

### CAS to mourn tuition hike

Up to 300 student leaders from the Pennsylvania State College and University (PSCU) system are expected to march on Harrisburg on April 29 to mourn the passing of the idea of public higher education in Pennsylvania.

The event, dubbed as a Funeral March, will start at 12:30 p.m. from the rear of the Capitol Building. At the front of the procession, which will be conducted in silence, will be a casket carried by students, parents of students and faculty members.

The protestors will walk to the Capitol steps where they will be addressed by a number of speakers. "Two types of speeches will be given," said Jeff Hunsicker, campus organizer of the Commonwealth Association of Students (CAS), the organization that is sponsoring the march. "Some speakers will be giving 'eulogies' lamenting the demise of educational opportunities and equal access for all. The rest of the speakers will give 'sermons' calling for constructive action to keep public higher education alive in Pennsylvania."

CAS, which is the lobby organization of the 76,000 students of the PSCU, does not believe that Governor Thornburgh and the state government has given public higher education enough priority in this state. Thornburgh's budget recommendation for the PSCU falls \$12.9 million short of what is required to maintain existing levels of service. To make up for this, the governor wants to burden students, who already pay the highest tuition rate in

the nation for public higher education, with at least a \$150 tuition hike. This, coupled with almost certain cutbacks in federal and state financial aid, and increases in other campus fees, will mean that students may have to pay anywhere from \$400 to \$1,000 more to continue their education next year.

"I don't think the governor has any idea what public higher education means," said Hunsicker. "The principles behind it are that all persons should be provided with an equal opportunity to attain a post-secondary education, and that no person shall be denied the opportunity to attend a post-secondary institution for financial reasons. The simple fact that Pennsylvania has one of the lowest percentages in the nation for high school graduates going on to degree-granting

institutions bears out the fact that Pennsylvania is failing to meet the mission of public higher education."

**Paul Felkner BSC CAS  
Coordinator responds**

So what does this mean to Joe student at Bloomsburg? First, remember to save at least \$500 more than you saved last summer. Second, expect teacher layoffs. This will lead to larger classes, less programs, less classes, and certain programs will be completely abolished. Third, you will see our library funds diminished. Don't expect to do your research paper at Bloomsburg. The decreasing amount of periodicals and newspapers will be slashed to the bone. Books, again, will not be bought. Anyone who tried to find a few up-dated books or periodicals will find it has been a difficult

(Continued on Page 3)

### Disabled students task force formed

The Disabled Students Task Force is an organization concerned with the disabled students on the state college campuses in Pennsylvania.

The chairperson for the Bloomsburg chapter is Mike Alexander, a sophomore, Special Education major. To find out more about the Task Force, we talked to Mike at the CAS office. Here's some questions and answers concerning the Task Force.

**Hughes:** How did the Task Force get started?

**Alexander:** CAS, (Commonwealth Association of Students), wanted to go beyond

the traditional issues like tuition hikes and student rights so in 1979, they formed four Task Forces. They are: Womens, Minority, and Disabled Students Task Forces, as well as the Gay Informational Concerns Team.

**Hughes:** How did you become involved?

**Alexander:** I have always been involved with disabled people and when I was approached by C.E.C. (Council for Exceptional Children) president Peggy Sappington I sort of got the ball rolling. I approached Joe Patti (CAS coordinator 1979) with the idea of

By JEAN KRAUS

Don't leave BSC this weekend or you'll miss it! Renaissance-Jamboree, a Spring celebration of music, dancing, arts & crafts, is scheduled for Friday and Saturday on the BSC campus and downtown Bloomsburg.

A frisbee show featuring two free style throwers and several of the nation's top canine will open festivities on Friday at 1 p.m. on BSC campus (outside the Union).

A coffeehouse by folk singer Mark Rust will continue the celebration that same night at 8 p.m. in the Union.

Renaissance-Jamboree resumes next morning at 10 a.m. on Main Street with a medley of activities and entertainment. In addition to the over 50 booths lining Main Street for three blocks, two stages will be set at Iron Street and the Courthouse as sites of continuous entertainment till 5 p.m.

A schedule of entertainment includes:

**COURTHOUSE STAGE**

10 a.m. - 10:45 a.m. — Susque County Squares

11 a.m. - 11:45 a.m. — Susque County Squares

12 p.m. - 12:45 p.m. — Mark Rust

1 p.m. - 1:45 p.m. — Green Grass Cloggers

2 p.m. - 2:15 p.m. — Fiddlin' Finals

2:30 p.m. - 3:15 p.m. — Mark Rust

3:30 p.m. - 4:15 p.m. — Frisbee Show

4:30 p.m. - 5:00 p.m. — Green Grass Cloggers

**IRON STREET STAGE**

11 a.m. - 11:45 a.m. — Rich Getz and Steve Trismen

12 a.m. - 1:30 p.m. — Fiddlin' Competition

1:30 p.m. - 2:15 p.m. — Tran Boler

2:15 p.m. - 2:30 p.m. — Smokey Bear

2:30 p.m. - 3 p.m. — Tumble Jets

3 p.m. - 3:45 p.m. — Barbershoppers

(Continued on Page 3)

### Broadway performer, Vinnie Burrows to visit BSC

Vinie Burrows, a Broadway performer with a world-wide reputation will be appearing at BSC on April 28. Her performance will be held at 8 p.m. in the Coffeehouse, KUB.

Vinie Burrows began her theatre career as a child actress on Broadway with Helen Hayes. Although she has appeared in seven Broadway plays; been featured in many off Broadway productions and has participated in several international drama festivals, it is as a solo virtuoso performer that she has achieved a world-wide reputation on three continents.

When her one woman show, Walk Together Children premiered in New York City at the Greenwich Mews Theatre on Nov. 11, 1968, the New York Times hailed her as "a magnificent performer". (The New York Post said she was "funny, gutsy, apocalyptic".) In rapid succession, came TV

appearances on the Today Show, the Merv Griffin Show, Camera Three, Positively Black, Like It Is and many others.

In 1969, Vinnie Burrows had a triumphant three week sell-out in Philadelphia. She followed this with a performance in Algiers at the First Pan-African Cultural Festival. This exposure led to television specials in Bucharest and Amsterdam and appearances in Copenhagen and Stockholm.

In 1971, Vinnie Burrows returned with a new, multi media edition of Walk Together Children which became the longest running one woman show in off Broadway history! She has been invited to more than 700 college and university campuses where students and faculty have called her "The Queen of Black Theatre."

In 1975, she was both a performer and a delegate at the World Congress of Women in

Berlin (GDR). In January 1977, she was a featured American performer along with Stevie Wonder at FESTAC '77, the 2nd World Black and African Cultural Festival held in Lagos, Nigeria. In December 1977, Vinnie was a guest of the Vietnamese Womens' Union and spent 10 days in Vietnam giving performances in Ha Noi and Ho Chi Minh City (formerly Saigon).

Burrows has compiled six additional one woman programs in the unique and spell-binding theatre form she has developed. They are: Dark Fire, a retelling of the myths and legends of Africa; Echoes of Africa, modern African prose and poetry; Song of Lawino, a satiric and compelling Ugandan epic; Shout Freedom; From Swords to Plowshares; and her newest collage, Sister! Sister!, a salute to women of all ages, races, classes and beliefs.

establishing a support system for Disabled Students because there's no one to turn to that know a lot about disabilities. That's how the organization was founded and how I became the chairperson.

**Hughes:** Who are the members of the Task Force and how can someone become a member?

**Alexander:** A member of the Task Force can be any, and I stress the word any, BSC student who is interested in the rights and welfare of the Disabled who attend or want to attend college. To become a member what people have to do is just call me (389-2476) and follow this one rule. Don't just talk - do something. I want the members to speak-up and discuss their ideas. After all, it's their committee. I really want to stress that everyone is part of every discussion.

**Hughes:** What are the goals of

the Task Force?

**Alexander:** The general goal of the Task Force is to make the campus more accessible to handicapped students, while trying to reach their psychological, physiological, and education needs. The future of the Force will depend on the interest and willingness of the students to make the program work. Some of the projects for next year include training RA's on how to work with disabled students and to try to get more disabled students on this campus. Our main concern at the moment is the Disability Awareness Day. This will be held on April 28, 1981 and consist of films, workshops, and a lecture by a special guest speaker, Harriet May Savity, author of the book "Walk, Don't Run". (For more information on the Awareness Day see story on Page )

(Continued on Page 3)

Vinnie Burrows, a Broadway performer, will perform at BSC on April 28th at 8 p.m. in the coffeehouse, KUB.

# Math student, David Fox, wins award

David L. Fox, BSC junior mathematics major, was awarded first prize for his paper entitled "Mersenne Primas" presented at the national convention of Kappa

Mu Epsilon, mathematics honor society, held in Springfield, Missouri, April 2-4. Fox and three other BSC honor students and two faculty members were among the 250

college representatives from across the nation who attended the convention at Southwest Missouri State University to celebrate the 50th anniversary of Kappa Mu Epsilon and ex-

change ideas on mathematics and undergraduate math programs.

Much of the convention was devoted to the presentation of papers on various mathematic topics written by undergraduates. Of the 15 papers selected for presentation, students from BSC gave three. Jerome O'Brien, a junior special education major talked on "Magic Squares" and Kim Yarnal, a junior math and computer science major spoke on "Catalan Numbers." A panel of faculty and students judged Fox's paper to be the best, while the others, O'Brien and Yarnal,

were awarded honorable mention.

Local chapter president Linda Pinchot, a senior also attended and served on the national auditing committee. Mathematic professors James Pomfret and John E. Kerlin attended and participated in discussions on ways to stimulate interest in honors projects for undergraduate mathematics students.

## Dog highlights Jamboree

(Continued from Page 1)

4 p.m. - 4:45 p.m. - Military Band.

A 10,000 meter run sponsored by Tau Kappa Epsilon fraternity and American Athlete for the benefit of St. Jude's Hospital will be gin at 11 a.m. at the Market Square.

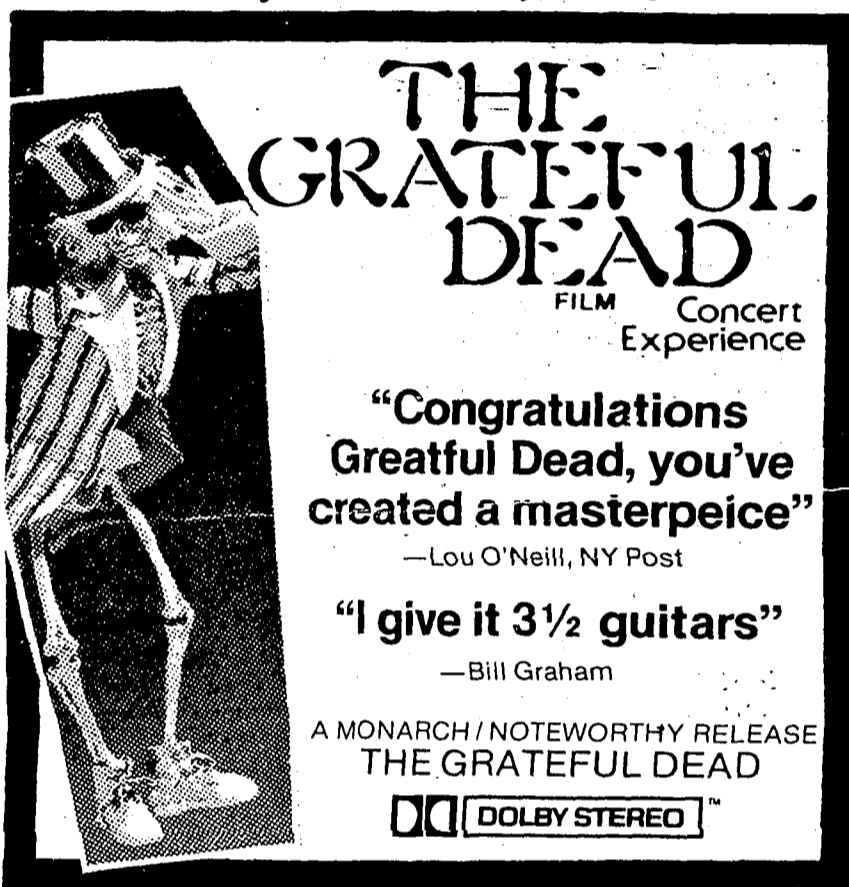

A Hot Tub Stuffing contest sponsored by Lambda Alpha Mu sorority and Colonel Stove Shop also is scheduled at Market Square but at noon. The goal is stuff 40 people in the hot tub, breaking the Guinness World Book of records of 39.

Cartoon characters including

Woodsy the Owl, Big Bird and more will be mingling with the crowds all day.

The fun and entertainment is at Bloomsburg this weekend. Celebrate spring with a different type of party this weekend - Renaissance-Jamboree.

(Continued from Page 1)

Hughes: What benefits can the members expect?

Alexander: Mostly it gives practical experience to combine with what you learn in the classroom. This is especially true for Special Education and Communications Disorders majors. Also, the members become more knowledgeable about the disabled college students on campus.

## Funeral march for tuition

(Continued from Page 1)

task. Department budgets will also be trimmed. Paper and supply shortages will be more intense than last year. Wonder why you din't get those handouts? Most students will just complain to their friends and their roommates. It's sad that their friends and roommates are not voting in Harrisburg or Washington.

CAS is proposing a funeral march in Harrisburg on April 29. Students from across the state will gather to voice their concern. This will be asilent march. Everyone is encouraged to wear somber colors as if this were a real feneral.

A funeral march will symbolically show what the consequences will be if the governor's budget is passed in its present form. By gathering students in Harrisburg, we will visually illustrate the death of educational opportunity for many Pennsylvanians who come from low-income, or working class families.

CGA has provided funds for the march. Buses will leave Bloomsburg at 10:30 and will depart from Harrisburg no later than 3:30. Students can sign up at the information desk at KUB. If you don't go, who will?

# NBC to cover TUB stuffing contest

How many people can fit into a hot tub? NBC's Real People is scheduled to come to BSC to find out.

At Renaissance/Jamboree '81 hot tub stuffing teams are going to attempt a new world's record on Saturday, April 25. The present record, it is believed, stands at 39 people inside a six-foot hot tub.

The Hot Tub Stuffing Contest is being sponsored by the Colonial Stove Shop, and by Lambda Alpha Mu sorority, and the proceeds will go to the American Red Cross.

Bloomsburg's Renaissance/Jamboree '81, sponsored by the town and Bloomsburg State College Program Board, will feature many events, and contests to benefit over 20 charities, all held on the streets of downtown Bloomsburg. In addition to special events such as the stuffing contest, the day will feature live entertainment (some of which has been featured on national television), food, artwork and crafts for sale, and entertainment for children. More details inside.

# Disability Awareness Day is April 28th at BSC

By KEVIN KODISH

Keynote speaker Harriet May Savitz will highlight the first Disability Awareness Day on Tuesday, April 28 here at BSC.

Ms. Savitz received wide acclaim for her book titled "Run, Don't Walk." She will address the audience from 7:00 - 8:30 p.m. in Multipurpose Room B of the Kehr Union building.

The awareness day is being sponsored by the Disabled Student Task Force.

Task force spokesman Mike Alexander says the force hopes

to accomplish three basic things through the special day on campus.

"First, we would like to create an awareness of the disabled student on campus" Alexander revealed. "We also want to promote acceptance of the student." The third key item the awareness day will hopefully accomplish, according to Alexander, is the fact that disabled students "can do" things.

"We want people to realize that the disabled student just

wants to be treated as a normal human being," the Force official continued. "Many times a person sees someone in a wheelchair and figures they are dumb. We want them to know the person is paralyzed from the neck down, not from the neck up!"

The day's events will be kicked off at 12 noon in Multipurpose Room A, with the greeting and statement of goals taking place at this time.

Following the introduction, the first of three workshops will get underway. Resident life will be the topic of the initial workshop. This will include a discussion of housing needs for disabled students within the resident hall environment.

At 1:15 the Sensitivity awareness workshop will start. The needs, desires and limitations of disabled students will be examined to create a sensitivity to these areas. Situational exercises will aid in the facilitation of this workshop.

The final workshop will be the Learning Modality portion. This will deal with how using the senses can improve learning. Alexander pointed out that this workshop can teach students how to study better.

Multipurpose Room B will be the site of a film festival from 2:00 - 4:00 p.m. If the union of four and five by listening to "The Winds of Change," a band that will be performing beyond Lycoming Hall.

There will be refreshments served throughout the day's events. The day promises to be a fun educational experience.

# Frisbee dog highlights Jamboree

Dr. John's World Champion Frisbee Show will be appearing on BSC campus at 1 p.m. on April 24 for a three hour presentation. The event is planned in conjunction with Renaissance-Jamboree which is scheduled for Friday and Saturday on the campus and downtown Bloomsburg.

The Dr. John's World Champion Frisbee Show is named after its founder World Master Champion, Dr. John Pickerill, a former professor who forsook his Ph. D. in economics to pursue a full time career in frisbee. Previously named Martha Brings 'em Back, after John's dog Martha Faye, the Guinness World Champion and the show's original star, Dr. John's has expanded to include several of

the nation's top K-9 and human stars in an exhibition of state of the arts techniques and razzle dazzle throwing and catching skills.

One of the oldest, and certainly most prestigious shows in the country, Dr. John's has appeared on over 15 major national telecasts, including CBS Sports Spectacular and ABC Wide World of Sports, at over 70 National Football League, Major League Baseball, and North American Soccer League games, and in several magazines and special events throughout the nation. Twice, in the North American Soccer League, Dr. John's has won "Outstanding Halftime of the Year".

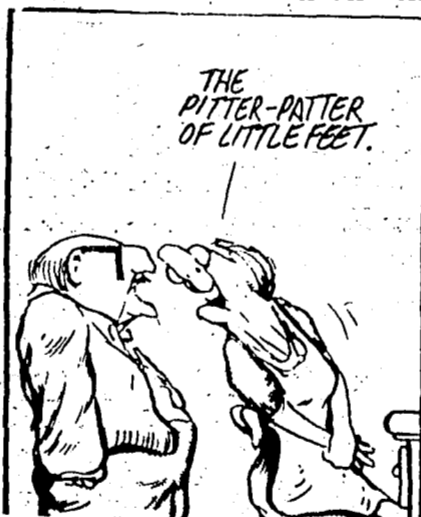

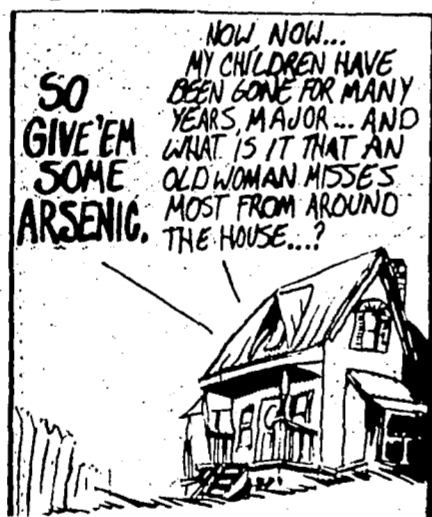

For the past two years, the troupe have been touring

campuses, which according to Pickerill are among the most rewarding shows, because they lend an opportunity for personal contact. "Frisbee play is finally a participatory sport, and as such our shows involve audience participation and post show clinics and workshops. We want everyone playing Frisbee. It's a part of our plot to take over the world", says Pickerill, matter of factly. "Anyone can learn to enjoy the Frisbee, and throw it straight".

The show itself consists of five parts including an introductory "mini-clinic", which is an informal presentation of some basic skills; and freestyle to music with "trick throws, pirouette catches and "disc work". A discipline in body and disc control in which the

Frisbee is not actually caught, but taken in off the spin on one's fingernail and subsequently passed around the body, rolled along the arms and chest, kicked, tapped, and otherwise manipulated in a series of dance like maneuvers.

Other show segments include: power and accuracy demonstrations including Frisbee golf, a popular tournament event which was marked by its first \$50,000 Open in 1979; distance and "boomerang" throws; audience participation games; and of course, the most lovable Frisbee players of all, the canines, with outstanding enthusiasm, leaping catches, speed, judgement, and personality.

# Swimmers controversy continues at BSC

(Editor's Note: This story is being printed through the courtesy of The Morning Press.)

By JOHN MICHAELS

**BLOOMSBURG** — Bloomsburg State College's men's swimming season ended in February, but controversy over an alleged incident between coach Eli McLaughlin and a former swimmer continues to plague the once - successful program.

At issue is McLaughlin's coaching philosophy, which has been criticized by 15 former members of the team.

The Huskies began the season with 22 people on the squad, but only had five representatives at the Pennsylvania Conference championships in March. The other 17 either quit following the Dec. 1 incident or were discharged by McLaughlin.

The coach was accused of shoving ex-swimmer Bill Wolfe, who has left school, reportedly for financial reasons, during a confrontation at Nelson Fieldhouse. The incident allegedly occurred after McLaughlin verbally blasted team members for their poor

performance at the Indiana University of Pennsylvania Relays the previous weekend. They finished third in the four-team meet.

The swimmers charged that McLaughlin's verbal outrage was action unbecoming a coach, a contention athletic director H. Cecil Turberville upheld following a hearing on the matter.

"There was some disagreement on physical contact being made or the use of certain terms, but there was a verbal exchange between the two (McLaughlin and Wolfe)," Turberville said in a recent interview, also attended by Jerry Medlock, chairman of the department of health and physical education. McLaughlin declined an invitation to rebut charges made by the swimmers.

Turberville also said the coach was warned of the certainty of a reprimand if another outbreak took place. Asked how long that edict will be in effect, he replied, "As long as I am athletic director here."

Reik Foust, former captain of the team, recalled the incident.

"We were finishing our pre-practice warm-up and coach arrived and told manager Harry Gabora privately that 'before practice was over, four guys will be off the team,'" Foust said. Gabora, who was among the swimmers interviewed, corroborated the story.

Foust continued, "Coach called us out of the pool and told us to sit on the deck, but not to sit near him. Then he got very, very loud. He was screaming, enraged and the language was unbelievable."

Later, Foust said, Wolfe asked McLaughlin why he didn't give the team pep talks instead of threats. "Coach then said we hadn't made the team yet and warned that he could still cut us from the squad," Foust said. "Wolfe then told coach he was leaving and started walking toward the locker room and coach ran after him and started yelling again."

At this point, Foust alleged that McLaughlin had his hands behind his back and was butting Wolfe in the chest, a charge the coach denied at a hearing before Turberville. "Coach was

baiting him on, telling Bill he wasn't man enough to hit him," Foust said. Turberville said words to that effect were used during the confrontation.

The athletic director backed McLaughlin's authority to cut any of the team members, "McLaughlin has the right to make that decision, especially if the people aren't performing up to standards," Turberville noted. "Most of the young men don't realize that the coach-athlete relationship is not democratic — it's fairly autocratic. The coach has a wide and broad area he can function in."

"It is acceptable and expected that the coach makes the decision and the student has a choice to perform or not."

Former members of the team questioned McLaughlin's future and coaching techniques.

"We'd like to get a new coach, someone who cares about the program and the people involved," Frank Jacoby, spokesman for the group said. "McLaughlin is working back into the 1950s. He hasn't done anything to help us individually."

Foust added, "The team's

dismal downfall should be blamed on (McLaughlin) not having the program up-to-date. His philosophy is, if you're one of his athletes you'll do whatever he asks. He's always relating back to his football playing days, saying "if my coach asked me to run through a wall I would."

Medlock and Turberville defended McLaughlin's coaching philosophy and ability. "He's a conservative and authoritative type of coach who has had some success," Medlock said.

Turberville added, "His program is not an unorthodox method of training. It's within the realm of acceptability and dependability as far as methods of training are concerned."

"Eli has modified the program over the years as methods have been proven successful. He's had a long term of success."

McLaughlin's overall record is 126-118-2. His teams enjoyed seven straight winning seasons — 1968-69 through 1974-75, inclusive.
