THE tales told in the Viking Legends, immature as they may seem to those of us who may read them after the years of our childhood have passed, nevertheless carry with them a symbolism which cannot be overlooked.

The word "Vik" is a name applied to the small settlement which is located at the mouth of a fiord in the Scandinavian countries. Just as these "Viks" are the gateways to rugged mountains and beautiful scenery, we the editors of this year-book hope that this, the XIVth Volume of the Obiter may be a gateway to hours of happiness; and that it may serve to revive many pleasant memories of friendship gained during your College life at Bloomsburg, Pa.

PROFESSOR D. S. HARTLINE

Professor D. S. Hartline has devoted the best years of his life to the training of men and women for the teaching profession, the medical profession, and the nursing profession. This year completes his thirty-fifth year as a member of the faculty. He came to Bloomsburg when the Institution was still known as the Bloomsburg Literary Institute. It was then as much a preparatory school as it is now a teacher training institution.

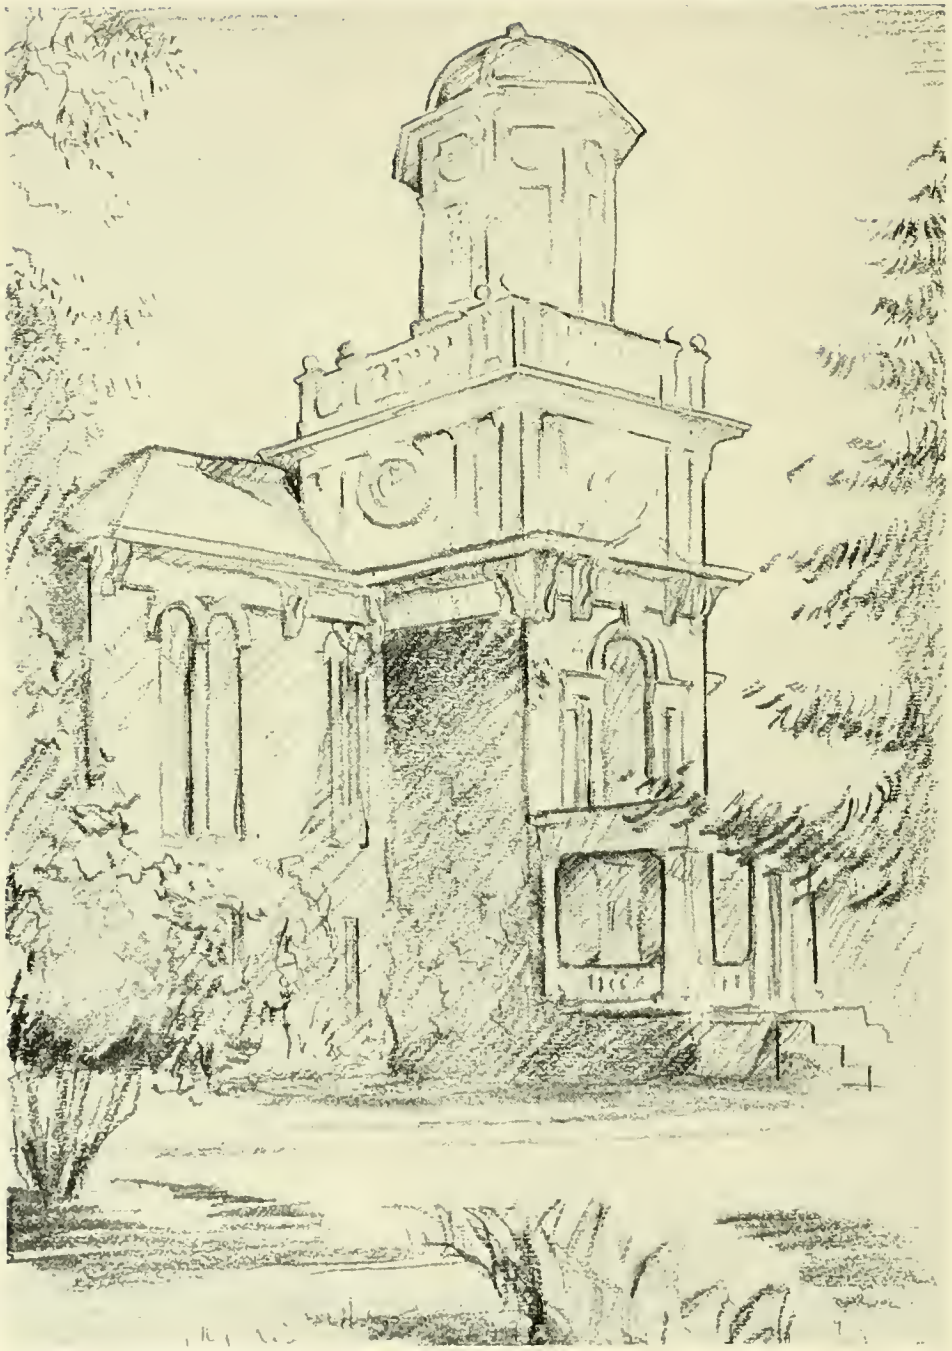

He came to Bloomsburg as an instructor in Manual Arts. Later he became associated with the Science department of which he is now supervisor.

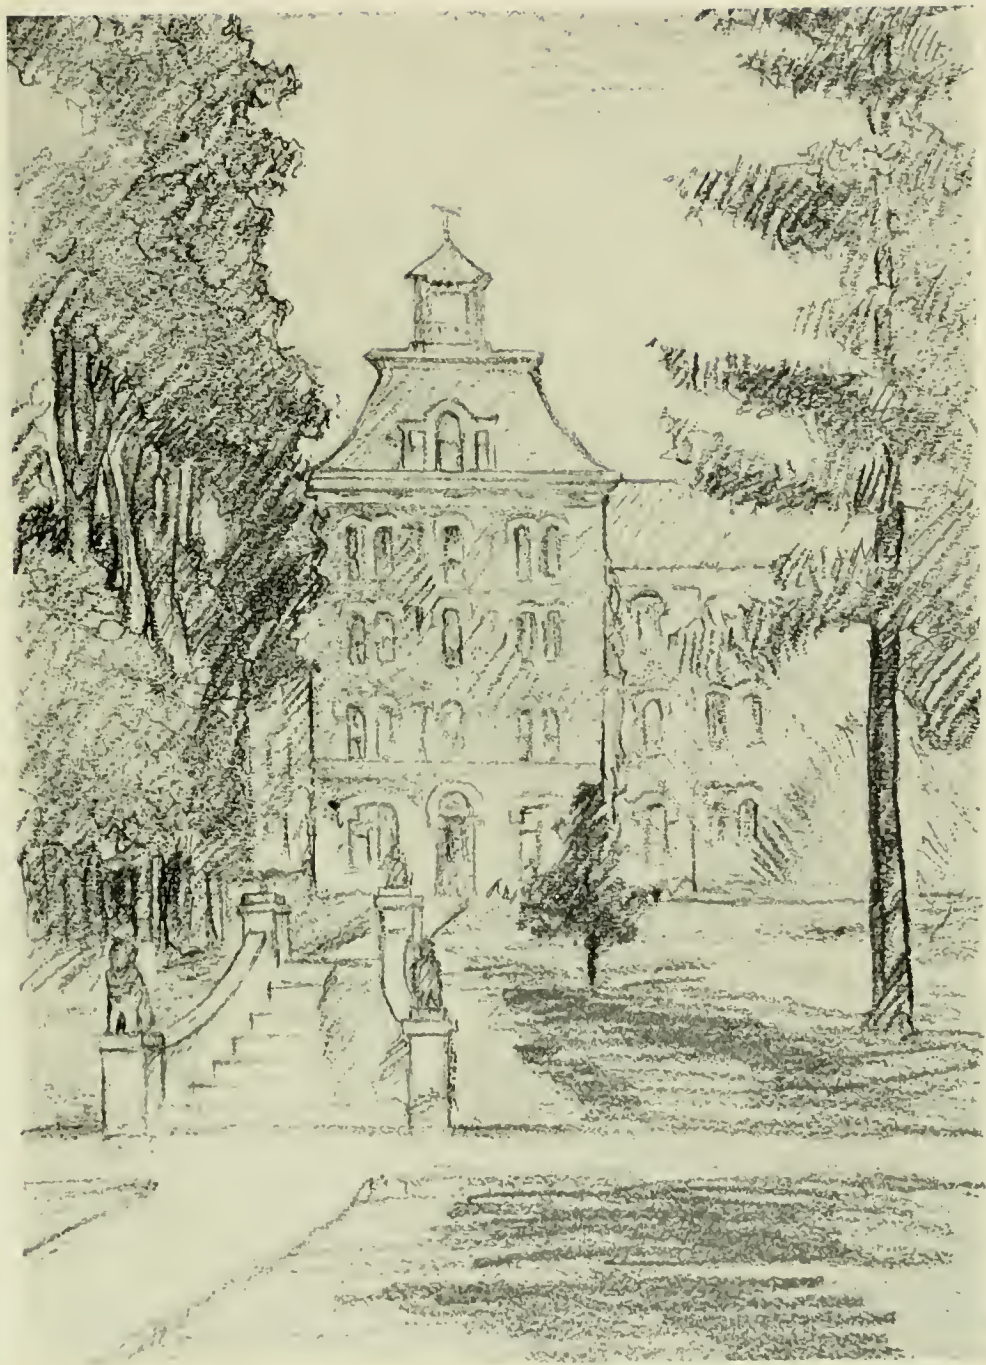

During his service at Bloomsburg he has had many splendid offers which would have been to his advantage to accept; yet his interest, concern and love for Bloomsburg has been so great as to outweigh these opportunities for fame and fortune. His zealous efforts in beautifying the campus with leafy ferns, bright colored flowers, and tall stately trees, will long be admired and appreciated by many in the years to come.

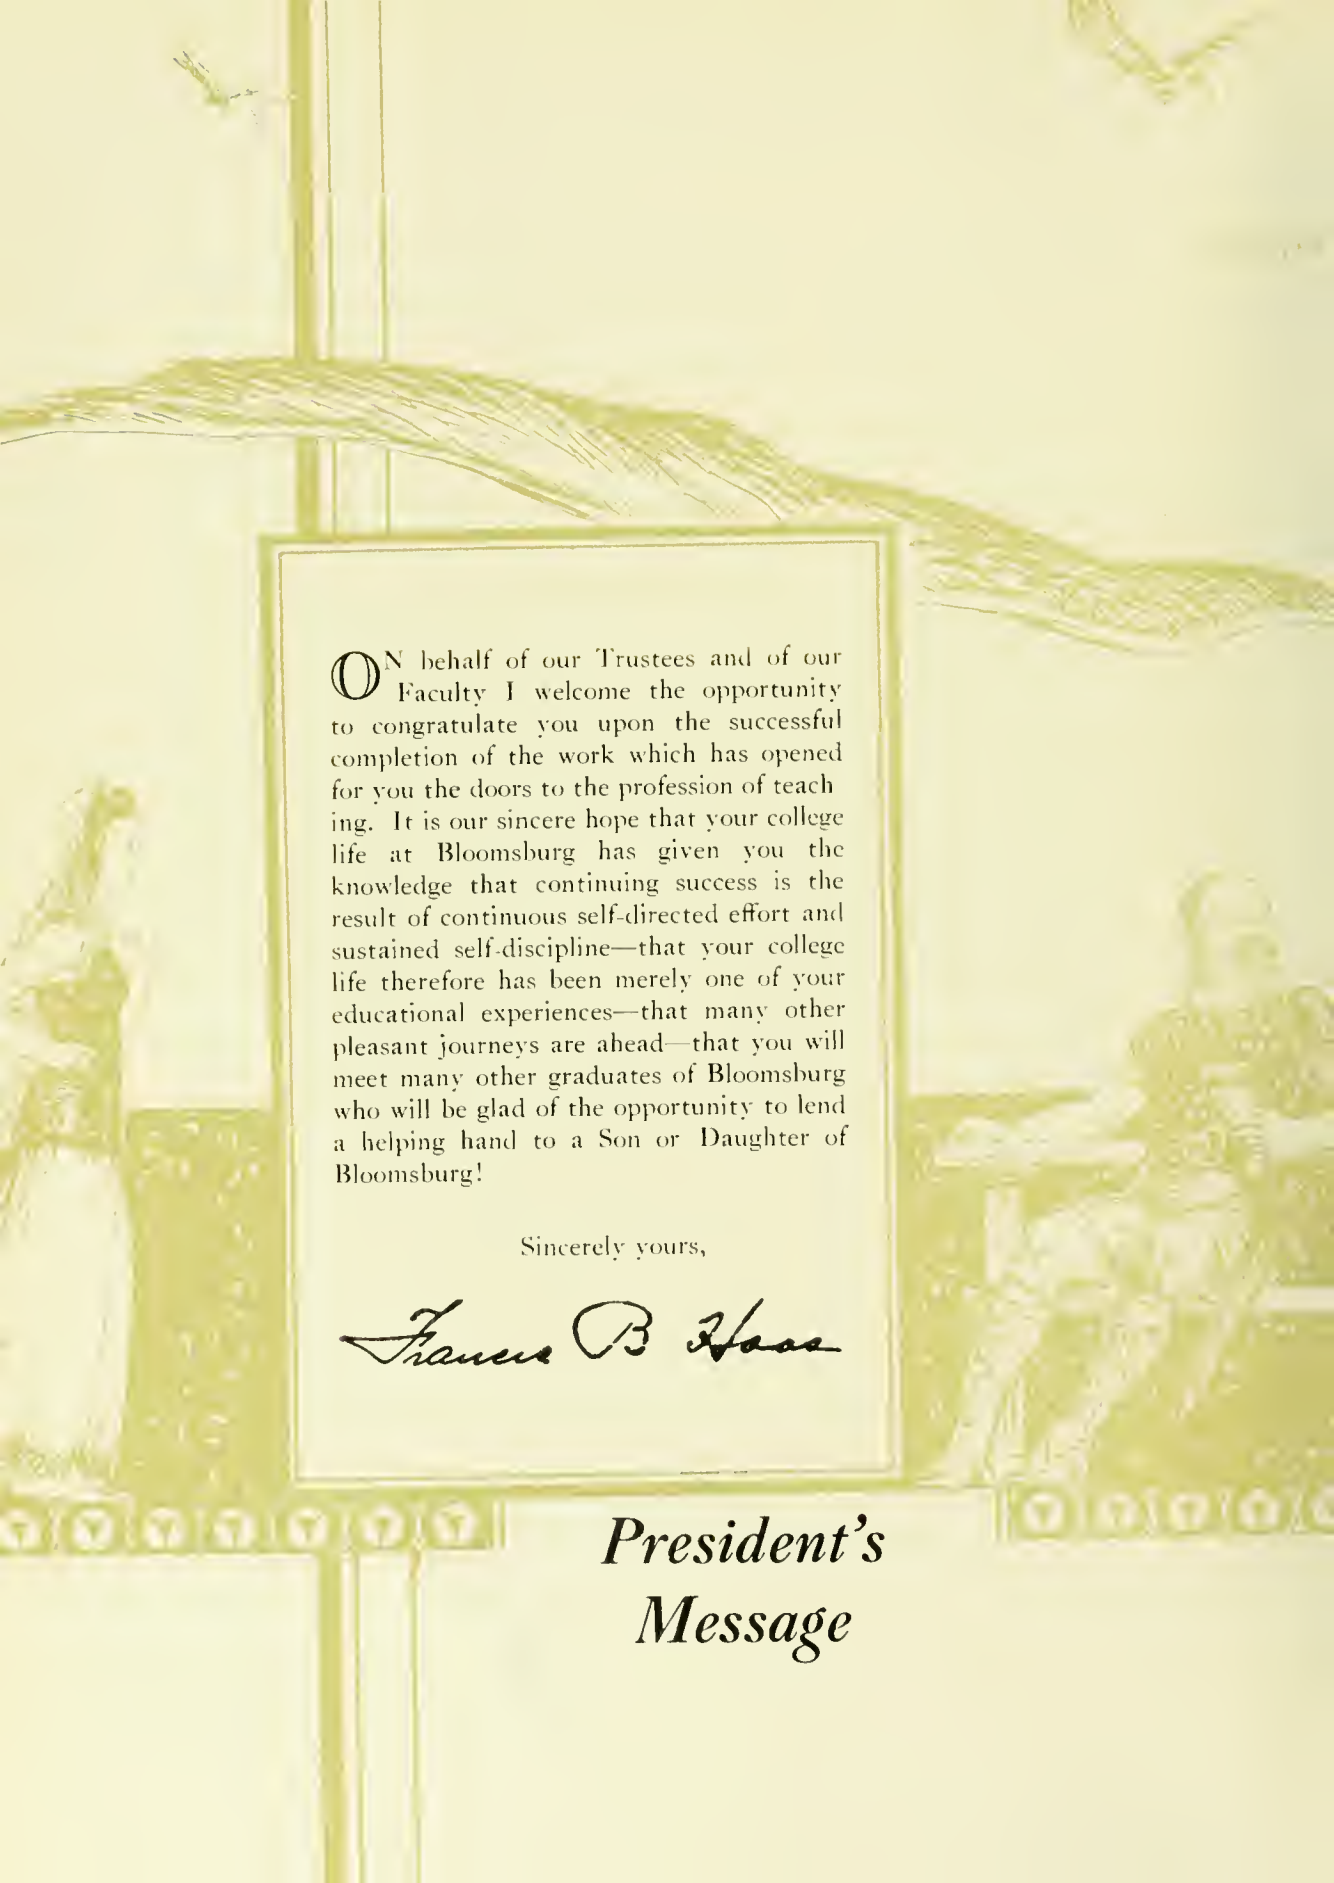

The schools which have had the honor of contributing to his education are: State Normal School, West Chester, 1890; Lafayette College, 1897; A.B., A.M.; University of Heidelberg, University of Bonn, Germany, 1901-1902; New York University, 1927.

The College

ON behalf of our Trustees and of our Faculty I welcome the opportunity to congratulate you upon the successful completion of the work which has opened for you the doors to the profession of teaching. It is our sincere hope that your college life at Bloomsburg has given you the knowledge that continuing success is the result of continuous self-directed effort and sustained self-discipline—that your college life therefore has been merely one of your educational experiences—that many other pleasant journeys are ahead—that you will meet many other graduates of Bloomsburg who will be glad of the opportunity to lend a helping hand to a Son or Daughter of Bloomsburg!

Sincerely yours,

Francis B. Hoar

ALMA MATER

Far above the river winding,
 'Midst the mountains grand
Stands our College, dear to students,
 Far throughout the land.

Far and wide though we may wander,
 Still our hearts are true
To our hilltop Alma Mater,
 We our pledge renew.

Ever seaward Susquehanna,
 Never resting flows,
Ever upward, striving, climbing,
 Onward Bloomsburg goes.

Chorus

Bloomsburg, Bloomsburg, Bloomsburg College,
 Up on College Hill
Years to come shall find us ever,
 True to Bloomsburg still.

COMMUNITY GOVERNMENT ASSOCIATION

The Community Government Association of our college organized during the second semester of 1927. The membership of this organization is composed of all members of the faculty and registered students. The Association has for its object co-operation, with the responsible authorities in promoting personal and group responsibilities in guiding and regulating the affairs of all students under the jurisdiction of the college.

When the Constitution was drafted the members of the committee realized the necessity of close co-operation for the successful functioning of this body so they provided that a meeting of the Association be held at least once a month plus any other meetings called by the president upon petition of twenty members. They aimed to give equal and just representation to both men and women of all the classes.

In order to carry on the work of the Association four officers of good scholarship, citizenship, and conduct were elected by the members of the Association for a term of one year. The President must be a senior in the four-year course. All other officers may be members of either of the remaining classes except the Freshman Class.

STUDENT COUNCIL

The Student Council which is the executive, legislative, and judicial agent of the Association is elected on the first Tuesday in May by the various classes. Representation in the Council is based in classes. Each class elects two representatives, a man and a woman. The commuting students also elect two representatives, one of each sex.

The Council meets once every two weeks on a day agreed upon by this body. Matters of minor importance are taken up in Council and the work is disposed of in that way while the matters of major importance and consideration are referred to a committee, the chairman of which must be a member of the Council appointed by the President. After an investigation, the matter is presented to the Council by the Chairman at the next meeting and acted upon by the Council. All recommendations must be approved by the President of the College.

Besides the student representatives, the President of the College, the Dean of Women, the Dean of Men, the Director of Teacher Training, are members of the Association, the Student Council, and all Committees.

THE GOVERNING BOARD

The Governing Board of the Women's Student Government Association is one of the most active organizations of the college. Its membership consists of representatives from each of the various classes. The representatives are nominated and elected by the students of Waller Hall at a stated time and hold their office for one year.

The Governing Board makes and enforces regulations pertaining to all conditions in the dormitory. In addition to its executive and judicial work the Governing Board functions through these committees:

1. Finance Committee which collects and disburses the funds, and makes out and keeps the budget in a healthy financial condition.
2. Fire Drill Committee which regulates and supervises fire drills in Waller Hall.
3. House Committee which reports on conditions of the halls, press rooms, and lavatories and recommends repairs and improvements.
4. Social Committee which plans for dormitory parties and for suitable observance of holiday seasons in the dormitory.

NORTH HALL EXECUTIVE COUNCIL

The members of this organization are elected by popular vote; one from each of the classes and one from each floor of the dormitory.

The duties of the council are to formulate rules regulating Freshman customs; to act as a judicial body; to try all violations of rules; and to administer all the affairs of the Association; to make suggestions and formulate policies for the Association.

The council has had occasion to exercise its power on a few discipline cases during the current year. The manner in which the council dispensed of these few cases was sufficient to practically eliminate the necessity for further action; and has served in no mean manner to raise the ideals and standards of the institution.

STATE NORMAL SCHOOL. SIXTH DISTRICT. BLOOMSBURG PENN.

YESTERDAY

Nearly a century ago, when electricity, automobiles, hard surface roads and other luxuries common to us to-day were either unheard of or still in their infancy, our State Teachers College of the present had its beginning as a private academy. It was founded in 1839 by C. P. Waller, a graduate of Williams College.

In 1856 D. J. Waller drew up a charter which was subscribed to by worthy citizens of Bloomsburg and which provided that the school be known as the Bloomsburg Literary Institute for the promotion of education in the ordinary and higher branches of English Literature, Science and the Ancient and Modern languages.

In 1866 Henry Carver of Binghamton, New York taught the school. His unusual influence and personality had much to do with molding its early policies. His foresight in the possibilities of the institution and insistence upon the necessity for a new building, led to the erection of the present Carver Hall, which was dedicated with gala observance by the townspeople April 4, 1867. The outlay for this building was \$15,000. The money, for the bell which still hangs in the belfry of Carver Hall to-day, and calls the students of 1930 to their classes was raised by public subscription by David J. Waller, Jr., George E. Elwell and Charles Unangst in a single week.

The first faculty comprised Professor Carver, teacher of mathematics and higher English, Rev. J. R. Dimm, teacher of Latin and Greek, and Miss Sarah Carver, teacher of the lower English Branches.

In the autumn of 1867 James P. Wickersham, State Superintendent of Public Instruction, while traveling through Bloomsburg was attracted to the location of the Institute and felt the site to be ideal for the location of a State Normal School. So at a meeting in 1868 at which he addressed the citizens of Bloomsburg it was decided to establish a Normal School under the Act of 1857. A dormitory was completed at a cost of \$36,000. The school was recognized as a State Normal School on February 19, 1869. In September of that year there were 150 students in the Normal Department and 80 in the Model School.

The school was called the Bloomsburg Literary Institute and State Normal School until it was purchased by the State in 1920. After that it was known as the State Normal School at Bloomsburg until the recent change in name to the State Teachers College. Up to 1920 when the Department of Public Instruction revised the programs of all Normal Schools, the school offered college preparatory courses as well as teacher training courses.

Principal Carver left in 1871. Charles G. Barkley, Esq., a former county superintendent of schools, acted as principal from December 1871 to March 1872. His successor was the Rev. John Hewitt, rector of the Episcopal Church at Bloomsburg, who served as principal from March 1872 to June 1873. In 1873 Dr. T. L. Griswold became principal, serving until 1877.

Those early years were trying ones, subscriptions would fall off and trustees would often meet obligations on their personal responsibility. In 1875 the dormitory was completely destroyed by fire. In 1876 a larger and better building, the original part of the present Waller Hall, was built. In spite of discouraging circumstances the school began paying expenses during Dr. Griswold's administration.

In the fall of 1877 Dr. David J. Waller, Jr., became principal. For thirteen years the school grew under his guidance. The Model School and the East Wing of the dormitory were built during his principalship. When Dr. Waller resigned in 1890 to become State Superintendent of Public Instruction the school was in a prosperous condition.

Dr. Judson P. Welsh served as principal of the Bloomsburg State Normal School from 1890 to 1906. During his administration an addition to the four-story dormitory and the gymnasium were built. Science Hall was opened in the fall of 1906 just after his resignation.

Dr. David J. Waller responded a second time to the summons of the trustees, serving as principal until 1920 when he retired from active duties. Dr. Waller had given the best years of his life serving in all twenty-seven years. Immeasurable gratitude is due Dr. Waller for his service to the cause of education and the material advancement of our College.

He was succeeded by Dr. Charles H. Fisher, who came to the Normal School from the State Department of Public Instruction in 1920. During his administration teacher training courses were introduced into the Bloomsburg Public Schools and extension courses were instituted. He was followed by Dr. G. C. L. Reimer, who came to Bloomsburg in 1923. He served as principal until 1927.

TODAY

Dr. Francis B. Haas, came to Bloomsburg from State Superintendency to become principal in 1927. During his administration rapid strides have been taken for the advancement of the College.

By the action of the State Council of Education on June 4, 1926 the State Normal Schools were authorized to offer courses leading to a B.S. in Education, thereby preparing teachers for the Junior High School field.

On May 13, 1927, the Council changed the name of the State Normal School to the State Teachers College at Bloomsburg. By an act of the Legislature of 1929 the title of the Principal was changed to that of President.

Among the more outstanding improvements to the physical plant are: a complete renovation of the auditorium; the erection of a \$200,000 training school to be occupied next fall; a new laundry building; the placing of concrete walks in the campus; the extension of the northern boundary of the campus so that at the present time the Teachers College property comprises fifty-five acres.

Arrangements have been completed whereby the College may offer teaching courses in commercial work for those wishing to prepare for this field. The curriculum is to be operative in the fall of 1930.

PROF. EDWARD A. REAMS

Class Adviser

Mr. Reams has had a wide and varied career both from the standpoint of education and experience in the teaching profession. He has taken work on both coasts and in the Middle West.

He attended the Public Schools of Salina, Kansas, graduating from the Salina High School. He entered the Kansas Wesleyan University the following year, and received his A.B. in 1912. Desiring to continue his education he enrolled for graduate work at Columbia University at New York City. He won his A. M. in June 1913.

He accepted a position on the High School Faculty at Osceola, Pa., where he spent his first year in the profession. In the fall of 1915 he returned to Salina, Kansas, and taught in the high school until 1917. He was again attracted to the Keystone state by a splendid offer in the Lock Haven High School. The next seven years of his life were spent at Lock Haven where he also instructed the Summer Session classes of the Lock Haven State Normal School. He also conducted extension classes for Bucknell University during this time.

During the summer of 1925 he enrolled in the Summer Session of the University of California at Los Angeles, California. In the fall he came to our institution to take charge of the History and Social Studies department.

He has served faithfully as class advisor to the four-year senior class. They, as a body, through this medium wish to express their sincere appreciation for his wise counsel and help.

PROF. E. H. NELSON

Class Advisor

Professor Nelson came to Bloomsburg in 1924. He has earned the love and respect of all with whom he has had association. His unusually keen sense of humor has been enjoyed by all at the banquet

table, the chapel or any where he happens to be present.

He was educated in the Public Schools of Dyberry and Waymart in Wayne County. He taught several years in the county schools, after completing his high school work. In 1909 he entered the State Normal School at Bloomsburg, and completed the two-year course in intermediate work. The following year he accepted a position on the faculty at Dickinson Seminary, Williamsport, where he remained until 1914. He took a year of undergraduate work at Dickinson College, Carlisle. While here he was an active member of Phi Kappa Sigma. In the fall of 1916 he entered the University of Michigan, Ann Arbor to secure his A.B.

Mr. Nelson served four months in the Medical Department at Camp Lee Virginia, during the World War. After the war he entered Public School work at Highland Park, Michigan where he had charge of the Health Department for five years. In 1922 he accepted a splendid offer as supervisor of the Health program of all the schools of Bethlehem, Pa. Eager to advance in the educational world he enrolled at Harvard University and secured his A.M. in June 1924. While at Harvard he was elected to Phi Delta Kappa, a well known scholastic fraternity.

In the fall of 1924 he accepted a position as Director of the Health Program of our school.

The two-year senior class is greatly indebted to Mr. Nelson for his services as class advisor and wish to express in this meagre way, their deep felt appreciation.

CLASS HISTORY

For two years our class has been organized, and during that time we have successfully sponsored a Sophomore Cotillion, a Junior play, and a Junior Prom. We are looking forward to next year when we will be the high and mighty Seniors, but meanwhile we are trying to be just as fine a Junior class as we can.

In order to carry out this idea we have chosen for our flower, the Iris; for our colors, blue and silver; and for our motto, "Carry on!" We hope that the future will bring us more success and add a crown to our efforts in seeking more knowledge and more ideals for finer living.

SOMETIMES

Across the fields of yesterday
 He sometimes comes to me,
A little lad just back from play
 The lad I used to be.
And yet he smiles so wistfully
 Once he has crept within,
I wonder if he hopes to see
 The man I might have been.

CLASS HISTORY

THIS YEAR has been a very successful one for the Sophomore Class. To begin with, they had the prestige of the former year to uphold, which task they have more than accomplished.

In September they very capably showed the members of the Freshman Class their proper place and after they had subjected the yearlings to the proper degree of testing they led them to higher aims in scholarship, themselves serving as an example.

In all manner of activities the members of the class have played a prominent part. No activity is complete without its share of Sophomore members.

Having been endowed with an unusually heavy schedule, the class as a whole has not had much time to indulge greatly in the social arts. However the Sophomore Cotillion, which was held in February, was one of the high spots of the college calendar.

CLASS HISTORY

Last September, the Ship of Fate landed our freshmen class at the doorway of Bloomsburg. It was quite an experience for us all. Many of us had never seen or visited Bloomsburg before, while some were well acquainted with the surroundings. At first everything was new and all the faces were strange, but soon all the strangeness of the place faded into the background, giving full swing to our lessons and new instructors.

For the first two weeks everything went on very smoothly, then, with all the suddenness that could be expected, our customs were wished upon us. It hurt the pride of the fairer sex to go without cosmetics and to wear cotton stockings; not saying anything about being forbidden to speak to men. Then, on the other hand, the boys thought it a nuisance to wear dinks, black ties and black socks. They likewise, had to high-hat the opposite sex.

One reason why we all regret leaving the freshmen class in favor of upper classes, is that we cannot have another "Kid" party. No one but a freshman, can realize the fun had at that affair. But of course, we haven't said a word about our big affair, "the Freshman Hop." We all know that dancing is a favorite pastime for freshmen, so we are going to let it speak for itself.

There was a large turnout in sportsmanship among the freshmen class this year. A good deal of talent and ability is represented in the freshmen class, both outdoors and in the gymnasium. Another thing which we must not forget, is the dramatic ability possessed by some in our class. This year, due to bad weather conditions, the annual football game of upperclassmen versus lower classmen was cancelled. Instead of this we played a basket-ball game against the upper classmen. To their utter surprise we beat them. This victory was the first of it's kind for the freshmen in several years.

Now that we have gone through our first year we cannot carry all the honors ourselves: We must share them with our faithful instructors, who worked hard and earnestly to see us get through. Not only that, but we must also thank our upper classmates for all the kindness shown to our class.

Drama & Music

ALPHA PSI OMEGA

Established at State Teachers College, Bloomsburg, March 3, 1928

ALPHA OMICROM CAST

Alpha Psi Omega, a national honorary dramatic fraternity was organized for the purpose of providing an honor society for colleges who are doing work in dramatics. It provides a contact between students in colleges in the United States and Canada who are interested in dramatic work.

This fraternity does not take the place of the regular Dramatic Club, but it does stimulate the club members to greater activity. Members of the Dramatic Club who have done superior work in dramatics are admitted to membership in the fraternity. In addition to supporting all plays presented at the College, the Cast presented a play for College Night.

The Cast has tried to uphold its high standards of admission to membership. Six people have qualified for membership during the first semester and have been duly initiated into its brotherhood. Before the end of the year another class will be initiated.

THE BLOOMSBURG PLAYERS

The Bloomsburg Players are now in their sixth year of organization. Aside from their own club work, they have staged several public performances, giving one long play annually, as well as many one-act plays. This year the club presented "Fanny and the Servant Problem," by Jerome K. Jerome.

The great work of the club, however, lies not in the public productions but in the one-act plays—produced at each weekly meeting before the club. Through these plays the members acquire training in acting, directing and producing. In addition to the skill acquired, an appreciation for good plays is also stimulated.

In 1927 the club established the custom of producing for the public, a Play Tournament composed of the three best one-act plays staged before the club during the year.

The primary aim of the club is to produce people who can instruct others, and not be stars.

CHIMES OF NORMANDY

By
PLANQUETTE

Presented by the Senior Class, January 16, 1930

At the rise of the curtain we find the villagers on the road to the fair at Corneville singing and making merry as they go. The Marquis de Corneville has been in America for many years and left his estate in charge of Gaspard, a miser. There is a legend that states when the long lost Marquis returns, the Chimes of Normandy will ring. The Marquis returns incognito and discovers that his chateau is claimed to be haunted. The Marquis and his men search the haunted chateau and discover a paper addressed to Gaspard, which entrusts the daughter of the Marquis de Lucenay to Gaspard, Serpolette, a servant girl, claim to be the daughter of the Marquis de Lucenay. Since the miser is temporarily insane, the claims of Serpolette are not disputed. In the meantime Henri de Corneville has fallen in love with Germaine. The miser finally recovers his senses and discloses the fact to the Marquis de Lucenay. She and Henri de Corneville are to be married as the curtain falls while the chorus is softly singing the Chimes of Normandy.

THE COLLEGE SYMPHONY

The College Orchestra plays an important part in the life of the College. It is continually being called upon to furnish music for entertainments and social events of all kinds. Some of the more important engagements of the Orchestra during the past year have been:

Alumni Home-Coming Day.

Annual Rotary-Kiwanis Dinner.

Annual Conference of Normal School and Teachers College Faculties.

All-College Hospital Benefit.

Alumni Day.

The orchestra has been fortunate this year in having the best instrumentation that it has had for several years. Bloomsburg is beginning to benefit from the increased interest in instrumental music that is being manifested in the various high schools of the state.

THE MAROON AND GOLD ORCHESTRA

The Maroon and Gold Orchestra trusts that a write-up concerning this organization is hardly necessary, due to the fact that everyone knows—Who and what it is.

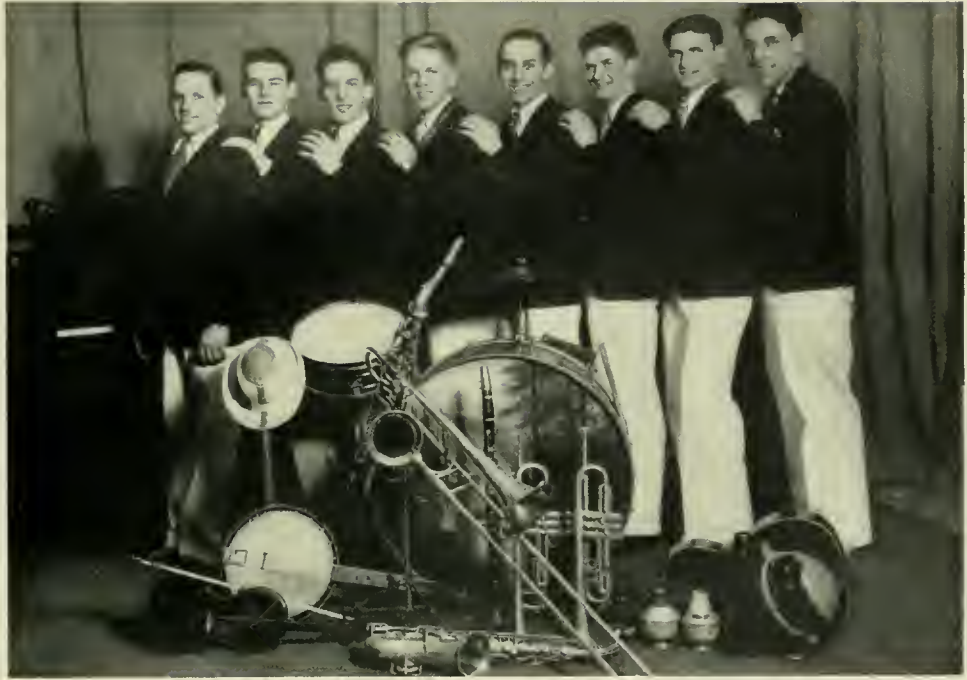

We feel justified in dedicating this page to those members of the orchestra who are graduating in the spring of this school year 1929-30.

This group of men when assembled represent a very tempermental “gang of musicians.” Despite the slight “ups” and “downs” within the orchestra, which we now cynically smile about, we feel that we have given B.S.T.C. such an organization as would be desired by any college. We wish to thank you for the manner in which you received us. If you have enjoyed dancing to our music as much as we have enjoyed playing for you, we feel well repaid.

Last year it was our desire to place ourselves on the same as local orchestras. This year, second semester, we find our desire has been gained. The orchestra has played for Teachers Conferences; Thursday Nite Dinner Dances; and has gained a name for itself at Bloomsburg High School.

THE MEN'S GLEE CLUB

The Men's Glee Club is one of the most prominent musicale organizations on the campus. It is composed of twenty-five music loving men, who work under the capable direction of Miss Harriet M. Moore.

The club has given several very interesting programs, and is preparing for engagements at various cities throughout the state.

You can often hear the melodious voices of the members at various parts of the campus. Sometimes they are serenading some co-ed or group of co-eds; at other times it is for their own enjoyment.

Y. W. C. A

This year the Y.W.C.A. has offered to every girl on the campus "a full and creative life." It has done this through social activities and special programs, as well as the regular Wednesday night meetings.

At the beginning of the year the "Y" gave a party to help the girls get acquainted. In December it gave a formal dance which was the outstanding event of the semester.

The weekly meetings have been planned and conducted by the students. At these there have been speakers from the faculty and from outside the college, and also student discussions and Bible studies. The morning watches have been conducted both at Christmas and Easter time.

And Oh! What conferences! Four students attended the Y.W.C.A. and Y.M.C.A. conferences at Eagles Mere; an advisor and a student were at the Bloomsburg Faculty-Student Conference, and two girls went to the Triangular Program Conference at Mansfield, Pa.

The Y.W.C.A. has completed a very busy and profitable year. Its success has been due largely to the inspiration and help of the advisors, Miss Pearl Mason and Miss Edna Hazen

Y. M. C. A.

The Y.M.C.A. of Bloomsburg State Teacher's College, opened its 1929-30 term with a quick get-a-way. It has at present thirty-three members, which is a marked increase over the past years. At the beginning of the year, jointly with the Y.W.C.A. it sponsored a Reception and Dance for the incoming Freshmen. Later, the "Y" held a stag party at North Hall and a good time was had by all.

The Y.M.C.A. sponsored their second Annual Cruise on December 7, 1929. The affair was put over very successfully with Robert Dew as Commodore.

The Y.M.C.A. with the help of Prof. S. I. Shortess has helped to stage many of the College activities in a big way. We have taken it upon ourselves to have Sunday Afternoon Vesper Services in the auditorium from 4:30 P.M. to 5:00 P.M. We have been greatly aided in this responsibility by the help of the Y.W.C.A. and the Girl's Chorus.

Graduation leaves two important offices to be filled. As a parting word we wish to take this opportunity of wishing Raymond Hodges, president and John Taylor, vice president, the best of luck.

THE LIBRARY CLUB

Founded September 1929

The Library Club is a new organization at Bloomsburg having been added to the list of extra curricular activities last fall. There are twenty-four members with Mrs. Breitenbecker as sponser.

The object of the club is to acquaint the members with the method of operating a library; to familiarize them with its use; making a more personal contact with the school library; and the building up of aids and devices for teaching purposes.

During the year the club has become familiar with the handling of new books, the classification and assignment of classroom library materials as well as making of scrapbooks, and other valuable projects.

THE GEOGRAPHIC SOCIETY

The Geographic Society meets regularly Thursday afternoons during the extra Curricular hour. The programs consist of contributions from members of the club on geographic current events. The Byrd Expedition at the South Pole, the Zuider Zee Project, Steel Manufacturing, and the Electrical Works at Schenectady represent the character of the programs. Trips were made to local places of interest; such as, the brick plant, the abandoned iron mines, and the city water plant. An interesting concluding program to the first semester was given by Professor Albert on Tuskegee Institute.

THE PHI LAMBDA FRATERNITY
OF THE
NATURE STUDY CLUB

Founded September, 1925

The Phi Lambda was organized under the direction of Prof. D. S. Hartline and the success which the organization owes much to the ceaseless effort of this man. The fraternity is the core of a large Nature Study Club. To be eligible for the Fraternity, one must be a member of the Nature Study Club for one semester and pass the requirements set up in scholarship and sportsmanship.

The activities of the club comprises the reviewing of new books on nature and discussion of the more important facts mentioned: hikes to various points of interest in the nearby countryside and woods; sleighing parties during the winter season.

Opportunity is present for any to devote his time to his hobby whether it be birds, trees, flowers, stars, rocks, or animals.

Class motto: "Through Nature to God."

RURAL LIFE CLUB

Founded 1923

The original aim of the Rural Life Club was mainly to provide recreation. This aim has been largely supplanted by a more practical one, namely, to prepare students to live and work more understandingly and helpfully with people living in the rural sections. The club investigates and discusses rural life and school problems. The club meets every Thursday afternoon.

The more important problems which come to the attention of the club are: The Home Conditions of Rural Children in Relation to School Life. How to Become Acquainted With The Parents in Rural Sections. What a Parent Teachers Association Can Do For A Country School.

Several of the meetings were devoted to the planning of Art Work for the different grades and for different occasions.

The success of the club is due in a great measure to the untiring work of Prof. D. H. Robbins as sponser.

NORTH HALL STUDENT GOVERNMENT ASSOCIATION

Founded on true educational principles and nurtured by an efficient administration, the North Hall Student Government Association has grown into a living, vibrant organization. We, as an organization are grateful to the administration for the privileges extended to us as responsibilities, and do pledge ourselves to do anything within our power that we may prove deserving of this recognition.

The organization meets twice a month. At this time the members have opportunities to discuss openly any matter which they feel will benefit themselves individually, or the organization as a whole. This method of discipline has contributed much toward the development of the mental, moral, and physical wants of each member of the Association.

The organization also does much in a social way about the campus. The annual festivities sponsored by the members of the Council and adhered to by the incoming Freshmen, "much to their dislike," prove to be the events that create the enthusiasm in the hearts of the upperclassmen. Drifting to the more informal social events we naturally recall the "Smokers" where Politics assuming the form of King Humor ran high.

On behalf of the members who leave we say Adieu and may success follow you in your profession.

The Maroon and Gold is the weekly publication of the College. Through its pages it reflects the life of its students, alumni, friends, and activities of the campus.

It is published by the students of the College under the supervision of an Executive Board, and it is edited by a student staff whose members are chosen for their journalistic ability and interest. To make the Maroon and Gold a paper of, about, and for the students of the College was the chief aim of the staff at the beginning of the 1929-1930 term.

This year the editor and his staff found themselves hemmed in by a boundary of insufficient funds which would permit no sweeping innovations from last year's paper. The student body, however, responded with support and cooperation to make the paper a success. A new department was added this year under the heading, "Editor's Mailbox." It enabled any student, faculty member, or alumnus to express his view pertaining to the College. The students used this department to good advantage.

The Staff met once a week in order to face and discuss different problems that came up concerning the paper. They worked hard and presented articles of campus importance which reflected greatly their journalistic abilities.

The success of the paper in part may be attributed to Prof. S. L. Wilson, who directed the Staff through many of the difficult situations that arose during the year.

THE STAFF

A revolt from tradition. To break down the rules of tradition the change must be gradual and well taken. We have not included all the changes that we wished to include; yet we feel that we have built a bigger and better annual for Bloomsburg. We do not mean to cast any reflection on previous editors in any manner. The watchword of the staff has been "economy."

We wish to express appreciation to the administration, the faculty, the various organizations and the Senior Class for the splendid manner in which all have co-operated.

Besides this general objective, the specific purpose of the Zeta chapter is to promote intellectual, moral and social improvement in not only its members, but all individuals with whom it comes in contact. In our endeavor to accomplish our purposes we were greatly aided by our patroness to whom we wish to express both appreciation and gratitude, Mrs. E. H. Nelson.

FOOTBALL

The 1929 football season has now become a part of the history of Maroon and Gold teams and an impressive record was made by the team. Coaches Booth and Jones at the start of the season had a nucleus of nineteen men who had either played varsity ball or were out on the squad last year. The men returning were Ruhk (Cap't)., Kirker, Krafchick, Fritz, Kraynack, Wadas, Warman, Pennington, and Jaffin who had won the coveted B the previous season.

The problem of picking a good line did not trouble Coach Jones this year as much as it did the previous

year. He had as veterans Wadas and Kirker at ends, Fritz and Beyers at tackles, Krafchick and Pennington at guards and Capt. Ruch at center. All these men were veterans of at least one season here. The backfield showed much promise and here was a difficult job for the coach to pick out four men to play these positions. Available were Kraynack, one of the steadiest of the plungers, Keller, Warman and Jaffin, a trio of fast men when it came to skirting the ends, Rudawski, Jones and Thomas to carry the brunt of the line plunging.

After a few weeks of anxious expectations the season officially opened on Mount Olympus with an old rival—Kutztown. The result, a score of 6—0 in our favor was rather disappointing for in the previous year we had beaten them by the score of 12—0 and with an experienced team the score should have been much larger. This game was typical of any first game of any school. It was the

opening game and the coach found many faults and weaknesses that were ironed out before the next game. We found that we had a line that could be depended upon. However it was a Maroon and Gold victory and that is what we wanted.

The following week we saw the Maroon and Gold Warriors go down to defeat—outscored but not disgraced by any means. The game was played at West-Chester and the final score 25—0 does not signify that the battle was not a hard one. The Chesterites fought for every score and it was a wealth of substitutes that made the score what it was.

Shippensburg next felt the power of the Bloomsburg team and on October 19 the home team played at Shippensburg but we were defeated by the score of 7—0. Here again the locals seemed to play better ball than their opponents but were not able to get going. They

had plenty of the spirit that makes good football teams but the final punch had not yet been developed. Rudawski in this game suffered a head injury and it looked for a time that he was through for the year but "Nick" came back and gave a good account of himself before the season was finished.

With the defeat of California at the hands of Bloomsburg, we started on a winning streak of four weeks. California came here with the expectation of trampling all over us but when the final whistle was blown, the game was ours. The score will show that both teams were fighting hard but Bloomsburg had the advantage when Kirker blocked a punt and scored on it. This game was costly for Bloomsburg. Captain Ruch received a broken arm and was on the injured list for the remainder of the season. This was the first game that Bloomsburg had tried an aerial offense and they succeeded in completing

most of the passes attempted. When the game was over the final score was 7—0 in our favor.

Lock-Haven had always been a set-up for Bloomsburg but this year they presented a formidable team and Bloomsburg had their hands full trying to beat them. The final score was 6—0 and was played in a sea of mud. This probably accounts for the small score. With two straight victories the team seemed to pick up the spirit that had been lost by the two defeats.

Mansfield had a "Homecoming Day" and had made great preparations for a "Victory Bonfire". The local team had a very much different idea and resolved that the wood was not going to be burned at the expense of a Bloomsburg defeat. We met the northern teachers and beat them 6—0. This was one of the best games that the locals had played. Team work seemed to be the slogan of the day and it was only through team work that

Mansfield was defeated. It was in this game that the plunging power of Rudawski and Jones, helped by the other members of the team paved the way to victory.

Homecoming Day! The Big Day! Many other names have been given to it but we'll all remember it as the day that Stroudsburg came, saw and were beaten by a better team. There were no outstanding stars in the game but every member of our team was out to win. Hundreds of the old grads were back and many of them said that with a team like that nothing could stop them.

The final game of the season was with our old rivals—Wyoming Seminary. As usual we could not shake off the jinx that has been pursuing us for so long. The game ended with the score 27—7 in Wyoming's favor. We had one consolation our team never quit trying. Seminary had several breaks that helped them over the rough spots to victory.

BASKET BALL

CHARLES WADAS *Captain*

T. W. BOOTH *Coach*

ALBERT KALWEIT *Manager*

The basketball team of this season has placed Bloomsburg once more among the leaders in the basket ball world. Early season practice indicated a winning club. With the majority of last year's squad returning Coach Booth had a good nucleus to build this years squad around. There was a wealth of material to choose from and it was a man sized job to select a starting lineup. The boys got off to a fine start winning the first three games. The first trip away was disastrous to the boys as they dropped one to Shippensburg and one to Kutzstown. This stimulus spurred them to greater effort and team work which Losses resulted in victory for the next six games. The curtain of the season closed with loses to East Stroudsburg and Millersville away. Despite the fact that we lost four games we had one of the best teams in Teachers Colleges. For two successive seasons we have completely vanquished our arch enemy Wyoming Seminary, of Kingston. Though they still have the edge in football we feel we have completely surmounted the basket ball jinx. Graduation takes Wadas and Kraynack and leaves eight varsity men as a nucleus for Coach Booth to build next year's team. Wambaugh, the tall center from Columbia, has been elected captain for 1931.

The 1929 Base-ball season gave Teacher's College the edge of one game—winning five and losing four. Two of the games won were against Wyoming Seminary our greatest rival in athletics. The club broke even with Stroudsburg and Mansfield. Two hard fought games being lost to Shippensburg.

With most of the players back for the 1930 season Coach Booth looks forward to making a strong bid for the State Teacher's College title this year.

The team was composed of the following: pitchers: Creveling, Morgan and Fritz; infield: Yacabonis, Wadas, Slusser, Wilson, Krafchick, Litwhiler, Ford; outfield: Kraynack, Golder, Davis and Hidlay.

In all they won six games and lost three. Many of their games were with teams having much more experience than they; but in spite of this they more than held their own. Tony Kanjorski was appointed captain of the team and filled the position admirably. The team as a whole should be congratulated for their splendid cooperation with each other and their coach.

Track at Bloomsburg has never reached its peak in possibility because the emphasis is placed upon Base-ball; thus with a limited number of candidates to work with, we might well be proud of the few records our boys piled up against odds where major emphasis is stressed.

The first call for candidates came for the purpose of training an indoor relay team to go to Scranton for the annual indoor meet held at that place. Coach Jones chose the following for the trip: Warman, Thomas, Jaffin, Davies. Regardless of the fact that the boys were inexperienced on the indoor track they finished second out of a field of seven starting teams.

The next and final meet of the year was a triangular meet held at Bloomsburg. Entrants were Shippensburg, Stroudsburg, and Bloomsburg. Shippensburg won the meet with Bloomsburg in second place. The team is composed of all underclassmen and thereby increase their chances of making a better showing this season.

Wrestling was the new sport developed on the campus during the year. The introduction of anything new requires two main essentials; a willingness to learn; and effort to persevere. Both of these were ever present as exhibited in the fine spirit which prevailed on the squad this year.

Much credit is due Harold Arbuckle a local man who devoted his time and services in teaching the boys the fundamentals of wrestling. As well the name of Theodore Reybitz will long be remembered by the boys. He willfully taught the boys many new holds and breaks which were instrumental in stimulating interest and scoring points.

The tennis team seems to be pursued by some continuous jinx. Always victory just within reach, but never success. Last season though one which is not at all impressive, opened the road to new men and experience of the older members of the team.

Coach Koch predicts a successful season for the coming year and hopes to firmly establish a base upon which to build and maintain tennis at Bloomsburg in the future.

Captain Ruch and Fortner are playing their last year at varsity tennis for the school.

Co-ed Athletics

GIRLS' "B" CLUB

Founded September, 1927

The aim of the Girl's "B" club is to promote athletics for girls and to promote school spirit at all athletic contests. This year the club has successfully sponsored "pep" meetings and "bonfires" and taken an active part in putting Home Coming Day across. The girls, also, take charge of hikes and officiate at volley ball, basket ball and baseball games.

The membership of the "B" club is composed of girls who have earned their "B" in athletics. In order to win a "B" a girl must have at least six hundred points and an "A" in sportsmanship. She must also have an "A" in posture. A number of the girls have earned chevrons which are given for each additional three hundred points after receiving a "B".

We hope that the girls in the coming years will carry on the good work of the club.

SENIOR VOLLEY BALL

September! To some that meant the vacation was over, but at B.S.T.C. it meant the beginning of Volley ball season. That was the game of the season. Some girls played it for their major points as they could earn their numerals, letters, chevrons, etc. Others played it for the sport. It was a clean sport, although, there were many dirty plays (on account of the mud). Who was it could serve the ball with her left hand to most any part of the court? Now let me see—it is no use, I know, but I won't tell. Do you know? This is the usual order in which the ball went over the net. She took it in her right hand, gently (?) tapped it with her left and away it went. Score one. But, this is the way most of the scores were won. Snap—the ball was served to the opponents! "Don't miss it" was the cry. Like a flash the ball was returned, then back again and the ball hit the ground! Score two. That play is ended. Two rather large persons going after the ball at the same time add fun to the game. Well, use your own imagination!! It is a real sport anyhow!

Standing, left to right: GRACE SHEAR, RUTH NOBLE, ELIZ VANBUSKIRK, HELEN CUNNINGHAM, ELVA ELLIS.

JUNIOR VOLLEY BALL

All athletic activities for girls are open to every one. By doing her best in each sport, by maintaining good posture, and by always being a good sport, it is possible for her to win her numerals, her letter and chevrons.

During the fall of 1929 the Freshman girls played volley ball on four exceptionally fine outdoor courts. The girls taking part were divided into teams and an elimination contest followed. There were 18 teams in all competing. After a hard struggle which recalls many exciting contests, the team above finally emerged as the winner.

Outdoor volley ball has replaced hockey this year as a competition for girls. It was apparent from the amount of interest displayed, that the girls were satisfied with the change, and in course of a few years it is expected that girls volley ball will stand out as one of the most alluring of girls sports on the campus.

SENIOR BASKET BALL

The girls basket ball tournament this year has been conducted very successfully. The girls all enjoyed the games and showed very good sportsmanship. Very seldom argued with the official. A few times Miss McCammon was unable to attend the games but they were played as scheduled.

This year we had sixteen teams and a few that played general substitute. There are two teams that have lost no games and will play for the championship. These championship playoffs always add zest and enthusiasm to the sport.

No account of girls basket ball would be complete without mentioning frequent occurrence of acrobatic tricks on the floor, by some of the more agile members of the teams.

*Top row, left to right: HOPKINS, JONES, JACOBY, CARPENTER, TUNTANUC, BOYER,
Middle row: SKYLER, LEWIS, SHEAR, KLINGER, BOOTH, MORGAN.
Bottom row: WILLIAMS, ALLEN, SMITH, CANTWELL, JOHNSTONE.*

JUNIOR BASKET BALL

Basket ball for the Freshman girls begins shortly after Thanksgiving. The first tournament ended with the first semester rating three teams as having won all their games. After the Christmas Recess the tournament continues and runs up late into March, when the girls shed their indoor uniforms and turn once again to the open air for base-ball. The elimination tournament comprises 32 teams, with six girls on each team. Each team plays one game a week for ten weeks, making a total of ten games for the season. At the end of that time the ties, if any, are played off and the successful team acclaimed the winner of the tournament. The above teams are the undefeated teams for the first series of games in the tournament.

The human being that can learn no more has parted with the only priceless possession in human inheritance. The men, women, or nations that harden in their mould, get set in their ways, crystallize their opinions and beliefs, and swear by and live according to their routine habits—such men women, or nations are old; senile decay is at hand. And they, in their vain yearnings for immortality, forget how they learn to behave like human beings and how little itself in human beings renews its youth and speeds up the race for freedom; AS A LITTLE CHILD, WITH AN OPEN MIND.

Appreciation

IN all our experience, there has been no equal to the willing help and co-operation that we have had in making the photographs for the 1930 Obiter.

We extend our thanks to the entire student body who have made these pictures possible and especially to the Obiter Committee who had charge of the arrangements, and the faculty who so willingly helped in their execution.

We maintain a permanent negative file, and duplicates can be secured of any photograph we have made for this Obiter.
