as teachers in special classes for the mentally retarded. The Bachelor of Science in Education degree is conferred on students who satisfactorily complete the approved special education sequences.

Graduates are fully certified by the Department of Public Instruction to supervise or teach pupils in special classes in the elementary and intermediate grades and in high schools of Pennsylvania.

ADMISSION REQUIREMENTS

All individuals planning to enroll as Freshmen should make their reservations immediately. The number of students presently enrolled in this curriculum limit the number that can be accepted. High school graduates, whose records indicate ability, personality traits, and health necessary to complete satisfactorily the curriculum requirements, are eligible.

Prospective students are urged to visit the College and discuss their proposed areas of study with the Director of Special Education and members of the faculty of the Division, and with the Dean of Instruction.

ADVANCED STANDING

Applicants who previously have earned credits in other institutions should submit a transcript of such credits before they enroll. If they desire an evaluation of their transcript they should forward it, indicating the name of the course, the grade, and the credit hours to the Dean of Instruction. Advanced standing will be granted when such courses are judged to be equivalent to courses prescribed in the special education curriculum.

TEACHER PLACEMENT

Graduates of the College are placed without charge through cooperation of the Placement Service of the Department of Public Instruction and the Placement Service of the College. The Division of Special Education also is actively interested in securing employment for its graduates. Teachers- inservice enrolled in the special education curriculum may avail themselves of the placement service, if they wish to obtain employment in other districts.

EQUIPMENT

Special education skills require up-to-date equipment to complement knowledge acquired from texts. The Division of Special Education is well equipped with clinical and classroom aids.

The speech and hearing suite in the Special Education Center located in Navy Hall is equipped with pure-tone and speech audiometers, Bekesy audiometry, psycho-galvanometry, speech sonograph equipment, single and dual track tape recorders, disc-record cutting machines, phonographs, auditory train-ear units, desk and individual model hearing aids, language master, and library of speech correction materials and texts.

Instructional aids in the psychological clinic in the Special Education Center consist of telebinocular tests, personality, aptitude and achievement inventories for all ages, individual and group verbal and performance scales of intelligence, and individual and group test booklets.

The Reading Center in Navy Hall is equipped with a Leavell Eye-Hand Coordinator, a tachistoscope and graded slides, Keystone Telebinocular, filmstrip projector, phonograph, children's records, SRA Reading Laboratory, two reading accelerators, collection of primary and intermediate texts for children, collection of mimeographed reading materials, and primer typewriter.

CLINICAL PRACTICE, SPECIAL CLASS EXPERIENCE, AND STUDENT TEACHING

Students enrolled in special education curriculums have the opportunity of participating in carefully supervised and graded special class work in special class and in clinical experience at the Speech and Hearing Clinic of the College. After completion of course work and clinical practice on campus, students participate in student teaching programs in area public schools. Institutions and public schools participating in the program include Selinsgrove State School and Hospital, Geisinger Medical Center, Bloomsburg Public Schools, Lycoming County Public Schools, Schuylkill County Public Schools, Montgomery County Public Schools, and the Williamsport School District.

CERTIFICATION

COLLEGE CERTIFICATES IN SPECIAL EDUCATION FOR THE MENTALLY RETARDED AND IN SPEECH CORRECTION

I. BASIC REGULATIONS

- A. Graduation
- B. Citizenship, Character, etc.
- D. Professional Education (18 credit hours)

II. COMPREHENSIVE COLLEGE CERTIFICATES IN ELEMENTARY OR SECONDARY EDUCATION AND AN AREA IN SPECIAL EDUCATON — 48 credit hours.

A. Provisional

The institution shall certify that the candidate has carefully completed a coordinated and integrated program of professional preparation of not less than 48 credit hours covering specific areas of elementary or secondary education and a specific area of special education.

B. Permanent

Permanent certification now requires the completion of 24 semester hours of approved course work, half of which must be in academic subject matter and the balance in areas of general education, professional education, or specialized education.

III. EXTENSION OF CERTIFICATES — SPECIAL EDUCATION FOR THE MENTALLY RETARDED

A. Provisional

A certificate valid for teaching in the elementary or secondary school may be extended as follows:

Minimum of six (6) credit hours of courses in psychology of exceptional children, six (6) credit hours of specialized preparation

in curriculum and methodology for handicapped children, including arts and crafts, music, and audio-visual aids.

Student teaching experience and observation in classes for mentally retarded children and clinical observation should be a part of the student teaching requirement. Teachers fully certificated in elementary education in which student teaching has been required may fulfill this requirement with one year of teaching experience in classes for the mentally retarded.

A certificate valid for teaching in the secondary schools may be extended for teaching exceptional children as follows:

Six (6) credit hours of courses in the area of psychology of exceptional children, a basic course in the teaching of reading, a basic course in the teaching of arithmetic, and six (6) additional credit hours of psychology in curriculum and methodology for the mentally retarded including arts and crafts, music, and audio-visual aids. Teachers fully certificated in secondary education in which student teaching has been required may fulfill this requirement with one year of teaching experience in classes for the mentally retarded.

B. Permanent

Certificates that have been extended to include special education may be made permanent upon the completion of twenty-four (24) credit hours in methodology, curriculum and materials of instruction, and three (3) years of satisfactory teaching experience. Half of the twenty-four hours must be in academic subject matter, and the balance in areas of general education, professional education, or specialized education.

IV. EXTENSION OF CERTIFICATES — SPEECH CORRECTION

A. Provisional

A certificate valid for teaching in the elementary or secondary school may be extended as follows:

Minimum of eighteen (18) credit hours of Speech Correction with not less than six (6) credit hours in the area of psychology or education of exceptional children, six (6) credit hours in the area of the principles and practice of Speech Correction and six (6) credit hours of electives related to Speech Correction.

B. Permanent

Certificates that have been extended to include Speech Correctionist may be made permanent upon the completion of twenty-four (24) credit hours in courses related to this field of study, and to general education, and professional education.

V. SCOPE OF CERTIFICATES

The following certificates are valid for teaching the specific area of preparation in special education at the elementary or secondary level:

- A. Comprehensive College Certificate in elementary or secondary education and an area in special education.
- B. A valid elementary or secondary certificate extended to include an area in special education.

COURSE DESCRIPTIONS

DIVISION OF SPECIAL EDUCATION

SPECIAL EDUCATION

Sp. Ed. 201 — Education of Exceptional Children 3 cr. brs.

The educational problems of exceptional children; the gifted, retarded, neurologically impaired, physically handicapped, and emotionally maladjusted. The history and philosophy of special education, programs for exceptional children.

Sp. Ed. 351 — Special Class Methods

A specialized course dealing with organization of instruction for trainable and educable mentally retarded. Major emphasis will be on curriculum adjustment and evaluation needed for pre-school, primary, intermediate and secondary school classes.

3 cr. brs.

Sp. Ed. 352 — Language Arts for Special Classes 3 cr. brs.

A student-centered workshop approach in analysis of methods, research and philosophies currently in use in the teaching of language arts to special classes. Practice in the use of various teaching aids and machines related to student projects in language arts applicable to individual needs of children in special classes.

Sp. Ed. 361 — Problems in Special Education 3 cr. brs.

Current and evolutionary trends, objectives and organization of special education classes and programs. Competence of teachers, curriculums, equipment and materials. Analysis of tests and measurements important for effective teaching programs.

Sp. Ed. 401 - Student Teaching of Mentally Retardy Children 12 cr. hrs.

Thirty hours per week of supervised student teaching experience under the direction of the professional staff in cooperation with local and state school divisions.

Sp. Ed. 411 - Professional Practicum

Scheduled concurrently with student teaching. Develops experience in the selection, organization, and implementation of modern instructional materials. Student teaching activities and problems are evaluated within the framework of public school laws.

Sp. Ed. 416 — Psychology of Exceptional Children 3 cr. brs.

Emphasis on symtomatology, personality formation, and developmental and therapeutic consideration for the exceptional child.

Sp. Ed. 400 - Workshop In Problems and Methods in Special Education

Investigations are made of recent developments in the education of the educable mentally retarded. The impact of these trends on methods and techniques of teaching special classes are emphasized. Topics will vary according to interest and needs of students.

SPEECH CORRECTION

Sp. Corr. 151 — Speech Problems

An introduction to speech defects commonly found among school children, and practical means for helping children with speech problems.

Sp. Corr. 152 - Voice and Diction

The mechanical aspects of speech production are studied and principles of speech therapy are illustrated in relation to the students' own performance in terms of voice quality, pitch, articulation and time elements. Ear-training and self-improvement of prospective clinicians or teachers are emphasized.

Sp. Corr. 251 — Phonetics

The International Phonetic Alphabet is used as a basis for study of the sounds of speech. Students develop competence in reading and transcription of symbols, with a view to practical application in recording defective sounds during articulation testing. Prerequisite: Sp. Corr. 152.

Sp. Corr. 252 - Speech Pathology

Causes, symptoms, nature and management of disorders of speech. Procedures and techniques for evaluation and therapy are covered and applicable research findings are explored. Prerequisites: Sp. Corr. 151, 251, 276.

3 cr. hrs.

3 cr. brs.

3 cr. brs.

3 cr. brs.

2 cr. brs.

cr. brs. (varies)

Sp. Corr. 276 — Hearing Problems

The causes, evaluation techniques, and rehabilitative procedures for the various types of hearing problems are explored. Related auditory, speech, psychological and educational factors are discussed. The roles of parent, educator and specialist in the rehabilitation program are investigated. Prerequisite: Sp. Corr. 151.

3 cr. brs.

Sp. Corr. 351 — Clinical Methods in Speech Correction 2 cr. brs.

Materials and methods to prepare the student for clinical practicum and practice teaching. Observation of demonstrations by staff and practice in making lesson plans for representative individual and group therapy sessions. Prerequisites: Sp. Corr. 252, 276.

Sp. Corr. 352 — Speech Clinic (Practicum) or Clinical Practicum I 3 cr. hrs.

Students are provided an opportunity to begin developing their clinical skills by doing supervised work with milder cases of speech and hearing disorders. Clinical procedures and techniques are discussed at weekly staff conferences. Planned observations at Geisinger Medical Center are included.

Sp. Corr. 353 — Speech Clinic, or Clinical Practicum II 3 cr. hrs.

Students continue supervised clinical work on campus and Geisinger Medical Center, and are given increasing responsibility and experience with cases of greater complexity. Prerequisite: Sp. Corr. 352.

Sp. Corr. 354 — Articulation Problems in Public Schools 3 cr. hrs.

Defective articulation as the problem of greatest frequency in the schools is fully investigated. Normal and abnormal speech and language development, evaluative procedures and therapeutic techniques are discussed. Emphasis is placed on available materials and techniques useful in public school therapy. Prerequisites: Sp. Corr. 151, 251.

Sp. Corr. 376 — Auditory Training and Speech Reading 3 cr. brs.

Current teaching methods for educating children and adults with moderate and severe hearing losses are investigated. A comparative analysis is made of prevailing theories and techniques. Prerequisites: Sp. Corr. 251, 276.

Sp. Corr. 402 — Student Teaching in Speech Correction 12 cr. hrs.

A full semester program of 30 hours of speech correction per week is provided for each student. Prospective teachers of the speech and hearing handicapped gain experience by working with professional people in the field. Sp. Corr. 452 — Anatomy of Speech and Hearing Mechanisms 3 cr. hrs. Embryology, anatomy, neurology and physiology of the larnyx and ear are studied. The actual processes involved in human speaking and hearing are explored. A co-operative lecture series is developed for the students by the medical staff at Geisinger Medical Center. Prerequisite: Sp. Corr. 252.

Sp. Corr. 466 — Speech Clinic, or Clinical Practicum III 3 cr. hrs.

Clinical experience with more complex disorders is provided. Differential diagnostic and therapeutic procedures for use in cases with cerebal palsy, aphasia, auditory impairments, cleft palate and stuttering are covered. Case studies and research are utilized. Prerequisite: Sp. Corr. 353.

Sp. Corr. 467 — Psychology of Speech and Hearing 3 cr. hrs.

The developmental aspects of language, normal and abnormal speech, and hearing patterns of individuals are discussed in relation to their total personality. Current educational and therapeutic trends and practices are reviewed. Prerequisite: Sp. Corr. 252.

Sp. Corr. 491 — Measurement of Hearing Loss 3 cr. brs.

The anatomy and physiology of the hearing mechanisms are studied. Etiology of hearing losses, interpretation of audiometric evaluations and available rehabilitative procedures are discussed. Laboratory experience in the administration of clinical audiometric evaluations is provided. Prerequisite: Sp. Corr. 276.

Sp. Corr. 400 - Workshop in Speech and Hearing Practices cr. hrs. (varies)

Modern developments in research are reviewed and analyzed for the purpose of integrating reliable and current concepts into classroom and clinical procedures in speech correction. Clinical practicums provide the student with an opportunity to put theory into practice. Topics will vary according to interest and needs of students.

THE PROGRAM IN THE ARTS AND SCIENCES

On May 8, 1962, the Council of Education of the Commonwealth of Pennsylvania authorized Bloomsburg State College to offer studies in the Arts and Sciences leading to the degree of Bachelor of Arts. The college at that time was specifically instructed to prepare curricula in the general

144 Bloomsburg State College

areas of the Social Sciences, the Humanities and the Natural Sciences, with concentration in the various fields of learning covered by those broad areas. Curricula have therefore been prepared for general education in the Arts and Sciences, for core studies relative to each of the three broad areas of concentration, and for major sequences within those areas. The college is, in fact, in the process of establishing major curricula in all fields: Business and Economics, Economics, History, Political Science, Sociology and Anthropology, Psychology, Geography, Art, English, Speech and Theatre Studies, French, German, Spanish, Music, Philosophy, Physics, Chemistry, Biology Mathematics, and Earth Science.

AN OVERVIEW

The Arts and Sciences program at Bloomsburg State College consists of four parts, which may be briefly outlined as follows:

I.	General Education	63 - 65	Credit	Hours
II.	Core Studies in the Social Sciences, the Humanities or			
	the Natural Sciences	27 - 30	Credit	Hours
III.	Studies in the Major-Area	18	Credit	Hours
IV.	Electives	15 - 20	Credit	Hours
	Total Required for the A.B. Degree	128	Credit	Hours

THE GENERAL EDUCATION REQUIREMENT

The General Education requirement is the heart of any curriculum in the Arts and Sciences. Its purpose is to prepare all students, whatever their field of concentration or their vocational intentions, for adult life as men and women living private lives; as members of their local communities; and as citizens of the Commonwealth, of the nation and of the world. The General Education requirement is essentially the same in this college for students enrolled in the Arts and Sciences Program and for those enrolled in the various programs leading to degrees in professional education. Thus it is possible for students to "cross over" from one program to another within the first two years with a minimum of difficulty.

In order to achieve the purposes of General Education, the following 63-65 hour curriculum has been established. It will be noted that this

curriculum provides the student with experience and knowledge in all three of the great broad areas of learning in our culture: The Social Sciences, The Humanities and The Natural Sciences. In keeping with the ancient idea that mental development should be accompanied by respect for the body and its needs, courses in physical education and personal health have been included in the curriculum. The General Education requirement is as follows:

	Credit Hours
Science (Biology, Chemistry, Physics, or Earth Science)	6-8
Art or Music	
Literature	
Philosophy or Psychology	
Social Science (Economics, Political Science, Sociology,	
or Anthropology)	
English Composition	
Fundamentals of Speech	
Mathematics	
Foreign Language (Fr., Ger., or Span. 201-202)	6
History of Civilization	6
Geography	
Personal Health	
Physical Education	
Total	63-65 Cr. Hi

THE CORE REQUIREMENT

The beginning of specialization or study of material in depth in the Arts and Sciences Program occurs with the student's choice of a broad area of concentration. At Bloomsburg State College concentration is possible in any one of the three areas: Social Sciences, The Humanities, or Natural Sciences (Science and Mathematics). Concentration in one of these areas implies that the student will take from 27 to 30 credit hours of work in a series of courses regarded by the professors in that area of study to be central in importance to an understanding of their fields of knowledge. Work in the core may be begun in the sophmore or junior year.

Social Science Core	Credit Hours
Hist. 222-History of the United States and Pa, or Major	
Currents in United States History	3
Geog. 121-Economic Geography	3
Econ, 212-Principles of Economics II	3

Econ. 413-Money, Banking and Fiscal Policy	3
Soc. 313-Contemporary Social Problems	3
Soc. 323-Introduction to Anthropology	3
Pol, Sci. 313 Flements of Politicial Science	3
Pol. Sci. 314—Political Parties and Elections, or	
Pol. Sci. 323—Comparative Governments	3
Psy. 201—General Psychology	3
Total	27 Cr Hrs

146 Bloomsburg State College

II. Humanities Core

	Eng. 249-Shakespeare and one additional	<i>,</i>
	course in English Literature Phil. 301—Ethics (or Phil. 302 — Logic) and one additional co Speech 206—Oral Interpretation	urse in Philosophy
	Art History	
	Music History Foreign Language: A second year of college-level	3
	work in one modern foreign language	6
	Total	27 Cr. Hrs.
III.	Natural Science Core	Credit Hours
	A. For a major in Mathematics	
	1. Math. 211, 212-Analytical Geometry and Calculus	6
	 A full first year's work in three Non-Math Sciences (in addition to the one taken during the freshman year 	
	in fulfillment of the General Education Requirement in science)	
	Hence, all of the following:	
	Phys. 111, 112—General Physics	
	Chem. 111, 112—General Inorganic	
	Chemistry	
	Geog. 353, 357—Physiography & Physical Geology1	
	Biol. 103, 104—General Biology	
	Total	28-30 Cr. Hrs.
	B. For a major in Laboratory or Earth Science	
	1. Math. 211, 212—Analytical Geometry and Calculus	6
	 A full first year's work in two Non-Math Sciences (in addition to the one taken during the freshman year in fulfillment of the General Education Requirement in science — this one being normally the field of concentration) 	
	3. A full second year's work in Earth Science or the Labora-	
	tory Science of the student's field of concentration	
	Phys. 314—Electricity & Magnetism plus	
	Phys. 411—Mechanics OR	
	Chem. 221, 222–Qualitative & Quantitative Analysis	
	OR	
	Phys. 305-Earth and Space Physics	
	Geog. 354—Climatology OR	
	Biol. 341—Genetics plus	
	Biol. 241—Plant Anatomy or Biol. 321 Comparative Vertebrate Anatomy	
	Total	

1 Substitutoble in ony two-semester combination are Geog. 453 (Astronomy) and Geog. 361 (Historical Geology) except that the latter has the prerequisite Geog. 357 or Biol. 103-104.

THE MAJOR-AREA REQUIREMENT

Above and beyond the General Education and Core Requirements a minimum of 18 credit hours must be amassed in the general area of concentration (Social Sciences, Humanities, or Natural Sciences), — or in a specific field within this area, assuming that a sufficient number of courses are available.

For the achievement of this Major-Area Requirement some departments have recommended course sequences and/or specific course requirements:

1. Biology

Recommended Sequence¹ Biol. 341—Genetics Biol. 241—Plant Anatomy OR Biol. 321—Comparative Vertebrate Anatomy Biol. 331—Vertebrate Physiology Biol. 332—Histolology OR Biol. 411—Embryology OR Biol. 421—Plant Physiology Biol. 312—Ecology

2. Business and Economics (distinct from Economics alone)

Recommended Sequence:2

Bus. Ed. 221, 222—Principles of Accounting
Bus. Ed. 321, 322—Intermediate Accounting
Econ. 211, 212—Principles of Economics
Bus. Ed. 101—Intro. to Bus. Organization & Finance
Econ. 413—Money, Banking and Fiscal Policy³

3. Earth Science

Recommended Sequence:

Geog. 355—Cartography Geog. 356—Meteorology Geog. 358—Conservation of Natural Resources Geog. 361—Historical Geology Geog. 453—Astronomy

¹ It is assumed that two years of introductory work (1-General Biology; 2-Botany, Zoology) shall have been taken prior to this sequence, which is normally begun in the junior year.

² Normally begun in the sophomore year.

³ Also part of the Core Requirement in Social Sciences.

4. English

Required Courses:

```
Eng. 231, 232-British Writers
Eng. 401-Structure of English
    OR Eng. 402-History of the English Language
```

5. Speech

Recommended Sequence:

a. Basic Speech 208-Intro, to Theatre Arts Speech 221-Argumentation & Debate Speech 312-Fundamentals of Acting Speech 325-Extempore Speech b. Further Sequence for Public Address Speech 231-Intro. to Radio & Television Speech 241-Voice & Diction Speech 318-Discussion Speech 321-Persuasion

- c. Further Sequence for Theatre Studies
 - Speech 211-Theatre Production
 - Speech 311-Play Direction
 - Speech 314—Costuming for the Stage Speech 315—History of the Theatre Speech 319—Children's Theatre

ELECTIVES

For the Elective portion of the curriculum, which makes up the balance of the 128 credit hours required for graduation, students may take almost any courses offered by the college, with the logical exception of those in Professional Education, Physical Education, certain Business Education skills, etc. Approximately 15 to 20 credit hours are normally allowed for Electives (courses of the student's own choice.) However, for students intending to go on for graduate work the advisability of building up credits in a particular field to the fullest extent possible beyond the minimum 18-hr. Major-Area Requirement will naturally result in a corresponding reduction in the number of Electives available within their A.B. program.

NOTE ON PRE-PROFESSIONAL PROGRAMS: Students intending to transfer ultimately to a College of Medicine, Veterinary Medicine, Dentistry, Pharmacy, Law, Engineering, Theology, etc. should write immediately for the catalog and/or admission requirements of that particular college and, with the aid of the Director of Arts and Sciences at Bloomsburg State College, plan their undergraduate programs accordingly.

SCHEDULE GUIDES

In order that Arts and Sciences students may follow a course of study which becomes progressively concentrated, a schedule guide is offered here: one for those concentrating in either The Social Sciences or The Humanities, the other for those concentrating in Mathematics or The Natural Sciences. The difference between the two schedules results from the fact that the latter areas are more rigorously sequential. Hence, students concentrating in Mathematics or The Natural Sciences take two years each of mathematics and science during the first two years of college, deferring certain General Education Requirements until the sophomore and junior years; while students concentrating in The Social Sciences or The Humanities take only one year each of mathematics and science during the first two years of college, thus fulfilling their General Education Requirements earlier and experiencing somewhat greater emphasis upon Major-Area Requirements and Electives during the last two years. These two schedules, which appear below, are to be considered only as guides in planning the A.B. program; they may be departed from, with the consent of the student's advisor and as scheduling difficulties arise. However it should be noted that an average of 16 hours of credit per semester must be maintained in order for a student to graduate within the usual 8 semesters (8x16=128).

SPECIAL DEGREE PROGRAMS

THE TWO-YEAR DEGREE PROGRAMS

The Bloomsburg State College have been approved to offer a twoyear program to Dental Hygienists and School Nurses who are able to meet the conditions set forth in the following paragraphs:

DEGREE CURRICULUM FOR DENTAL HYGIENISTS

(Subject to change without notice)

The degree of Bachelor of Science in Education will be conferred upon dental hygienists meeting the following requirements:

- 1. The possession of a valid license to practice dental hygiene in the Commonwealth of Pennsylvania issued by the State Dental Council and Examining Board and the Department of Public Instruction. "The professional education requirements for dental hygiene is the satisfactory completion of an approved dental hygienist course of instruction of two years of not less than thirty-two weeks and not less than thirty hours each week or its equivalent in and graduation from a dental hygiene school approved by the State Dental Council and Examining Board."
- 2. The satisfactory completion in addition thereto of 70 credit hours of professional and general education courses disturbed as follows:

A. Professional Education Ed. 101—Interoduction to Education Psy. 201—General Psychology Psy. 301—Educational Psychology Ed 301—Audio-Visual Education	3 3

C. Electives	13
Grand Total	70

In each category above, credit will be given for equivalent courses pursued in the two year dental hygiene curriculum. In such cases students must increase their electives by the number of credit hours earned previously.

In the case of dental hygienists who had less than two years of specialized training on the basis of which they were licensed to practice dental hygiene, proportional credit will be given. Such persons must pursue additional general education courses in college to make up the deficiency.

Electives may be chosen with the approval of the Dean of Instruction from any field or curriculum offered at the college in which the student is enrolled.

This curriculum is effective as of September 1964.

APPLICATION FOR ADMISSION

A dental hygicnist who desires to enroll in the Degree Curriculum for Dental Hygicnists should write for application blanks and information to the Director of Admissions, Bloomsburg State College, Bloomsburg, Pennsylvania.

RESIDENCE REQUIREMENTS

The last 30 hours of credits must be earned at Bloomsburg State College. Resident credits may be earned in day, evening, and Saturday classes which are offered on campus or approved by the college administration.

DEGREE CURRICULUM FOR PUBLIC SCHOOL NURSES

Effective September 1, 1961

(Subject to change without notice)

The degree of Bachelor of Science in Education will be conferred upon registered nurses who meet the following requirements:

- 1. The satisfactory completion of a three-year curriculum in an approved school of nursing and registration by the State Board of Examiners for the Registration of Nurses of Pennsylvania.
- 2. All persons admitted to this degree program after September 1, 1961, will be required to satisfactorily complete 60 credit hours of additional preparation distributed as follows:

154 Bloomsburg State College

In the case of nurses with less than three years preparation for registration, such persons will pursue additional courses to meet the requirements for the degree.

APPLICATION FOR ADMISSION

A registered nurse who desres to enroll in the Degree Curriculum for Public School Nurses should write for application blanks and information to the Director of Admissions, Bloomsburg State College, Bloomsburg, Pennsylvania.

RESIDENCE REQUIREMEITS

The last 30 hours of credits must be earned at Bloomsburg State College, to qualify for graduation. Resident credits may be earned in day, evening, and Saturday classes which are offered on campus or approved by the college administration.

COURSE DESCRIPTIONS

NED 301 — Public School Nursing

Public school nursing, as a branch of public health nursing, is considered in this course. The historical background, various fields of responsibility, and the problems and limitations of the profession are discussed along with new techniques of handling public school health problems.

NED 302 — Public School Organization for Nurses 3 cr. brs.

The course is designed to prepare the school nurse to function effectively as an integral part of the public school organization. The student is acquainted with the varied relationships with which the nurse is involved in the discharge of her responsibilities.

NED 303 — Public Health Nursing I

This survey of the fundamental principles and the historical background of public health work stresses the recent movements, emphasizes, training and procedures, by which Pennsylvania hopes to accomplish an up-to-date program in public schools.

NED 304 — Public Health Nursing II

This is a continuation of Public Health Nursing I. The course deals with the past history and modern practices of maternity care, infant care, child welfare, dental hygiene, and methods of teaching proper techniques in the home care of the crippled, sight and hearing, handicapped, and the aged.

NED 305 — Nutrition and Community Health

The role of the school nurse is discussed in the following fields: teaching of nutrition, proper feeding of infants, mothers, adolescents, the aged, the over-weight students and those suffering from allergies and chronic diseases.

NED 306 - Family Case Work

The history and sociology of the American family is used as background for a study of the processes of interviewing and making case studies of family groups.

	2006 37 948 (1722)	2006 2047 37 129 948 1475 (1722) (2390)

Adjusted Enrollment on Full-Time Basis

Regular Students	2006	2047	2283
Part-time Students	17	46	80
Summer Sessions Students	598	631	736
Totals	2691	2724	3099

BLOOMSBURG SPELLS SUCCESS

Bloomsburg graduates are recognized as successful teachers. They are well prepared in their fields; but more important, they are the kind of young people school superintendents welcome to the profession. Of the 1964 graduating class of 468, eighty-four percent are now teaching, only four percent are in other occupations.

	Year	Graduates	Teaching	Other Occupations	Total
Five-Year Survey	1946	518	83%	10%	93%
Three-Year Survey	1949	275	89%	8 %c	97 %
Survey for last	1961	314	88%	5%	92%
Four Years	1962 -	373	87%	11%	98%
	1963	395	87%	3,6	91°′c
	1964	468	84%	4%	89%

TABLE I - How Many Teach?

Any realistic placement study must take into consideration the number of graduates who are available for teaching. Those who enter military service. or begin their graduate studies cannot be considered as available for placement immediately following graduation. Fifteen members of the 1964 graduating class are serving in the armed forces and we are quite proud of the twenty graduates doing graduate work. Eight other graduates are unavailable for teaching due to their marital status. Of the remaining 425 members of the class, ninety-five percent are now employed as instructors in the public schools. We feel the figures speak for themselves.

Table II - How Many Are Available for Teaching?

Year	Graduates	Number Teaching	Percent Teaching	Number Available for Teaching	Percent Of Those Available Who Are Teaching
1959	310	267	86.1%	296	90.0%
1960	305	260	85.2%	289	90.0%
1961	314	278	88.2%	303	91.1%
1962	373	323	86.6%	362	86.0%
1963	395	344	93.0%	381	95.0%
1964	468	393	97.0%	416	95.0%

* Graduates in military service and graduate schools are omitted.

158 Bloomsburg State College

A recently completed study of the salaries paid the 1964 graduates reveal that beginning teachers received an average compensation of \$4,725 for the nine-month school term. Although a number of Bloomsburg graduates began their teaching careers at the statewide minimum salary of \$4,500; two graduates were tendered a contract at a figure of \$6,200.

YEAR	Beginning Teachers *	Average Beginning Salary	Range of Beginning Salaries
1960	259	4,173.00	3,600- 5,300
1961	278	4,318.00	3,600- 5,400
1962	323	4,520.00	3,600- 5,700
1963	344	4,656.00	4,200- 8,400
1964	343	4,725.00	4,200- 6,200

TABLE III - How Much Do They Earn?

In the light of these figures, beginning teachers from the Bloomsburg State College are in great demand. All who wanted to teach easily found jobs in the public schools, mostly of their own choice. Statistics also indicate that salaries are increasing steadily, year after year, and Bloomsburg graduates, eagerly sought by school officials looking for well-prepared beginning teachers, have been placed at above-average salaries. In this way, Bloomsburg spells success.

ARTIST AND LECTURE SERIES 1964-1965

- 1. Emlyn Williams as "Charles Dickens"
- 2. Circle-in-the-Square Theatre-"Desire Under the Elms"
- 3. The Lebanon Valley Concert Choir

DEPOSITS

(Subject to Change Without Notice) Advance Registration Deposit

An Advanced Registration Deposit of \$25.00 shall be made by all students; \$10.00 of this amount shall be paid when the student requests registration. This is a guarantee of the intention of the student to enter college for the term or semester indicated. It is deposited with the Revenue Department to the credit of the Student's basic fee. It is not repayable.

When a student is approved for admission to college, the remaining \$15.00 of the Advanced Registration Deposit of \$25.00 shall be collected along with the Community Activities Fee of \$25.00.

Students who meet the admission requirements of the college, but who do not report at the beginning of the semester, will not receive a repayment of these advanced deposits. However, they may receive a repayment of the Community Activities Fee of \$25.00, if they make written application to the Business Manager of the College before September or December of the semester when they expect to enter.

Check or Money Order for this amount must be drawn to the Commonwealth of Pennsylvania. All Post Office Orders must be drawn on the Post Office at Harrisburg.

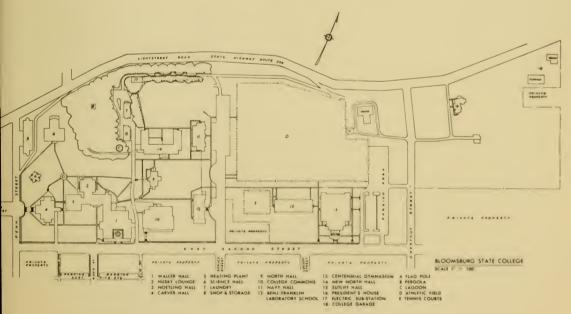

Permission to live off the campus will not be given as long as rooms are available in the dormitories. Special cases will be handled by the President.

Additional copies of this publication may be secured upon request from the Director of Admissions, Bloomsburg State College, Bloomsburg, Pennsylvania.
