The image features a green and black camouflage pattern. The pattern consists of irregular, blotchy shapes in various shades of green and black, creating a disruptive visual effect. Overlaid on the bottom right portion of the image is the text 'MONOCAL' in a large, bold, black, sans-serif font. Below it, the year '1965' is printed in a smaller, similar font. The text is oriented horizontally and appears to be part of a larger design or label.

MONOCAL  
1965

*HOME OF CALIFORNIA STATE COLLEGE.*

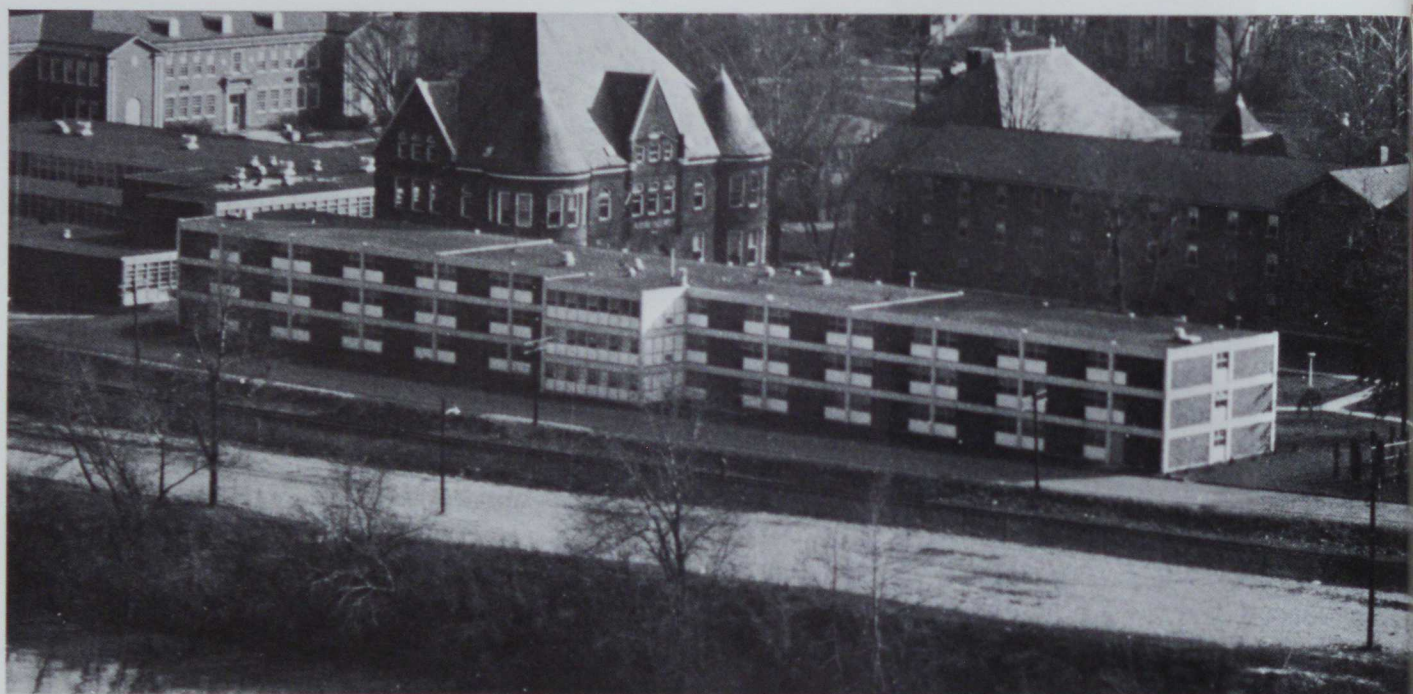

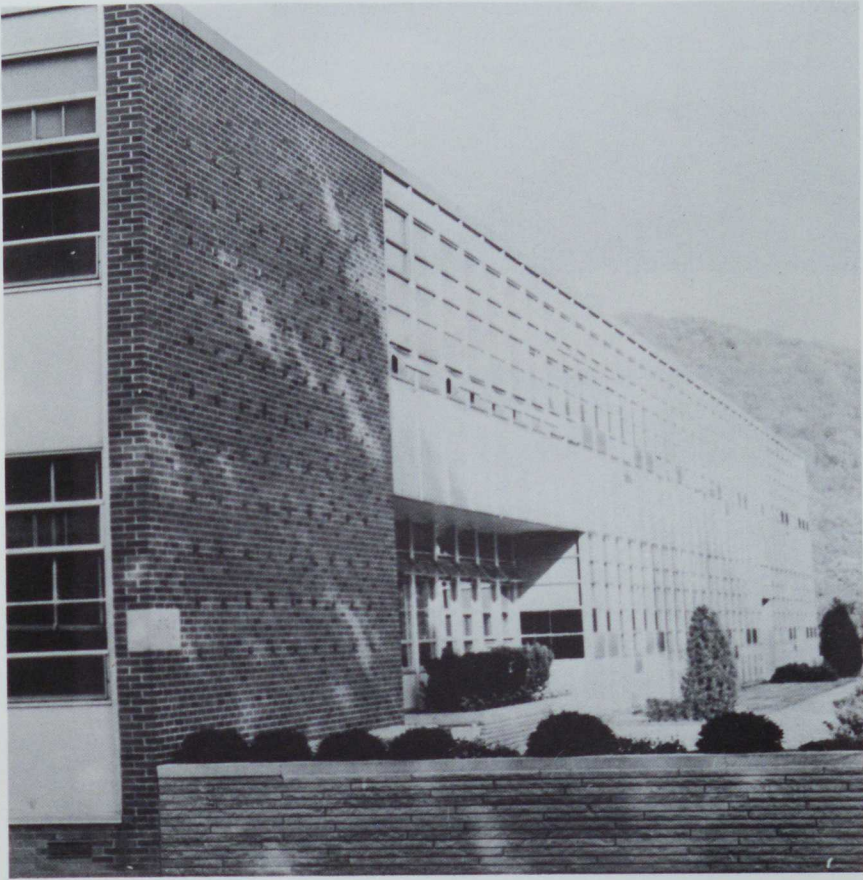

*THIS IS WHERE WE LIVE . . .*

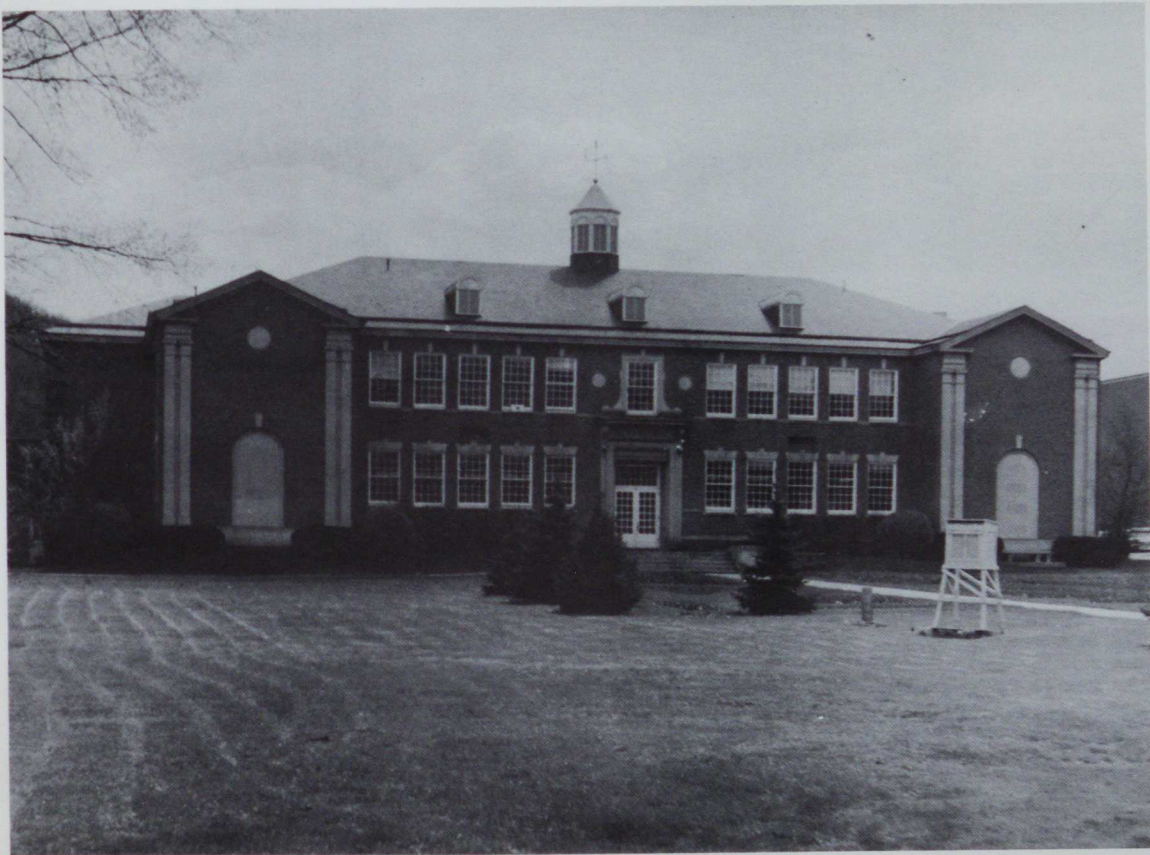

4

*WORK . . .*

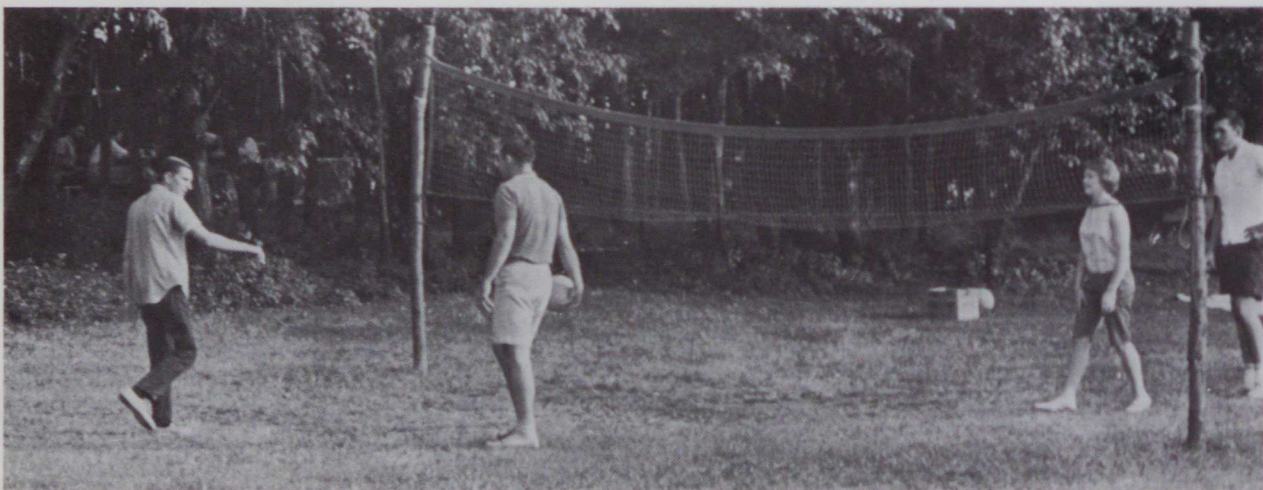

5

*AND, OF COURSE, PLAY.*

6

7

*WE WOULD LIKE TO INTRODUCE OUR PRESIDENT,  
DR. MICHAEL DUDA . . .*

California State College is steadily and positively moving ahead. It has great strength in the possession of good students and a strong, dedicated faculty, a core which cannot be denied.

It would be most difficult to overemphasize the honored commitment of the college which seeks to prepare its students to become good world citizens, capable of making wise decisions, exercising sound judgements, and thinking profoundly. However, the development of rationality we know requires simultaneous development in physical well-being, in emotional balance, in ethical character, and in creative and imaginative powers.

None of these, including the state of rationality, is a discrete development; all are interrelated and cannot be achieved separately. Any attempt to separate these things into component parts would destroy our psychological and philosophical commitments to higher education.

We aspire to have our college students become rational beings largely to the degree that they possess values, that they will be creative, that they will maintain aesthetic appreciations and emotional and physical balance needed for vital development and fruitful achievements.

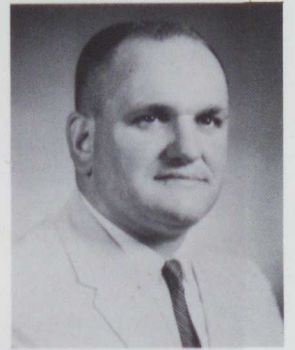

We wish our students good health, good counsel, and good fortune.

*Michael Duda*

*SUMMER—'64*

## ***THE SUMMER TRIMESTER . . .***

. . . is taken nice and easy by most California students, many of whom beat the early dorm hours by commuting long distances during the summer. Dorm students spend long summer days lolling along the Mon, sitting at Domenic's, and perhaps attending a class or two before heading home for the weekend. The other half of the campus was seen at little California—better known as Atlantic City, N. J. Here our students could be seen working at anything from plush hotels to a flea circus. It is even rumored that "Mr. Peanut" is a California student. But all good things must come to an end, and when October first rolled around everyone headed back to his own little paradise . . .

*FALL '64*

## **THE FALL TRIMESTER . . .**

. . . marks the big social season at California State College, and the *Monocal* photographers were *usually* on the scene to catch all of the fun, from Freshmen Customs to finals week. This year's customs went over really big for a week, A. K. L. won the grand overall prize for their Homecoming float, "Ask not what your country can do for you, but what you can do for your country," another D. Z. was crowned Homecoming Queen, our football team didn't do quite as well as was expected, and the *Monocal* missed its first consignment date. Oh, well, you can't win them all. Just look at the pictures on the following pages, taken in the order in which they took place, and try to remember the fall trimester as it really was . . .

*MEANWHILE . . .*

*... CLASSES MUST GO ON*

## FOOTBALL '64

On Sept. 12 the Vulcans battled highly favored East Tennessee State, taking a 6-0 lead in the opening period. However, East Tennessee bounced back to emerge victorious (12-6).

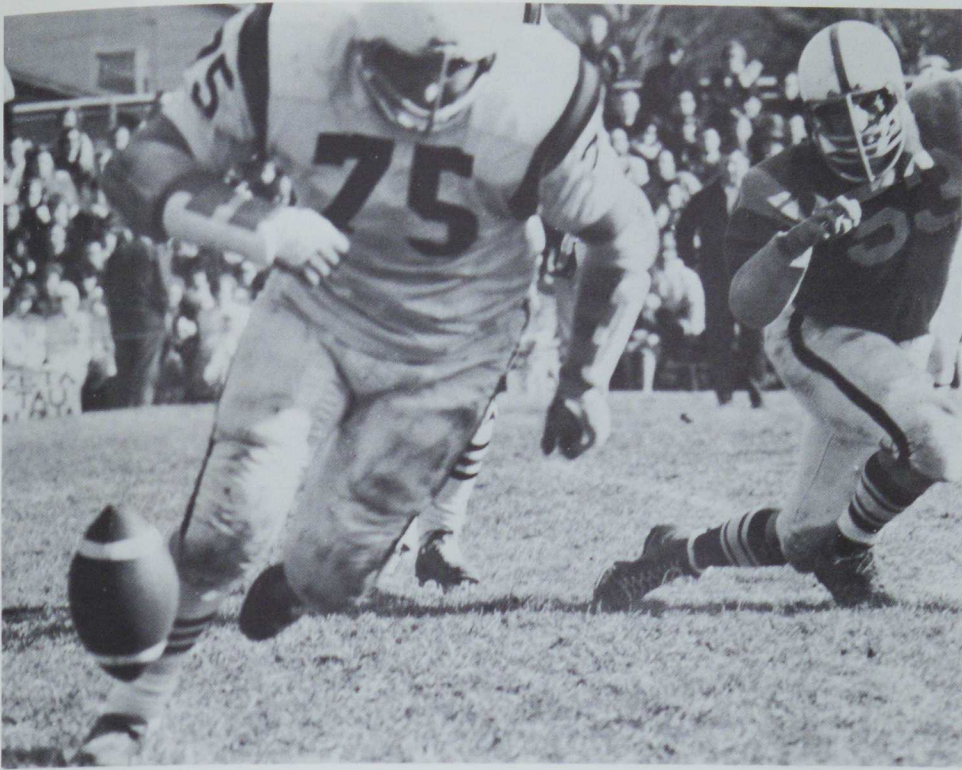

Taking to the air for all three touchdowns, the Vulcans opened the home campaign with a 21-10 triumph over Marietta on September 19.

CSC opened competition in the State College Conference by downing Lock Haven 27-18 on Sept. 26.

On October 3, our team again emerged victorious over Glassboro State College (N.J.). However, Slippery Rock shattered our hopes of a State College Conference title with their 20-13 victory. Then Shippensburg triumphed over our Vulcans with a 28-19 score.

A Homecoming throng of 4500 witnessed the deadlock between Clarion and California. The Vulcans opened a 7-0 lead in the first quarter, scoring again before halftime, but settling for a 14-14 tie at the end of the fourth quarter.

With a loss of 26-13 to Indiana State and a win over Edinboro 14-0, our Vulcans ended with a 4-4-1 record last season.

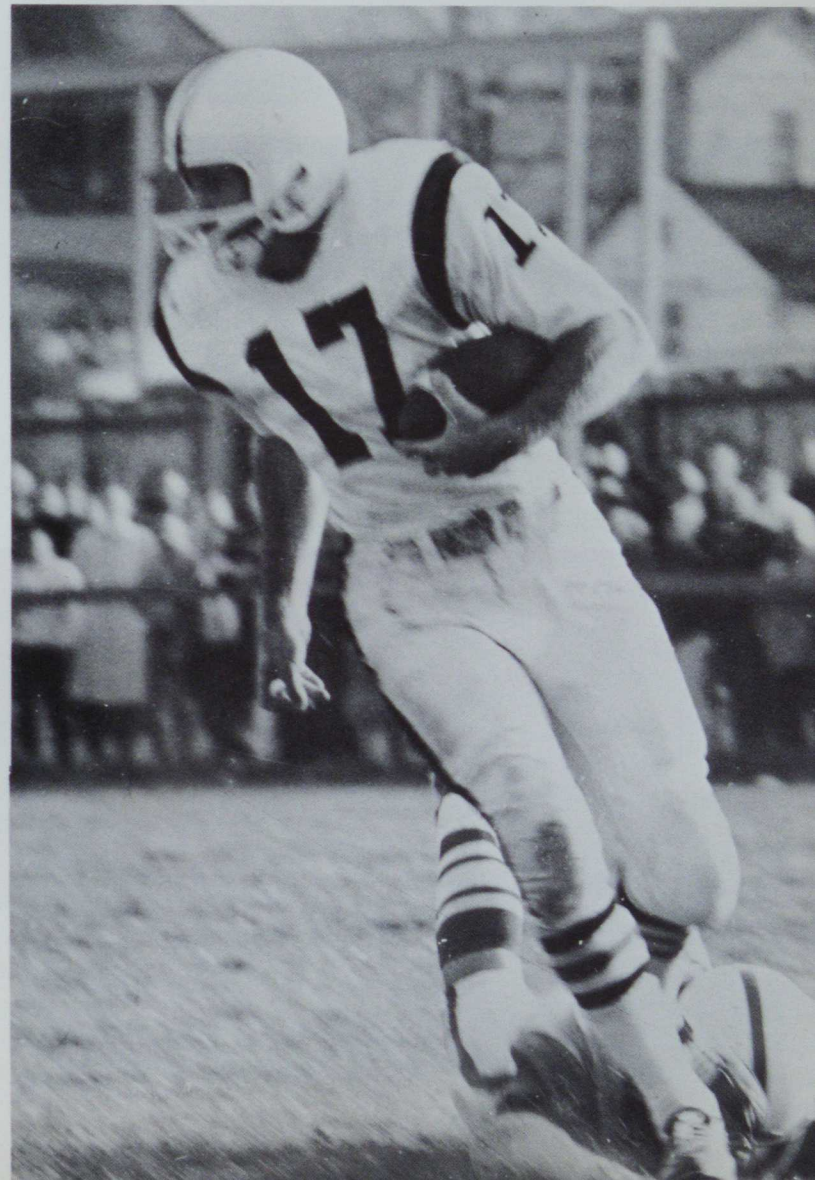

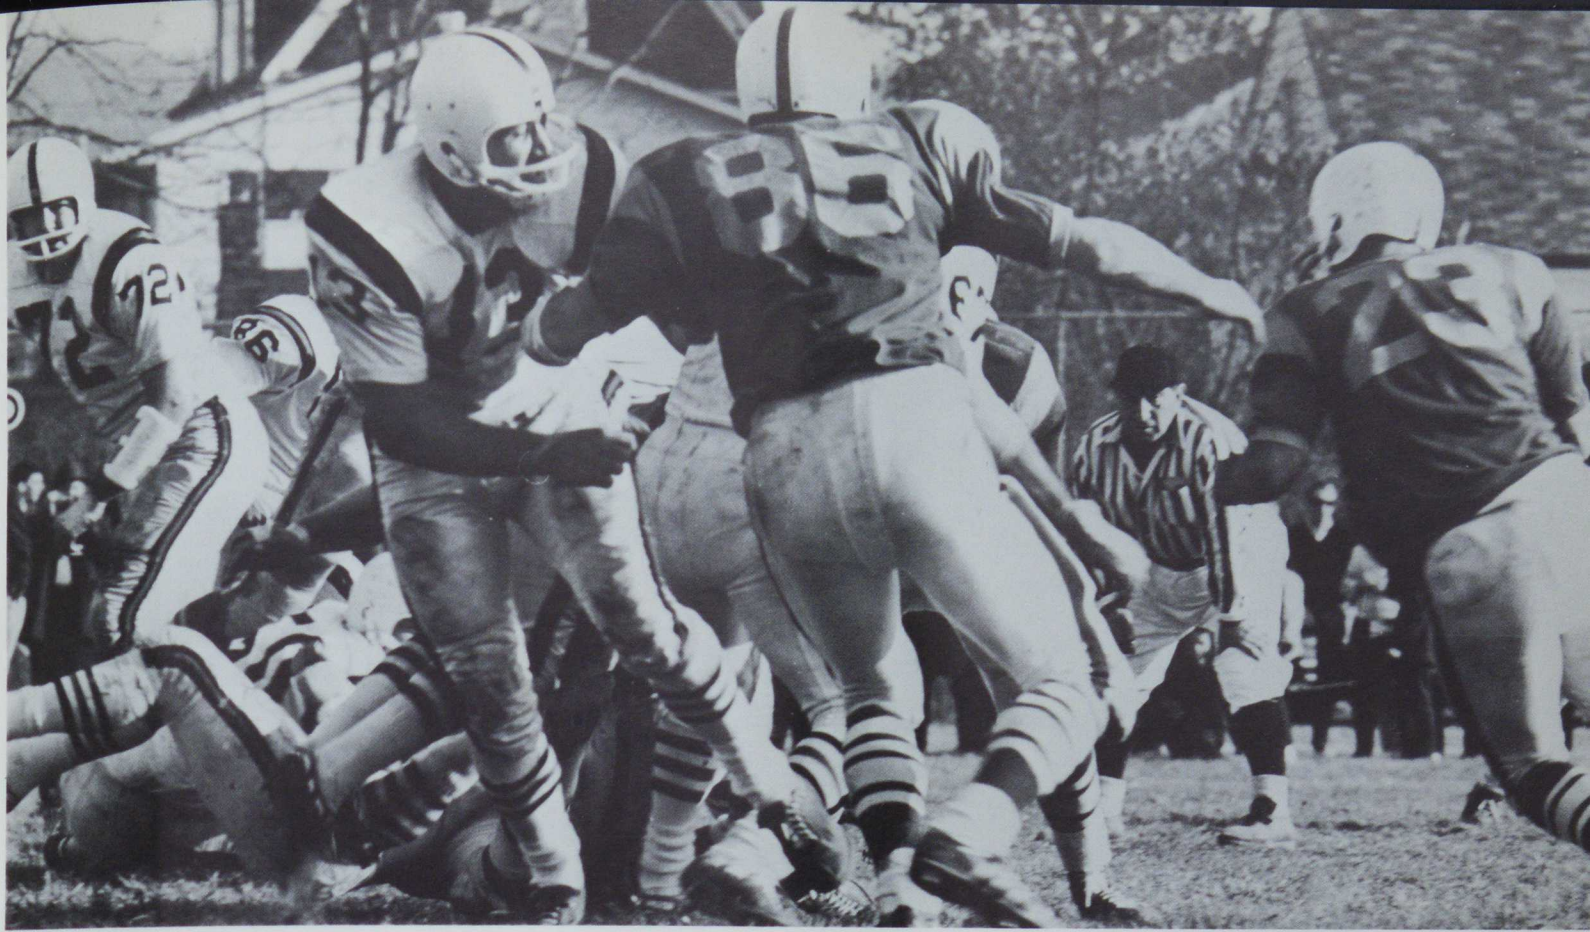

<i>Home</i>		<i>Opponent</i>
6	E. Tennessee	12
21	Marietta	10
27	Lock Haven	18
45	Glassboro, N.J.	0
13	Slippery Rock	20
19	Shippensburg	28
14	Clarion	14
13	Indiana	26
14	Edinboro	0

*... AS DID THE MAJORETTES*

*OUR BAND PUT IN LONG HOURS OF PRACTICE  
FOR THEIR CONCERTS AND SHOWS*

*"DESIRE UNDER  
THE ELMS"*

Eugene O'Neill's masterpiece, *Desire Under the Elms*, was performed by the widely-known Circle-in-the-Square Theatre Group, in Steele.

This play is primarily concerned with the desires of the individual characters and the pursuit of their own goals. Abbie Putnam, an attractive woman of thirty-five, has just married Ephriam Cabot, who is twice her age, and who bases his life on the idea that "God is hard." Ab-

bie's reason for this marriage is her desire to acquire a home on this farm and keep it in her possession; therefore, she tells Ephriam that she will conceive a child by him, and the child will inherit the farm. When the child is born however, it is a mystery as to who the real father is. Events of this play combine to form a dramatization of emotions—emotions ranging from one extreme to the other.

## SCI "Q" CLUB

C.S.C.'s Sci-Q-Club is affiliated with the National Science Teachers Association and sends representatives to its convention. The club is designed for students in the elementary curriculum majoring in science. Guest speakers and films are presented at regular meetings to further scientific interests.

The major activities of the club include a field trip to Buhl Planetarium, a Christmas program and a spring science fair. The club has also sponsored a conservation poster contest for the children in Noss.

80

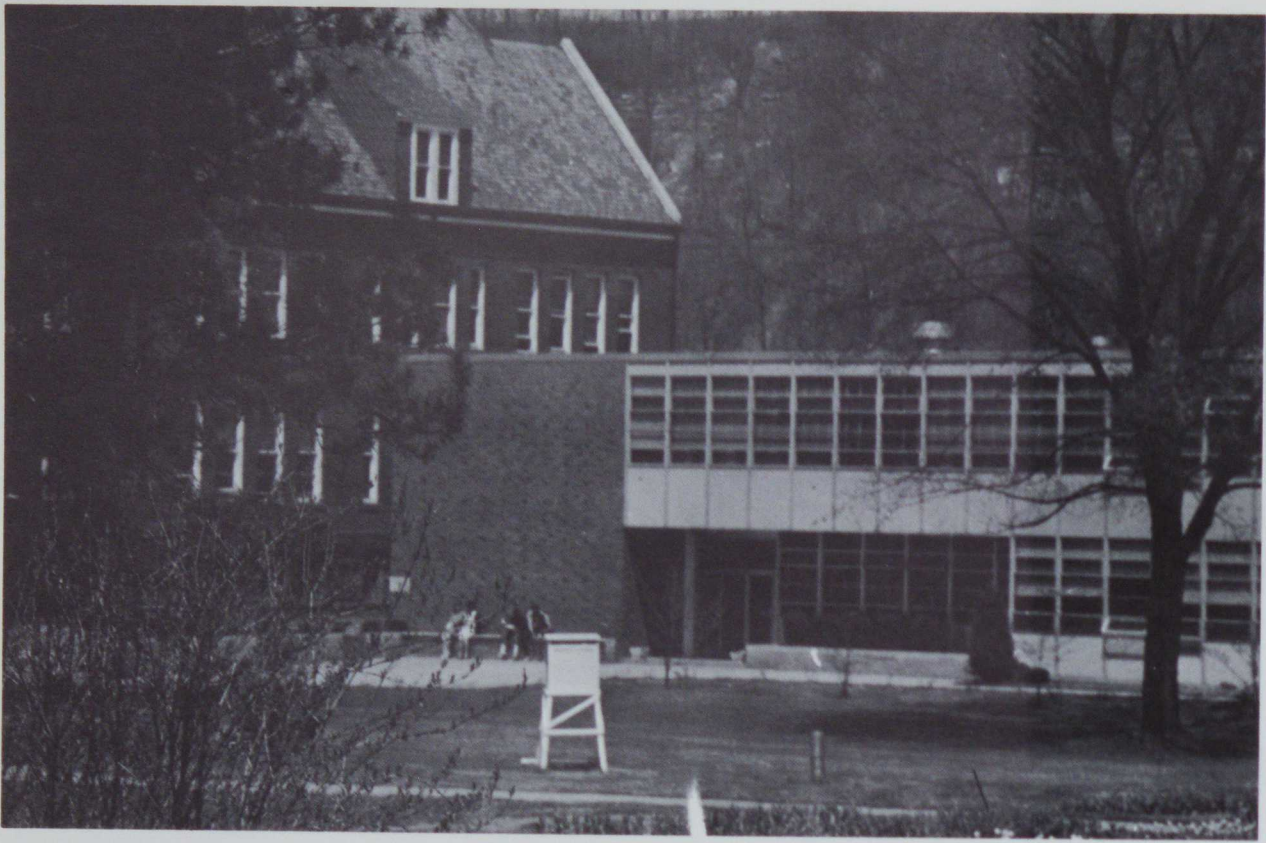

## STUDENT CONGRESS

Student Congress is made up of members of each of the organizations on campus. It provides a democratic form of government for the student body and is an organization of which we should all be proud.

The duties of the Student Congress are to consider matters of student interest which can be presented by either recognized organizations, or by the student body through petition.

82

*WE'RE ALL PROUD OF THE COMMUTERS*

## SADIE HAWKINS WEEKEND

The Sadie Hawkins week-end officially opened Friday, November 6, when the boys took their seats first and the girls pushed their way into the dining hall. Lucky the girl who had a seat saved for her. That night the roof shook at the Vulcan when the Freshman class sponsored a Hootenanny with our own campus folk singers.

Cool and casual was the atmosphere at the Sadie Hawkins dance at Herron—only cut-offs, sweatshirts, and sneakers permitted. Many young lovers got hitched in the traditional Dog Patch style, a shot-gun wedding.

The switch of events proved to be a lot of fun for everyone. For you girls who must wait for the boys to take the initiative, only one more year until you can chase your one-and-only to the hitching post.

*THE "TURKEY TROT" WAS A BALL*

86

Bales of hay . . . free turkey  
. . . colored streamers . . .  
November 24, 1964 . . .

The Turkey Trot dance, held on Nov. 24, was a smashing success. Herron really swung! Weary of study and ready to kick off the start of Thanksgiving vacation a day early, C.S.C. students crowded—really crowded—into Herron to celebrate. At the start of the dance a drawing was held, and some lucky student walked off with a turkey for his very own. Meanwhile—the dance. Jimmy Beaumont, of Skyline fame, and the Elegants provided the music. They were great! Herron was ready, decorated with colored streamers, bales of hay, and Thanksgiving stuff. C.S.C. students were ready, and they danced, danced, danced. The Turkey Trot in a word—smash.

## **COMMITTEE ON SOCIAL ACTIVITIES**

The Committee on Social Activities at California State College is responsible for the maintenance of student social life on campus. Students interested in promoting college activities and willing to work for success comprise the organization. Numbered among their many activities held this year are the weekend dances, Ski Lodge, Turkey Trot—in fact almost all events at CSC are the results of hard work on the part of C.S.A. members. Meetings are held every Tuesday evening. All students enrolled at CSC are welcome.

## NEWMAN CLUB

The California chapter of the National Newman Club Federation is open to all Catholic students on campus. It strives to promote spiritual, educational, and social growth through adherence to Christian ideals. The activities of the club include participation in the Homecoming and Spring Festival, as well as a yearly picnic. The most important phase is the meetings at which lectures are often given in order to help answer problems of the college student. Since the Newman Club strives to promote unity among religions, students of all faiths are welcomed to its meetings.

## GEOGRAPHY CLUB

The Geography Club strives to create student interest in the various fields of geography through the presentation of films, frequent lectures by noted speakers, and group discussions which cover a wide range of geographical subjects. In addition, the club sponsors an annual field trip in order to gain knowledge of our country's features. Each year a delegate from the California State Chapter is sent to the national convention of the Geography Clubs. Membership is open to anyone interested in the field of geography.

*"AM AHL AND THE NIGHT VISITORS"*

90

This Christmas season CSC had the opportunity to enjoy the marvelous production of "Amahl and the Night Visitors," presented by the College Choir and the College Players.

The one-act opera by Gian-Carlo Menotti has been an annual Christmas feature since it was given its premiere by the NBC Television Opera Theatre in New York City in 1951.

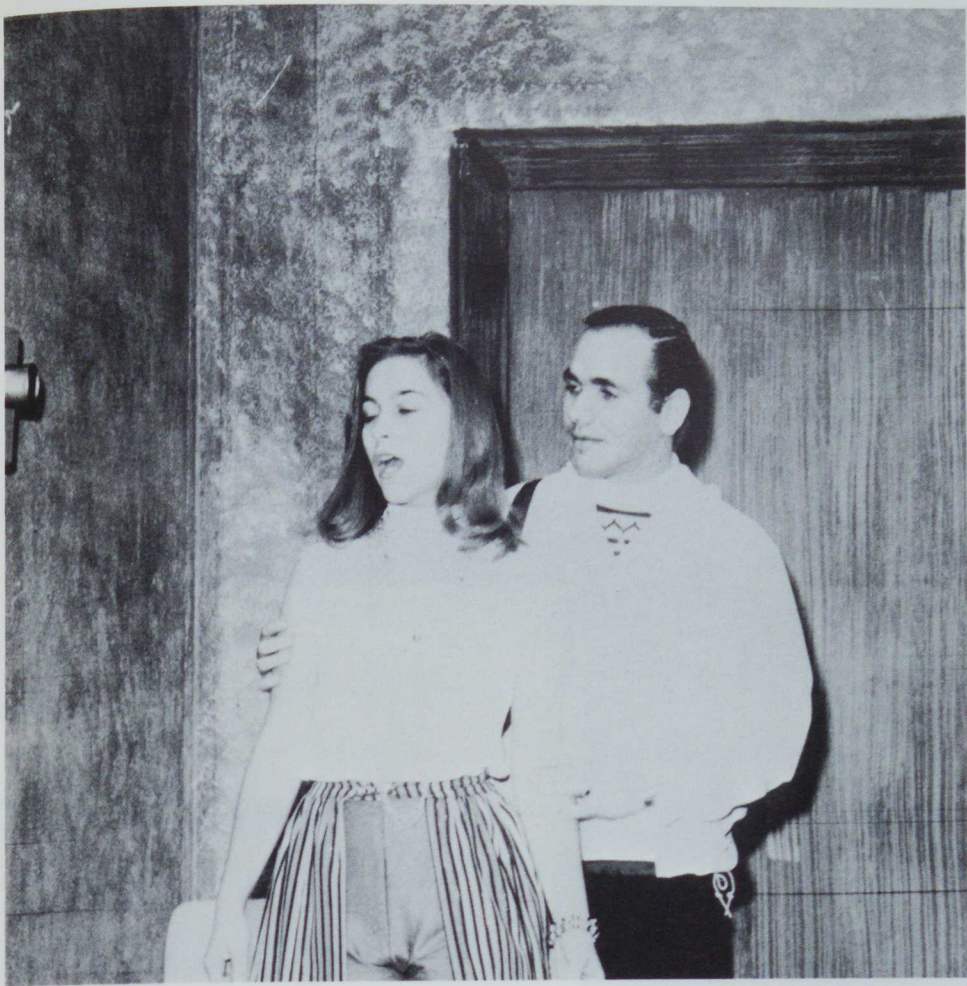

Our students really appreciated the tremendous effort made by everyone concerned.

92 *"COME BLOW  
YOUR HORN"*

*CHRISTMAS  
COMES*

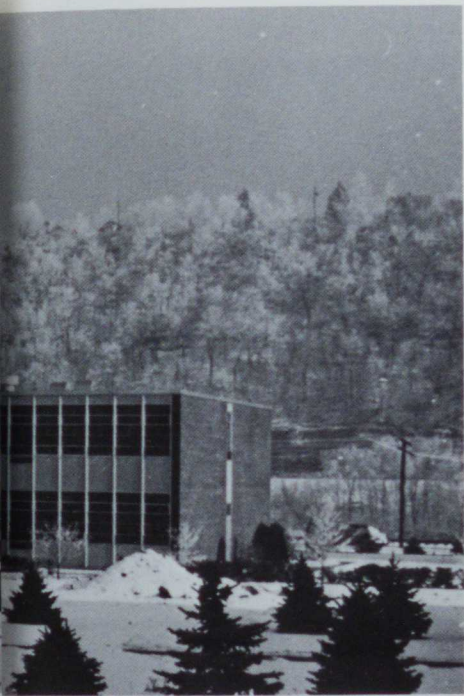

*TO CALIFORNIA*

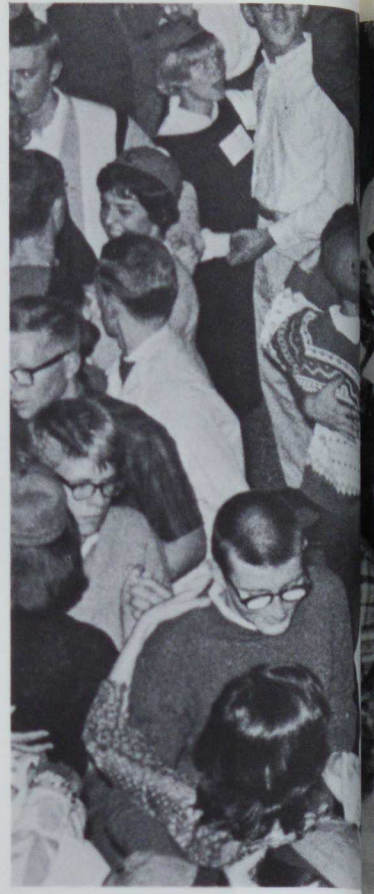

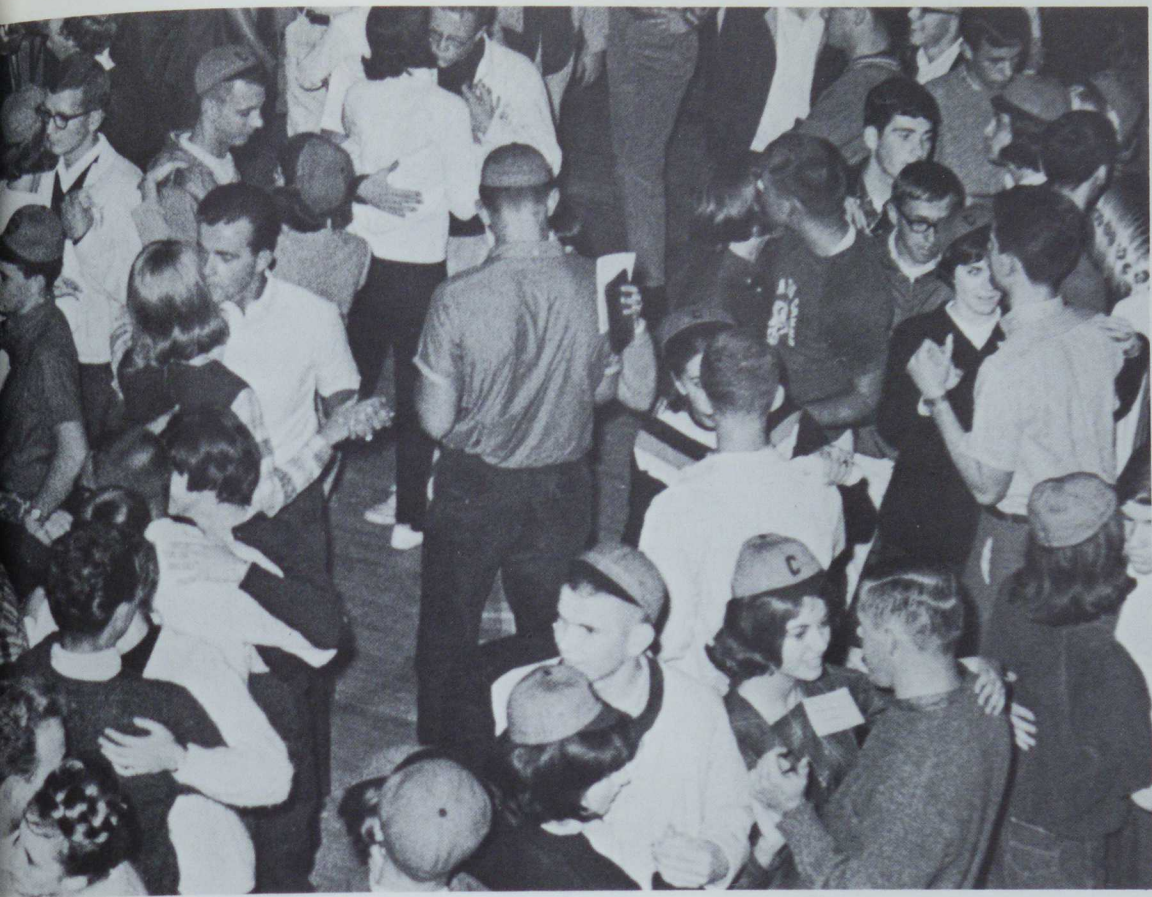

*SOME DANCES WERE FUN . . .*

*... BUT THE JUNIOR PROM FLOPPED*

*EVERYONE ENJOYED THE ANNUAL C.S.A.  
SKI LODGE*

A professor of mine said that if you read every assignment throughout college you will still not know much: you must do more than what is required. The success of CSC's basketball team can be attributed to its willingness to do more than is required. If you go over to the gym in mid-March, you'll see four or five freshmen and varsity players working out; some will be working out in July; some, staying late to push the chairs aside during fall registration.

Coach Myles Withey and Coach Connie Mack Ra must have questioned the theory that doing more than is required in any 3:30 practice would win just one game at 8:00 on Saturday. At mid-season the Vulcans were having the same success with basketball that you would have with calculus if you ignored the brackets: 5 wins and 9 losses.

Then late in January the believers proved the theory: a record 124 against Lock Haven; unsuspecting Edinboro losing 82-70 with Vandermer getting 24; W&J losing at home, 88-69—Hobart scores his season high of 22; nationally ranked Fairmont wins 73-93; Coach Withey sees his Vulcans beat his alma mater for the second time in two tries, 69-66—Hobart gets 19, Kughn 18; non-believing Indiana takes an unscheduled loss, 87-84—Hayward hits 15 his first chance to start; Clarion took the bus, but left the driving to us, 87-80—sure dribbling Kughn hits his season high of 21; Waynesburg, welcome as a dividend check everywhere in the conference, faces Kotarsky's 26 to lose 95-88.

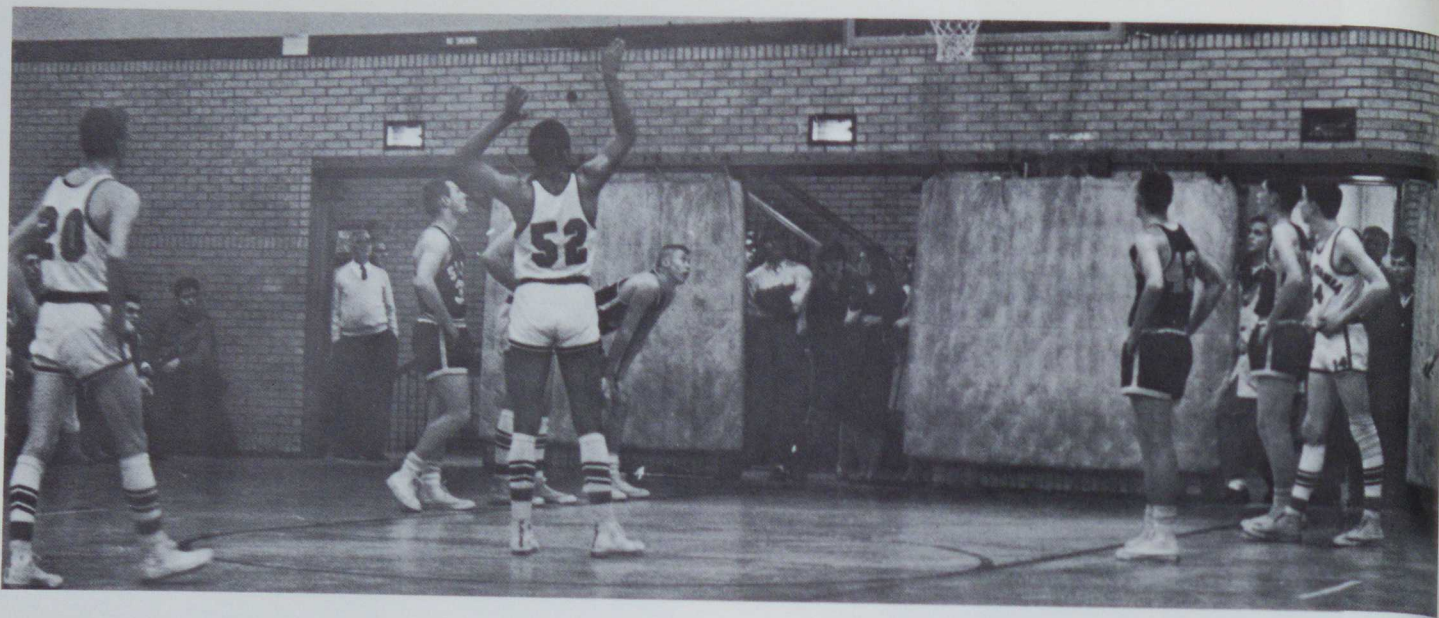

(con't p. 104.)

*OUR BASKETBALL TEAM PLAYED IT'S  
LAST SEASON IN HERRON HALL*

California has won seven of its last eight games, and has for the first time a chance to represent the district in the NAIA playoff. Beat Edinboro and Slippery Rock and they're in. Edinboro, the 5th ranked rebounding team in the nation, comes to town acting meaner than a giant: Giant 95, David, 108; Jim (The Frail Rail) Vandermer drops in 25 of 27 free throws and a total of 35 for the night. Slippery Rock steals the win and the Vulcan's chance for Kansas City. Marietts's win is anti-climactic.

Returning lettermen Skip Kughn and Jim Vandermer were honorable mention on the All-District 18 team; big Frank Pilsitz (5th in conference rebounds, 13 per game, and 9th in scoring, 17 per game) and Vandermer (5th high conference scorer, 19 per game) were honorable mention on the State College Athletic team.

California led District 18 statistics in these departments:

Team offense: 90 pts. per game ave.

Team Field goal shooting: 47.4%

Most points scored: 124 against Lock Haven

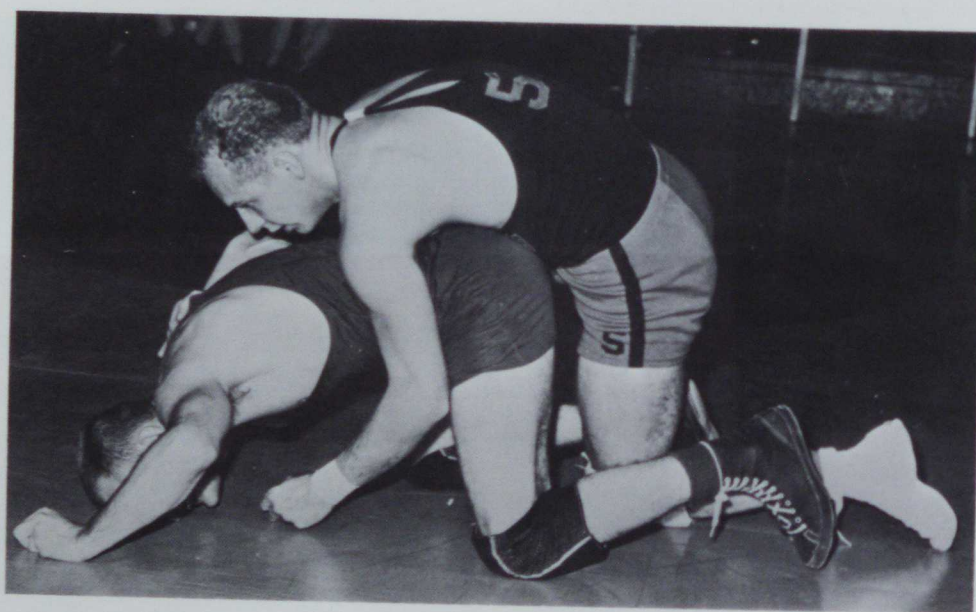

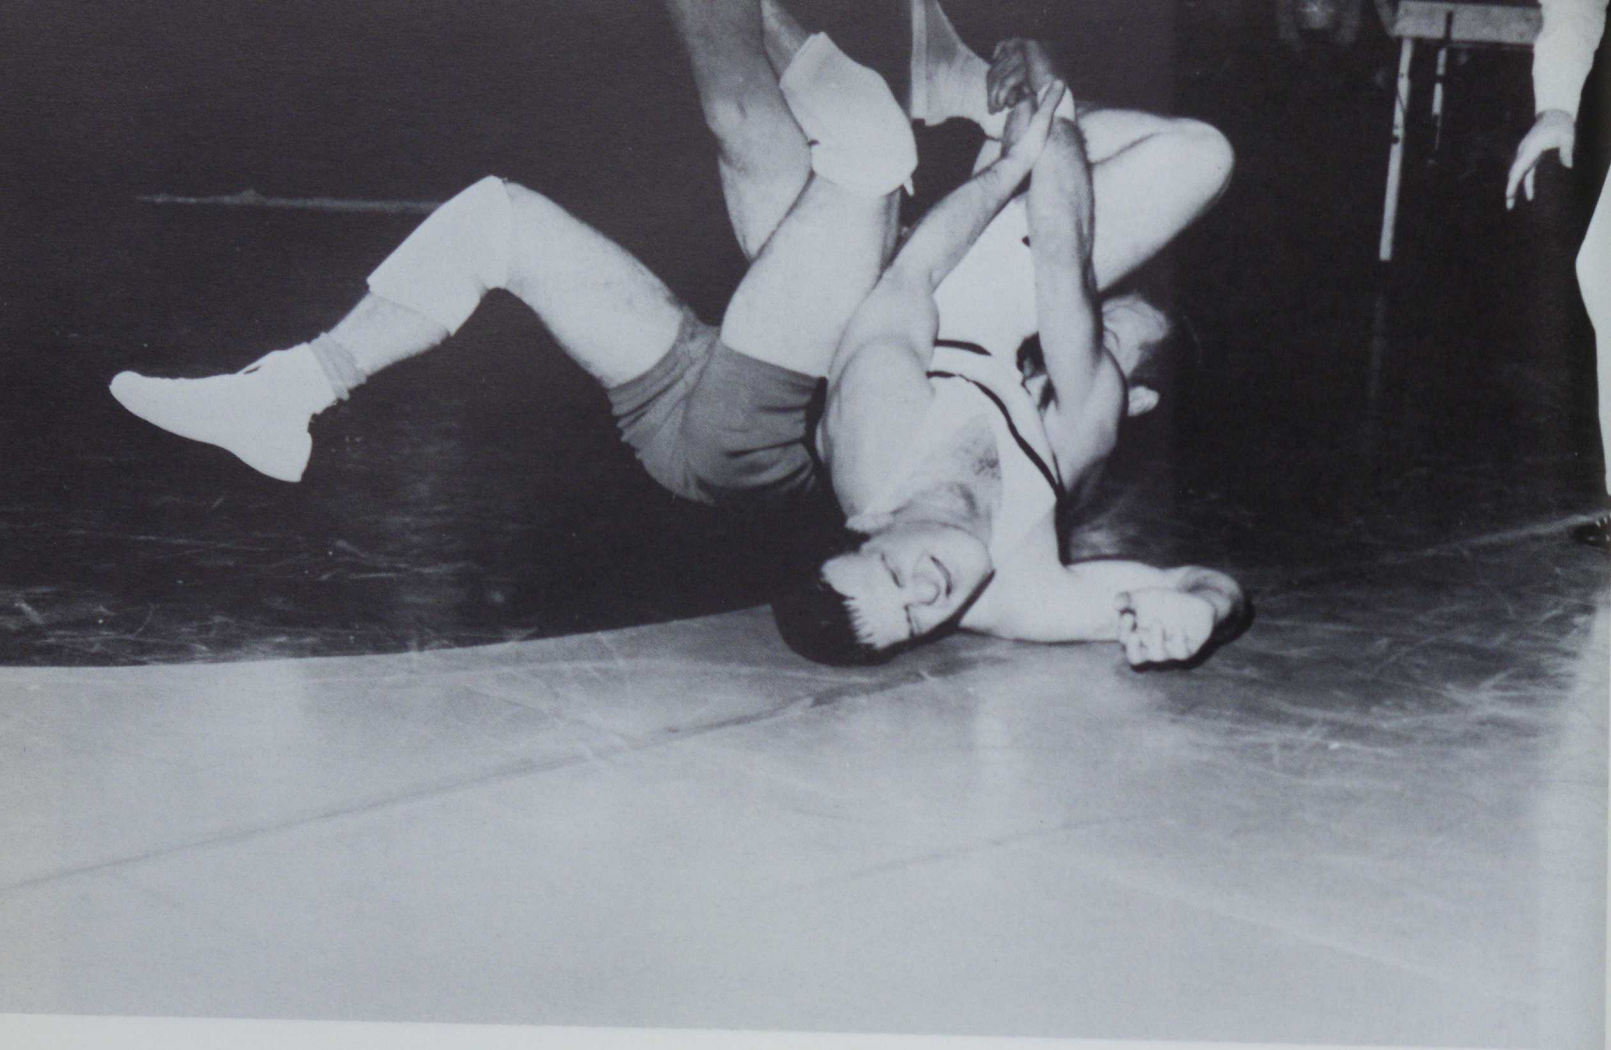

6

*MID-WINTER MEANS WRESTLING*

108

SCORES 1964-1965

CSC		
32	Frostburg	0
25	Edinboro	8
21	Indiana	13
10	Slippery Rock	22
9	West Virginia U.	19
	Waynesburg	

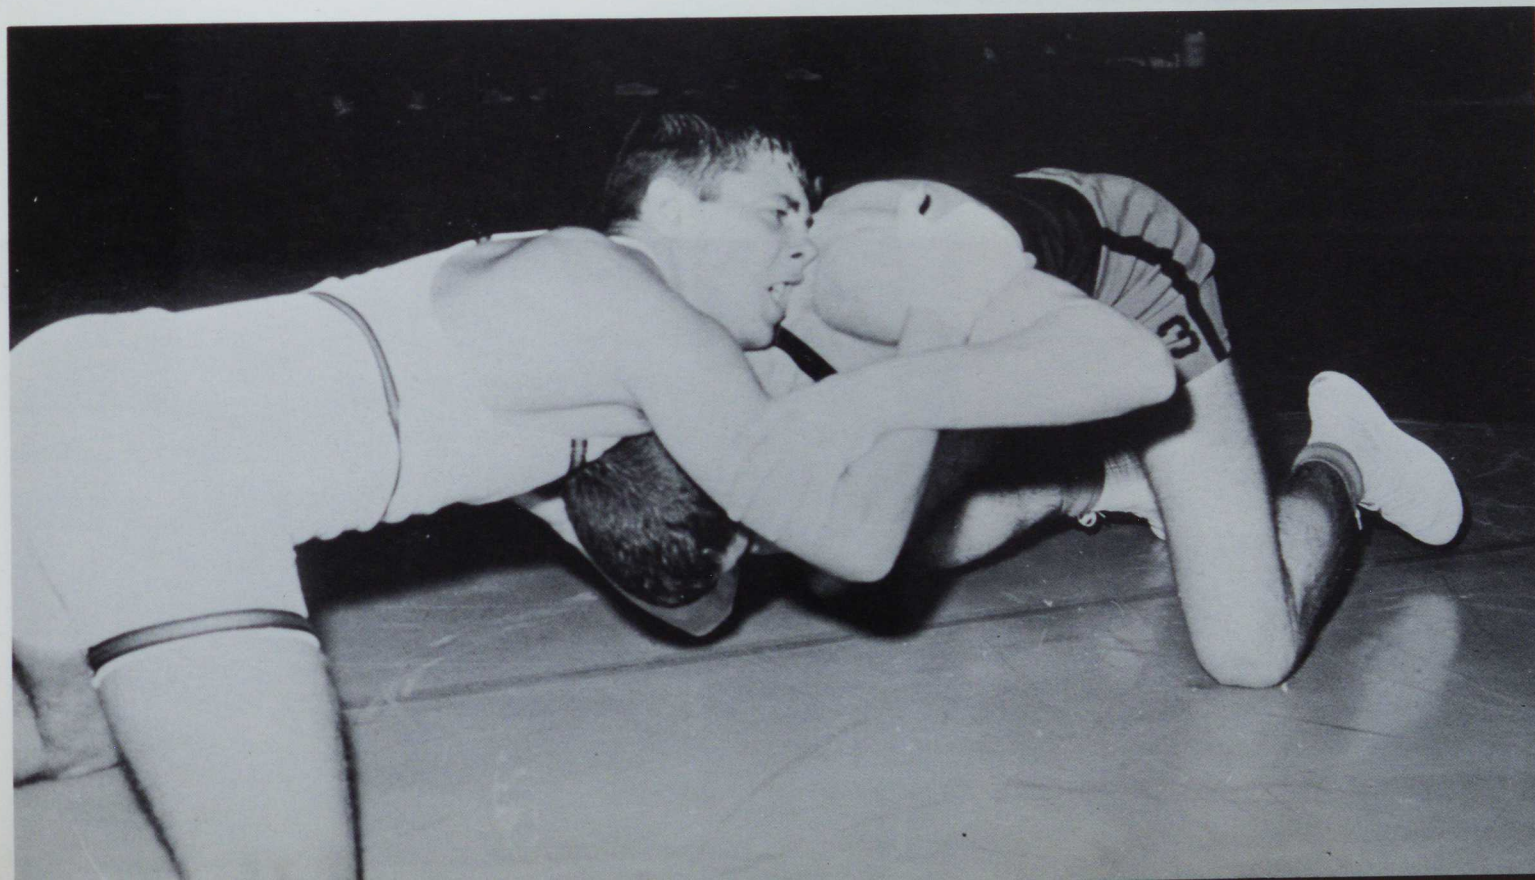

Sixty wrestling enthusiasts tried out for this year's team. Twenty dropped out. Rounding out the first team (at mid-season) are Jerry Dumm, 137 lb., Jerry Hall, 157, Paul Machak, 167, Joe Madia, 191, John Mosier, unlimited, Howard O'Neal, 177, Herbert Reihner, 130, Roger Rinier, 123, and Rodney Wentling, 147. Howard O'Neal is team captain.

Midway through the season, CSC's team has a .500 percentage—they have won three and lost three. But, according to head coach Paul Ross, things will be looking up. The team has had some trouble with illness. Several first teamers were out with the flu when we were against WVU's team. Result: CSC lost the meet.

Despite flu ailments and colds, our wrestlers are in great shape. Practice is the clue here. These rugged guys drill for two hours every night. "A wrestler must be in superb physical condition," says Coach Ross.

Besides exhibiting stamina and skill, our wrestlers also provide lots of excitement for the spectator. CSC wrestlers in action are real wrestlers.

## A. V. SERVICE CLUB

The purpose of the A.V. Service Club is to serve the needs of California State College through an efficient audio-visual program. The organization serves both the faculty and the student body. Some of the activities of the club include such functions as the educational film classic series, setting up public address systems, providing equipment at dances, and the maintenance of all audio-visual equipment for campus use. As CSC continues to expand, the members of the A.V. Service Club hope to expand their program also.

110

## BENZENE RING

The Benzene Ring provides an excellent opportunity for all aspiring students interested in science and chemistry to broaden their scientific curiosity in these fields. The specific purpose of this organization is to heighten the interest of the members in regard to carrying on experimentation and independent study. During the meetings of the ring, the findings and results of their analyses are discussed for the benefit of the others present. The most recognized achievement of the club is the annual science fair in which local high schools are invited to display the scientific abilities of their students. Frequent field trips and discussions add to the activities of the ring.

## ***AMERICAN INDUSTRIAL ARTS ASSOCIATION***

Each year the Student A.I.A.A. works with Epsilon Pi Tau in sponsoring the Industrial Arts Open House. This event is to give parents, prospective students, and other interested people an opportunity to see the facilities in the Industrial Arts Department and to observe classes in operation.

This group also worked this year in conjunction with the entire department in demonstrating two new industrial processes at the annual convention of the Industrial Arts Association of Pennsylvania.

Other activities included the attendance of many of the members at the American Industrial Arts Association Convention at Washington, D.C., this spring as well as the attendance of most of our members at the Industrial Arts Association Convention in Hershey, Pennsylvania, in October.

## ASSOCIATION FOR RETARDED CHILDREN

The Association for Retarded Children, now in its fifth year on campus, is open to all students interested in mentally handicapped children. Promoting the welfare of these unfortunate children, the organization strives to maintain efficiency in the methods of educating them, to sponsor programs which will inform the student body of present and future needs of these children, and to develop a recognition of this program. This year the members made a trip to St. Anthony's School for Retarded Children in Oakmont.

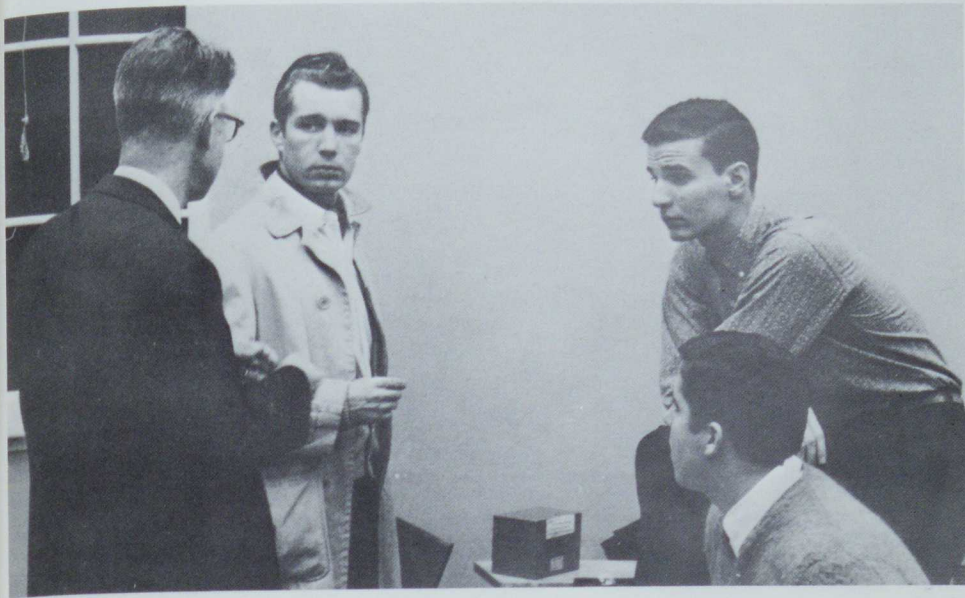

112

## ASTRONOMY - PHYSICS CLUB

The Astronomy-Physics Club has given students interested in astronomy and physics the opportunity to further their knowledge and understanding of our physical environment. To broaden their interests, the club engages in trips to Buhl Planetarium and the Allegheny Conservatory, telescope outings, films, projects related to astronomy and science, group discussions and social functions. The club possesses an eight-inch and a twelve-inch reflecting telescope. The Astronomy - Physics Club is one of the most interesting organizations on campus.

## C.S.C. FORENSICS UNION

Students interested in inter-collegiate debate, oratory, extempore speaking, group discussion, oral interpretation, after-dinner speaking, and similar speech activities make up the membership roster of the C.S.C. Forensics Union. Formerly known as the Discussion Club, the Union gives students the opportunity to participate in inter-collegiate competition. Membership in this organization helps the student to become verbally apt and skillful in the art of communication. Chief objectives of the Union are to engage creditably in inter-collegiate competition and to stimulate other interested students to participate.

## JAZZ CLUB

The jazz club is an association of students who are interested in jazz and its part in the culture of America. An attempt to bring about a better understanding of jazz is made by listening to jazz records and by discussing jazz musicians and the role jazz plays in music and society. This past year the club has held sessions with live entertainment and group discussions, and also has sponsored jazz programs for the benefit of the student body.

Here we are—the ones responsible for the 1965 *Monocal*. Notice that there are four people on the staff, but there were seldom that many at every meeting.

The Idea of the 1965 *Monocal* is a rather novel one—to present a year at California in chronological order and in informal fashion, as things really are. For example, clubs were to be photographed in action and would be placed in the yearbook when they did something, rather than all in a bunch. (To see why this didn't work out as well as expected, see following page)

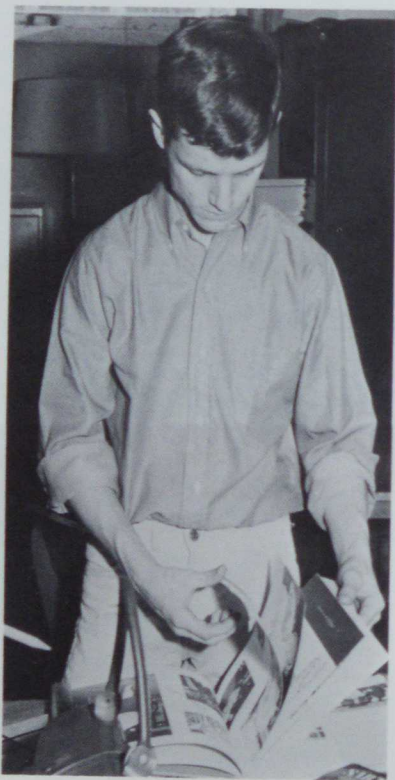

No attempt was made to include everyone in every picture or to identify students, for this is the purpose of a student directory or old-fashioned "annual" rather than a modern yearbook.

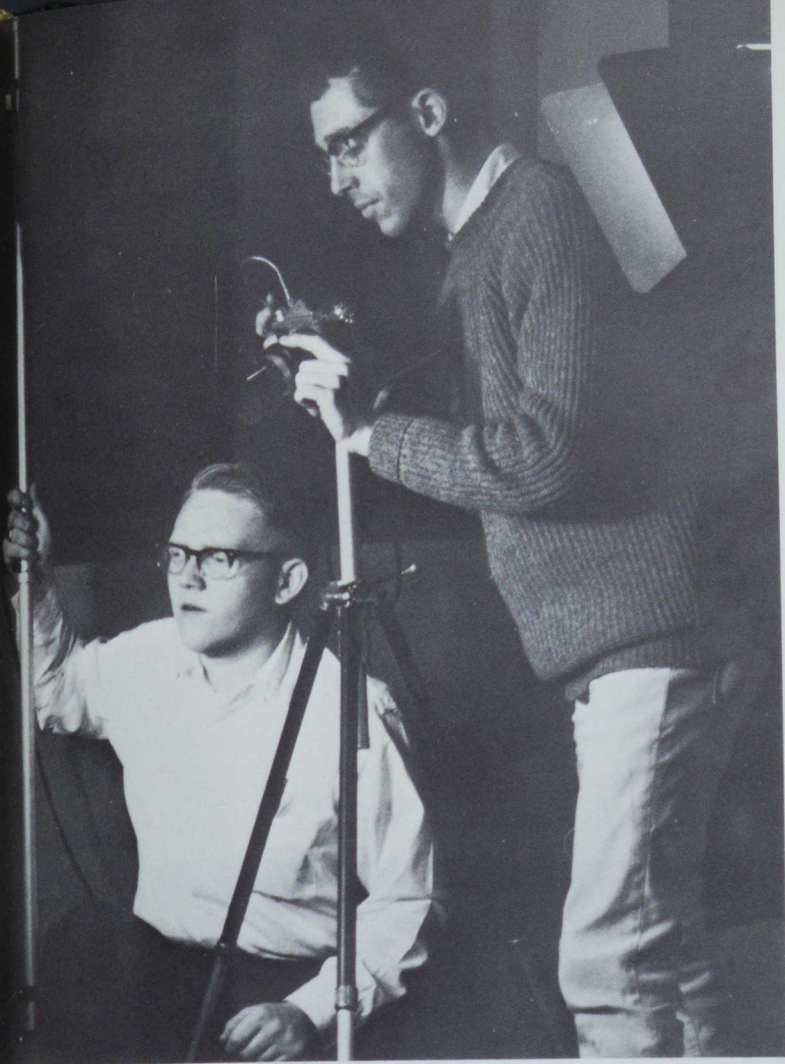

Being editor has been a lot of fun as well as work, and I only hope you will enjoy this *Monocal* as a sort of scrap-book in the future as well as now.

*George Graff, ed.*

## MONOCAL STAFF

114

The Monocal Photo Division is a completely separate organization from the Monocal Staff. It takes the pictures for the *California Times*, *Vulcan Handbook*, college publicity, and many other things, as well as the *Monocal*, and as a result the small staff usually has its hands pretty full. The photo division isn't exactly overstaffed when you consider that they do all of their own processing, except for color work.

The *Monocal* itself is laid out page by page by the Monocal Staff, then the pages are sent over here to the photo lab where the pages are filled with pictures by the photo division. It is they who decide what pictures are taken and used in the yearbook. These pages and pictures are then returned to the Monocal Staff, who does the write-ups etc., and sends them off to be printed.

Sound easy? Try it!

## PHOTO DIVISION

*MR. FARR WENT ALL OUT*

*FOR CHRISTMAS DINNER*

*THE GLEE CLUB VARIETY SHOW  
WAS A HUGE SUCCESS*

119

*SPRING—*

## *THE SPRING TRIMESTER . . .*

. . . was ushered in appropriately at California State amidst the usual blizzards and sub-freezing temperatures. So C.S.C. students settled down to studies, diligently fired with new resolve, especially after receiving the last term's grade sheets. Some awaited graduation, some, the first robin, but most awaited the overwhelmingly generous spring vacation. Yearbook workers were concerned only with their deadline—the last fall's which they had failed to meet. We still managed to squeeze in our broad calendar of social events: the exciting trials of Greek Week and the always worthwhile College Players productions, sprinkled intermittently with bits of baseball, golf and tennis. Thus fruitfully did the spring trimester advance . . .

*. . . AT CALIFORNIA*

124

*OH, THOSE REGISTRATION LINES!*

## *CIRCLE "K"*

Circle "K" Club, a service club, is sponsored by Mr. James Norman. Since last February the club has edited a Student Directory containing the names and addresses of all the students on campus. The club members honored Dr. Kemper for his services to CSC, and made him an honorary member of the club. They sent a delegation to the state convention of Circle "K" Clubs at Penn State last spring. Ron Campbell, a CSC student now student-teaching, was elected to the Pennsylvania State governorship of all the Circle "K" Clubs in the state. The club also conducts annual tours of the campus for prospective CSC students.

## *HISTORY AND INTERNATIONAL RELATIONS CLUB*

The International Relations Club of California State is sponsored by Dr. John Keller. The club is in its eighth annual forum series on current international problems. The club members meet every Friday in Old Science 205 at 12:00 noon. The club also sponsors a weekly lecture series for all interested students and faculty dealing with the Communist challenge to the Western world since the Sino-Soviet split.

## MATH CLUB

The Math Club sponsors are Mr. Frederick Atkins, Mr. Donald Sapko, and Mr. George Novak. The fifty members meet at 12:00 in Main 201, and at 1:00 on Friday in New Science 143. At these meetings students present math problems and topics.

The Math and Astronomy Clubs entered their float entitled "The Sky's the Limit," which was awarded first prize among the clubs.

At their December 6 meeting Mr. Monroe spoke on *Graduate School Opportunities*, and Mr. Bethem spoke on *Plane and Cylindrical Co-ordinates*. In March Professor Roth, visiting Mellon Institute of Pitt from the University of London talked to the Math Club. In May they had a picnic at Luzerne Park. They also attended a meeting at W&J College.

Every year, together with the Benzene Ring, they award a prize to the outstanding exhibit at the Science Fair on campus.

## *STUDENT P.S.E.A.*

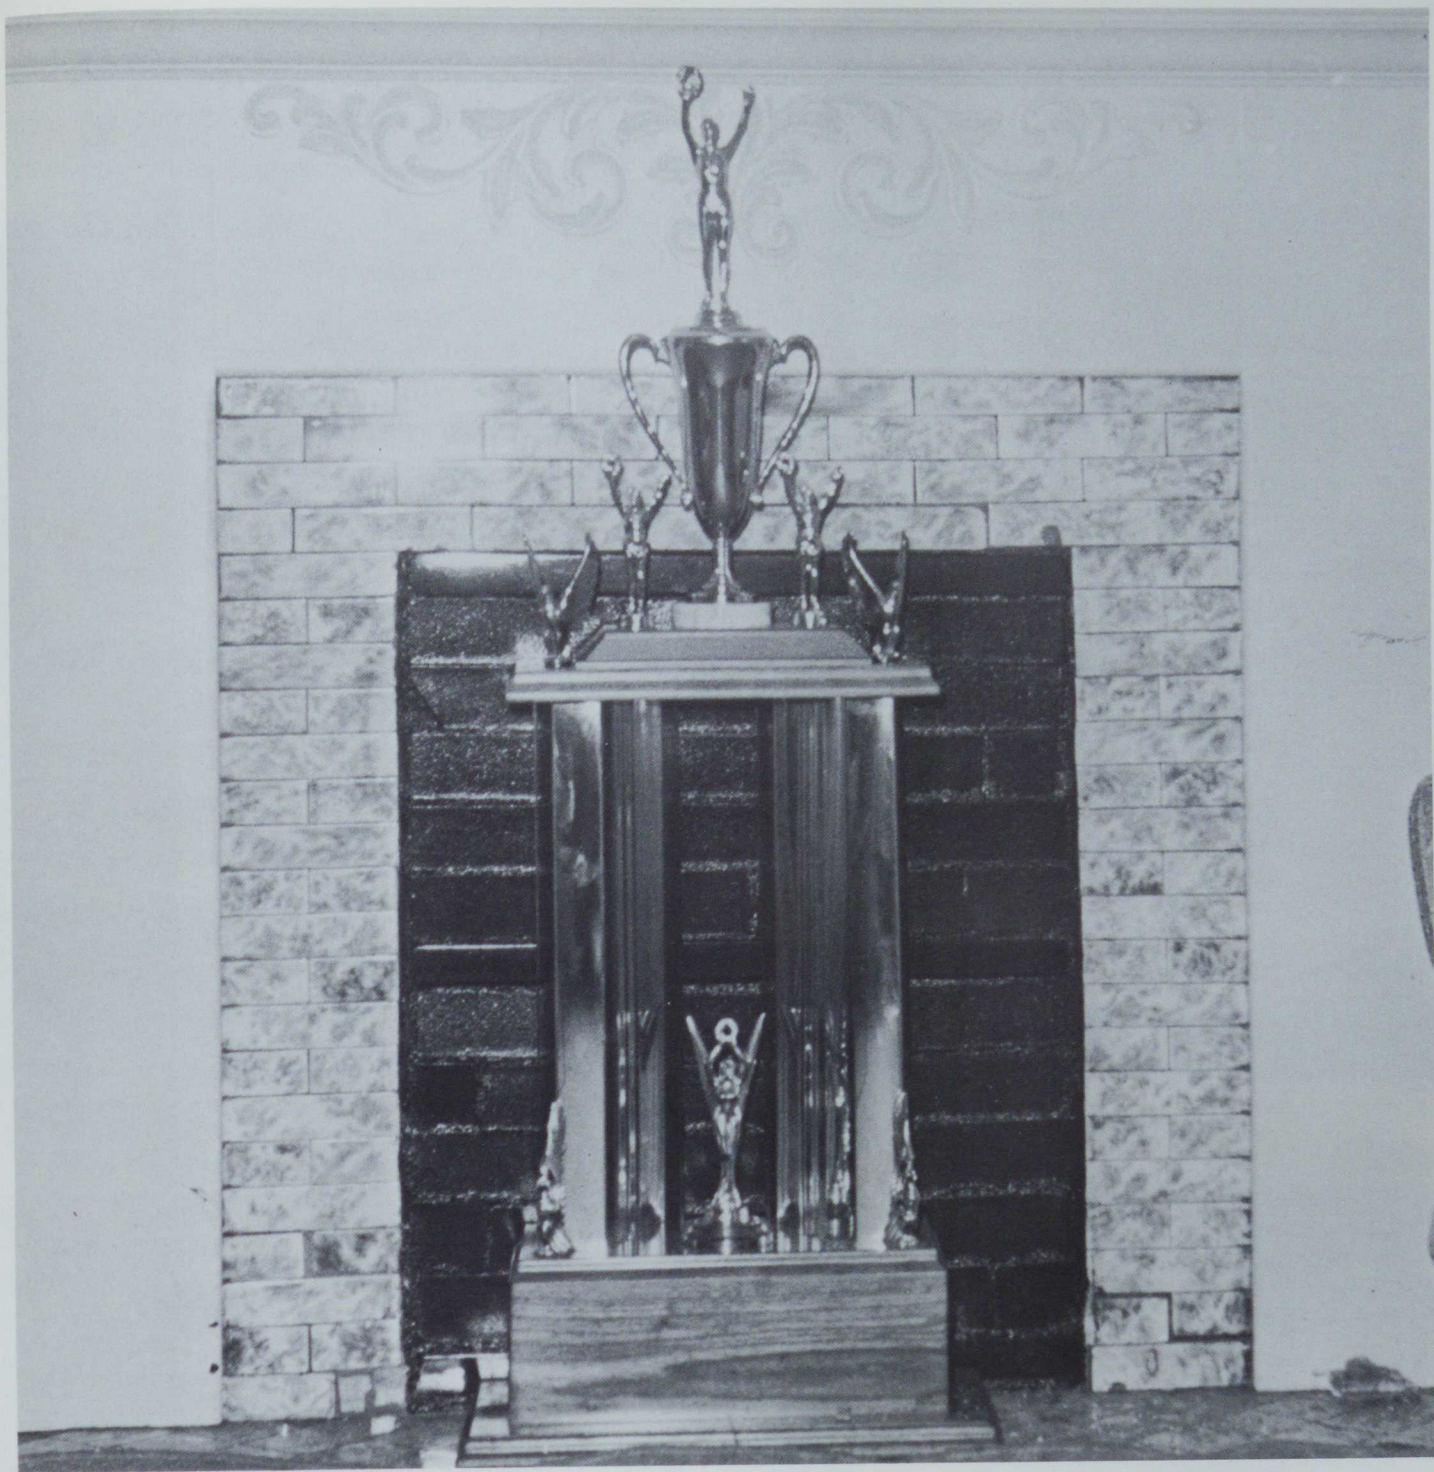

The student chapter of the Pennsylvania State Education Association is the professional association for college students preparing to teach. The Student P.S.E.A. provides opportunities for the development of personal growth and professional competencies; for the understanding of the history, ethics, and program of the organized teaching profession; for the participation in the study of community and professional problems. The chapter at California also offers active membership on the local, state, national, and world levels.

*ALPHA KAPPA LAMBDA HAD A GREAT YEAR!*

130

This year's activities at the A.K.L. House have certainly been many and varied. The brothers are now the possessors of the grand over-all trophy in the float competition at Homecoming, and also hold the honor of being the I.F.C. intramural football champs.

Several local brothers celebrated the A.K.L. 50th Anniversary this year by attending the National Conclave held in Berkley, California. Other local celebrations have been held at the Trocodaro and Linden Hall, not to mention the weekly parties held at the house.

Considering A.K.L.'s many accomplishments during the past year, it is not hard to realize why they won the National Executive Council Award for an outstanding year. This year A.K.L. was really on the move at California State.

## ALPHA XI DELTA CELEBRATES THIRD YEAR

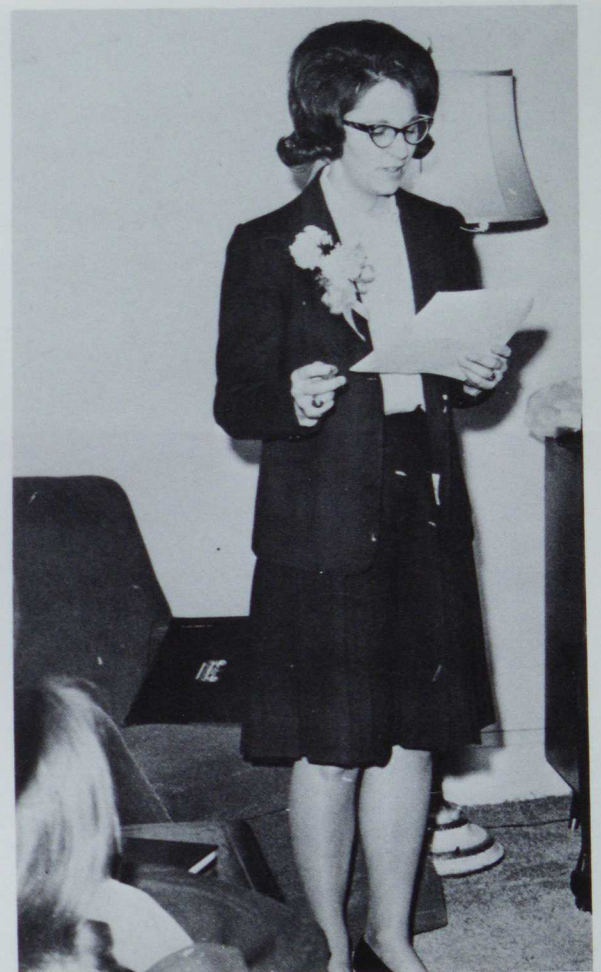

132

As California's biggest sorority, the "Fuzzies" have participated in a wide range of activities, and the sisters have received several honors. California's "Roto Queen" candidate was an Alpha Xi, as was one of the Homecoming queen candidates and one of the girls elected to *Who's Who in American Colleges and Universities*. Sorority honors include second prize in the Homecoming float competition for their entry, "Go West Young Man," and second place in scholarship.

The annual Alpha Xi Delta banquet was held this year at the Park Casino, and the sisters here elected Rich Hasson as the "Fuzzy man of the year" for his contributions to furthering the Alpha Xi cause. Other activities included a visit to the Waynesburg Youth Development Center, a pledge trip to Kent State U. in Ohio, and attendance at the national convention in Columbus, Ohio.

## ***DELTS ARE HERE!***

134

The brothers of Delta Phi Chapter of Delta Sigma Phi have had a prosperous year. In addition to adding color to the snack bar with their green and white jackets, they have made many house improvements and have been socially active.

The Delts are still the IFC Softball champions and are trying in football. They held their third annual Christmas party for under-privileged children, which was considered a fraternal highlight, being covered by both the local news media and a major TV station. The traditional events, such as the Sailor's Ball, the Carnation Ball, and the Founders' Day Banquet, highlighted the Delt's social calendar. The men of the Green and White demonstrate their fraternal brotherhood through their many activities.

In typical Delta Zeta fashion, the California DZs have spent another year with representatives in everything from Co-Chairman of C.S.A. to the Homecoming Queen and court. No wonder this chapter won four trophies for activities, membership, pledging, and their press-book. These awards were brought home from the regional convention, which was held this year in Cincinnati, Ohio.

In addition to their campus work, the girls have managed to give their house a new look inside. One of the rooms was remodeled; much painting was done inside, new furniture and a trophy case were purchased, and even a new housemother was added.

Some of the highlights of the past year with the Delta Zetas were the "DZ man dinner" held at Linden Hall; their annual banquet in honor of seniors and new initiates, which was held at Nicky's Steak House; and a fashion show put on at the Charleroi Elks this summer.

We can certainly see that the girls of the pink and green have been active on campus this year, as in the past.

## DELTA ZETA REMAINS ACTIVE

## SIGMA KAPPAS WORK TOGETHER

138

The Sigma Kappas of California have won several awards this year, including indoor, outdoor, Greek Sing, and overall in Greek Week activities, a silver platter as the most outstanding young chapter of Sigma Kappa, the Pan-Hel scholarship trophy, and an award from their national sorority for having one hundred percent initiation for two years.

When the Sig Kaps aren't riding around on their Hondas or trying to take over Atlantic City (see picture), they may be found remodeling their house, redecorating, telling stories to children at the community library, or just plain talking. And talking.

This year the girls held a faculty tea, several fraternity mixers, and have served on Student Congress, Cabinet, C.S.A., and as cheerleaders.

The Sigma Kappa national convention in Hot Springs, Arkansas, was attended by two representatives from the California chapter. Working together, as their motto says, "One Heart, One Way," the sisters of Sigma Kappa have accomplished much.

*TRI SIGMAS ALWAYS KEPT BUSY*

The sisters of Sigma Sigma Sigma won first prize with their entry in the Homecoming Parade.

The national collegiate chairman visited the campus in October, and the regional meeting of the Northern Region was held in Pittsburgh during the same month.

Their social projects have been many. A Roaring 20's Party, a Swimming Party, and numerous mixers with various fraternities were among them. The Sisters have also been busy selling chances to make money for their Robbie Page Memorial Fund, having Big and Little Sister Parties, arranging a Luau for their Christmas Formal, and are now planning a Spring Festival. (Sounds like a really successful year)

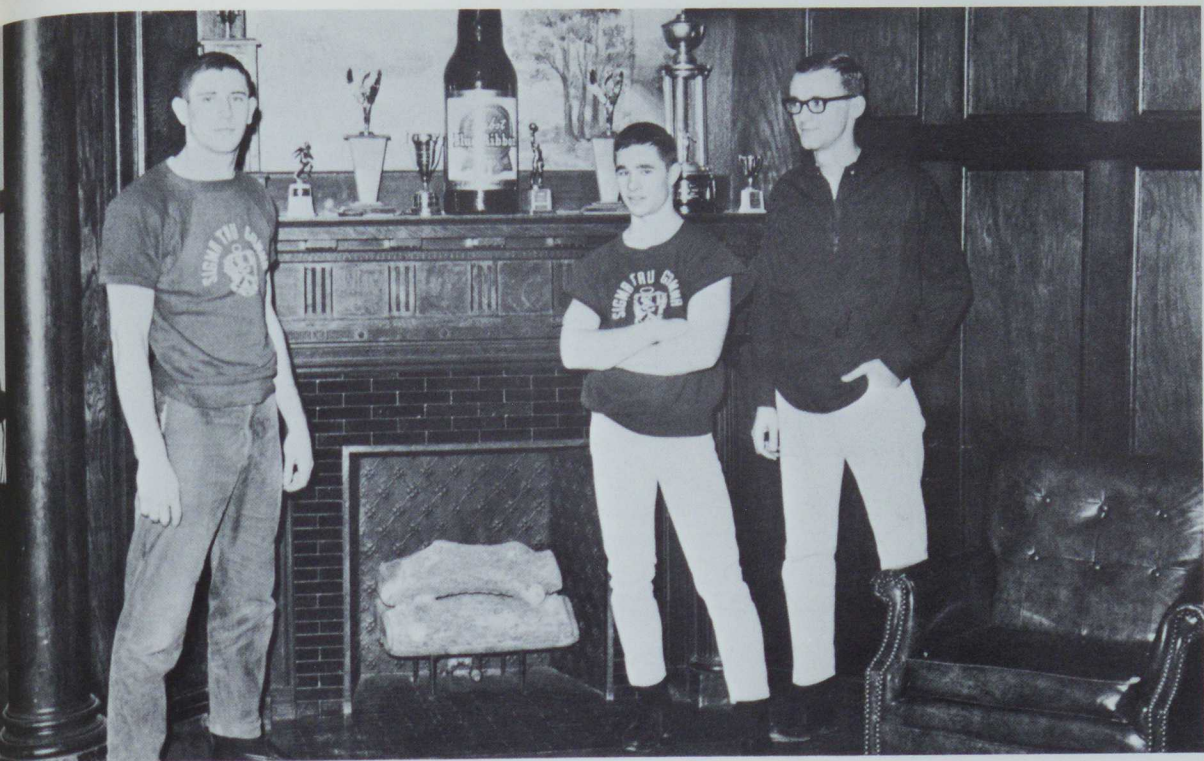

## ***SIGMA TAU GAMMA CONTINUES SUCCESS***

Since the Beta Iota Chapter of Sigma Tau Gamma was installed on November 14, 1959, it has continued to grow and prosper. The fraternity, believing that man is a social creature, strives to fulfill the many needs of college men. House parties, mixers, dances, and sporting events all provide opportunities for the brothers to socialize and learn the true meaning of brotherhood. I.F.C. sports provide an opportunity for the brothers to compete against other fraternities, and this year Sig Tau is the basketball champion of the league again. The brothers are active in varsity sports as well as the many college social functions.

## TKE GETS NEW HOUSE

144

TKE's greatest accomplishment this year was the purchasing of a new fraternity house in Coal Center to replace their temporary abode, "the palace."

The brothers have many other things to boast about, such as the capturing of the outdoor and indoor competition in Greek Week, and the attainment of several offices, such as class presidents, and student directors.

According to tradition, the TKE's have had several private parties which are still being talked about on campus. The brothers held their Red Carnation Ball at the Trocodero, setting an alcoholic consumption record for the Moon Valley.

Their campus activities, victories in competition, and a large calendar of social events gave the men of TKE a better understanding of their principles—a constant betterment of the college program, and the thought that Tau Kappa Epsilon is the "Fraternity for Life."

## ZETAS DISPLAY SISTERHOOD THROUGH PROJECTS

146

This year Zeta Tau Alpha seems to have had something happening all the time. October brought the Founders Day celebration, and sister Lillian Rocco was in the Homecoming court. November brought a candy apple sale, a jewelry show, and the ZTA Man of the Year Party and award. Next came a big-little sister party, Christmas caroling, and a popcorn ball sale.

Spring trimester brings Zeta Week, with pledge initiation and a dinner, the installation of new officers, and senior recognition. Other spring activities include a hosiery sale, a district conference meeting, and a Mothers' Day Program.

CSC's ZTA chapter has certainly displayed sisterhood through their many activities this year, and the sisters are looking forward to many more years as a close, active sorority.

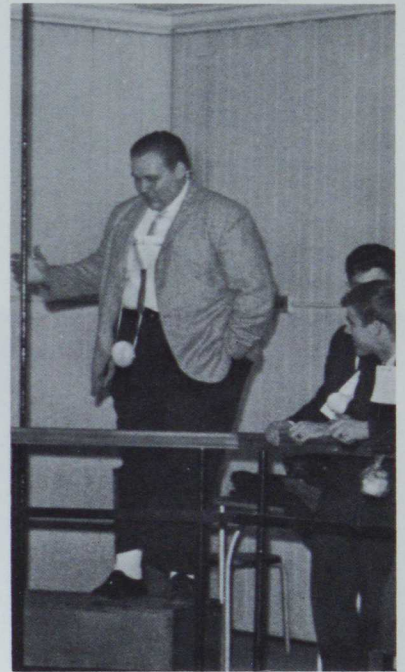

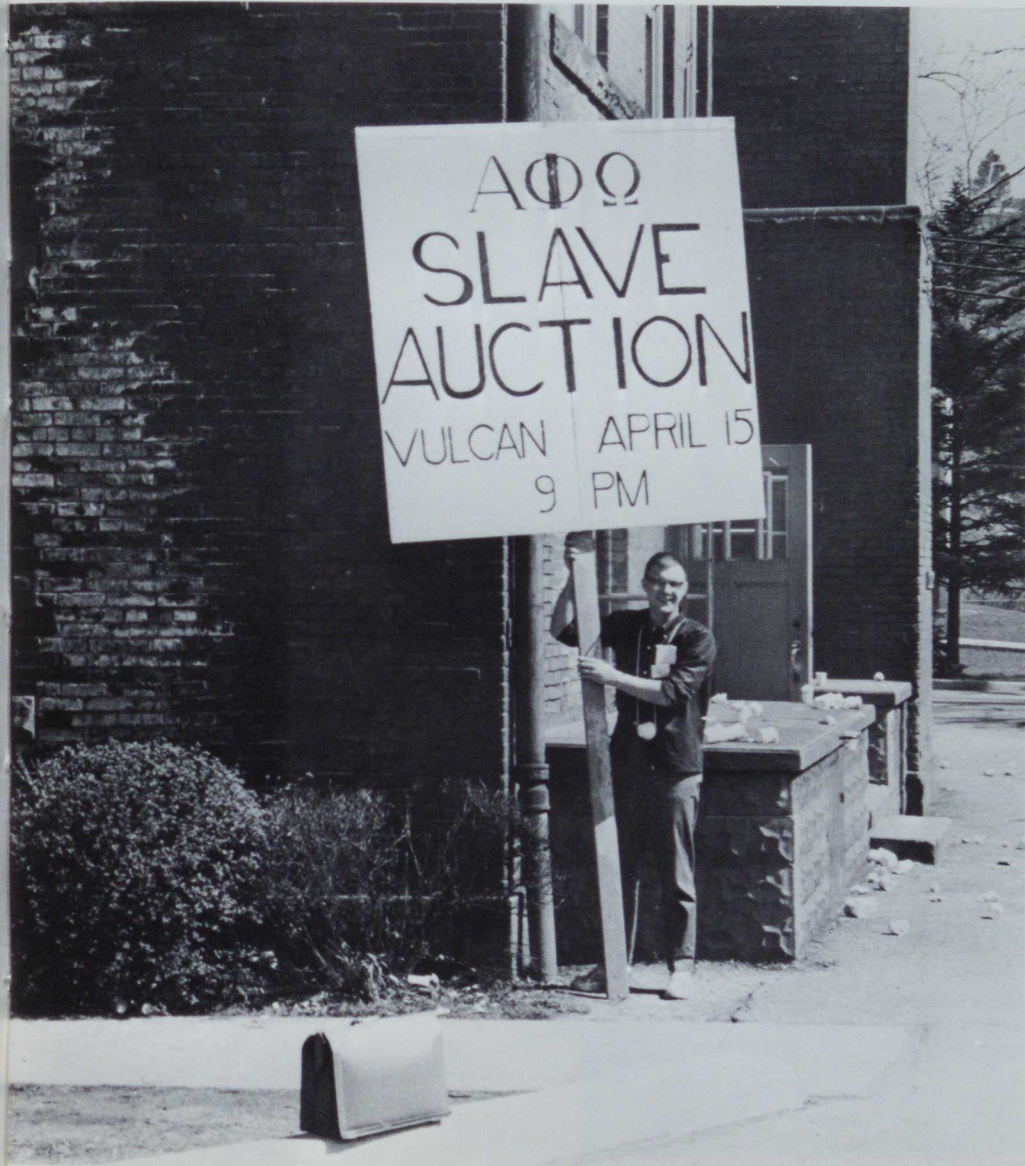

# ALPHA PHI OMEGA — SERVICE WITH A SMILE

148

California annually looks forward to Alpha Phi Omega's fantastic Slave Auction. Since it is a service organization, the brothers are supposed to donate their services to their purchasers for a whole day. Among their other services are the donation of the trash cans around campus and the Used-Book Store each semester. During most on-campus events the brothers are on the scene helping with refreshments and cleaning up. In addition to providing services for others, their main objective is servicing themselves with numerous parties and other social get-togethers. What would we do without the ever-growing chapter of Alpha Phi Omega?

# ALPHA PSI OMEGA

Alpha Psi Omega promotes dramatic excellence both in acting ability and in the appreciation of drama. California's national dramatic fraternity is open to those students who get a certain number of points which are awarded for various dramatic abilities.

One of the responsibilities of a member is to aid the College Players in staging their fine dramatic productions.

150

## *CHI BETA PSI*

15

Chi Beta Psi is California's honorary science fraternity. In order to become a member you must have thirty-two or more credits completed and receive a recommendation from the head of the department. The three central purposes of the fraternity are the stimulation of interest in science, the recognition of outstanding students in the field, and the promotion of social and professional efficiency. They sponsor field trips and the annual science fair as a means of accomplishing these goals.

152 *EPSILON PI TAU*

The purpose of Epsilon Pi Tau is to realize the place of skill, promote a professional approach and to encourage research, publish and apply the knowledge gained by this research.

Epsilon Pi Tau is an international honor society in Industrial Arts and Industrial-Vocational Education.

Applicants need at least a 3.00 average in their major field of study and a 2.00 or above in subjects outside of their major field.

## GAMMA THETA UPSILON

153

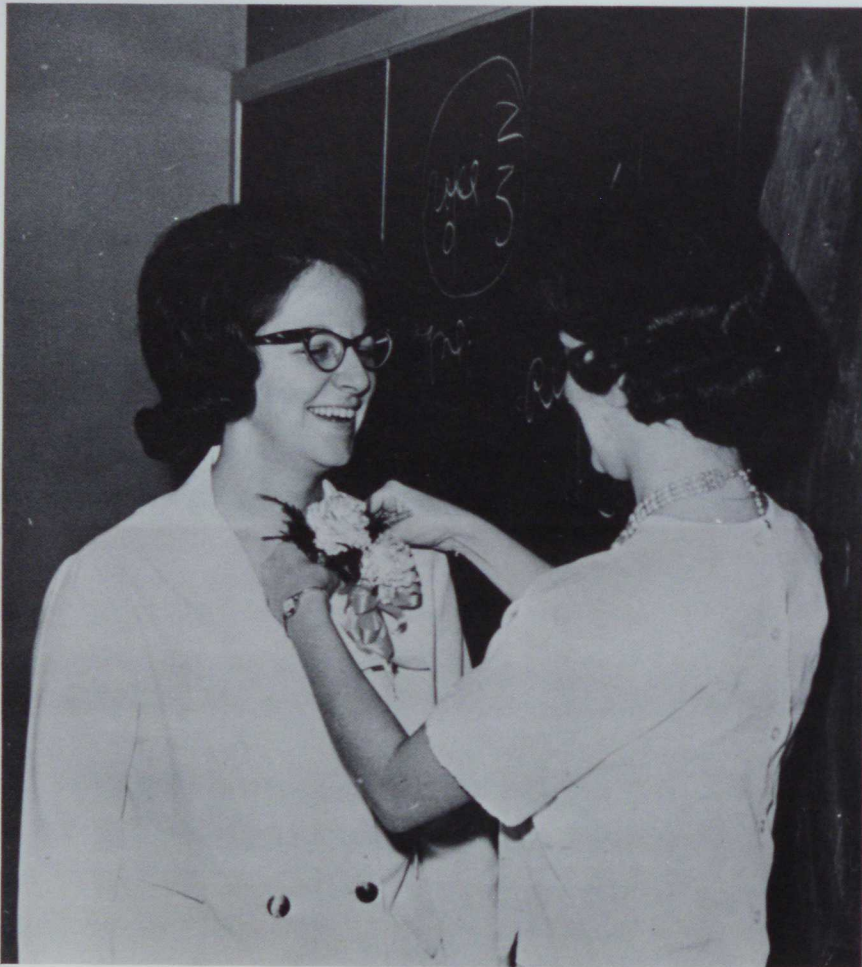

Gamma Theta Upsilon, the national professional fraternity in geography, has successfully completed its fourth year on the campus. Among its purposes are to further interest in geography by affording a common organization for those interested in this field, and to create and administer a loan fund for furthering graduate study or research in the geography field.

Membership is open to any student who has had six hours in geography with above a 3.00 average.

# KAPPA DELTA PI

54

Since the qualifications for membership in the Epsilon chapter are high professional, intellectual, and personal standards, as well as a cumulative average of 3.00 or more, only the elite of women education majors are eligible.

The members meet twice monthly for alternate business and discussion periods.

Joining with Phi Sigma Pi, the men's honorary education fraternity, for a gala banquet is their major social event.

## *PHI SIGMA PI*

California's equivalent of Phi Beta Kappa is Phi Sigma Pi, a national honorary fraternity founded on the principle of superior scholarship for the purpose of advancing educational ideas.

Twice a month these intellectuals meet to discuss problems of philosophy, theology, and psychology. Often an outstanding speaker is invited to the meetings.

The brothers take great pride in their annual Founder's Day Banquet.

## *GAMMA BETA PSI*

On November 4, 1964, another Greek organization was added to the California State College Campus. Gamma Beta Psi, an honorary science sorority, was organized for the purpose of recognizing scholastically outstanding women science majors and to stimulate further interest in the sciences and related fields.

Since the founding of the Chapter, members have gone on a field trip to the West Virginia University Medical Center and have had several speakers. Future activities include a field trip once a month to research labs or scientific institutes and lectures by noted men of science.

## CALIFORNIA TIMES

The California Times staff, under the direction of Bobbi Gasper, works diligently in their spacious office in Vulcan Lounge.

The staff works hard to publish the paper each week, which is full of interesting articles about various happenings on campus. Much effort has been made to keep the students of C.S.C. well informed. New columns have been added, and more are scheduled for the fall trimester.

The newspaper staff does its best to publish a paper that will be of interest to all readers.

157

## COLLEGE UNION BUILDING COMMITTEE

158

The purpose of this committee is to arrange for the construction of a student union for the students of our college. The committee was formed in 1961 to undertake the planning with architects, the fiscal arrangements, and to supervise the details of the future utopia for the students' free time. Some of the planned functions of the new union will be a television room, publications offices, photo lab, snack bar, a dance hall, and provisions for studying.

We hope that the plans start taking definite form soon!

## ***STUDENT CABINET***

Student Cabinet is the organization that tentatively allocates your student activities money to the clubs and organizations on campus. Requests for money are received from each organization, reviewed and revised if necessary, and the recommendations of Cabinet are presented to Student Congress for approval.

California is one of the very few schools where the money for activities is allocated by the students themselves. The Student Cabinet has no real power itself, but can serve only as the executive body of Student Congress, making only recommendations.

An organization on campus since 1934, the ICG strives to provide its members with a clear understanding of governmental proceedings. In the words of the organization, "Our purpose is to provide a means whereby students may learn together how the government operates."

The ICG is planning a field trip to Harrisburg for the first week of April. At this time the members may take part in actual government proceedings.

## COLLEGE-COMMUNITY ORCHESTRA

After official recognition was given by the Chairman of the Fine Arts Dept. and the College Administration Professor Leonard M. Colelli started forming the California State College-Community Symphony Orchestra. Four months later the first concert was presented in Steele Auditorium on Wednesday, June 5, 1963. The orchestra has given concerts in California, Monessen, Brownsville, and Ohio. The College-Community Orchestra enables these people to make use of a talent which otherwise might become stagnant. It also supplies an outlet for the emotions of the artists, breaks the monotony of daily life, and gives them a sense of satisfaction from being with others who share the same interests. It provides a means of solo work, both vocal and instrumental, with orchestral accompaniment for students and community residents. Visiting artists are encouraged to perform as well as to conduct the group.

A drawing together of the community and college is hoped for with the availability of a social life and allied activities. Members of the orchestra are from a five-county area and now total sixty. Among the members are professors, their wives, students from the college, and musicians from the surrounding area who have an interest in classical music. The orchestra, directed by Professor Leonard M. Colelli, is rehearsing for the eighth concert, which denotes the success of the orchestra and the interest of the communities.

# BASEBALL TEAM HAS UNLUCKY SEASON

Coach Mitch Bailey's baseball team wound up the season with five wins, seven losses. Outstanding players of the season were Casper Voithofer (.348) and pitcher Joe Katko. Both have been lost with the graduating class of '65. Other graduates who will not be returning are Tom Virag, Gino Pushic, Don Smith, and Ted Coleman. The new season will have the following comebacks: Ted Barnett, John Cott, Bernie Kayoclay, and Mike Leson.

Good Luck, Team!

Tennis Coach Allen Welsh's team won three of five conference matches and five of the twelve matches scheduled.

CSC had won 17 straight conference matches until the loss to Edinboro this season.

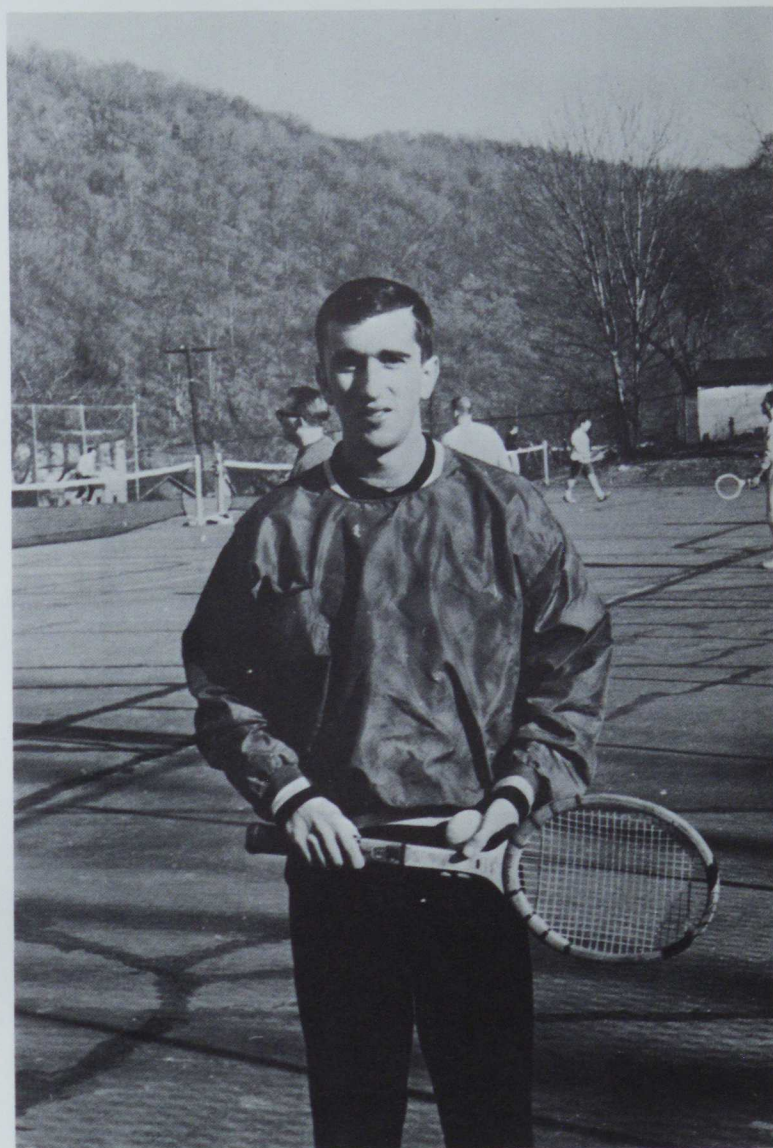

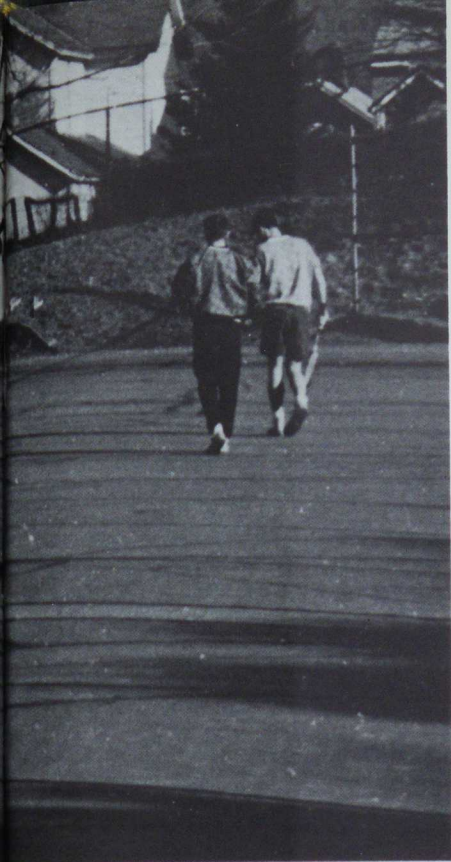

In addition to Chris Howells, number one player, and Richard Saccani, the only veterans returning from the 1963 state championship team, Ron McPherson, a most promising freshman made the team. Another freshman, Richard Gaydos, won 4 matches at the 5th team position.

Varsity members playing in team matches were: Bruno Zenone, John Tweardy, Keith Biller, Tim Kowalchick, Paul Hoover, and William Berry.

*SCENES ABOUT CAMPUS*

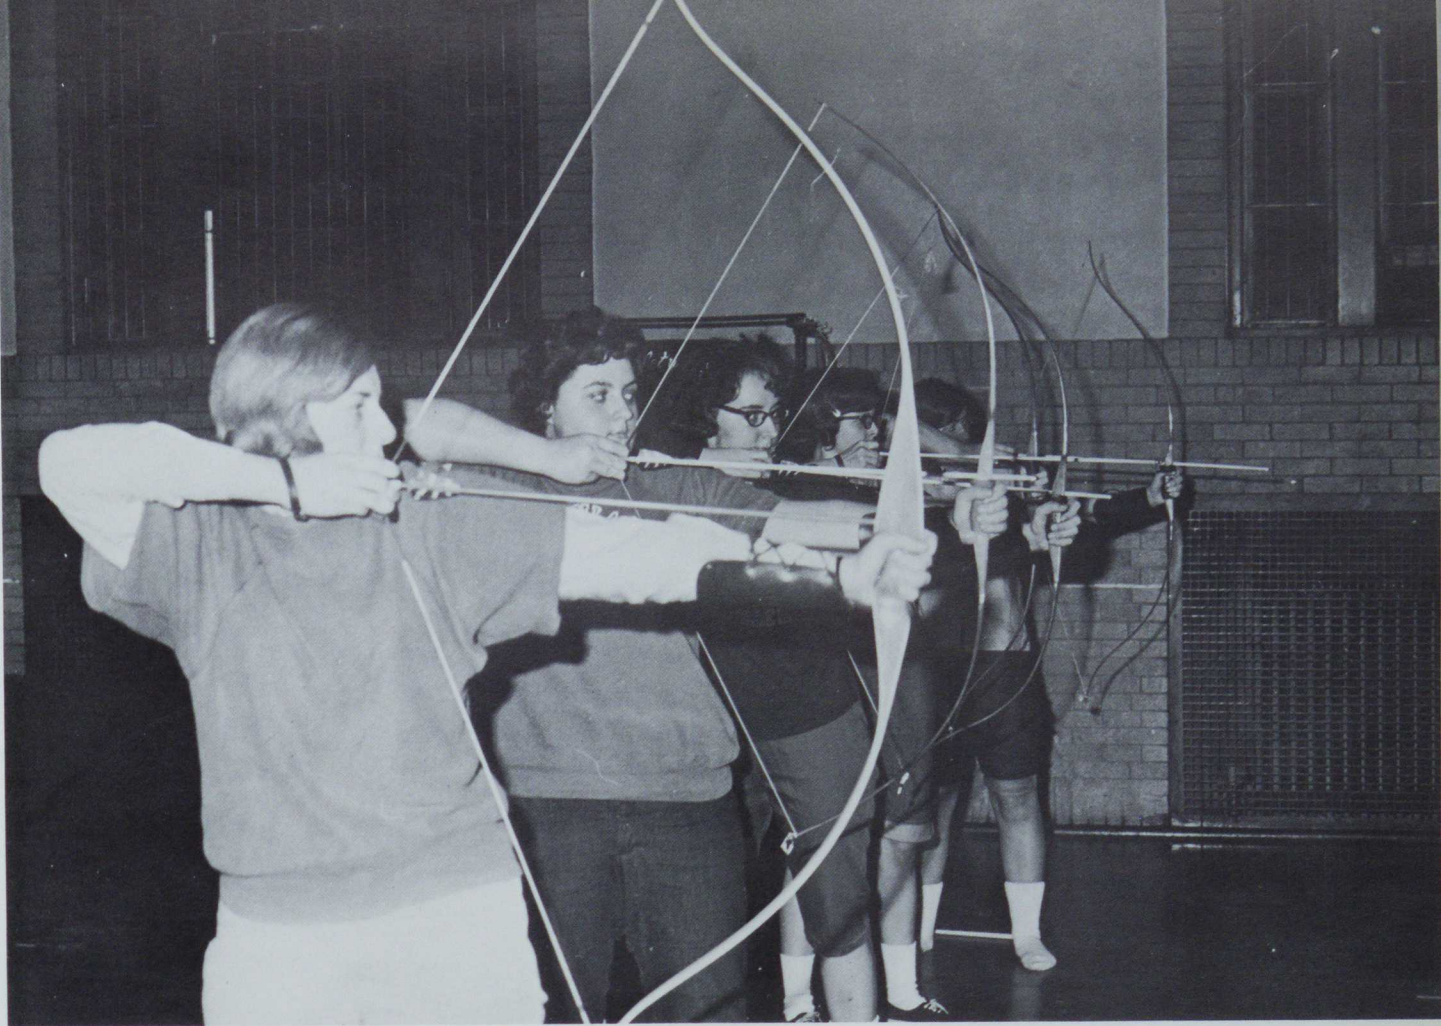

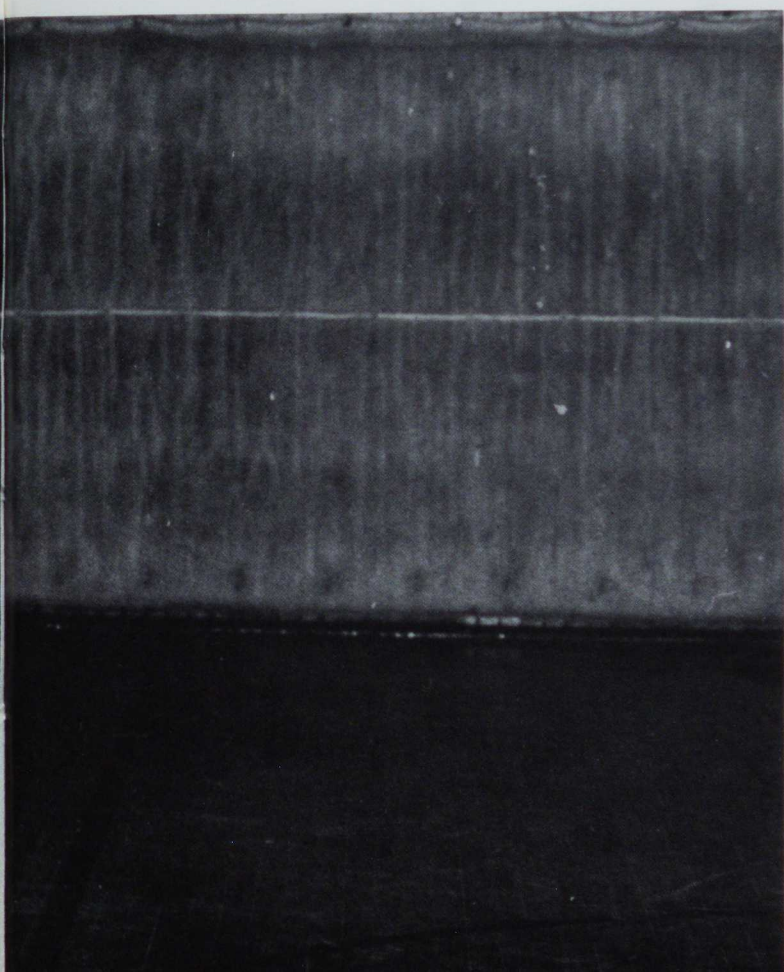

W.R.A., the Women's Recreation Association, strives to provide for physical and recreational activity by offering a variety of team and individual sports. Activity clubs such as basketball, volleyball, and tennis compete in intercollegiate events. Along with providing sufficient physical activity for the women students, W.R.A. encourages good sportsmanship, loyalty, cooperation, and leadership in sporting events. Every woman enrolled in CSC is eligible to join W.R.A. Membership requires only active participation.
