FACULTY

*WALTER SCOTT HERTZOG, *Principal*

M. E. Southwestern State Normal School, A. B. and A. M. Hiram College, Student Leipsic University. Taught public schools 1891-1893. Principal Beaver Falls High School 1897-1901. Teacher in S. W. S. N. S. Training School 1897. Mathematics and Science 1903-1907. State High School Inspector 1907-1912. Principal 1912-1919.

*FRANK FIELD, *Vice Principal*

A. B. Waynesburg College, 1904. Student West Virginia University 1904-1905. Student University of Pittsburgh 1915-1916. A. M. Columbia University 1913. Diploma in Educational Administration, Teachers' College, 1913. Teacher in Public Schools 1899 and 1907-1908. Principal Richhill High School 1908-1912. Teacher S. W. S. N. S. 1913-1919.

J. B. SMITH, *Registrar*

M. E. and M. S., S. W. S. N. S., A. B., A. M. and Ph. D. Waynesburg College. Teacher S. W. S. N. S. 1876-1908. Registrar 1908—

ANNA M. SHUTTERLY, *Librarian*

S. W. S. N. S. 1884. Teacher in Public Schools three years. Normal Training School 1889. S. W. S. N. S. 1890-1892. Librarian 1892—

ANNA B. THOMAS

Training Teacher and Kindergarten Supervisor

Graduate S. W. S. N. S. 1880. Chautauqua Graduate. Primary Work under direction of Columbia University. Teacher Greensburg High School. Grade Work, Braddock. Supervisor Braddock Public Schools for four years. Training Teacher and Supervisor of Kindergarten S. W. S. N. S. 1895—

*ANNA BUCKBEE, *History and Geography*

M. E. State Normal School, Mansfield, Pa. Student Grove City College. Teacher Rural and Graded Schools eight years. County Superintendent of schools six years; Havana, Cuba, one year. City Training School and State Normal School twenty-five years. Teacher S. W. S. N. S. 1896-1919.

HENRIETTA M. LILLEY, *Training Teacher*

Graduate S. W. S. N. S., Cook County Normal School, Chicago, Ill. Student at University of Chicago. Training Teacher S. W. S. N. S.

LOUISE M. WARD, *Bookroom and Children's Library*

M. E. Southwestern State Normal School.

CHARLES VEON, *Director of Music*

Pupil of Santiago, Monguio y Acosta. B. M. Geneva College. Doctor of Music, University of the State of New York. Graduate of Pennsylvania Conservatory of Music and New York Conservatory of Music. Student at Harvard and Columbia and University Summer School, Berlin. Teacher S. W. S. N. S. 1908—

MRS. R. KIRK RICHARDSON, *Training Teacher*

Graduate S. W. S. N. S. 1888. Taught in Public Schools 1888-1897. Critic Teacher S. W. S. N. S. 1911—

*Resigned.

SADIE LILLEY, *Domestic Science*

Graduate S. W. S. N. Special Training for Domestic Science at University of Chicago and School of Domestic Arts and Science, Chicago. Taught in Public Schools of Pittsburgh. Teacher S. W. S. N. S. 1914—

BERTHA LINNELL, *Music Supervisor*

Graduate of Crane Normal Institute of Music, Potsdam, N. Y. Student at Cornell University Summer School 1919. Studied voice under William Whitney and A. R. Frank, Boston. Supervisor of Music, DuBois, Pa., 1916-1918. Teacher S. W. S. N. S. 1918—

*MRS. FRANK FIELD, *English*

A. B. and B. L., Waynesburg College. Teacher of Latin and French Meredith College, Raleigh, N. C., 1905-1906. Principal West Alexander High School 1910-1911. Teacher East Washington High School 1911-1912. Morris Township High School 1912-1913. Teacher S. W. S. N. S. 1914-1919.

*HELGA COLQUIST, *Department of Modern Languages*

Graduate of McKeesport High School 1903. Teachers' Training Course, McKeesport 1904. Student of Grove City College. A. B., University of Pittsburgh 1913. Teacher in Public Schools of McKeesport 1904-1912. Teacher of German in Clairton High School 1913-1915. Graduate student at Columbia University. Teacher S. W. S. N. S. 1915-1919.

GEORGE F. DUNKELBERGER, *Education*

A. B. and A. M. Susquehanna University. Teacher in Rural Schools for seven years. Supervising Principal of Schools for eight years. S. W. S. N. S. 1916—

JOHN H. CLAYPOOL, *Physics and Agriculture*

A. B., DePauw University. Student in Indiana State Normal School, Terre Haute, Ind. Special Student in Agriculture, Purdue University. Two years Teacher in Rural Schools, six years High School Principal, four years Superintendent Schools. Three years Supervisors Boys' and Girls' Clubs, Warren County, Indiana. S. W. S. N. S. 1916—

PEARL STEWART, *Penmanship*

Student Tri-State Normal, Fairview, W. Va. Graduate of the Zanarian College, Columbus, Ohio. Student in West Virginia State University, University of Wooster, Ohio, Michigan State College. Experience as Grade Teacher. Supervised Penmanship in Public Schools of Manistee, Mich., and Springfield, Mo. Teacher S. W. S. N. S. 1916.

*DAYE F. BRUNTON, *Public Speaking and Gymnasium*

Graduate of Beaver High School, Student Beaver College, Student with Dora M. Shartee, Physical Training for Girls. Graduate King's School of Oratory, Pittsburgh; Teacher in Public Schools. Teacher Wanamaker Institute of Philadelphia. Taught Physical Training and Expression in San Antonio Female College. Teacher King's school of Oratory. Teacher S. W. S. N. S. 1917-1919.

*Resigned.

JOHN ENTZ, *Vice Principal, Mathematics and Chemistry*

M. E., State Normal School, Lock Haven, Pa. B. S., Albright College. Chicago University 1914. Teacher Rural and Graded Schools five years. Principal and Teacher Potter County Summer Normal School seven years. Principal High School, Coudersport, Pa., 1906-1911. Supervising Principal Coudersport Schools 1911-1916. Mathematics S. W. S. N. S. 1916-1917. Supervising Principal Smethport, Pa., Schools 1917-1918. S. W. S. N. S. 1918—

*FLORENCE M. GLENN, *Latin and English*

Graduate of Johnstown High School 1908. A. B., Bryn Mawr College 1912. Teacher of Latin and German 1912-1915. Supervisor of German 1915-1918. Johnstown High Schools. National Teachers' Seminary, Milwaukee, Wisconsin, 1916. Private Tutor in College Latin 1917-1918. Teacher S. W. S. N. S. 1918-1919.

MRS. J. A. ENTZ

High School, Watsonstown, Pa. County Normal School, Muncy, Pa. Dickinson Seminary, Williamsport, Pa. Commercial College, Williamsport, Pa. Substitute work in Williamsport Commercial College, and National Bank of Newberry, Pa. Commercial and History Teacher in High School, Coudersport, Pa., five years. Commercial Teacher in Clearfield, Pa., High School one year.

IRENE C. NIEBAUM, *Art*

Graduate Pittsburgh Public Schools and Academic High School. Graduate of Indiana State Normal School. Teacher Allegheny County and Pittsburgh Public Schools. Student New York School of Fine and Applied Arts, University of Wisconsin, Margaret Morrison, Carnegie Technical School. Graduate Normal Art and Manual Training Course, Pratt Institute, Brooklyn, N. Y. Teacher Pittsburgh Public Schools. Teacher S. W. S. N. S. 1919—

SUBSTITUTES:

*HARRY F. WERNER, *Department of History and Geography*

Graduate Southwestern State Normal School 1915. Student State College 1917. Teacher in Rural Schools. Principal in Cambria and Fayette Counties. Teacher S. W. S. N. S. 1919.

*WILLIAM M. KETCHAM, *History Department*

B. A., Wesleyan, Conn., 1916; Graduate Work U. of N. C. 1917; Graduate Work University of Pittsburgh 1918. Principal Seven Springs Schools, N. C., 1916-1917. Principal Elkton Schools, Va., 1917-1918. Teacher of Elementary Branches and Manual Training G. H. Thurston School 1918. Teacher S. W. S. N. S. 1919.

MARIE G. MATZELLE, *Secretary*

Secretary to Principal S. W. S. N. S. 1916—

NEW TEACHERS

MARGIE M. LEE, *English and Public Speaking*

Graduate of Jackson, Minn., High School 1910. B. S. degree Hamline University, St. Paul, Minn., 1915. Graduate King's School of Oratory, Pittsburgh, Pa., 1917. One Semester University of Pittsburgh 1917. Five years teaching experience. S. W. S. N. S. 1919—

*Resigned.

LOOK AT THE MAP

WHERE IS CALIFORNIA?

The Tenth Normal School District includes Washington, Greene, Fayette and Somerset Counties. When the School was finally secured for California the leaders of that day planned more wisely than they knew, because the development of the coal and steel industries in this vicinity have made California the geographical center of the population in Western Pennsylvania. It is located twenty miles from Uniontown, twenty miles from Waynesburg, twenty-five from Washington, and only ten miles from Charleroi. Parts of Allegheny and Westmoreland Counties contribute many students to the enrollment. Many graduates find positions in these very desirable counties where there are many school systems. The school is situated but a few blocks from the Pennsylvania station, and a good paved road leads from the ferry from the station known as East California on the New York Central lines. Excellent train service is maintained between Pittsburgh and California on both sides of the river. Many trains leave the Union Station, Pittsburgh, daily for California. New trains now running between Fairmont and Pittsburgh have opened up a new section of Greene and Fayette Counties. Many day students attend from the vicinity of Rice's Landing and other points along the river.

The "Good Roads Movement" has made it possible to reach California by automobile from all directions, and this movement is only in its infancy. There are at least two good roads from California to the National Pike; one by way of Malden, the other by Coal Centre, Daisytown, and Centerville.

In recent years the demand has been growing for the members of the Senior class to go out as substitutes for a few days when regular teachers are ill or off duty. The convenience of location has made it possible for the Normal to serve a large number of schools in this district during the last year.

California has no saloons, three good churches, paved streets, and many good stores. It is a most desirable residence town on account of its superior educational facilities. Many families are attracted here in order to educate their children.

HISTORY

The Southwestern State Normal School is the outgrowth of an Academy first opened in 1852. It is located at California, Washington County, Pennsylvania, on a site well chosen for the great educational work which the school was destined to carry on. The town, which was founded in 1849 by a company of six men, who gave it the name suggested by the discovery of gold in California state in that year, is noted for its beauty, its cleanness, and the excellence of its educational facilities. Many municipal improvements have been made in recent years, such as street paving, electric lighting, sewerage, etc., and some handsome edifices have been erected, including a fine new station, two of the bank buildings, and two of the largest business blocks in the valley, and a number of handsome churches. California attracts families seeking good educational advantages, together with the conveniences, culture, and comfort of a residence town. The private residences recently built are in keeping with the imposing new business houses, and the town is rapidly becoming one of beautiful homes. No saloons have been opened in the town or within several miles of it.

In 1865 the Academy was chartered by the State as the "Southwestern Normal College." August 26, 1868, the corner stone of the present main building was laid. The principal address on this occasion was made by General John W. Geary, then Governor of Pennsylvania. On May 26, 1874, the "Southwestern State Normal College" became, by state authority, the Southwestern State Normal School for the Tenth District, composed of the counties of Washington, Fayette, Greene and Somerset, and the first class of two members was graduated in the following year.

The school now occupies a group of seven buildings. The Main Building was first used in 1870; the North Hall in 1874; the South Hall in 1876; Science Hall in 1892; the Gymnasium in 1894; and the Laundry and Power Buildings in 1899. The last building to be erected is the Dixon Hall, used as a dining hall and dormitory, and was completed and first used at the beginning of the fall term of 1907. It is 132 feet in length and 80 feet in width, and occupies a commanding site just south of

South Hall. The first story space is used chiefly for a dining hall, accommodating about 500 persons, and a kitchen with necessary rooms attached. The second and third stories provide dormitory rooms for one hundred lady students and teachers. The basement story is used for class rooms and storage. In all the buildings of the school is to be found every modern improvement, such as electric lights, steam heat, running water, etc.

The campus contains 12 acres and is made most attractive by flowers, grass, shrubbery, shade trees and well constructed grounds for games, such as tennis, basketball, baseball and football.

Under the new code, State Ownership of Normal Schools became possible. The Legislature of 1913 appropriated \$100,000 to be devoted to this purpose. \$25,000 of this money was apportioned by the State Board for the purchase of the Southwestern State Normal School.

May 20, 1913, the stockholders of the Institution voted to accept the proposition of the State Board for the purchase of the Institution, and the dissolution of the corporation. February 17, 1914, committees representing the Board of Trustees and the State Board of Education signed the agreement, which received the approval of the Governor. On May 7, 1914, the actual transfer took place. A State Board of Trustees, consisting of nine members, who will conduct the business affairs of the Institution in the name of the Commonwealth, has been appointed by the State Board of Education. The State of Pennsylvania will never forsake these Institutions which have been taken under its fostering care. Increased appropriations with a corresponding efficiency will mark a new era in the development of the Institution.

The Legislature of 1917 appropriated a large sum of money for the payment of indebtedness of State-owned Normal Schools. At the present time the indebtedness of the Normal School is reduced to approximately \$37,500 worth of bonds. The maintenance appropriation was increased to \$16,000 per year, and the State Board of Education awarded \$32,000 to the Southwestern State Normal School for much needed improvements. With this increased support from the State the plant's physical condition has been greatly improved.

SPECIAL SENIORS
 MUSIC DEPARTMENT

Marjorie Sweet, New Kensington, Pa.
 Pauline Collier Whitaker, Roscoe, Pa.

TEXTBOOKS USED IN 1918-1919

FIRST YEAR.

Algebra—Hawkes—Luby—Touton's First Course. Wells and Hart's Second Course.
 Latin—Smith's Latin Lessons.
 School Management—Wilkinson's Rural School.
 Public Speaking—King's Practice of Speech.
 Ancient and Mediaeval History—Breadstead's Short Ancient History. Myers' Rome: Its Rise and Fall.
 Physical Geography—Davis' Elementary.
 Arithmetic—Hamilton's Complete.
 Grammar—Maxwell's School Grammar.
 Classics—Lamb's Tales from Shakespeare. Scott's Lady of the Lake. Dicken's Tale of Two Cities.
 Spelling—Bell's Orthography.
 Drawing—Ives' Essentials in Art.

SECOND YEAR.

Plane Geometry—Wentworth and Smith's.
 English II—Huntington's English Composition.
 Classics—The Golden Treasury. Milton's L'Allegro, Il Penseroso, Comus and Lycidas, Scott's Ivanhoe, Heydrick's Types of Short Stories, Shakespeare's Merchant of Venice.
 Botany—Coulter's Plant Life and Plant Uses.
 Zoology—Kellogg and Doane's Economic.
 English History—Larson's.
 Latin II—Beeson and Scott's Latin Book.
 Methods—Kendall and Mirick's How to Teach the Fundamental Subjects. Foght's Rural Teacher and His Work.
 French—First Year—The New Chardanal Grammar. Meras and Roth's Petits Contes de France. Hutchison's Le Chevalier de Blancheffeur.
 Vocal Music—Dann's Complete Manual for Teachers. Dann's Third Year Music Book.
 Civics—Beard's American Citizenship.
 Drawing—Ives' Essentials in Art.

THIRD YEAR.

Psychology—Colvin and Bagley's Behavior.
 Cicero—Gunnison and Harley's. Shumway's Latin Synonyms.
 German—Second Year—Bagster—Collins' First Book in German. Storm's Immensee. Wildenbruch's Das Elde Blut.
 French—Second Year—The New Chardanal Grammar. Bruno's Le Tour de la France. Dupres' Grames et Comedies.
 English Literature—Long's English and American Literature. Newcomer and Andrew's Twelve Centuries of English Poetry and Prose.
 American Literature—Newcomer and Andrew's Three Centuries of American Poetry and Prose.
 United States History—Bourne and Benton's. Methods—Wayland's How to Teach American History.
 Geography—Tarr and McMurry's New Geographies, Second Book. Methods—McMurry's Special Methods in Geography. MiMurry's Geography of the Great War.
 Physiology—Walker's Anatomy, Physiology and Hygiene.
 Solid Geometry—Wentworth and Smith's.
 Geology—Norton's Elements of Geology.
 Astronomy—Todd's New Astronomy.
 Trigonometry—Wentworth and Smith's Plane Trigonometry and Tables.
 Chemistry—Brownlee's Chemistry, Revised.—Manual—Brownlee's Laboratory Manual.

FOURTH YEAR.

History of Education—Graves' Student's History of Education.
 Agriculture—Water's Essentials of Agriculture.

Arithmetic—Walsh—Suzzallo's Arithmetic (Business and Industrial Practice).
 Methods—Klapper's Teaching of Arithmetic.
 Grammar—Maxwell's School Grammar. Royster-Thompson's Manual and
 Notebook for Composition. Methods—Carpenter, Bakes and Scott's
 Teaching of English.
 German—Third Year—Bagster-Collins' First Book in German. Schiller's
 Wilhelm Tell. Fulda's Der Talisman.
 French—Third Year—The New Chardenal Grammar. L' Abbe' Constantin by
 Halevy. Maeterlinck's L'Oiseau Bleu.
 Public Speaking—King's Practice of Speech.
 Domestic Science—Kinne and Cooley's Foods and Household Management.
 Drawing—Ives' Essentials in Art.
 Vocal Music—Dann's Complete Manual for Teachers.
 Ethics—
 Sociology—Towne's Social Problems.
 Physics—Black and Davis' Practical Physics. Manual— Black and Davis'
 Physics Manual.
 Virgil—Fairclough and Brown's. D'Oge's Latin Composition Parts 2 and 3.

TEACHERS' COURSE.

Arithmetic—Hamilton's Complete.
 Grammar—Maxwell's School Grammar.
 Geography—Tarr and McCurry's New Geographies, Second Book.
 Methods—Charter's Teaching the Common Branches.
 Physiology—Walker's Anatomy, Physiology and Hygiene.
 United States History—Bourne and Benton's. Methods in History—Way-
 land's How to Teach American History.

**COURSES OF STUDY FOR PENNSYLVANIA STATE
 NORMAL SCHOOLS**

(As finally revised and adopted at a meeting of Normal School
 Principals, held at Harrisburg, December 30, 1910.)

NOTE—This course is based on the "unit" plan as proposed
 by the Carnegie Foundation.

A "unit" represents a year's study in any subject in a sec-
 ondary school constituting approximately a quarter of a full
 year's work.

(This statement is designed to afford a standard of measure-
 ment for work done in a secondary school. It takes the four-
 year High School course as a basis and assumes that the length
 of the school year is from thirty-six to forty weeks, that a
 period is from forty to sixty minutes in length, and that the study
 is pursued for four or five periods a week; but, under ordinary
 circumstances, a satisfactory year's work in any subject cannot
 be accomplished in less than one hundred and twenty sixty-

minute hours or their equivalent. Schools organized on a differ-
 ent basis can nevertheless estimate their work in terms of this
 unit.)

Students admitted to the First Year shall have a fair knowl-
 edge of Arithmetic, Reading, Penmanship, United States His-
 tory, Geography, Grammar, Physiology, Civics, and the ele-
 ments of Algebra to Quadratics. Test by Faculty.

FIRST YEAR

	No. of 60 min. Periods	No. of 40 min. Periods
Algebra	120	160

SUBSTITUTIONS

In the Third Year in addition to Psychology, Literature, History of the United States, Geography, Physiology and School Sanitation, Methods in History and Geography, Chemistry and Physical Training as now required, there shall be included one of the following: Cicero, French, German, Solid Geometry and Trigonometry, Geology and Astronomy, Economics or any two half-units of Rural School Management, Methods of Teaching Special Subjects, Hand and Basketry work.

CONDITIONS OF ADMISSION

1. Properly certified graduates of approved Pennsylvania High School of the first grade and city High Schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.
2. Properly certified graduates of approved Pennsylvania High Schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.
3. Properly certified graduates of approved Pennsylvania High Schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination and be conditioned in the branches that have not been satisfactorily completed by such students.
4. A person who desires to be admitted to the second or third year without having previously attended an accredited High School, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which anyone is conditioned under this rule or any of the rules shall not foot up more than 120 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school term.

6. If a person who has completed the State Board Examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificates setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music, double entry bookkeeping and all studies completed by them shall be named in their certificates. Persons who have been graduated may be examined at any State Board Examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma is valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of the examiner, together with a separate list of students conditioned in any branch, with the branches in which they were conditioned, in the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work, unless the study is completed, but (ex-

cept in the last year's examination, a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year). Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction, and the fact that the students thus conditioned have taken up such subjects and passed them by Faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of these branches; also a list of those to whom diplomas and certificates were granted, and a list of those who have passed the State examination in any years, naming the year.

11. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in Colleges approved by the College and University Council, who may be graduated after one year's residence.

STATE BOARD EXAMINATIONS

At a special meeting of the Board of Principals in Harrisburg in December 1918, it was decided henceforth to omit examinations in Academic subjects in both the Junior and Senior Years.

The subjects in which examinations were given in June 1919 were:

Seniors	Juniors
History of Education	Psychology
Arithmetic	History of the U. S.
Grammar	Political Geography
Methods in Arithmetic	Methods in Geography
Methods in Grammar	Methods in History
Drawing	Physiology and Sanitation
Methods in Public School Music	Rural School Management
Agriculture and Nature Study	

This is a great advantage to High School students who took their Academic work several years ago.

COURSES IN INSTRUCTION

I. LATIN

The regular course covers four years and prepares directly for more advanced college work.

I. Latin 1. A preparation for Cæsar. This class aims to enable students to read Cæsar intelligently and with pleasure. It is desired that each student have a good knowledge of English before taking up this work, that he may, in the shortest possible time, master all the regular inflections and all common irregular forms, understand the fundamentals of syntax, and acquire a good working vocabulary. There are daily drills in translating from Latin to English, as well as from English to Latin.

II. Latin 2. Text books form 1917-18, Miller and Beeson Second Year Latin, and the composition books based upon it. The year's work covers a thorough grammar review and one lesson a week of elementary prose composition. Emphasis is placed upon the reading at sight, both in the regular class period and in examinations.

III. Cicero. Four Orations against Catiline. The Manilian Law, Archias. Sight reading of Marcellas, or of selections from Ovid's Metamorphoses and the like. Prose composition based in Cicero.

IV. Virgil. Books I-IV are read, but Book V is covered extensively rather than intensively. This course involves the mastery of the elements of Prosody, special grammatical constructions, and a grammar review, a study of the literary and historical allusions, and advanced prose composition in connected discourse.

II. PROFESSIONAL COURSES

First Year. School Management. In this course emphasis is placed upon the development of routine school work, on methods and devices in school and class room organization, on methods of securing and holding attention, on school discipline, on

the relation of the arrangement of the school room and grounds to efficient school work, on the disposition of the teacher's time and her relations to the higher school authorities. The ethics of the teaching profession are also studied. Practical work is given in program making and in the arrangements of records and reports.

School Law is studied with the idea of giving the student a knowledge of the general organization of the State School system. Special emphasis is placed upon the law as it relates to the powers and duties of teachers and their relations to the School boards and superintendents.

Second Year. Methods. This course includes a detailed discussion of the factors which affect methods of teaching: first, the nature of the child; second, the preparation, outlook, interests and attitude of the teacher; third, the kind of school as to size, location, grading, supervision, equipment, special teachers, nationality and ideals of the community.

The commonly accepted Pestalozzian principles are taken up and illustrated. Other important topics are: Oral instruction, why, when, how much and how; the assigning of lessons; teaching children to study books; incentives to study; the recitation; reviews and examination; and some helpful correlations: In addition to the study of the text, students in this course are required to do a considerable amount of collateral reading in books and educational periodicals.

Third Year. Psychology. The terminology of psychology is learned. The different kinds of thoughts and feelings are studied. Enough of physiological psychology is given that the student may know of the relations of the nervous system and other parts of the body to thoughts and feelings. In dynamic psychology the human instincts are studied with reference to their influence upon the actions and thoughts of people; habits, their origin, development, and control are fully considered; the formation, control and importance of mental connections in the teaching and learning processes are studied. Hereditary influences and individual differences are studied in their relation to the abilities of children to learn. Simple experiments are carried out and pupils work frequently upon exercises.

Fourth Year. History of Education. Attention is given to the development of educational thought. The influence of such leaders as Rousseau, Pestalozzi, Herbart, Froebel and Spencer are studied in detail. The origin of common schools, the organization of state school systems, and the progress of universal free education are thoroughly studied. Original investigations of present-day influences in education, the study of N. E. A. reports, of State and National official reports, and of educational magazines and newspapers is continued throughout the course, so that the student may see at first hand the influence of educational ideas and may be taught to use educational literature.

SOCIOLOGY

tions are conducted. Reading and reports form a part of the

The course in sociology is largely a study of social conditions in Southwestern Pennsylvania with reference to their influence upon the work of the school. The peoples, industries, customs and institutions are studied at first hand. Investigative work. The idea kept in mind continually is the relation of the school to society and the effects of social and industrial conditions upon the school.

ETHICS

The course in ethics continues certain features of the course of Sociology since public morality constitutes a part of the work of the class. This forms a basis for practical reading of Civics. Methods of teaching morals in school are considered. The moral relations of public and private conduct are studied.

CHILD STUDY

The purpose of this course is to give prospective teachers a practical knowledge of the physical and mental natures of school children. The study is developed from the evolutionary standpoint, showing that mental and moral characteristics develop gradually and that they can be directed by the teacher. Hereditary influences are investigated. The students work individually on exercises and carry out simple experiments. More complex mental measurements are carried on by the instructors and results explained to the class. In much of the work children are the actual basis of study.

III. ENGLISH

First Year. Elementary English.

- (a) Grammar, Maxwell's School Grammar, Analysis and Synthesis, Punctuation.
- (b) Composition, Principles of Narration; the sentence.
- (c) Reading—Interest chiefly upon plot.
 1. Tales from Shakespeare.
 2. Lady of the Lake.
 3. Tale of Two Cities.
 4. Julius Caesar.
- (d) Selected poems from (1), (2), (4).

Second Year. Composition—Huntington's Elements of Composition.

- (a) The Paragraph.
- (b) Description.
- (c) The Sentence (review).
2. Literature.
 - (a) Golden Treasury—Elizabethan poetry selected ones for memorywork.
 - (b) Milton's Sonnet on his Blindness.
Milton's L'Allegro and Il Penseroso
(stress laid upon description and allusion).
 - (c) Ivanhoe. Scott's description.
 - (d) Types of the Short Story (suggestive of third year work, leading into the essay, collateral reading.
 - (e) Merchant of Venice (Shakespeare) Elizabethan drama. Selected lines to memorize.

Third Year. Text Books—Long's English and American Literature; Twelve Centuries of English Poetry and Prose. New-comer-Andrews. What can Literature Do for Me? Alphonse Smith. Three Centuries of American Poetry and Prose. New-comer-Andrews-Hall.

Fourth Year. One-third of the time is spent in reviewing English Grammar. The terminology of Maxwell's School Grammar is followed in the class room.

The course in methods of teaching English in the grades covers one-third of the school year. This includes the completion of the text by Carpenter, Baker and Scott in connection with supplementary work from Chubb's and Goldwasser's texts on "Methods of Teaching English." Individual assignments from current educational writings are a part of the regular schedule of work. The discussion of plans for the presentation of subjects and the making and the correcting of plans in the class room are emphasized with the aim of developing the ability to select and organize material for grade work.

One-third of the time is devoted to oral and written composition, the basis of which is CURRENT EDUCATIONAL LITERATURE. Errors made in the class room are corrected by the systematic use of the NOTE BOOK which is co-ordinated with the MANUAL by ROYSTER-THOMPSON. This Text also furnishes definite standards by which pupils are taught methods of grading and marking errors in written work.

DEPARTMENT OF EXPRESSION AND ORATORY

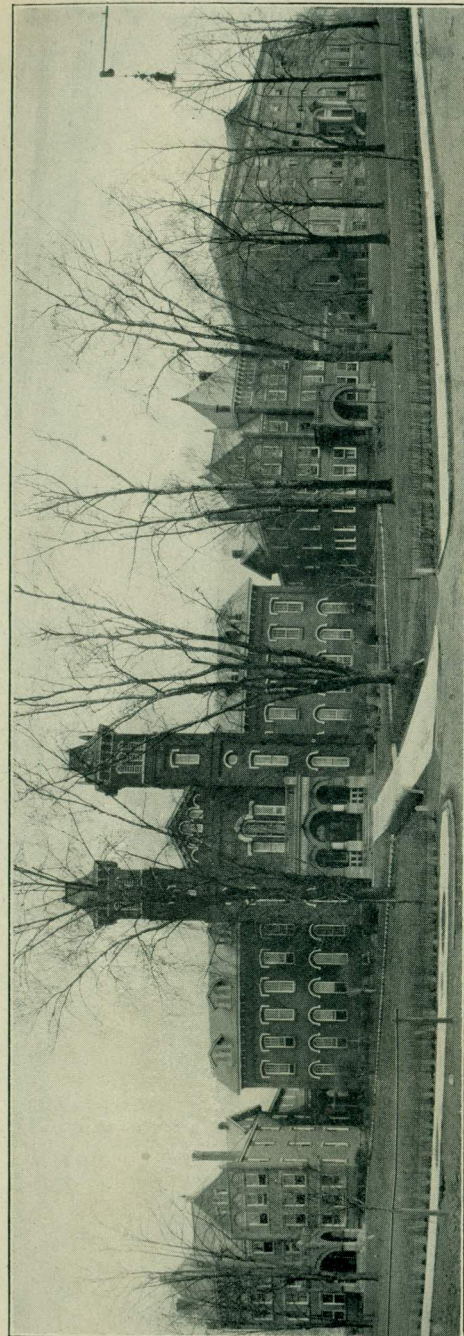

The course of study offered by the Department of Expression and Oratory furnishes a means of education and culture. When taken together with the regular course of the school, it amounts to a liberal education.

Literature is the universal means of expression; the voice its natural instrument. There is no greater factor for the building of character than the reading of good literature, but the results are infinitely greater from the constant effort to interpret the spirit of that literature.

COURSES OF STUDY

First Year. "Spoken English" or "Little Classics," S. S. Curry. Articulation, breathing, voice, placing; Wordsworth, Longfellow; recitations; story telling; debating.

Second Year. "Foundation of Expression" or "Lessons in Vocal Expression," S. S. Curry. Pronouncing, breathing voice placing, gesture, impersonation; stories from Tennyson, Shakespeare; public recitals.

VIEW OF BUILDINGS FROM COLLEGE AVENUE

DRAMATIC ACTIVITY. CASTE IN CINDERELLA

Third Year. "Mind and Voice," S. S. Curry. Philosophy of gesture; conversation; recitations; stories; Whittier, Browning, Longfellow; public recitals.

Fourth Year. "Browning and the Dramatic Monologue," and "The Province of Expression," S. S. Curry. Succession, Opposition, Parallelism; recitals of adaptation of classics or of modern fiction for graduate recital.

IV. HISTORY

First Year. Greek and Roman History. Supplementary reading. Literary reference. Map work. Collateral reading. note book work.

Second Year. English History. College requirements, including a brief history of contemporary European history.

CIVICS

The aim of the work in civics is to fit the student for efficient citizenship. To this end the largest part of our time is put upon the right duties and obligations of citizens, including the students themselves, and these mainly as related to their own community, for the study of government should begin at home. In this work we use as a guide such new books as Dunn's, Nida's and Beard's. The framework of the State government is studied with especial attention to the State administrative department, whose various activities touch life at so many points now that no person ignorant of them can be an intelligent citizen. Finally, the machinery of our national government as planned a century or more ago is taken up, and is followed by a study of the ways in which it actually does its work today—how it serves the people and is controlled by them. By thus beginning at home in the center of the student's experience and leading outwards, he obtains an ever-widening concept of his duties, until he finally sees himself a responsible citizen of the United States.

UNITED STATES HISTORY

The problems in teaching History are: first, what history shall be taught, and second, how shall it be presented?

Under the first head the classes in *Methods of Teaching the History of the United States*, take up the following points:

(a) For primary grades, the selection and use of stories of primitive people, suitable stories from the lives of great men, simple stories of a few groups of early settlers, and the simplest phases of pioneer life in Western Pennsylvania.

(b) For intermediate grades, plans for teaching four large divisions of history material are considered, i. e. (1) the work of explorers; (2) typical settlements throughout the United States; (3) the great roads along which our people have moved westward, and (4) local history.

Under "How to Present History," the following topics are discussed:

When and how to use oral instruction.

How to teach the study of the text book.

How to use collateral reading.

How to make and use maps in history.

The place of biography in teaching history.

The use of literature in history.

The value of pictures, real and imagined.

Handwork—what and how.

The art of questioning.

Reviews and outlines.

Dramatizing history.

The relation between geography and history.

In order to take the above course, it is necessary that a student have a knowledge of American history equal to that contained in a High School text such as Hart's, Muzzey's or McLaughlin's. Such a course is offered here in the first half of the third year; but no student should think of taking it who does

not have a good grasp of elementary history, such as is given in books like Montgomery's *Barnes'* or Kendall and Thwaites.'

V. SCIENCE

Physical Geography. This subject is taught largely from the pedagogical standpoint. The work in the text is supplemented by outdoor observations. Special attention is given to nature-study features and practical science topics of value to the teacher.

Botany. Text used, Coulter's "Plant Life and Plant Uses." The work is conducted along modern lines. Plant analysis and plant mounting is taught merely to give a general acquaintance with the methods of this type of botany.

The following are some of the features receiving special attention:

Principles of plant growth.

Plant relation to animals and their organic importance.

Plants of economic value.

Plants as destructive agents.

Bacteria and their economic relations.

Microscopic study of plant structure.

Zoology. Text used, Davenport's "Elementary Zoology." Special attention is given to the economic features and to the welfare topics that will add to the usefulness of the teacher. One careful dissection is required:

The following topics are emphasized:

Reproduction.

The cycle of life history (including actual observation).

Out-door studies.

The use of the microscope.

Economic values of animal food supply.

Destructive animals.

Animals as related to health and sanitation.

Agriculture. Text used, Cromwell's "Agriculture and Life." Special attention is given to the pedagogical phases of the subject. Much supplementary work is done along practical lines and in the study of government bulletins which are outlined and discussed as class requirements.

The Normal owns and operates a school garden for the benefit of the Model School and teaching training. Each senior has charge of one or more model schools pupils in gardening one of the plots. Prizes are awarded for superior gardens. Some features of the work include:

Corn judging.

Tree and grape pruning.

Orchard spraying.

The Babcock milk test.

Chemistry. To the prospective teacher, (health is of the greatest importance; under ordinary circumstances a sound body means a vigorous mind, industrious habits and a cheerful disposition.) The study of chemistry, more than any other science, will teach the students to appreciate properly their own bodies, and to guard themselves against quack nostrums and questionable remedies of daily life.

Foods, beverages, drugs and medicines are analyzed, and helpful as well as harmful properties determined. The analysis of water and milk; the determination of the amount of alcohol in patent medicines, "soft drinks" and other beverages; the search for coal-tar products; these are a few of the efforts made to provide for the physical well-being of the students through a knowledge of chemical laws; while the removal of stains, the dyeing of cloth, the preparation of essence and extracts and the determination of the nutritive value of foods are planned to correlate with the domestic science department.

In a word, our aim is to create, if necessary, and to foster a real interest in the great science of chemistry; to give a broader outlook on life, and to create a belief that every teacher is a real and vital factory in the busy, living world, and to furnish her with information by which she can keep both body and mind in an alert, healthy condition.

Physics. Although High School students receive credit for their work in Physics, many of them wish to review the subject in the classes with those who have never had an opportunity to take the study. Much time has been devoted to laboratory work.

On account of the large number of girls in Normal School the practical phases of the subject which may be included under the head "Household Physics" has received much emphasis.

The demands of a scientific age make such subjects as Physics and Chemistry more essential than ever before in the equipment of an up-to-date teacher, even for the elementary schools. So many lessons in nature study need a scientific background that there can be no argument as to the value of these studies.

VI. FINE ARTS

1. *Art Interpretation.* Study of composition, means of production through content and feeling, art criticism and appreciation.

2. *Freehand and Perspective Drawing.* Study from models of form, proportion, perspective, values, light and shade, using of pencil, charcoal, ink with brush and chalk. Nature work, memory sketching and rapid blackboard work for schoolroom illustration.

3. *Color Work.* Handling of water colors and colored chalk; study of color values, painting fruit, vegetables, flowers, landscapes; simple illustration.

4. *Designs.* Principles of design, design in outline, two and three tones and colors.

5. *Clay Modeling.* Study of form and construction, relation to other forms of artistic expression.

6. *Elementary Handwork.* Drawing, design, color work studied in relation to actual working out of problems in weaving, cardboard construction and decoration, reed and raffia, clay, book making.

7. *Pedagogical Course.* Value of drawing, painting and modeling in educative power, importance and place in public school course, relation to other subjects; study of guided and unguided artistic expressions of children; study of different theories and methods of teaching.

VII. FRENCH

French 1.—

Grammar. "The New Chardenal," lessons 1 to 35 inc.

Reading: Conversation and composition based upon "Petit Contes de France" by Meras and Roth.

Dramatization of "Le Chevalier de Blanchefleur" by Hutchison.

French 2.—

Grammar. "The New Chardenal," Lessons 1 to 70 inc.

Reading: Conversation and composition based upon "Le Tour de la France" by Bruno.

Dramatization of "Drames et Comedies" by Dupres.

French 3.—

Grammar. "The New Chardenal" completed.

Reading: Conversation and composition based upon "L'Abbe Constantin" by Halevy.

Dramatization of "L' Oiseau Bleu" by Maeterlinck.

VIII. GERMAN

German 2.—

"First Book in German" by Bagster-Collins completed.

Reading: Conservation and composition based upon Storm's "Immensee" and Wildenbruch's "Das Edle Blut."

German 3.—

"First Book in German" by Bagster-Collins.

Reading: Conversation and composition based upon Schiller's "Wilhelm Tell," and Fulda's "Der Talisman."

Hauptman's "The Weaver's and Sudermann's "The Vale of Content" read in English.

IX. MATHEMATICS

Algebra I is offered to those who have not had this subject before entering the Normal. The course covers the usual topics of Elementary Algebra up to quadratics.

Algebra II is required in the First Year for those who have had before entrance the equivalent of Algebra I. This course consists of a review of the topics of the preceding course followed by a more thorough study of the remaining topics through simultaneous quadratics and the theory of exponents.

Algebra II is required of those who take Algebra I during their first year or who have not had the equivalent of Algebra II before entrance.

Plane Geometry. The usual theorems found in any standard text are studied, together with a few originals and as many problems as time will permit.

The course in Solid Geometry is elective, and may be taken in either the third or fourth year of the Course. It includes the usual theorems together with a few originals and as many problems as time will permit.

The course in *Solid Geometry* is elective, and may be taken

in either the third or fourth year of the Course. It includes the usual theorems of any good text, supplemented by many practical problems in mensuration of solids, with particular emphasis upon the development of the formulas used.

Trigonometry follows the preceding course and may be elected by any one who has had Solid Geometry either here or elsewhere. Emphasis is placed in this subject upon the solution of right and oblique triangles, and of problems from various sources which involve the solution of triangles.

In the Senior Year, one-half year is devoted to a practical review of *Arithmetic* with special emphasis upon the Methods of Teaching the subject. A special text, Klapper's "Methods of Teaching Arithmetic" has been used to good advantage. The course of study in the grades and the subject matter for problems in industrial and commercial life have been discussed. The aim of the course is to strengthen the weak places in the student's preliminary education and to give a broad outlook upon the demands of the subjects in the common schools.

X. VOCAL MUSIC

Students who expect to complete the course in Voice must arrange their work for the following studies. The work, however, will be flexible to a certain extent to suit the individual needs of the pupil:

Voice development and song.....	120 hours, 1 per week.
Piano.....	120 hours, 1 per week
Ear, training, sight reading, music history..	80 hours, 1 per week
Harmony.....	40 hours, 1 per week
English.....	160 hours, 4 per week
French or German	160 hours, 4 per week
Model School Teaching.....	60 hours, 4 per week

The Vocal Music Department is second to none in the State. The simplicity of voice development is constantly imparted to the pupil, that each one may learn to work for himself. Special care is given to breathing and freedom of the organs used in singing.

Very choice song material is used, which is endorsed by the best singers and teachers. Pupils are urged to sing some of the Italian, French, and German songs in their original language. Concert, oratorio, and opera songs are given to those most capable.

Vocal exercises are given to develop agility and fluency, and the usual drudgery in this line is avoided. The same time used for a vocal exercise can be better spent upon a suitable song which will be of some use in the future. The equipment of practice rooms, the variety of subjects taught, the assistance of a song coach, and the many opportunities for public appearances both in school and neighboring towns, make this a school of music well worth considering.

Song recitals are frequently given and seniors must give a special recital before receiving a diploma.

PUBLIC SCHOOL MUSIC COURSE

A course is offered for those who wish to qualify to teach music in the public schools. There is a demand for these graduates.

Voice development.....	80 hours, 1 per week
Piano.....	80 hours, 1 per week
Harmony.....	60 hours, 1 per week
Ear training, sight reading, history of music.....	80 hours, 1 per week
Model School teaching and observation...	120 hours, 4 per week
School Management.....	160 hours, 4 per week
Chorus Directing.....	

The school and town choruses combined have presented such work as "The Rose Maiden," "Joan of Arc," "Messiah," "The Creation," and "Pinafore."

XI. PIANO DEPARTMENT

Beginners and those not far advanced are especially welcome, as they possess few or none of the bad habits of performance which are so easily formed by wrong teaching or careless

practice, and which prove in many cases almost insurmountable obstacles to high cultivation; they, therefore, receive more rapidly the correct fundamental principles, and, can, as a rule, make steady and rapid progress uninterrupted by the tedious progress of unlearning bad habits.

Candidates for graduation will be required to satisfy a Board of Examiners in the following tests:

(a) Major and harmonic minor scales, the hands commencing a third, sixth, eighth, or tenth apart; and chromatic scales commencing a major or minor, major or minor sixth, or minor tenth apart; all in similar and contrary motion. Melodic minor scales will be required in similar motion only, an eighth apart.

(b) Major and chromatic scales in double thirds in similar motion only.

(c) Major, harmonic and melodic minor, and chromatic scales in double eighths in similar motion, the hands commencing an eighth apart. Scales in double eighths in contrary motion in major keys only, both hands commencing on the key note.

(d) Arpeggios of major and minor common chords and their inversions, and dominant seventh of their inversions, in similar and contrary motion, the two hands to play the same position of the chord.

All the scales and arpeggios, as above stated, to be played with legato and staccato touch—four octaves in similar motion and two octaves in contrary motion, except scales in double eighths, which are to be played in three octaves in similar motion and two octaves in contrary motion. The staccato touch to comprise both fingers and hand staccato (except scales in double thirds and double octaves, which will be required with hand staccato only). The scales are to begin on the highest or lowest note, at the discretion of the teacher.

Candidates for graduation must be prepared to play before the Examiners the following compositions: One piece from

list A, one piece from list B, and four pieces from list C. The compositions in lists A and C must be played from memory. Equivalent for list C will be accepted, at the discretion of the Director.

LIST A

One prelude and fugue from Bach's Well tempered Clavichord.

List B

One Complete Sonata by.....*Beethoven*

LIST C

Minuetta Humoresque*Grieg*
 Norwegian Bridal Procession*Grieg*
 Wedding Day Op. 65 No. 6.....*Grieg*
 Fugue in g minor..... *Rheinberger*
 La Gondola Op. 13 No. 2.....*Henselt*
 Maiden's Wish.....*Chopin-Liszt*
 Love Dream No. 3.....*Liszt*
 The Maid of Ganges.....*Mendelssohn-Liszt*
 Faust Waltz.....*Liszt*
 My Sweet Repose.....*Schubert-Liszt*
 Moments Musical Op. 94.....*Schubert*

HARMONY

The work in harmony is conducted with this object constantly in view; to develop in the student the capacity to think music, that is, to understand and recognize melody, harmony and rhythm as conscious and definite elements of his thought. To attain this object, melody is taken as the starting point, and the student is taught in progressive order to create his own melodies, to develop through the medium of melody, a definite feeling for the characteristic quality of each harmony, and to employ correctly all the harmonies (in the various chord formation) in the harmonization of melodies, both original and given. The conscious musical fact is emphasized in each step more than the written symbol. Hence, instead of learning first the formal and dry rules for writing and then writing merely by rule, the student

is, from the beginning, made acquainted with music as a real and thinkable something, the necessity for certain rules thus becoming logically apparent.

This process of making music an audible fact in the student's thought, rather than a merely visual fact on paper—of hearing music before writing it—is carried on through every step in harmony, counterpoint and composition. Candidates for graduation must have had not less than one year of harmony.

HISTORY OF MUSIC

This course is required of all candidates for the diploma from the Department of Music. It consists of thirty lectures on the general development of music. Practical illustrations of the lectures are given in the class-room by the Victrola or actual performance by members of the faculty. Candidates, in addition to this, must present a copy in ink of one piece by each of the great masters. These copies must include all, signs of legato staccato, slurs, pedal marks, and words indicating tempo or delivery. The student must be able to explain to the Board of Examiners all such marks found in these compositions.

SCIENCE OF MUSIC

This course includes the study of Harmony, Counterpoint, Fugue, History of Music, Musical Form, Orchestration and Composition. Candidates for graduation must have had at least two years of piano.

XII. TRAINING DEPARTMENT

The Model School is the center of activity throughout the Senior Year. This is a work shop where theory is translated into practice. Seventy of the Seniors teach during each half of the year. Many of them teach two or three periods per day; some teach one and observe one. Every apprentice teacher has an opportunity to gain first-hand knowledge of child life. 160 children have taken advantage of the opportunities offered in this school. Our Training School has received the patronage of pupils from Pittsburgh and Brownsville as well as from the immediate vi-

city of the Normal School. A special feature of the work this year has been the weekly sales of Thrift Stamps." This has given valuable training in Arithmetic and business as well as in economy.

The work of observation in the third year class has been carried on in four groups. Each group observes a lesson taught by one of the regular teachers, after which a report of the lesson is carefully prepared, and given to the critic teacher. A week later the same group returns to that teacher for a period of consultation and discussion concerning these reports. When these students become seniors they will have a thorough understanding of what is expected in the Training School, and how the regular teachers obtain the results which they desire. The curriculum followed in the Model School is closely patterned after the State Course of Study published by the Department of Public Instruction.

Teachers and directors from this district are invited to inspect the various departments of this school. Its aim is to render the greatest amount of service possible, not only to the students in the school, but to teachers in the district.

A new feature in the Training School has been the lessons taught before the third year class by heads of departments in the Normal School. These lessons have formed a connecting link between the Methods work of the Normal School and the practical Training of the Model School. No school exercise has been more valuable to these prospective teachers than the Wednesday afternoon Observation and Consultation periods.

When the Superintendents and Principals visited the Normal in February, a splendid exhibit of school work of every variety was the center of their interest.

KINDERGARTEN

The four years works in the Kindergarten has further demonstrated the value of such work in the Normal School. The kind of training that it offers to the students desiring that work is of a high order. An average of 40 girls has been enrolled in

the Kindergarten. A number of girls who are anxious to make this sort of work a life work, have an opportunity to take their training in this department. Besides being a feeder for our Training School, the Kindergarten will turn out a very creditable product for Kindergarten work in public schools of the State. Children are admitted between the ages of 4 and 6 on condition that they continue to attend the Training School when they are old enough.

The work consists of plays, games songs and stories, dramatization and work including paper cutting and folding, clay modeling, and many other forms. Visitors are always much interested in this line of work. Prospective students who desire training work in this branch of the Model School should correspond with the Principal relative to the matter.

XIII. DOMESTIC SCIENCE

The department of Domestic Science was opened on the second floor of Science Hall in the fall of 1913. Three rooms are devoted to this work. The sewing room contains two sewing machines, a cutting table, ironing board and tables for individual work for 24 girls. The kitchen consists of 24 fully equipped outfits, with one regular range. In the dining room meals are actually served, and the students come in contact with this phase of the work. In no department of the school has the work been more practical, and the students have been enthusiastic in their praise of this sort of instruction. The department is well located and well equipped. Children in the Training School from the third grade up have had work in both cooking and sewing.

A feature of the year's work has been the providing of cookies, doughnuts, cocoa, etc., for some social occasions in the Training School like Hallowe'en, Thanksgiving and Christmas.

In order to facilitate the work in the senior year, a text book has been introduced which gives many valuable suggestions to the girls and avoids a large amount of dictation that would otherwise be necessary. The seniors of the class of 1919 have now completed all that is offered in the four-year Normal Course

and from this time on all students who graduate will have all of the work. It is hoped that an additional feature may be conducted in the near future which will consist of the proper care of a bedroom including the making of beds.

An annual even of this department which is looked forward to with great interest by the members of the senior class is a dinner to the Board of Trustees at their June meeting, also when the State Board of Examiners come the girls keep open house in order to show these men what they have accomplished during the year.

In order to meet the expense of material, both cooking and sewing, students are charged a fee of \$2.00 per term.

XIV. MANUAL TRAINING

The large basement room under the dining room in Dixon Hall has been equipped for the use of students in Manual Training. A splendid course in Mechanical Drawing and woodwork is given. The equipment of individual benches, fully supplied with tools, and three power machines, including band-saws, lathe and combination grindstone. The equipment in this department cost about \$1,000. Children in the Training School have been making good use of the shop since it was opened. The boys thoroughly enjoy this new method of expression.

During the past year many useful articles have been made by the boys in the Training School for use in the school and in the home. The largest project undertaken has been the making of three desks for the critic teachers in the training school. The material was furnished by the school, and the boys of the first year have done the work. The finished product can be seen in the Training School today.

Normal students taking the course in Manual Training will be charged a fee of \$1.00 per term, to cover the cost of the material. Where students desire to make any large piece in wood, the actual cost of the material involved must be met in addition to this fee, if the piece is to become personal property.

XV. PENMANSHIP

Penmanship is the most difficult and skillful art that the public in general is expected to acquire. It is not an inherited but an acquired art; an art worth attaining by every man and woman, and certainly by teachers—for they have no moral right to place poor forms before the pupils of an impressionable age.

Our instruction is based upon the Zaner Method of arm movement. The forms are a medium between the Spencerian of the Nineteenth Century and the Vertical of the Nineties.

The work in Penmanship is designed to give the students a mastery of arm movement and considered and considerable proficiency in legible, rapid and accurate writing both on the paper and at the blackboard and to equip them with a working knowledge of the fundamental principles in teaching form and movement in the primary, intermediate and grammar grades.

Every one who is endowed with good health and a generous supply of determination can learn to write well.

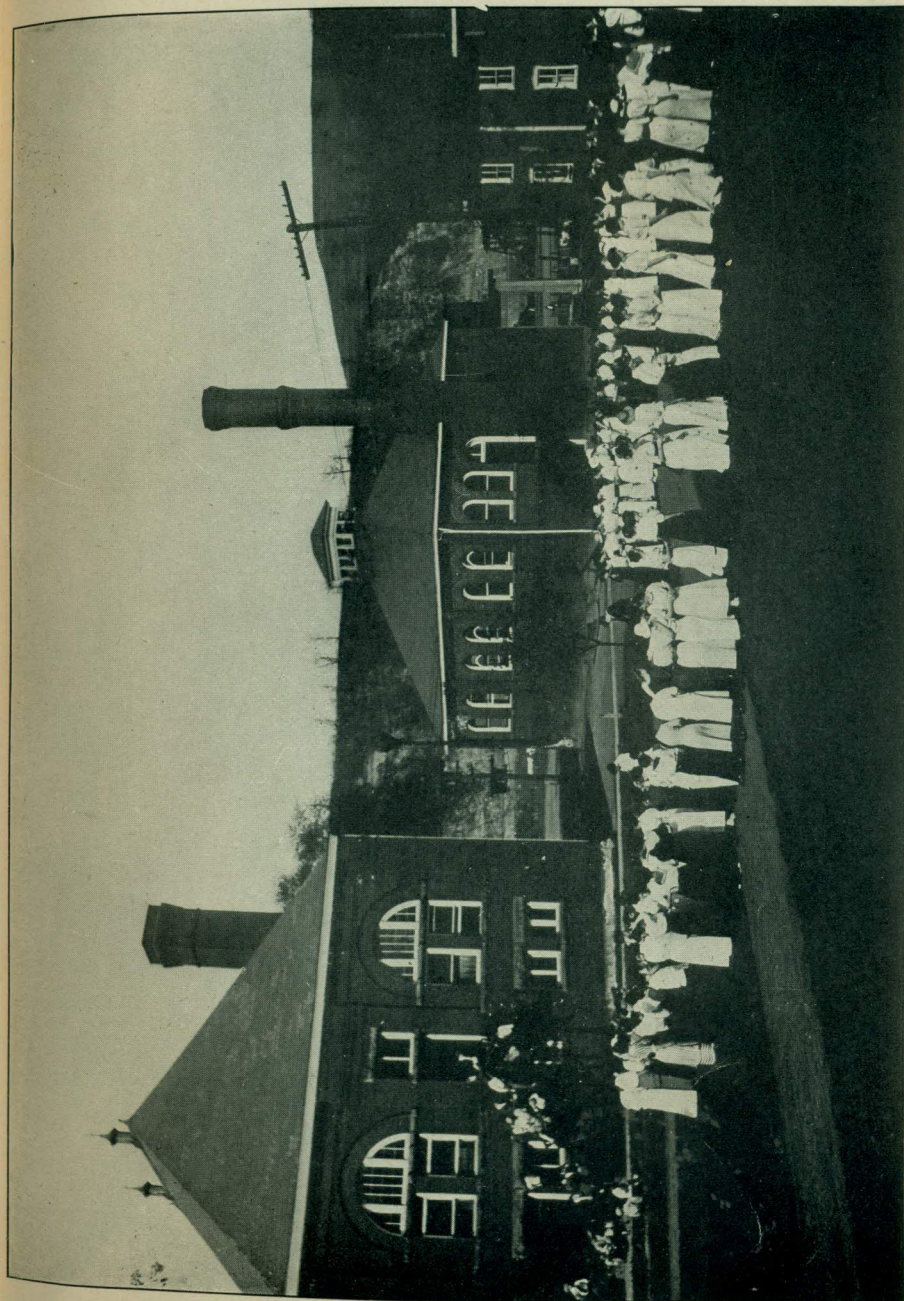

SUMMER SCHOOL

Beginning on July 7th 1919, the fourth Summer School under the auspices of the Normal School will be conducted.

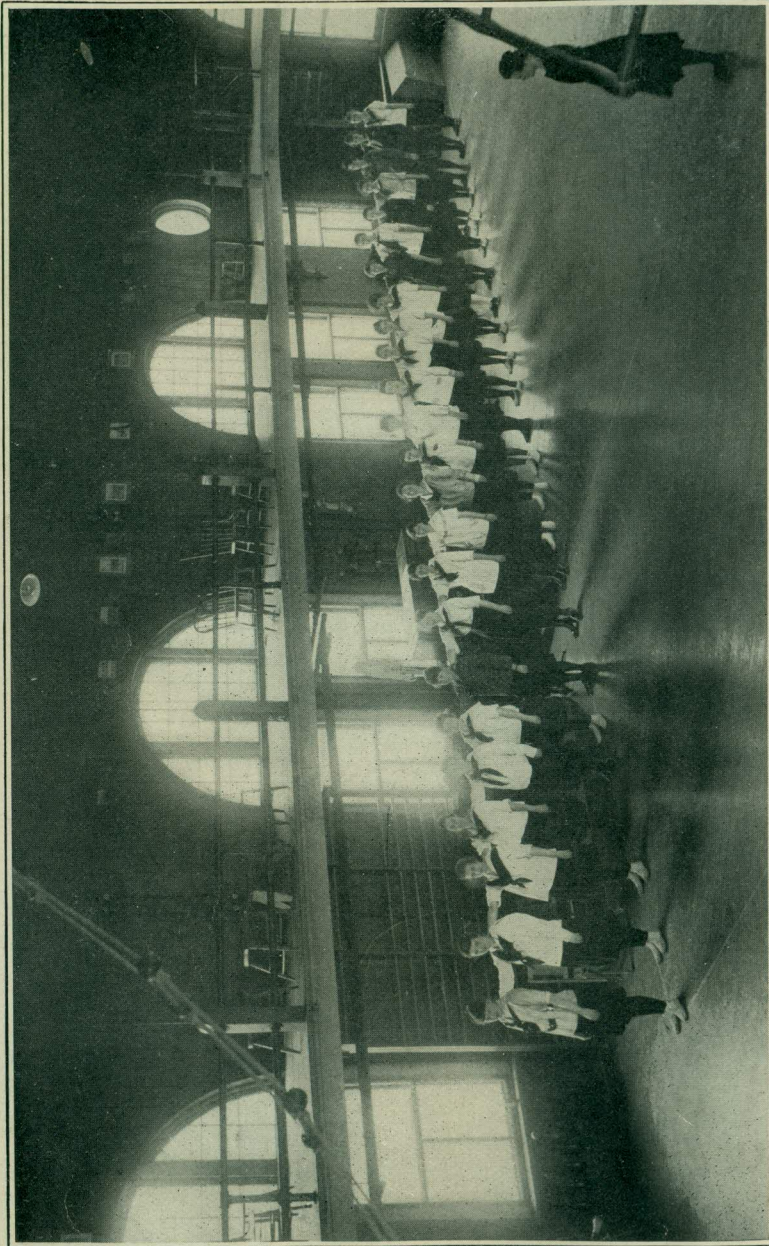

If local Supervisors, Superintendents and School Boards co-operate properly, there is no reason why the Summer School shouldn't be a permanent feature of the Institution.

Many of the teachers in service should avail themselves of the opportunity to get credit toward the new Four Year Diploma, or additional work for the high grade certificates which are now awarded under the conditions of the new School Code. There is no reason why these great State owned Institutions should lie idle for ten weeks every summer. Their extensive Libraries, Laboratories and equipment can be put to good use in this manner.

The Boarding Department of the Institution will be opened at the regular rate of \$5.50 per week. An enrollment fee of \$5

TREE DAY

INTERIOR OF GYMNASIUM

will be charged, provided the State gives free tuition. Otherwise the tuition will be \$10 for two studies, \$12 for three, and \$15 for four.

A sufficient number of the faculty of the regular school year will form the faculty for the Summer Term. Vice-Principal Frank Field, who is at the head of the Department of Education, will act as Dean of the Summer School this year.

ADMISSION

GENERAL CONDITIONS

Applicants for admission should present their credentials from other institutions which they have attended. Blanks may be obtained from the Principal's office. All work that is satisfactorily completed in approved High Schools is credited on the Normal Course. Subjects that have been passed with high grades in teachers' examinations given by County Superintendents will also be credited when the certificate is presented.

PURPOSE

The function of this Normal School is to prepare and qualify teachers for service in the public schools of Pennsylvania. Two distinctive lines of work are carried on—the academic and the professional. The academic courses are intended to broaden the horizon of the individual and arouse his scholastic enthusiasm and secure the highest grade of mental training and alertness. The professional attitude, however, predominate in every department of the school, even the special courses in music, both vocal and instrumental, in elocution, and in the commercial subjects, look toward the teaching profession. The more recent subjects including Agriculture, Domestic Science, Manual Training, Mechanical Drawing, and the work in the Kindergarten all are conducted with reference to their influence upon the prospective teacher, and to increase his efficiency in the community which he may serve.

FITNESS FOR THE WORK

Good health is a prime prerequisite to entrance upon a Nor-

mal School course of study. While the work is not too exhaustive for a person in good health, yet those who are lacking in physical vigor will find it to their profit to delay entrance until they have fully recovered from all physical weakness.

The qualification of mental aptitude is as fully an essential characteristic as mere physical health. It is always to be recognized that the finest scholar does not necessarily make the most successful teacher; but, on the other hand, the Normal School does not pretend to form capable teachers of those who are lacking either in learning or the skill to instruct and manage the ordinary pupil of the elementary school.

Further, the board of instruction does not assume to itself infallibility of judgment as to the fitness in individual cases. It merely intends to look for the essential characters of alertness, integrity, love of work, enthusiasm, inspiration, energy that never wearies, and a proper conception on the part of the teacher of the relation of the school to the individual and the community.

DISCIPLINE

The aim of the administration is to lead students to be self-governing. The relation which a Normal School sustains to the State, and the guarantee of self-control which it must vouch for in regard to its students, compel a much more rigid and careful daily oversight of the habits of students than would be either necessary or advisable in institutions of different character.

This school can in no measure take over the function of a reform school. Its one disciplinary function is to offer the opportunity for young men and women of well defined purpose and age to cultivate under the most favorable circumstances, habits of good order, self-respect, and leadership. Individuals who cannot adapt themselves to such an atmosphere will find it necessary to seek other schools for their education. Fitness for the profession of teaching is the one end to be sought, and any person who cannot comprehend such an ideal is a misfit.

VISITORS

Visitors at the Normal expecting to remain over night

should make arrangements at the Registrar's office or with some of the school officials for a room, and the small charge of 25c will be made for such privilege. If the offices are closed, temporary arrangements can be made with floor teachers.

Visitor's tickets in the Dining Room may be obtained at 25c each.

EXCUSES

No excuse will be granted for absence from the dormitories in cases where regular work is interfered with, unless accompanied by a written request from parents or guardians.

Attendance at church on Sunday morning and at Vespers on Sunday evening is required. Also attendance at Chapel during the week and membership in the Literary Society. No excuse will be accepted for Literary performance. Occasionally performances are postponed.

Many students seriously handicap their work by too many visits at home. When a visit home makes it necessary to lose all or part of a day's work, and a large part of Monday morning's, with probably poor preparation for all of Monday's work, excuses will not be granted unless a written request from a parent or guardian is presented. Frequent visits are entirely too expensive in many respects. Parents should consider these matters in granting excuses.

ABSENCE FROM RECITATION

1. No excuses for absence from recitation, for any reason whatever, will be accepted.
2. Absences during the first week of any term will be graded zero.
3. Absences subsequent to the first week of the term in excess of the number hereafter mentioned will be graded zero.
4. The number of absences not affecting grades will be as follows:

In subjects reciting four or five time a week, for a term or for a year, *three* absences a term.

In semester subjects reciting four or five times a week, *four* absences for the semester.

In all other subjects, *five per cent* of the recitations.

5. Students having a smaller number of absences than that mentioned above, may have credits canceling an equal number of poor daily recitations.

PHYSICAL CULTURE AND ATHLETICS

The Normal Gymnasium is a large, well lighted and ventilated building, fully equipped with apparatus, such as vaulting horse, parallel bars, horizontal bar, climbing ladders, traveling and flying rings, hand ball, board window screened for basket ball indoor baseball, etc., a large number of tumbling mats, chest weight machines of all kinds, spring boards, vaulting standards and poles, punching bag, etc.

An annual event of great interest is a gymnasium exhibition in which the students of the Normal Department give a program of marching, dancing, club swinging, apparatus work, boxing, plays and games. In the year 1915-16 the students organized an Athletic Association, electing students among themselves for the various teams, and awarding sweaters to the students who fulfilled necessary conditions in making the athletic teams. In order to represent the Institution on an Athletic Team, a candidate must carry at least 20 hours work per week and for the week prior to the game must have made an average of C in three-fourths of his subjects.

A strong athletic organization in the school is the Tennis Association, whose representatives won the championship on the Normal courts from Indiana and Clarion at the meeting in 1915 and on the Clarion courts in 1916 and at Indiana in 1917. The Normal possesses five courts and it is difficult to accommodate all the students who are eager to play. It is one of the best games for physical development. The interest in the tournament was very great.

The Athletic Field is one of the finest grounds in this part of the State for baseball, football and track athletics.

The aim of the athletic work is to give every student the chance of not only keeping in good physical health, but of building up the body by systematic training, and of overcoming the defects brought about by careless habits of position and movement; also in the vigorous games of baseball, football, etc., to develop courage, determination, self-control, aggressiveness, self-reliance, obedience, quickness of decision, united action as well as agility, strength and endurance, qualities all of which are so essential to a team member and to a large extent throughout life.

PHYSICAL FOR WOMEN

In the physical training for young women of the school, health and grace are considered the goal, in reaching with which a multitude of other desirable qualities are encouraged. The course is about equally divided between educational recreative work. In good weather out-door games occupy the time while during the winter months Swedish gymnastic work in hand apparatus—for instance, clubs and wands—and games, form each day's program.

This work forms a part of the regular course, and a physician's certificate is required from any student unable to enroll in a gymnasium class. New pupils are requested to wait until arriving at the school before providing themselves with suits, as uniform suits are required and they are supplied at reasonable prices at the school.

INFIRMARY

In the Fall of 1914 a new infirmary was planned and equipped on the second floor of one of the dwellings owned by the school, on the rear of the campus. Three good bedrooms, a bathroom and a kitchen were fully equipped. From these rooms there are two separate stairways, so that it would be possible to have five or six patients there at one time in care of the nurse, and the rooms being absolutely separate, it would be possible for both boys and girls to be treated at any time, and in case of a contagious disease breaking out, the patient is removed at once to the infirmary.

TRAVELING STUDENTS

So many students have been traveling on the trains that the Board of Trustees, at the suggestion of the Principal, decided to provide better accommodations for this group. To this end a lunch room in the basement of the North Hall has been opened, where students may obtain, at the noon hour, at a very small cost, some well prepared food. Soups, beans, sandwiches, pies, coffee, cocoa, are among the things served. Lunch tickets amounting to \$1.00 are on sale in the Registrar's office. The amount purchased is punched out of this ticket at the lunch counter. Students wait on themselves to some extent, and return the empty dishes to the counter. No move in recent years has been more popular nor more needed. The school furnishes table linen, and chairs for the students are placed in the dining room, a good strong spigot supplying spring water for drinking purposes, and in the outer room is provided wash bowls, hot and cold water, liquid soap equipment, plate glass mirror, paper towels, shoe brushes for the convenience of these day students. There are days in the week when more than 160 persons patronize these new facilities. Students need not purchase anything; but most of them do. Thus far no higher charge for any article than 5 cents have been made.

In this same basement three ironing boards have been arranged for the use of boarding students, with a three burner hot plate and a set of irons. Friday evening from three to five, and Saturday morning from eight to ten, the girls may use these facilities for pressing their clothes. At one o'clock Saturday afternoon the young men may use the same facilities. All of this activity is under careful supervision.

LIBRARY COURSE

1. The purpose of the Library course is to create a "Library spirit" and to develop a love of literature, as well as to teach the use of the library. The first three years of the course embrace the following work:

(a) Use of the catalogue, Reader's Guide, and other indexes, including bibliography.

(b) Reference books and how to use them as tools in the preparation of lessons.

(c) Diacritical marking.

(d) Our periodical literature.

(e) How to review and outline biography, drama, essays, and fiction.

(f) How to select subject matter for debates.

(g) Study of classified list of authors and their works.

2. The Senior, or fourth year, is given over to such advanced work as will aid the students in their own school library work, as outlined below.

This work is designed to prepare teachers, especially for grade and rural schools, for the selection, use and care of a school library.

(a) Preparation and selection of stories are given in the course of study for the elementary schools of Pennsylvania.

(b) Selecting reading, and purchasing of children's books.

(c) Mending of books, purchase and mounting of pictures.

(d) Work of State Library Commission.

(e) Cataloging of small library.

LITERARY SOCIETIES

Literary work has been fostered and aided by the strong literary societies called the Clionian and Philomathean. Considerable rivalry exists between these two societies, and they have vied with each other in preparing splendid programs throughout the past year. They promote sociability as well as literary effort. Much of the success of California Normal graduates is due to the training in these societies. The annual contest between these two societies is by far the most interesting event of the year. Each society has prepared a special number of the Normal Review during the current year. Each has supervised a

social given to the rest of the school. All of these activities have been conducted in splendid fashion and the society spirit forecasts excellent work in the future.

At the beginning of the year the two Junior Societies were joined into one organization meeting in the two Society Halls on alternate Wednesday afternoons. Splendid work has been done in this Society for the younger students.

It was thought best not to have any contest until war conditions have past. Society work is required for graduation.

RELIGIOUS LIFE AT THE NORMAL

Strangers who come to this Institution for the first time are impressed by the unusual religious atmosphere which they find. The active Christian work of the students and the faculty is an inspiration to every new student. The Y. M. C. A. and the Y. W. C. A. send delegates each year to Summer Conferences. These young people become leaders in promoting a healthy moral atmosphere. The authorities of the school avoid everything of a sectarian nature, but endeavor in every proper way to interest students in Christian work. Sunday evening vesper services have been notable in interest and power. Devotional exercises are conducted each morning in the chapel.

SOCIAL LIFE

Several receptions are held during the school year in order that students may learn the usages of good society. After Literary Society on Friday evenings a brief social is held in Main Hall. Teachers and students associate freely and their relations are most homelike and natural.

LECTURES AND ENTERTAINMENTS

During the last year the course of lectures maintained by the school has been unusually strong. Not a weak number has appeared. It is believed that these entertainments and lectures add very much to the school life and that they aid in giving that culture and training that are so desirable in the experience of a prospective teacher.

The following numbers have appeared during the last year:

Glenn Frank, Lecturer.

Gordon Ross, War Lecture.

Burnell Ford, Magician.

Margaret Stahl, Reader, "The Bachelor's Romance."

Welch Glee Quartet.

Mather Hilburn, Impersonator.

Judge Woodruff, Philadelphia, Pa.

E. E. Bach, Americanization Work in Pennsylvania.

Rev. George Darsie.

A Pathoscope machine has been added to the Normal School equipment. It has enabled the school to give occasional "Movies" on Saturday evening that have proved to be both amusing and educational.

HOUSEHOLD DEPARTMENT

The buildings are heated by steam and lighted by electricity. Reception rooms and parlors are conveniently located, thus foregoing the necessity of visitors in the dormitories. Modern fire escapes, electric alarm bells, fire hose connected with pumps and reservoir, and night watchman give special protection against fire.

Many improvements have been made in the last year in the students' rooms. They are heated, lighted, carpeted, many of them newly papered, provided with dressing case, table, bed, washstand and wardrobe. The nurse inspects students' rooms and grades them upon their condition, and any injury or damage will be charged to the occupants.

North Parlor was entirely refurnished last summer. The Main Hall was much improved by the laying of a tile floor in the school colors. The dining-room, one of the finest in the country is spacious, well ventilated, lighted by electricity and unusually pleasant. Excellent table board has been furnished.

Two students usually occupy each room, although a few single rooms have been provided. During the year a splendid infirmary has been provided. It consists of three complete and separate bedrooms, with a kitchen and bathroom. These rooms are so arranged that both male and female patients could be taken care of at the same time. These rooms are approached by stairways from the outside, and are so isolated from the rest of the school buildings that there is no danger of it being a source of contagion. The work of the nurse tends to prevent illness and the chances of carrying it. When students are ill, a slight charge is made for trays sent to the rooms. The health of the school has been remarkable during the last year. The nurse has charge of the relief keys and a small charge is made for their use in order to discourage carelessness.

The Boys' Parlor has been tastefully decorated and much genuine pleasure has been gained by the use of a pool table installed during the last year.

Young men are given the privilege of attending picture shows in town one evening per week.

EXPENSES

	Fall Term 15 weeks	Winter Term 12 weeks	Spring Term 13 weeks	Entire Year 40 weeks	Less than a Term per week
Boarding, including furnished room, steam heat, electric light and laundry	\$82.50	\$66.00	\$71.50	\$220.00	\$5.75
Tuition, Normal Department.....	22.50	18.00	19.50	60.00	1.50

Name in full

Home Address

How many years have you attended High School?

Did you graduate?

What Teacher's Certificate do you hold?

How many years have you taught,

Your age

The church you prefer to attend?

When do you expect to enter?

Do you want a room reserved in the Dormitory?

Fall Term begins Monday, September 8, 1919.

Winter Term begins Monday, January 5, 1920.

Spring Term begins Monday, March 29, 1920.

Summer Term begins Monday, June 28, 1920.

Except in case of a deficit in the State Aid Appropriation the State pays the tuition of all students who are over 17 years of age and who declare their intention to teach at least two terms in the common schools of the State.

In case of a deficit in the State Aid Appropriation, students at the different State Normal Schools will receive the same pro rata share of the appropriation. No deficit has occurred in recent years.

Graduates making application for a second, or permanent diploma, should send a new health certificate with one dollar as a fee for engrossing and mailing the diploma.

DEDUCTIONS

No deduction will be made for the last two weeks of a term, or for the last three weeks of the spring term. Table board will be deducted for absence for three consecutive weeks, or longer, on account of personal sickness.

PAYMENTS

The expenses for each term are payable at the opening of the term. Payment for part of the term will be accepted in special cases in order to accommodate patrons.

Bills may be paid in cash, check, or post office money order. Checks should be made payable to the order of "S. W. State Normal School."

Board at above rates includes fully furnished rooms, steam heat, electric light and ordinary washing. Students furnish their own napkins and towels. An extra charge of \$1.00 per term will be made for material used in the chemical laboratory.

There is no extra charge for vocal music taken in the regular course.

The Alumni List

Because of the large body of Alumni and because of the fact that many of the addresses are incorrect and catalogs do not reach them, entailing an unnecessary large expense upon the school, catalogs will be sent only to graduates of the last five years; but catalogs will be sent to all Alumni, or to any persons who write to the school for the same.

All items intended for this register may be sent to the Principal of the School.

Members of the Alumni are earnestly requested to notify the Principal of any error in name, address or occupation, as given in the register, of changes of address or occupation, and of deaths among the Alumni that the same may appear correctly in the next register.

Notice of marriage of the ladies of the Alumni is also desired, with the full name of the husband.

The officers of the association are continued until their successors are elected.

OFFICERS FOR 1916-1919

President—J. Albert Reed, '08

Secretary—Etta Lilley, '91—Ella Pollock, '02

Treasurer—Dr. J. B. Smith, '76

1875—2

Axtell, Thomas L. Died September 26, 1904.
Hemphill, George E., Douglas, Ariz.

1876—6

Ammon, Sue—Mrs. L. B. Anderson, Monongahela, Pa.
Beal, Levi C. Died October 29, 1902.
Cope, Albert B. Died about 1909.
Peck, Charles B., 856 Pacific Ave., Glendale, Cal. Mechanical Engineer.
Smith, James Boydon, California, Pa. Registrar S. W. S. N. S.
Stoody, William M. Died March 29, 1884.

1877—9

Crookham, Mary P.—Mrs. W. J. Conklyn, Osceola, Nebr.
Fry, W. S., McKeesport, Pa.
Frye, Frank, Belle Vernon, Pa. Hardware Dealer.
Jackman, W. S. Died January 28, 1907.
Kiehl, H. S. Third Ave., Pittsburgh, Pa. Supt. Mon. Con. R. R. Co.
McCollum, John B. Died about 1888.
Newkirk, Donetta—Mrs. W. H. Winfield, California, Pa.
Newlin, Rev. A. W. Died August 15, 1895.
VanDyke, John W., California, Pa.

1878—22

Craig, Belle—Mrs. Richard Park, Donora, Pa.
Douglas, J. H., Eldred, Pa. Physician.
Eberman, John S., 210 Times Bldg., Pittsburgh, Pa. Broker.
Esler, James M., Tarentum, Pa. Postmaster.
Griffith, Henry W., Cerubusco, Ind. Farmer.
Hagerty, Linda—Mrs. James Craig, 542 E. 8th St., Tarentum, Pa.
Kell, Nathan B., Connellesville, Pa.
Lange, Clara S. Died 1904.
Larimer, Marie L. Died April 28, 1905.
Lutz, George D., Jeannette, Pa. Real Estate and Insurance.
Martin, Andrew E., Greensburg, Pa. Druggist.
McKee, Daniel H., Wilkinsburg, Pa. Pastor Presbyterian Church.
Mitchell, Walter, Bentleyville, Pa. Farmer.
Patton, Etta—Mrs. D. C. Murphy, Slippery Rock, Pa.
Patton, Noah W. Died 1915.
Phillips, H. Lenore—Mrs. Rev. J. L. McCutcheon, Franklin, Va.
Reis, Ella A.—Mrs. W. S. Jackson, 3720 Kimbark Ave., Chicago, Ill.
VanDyke, George M. Died December 14, 1902.
VanDyke, W. S., 5621 Staunton Ave., Pittsburgh, Pa. Real Estate & Trust Co.
Wakefield, Thomas B. Died 1909.
Wells, J. Truman. Died December, 1896.
Wilson, Mary F.—Mrs. Joseph W. Smith, San Luis Obispo, Cal.

1879—30

Browne, Millie S., 155 Lincoln Ave., New Castle, Pa.
Brown, Rebekah B., Washington, Pa. Teacher in Seminary.
Camp, Rev. Harry W. Died October 23, 1894.
Craft, B. W. Deceased.
Crawford, Tillie, Duquesne, Pa.
Dearth, Orlando P., Washington, Pa. Physician.
Dunn, William C., Bloomfield, Colo. Stock Raiser.
Grant, R. Q., Phoenix, Ariz. U. S. Weather Bureau.
Hackney, H. H., Atchison, Kan. Cashier First National Bank.
Hall, Frank R. Died 1911.
Holland, H. R., Long Beach, Cal. Retired.
Horner, George O., East Millsboro, Pa. Farmer.
Longwell, H. E., Pittsburgh, Pa. Westinghouse Machine Co.
McClure, Sallie A.—Mrs. H. S. Clark. Died December 10, 1902.
Mackey, John F., 13 Rue Spontini, Paris, France.
McDonough, Dora—Mrs. Edward Clark. Died 1899.
Mehaffey, Annie N.—Mrs. M. C. Horton, Poplar Bluff, Mo.
Morgan, P. W., Wilmerding, Pa. Cashier National Bank.
Murphy, D. C., Slippery Rock, Pa. Prof. Normal School.
Parkhill, Clayton L. Died January, 1901.
Peck, Bennett W., McConnellsburg, Pa. Editor and Publisher.
Phillips, Hettie B.—Mrs. W. S. Frye. Died November 18, 1886.
Ralston, Laura—Mrs. L. R. Williams, 578 Oakwood St., Pittsburgh, Pa.
Rea, Jesse L., Carmichaels, Pa. Merchant.
Shutterly, Arthur P. Died March 17, 1903.
Stewart, Belle C., Newville, Pa.
Stoody, Lou L. Died October 4, 1886.
Thirkield, Margaret E., Monongahela, Pa.
Williams, L. B.—Mrs. A. P. Supplee, 514 Elliott St., Wilkinsburg, Pa.
Wilson, Anna M., 708 Center St., Versailles, Pa.

1880—25

Axtell, L. M. Died March 18, 1891.
Browne, Joseph K. Died September 22, 1882.

DeHaven, Maggie, 705 Corson Street, McKeesport, Pa.
 Drumm, J. A. Died October 3, 1887.
 Frye, Joseph K., Lorain, Ohio.
 Gamble, Bower T., 502 Lowell St., E. E., Pittsburgh, Pa. Real Estate.
 Hall, Marie—Mrs. B. D. Rutledge, 233 S. Wood St., Chicago, Ill.
