THE COLLEGE TOWER CLOCK

Common conveniences and equipment of a College are ordinarily taken as matters of course. Little thought is given to how they came to be at hand for our use. But back of most such things there is a story of human endeavor.

The college clock faces us at every point of the compass. Its warning voice or must hands direct our steps to meet important engagements. How did it happen to be there? Well, it did not happen. Back of that is an interesting story.

Among other improvements in the late '90's the trustees decided to remodel the front of Carver Hall. The present imposing front facing the town, including the clock tower, was erected. But no clock was available—or

in other words, there was no cash on hand to provide the clock. The circular windows were boarded up, blind eyes to a beautiful tower. By the way, did you ever notice its suggestion of Independence Hall—not a duplicate, but a similarity of outline?

At that time William Housel was the efficient steward at the Normal School. He saw the need of a clock and made the proposition to the trustees to secure it without cost to the institution. His plan was briefly this: The large eating stand at the Fair Grounds could be rented and dinner served to the crowds at a fair profit. He decided to try renting this building and serving a turkey dinner each day during the Fair.

The students and faculty of the school were enlisted in the project. Volunteer waiters were secured. Some donations were made by dealers from whom regular supplies were purchased and the plan went forward with great enthusiasm. Good weather prevailed and large crowds were in attendance. It was a successful project from every standpoint.

Mr. Housel then went to New York and with about seven hundred dollars as his assets from the plan, bought the clock and had it installed without cost to the school.

Later someone conceived the idea that a small clock face looking toward Waller Hall would be a convenience to those living in the dormitory. An extension was run up about thirty feet above the clock and the proper mechanism installed to connect the hands in this smaller face with the rest of the clock. This was paid for by the trustees, according to Mr. Housel's letter.

There is one strange feature about this whole affair. Although there are many who remember how the clock was obtained, no one can tell when it was placed in the tower. Records and Board Minutes have been searched, but no mention of it can be found. It all took place during the administration of Dr. J. P. Welsh—1890 to 1906, but the exact date has not been determined. The cut in the 1898-99 catalogue shows the picture of Institute Hall before the tower was remodeled. About 1900-01 the new tower was built, but no clock face shows. The cut in the 1902-03 catalogue shows the clock in place and is the best evidence we have of the date of its appearance.

This is a belated thank you to Mr. Housel, now residing in Philadelphia, and a reminder to those students and others who helped, that the good old clock is faithful to its trust and is still keeping watch over each successive generation of students with as fine a tone and as accurate in schedule as it did in its youth.

Here's hoping that someone will remember the date and place a little marker upon the clock to give a few details of its origin and credit to whom credit is due.

ATHLETICS

Bloomsburg's football team this season gave a good account of itself. The season opened with Kutztown at Kutztown and the boys brought back the bacon. West

Chester climbed Mt. Olympus the following week and got so wrought up over Greek Mythology that they took away a 13-0 victory. Shippensburg, already flushed with victory over East Stroudsburg, came to Bloomsburg the next Saturday but had to leave with the short end of a 13-7 score. For the first time in history, our team traveled the succeeding week to the western end of the state. Hard coal met soft coal at California, Pa. All that can be said is that our boys were royally treated but came back with a 6-0 smudge on their noses. Another week end brought a Lock Haven invasion and a 12-0 victory.

Mansfield visited us for the next game, and Bloomsburg amply revenged a 1927 defeat of 40-7 by worsting the mountain boys by a couple of touchdowns. Then came Wyoming Seminary. Everything was splendid that day except the score. It was "home coming" day, and hundreds of Bloomsburg's loyal sons and daughters were here. They saw the defeat of a Bloomsburg team that had high hopes of victory. For general information it may be said that there hangs in the athletic offices a picture of the last team that beat Wyoming at Kingston. It is covered with dust and shows signs of age. No one is allowed to dust it until a Bloomsburg team can beat Wyoming at Kingston. With considerable emphasis the boys say it can be done next year. We shall wait and see.

The Wyoming game took its toll. The inspirational leader, Capt. Kraynack of Plymouth, was injured, and out for the season, as was also Kirker, another important

backfield man. Mid semester grades cut two more men from the first string squad and in this weakened condition—four first string players out—the boys met East Stroudsburg for the final game of the year. A 12-0 defeat resulted. And so the season ended with four victories and four defeats.

COLLEGE ENTERTAINS COLUMBIA COUNTY TEACHERS

The finest social event ever held in connection with a county institute was the College reception to the teachers in the College gymnasium Tuesday evening, December 4, when three hundred fifty teachers in the county and town schools and at the college were present.

E. H. Nelson and S. I. Shortess had charge of the program and it was not long after the reception opened that every one was acquainted and having a fine time.

The gymnasium was beautifully decorated in blue,

orange and white and Alexander's orchestra furnished a fine program of music. Novelty dances were a feature. Many who did not care to dance enjoyed cards in room K, near the gymnasium. Punch was served during the evening.

This year's artists' and lecture course of the Bloomsburg State Teachers' College opened Nov. 21 at 8:15 o'clock when Dr. George Earl Raiguel, in the College auditorium gave the first of a series of five lectures and spoke on 'A Political Survey in the United States'.

About 30 enrolled Nov. 6 in the Scout training course which is being given by the Bloomsburg State Teachers' College. The course is directed by Earl N. Rhodes.

Hundreds of Bloomsburg Teachers' College alumni, many of them returning for the first time in several years, spent Nov. 17, 1928 in Bloomsburg for the annual Home Coming Day and although many were keenly disappointed at the football game all were pleased with the fine program that had been worked out by the faculty and students for their entertainment.

Some of the alumni reached Bloomsburg Friday night but the majority reached here during the morning or early

afternoon. Seldom if ever has a game on the hill been witnessed by more graduates than was the game Saturday.

An informal get-together in the gymnasium following the game was enjoyed by many while a number had dinner in the College dining hall at six o'clock.

Hundreds of alumni, students and guests had a merry time at the dance which was held in the gymnasium Saturday evening. The gymnasium was beautifully decorated in the College colors and music was furnished by Alexander's Orchestra.

The Bloomsburg Civic Chorus delighted two large audiences when they presented the comic opera "La Mascotte", by Audran, on the evenings of December 12 and 13, in the High School Auditorium. The Director of the opera was Prof. Robert F. Clark, a member of the college faculty. Prof. S. I. Shortess, another member of the faculty, played one of the leading roles. Other principal roles were played by Harold Moyer, '09; R. Bruce Albert, '06; Rowland Hemingway, '05; Sara Milleisen Elwell, '05; Elizabeth Kessler Kashner, '23; and Maree Pensyl, '21. The male chorus was made up largely of students of the College, and it is needless to state that the Alumni of Old Normal were well represented in both the men's and ladies' choruses. Mr. Clark and his Civic Chorus are greatly to be complimented for the contribution they are making to the cause of good music in Bloomsburg.

The Music Department of the College is sponsoring a series of "Good Music" hours during the winter. The

first of the series was given in the College Auditorium, Sunday, November 18 at 2:30 p. m. All lovers of music are welcome. The program was as follows:

Aria from *Il Trovatore*, Verdi; Hindu Chant, Remberg; Ave Maria, Gounod, Miss Alma Caldwell.

Noveletten, Schumann; Romance F Major, Schumann; Souffrance, Sievesking, Miss Marjory McHenry.

By the Bend of the River, Edwards; Do Not Go, My Love, Hageman, Miss Alma Caldwell.

Ballade A Major, Chopin, Etude C Minor, Chopin, Etude E Major, Chopin, Miss Marjory McHenry.

I'll sing Thee Songs of Araby, Clay; The Temple Bells, Woolforde-Finden; Kasmiri Song, Woolforde-Finden, Miss Caldwell.

As the second number of the College Entertainment Course, a delightful program was presented by the Boston Women's Symphony Orchestra, an organization of fifty talented musicians. Miss Ethel Leginska, internationally known artist, is conductor of the orchestra. The program opened with the overture, "Russlan and Ludmilla", by Glinka. Following this the orchestra played Beethoven's Fifth Symphony, always a favorite with music lovers. Miss Leginska then played and conducted Liszt's "Hungarian Fantasie for Piano and Orchestra". Following this the orchestra played the Dance of the Clowns, from the opera "The Snow Maiden" by Rimsky-Korsakoff. The program closed with the Overture "Rienzi", by Wagner. This was one of the finest and most expensive attractions ever brought to Bloomsburg, and it delighted a capacity audience.

THE ALUMNI

1874

Samuel Lloyd Sheep, a former resident of Derry township, died at 4:28 Monday, October 30 at his home in Elizabeth City, North Carolina, at the age of 72 years. He was the son of the late Matthew Sheep. He was a graduate of the Bloomsburg State Normal School class of 74 and taught in the schools of Montour and Northumberland counties for several years, later going to Elizabeth City where he had been superintendent of the schools of that place for 50 years. He is survived by three sons and three daughters.

The Elizabeth City "Independent" printed the following editorial at the time of Mr. Sheep's death:

If a good name is rather to be chosen than great riches Samuel Lloyd Sheep has left his children a greater heritage than silver or gold.

If kind hearts are more than coronets and simple faith than Norman blood, in the passing of S. L. Sheep, Elizabeth City has lost a regal citizen. His interest in people, particularly in children, of whom he knew by name more perhaps than any other man in Elizabeth City, was one of his most pronounced traits, as was also a serene faith and quiet courage, neither of which, in the face of disappointment or trial, ever faltered.

If a man's success in life is to be measured in terms

of his service to others, if he really is greatest among us who is servant of all, surely hardly has Elizabeth City ever honored a greater soul than Samuel Lloyd Sheep.

Thus it is that today not only his children rise up to call him blessed but also a great host of those whom he has taught and who have taught under him.

To us from failing hands he threw the torch that years ago he lighted in the Albemarle. Be ours to hold it high!

We are indebted to Mrs. V. C. Stein, of Philadelphia, for the following item:

'08 Carol Krum (Mrs. Frank Buck.) The following letter was received from St. Augustine, Fla., since the hurricane: "We were hit by the storm but nothing like they were at Palm Beach and Belle Glade. Belle Glade is the place where the Florida East Coast R. R. had begun building a new railroad to reach the sugar plantations and some celotex factory. Everything was wiped out. Our home is very near the water and we got the full force of the seventy-five mile gale for thirty-six hours. The wind blew up the shingles until the whole east side of the house leaked. The water just bubbled up inside the screens and simply flowed in and down the walls. We were mostly afraid of the trees, for they kept falling all around us. It was as hard a storm as I ever care to see." We are glad to know that our friend and classmate survived that terrible hurricane without any more serious damage.

Miss Marion Miller, one of the lecturers from the Metropolitan Museum of Art, spoke last evening at the Women's club house to the members of the College club and their guests on "The Homes and Furnishings of the Colonial Period". Miss Miller spoke entirely of the American wing of the Metropolitan Museum and her lecture was accompanied by a complete set of beautiful slides showing the interiors of American homes beginning with the early 17th century and carrying on to the Constitutional or Federal period.

Furniture arrangement; the textiles, some imported from India and others made by the colonists; the ceramics; silverware and china were all clearly shown in the slides and were commented upon by the speaker.

Miss Miller was a delightful speaker and her descriptions and explanations of the various types of period furniture were distinctly interesting. Some of the rooms shown in the slides were taken from the Hewitt house on Long Island, others from the Powell house in Philadelphia, and still others from the Beekman house in New York city.

1924

Miss Pearl Scott, daughter of Mr. and Mrs. James E. Pollock, of Bloomsburg, became the bride of Clifford Snook, son of Mr. and Mrs. Holmes Snook, of Hopewell, New Jersey, in a quiet ceremony performed Wednesday evening, November 7, at the Presbyterian parsonage at Milford, New Jersey.

The bride is a graduate of the Bloomsburg High School, class of 1922, and of the Teachers' College, class of 1924. For the past three years she has been teaching at Pennington, New Jersey. News of the wedding came as a surprise to many friends in town.

Five years ago a group of young men, then in their Senior year at the Teachers' College, had a banquet and at that time pledged to meet in five years on the evening of the Wyoming-Bloomsburg game.

On Saturday night, Nov. 17, at Hotel Magee most of that group were back and of the small number who could not attend most of them had sent messages of regret. For a few it was their first visit to Bloomsburg since graduation, and to all, guests of the class included, it was a night that will be long remembered for it was made vivid with reminiscences of school days and with happenings in the lives of each of the class.

The majority of those at the banquet were members of the class of 1924 while others were attending College part of the time that the members of the class were there. Practically every member as he told briefly of his life

during the past years spoke of never having forgotten the pledge made to meet in reunion. All declared that it was great to be back with the gang and the motion to meet here again on the evening of the home-coming day of 1930 met with unanimous approval and every one at the banquet signed the pledge.

Frank L. "Ace" Buss, of Wilkes-Barre, and F. H. "Shack" Shaughnessy, of Manheim, both prominent members of the class of 1924 were the two men responsible for arranging the dinner and they were given a hearty cheer. Mr. Buss happily presided as toastmaster.

The program opened with the singing of "Alma Mater" with "Normal" used in the song in place of "College" for it was Normal when the fellows were here.

Manager Johnston served an excellent chicken and waffle dinner in the private dining room at the hotel and the time went swiftly by as the fellows told of their lives since leaving Bloomsburg.

Some of the fellows had not seen each other since leaving school and there were some happy reunions. Many a laugh climaxed the telling of a story of school day pranks and few remained in their chairs when the presiding officer called for all who had been on "campus" part of the time to stand up.

Guests, several of them also graduates, entered into the spirit of the meeting and the program was made even more delightful by their contributions.

The group was delighted with the cordial reception tendered to all of the alumni by the faculty and student

body and were pleased with the fine spirit displayed by the undergraduates, even in the face of defeat.

Every fellow pledged to do his best to aid in getting athletes to come to the College and declared they were solidly back of the team. "Bill" Partridge, who played on the Maroon and Gold team two years, told the group he had made a resolution to see every Bloomsburg-Wyoming game until Bloomsburg won and that thus far he has seen every contest. Many of the fellows fell in line with the fine spirit displayed by "Bill" and promised to see every one of the games from now on until victory crowns the efforts of Bloomsburg.

A plea for every fellow to put his shoulder to the wheel and aid Bloomsburg athletics so that they could celebrate a Wyoming victory when they meet in 1930 brought a ringing cheer.

Most of the fellows who are back have been in the teaching profession since graduation. Several are heads of their departments in special fields while one is a principal and another a school director.

In planning for the 1930 dinner the crowd voted to open it not only to those at the dinner Saturday night and others who had been at the first dinner but to all men who were members of the class of 1924. The committee in charge of the 1930 dinner is composed of William Partridge, of Trevorton; Harold Llewellyn, of Wilkes-Barre, and Edward Schuyler, of Bloomsburg.

The groom attended the Benton Vocational School and for the past six years has been employed as a painter by the Orangeville Manufacturing Co.

The romance started when the young people attended high school. The couple are two of the up-creek's most popular young people. Mr. and Mrs. Robbins are on an extended wedding trip.

At a dinner and bridge given by Mr. and Mrs. R. B. Aul at their home in Espy Friday evening, November 30, they announced the engagement of their daughter, Miss Geraldine K. Aul, to Carl M. Davis, son of Mr. and Mrs. S. S. Davis, of Espy. The young couple is among the most esteemed in this section.

Both Miss Aul and Mr. Davis were members of the class of 1924 of the Scott Township High School. The bride-to-be is also a graduate of the Bloomsburg State Teachers' College and is now a successful teacher in the Hershey schools. H. F. Babcock.

They were attended by the brother-in-law and sister of the bride, Mr. and Mrs. H. Stanley Kleckner, of Merchantville, N. J., and parents of the couple witnessed the ceremony.

Mr. and Mrs. Kleckner left during the morning on a motor trip to Philadelphia, New York and Boston and will be at their home in Seigfried, near Northampton, Pa., after December fifth.

The bride is a graduate of the Hazleton High School and the Bloomsburg State Teachers' College, and has been a successful teacher in the Hazleton schools. Mr. Kleckner is a graduate of Shickshinny High School and State College and for the past two years has been assistant superintendent of transmission for the Pennsylvania Power and Light Company at Hazleton. He was recently transferred to Seigfried.

1926

Catawissa, Nov. 18.—As a surprise to their many friends came the announcement Nov. 18 at a dinner party at the Kitchen home, 209 Main street, of the engagement of Miss Thalia Kitchen, daughter of Mr. and Mrs. J. Warren Kitchen, one of Catawissa's best known and most esteemed girls, to Gilbert Cooper, of Coatesville, son of Mr. and Mrs. William Cooper, Glen Lyon, who was prominently identified with athletics and other college activities when he attended the Bloomsburg State Teachers' College.

Both the bride-to-be and Mr. Cooper are members of the class of 1926 of the State Teachers' College and have a number of friends throughout this section. Miss Kitchen for the past three years had been a successful teacher in the Catawissa schools and Mr. Cooper is now art supervisor of the public schools at Coatesville.

In a pretty ceremony in the First Methodist Church at six o'clock August 16, two of Bloomsburg's best known and esteemed young people were united in marriage by Rev. Harry F. Babcock, the pastor, when Miss Mary Elizabeth Bomboy, daughter of Mr. and Mrs. D. Ellsworth Bomboy, of 596 West Main street, became the bride of Herbert E. Ralston, of Hazleton, son of Mr. and Mrs. Roy Ralston, of 415 Fair street.

They were attended by Miss Evelyn Bomboy, a sister of the bride; Roy Ralston, Jr., a brother of the groom; Miss Editha W. Ent and Marion T. Adams. The ceremony was witnessed by members of the immediate families and a few close friends.

Following the ceremony the bride and groom left on a trip through New York State. Upon their return they will be at home at 121 Putman street, West Hazleton.

The bride is a graduate of the Bloomsburg High School, class of 1923, and of the Bloomsburg Teachers' College, class of 1926. For the past two years she was a successful teacher in the Sunbury schools.

THE NEW TRAINING SCHOOL

Plans for the new training school building of the Teachers' College provide for an unusually complete plant for the grades which are used as a laboratory for student teachers.

It is expected that bids on the construction of the building, which is two stories high with basement and is about 60x160 feet in size, will be asked this month.

A large demonstration room that will accommodate 80 pupils is one of the real features of the building. A demonstration teacher can there teach a lesson with 80 students of the Teachers' College observing the work. Several classes thus may be grouped and repetition of the lesson eliminated.

Seven suites of rooms are provided in the building, each suite including a session room, group room and cloak room and an office for the training teacher.

On the first floor will be the kindergarten and grades one and two, the demonstration room and a health room that is provided with all of the facilities needed for such work. Toilet facilities for both boys and girls are provided on both floors.

In the basement is a large play room or gymnasium for the children, a storage room and provision is made for industrial arts' rooms.

On the second floor are a teachers' rest room, others of the suites, two extra class rooms that can be used for the college classes or for expansion of the training school.

The group rooms are accessible to two class rooms in every instance and may be used from either room as desired.

Work has almost been completed on the placing of an emergency lighting system in the college auditorium, the corridors in Waller and Noetling halls and the fire towers.

REUNION CLASSES

The following classes will hold their reunions next June—1874, '79, '84, '89, '94, '04, '09, '14, '19, '24, '27.

Class officers should begin now to get ready to make this year's meeting even better than the one held last May, and that was the best Alumni meeting in the history of the school.

The Quarterly staff will be glad to furnish mailing lists.

A MESSAGE FROM THE PRESIDENT OF THE ALUMNI ASSOCIATION

To All Bloomsburg Alumni:—

Another school year is in its closing quarter, and the day of our annual Alumni gathering is drawing near. The successes of our meetings of the past; the achievements of our school at the present, and the possibilities of the future, prompt this message to you.

No small amount of the pleasure that has been realized in endeavoring to fulfill the honor and trust that has been mine in serving as your President, has been found in the Annual Alumni meetings of the past two years. The response of our alumni, the large attendance, and the interest and enthusiasm which has been manifested on these occasions, have been of real value in the pleasure which has been felt by those who attended; in the inspiration which it has given the student body, and in the assurance which it has manifested to the trustees and faculty of the College, of our faith and confidence in our school, and those who are directly connected therewith.

Two years ago, in our message, we prophesied that under the leadership of President Haas, Bloomsburg's future was assured. Now we urge you to come back and see the many visible evidences of the truth of our prophecy. In addition to the maintenance of the standard of efficiency, for which our school has always stood, you will see many marked improvements in the physical equipment, buildings, etc., of the College. In all probability, by Alumni Day, the construction of the new \$125,-

000.00 Training School will be under way. The money for this building is available, and the plans are already prepared.

We will endeavor to have a pleasing program, and a good dinner. We especially urge the members of the classes which are scheduled for reunions this year, to plan for one hundred per cent. attendance. This will require some special work on the part of class officers, but it can be done. Let us again make this year's meeting "**the Best Ever.**"

With sincere appreciation of the loyal support and co-operation of the past; with best wishes for the future success of Bloomsburg and all her Alumni, and with an earnest hope that you may meet with us on Saturday, May 25th, I am

Very truly,

FRED W. DIEHL,

President Alumni Association.

THE STATE TEACHERS COLLEGE ART LEAGUE AND ITS WORK

The Art League of the State Teachers College at Bloomsburg is composed of the Faculty and the Senior Class from year to year. It has been at work in the school for upward of twenty years. It really began its work with the efforts and gift of the Class of 1903. It has functioned continuously since about

1909, holding an art exhibit each year except 1922-23.

Each year the Senior Class, guided by some members of the faculty, sponsors an art exhibit by which it raises funds to purchase pictures and other objects of art to enrich the school and enhance its environment. Its purpose is expressed by the following membership card:

ART LEAGUE BLOOMSBURG STATE TEACHERS COLLEGE

----- is a member of the
Bloomsburg State Teachers College Art League.

The purpose of the league is:

- 1—To adorn our walls with the best procurable copies of the masterpieces of the ages.
- 2—To develop interest in art, a discriminating judgment, and appreciation in our students for the finest and best best in all fields.
- 3—To give the out-going teachers a knowledge of the correct principles of schoolroom decoration, and to educate them in methods of advancing the cause of schoolroom adornment.
- 4—To unite in the enjoyment of every beautiful thing.

The work of the league during the last twelve months has been very gratifying indeed. It has added to the collection a number of beautiful pictures, some of them very rare treasures.

From year to year the exhibit is usually based on the Elson Collection which has been furnished to the public for many years

by the Elson Art Publishing Company of Belmont, Massachusetts. The funds raised in this way are spent for copies of their photographic reproductions of the masterpieces of the world suitable for schoolroom decoration. Some of these are in color. In addition to these the exhibit is usually enhanced by beautiful color prints from other art establishments. Thus each year our school and town can come in touch with a veritable local art museum of about 400 masterpieces and learn to know the great names in art and something of the schools of art and love the best in pictures the world has to give. The prospective teachers, too, learn how to secure and handle an exhibit in their own communities and what is suitable for schoolroom decoration.

The class of 1928 through their exhibit purchased a large photographic copy of the Milan Cathedral and of Burnes-Jones' Golden Stairs.

The class of 1929, as a result of its exhibits, purchased *The Pioneers* by Robert W. Amick for fifth grade, the *Nocturne in Blue* by Whistler for the office of the Dean of Women and several others.

In addition to these new pictures the Class of 1929 fulfilled its pledge to raise \$150 to pay for the framing of the etchings purchased last spring. This piece of work was due greatly raise this money they presented the play "Applesauce." They to the effort of their class president, Mr. Theodore Davis. To were trained by the able and always self-denying head of the Department of Dramatic Expression, Miss Alice Johnston.

Last March the members of the faculty subscribed the sum of \$241, for the purchase of nine very fine etchings, which were presented to the school. It was this group of pictures that were

framed by the efforts of the class of 1929 under the able management of their President. The etchings were as follows: Rose Bonheur's "The King Watches," etched by Dickree; "Interior of Milan Cathedral," by R. C. Brewer; "Ratisbon Cathedral," by A. Brewer; "Rouen Cathedral," by L'Hermit; the St. Michel Cathedral, by Delaney; "Willows Whiten and Aspens Quiver," by Debarner; "Out of the Mist and the Rain," by Herbert Fedeola; "The Wood Gatherer," and "The Shepherd Resting," by Thomas G. Appleman. Of these five hang in the main corridor of Waller Hall; two in Noetling Hall, and two on main stairway of Carver Hall. The portraits of the former principals and State Superintendents were also framed uniformly and hung in the auditorium.

The Class of 1918 at their tenth reunion (1928) decided to use their fund for pictures, and purchased beautiful copies of Rembrandt's Old Man, etched by Waltner, and Night Watch, etched by Koeffing, for the stairway of Carver Hall. These are both unusual etchings, valued at \$200 each.

The Class of 1930 decided to purchase another picture of a very remarkable copy of VanDyke's Children of Charles I etched by Laguillmir. We hope that this may eventually find its place in the New Training School Building now being planned.

Two fine old steel engravings presented to the school by Mrs. Charles W. Funston, of the Class of 1887 now hang in the corridor of the second story of Noetling Hall. Titles: "Marriage of Pocohontus" and "Christ Rejected."

The Art League of the school during these years it has functioned—from 1909 to 1929—(though really the pioneer work was done by gifts from the classes of 1903 and 1906. As

early as 1901 Mrs. Mary Croswell, then in charge of the Art Department, did the initial work by placing several copies of masterpieces of art on the walls of the schoolrooms and in the library) have earned for the school's adornment many hundreds of dollars, invested in works of art. They have also placed four art windows through the aid of the "Callie" and "Philo" Literary Societies and Y. M. C. A. and Y. W. C. A. The alumni gave the Tiffany Memorial "Truth and Virtue" as its contribution to the enrichment of the life of their Alma Mater in 1920, to commemorate the anniversary of the graduation of the schools' 50th class of teachers. They have also added three memorial tablets; one to Prof. Wm. Noetling, who gave a quarter of a century of superb service to the school; one to Dr. D. J. Waller, Jr., who served as principal of the institution for a period of twenty-nine years, and one to the Founders and Trustees of the school who for many years made the interests and success of the school their chief concern. Prof. Howard F. Fenstermaker is now chairman of the League, and we hope its usefulness and enthusiasm has just begun. Only as faculty and student body forget for a time their own petty interests in the larger and more worthwhile cause of their institution may we expect bigness of soul, unity of work, and growth in any institution. There are many phases of this art development that have not yet been touched, so many lines of growth and development that will enrich the institution and enhance its work. These should be formulated wisely and pursued persistently through the years to come. In this way only may we hope for the lives of teachers and pupils to be enriched and the work of the institution enhanced and the community in which our college lives, be made an ideal college town, a cultured, intelligent, growing people.

—O. H. Bakeless.

AN ALUMNI PROJECT

For several years a strenuous effort has been put forth by the school authorities to modernize and improve Waller Hall, as a home for young women students. The old dangerous stairways were removed some time ago and four fire-proof towers with stairways substituted in strategic locations. A commodious and beautifully furnished lobby now occupies the space of the old stairway and hallway and business offices.

The plans of renovation provide for a remodeling of the three upper stories; putting in concrete flooring and redecorating the rooms and hallway, is now under way. The one unique feature, however, is to have on each of the three upper floors, in the space made by removal of the stairway, a small lobby or general gathering or reception room for the students of that floor. The work has been begun on fourth floor and is most satisfactory. The aim is to have each of these rooms models of taste and comfort.

The idea was conceived and the movement started last commencement to have the classes which have graduated since 1920 unite in raising a fund to decorate and furnish these rooms in so far as no provision is made for this purpose in the general funds.

We are glad to say the project was received kindly and responses have been coming in. The fund is gradually accumulating. From time to time a report will be given in the Quarter-

ly. Thus far about \$414 have been pledged or paid into the treasury on the lobby fund. We want about two thousand dollars. Any pledges or cash can be sent to Mr. C. M. Hauseknecht, Business Manager, or Mr. Howard F. Fenstermaker, President of Art League, and it will be acknowledged, and turned in to the treasurer of the fund. We urge all to contribute to the fund. "What we give we have," and our Alma Mater will mean so much more to us as we sacrifice for her betterment.

"New York State Education" for November, 1928, has the following concerning a former member of the faculty:—

Doctor Howard G. Burdge has resigned his position as principal of the State Normal School at Fredonia where he has served for the past five years.

Doctor Burdge received his early education in Ohio—his normal school training at Bloomsburg, Pa. He is a graduate of Allegheny College and received his M. A. and Ph. D. from Columbia. His early professional experience was that of high school principal and superintendent of schools. From 1918 to 1921 he was director of research and vocational training in the New York State Military Training Commission. In 1922-23 he was assistant director of the Educational Finance Inquiry under the American Council of Education. He is the author of "Our Boys," a statistical study of boys in industry in New York State, and he has collaborated on several other books.

ATHLETICS

The college boosts the championship of the eastern district for the basket ball season just closed. This district includes 8 Normal Schools and Teachers Colleges. Every one of the schools in the district was met by Bloomsburg. East Stroudsburg was the only school to boost of as much as an even break with our squad. In this case each team won one game, but in other respects East Stroudsburg had to surrender any claims to Bloomsburg. Our old rival, Wyoming Seminary, was also a worthy foe during the season and each school has one victory to its credit. By a two point margin Bucknell Academy won a game at Bloomsburg. This was the only game in which the college was beaten on the home floor, with the exception of a game that was forfeited because of ineligibility of a visiting player.

A team that can turn in a season's record of 10 victories and 3 defeats against such teams as Shippensburg, West Chester, East Stroudsburg, Wyowing and others of equal caliber is well worthy of note.

The season's schedule:—

Wednesday, Dec. 12—At Home—Alumi 32; S. T. C. 60.

Saturday, Dec. 15—At Home—Kutztown S. T. C. 33; S. T. C. 58.

Friday March 15; Saturday, March 16; Friday, March 22; Saturday, March 23—High School Tournament which was won by Mahanoy City.

As indicated by the above schedule, the basket ball activities at the school closed with the 8th annual High School Tournament. Teams are invited for competition who have made a good showing in their own districts and who have the official sanction of the P. I. A. A. The college acts as hosts to the visiting teams and tries in every way to make their stay pleasant and worth while. Changes in the gymnasium have made it much more suitable from the spectators point of view and it is hoped that by next season proposed projects will be completed, thereby adding much to the success of the annual spring tournament.

The tournament list:—

NAMED TO BOARD TRUSTEES

William S. Johnson, of Berwick, district manager of the American Car and Foundry Company, has been named a member of the board of trustees of the Teachers' College here, succeeding William L. Groce, of Selinsgrove, who resigned because of business and ill health. The appointment of Mr. Johnson has filled the only vacancy which existed on the board.

A daughter, Jane Louise, was born October 5 to Prof. and Mrs. George J. Keller. Mrs. Keller was formerly Miss Eleanor Evans, daughter of County Superintendent and Mrs. W. W. Evans.

LUZERNE COUNTY ALUMNI HOLD BANQUET

A very successful banquet of the Luzerne County Alumni was held in Wilkes-Barre, February 6, 1929. Mr. D. T. Mahoney, '09, who was in charge of the affair, sends us the following communication regarding the banquet:—

Dear Alumni:—

That the Bloomsburg Alumni Banquet held at Hotel Redington, February 6, 1929, was a social success is the opinion which I hear expressed by all those who attended the affair. I want to state also that our records show that it was a financial success for the sum of the donations and the net proceeds is almost enough to clear up the old deficit (Banquet held in 1920) of one hundred dollars (\$100.00).

I want to thank all those who made donations, all those who purchased tickets, and especially all those who so loyally aided in the sale of tickets.

The group was highly pleased with the speakers and entertainers: Mrs. Daniels, Mrs. Henshall, Mr. Zeiser, Mr. Sutliff, Mr. Bakeless and Dr. Haas.

Dr. Francis B. Haas, principal of the State Teachers' College has been invited by the New Jersey Educational Commission to join with six other distinguished educators in making a survey of the New Jersey school system.

Four of these experts have been selected from New Jersey and the other three are from out of the state. The purpose of the survey is to provide a plan whereby the New Jersey school system may be improved.

TEACHER TRAINING AGREEMENT APPROVED

The teacher training agreement for the school term of 1929-1930 as submitted by Dr. Francis B. Haas, principal of the Bloomsburg State Teachers' College, has been accepted by the Bloomsburg school board and passed with the recommendation that the district and the college allow the contract to remain in force from school year to school year unless either party wishes to terminate it. Such action must be taken before April first preceding the next school term.

The contract as submitted by Dr. Haas and accepted by the school district is substantially the same as last year, although there is a slight change in the wording.

The terms of the contract follow:

"The Board of Directors authorize the Teachers' College to use the schools of the district for teacher training subject to such regulations as may be made by the superintendent of the district.

"Each class room used for teacher training shall be taught approximately 50 per cent. of the time by the teacher in charge employed by the district.

"It is specifically understood that the college will withdraw from the school immediately any student teacher at the request of the superintendent.

"The college will use only such teachers as desire to do teacher training work and only such teachers as are mutually

agreed upon by the principal of the college and the superintendent of the district.

"The legal salary schedule for cooperative teacher training approved by the State Council of Education of Pennsylvania governs the additional salary for teachers who are designated for teacher training work."

Never before has the agreement between the district and the college been entered into so far in advance of the opening of the school year which it affects and never has there been as little opposition to the agreement on the part of members of the board. The board expressed the opinion that the agreement of the present school year was working out to the mutual benefit of both parties.

The Berwick school board has also approved a similar agreement for next year.

Bids are being asked by the Teachers' College for the erection of an entrance into Waller Hall at the northeast corner and just opposite the post office which is located in that building. Such an entrance and outside stairway will make it much easier for the men residing in North Hall to get to the dining room in Waller Hall. A way for men to reach the college infirmary will also be provided.

It is now necessary for the men to go around the building and enter by the way of the gymnasium or go around toward the south to get into Waller Hall. Work on the improvement will start just as soon as the contract is awarded and the work is expected to be completed long before the close of the present term.

The conferences have been held annually for some years during the Thanksgiving vacation in the teachers colleges and in the past several years have been attended by about seven hundred each year. The conference lasts for two days.

The Senior Play was presented Thursday evening, December 20. The play chosen for this year's performance was "Applesauce," by Barry Connors. The following were members of the cast: Jack Fortner, Grace Kivler, Charlotte Mears, Ruth Scanlon, William Swinehart, Arthur MacKenzie and Wilbur Fischer.

COLLEGE FIGURES SHOWN IN BUDGET

The budget submitted to the state legislature by Governor Fisher gives some interesting figures on the operations of the Teachers' College here.

Total expenditures of the institution for this biennium are estimated at \$1,026,927, of which more than \$450,000 is in salaries and wages of employes. Included is another item of \$235,238 for buildings and construction and more than \$103,000 for food.

Receipts are estimated as equal to expenditures and include \$345,000 for maintenance, \$12,900 for repairs and alterations, \$197,000 for new construction, \$348,000 income from students for board, \$64,085 from students for instruction.

These figures compared with \$347,186 total expenditures in 1925-26, \$475,000 in 1926-27, or \$822,186 in the 1925-27 biennium.

Mrs. Paul E. Wirt, wife of a member of the Board of Trustees, died December 29, 1928, at her home in Bloomsburg, after a week's illness with pneumonia. She is survived by her husband and a daughter, Pauline.

Funeral services were conducted by the Rev. J. Thomas Heistand, rector of St. Paul's Episcopal Church and burial was made in Old Rosemont Cemetery, Bloomsburg.

The Men's Glee Club, the newest organization of the Bloomsburg State Teachers' College, scored a great success in their first presentation in the college auditorium Tuesday evening, March 19, a crowd of about four hundred thoroughly enjoying the two part program which was well presented by the young men under the capable direction of Prof. Robert E. Clark.

Considering the fact that it was the first program of this recently formed organization, the work of the more than a score of members was remarkable, both in the group numbers and in the presentation of the first act of the opera, "La Mascotte."

Men took all of the roles in the opera and their impersonations were one of the features of the snappy and entertaining program.

The club made a fine appearance in evening dress, which they wore for the first part of the program. The opening number, "Old Friends Together," was sung before the curtain was drawn and this was followed by "Sarita" from "Spanish Serenade." "Little Green Winding Lane" and "Torch Dance" followed. The first part of the program closed with the singing of "Alma Mater."

Principals in the presentation of the opera were: Bettina, Armond Keller; Princess Fiametta, Haven Fortner; Prince Frederick, Jack Fortner; Farmer Rocco, Arthur McKenzie; Pippo, Henry Warman and Prince Lorenzo, Samuel Kurtz.

The college orchestra under the direction of H. F. Fenstermaker, furnished a program of music in connection with the program.

Miss Elsie Hicks, organist of the First Church of Christ, Scientist, was born in Bloomsburg, Pa., of American parentage, though of English, French, German and Welsh ancestry. On the parental side she is a descendent of Elias Hicks, founder of the Hicksite Quakers.

Miss Hicks began her musical education at 8 years of age with Prof. I. W. Niles, and at 9 years she made her first public appearance in concert. From this on she was the musician of her school class, playing all the songs and marches. At this time, too, she was doing much accompanying for violin and voice in her home.

Her next piano instructor was Charles Elwell, a graduate of the New England conservatory.

At the age of 15 years, Miss Elsie graduated from the Bloomsburg State Normal School and the following year she took postgraduate work studying piano and voice with Signorina Ru-

bina Ravi of Florence, Italy, and organ with Mrs. Maude Runyan Colley, later becoming Mrs. Colley's assistant at the First Presbyterian Church.

In this latter institution, she took a soloist course, studying piano with Carl Stansny, a pupil of Liszt; organ with Henry Dunham, a noted organist and composer, theory, with Louis C. Elson, and harmony with Benjamin Cutter.

After graduation, from the conservatory, Miss Hicks appeared in concert in various eastern cities, playing for such artists as Madam Lillian Blauvelt, and the late Rafael Joseffy, Hungarian virtuoso, who presented her with his book, "School of Advanced Piano Playing." In September, 1927, Prof. Wilbur became seriously ill and was removed to the Johns Hopkins Hospital, Baltimore, Md., where some of the leading physicians studied the case. It attracted nation wide interest and was broadcast nation wide by news gathering agencies.

Announcement has been made that John Bakeless, son of Prof. and Mrs. O. H. Bakeless of town, has been made editor of The Living Age, of which he was formerly associate editor. Coincident with that announcement comes The Living Age in an entirely new form and a modern dress, and the added announcement that this well known magazine of world affairs has been sold by the Atlantic Monthly Company and beginning with the September issue will be published by The Living Age Company, at 280 Broadway, New York City.

The announcement of Mr. Bakeless's promotion to the editorship of this well known magazine is of especial interest to his many Bloomsburg friends. He gained his first experience as a reporter in Bloomsburg.

This was followed by some outstanding work for the Springfield Republican and a number of the New York papers during the years he spent at Williams college. Those years were followed by further years at Harvard, where he did his post

graduate work. Ever since he has been engaged in magazine work, filling each position with the brilliance and earnestness that was marked even in his early days as a young reporter who had the urge to write, and who made it his business to see that he had the opportunity to satisfy that urge.

Mr. Bakeless is the author of two books which have been the subject of much comment. His first book, "The Economic Causes of War," was awarded the Wells Prize of \$500 by Williams College, in 1920. Concerning Mr. Bakeless' second book, Sir Philip Gibbs, noted British author, says:

"I have read "The Origin of the Next War," by John Bakeless and regard it as the most masterly analysis of the underlying dangers in Europe and the rest of the world. It is only by getting such ruthless and scientific revelation of fact that we can hope to escape or at least postpone another conflict between nations."

At his late home on Chestnut Street, Berwick, there occurred, at 5:30 o'clock Monday morning, March 4, the death of Arthur Brecht Leshner, son of the late Prof. A. N. Leshner and of Martha A. Leshner.

While Mr. Leshner has been practically an invalid for nearly ten years it was not until the last few months that his condition showed a marked change. Six weeks ago he suffered a severe heart attack from which he never fully recovered. His sister was summoned to his bedside and the attending physician gave the family no hope beyond the possibility of a few hours. But the optimism, faith and gallant courage which had played such an important part thru years of patient suffering, came again to

his aid and life was prolonged. His keen sense of humor and charm of personality won for him a wide circle of sincere friends whose admiration steadily increased with the passing of days and weeks when he was fighting such a valiant battle for life.

During the years of his enforced solitude he was a constant and consistent student. The kind friends who came to share his solitude always went away with a smile on their lips and a more sympathetic attitude toward mankind in general for he was always eager to point out the finest qualities of his fellows and in consequence his daily life was an inspiration.

Mr. Leshar was born in Lancaster, Pa., January 18th, 1893. He was educated in the elementary schools of Berwick and was graduated from the Berwick high school in the class of 1911. He later completed a course at the Bloomsburg State Teachers' College.

This event annually attracts thousands of educators and some of the most prominent in the educational field in the county are on the program.

Dr. and Mrs. Francis B. Haas were called to Philadelphia December 16 by the sudden death of his sister, Miss Lillian Haas, who has frequently visited here and who has many friends in Bloomsburg.

Miss Haas was apparently in the best of health and had eaten a hearty dinner just before she was stricken with an attack of acute indigestion. Her death quickly followed.

Miss Haas was a teacher in the Philadelphia schools and is survived by three brothers and three sisters.

PROFESSOR BAKELESS RETIRES

After having served faithfully and devotedly for thirty years as a member of the faculty of the Bloomsburg State Normal School, Professor O. H. Bakeless retired June first, with the knowledge that his has been a piece of work that was well done.

Professor Bakeless first took up his work in Bloomsburg in 1890, and after three years here resigned in 1893 to become principal of the United States Industrial School for Indians at Carlisle. This position he held for nine years.

In 1902 he returned to Bloomsburg, and has been a member of the faculty since that date. He is loved and honored by the hundreds who has sat under his instruction, and occupies a place in their hearts that is equal to that held by the late Professor Noetling in the hearts of those who worked under him.

Even though Professor Bakeless is retired from active college work, his influence in the school and community will be felt,

and no one can say how great is the influence that he is exerting, through the great number of alumni, who are scattered throughout all the states of the Union.

About one hundred persons who are active or who have been active in the work of Old Normal paid tribute to Professor Bakeless at a dinner held in his honor on Monday evening, April 29, in the Wimodausis Club rooms.

Dr. Haas presided at the dinner, and introduced Mr. A. Z. Schoch, President of the Board of Trustees, and Dr. D. J. Waller, Jr. Both of these men paid tribute to the work of Professor Bakeless during the years they have worked together. A letter of congratulation from M. E. Glover, of Mifflinburg, a member of the Board of Trustees, was read, as was also a telegram of praise for Professor Bakeless from Mrs. John G. Harman, another member of the Board.

The musical part of the program consisted of group singing led by Miss Jessie Patterson, vocal solo by Miss Alma Caldwell, and piano solos by Miss Marjory McHenry.

At the close of the program, Dr. Waller, in behalf of the Faculty and Board of Trustees, presented Prof. Bakeless with a beautiful white gold watch and chain, as a token of the love and esteem in which they hold him. In responding, Professor Bakeless spoke of the loyalty of his fellow teachers to him, and of the earnestness of the boys and girls who worked with him. He closed by saying, "I appreciate this gift. I do not deserve it but I will take it."

At the Alumni meeting, Professor Bakeless was called to the platform by R. Bruce Albert, '06, newly elected president of the Alumni Association, and was greeted with a standing ovation by the members of the Association. Mr. Albert then informed Professor Bakeless that he had been made sole administrator of a fund of over \$1200, to carry on the art projects in which he has been so deeply interested for so many years. He is also to have charge of the Alumni Memorial Trophy Room, which the Board of Trustees will be asked to provide.

The various reunion classes had been canvassed before the general meeting, and were ready to announce their subscriptions at the time of the roll call of classes. The notice sent to each class by the executive committee bore this fitting tribute to Professor Bakeless: "We, as fellow members of the Alumni Association believe this will be the finest thing we can do for Prof. Bakeless. We also feel confident that the Alumni, as a whole, will endorse the plan with enthusiasm, and that the funds will come to Prof. Bakeless's hands to enable him in his new days of leisure to crown a most useful life with a characteristic achievement."

In the course of the next four years, all of the other classes will be given the opportunity to pay tribute to Professor Bakeless by contributing their share to this most worthy project.

ALUMNI DAY

Ideal weather and one of the best rounded programs that had ever been arranged for the affair, brought back to Bloomsburg hundreds of graduates for the Alumni Day exercises, one of the principal events of the Commencement season.

In addition to the classes in reunion there were additional hundreds of other class members who came back for the day. Graduates arrived early in the morning, some of them having arrived in Bloomsburg Friday evening.

Class reunions were well attended during the morning with graduates busy greeting college day friends. There were a number of matters of interest to the individual classes which were also up for action.

In each reunion one smiling face was missing, that of Prof. J. G. Cope, for many years a popular member of the College faculty, Mr. Cope having passed away during the year. Alumni expressed regret over the passing of this man who had done much in moulding the lives of hundreds of students.

One matter which came before each class was that of contributions for an art fund of which Prof. O. H. Bakeless is to be the sole administrator. Each class was enthusiastic over the plan and subscribed varying amounts for the project. Prof. Bakeless has for years worked tirelessly in beautifying the corridors and rooms of the buildings with good works of art. The matter will be placed before each of the classes in reunion for the next five years.

Dr. Waller presided at the meeting in the absence of the president, Mr. Diehl, who was attending the National Synod of the Reformed Church. The main floor auditorium was well filled and there were many in the balcony when the session opened. R. Bruce Albert read the minutes of the last meeting and the College Glee Club, under the direction of Prof. Clark, sang two selections.

Prof. S. I. Shortess told of the organization of the Glee Club and said that an active program would be carried out next year. Any who would care to secure the club for a concert were asked to submit the requests for dates.

R. Bruce Albert, a member of the class of 1906, was elected president of the Alumni Association, succeeding Fred W. Diehl, superintendent of the Montour County schools, who was chosen chairman of the executive committee. The report of the nominating committee, Mrs. C. W. Funston, D. D. Wright and E. H. Nelson, was accepted as presented by Mrs. Funston.

The officers are: President, R. Bruce Albert; Vice-Presidents, Dr. D. J. Waller, class of 1867, and O. H. Bakeless, class of 1879; Treasurer, F. H. Jenkins, class of 1876; Secretary, Edward Schuyler, class of 1924; Executive Committee, Fred W. Diehl, Danville, class of 1909, chairman; Mrs. C. W. Funston, Bloomsburg, class of 1885; Maurice Houck, class of 1910; Miss Harriet Carpenter, Bloomsburg, class of 1896; D. D. Wright, Bloomsburg, class of 1911 and Dan Mahoney, class of 1909.

Miss Catherine Johnson, a member of the class of 1928,

sang a solo and Dennis Wright submitted the report of the Treasurer, Prof. Jenkins. A rising vote of thanks was given to Prof. and Mrs. Jenkins for their untiring efforts in the publication of the Quarterly, supported by the alumni.

The report of the scholarship fund, prepared by C. M. Hauseknecht and presented by Mr. Wright, was that \$2,751.79 was in the fund with \$1,933.50 now outstanding in loans to students and graduates.

H. F. Fenstemaker, a member of the College faculty and the Alumni and editor of the Quarterly, asked that each class have a member write up its reunion and send it in for publication. Mrs. Funston gave the report of the Nominating Committee.

The class of 1867 was the oldest in reunion and had two members present, George E. Elwell and Dr. D. J. Waller.

The class of 1879 with a record of having had its 22 members teach a total of 624 years, had six members present. Prof. C. H. Albert, for many years a member of the faculty of the College, made the report. He said that four of the members had taught 50 years, three 49 years, one 45 years and two 30 years.

Charles Kennedy reported for the class of 1884 which had four members present. Mr. Kennedy spoke of the institution in the days he was a student there.

The class of 1889 had 25 in reunion. State Senator Benjamin Apple, of Sunbury, responded for the class and spoke of the delight of the members in seeing Dr. Waller at the reunion. Of the class of 59 there are 43 living and \$115 was subscribed to the art fund.

Mr. Lewis responded for the class of 1894 which had 25 members in reunion and he urged that the graduates return as often as possible for the reunions. The class pledged \$108 for the art project.

Mr. Gager, of Scranton, reported for the class of 1899

which had 19 attending. He spoke of the fine features of the institution and declared that one year while his class was at the school they did not lose any football or basket ball games and lost only two of 11 baseball games.

John McGuffy, a member of the class, was introduced as one of the greatest athletes in the history of the institution. The class pledged a minimum of one hundred dollars to the art fund.

G. L. Howell reported 29 of the 121 members of the class of 1904 back and said \$34 had been subscribed for the fund. Dan Mahoney reported 23 of the class of 1909 in reunion with \$1000 subscribed to the fund. The class of 1914 had 20 in reunion with one member having come from St. Louis, Mo. Mrs. Roy Cook reported for the class which subscribed \$25 for the fund.

Mrs. Mary Woolcox reported for the class of 1919 which had 55 back and pledged \$100 to the fund.

The class of 1924 had the largest number in reunion, 147 back out of a class of 330. The class had not determined on the amount it would give to the fund but pledged its share. Edward Schuyler reported for the class.

The class of 1927, the youngest class in reunion, claimed the honor of having in it the first graduate to have obtained a degree at the institution, Arthur Jenkins. The class has given \$900 for furnishing of the lobby and pledged \$250 for the art project. Miss Verna Medley reported for the class.

The class of 1929, which earlier in the meeting had been elected to membership, was called upon to stand. There were about 50 members in attendance. The meeting then adjourned and the members went to the dining hall for the banquet.

BACCALAUREATE SERMON

"Be such teachers that your pupils will speak not only of the aid you gave by the lessons you taught but by the light of

character that shines in your eyes, and that character is created in communion with God our creator," Rev. J. Thomas Heistand, rector of St. Poul's Episcopal Church, told the members of the graduating class of the Bloomsburg State Teachers' College in delivering an impressive sermon at the baccalaureate services in the College auditorium Sunday afternoon, May 26.

Dealing separately with the physical, intellectual and moral phases of life the minister in his brief address held the closest attention of the class as he spoke of their responsibilities as teachers.

The services opened with the processional at 2:30 o'clock, the class in black caps and gowns singing the processional hymn of the institution, "Ancient of Days."

The class was headed by its officers who were followed by those taking part in the service. Seated on the stage during the exercises were Rev. Heistand, A. Z. Schoch, J. T. Townsend, members of the Board of Trustees; Dr. D. J. Waller, Jr., former principal; Dr. Francis B. Hass, principal, and Miss Alma Caldwell and H. F. Fenstemaker, of the College faculty.

Rev. Heistand offered the invocation and the congregation sang, "O Master Let Me Walk With Thee." Dr. Haas read the Scripture.

Following the sermon by the Rev. Mr. Heistand, Miss Alma Caldwell, of the College faculty, sang, "O Divine Redeemer," by Gounod, with violin obligato by Gerald Harter, of Bloomsburg.

850 ALUMNI AT ANNUAL BANQUET

There were 850 members of the Alumni Association of the State Teachers' College at the banquet served in the College auditorium at 12:30 o'clock Saturday afternoon, May 25, and the banqueters enjoyed an excellent address by one of their members, John Bakeless, editor of the Living Age, and were

heartily greeted by Dr. Francis B. Haas, principal of the College.

R. Bruce Albert, president of the Alumni, presided and the College orchestra, under the direction of H. F. Fenstermaker, furnished a program of music during the serving of the dinner.

Mr. Albert, in introducing Dr. Haas, said that in looking over the records of the association for the past eight years it was found that the number of graduates returning during the past two years numbered many more than in preceding years. He declared that the warm reception given them by Dr. Haas and the school authorities was what he believed to be the reason for the steadily mounting attendance. Dr. Haas welcomed the graduates, expressed the hope that they would enjoy themselves and extended a hearty invitation for them to return.

Just at the close of the meeting, the entire assemblage rose in tribute to Dr. D. J. Waller, Jr., a member of the class of 1867, for many years principal of the school, and a man who has played a prominent part in building the lives of hundreds of graduates, many of whom were among the Alumni present. Mr. Albert, in calling for the assemblage to rise, paid a fitting tribute to the work of Dr. Waller.

Mr. Bakeless, in a fine address which held the closest attention of the gathering, told of the powerful influence that the United States had at the present time and declared that whether that power was wisely used depended to a large extent upon the teachers of the nation.

Mr. Bakeless said: "It may be egotistical to make the claim; but I think I may assert with reasonable confidence that I have been a part of the Normal School—or the Teachers' College, as we must now call it—at least as long as any one in this room, except the veterans of the faculty. For eleven years I was part of the body, entering the model school in the second grade in 1902 and finishing at last in 1913. I have never yet been quite clear whether the faculty felt that after eleven years there was nothing left to do for me, or whether they adopted the

more cynical view that eleven years was about all they could stand. At any rate, the school and I parted company—or seemed to.

“For I seriously doubt whether any one can ever quite part company with his college or with his school. Not all of you, probably, entered the school, as it was then, at so early an age as seven. But we all came here in our formative years. And no influence, exerted in youth when the strongest character is still pliable and forming can hope ever in the future to throw off that influence. Of course, we don’t hope to throw it off. We don’t even throw it off. We want to keep it. For the influence of old Normal—if you will permit an old-timer to use an old, familiar name—is one of the best influences any of us can ever hope to have in our lives.

“Of course, any school can claim to exercise some such influence over the future lives of its alumni. Every school can make the claim because, by and by, every school does just that. But no educational institution can make quite so large a claim to exerting a wide-spread influence, as one that specializes in the training of teachers. A teachers’ college might be described as a kind of intellectual grandfather. It is accomplishing a double task. It is exerting an influence on its generation not only through its own alumni, but through the teaching that those alumni are themselves doing.

“I remember several years ago when I was in some perplexity as to what future course I should pursue, going for advice to Dr. Talcott Williams, formerly editor of the Philadelphia Press, later the first director of the Pulitzer School of Journalism.

“‘Well,’ said he, ‘you must choose between two courses. You must decide what kind of influence you want to exert. Do you want to exert an influence over your own time and your own generation? Or do you want to exert an influence over the generation that is to come.’

“In the mind of this veteran journalist, the two were not to

be combined. But it is by no means certain that he was right, even so far as individuals are concerned. And certainly he was not right as far as institutions are concerned. For a school in obviously exercising influence over its own time, since it influences its students directly, and equally obviously it influences the coming generation indirectly through them.

"Now what is the influence that we may expect this college of ours to exert? Surely it ought to be a formative influence in American civilization. We are not yet so great a country as we ought to be, here in America. There is no denying that our civilization is crude and unfinished and raw. We have yet to produce a distinctively American culture. So far we are borrowers and merely imitative borrowers from Europe. There is, to be sure, nothing disgraceful in being borrowers of another people's culture. All races everywhere have always borrowed. But they have also added something of their own to what they have borrowed, and that is what we here in America have yet to do.

"Moreover, we are living in an age which faces tremendous problems, and it is our nation which exercises the greatest power in the modern world. We have come a long distance in this country in the last thirty years. At the turn of the century we were still a small and relatively unimportant power. Today we are the greatest single influence in the modern world. Who is to determine the use that we are to make of this power of ours? Surely we ourselves, as citizens. If America's foreign or domestic policy is weak or unworthy, then we are unworthy and we are to blame. For it has been well said that 'the trouble with representative government is that it does represent.' If America has not wholly lived up to her opportunities, then we are to blame.

"And is there a remedy? Yes, it lies in the training of the next generation. And the training of the next generation is in the hands of the teachers of the country. We need clear minds, carefully trained to honest and impartial scientific thinking.

That is the greatest gift that our schools can give to the nation or to the world. And it is peculiarly the work of the teacher training institutions. And we, as alumni, have special duty to perform. The work of the school is properly under the direction of its administration and its faculty. But we have a share in it as well. For it is our college and we are its alumni. The college has a right to expect our loyalty and our practical cooperation in every way, and I know that it is sure to find it in the future as it always has in the past."

IVY DAY PROGRAM

While thunder rumbled far away and lightning flashes were reduced by distance to a mere dull glow, Seniors of the Teachers' College presented their annual Ivy Day program in the grove, the most picturesque of the commencement features.

"Robin Hood" was the presentation this year, and in setting and costume the presentation lacked nothing. The program came after the planting of the ivy and the Ivy Day oration by Miss Charlotte Lord, this part of the exercises being given at the base of the new fire tower on the south side of Carver Hall.

An audience of several hundred witnessed the presentation, braving the premature dusk and distant rumble heralding the approach of storm, to say nothing of the splattering rain drops that fell during the last half of the program.

The march from Carver Hall to the grove was an impressive sight as the scores of cap and gown clad members of the Senior Class entered the grove to form a semi circle on the ground in front of the crowd of other spectators who filled the bleachers to overflowing.

At the head of the procession were a dozen or more of the girls of the class, clad in white, carrying the ivy chain.

Some of the spectators were driven out when the rain be-

gan to pelt the crowd as the program was half concluded, but most of the audience remained to the end.

Miss Alice Pennington was in the role of Robin Hood, Miss Isabel Chelosky as Little John and Miss Florence Fest in the role of Maid Marian. All were in costume as were the other participants. As Robin Hood and his men made merry in Sherwood forest there were enacted a half dozen episodes. These opened with Robin Hood meeting Little John and Maid Marian coming to the forest.

The second scene was at Nottingham fair, with dances by the villagers in their vari-colored costumes that stood out against the green background of the grove. The archery contest with Robin Hood's victory in the shooting match followed.

The program concluded with Robin Hood and Marian planning their wedding and the visit of King Richard in disguise to the forest to grant a pardon to Robin Hood.

Miss Anna Taby was in the role of King Richard. Her attendants were Misses Sarah Pierce and Agnes Bieler. Miss Florence Jones was the nurse, and Robin Hood's men were Misses Helen Seely, Mary Becker and Verna Valence, with Miss Mary Carr as the sheriff, and Miss Rachel Pratt as Ellen.

In charge of the production were Miss McCammon and Miss Johnston, of the College faculty.

CLASS NIGHT

The lighter side of College life, trivial happenings of today that become the cherished memories of tomorrow, formed the basis of the Class Night program of the Class of 1929 which was given before a large audience in the College auditorium Tuesday evening, May 28.

Built around a "Misrepresentation of Assembly Exercises" the program was a delightful and amusing cross section of the

good times of school days that ended for the majority of the class when the Commencement exercises brought another College year to a close.

The program was climaxed by the presentation of the memorial, in the form of a check, which was in addition to the project of framing pictures that now adorn college walls and which will for years perpetuate the name of the Class of 1929.

The presentation was made by Theodore Davis, of Nanticoke, and accepted on behalf of the institution by Prof. W. B. Sutliff, dean of instruction. Mr. Sutliff, in accepting the gift said each year a large group leaves the institution and that each class leaves some evidence of its College life in the form of a memorial. Mr. Sutliff spoke of the many memorials that had been left in the past and of the part that they have played in binding closer together the school and its graduates. The program was concluded with the singing of the Class Song.

In opening the program Mr. Davis presided at the "chapel exercises." There was no responsive reading because "every one had been too busy during the past two weeks." There was no singing because the "books could not be found." There were no faculty members to make reports, class members explaining that the faculty was probably forced into the background by the brilliance of the graduating class. And then came a complaint of the conduct of the locker room girls and a shifting of the scenes to the "locker room," a sketch that was realistic in every detail.

Waller Hall girls followed with a dramatization of life there and then students who had done their practice teaching in Berwick gave a glimpse of student life there.

George "Ex" Mathews, president of the Student Council, and a group of Seniors then provided a training school scene that was anything but realistic but certainly provided a lot of laughs.

COMMENCEMENT EXERCISES

An audience of relatives and friends of the class that filled the auditorium enjoyed the impressive exercises that brought to a close another College Commencement and sent out into the great field of service almost 300 qualified teachers.

Of the class, one of the largest in the history of the institution, 23 received degrees in bachelor of science of education, 22 of them earning the degrees in Junior High School work and one obtaining a degree in the elementary field.

The class, in black gowns and caps, entered the auditorium from the rear as Alexander's orchestra played the processional. Dr. David J. Waller, Jr., for years principal of the College and intimately concerned with the progress of the institution throughout his life, offered the invocation.

Seated on the platform for the exercises were those who took part in the program, members of the Board of Trustees and the members of the faculty. Participants in the program and the faculty were in the class procession, following the officers of the class.

The Commencement Address was given by Dr. Frank Pierrepont Graves, Commissioner of Education of the State of New York. Introduced by Dr. Haas as the man who was his friend, teacher and inspiration, Dr. Graves in opening his address spoke of the principal of the local institution as one of the leaders in the educational system of Pennsylvania.

Dr. Graves also paid tribute to Prof. O. H. Bakeless, who retired at the close of the College year after years of invaluable service and to Dr. D. J. Waller and to the latter's father, who was one of the founders of the institution.

He spoke of the changes in the institution since its foundation, changes that are those of progress, but declared that the ideals of the founders remain unchanged.

There is no more worthy objective than that of creating leaders. There are many ordinary individuals who can follow but the world must look to certain individuals for leadership to keep the human race from stagnation.

He spoke of the part heredity and environment play in the life of the individual; of the importance placed in these two factors by English and American leaders. Dr. Graves was inclined to accept the American theory that environment played the most important role.

He spoke of the contributions which have been handed down to the present generations through training and environment and not through heredity, and prophesied that the advance in the future will be largely as in the past—through the classroom.

Speaking of the part heredity plays, Dr. Graves admitted that it had not been given a fair trial; that as yet we do not give the attention to human mating that we do to the breeding of the lower animals. He deplored the fact that hardly an effort is being made to prevent the mating of those who are physically and mentally unfit.

If the accumulated knowledge were applied, Dr. Graves thought it would take a comparatively short time to improve the race and raise the level of human standards.

It is the popular creed that one man's opinion is as good as another's. Certainly today no attention would be paid to the advice of an expert in the choice of mating. If we have hope of raising the intellectual standard we must realize that the plan now used must be corrected and that it must be corrected through education, he declared.

He spoke of the American point of view of giving educational opportunities to all but he called attention to the limited ability of man. He spoke of the attempt now being made through tests to select only those for higher education who can

take advantage of the opportunities. Thus far the tests are crude, but he believed that they are bound to help to form the groundwork of the final solution.

He deplored the abuses of educational opportunity and declared that any faculty or trustee who is tolerating a lazy student is proving unworthy to a trust. If the power given to the individual through education is used selfishly or criminally then nothing could be so detrimental to the human welfare as college.

He closed with the plea that the class, realizing the opportunities which had been theirs, should go out and assist in the giving of opportunities to others.

Dr. Graves in his address to the class said that a most worthy objective of an institution was that of turning out leaders. He declared that through the ages there had been very little change in man but that those of today are enjoying the contributions handed down through the training and environment of the past. The speaker said that heredity had a less important part in progress but deplored the fact that less attention was given to the mating of the human race than to the lower animals.

The point of view in America today is to give each individual as much education as the individual is capable of consuming. The welfare of the race demands it and we Americans have seen the demand and are endeavoring to supply it. Dr. Graves pointed out, however, that all are not created alike and that the sooner that is realized the better off we will be. Shall we never learn, the speaker asked, that all Americans cannot do everything and that there is honorable work outside of education?

Moral qualities are bound to play an important part in the success of the individual, perhaps even a greater part than abstract intelligence. He said it was a challenge on the part of each individual to do his utmost to remove the abuses to the privileges of education.

After Dr. Graves delivered his address, Robert E. Clark, a

member of the College faculty, sang Tschaikowski's "Don Juan's Serenade."

Dr. Haas then made the awards of the certificates and diplomas, each graduate standing as his or her name was read. Prof. W. B. Sutliff, dean of instruction, presented the lists of the successful candidates to Dr. Haas. The presentation of the athletic awards was then made.

As the names of those receiving degrees were called, the students went to the platform and received their diplomas, each being personally congratulated by Dr. Haas.

Miss Genevieve Meixell, of Espy, secured her degree in the elementary field. Those who secured them in the Junior High School field were: Lawrence H. Creasy, Catawissa; Ralph W. Davies, Theodore S. Davis, Nanticoke; Florence J. Fest, Jack B. Fortner, Bloomsburg; Mark I. Fowler, Espy; Cora Frank, Mahanoy City; Bernard Gallagher, Parsons; Ray J. Haring, Nescopeck; Martha A. Laird, Mary A. Laird, Hughesville; Miriam R. Lawson, Bloomsburg; George A. Mathews, Sugar Notch; Charlotte Mears, Bloomsburg; Marjorie A. Orr, Shickshinny; Alice B. Pennington, Millville; Mildred J. Rehm, Bloomsburg; Charles H. Surfield, Shenandoah; Ruth E. Titman, Bloomsburg; Theodore Vital, Glen Lyon; Kenneth E. Yocum, and Minnie Melick, Bloomsburg.

In his parting words to the class Dr. Haas spoke briefly declaring that it rests with each one as he goes from the institution whether his life is to be one of enslavement or freedom and expressed the hope that each one had secured that which would enable him to secure freedom.

At the exercises the institution continued a custom inaugurated last year and which promises to be a feature at Commencements in the future, that of presenting to each man of the graduating class who earned letters in varsity athletics a gold key and a certificate.

Those who received the awards were George Mathews,

Wilbur J. Fisher, W. Archibald Reese, Robert Davis and Henry Morgan.

The assemblage stood for the singing of Alma Mater and the audience remained standing while the class left the auditorium for the last time in their College careers. Alexander's orchestra played the recessional.

DO YOU WANT THE QUARTERLY TO CONTINUE?

This is **your** Quarterly. Its existence depends upon you, the members of the Alumni Association. Its publication is financed entirely by the Alumni Association, independently of the College. We receive no financial support from the College; our support comes entirely from dues paid to the Association. The Alumni membership now exceeds six thousand, but only one-tenth of that number are giving us their support.

The following figures will show what the circulation record is:—

May 21, 1929—Paid subscriptions for 1929-30—441.

Paid subscriptions for 1928-29 not renewed—592.

Subscriptions for 1926-1928 not renewed—458.

A total of 1,050 subscribers who have allowed their subscriptions to lapse.

What is to be done about it?

We have many plans for the improvement and enlargement of the QUARTERLY, but we are unable to carry them out, because we do not have the money. The future of the QUARTERLY lies in your hands. If you have its interests at heart, here is what you can do:

1. Pay your dues every year, instead of once every five years. Do not permit your subscription to lapse. Several hundred who were subscribers last

year have neglected to send in their dues this year. Are you a twenty per cent. Alumnus, or a one hundred per cent. Alumnus?

2. Pass this word along to members of the Alumni Association who are not now readers of the QUARTERLY. Make yourself responsible for at least five new subscribers this year.

3. Send us clippings and personal items of interest to the Alumni.

4. Keep us informed of your correct address.

Do you want the Quarterly discontinued or will you help to boost it? In order to make the Quarterly self-supporting we need the help of the Alumni as a whole. With the help of all, we can make the Quarterly a periodical of which we may all be proud.

Here is something we saw the other day: "The mule is a strange animal. When he is kicking, he can't pull; when he is pulling, he can't kick."

ATHLETICS

The Spring season has been successful in sport activities at the College. The inter-collegiate sports have been baseball, track and field, and tennis. There has been also a splendid program for girls of which we shall speak later.

The baseball team won five of its eight games. The victories were as follows: Wyoming Seminary (2), East Stroudsburg (1), Kutztown (1), Mansfield (1). Defeats: Shippensburg (2), Mansfield (1). The team reached its greatest heights on Alumni Day. Those who saw the game were delighted to see the splendid performance of a good team.

Track activities started on February 20 at a Relay Carnival sponsored by the Scranton Technical High School. Allen-

town Prep., Bloomsburg and Keystone Academy were classed to run in competition and finished in the order named. The College sponsored a triangular track and field meet on May 11. Shippensburg, East Stroudsburg and Bloomsburg had an interesting day. Shippensburg, with an outstanding star named Price, won the meet. East Stroudsburg was second. Bloomsburg's third place was brightened somewhat by the performance of Rinker, a Freshman, in winning first place in the mile run. May 18th, the Eastern District Track and Field Meet for the eight Normal Schools and State Teachers' Colleges in the area was held at Shippensburg. Bloomsburg took fourth place.

The tennis team met Mansfield twice and took defeat both times. This was the only inter-school competition scheduled.

The girls' program in the school is based on a point system for reward in the way of numerals, letters and chevrons. Keen interest is shown in achievement in the wide variety of activities offered for credit. To win numerals, 300 points must be earned. About 150 girls met the requirements. Nearly 125 more won the coveted "B" by scoring 600 points. Thirty secured chevrons with 900 points. One four year student, Dorothy Foote, a Senior, has to her credit 3 chevrons with a grand total of 1500 points earned during her four year course.

To all men graduates who have earned varsity "B's" during their course, suitable recognition is made in the Commencement program by the presentation of Athletic Certificates and gold keys. Five Seniors received these rewards at the last Commencement.

We sign off now until Fall. Alumni interest is welcomed in keeping our athletic standards worthy of Bloomsburg.

Quietly at the home of the bride's sister October 24, 1928, Judge Charles C. Evans, of the Columbia-Montour district, and Mrs. Elizabeth Milnes Mears, of West Second Street, Berwick, were united in marriage.

Only the immediate families of the prominent couple witnessed the ceremony, which was performed at 2:30 o'clock at the home of Mr. and Mrs. Harry E. White in Briar Creek. The home was beautifully decorated with a profusion of yellow chrysanthemums, yellow roses and ferns.

Rev. Joseph C. Stuart, pastor of the First Presbyterian Church of Berwick, performed the ring ceremony as the couple met before a bank of flowers, the bride being given in marriage by her brother, John Milnes, of Kenwood, N. Y. The bride wore orchid chiffon velvet and carried violets and orchids.

There were no attendants at the ceremony and following a wedding dinner the couple departed on a honeymoon to a number of cities in the East.

The bride is one of Berwick's most highly esteemed women

and the many friends of the couple will join in extending heartiest congratulations.

Mrs. Evans has been a resident of Berwick since 1922, coming to Berwick from Scranton, where she had formerly resided. She is, however, a native of Espy. Since coming to Berwick she has been particularly active in the Women's Department of the Y. M. C. A. and the work of the Girl Reserves and for several years has been an officer of the Advisory Board of the women's department, a position that drew her into active service in the growing work of that organization. During the past year she has been president of the Council Cup Chapter of the Delphian Society.

Guests at the wedding were: Mr. and Mrs. Ray Milnes, Mr. and Mrs. John Milnes, Kenwood, N. Y.; Mr. and Mrs. Robert Ives, of Clark Summit; Robert Mears, of New York City; Miss Marion Mears, of Franklin; Mr. and Mrs. Clark Evans of New York City; Mr. and Mrs. Morris Evans and son Charles, Miss Elizabeth Milnes and Mr. and Mrs. Harry E. White.

1879

There were six of the Class of 22 which graduated in 1879 who returned for their fiftieth year reunion and all of the members of the class have taught a total of 624 years. This class had a fine time throughout the day telling of their work during the half century since graduating and also telling of absent classmates.

Stricken suddenly with heart disease at Nutley, N. J., where her daughter is a teacher, Mrs. L. P. Sterner, one of Bloomsburg's best known and most prominent women, died at 5:30 o'clock Monday morning, June 4, after a few minutes' illness. Prof. Sterner was visiting his son, Dr. Robert Sterner, in Philadelphia, at the time, and was overcome with shock.

The body of Mrs. Sterner was brought to Bloomsburg on the 3:50 D. L. & W. train and was removed to the family home

on Third Street, where funeral services, which were private for relatives, was held at 1:30 Thursday afternoon, June 7. Rev. S. A. Harker, of the Presbyterian Church, officiated.

Mrs. Sterner was one of Bloomsburg's most highly esteemed women and had long resided in Bloomsburg.

About two weeks before Mrs. Sterner's sudden death, Prof. and Mrs. Sterner left for Philadelphia to visit their son, Dr. Robert Sterner. Mrs. Sterner had gone to Nutley to spend the week-end with her daughter and was stricken suddenly. Her daughter and her son, James, were at her bedside when the end came. Prof. Sterner and Robert were immediately notified and went to Nutley at once. The body of Mrs. Sterner was removed to Philadelphia, but it was impossible to continue the journey to Bloomsburg because of Prof. Sterner's condition.

Mrs. Sterner last Spring underwent a very serious operation for the removal of a goitre at the Jefferson Hospital, Philadelphia. Her condition then was such that she was a patient at the hospital for several weeks before it was deemed wise to operate. Her condition since had shown an improvement and she has made a satisfactory recovery.

Mrs. Sterner was a descendant of Robert Fulton, inventor of the steamboat, and some years ago was an honored guest in New York upon the occasion of the celebration of the invention of the steamboat.

Her maiden name was Miss Nora Finney, and she was for a number of years a very successful and much loved teacher in the Bloomsburg High School. It was while she was a teacher and Prof. Sterner the principal that their marriage took place.

Mrs. Sterner is survived by her husband, who retired last fall after a long period of service as superintendent of the Bloomsburg schools and three children: Dr. Robert, of Philadelphia; Miss Alice, of Nutley, N. J., and James, a student at Harvard.

Mrs. Sterner had expected to go from Nutley to New York City with Prof. Sterner for the commencement at Columbia University, where their daughter was to receive a degree.

Mrs. Sterner was active in the W. C. T. U., the Fort McClure Chapter of the D. A. R., the Century Club and the Presbyterian Church.

Ira C. Dietterick passed away at the hospital at 5:20 A. M. October 29, 1928, after having been in a very critical condition and at the point of death for the two days.

Suffering for weeks with a stomach ailment, he underwent an x-ray examination that revealed ulcers that necessitated a serious operation. It was performed and a condition developed which gave few hopes for his recovery.

Mr. Dietterick was born in Berwick on December 3, 1863, and was accordingly aged sixty-four years, seven months and twenty-six days. His early life was spent in Berwick where he served an apprenticeship in the Reagan Drug Store and became a registered pharmacist. He went to Nebraska to locate and established a drug store at Crawford that he conducted for many years.

Some twenty-five years ago he returned to Berwick and made his home with Dr. G. L. Reagan, and Mrs. Reagan, his sister, and was employed at Clewell and Currin's Drug Store. He was for several years in charge of the Mocanaqua Drug Store of S. J. Bannan, of Shickshinny, and returned to Berwick when the store was sold. He has since been employed with local drug stores and at the Berwick Store Company. A man with a never failing disposition of friendliness and cheerfulness, he was a man with many warm friends. He was a member of Christ Episcopal Church and of Berwick Tent, Knights of the Maccabees.

There are surviving two children, Elwell, of Scranton and Mrs. Harriet Catasus, of New York City. Mrs. Elizabeth Hoyt, of Berwick, is a niece.

James Trumbull, Raymond Hodges; Miss Fairchild, Miss Maudrue O'Connell; Mrs. Saunders, Miss Thursabert Schuyler; Gordon Schuyler, Haven Fortner; Benjamin Suratt, Llewellyn Edmunds; John Crawshay, Armond Keller; Poole, Alex Kraynack; Gray, Charles John; Clancy, Charles Wadas; Douglas, Elfred Jones, and a policeman, Richard Frymire.

1929 OBITER DEDICATED TO DR. HAAS

The Obiter of the Class of 1929 of the Bloomsburg State Teachers' College is one of the finest a graduating class of the institution has ever published, both as to content and appearance.

Handsomely bound in a leather cover, the volume of almost 350 pages is devoted entirely to the class and to College activities and life during the period the graduating class spent on the hill. The cover is one of the finest creations that has ever been placed on an Obiter.

The volume is dedicated to Dr. Francis B. Haas, principal of the College. It was edited by Ralph Davies, of Nanticoke, who was assisted by the following staff: Business manager, Charles Poole; secretary to the editor, Anna Ziemba; associate editors, Lawrence Creasy, Miss Marguerite Keithline, Miss Muriel Jones; stenographers, Miss Margaret Bower, Miss Dorothy Schmidt; art editor, Miss Eleanor Amos; athletic editor, Robert Davis; calendar editor, Miss Grace Kivler; assistant business managers, Isabel Chelosky, Elizabeth L. Williams.

A number of fine photographs of the College buildings and campus are in the front of the volume and are followed by a

group picture of the faculty and individual cuts of some of the members, including that of Miss Jessie Patterson, the class advisor.

There are individual write-ups on each member of the class, the write-up being under the cut of the individual.

Space in the volume is also given to the other classes, school organization and activities. In this department, the work is exceptionally complete. Pictures of organizations and individuals as well as many snap shots add considerable to this department.

One department is devoted to organizations, another to drama and music and a third to athletics. The College calendar is given in the rear of the book.

SET DATES FOR SUMMER SESSION

The summer session at the Bloomsburg State Teachers' College will open Monday, June 24, and will continue over a period of six weeks, closing on Saturday, August 3. The dates were announced in a summer session bulletin which was issued at the College recently. A catalogue for the coming College year of 1929-30 has also been issued. This catalogue is very complete and contains a number of pictures of the school plant and school organizations. The Fall term will open Tuesday, September 10.

E. H. SOTHERN RECITAL

Some of the greatest stage characters were brought to an appreciative audience in the College auditorium Friday evening, April 12, by Edward H. Sothern, one of America's foremost stage personages, who appeared here in a recital and dramatic

lecture in bringing to a close one of the finest artists' and lecture courses that the College has ever had.

Recognized as one of the leading exponents of romantic, legitimate and Shakespearean productions and one of the greatest of Shakespearean actors, Mr. Sothern, in his recital, gave some of the principal scenes from two of Shakespeare's most popular plays, "Macbeth" and the "Merchant of Venice."

He also delighted with "Lord Dundreary," one of the principal characters in "Our American Cousin" and gave parts of the poems from "If I Were King."

Because he was forced in his recital to go from one character to another he did not appear in costume but his character portrayals were so fine that his audience soon forgot the fact that he was not in costume.

One of the most enjoyed parts of his program were his reminiscences and the telling of several incidents linked with the stage career of his father and himself.

FRESHMAN HOP

In the College gymnasium, beautifully decorated in the class colors of purple and white, the Freshman Class of the Teachers' College held their dance Saturday evening, May 11. Alexander's Orchestra furnished a fine program of music.

Hoops were placed under the rafters and from them were suspended purple and white streamers. The basketball banking boards were decorated in those colors and paper along the walls was in an attractive design. Paper over the windows gave the effect of curtains. A fence was placed around the space occupied by the orchestra. The programs were very clever and were tied with cord in the class colors.

The patrons and patronesses were: Miss Kehr, Miss Turner, Mr. and Mrs. John C. Koch, Mr. and Mrs. E. H. Nelson and Mr. and Mrs. S. I. Shortess.

SENIOR BANQUET

The Commencement program of the Bloomsburg State Teachers' College opened Thursday evening, May 16 with the Senior banquet held in the College dining hall and attended by about 300 members of the class and guests. The affair proved to be a most delightful one.

Prof. E. H. Nelson presided and Prof. W. B. Sutliff, dean of instruction; Miss Jessie Patterson, class advisor, and Theodore Davis, of Nanticoke, president of the class, presided. Dr. Haas the principal, was unable to attend owing to business in Harrisburg.

Prof. E. A. Reams led in group singing and the North Hall orchestra furnished music during the dinner later for dancing in the gymnasium. Armond Keller and Henry Warman sang three numbers which were well received and Miss Alma Caldwell sang a beautiful solo. The banquet was in charge of a committee headed by Miss Marjorie Orr, of Shickshinny.

Russel McHenry, a well-known member of the janitorial force, recently celebrated his ninetieth birthday. Mr. McHenry helped in the construction of Carver Hall, or as most graduates know it, the chapel building, and his service has been practically continuous ever since. He can still be seen on the campus during these summer days, pushing his lawn mower and doing his share with the rest of them.

At a dinner held in his honor by the members of the Church

of Christ of Bloomsburg, Dr. Haas spoke of Mr. McHenry's faithfulness. Words of greeting were also spoken by N. T. Englehart, Superintendent of Buildings and Grounds; Prof. F. H. Jenkins, former Bursar; C. M. Hausknecht, present Business Manager and by Dr. Waller.

CONSTRUCTION OF NEW BUILDINGS BEGUN

The Berwick Lumber and Supply Company was awarded the general contracts for both the new training school building and the new laundry building of the Bloomsburg State Teachers' College. Work on the buildings has been begun and both buildings are expected to be completed by late Fall of this year. Both contracts have been approved by Dr. John A. H. Keith, superintendent of public instruction.

The total bid for the training school was \$105,900 and for the laundry building, \$22,700.

C. H. Sherry, of Hazleton, at a bid of \$15,011 was awarded the heating and ventilating contract for the training school while Herre Brothers, of Harrisburg, received both plumbing contracts, the one for the training school at a bid of \$6,428 and the one for the laundry at a bid of \$2,747. A. Rockefeller Company, of Mt. Carmel, received both electric wiring contracts at bids of \$4,816 for the training school and \$3,300 for the laundry. The heating and ventilating contract for the laundry went to the Chambersburg Construction Company at a bid of \$3,987.

The total bids for the two buildings amount to \$164,889, the bids for the training school totaling \$132,155 and that for the laundry \$32,734.

The training school building will be erected back of and to the south of North Hall, the men's dormitory. Part of the building will be in front of the tennis courts.

The laundry will be erected on the land between the bank at the west end of the athletic field and the beginning of the College grove.

The tennis courts will be moved, according to the construction plan of the College, and that part of the grounds will be used as a campus. The new tennis courts will probably be placed east of the training school.

The part of the grounds to the north of the new building and back of North Hall and the old barn will be graded and a play ground for the training school children will be provided. It is the ultimate hope of the College to erect a junior high school at the location of the present athletic field.

The work of the summer also includes nineteen improvement projects, which include the completion of the painting, plastering and flooring of the dormitory and the completion renovation of the auditorium.

SISTER OF FORMER PRINCIPAL DIES

Miss Mira V. Welsh, of Orangeville and one of the most highly esteemed residents of that section of the county, died on Tuesday morning, April 16 at the home of Philip L. Drum, Esq., of Kingston, where she spent the Winter.

Miss Welsh was the daughter of Abner F. and Mary Welsh and was born about 79 years ago at Orangeville, where she resided in the old homestead all her life excepting the last two Winters which she spent with her niece, Mrs. Drum, of Kingston.

She was a faithful member of the Ladies' Missionary Society of the Presbyterian Church of Orangeville, and frequently walked the two miles from her home to Orangeville to attend the meetings of the society.

She leaves to survive her one brother, Dr. J. P. Welsh, of Pleasantville, N. Y., former principal of the Bloomsburg State Normal School.

Her life was filled with many kindly deeds, her motto being "I am here to servve." She was a very devout Presbyterian and has to her credit the training of several young men—among them Dr. J. J. Ossuna of the University of Porto Rico.

MAY DAY PROGRAM

The campus of the Teachers' College presented a colorful sight Thursday afternoon, May 23, when more than two hundred pupils of the training school and a number of members of the College Senior Class participated in the annual May Day observance of the school. All the participants were in costume.

The campus itself has never looked prettier and as the groups of dances, including a number of folk dances were given by the youngsters of the training school, the many colored costumess presented a constantly shifting scene of brilliant colors against the green background.

Miss Lucy McCammon arranged and directed the presentation of the program and the accompanying music was arranged and directed by Miss Alma Caldwell.

Parents of many of the training school children were present for the exercises, which began at three o'clock and formed a considerable crowd about the campus.

The program was presented on the campus between Science Hall and the main building.

The beautiful afternoon gave opportunity for enjoyment of the program to the fullest extent and there were fourteen May poles used during the program, there being one for the smallest tots as well as others for the more advanced pupils of the training school.

STUDENT GOVERNMENT ELECTION

Edgar E. Richards, of Alden Station, a member of the Class of 1930 in the four year course leading to a degree, was elected president of the Community Government Association of the Bloomsburg State Teachers' College for the year of 1929-30, the completion of the count from the recent election shows. A number of county residents are officers in the organization.

Other officers who will lead the student government are: Vice-president, Nicholas Jaffin, Berwick; secretary, Henry Warman, Scranton; treasurer, Miss Dorothy Foote, Bloomsburg.

Members of the students council are: Seniors—Charles Wadas, Alden Station; and Miss Maudrue O'Connell, Ashley; Juniors—Chester Hess, Trevorton and Miss Beatrice Bowman, Orangeville; Miss Lois DeMott and Seymour Stere, both of Millville; Seniors in the two year course—Miss Gertrude R. Two Freshmen members of the board will be chosen next Fall.

The men's student government association has the following officers: President, Gilbert Gould, Nanticoke; vice president, Joseph Wadas, Alden Station; secretary, Brooke Yeager, Wilkes-Barre and treasurer, Nicholas Jaffin, Berwick.

Dr. Francis B. Haas was the Commencement speaker at the following places this year: Benton, June 6; Shickshinny, June 7; Espy, June 14 and Carbondale, June 20.

We print the following from the Pennsylvania School Journal of June, 1929: "Principals of our State Teachers' Colleges are now **Presidents**. This appropriate change in title was made by the 1929 Legislature by enacting H. B. 2099 by Thomas B. Wilson, chairman of the House Committee on Education." It will therefore in the future be proper to say "President" Haas.

Day students of the Bloomsburg State Teachers' College were guests of the boarding students at dinner in the school dining room Tuesday evening, April 9, and it was an enjoyed affair.

Members of the Mansfield and Bloomsburg debating teams which met in the auditorium the same evening, sat at tables appropriately decorated. J. C. Koch, dean of men, was toastmaster and there was some fine singing during the serving of the delicious ham dinner.

Miss Caldwell sang a solo and Henry Warman and Armond Keller sang a duet. Both selections were enthusiastically received. Another enjoyed number was a ukelele selection by Misses Hortense Evans and Dorothy Lord. Dr. Francis B. Haas, principal of the College, spoke.

SUMMER SCHOOL NOTES

The summer session of the college opened Monday, June 24, and closed Saturday, August 3. The enrollment this year was 325; the enrollment last year was 385. The estimate of the State Department was 300. The decrease in enrollment is due to the fact that the function of the summer session has changed since 1927. Previous to that date, the main purpose was to bring teachers with insufficient preparation up to the standards required by the State. At the present time, most of the attention is directed to students who are working for their degrees.

Several members of the regular faculty were granted leaves of absence for the summer. Prof. John J. Fisher, Prof. Earl N. Rhodes, and Miss Anna Garrison studied at Columbia University; Prof. E. H. Nelson took work at the University of Michigan; H. F. Fenstemaker attended the summer session of the University of Pennsylvania; Prof. S. L. Wilson studied at Harvard,

and Miss Irma Ward took additional work.

W. Wilbur Miller, of Columbia, Ohio, a graduate of Goshen College, Indiana, who obtained his Master's Degree at Ohio State University, took the place of Prof. John J. Fisher as instructor in Psychology and Educational Measurements.

L. P. Gilmore, a member of the faculty of the Bloomsburg Junior High School, and one of the members of the summer school faculty last year, taught courses in the History and Principles of Education.

The first social event of the summer session took place Friday evening, July 5, when the school gave a reception to the students and faculty. The affair was held in the gymnasium, with dancing as the principal feature.

Thursday evening, July 11, Strickland Gillilan, noted humorist, spoke in the college gymnasium, in a feature number of the summer entertainment course. All of the entertainment features were held in the gymnasium because of the alterations that were being made in the auditorium.

Baseball furnished a major attraction, the interest centering around the annual championship contest between "Turner's Toads" and "Vital's Vipers"; the championship went to the team winning the most out of fifteen contests.

Friday, July 19, the day students and members of the faculty were the guests of the dormitory students at dinner in the college dining room. Following the dinner the Vipers and the Toads renewed their feud on the baseball field, and at 7:30, the talent of North Hall put on a vaudeville program in the gymnasium. From 9:00 to 11:30, Alexander's Orchestra furnished music for dancing.

Wednesday evening, July 24, a recital was given by Franceska Kaspar Lawson, soprano. Mrs. J. K. Miller was at the piano.

At the regular convocations, several interesting features

were presented. Wednesday, July 17, visual education was stressed. The speaker was Dr. H. H. Russell, of the Department of Geography, and Director of Visual Education at Bloomsburg. Prof. Shortess showed the films taken here on May Day and during Commencement Week. July 30, the speaker was Mrs. Edgar A. Weimer, Vice-President of the Pennsylvania Congress of Parents and Teachers.

The swimming pool at Columbia Park added something to the life of the summer school students. Swimming classes were held regularly during the entire session.

At the close of the session, thirty-one students completed their work in the two year course. Roy Haring and Theodore Vital completed their work for the degree of Bachelor of Science in Education. No commencement exercises were held, as the above students participated in the regular commencement activities at the close of the second semester.

PROGRESS BEING MADE ON CAMPUS IMPROVEMENTS

At the time of going to press, the construction work on the new training school building has reached the second story. It is expected that this building, as well as the new laundry, will be ready late in the fall.

The most striking change awaiting the students at the beginning of the first semester this fall was the Auditorium in Carver Hall. During the summer, all of the old plaster was removed, the lath replaced by metal lath, and new plaster applied. The walls and ceiling have been painted with well-blended tints of cream and light green, and the wood work has been stained mahogany. The front of the stage has been remodeled, with disappearing footlights installed. The entire auditorium has been rewired, a new switchboard placed back of the stage, and modern lighting fixtures placed in the auditorium. The floor will be covered with cork linoleum, and new seats will be install-

ed. Members of the Alumni Association who attend the Alumni meeting next year will have a delightful surprise in store for them.

Several improvements have added to the beauty of the campus. The outside steps leading from the bridge have been removed, and the bank graded. A new walk has been laid, leading from a point just above the 1912 Memorial Steps, going under the bridge, and reaching a large octagon, west of the gymnasium. From this octagon, a new walk leads to Science Hall, another one to North Hall, another one to the fire tower between Noetting Hall and the gymnasium, and another one to the north porch of Carver Hall. The walk leading to Science Hall is higher than the old one, and the campus has been graded up to it on each side. This makes better provision for surface drainage; it will no longer be necessary to wade in several inches of water after a heavy rain, in order to reach Science Hall.

The improvement program is moving steadily forward. There is still much to be done, but enough has been done already to make any Bloomsburg Alumnus feel proud of his Alma Mater, when he sees for himself what a beautiful place the State Teachers College of Bloomsburg really is.

Moral: Plan to come to Bloomsburg Alumni Day, May 24, 1929.

Mrs. Mary Moyer, mother of Miss Mabel Moyer, of the Training School faculty, died Monday, August 12, at her home in Bloomsburg. Mrs. Moyer was eighty-six years of age. Surviving are four children, Mrs. Lucetta Moyer White, '86; Miss Edith Moyer, Miss Mabel Moyer, '97, and Albert Moyer, at home. The death of another son, the Rev. Harry Moyer, '86, was noted in the April issue of the QUARTERLY.

WIDOW OF PROF. BRILL DIES

Mrs. Lillie Gregg Brill, widow of the late William Brill, and for many years a resident of Bloomsburg, died at the home of her son, Francis A. Brill, of 46 S. Fourth Street, Sunbury, Saturday evening, June 29, from a complication of ailments.

She had been in failing health for about a year but her condition did not become critical until Mother's Day. She had been living with her daughter, Miss Julia G. Brill, of State College, and when her condition became serious she was taken to her son's home in Sunbury. She remained bedfast for the succeeding weeks, showing no improvement. Her condition gradually became weaker and she finally passed quietly away.

Mrs. Brill was born January 10, 1855, in Milton, the daugh-

ter of the Rev. and Mrs. Jacob S. McMurray. Her father was a minister and presiding elder in the Central Pennsylvania Conference of the Methodist Episcopal Church.

She was married on September 1, 1886, to the Rev. William Brill, a minister of the same conference. With him she served as pastorates at Port Matilda, Pine Grove Mills, Birmingham, Tyrone, Mount Union, Burnham, Altoona, Williamsport, Shickshinny, Sunbury and Danville.

For sixteen years she resided at Bloomsburg, where her husband was a member of the High School faculty for several years and then of the faculty of the Bloomsburg State Normal School. At the time of her husband's death in 1925, she removed to State College to make her home with her daughter. There she remained until taken ill early in May.

She is survived by three sons, Francis A. Brill, Sunbury business man; Clinton B. Fisk Brill, of New York City and William Gregg Brill, an official of Trinity College, Hartford, Conn., and by one daughter, Julia Brill, of State College.

One son, Jacob McMurray Brill, of Sunbury, was killed in a battle during the World War while serving with the American army in the Argonne forest, against the Germans.

Her family has been connected with state and national affairs since the Revolutionary War. She was a direct descendant of Major James Potter and of United States Senator Andrew Gregg. She was a cousin of Governor Andrew Gregg Curtin who served as chief executive of the state of Pennsylvania during the Civil War and whose home was at Bellefonte.

Three of the trustees of the College were reappointed June 28 by Governor Fisher. They were Mrs. John G. Harman and Dr. R. E. Miller, of Bloomsburg, and Miss Effie Llewellyn, of Elysburg.

Frank R. Carpenter, of Bloomsburg, father of Miss Helen Carpenter, of the Training School faculty, died at his home on Tuesday morning, June 25. At the time of his death he was in his eighty-second year. He had been in failing health for some months, but his condition had been serious only a short time before his death. For fifty-three years an employe of the Reading Railroad, and for many years station agent in Bloomsburg, he had retired from active service twelve years ago. He is survived by one brother, G. D. Carpenter, of Bradford, and four children, Harriet and Helen, of Bloomsburg, Eugene F., of Philadelphia, and Ben F., of Washington.

Dr. Charles H. Fisher, former principal of the State Normal School, now principal of the State Normal School at Bellingham, Washington, visited in Bloomsburg during the summer, and was warmly greeted by his many friends.

Dr. D. J. Waller, Jr., and Miss Elizabeth Waller have been spending the summer at their cottage at Windemere, Canada.
