Foreword

OLIVER WENDELL HOLMES once said, "Build Thee more stately mansions, O my soul, as the swift seasons roll." As the seasons roll on for you, the students of the State Teachers College at California, you find that your social and intellectual mansions, too, are becoming enriched and more stately. The ever-repeating cycle of seasons has deeply imbedded into the traditions of the Vulcan campus the spirit of friendliness which you as students have helped to perpetuate.

The difficulties which you have encountered and which you will encounter should not be met with the spirit of defeatism, but rather with the spirit of challenge, perseverance, and accomplishment. That material goal which each of you strives to attain may be reached either with ease or with difficulty, but the real measure of your success in life will be the effect of time, as the seasons roll on, with respect to your character. This growth of character will be the product of your associations with the students, the faculty, and the traditions of our College. Whether you have just begun your college career, or are a graduating Senior who is about to end it, it is my sincere hope that each season brings to you a more stately mansion of the body, of the soul, and of the mind.

The Pledge

I do solemnly pledge:

That I will never consciously or willfully bring discredit to this college;

That I will faithfully perform any task entrusted to me;

That I will do my utmost to raise the academic, social, and civic standards of this College;

That I will obey its laws and customs, respect its ideals, and honor its traditions;

That I will continually endeavor to prepare myself for the noblest of all professions — that of teaching;

And in all these ways I will strive to transmit to my successors a greater, better, and more beautiful California than was inherited by me.

Alma Mater

California, alma mater;

Now we sing to thee

California, dear forever

In our memory.

With our voices loudly ringing,

Of thy fame we're ever singing

California, alma mater:

Hail! All hail to thee.

For the friends and joys you gave us,

We give thanks to thee

All thy knowledge we'll make worthy

For posterity.

May thy reign be ever prosperous

And thy name forever glorious

California, alma mater:

Hail! All hail to thee.

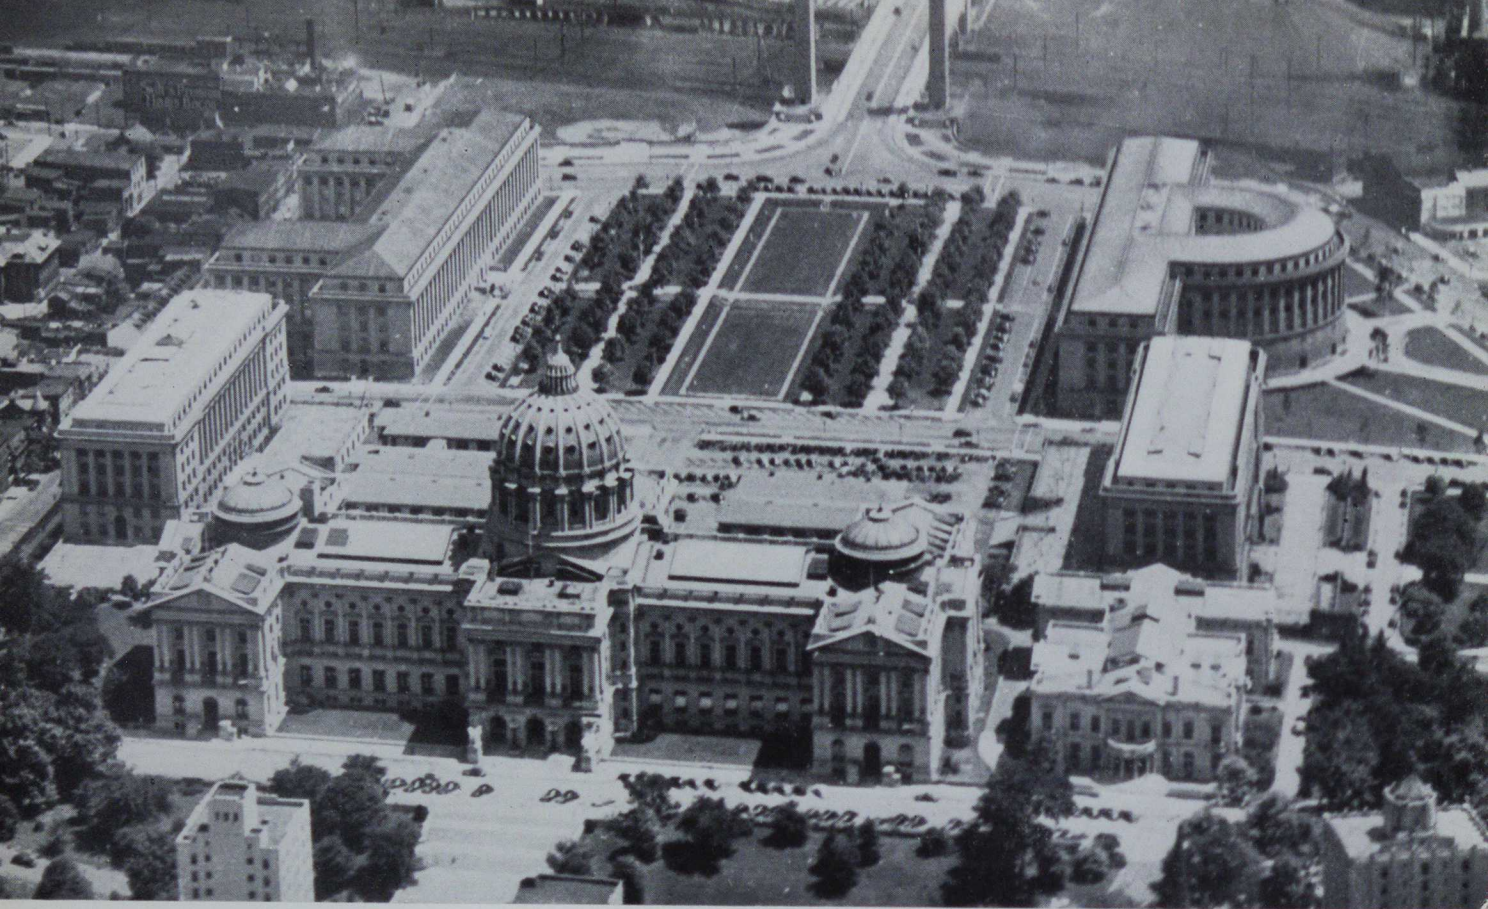

Phillip Rossi, '37.

DR. ROBERT M. STEELE, President

THE FUNDAMENTAL objective of every college is, and ought to be, education for effective citizenship on all levels—local, state, national, and world. Citizens are needed who have a broad perspective and a critical and constructive approach to life with convictions and standards of value by which men can live noble lives. They must have the ability to think, to communicate, to make valid judgments, and to evaluate moral situations. We need citizens who have a deep sense of responsibility for their fellows and who are not bounded on the north, south, east, and west by themselves. We want citizens who are deeply concerned with moral and spiritual values, whose philosophy of life will not be built on a materialistic foundation. We want them at all times to place public usefulness above personal success. We want men and women who are not ashamed to do the humble things of life and to discover and use for themselves and society the special gifts with which they have been endowed. Citizens must know that the democratic way of life cherishes freedom, but it also entails obligation and even sacrifice for its preservation. A democracy cannot exist if its citizens are parasites endeavoring to get something for nothing. It can survive only if its citizenry is composed of independent and responsible persons who think and act wisely when confronted by any new idea or situation, and who are sufficiently disciplined to observe the rights of others and to aid others in sharing their privileges. A democracy will advance to the extent that its citizenry, in addition to the qualities cited, uses its leisure in ways “creative not corruptive” and goes on learning throughout life, adapting to change without losing either principle or conviction.

Seniors

These past four years have been very eventful ones for the seniors. Their college careers were not to be the usual ones. Whether they liked it or not, they had to learn to become a part of a world far greater than themselves. Along with the preparation for their vocations they co-ordinated a rich variety of extra-curricular activities. Although their other dances will be remembered, outstanding in memory is the Senior Ball, made successful by the combined efforts of the class members.

In their last year we have seen the height of their efforts toward their ultimate goal of service. The principles which are their strength in assuming this great responsibility were first applied in student teaching.

Now the graduating seniors leave the familiar sight of Old Main to go out into a very confused world. They realize that individual initiative alone will determine their destinies.

The members of this year's junior class have provided a good example for the future classes of our College. Their friendship and ability to co-operate have made them an asset to the college.

One of the most successful social events of the college year was the formal Christmas Dance sponsored by the juniors for the entire student body and faculty.

Through their wholehearted participation in extra-curricular activities, the members of this class have helped to maintain the school spirit which is so much a part of college life at California.

The junior class can look with confidence to a successful senior year, for no class with such fine characteristics could fail.

As this group approaches the end of their second year at California, the realization of the importance of an education has been impressed upon their outlook on its chosen profession of teaching. By combining the dominant factor of scholarship with extra-curricular activities, a fuller understanding of the meaning of participation and cooperation prevails within the class.

The social part of their education is developing also as was illustrated at the semi-formal Drag'n Dance, which was held early in the term. With two years of college remaining this group will continue to build on the foundation which they have begun so splendidly.

The Class of 1954 entered the life on the California campus with the vim and vigor so essential to the successful functioning of college activities. The members of this class readily adjusted themselves to their new pace and determined that they would succeed in their task of attaining an education. The major activity of the freshmen was their dance, "The Diaper Drag," in February. As the end of the semester drew near, the freshmen realized that they were on their way. They had advanced one step toward their ultimate goal.

Pi Gamma Mu

The Lambda Chapter of Pi Gamma Mu, a national honorary society for students of the social sciences, was installed on the campus of State Teachers College at California in May of 1933.

Membership, consisting of seniors, juniors, alumni, and faculty, has grown to approximately two hundred. Election of membership, upon recommendation of the social studies department and action of the faculty membership committee, is based upon outstanding scholastic attainment in the social studies and constructive leadership on the campus.

Alpha Psi Omega

Membership to the Beta Omicron cast of Alpha Psi Omega, the national honorary dramatic fraternity, is gained through the talent and deep interest in dramatics which the students display in College Players. The purpose of this group is to stimulate interest in dramatics at California, and election to this organization serves as a reward for those members who work diligently in the productions of College Players.

A formal initiation was held each semester for the purpose of taking in new members. The group was also entertained at the home of its sponsor, Mrs. Virginia Crandall. An informal spring picnic culminated its activities for the year.

Student Cabinet

Composed of members who are elected yearly from Student Congress by the separate class representatives, Student Cabinet works as a planning committee of Student Congress. It is the duty of this smaller body to consider legislative work which is too detailed for practical consideration in Student Congress.

Reports and recommendations are submitted to Congress for final action. Much of the detailed investigation preparatory to the distribution of Student Activities allocations is planned by this group.

Student Congress

Student Congress is an important student organization which attempts to regulate student activity and to create a feeling of unity throughout the student body by its democratic functioning. The members representing all organized activities on campus meet each week to determine action and legislative policy for the Student Activity Association.

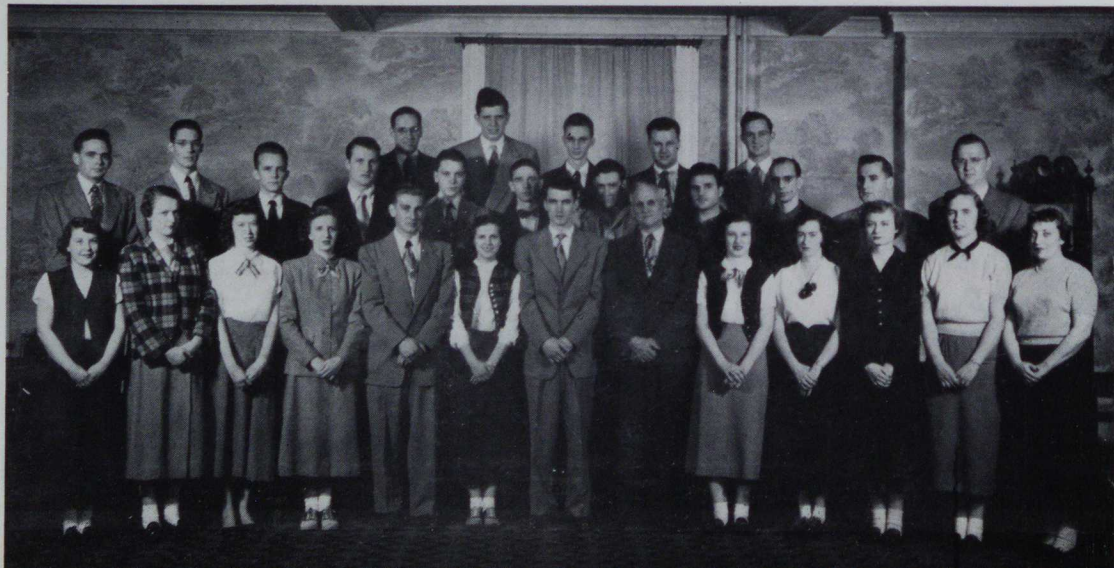

Through participation in the administration of the extensive extra-curricular program of the college and in the lively discussion on proposed measures, students gain much valuable experience in administration, legislation, and parliamentary procedure.

A familiar part of registration each year is the distribution of the college handbook, the VULCAN. The Publications Council with the approval of Dr. Steele appoints the staff in January.

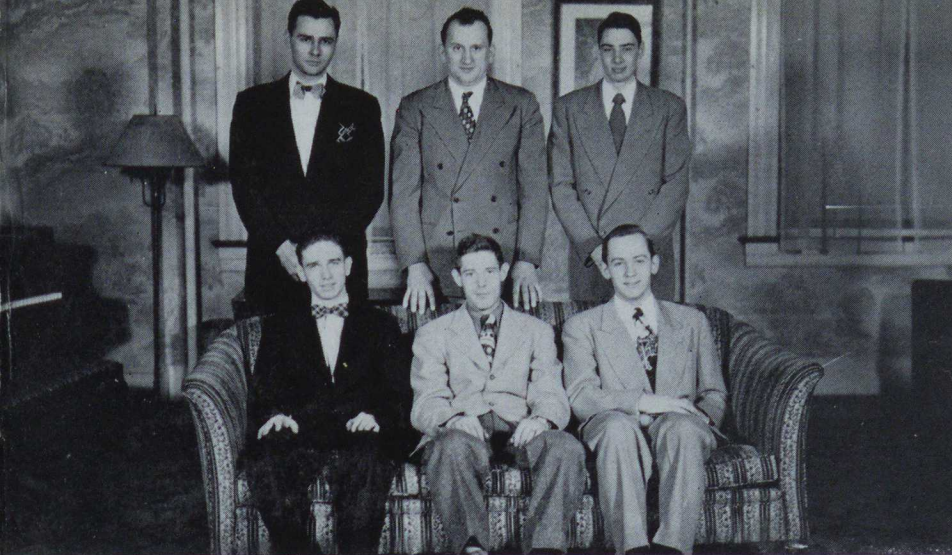

The main purpose of the VULCAN is to serve as a reliable source of information about all phases of life at the college. The VULCAN contains information about campus organizations and names of the officers of those organizations; information about the College and campus; a list of the faculty; lists of regulations; and a calendar of campus events.

Incoming students have found the handbook so helpful that it has become known as the "Freshman Bible." However, the VULCAN is also a great convenience to upperclassmen and faculty.

The Married Couples Club completed its second year this spring. It was organized for the purpose of providing fellowship and entertainment for the married couples at California. Any married student and his wife are eligible for membership.

Each month the club holds one business meeting and one social function. The social meetings are usually in the form of covered dish suppers, wiener roasts, parties, square dances and talent shows.

Mr. and Mrs. Hester and Mr. and Mrs. Wolfe are the faculty sponsors.

Waiters and Waitresses

Head Waiter Winfield Trainer
 Dietician Mrs. Arlene Miller

The co-operation and dependability of the waiters and waitresses, under the direction of Mrs. Arlene Miller, have reduced the disorder and annoyances one would expect to find in the Georgian Dining Room at mealtime. Every day these students serve approximately 350 dormitory students with a minimum amount of confusion.

The friendly and efficient work of these fellow students is recognized by all of the dormitory men and women.

Women's Athletic Association

President	Dolores Richardson
Vice President	Joan Stonick
Secretary	Kay Brooks
Treasurer	Mary Williamson
Sponsor	Miss Hildreth
Co-Sponsor	Miss Carroll

The Women's Athletic Association helps the coeds of California to express their athletic skills in a variety of activities. Like their Varsity brothers, the members participate in all the seasonal sports which demand teamwork. Among these activities are tennis, basketball, volleyball, mushball, bowling, and rifle practice.

Of major importance on the calendar of activities were the College and the High School Playdays. On these days the California girls acted as hostesses to girls of other colleges and high schools.

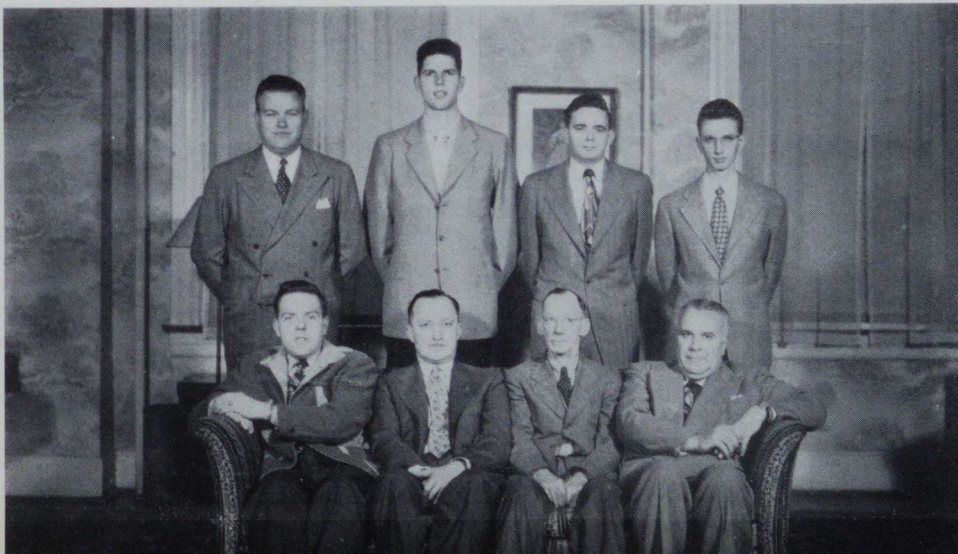

Although outstanding ability was recognized by letter awards, the chief goal of the organization was the stimulation of an active interest in sports.

Athletic Council

Chairman	Dr. Harold W. Traister
Secretary-Treasurer	Charles F. Aymin

The Athletic Council acts as an advisory board which coordinates all competitive athletic activities of the student body. The membership in addition to the officers includes four faculty members and four students who are responsible to Student Congress for all athletic policies.

To climax the athletic year the council grants at the spring award assembly the letter "C" to all who have earned it by participation in one or more major sports.

 Vice President George Zemo

 Sponsor Mr. Eugene Hester

The Varsity Club is sponsored by Mr. Hester, the Athletic Director, and aims to promote friendliness on the campus. Highlights of the Varsity Club are the annual Sports Night Program, which includes boxing, wrestling, and a pie-eating contest, and the annual Varsity Club Dance.

To become a member of the Varsity Club, one must earn a letter in any of the following sports: football, basketball, baseball, tennis, rifle. Cheerleaders and intramural managers are also eligible.

Cheerleaders

It is the responsibility of the students who serve as cheerleaders to conduct pep rallies and lead the student body in their cheering support of our various athletic teams. Throughout the entire football and basketball seasons, the only compensation that this energetic group receives is the satisfaction derived from the enthusiasm shown by the students in the grandstands.

The members of the cheering squad do much to promote a friendly atmosphere at all athletic events.

The main aim of this professional group is self-improvement. The activities of the organization include talks by guest speakers and reviews of current literature by members. The members also make intensive studies of contemporary affairs in elementary education.

Each year the organization widens its scope and plans better programs for the coming year. The group is in affiliation with the National headquarters of the Association of Childhood Education which already have a faculty group on campus.

The Intercollegiate Conference on Government was organized to promote a better understanding of our government among students. California has been a member of the organization since its beginning in 1933.

Each year a delegation composed of members of the student body who have shown a high degree of interest in political, social, and economic problems represent their college in Harrisburg. Before the April Conference these students meet to discuss their plans for the Conference. This year the Conference was in the form of a model national legislature. Students formed their own bills to present on the floor of "Congress." The success of the students depends upon their beforehand knowledge of facts and their command of parliamentary procedure.

This organization gives college students a working knowledge of their government.

With the resignation of Mr. Edward Cubbon, former Athletic Director and coach of basketball and baseball at California, and the recall of Mr. Edward Bruce, head football coach, to his position on the coaching staff of Pennsylvania State College, a completely new athletic department was established on the Vulcan campus.

Mr. Gene Hester, who served as end coach under Mr. Bruce, has now taken over as Athletic Director. Mr. Theodore Nemeth, who was formerly assistant to Mr. Bruce, has become head coach of the Vulcan football team. Mr. Andrew Sepsi, a new member of the California faculty, acts as backfield coach and head baseball coach, along with his position as instructor of health and physical education.

The Vulcan football team opened its 1950 season with a 14 to 7 victory over the State Teachers College at Edinboro. Natali and Bailey both scored for California, and Polak kicked the two extra points.

West Liberty continued to win over California for the fourth consecutive time. The West Virginians presented themselves as a powerful opponent to whom the Vulcans lost with a 13 to 0 score.

Perhaps the most outstanding game of the season was that with the State Teachers College at Indiana. Frank Shaffer, Indiana quarterback, led his teammates to a 20 to 0 victory with a fine exhibition of football handling.

The Vulcans won their second game of the season as they scored a 24 to 6 victory over Concord, West Virginia. Natali scored twice, and O'Hara and Bailey each scored, as the Vulcans defeated the much lighter Concord squad.

Although they displayed their usual grim determination, California went down to Shippensburg in a 15 to 0 loss, their third shut-out of the season.

The Vulcans completed their season with a 12 to 6 win over Clarion, their third victory of the year. Elmo Natali scored both touchdowns. This ended the football year with a record of three wins and three losses.

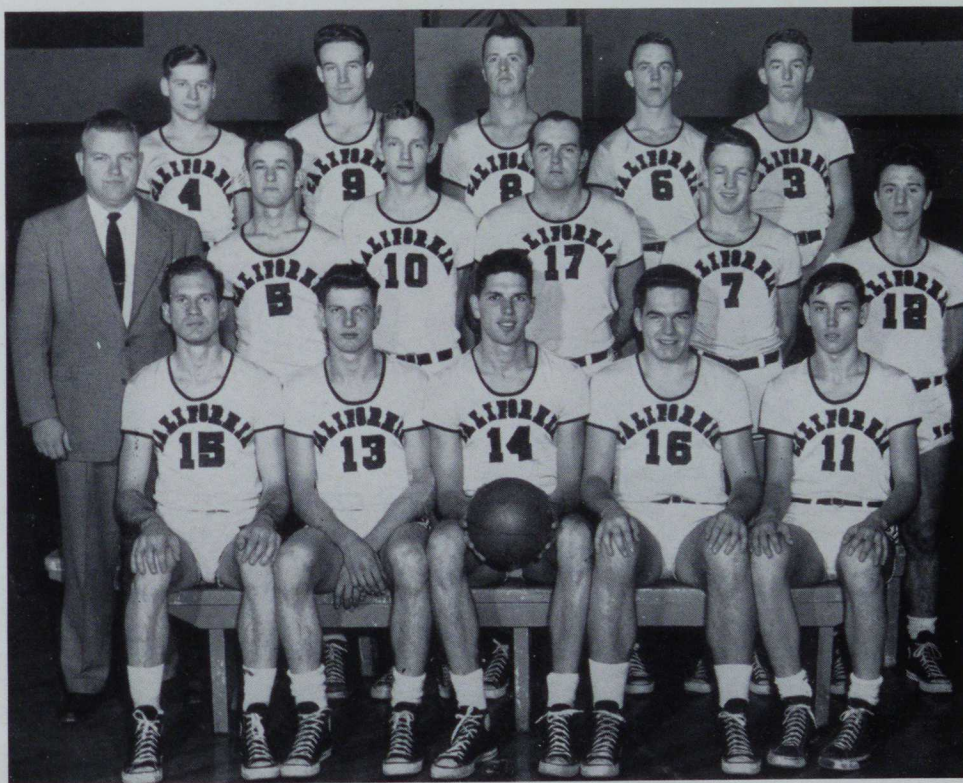

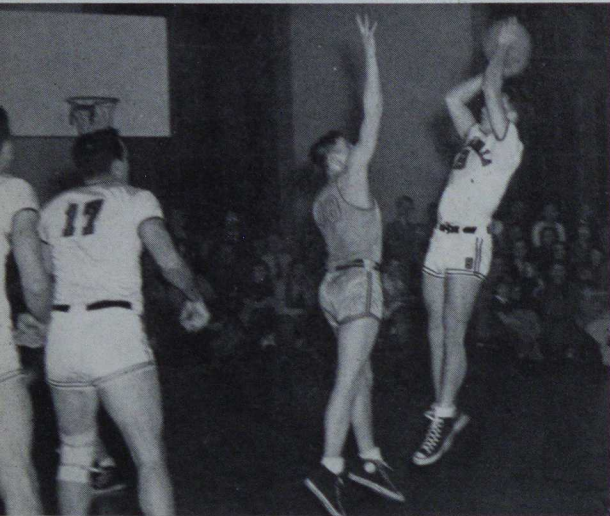

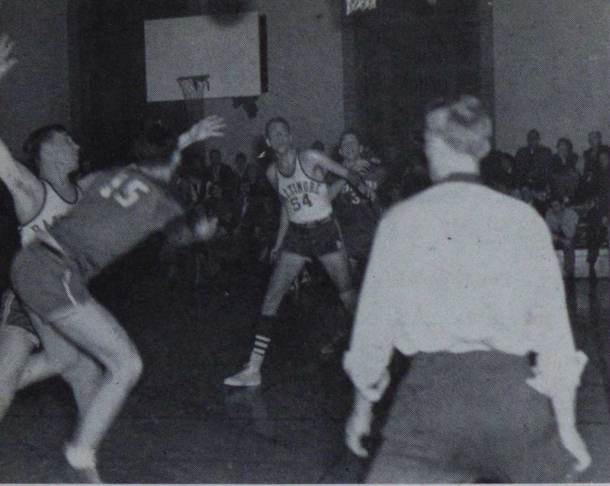

MR. HESTER

Mr. Hester, new basketball coach, made his debut with a 77-53 victory over Frostburg. Mr. Hester succeeded Mr. Edward Cubbon as Athletic Director and basketball coach when the latter accepted a position at Morris Harvey College, Charleston, West Virginia.

California may well be proud of its 1950-51 basketball team. Despite the loss of two veteran players, Bobby Lee Gray and Earl Follet, who are now in the Armed Forces, the Vulcans had one of their best basketball seasons, with a record of eleven wins and eight losses.

MISS HILDRETH

Women's Athletic Association

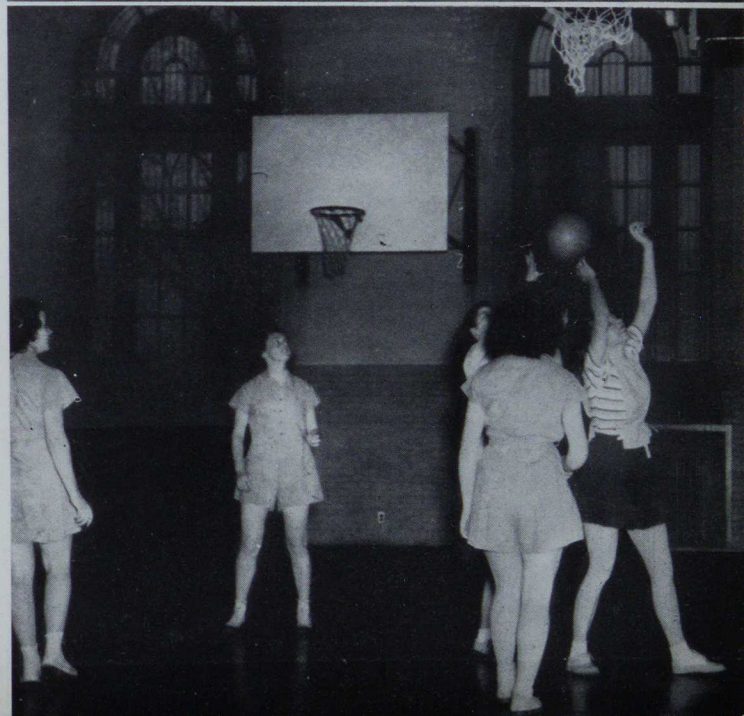

The Women's Athletic Association is composed of any or all women on campus who are interested in athletics, either in learning to lead such activities or in participating actively in sports. During the year this group promoted intramural competition in bowling, rifle work, basketball, volleyball, and softball, with elimination and play-off games closing each respective season. This year marked the adoption of a new constitution for the organization in which many new regulations were established.

Women's Athletic Association

The highlights of the year were the Playdays, sponsored annually for the surrounding colleges and high schools. The College Playday, with its Saint Patrick's Day theme, and the High School Playday, with its Television theme, were packed with various sports throughout the afternoon and culminated with a banquet and program in the Georgian Dining Room. To return the courteous attendance of some of the visiting schools, delegates were sent to similar events at other colleges.

Through this organization and its activities, the members gain not only a knowledge of sports and athletic activities, but they also establish friendships through team organization within the group and association with girls from other schools. This value should pass from the athletic realm into the realm of everyday activity and life.
