SENIOR YEAR.

Surveying, Analytical Geometry, Calculus, Analytical Mechanics, Astronomy, Zoology, Moral Philosophy, Philosophy of Education.

PLAN OF THE SCHOOL.

The School is two-fold, comprising the Normal School proper and Model School, both thoroughly graded, complementary to each other, and complete as a whole, furnishing an extensive course and every advantage for instruction found in first-class schools of corresponding grades.

The Principal has the general superintendency of each department of both schools, and each instructor a special supervision of his own department.

LOCATION.

The quiet village of California is a typical College or Normal School town. It is situated on the left bank of the Monongahela River, 50 miles from Pittsburgh.

There are at present three trains daily each way between Pittsburgh and California. Fare from Pittsburgh, \$1.50; from McKeesport, \$1.05; from Uniontown, 65 cents.

RETROSPECT.

The corner stone of the imposing Normal School building was laid by the late Governor Geary, August 26th, 1868. In June, 1874, the institution was recognized as the State Normal School for the Tenth District, comprising the counties of Washington, Fayette, Greene and Somerset. Since that time two hundred and thirty-eight graduates (not including the class of 1885) have been sent out into the schools of the State, besides hundreds of other students who have gone forth to do efficient work as teachers.

LITERARY SOCIETIES.

There are two flourishing literary societies, the *Clonian* and *Philomathean*, in the school, meeting every Friday evening in their respective halls.

MUSIC DEPARTMENT.

A competent and thorough instructor is in charge of this department, and good instruments are provided for the use of students.

The advantages for Instrumental Music and Voice Culture are of a high order.

LIBRARY AND READING ROOM.

Hitherto there has been a pressing need of better facilities for general reading. Within the past two years a large Library and Reading Room has been opened.

Expensive black walnut cases have been provided for books and for a Natural History Cabinet. Many new books have been purchased and the tables have been covered with the best newspapers and magazines of the day.

DONATIONS.

Our thanks are due for copies of the following papers: Washington Observer, Washington Review and Examiner, Monongahela Daily Republican, Canonsburg Rural Notes, Elizabeth Herald, Greensburg Press, Uniontown Genius of Liberty, Uniontown Republican Standard, Uniontown Democrat, Connellsville Courier, Meyersdale Commercial, Brownsville Clipper, Waynesburg Messenger, Waynesburg Republican, Washington Democrat, Burgettstown Call, Beaver Argus and Radical, and Beaver Times.

LECTURES.

Lectures have been delivered in the Normal Chapel during the past year, by Col. G. W. Bain, H. W. Shaw ("Josh Billings"), Rev. Robert Collyer, Rev. Dr. W. B. Watkins, Hon. John B. Finch, Rev. Dr. T. De Witt Talmage, and others.

The course of lectures was provided by the California and Coal Center Lecture Association, composed of members of the faculty and public spirited citizens of the two neighboring towns.

TEXT BOOKS.

The following Text-Books are now used in the School:

McGuffey's Readers,	Brooks' Mental Science,
Reed and Kellogg's Grammar,	Ray's Algebra,
Robinson's Arithmetics,	Wentworth's Algebra,
Harper's Geography,	Wentworth's Geometry,
Kellogg's Rhetoric,	Ellsworth's Penmanship,
Hutchisons's Physiology,	Forbriger's Drawing,
Barnes' History of U. S.,	Avery's Natural Philosophy,
Higginson's History of U. S.,	Gray's Botany,
Shoemaker's Elocution,	Smith's (Prof. J. B.) Latin Lessons,
Patterson's Speller,	Suplee's Constitution of U. S.,
Mayhew's Book-keeping,	Allen & Greenough's Latin Grammar,
Wickersham's School Economy,	
Blaisdell's Physiology,	Andrew's Manual of the Constitution,
Swett's Methods of Instruction,	
	Wickersham's Methods of Instruction.

All text-books used in school and necessary stationery can be purchased at reasonable rates, at the book stores convenient to the School.

Good books are always useful for reference, and many that may be considered old are valuable aids in the preparation of lessons. Teachers should be the slaves of no author or book, but seek and learn the right use of the best books, master the subject-matter by them, and teach without them. Each student should expect to purchase a few books for the sake of uniformity in classes.

DIPLOMAS.

Candidates for graduation in course, who receive the joint approval of the Faculty of the Normal School and Board of Examiners appointed by State authority, will receive Diplomas conferring the degree of BACHELOR OF THE ELEMENTS, or BACHELOR OF THE SCIENCES, respectively, on completing either course.

The Diploma exempts the holder from further examination for teaching by State authorities.

The Degree of Master in each course will be conferred on the above named graduates of two years of successful experience in teaching, on certificate of good moral character from School Directors and County Superintendent under whom they have taught.

MISCELLANEOUS PROVISIONS.

Pupils applying for a diploma in any course must be examined in all the studies of that course.

THESIS.—In each course a thesis must be written upon some professional subject.

At examination, a paper stating that the candidates have completed the course of study for Normal Schools, have taught the required time in the Model School and have been examined and approved by the Faculty, shall be presented to the Board of Examiners.

Papers for second diplomas must be presented to the Board of Examiners at their regular session.

EXAMINATION FOR GRADUATION.

No one can be graduated from a Pennsylvania State Normal School, who has not attended the school at least one-half of a school year.

Candidates for graduation are examined by the Faculty, and, if found qualified, are recommended to the Board of Examiners.

The State Superintendent or his Deputy, two Principals of Normal Schools, and two County, City, or Borough Superintendents, constitute the Board of Examiners.

Candidates are examined upon all the studies in the course, special attention being given to the Science and Art of Teaching.

A Thesis of not less than six folio pages of manuscript, upon some educational subject, is required from each candidate, as a part of the examination.

EXPENSES.

Tuition, per week,	\$1.25
Board,	3.25
Instrumental Music (two lessons),	1.00

DEDUCTIONS.

For Soldiers' Orphans entitled to State Appropriation, \$1.00 per week.

For other students entitled to State Appropriation, fifty cents per week.

No deduction except for sickness or other unavoidable reasons.

No deduction for board or tuition for first or last week of term, except by previous agreement with the principal.

One-half of the above expenses is due at the opening, the balance at the middle of each term.

The principal acts for the Trustees and receipts all bills.

Board at above rates includes furnished rooms, fuel and oil. Students furnish their own lamps and towels.

Washing will be done by the household department at the lowest terms.

No student will be allowed to board outside of the school building, unless with parents or near relatives, except by special permission of the Board of Trustees. The Principal will act for the Trustees under this rule.

MISCELLANEOUS.

ECONOMY OF TIME.—No time is lost at the opening of a term. Students begin work on the first day of each term in all branches of study; get five full days of regular recitations every week, and forty-five minutes for each recitation.

ECONOMY OF EXPENSE.—The aggregate expenses of a student at this school are much less than at other schools of the same kind, furnishing as much.

SCHOLARSHIP STANDING.—Written Reviews in each class weekly or bi-weekly, furnish the basis of standing. Each student has the same chance with every other, and is marked according to the merits of his work. The average in each branch and general average in all, on a scale of 100 for each student, is made public at the end of each term, and a record of the same is kept at the office of the Principal.

HEALTH.—Students have special need of regular, methodical physical exercise. The precept, "a sound mind in a sound body," has been too generally ignored. Every student not specially excused will practice calisthenics or gymnastics daily. Instruction, personal advice and careful superintendence will be given, in the belief that good health is a prime requisite to mental and moral education.

SOCIAL PRIVILEGES.—In recitation rooms, chapel and parlor, in presence of instructors, students have all reasonable opportunities for social culture. Believing that ladies and gentlemen are mutually benefited in the wisely regulated freedom of each other's society, we treat this as a department of education, and consider education incomplete without social culture.

MORAL AND RELIGIOUS CULTURE.—A State Normal School is in no sense or particular sectarian; still, it should be in every and the best sense Christian in all its influences and aims. The Bible is the best text-book in morals. It is read daily, taught in Sunday School classes, and expounded in religious meetings each week. Pastors and Christian workers of all denominations are cordially welcomed to fellowship in all religious exercises.

MANAGEMENT.—The rules of the school are few and simple. Self-control is the ideal; self-help the habit sought. The intelligent conception of duty and a quickened conscience will generally result in a cheerful, voluntary obedience. The government is best which seems to govern least.

REGULATIONS FOR STUDENTS.

1. Study hours will be published at the commencement of each session, and the bell will be rung to give notice of them. Students must devote these hours exclusively to study and recitation.

2. During the hours of study, Students may not go to the homes and rooms of other Students, nor visit other persons or receive their visits, nor attend any public meeting or parties, without permission previously obtained from the Principal, but must be in their rooms pursuing their appropriate studies.

3. All Students are required to be present every morning at prayers and at all general exercises in the chapel, unless excused. Attendance on religious worship during the Sabbath is required.

4. A record of scholarship will be kept, which will be open to inspection by the students and the public.

5. No student will be allowed to deface the building by marking or drawing, or to damage the property in any way; and when done, the expense of the repairs will be charged to the one having done the injury.

6. No Student may indulge in the use of tobacco in any of its forms *in or about the building*, or of intoxicating drinks or profanity.

7. It is expected that the ladies and gentlemen of the Institution will treat each other with politeness and usual civilities; but every lady and gentleman is prohibited, on pain of dismissal, from visiting the other sex or receiving visits, from holding private conversation or correspondence, and from walking or riding together, unless they have special permission from the Principal. At the close of meetings of any kind, all will repair immediately to their respective rooms.

8. Gentlemen not connected with the School will not be permitted to call upon lady Students.

9. No visits will be allowed during study and recitation hours.
10. Persons of immoral character, and young men addicted to the use of abusive, profane or obscene language will not be received. Students whose sense of honor and propriety cannot be trusted will be summarily dismissed. They will also be sent away whenever in the opinion of the Faculty, it is evident that they are pursuing a course of conduct detrimental to themselves and the Institution.
