REVISED NORMAL SCHOOL COURSE OF STUDY

REQUIREMENTS FOR ADMISSION

Graduates of approved secondary schools who can present evidence of having completed 15 units of high school work will be admitted as regular students to the state normal schools.

A unit shall consist of not less than 120 hours of work. (Subjects not requiring out-of-class preparation or study shall require double time in estimating the units.)

Credentials of all students entering the state normal schools shall be received and evaluated by the normal schools and submitted to the State Department of Public Instruction for approval. Blanks for this purpose should be secured from the normal school on or before August 1, as they have to be filled out in detail, signed by the high school principal or other responsible official, and received and approved as stated above before the student can be officially enrolled.

Adequate knowledge of the subject matter in the elementary subjects will be presupposed on the part of all students admitted to the normal schools.

REQUIRED UNITS FOR ADMISSION

English	3 units
Mathematics	1 unit
Science	1 unit
Social Studies.....	2 units
Electives	8 units
	—
Total	15 units

The holders of permanent and professional certificates will be given one credit toward admission as regular students in the normal schools for each subject of high school grade written on the certificate.

Advance credit will be given for equivalent courses in approved teacher training institutions, but no student

may obtain a normal school certificate without a minimum residence of one year. Teachers who are granted credit for experience may finish with a minimum residence of one-half year.

For the present the normal school shall, when necessary, conduct a secondary department of first class high school grade for those students who do not have similar high school facilities available in their home communities.

CURRICULA OF PENNSYLVANIA NORMAL SCHOOLS

Students may select one of four curricula.

The four curricula that are offered to students have been organized upon the principle that teaching in the elementary schools can be classified into sufficiently definite types to require specialization. Each curriculum prepares for a specific type of teaching position.

The two years' work of the normal school is divided into four semesters. The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching", which includes observation and participation in the training school, is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students are asked to select one of the four curricula for the purpose of specializing in a specific field of teaching. *The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.*

THE FOUR CURRICULA

Group 1. Kindergarten-Primary—for teachers of grades 1, 2 and 3.

Group 2. Intermediate grades—for teachers of grades 4, 5 and 6.

Group 3. Grammar Grades and Junior High School—for teachers of grades 7, 8 and 9.

Group 4. Rural—for teachers of rural schools.

The curriculum provides that all who take it shall be qualified to teach English and at least two other subjects. The special fields, such as Art, Music, Home Economics, Health Education, Commerce, Library-Teacher, etc., are not invaded.

The status of Geography as a Junior High School subject is, at present, not clearly defined. The use of the free elective as Geography when taken with 12 hours of General Science, will make, with the six required hours in Geography, a satisfactory

preparation for teaching the subject in the Junior High School—thus adding a fourth subject to the list which the graduate will be prepared to teach.

In general, the use of the free elective in connection with the 12 hours in any elective subject will give a superior preparation in that subject. The free elective may also be used for Handwriting, Home Economics, Educational Measurements, or any other subject at the option of the several schools.

Additional courses in arithmetic, history, geography and English may be offered and required of students found deficient in these subjects.

GENERAL INFORMATION

California State Normal is growing both in body and spirit. During the past year she has had the largest enrollment in the history of the institution, and a school spirit pervaded the student body that has never before existed. An experienced, sympathetic faculty working with a congenial student body has created a feeling of friendly helpfulness and good fellowship that is most stimulating and encouraging. The physical condition of the school plant has been much improved. Class-rooms, corridors, and students' rooms have been redecorated, and tiled bath and shower rooms with modern equipment have recently been installed.

RELIGIOUS ADVANTAGES

Everything of a sectarian nature is avoided by the authorities of the school, but every endeavor is made to interest students in Christian work and to develop a clean, wholesome, moral atmosphere. Devotional exercises are conducted daily in the assembly hall and on Sunday evenings vesper services are conducted by the Y. M. C. A. and the Y. W. C. A. Students are expected to attend the church of their choice on Sunday mornings.

SOCIAL LIFE

Receptions are held at different times during the school year and every possible effort is made to have the students associate freely with each other and bring about a natural and homelike atmosphere.

ENTERTAINMENTS

A strong course of lectures and entertainments are provided at considerable cost that add much to the school life and give not only entertainment but culture and training that is very desirable for teachers. A Pathoscope machine is part of the school equipment and movies are shown that are both educational and entertaining.

LITERARY SOCIETIES

Opportunity to participate in literary work is given through the two literary societies, Clionian and Philomathean. Great rivalry exists between Clio and Philo and this culminates each year in a big literary contest. Fine programs are rendered weekly by these societies and they assist very materially in promoting sociability as well as affording an opportunity to develop literary ability.

ATHLETICS

California Normal offers an unusual opportunity for students to develop their minds and bodies in the very best way by participation in all branches of athletics. Every boy and girl in school may engage in the sport for which they are best qualified. Football, basketball, baseball, hockey, tennis, track, volleyball, and hiking are some of the most popular sports. Intra-mural athletics give the beginner and the less experienced a chance to develop most rapidly by being a member of a team. The reward of honest effort and acquired skill is the honor of representing the Normal on the "Varsity". Football camp in the early fall provides a wonderful opportunity for any boy to put himself in the best possible physical condition and as a consequence he is able to apply himself to his academic work with a spirit and purpose that characterizes the best type of student everywhere.

Football camp opens next fall, August 21st, and we shall be very glad to have visitors at any time. Any

young man graduating from high school who thinks he has average athletic ability would do well to consider the advantages in coming to California.

SPECIAL FEATURE

Each year the students in the Physical Education work give a field day demonstration, showing a program of marching, dancing, drills, calisthenics, tumbling, vaulting, boxing, plays, and games.

EXTENSION DEPARTMENT

By means of extension classes an opportunity is given to teachers in service to continue their education. These classes are formed in different convenient centers, and are in charge of the regular members of the Normal School Faculty. The credits so earned may be used toward a Standard State Certificate or toward a Normal School Certificate. While the use of libraries, laboratories, etc., are more limited than in resident work, we aim to have the same standard of work done in the extension courses as is done at the school. This Department offers a valuable opportunity to those teachers in service who desire to save time, or who are unable to take the entire course in residence.

PIANO DEPARTMENT

The Music Department offers special instruction in piano and violin. Experienced and well-trained teachers are in charge of the work. Beginners and those not far advanced are especially welcome as they possess few or none of the bad habits of performance, which are so easily formed by wrong teaching or careless practice, and which prove in many cases almost insurmountable obstacles to high cultivation. They, therefore, receive more rapidly the correct fundamental principles and can, as a rule, make steady and rapid progress uninterrupted by the tedious progress of overcoming bad habits.

Candidates for graduation will be required to satisfy a Board of Examiners.

SUMMER SCHOOL

Many of the teachers now in service avail themselves of the opportunity to attend summer school. The session is nine weeks in length, making it possible in two summers to do the work of an entire semester of the regular year. The summer courses are primarily designed to prepare high school graduates to teach, and to enable teachers in service to improve their professional standing. The credits thus obtained may be applied to State certification and toward the Normal School Certificate.

WHAT TO BRING

The various rooms in the dormitories are all well-kept, and are furnished complete with bed, bedding, dresser, stand, rug, etc., and each student will find it necessary to bring only towels, napkins, and articles of personal use. Do not mark laundry until you have secured quarters. This will avoid the necessity of changing laundry marks and save confusion.

EXPENSES

No tuition is charged at a state normal. The following is a list of the expenses to be met:

Enrollment fee.....	\$ 10.00
Board and Room, including laundry per week.....	7.00
Tuition for high school subjects, per week (only for those who have not had high school available	2.00
Deposit which may be returned at end of session....	5.00
Piano lessons for full semester, 40 minutes.....	3.00
With assistants.....	1.25 and 1.00
Violin lessons	1.50

The total cost per school year of 36 weeks would include the following:

Enrollment, two semesters.....	\$ 20.00
Board and room, 36 weeks.....	252.00

PAYMENTS

The Bursar, who acts for the Board of Trustees, will receive all moneys and receipt all bills.

Bank Drafts, Express or P. O. Orders and checks may be used in payment of bills and should be made payable to State Normal School, California, Pa.

Semester Fees, Tuition, Board, Room, and Laundry charges are payable by the semester *in advance*. When especially requested payments will be accepted for a half semester or less.

No student will be admitted to classes without paying the semester fee and making an advance payment on account of tuition, board, room and laundry charges. The receipt showing that such payment has been made must be presented before a student will be registered. Students who get in arrears for tuition, board, room and laundry charges will be asked to leave the institution unless satisfactory arrangements are made for the payment of these charges.

DEDUCTIONS AND REFUNDS (Note Carefully)

Students are considered members of the school until the Principal is notified of their withdrawal and the regular charges will be made unless such notice is received.

No deduction is made in the Semester Fee even though a student may enter after the beginning of the semester, and no refund is made of any part of this fee.

All refunds will be paid to the person paying the bill and not to the student unless it is so requested.

No deduction is made for absence on Saturdays and Sundays or for washing done at home.

No deduction will be made to any student for absence the first two weeks or the last two weeks of any semester.

Summer Students, 1923.....	1145
Secondary Students	29
Music Students	147
Grand Total	<u>2448</u>
Deduct names repeated.....	450
Net enrollment for year.....	<u>1998</u>

THE ALUMNI LIST

Because of the large body of Alumni and because of the fact that many of the addresses are incorrect and catalogs do not reach them, entailing an unnecessary large expense upon the school, catalogs will be sent only to graduates of the last five years, but catalogs will be sent to all Alumni or to any persons who write to the school for the same.

Members of the Alumni are earnestly requested to notify the Principal of any error in name, change in address or occupation, and deaths, so that our register may be as nearly correct as possible.

A questionnaire has been sent out to all members of all classes from 1875 to 1919 inclusive in order to get correct data for a special issue of the "Normal Review", containing our complete Alumni. A copy will be mailed to every member whose correct address we have. Kindly co-operate with us by sending information about yourself or any others.

OFFICERS FOR 1923-1925

President.....	DAVID BINNS, '08
Secretary.....	MISS MINNIE MASTERS, '80
Treasurer.....	MRS. ALLIE SNYDER NICODEMUS, '83
Custodian of Records.....	H. EARLE SPRINGER, '06
