

Dudley Mann

I was asked by several people last week why I didn't have more signs hanging around the Husky and other buildings. The answer is very simple, unlike candidates of the past I felt no need for smearing my name all over our fair campus. I felt this year students would vote for the candidate and his platform and not for a name on a sign. So here it is 'folks, my platform:

1. Communications - what's going on?

This is a pet criticism I have

CGA Presidential Candidates **Present Platforms**

running this college. I believe judicial proceedings should be printed in the MAROON - GOLD, Whenever any action is taken against anyone in the college community the facts should be presented to the community. This will serve as a check on the Administraterial and Judicial procedures. Also, as college council president it will be my duty to inform you by periodic messages in the newspaper as to what is happening. This is one step which must be taken to eliminate this rumor ridden school.

2. Joint Statement on Students Rights

Much of the crying done by students was brought about by violations of their rights. It is a known fact that students are being pressured in private meetings with the administration. Again it is known that administrators are giving opinions of students to professors and outsiders. My purpose would be to set up a committee well read in the Joint Statement to listen to any violations a student may wish to bring be-

of people who are supposed to be fore the committee. The committee would then hold hearings, make a decision and send it to the community government for further action. The Joint Statement can be the document to unite the student body in a defense against past and present tactics used by our college heads. 3. A student-faculty Senate

This document has the greatest potential for self government than any other attempt made at this college. Students and faculty working together to govern the college as a modern educational institution should be governed. This document could make it possible to eliminate the office of Dean of Students and Dean of Instruction and replace them with Committees of paid students and faculty. Perhaps under this constitution a committee can be set up to advise and help the Board of Trustees make decisions. The Trustees have been away from the education institute for so long they might be confused on how a more up to date college is run. 4. New Committee — Campus

(continued on page four)

Michael Pillagulli

We are all well aware of the upcoming CGA elections. I would like to urge each of you to get out and vote on March 16th and 17th. It is your CGA, so why not get out and support the candidate of your choice.

If you are undecided about who to select, I wish you would consider some of my qualifications. I have worked on many organizations and sub-committees of CGA. and know how to get things done in the proper way. I am cochairman of Freshman Orientation and a member of the Executive Council of student affairs. I was an active participant in the adoption of the AAUP Joint Statement for Bloomsburg State College. I was recently elected by CGA to be on a newly formed Grievance Committee for students who feel that their rights have been violated. I serve as a Resident Advisor in Elwell Hall. I have always fulfilled my responsibilities with sincere interest and desire. If elected, I President of CGA.

will work with AND for all factions of the college community. BSC is a place that is in need of necessary changes, and it is my intention to move us forward and not keep us at a status quo. Please get out and vote. It is disappointing to see that only one-third of the students voted in the primary election. If this is the case in the final elections. the President of CGA will not truly be a representative of the majority of students. So when you go to the polls, Just Don't Settle. . .Select, Mike Pillagalli

On March 17, 1970 The Society of Physics Students and the Department of Physics of Bloomsburg State College will present a free demonstration lecture entitled "Lasers and Holography Today and Tomorrow" by Dr. John T. La Macchia, Bell Telephone Laboratories, Murray Hill, N.J. Holography, the science of threedimensional image reproduction, is an outgrowth of Laser Technology developed since 1960.

Dr. La Macchia is the supervisor of the Optical Interactions Group at the Bell Telephone Laboratories and is responsible for studies of techniques for the deflection of light, and the storage of optical information.

After joining Bell Laboratories in 1966, Dr. La Macchia became engaged in studies of the use of holography for optical memories. He was promoted to his present position in 1968.

A native of Washington, D.C., Dr. La Macchia received his Bachelor of Electrical Engineering and Doctor of Philosophy degrees from Catholic University in 1963 and 1966 respectively. He is the author of a number of articles on holography, optical memories, and light scattering. He is a member of the Optical Society of America and the honor societies Sigma Xi and Tau Beta Pi.

This program, designed for general interest, is to be held at 8:00 p.m. in Kuster Lecture Hall, Hartline Science Center, Bloomsburg State College. The Society is presenting this program as part of an all day program including the installation of Sigma Pi Sigma, Honorary Society in Phy-

sics. Sigma Pi Sigma is a nationally recognized honor society within the Society of Physics Students. It is a member of the Association of College Honor Societies and is an affiliated society of the American Association

(Continued on page four)'

Final elections for CGA and Class Officers will be conducted on March 16th and 17th, between the hours of 9 a.m. and 4 p.m. in Waller Hall (opposite the faculty Lounge), I.D. cards must be shown in order to vote and no campaigning will be permitted within 20 feet of the polls. In the past, many votes have been wasted because some students and faculty members do not know how to operate a voting machine. The following instructions should aid those members of the college community who are not familar with a voting machine.

1. Walk into voting booth.

2. Pull the curtain completely closed.

3. Pull down the lever by the name of the candidate for whom you wish to vote.

4. LEAVE the lever down. 5. Open the curtain.

6. Leave the voting booth.

If you make a mistake, i.e. pull down the wrong lever, push. that lever up and pull down the correct one. Your vote is recorded when you open the curtain. Any questions contact Glo Wilson, Box 482, 784-8687, or Husky Lounge.

Briets Art Club Formed

News

Several interested members of the college community met on Monday, March 9, 7:30 p.m. in Navy Hall to explore the formation of an art club, Ideas Unlimited.

The club's constitution was reviewed, but it was decided it would not be acted on and sent to the CGA for approval until another meeting could be held involving more persons interested in the club.

A second meeting has been scheduled for Monday, March 16, at 7:30 p.m. in Navy Hall to continue exploring formation of the club. It is hoped that more members of the college community interested in art will attend to make formation of the club possible and worthwhile.

Mohawks Present MONDAY, MARCH 16, 1970 3:00-4:00 p.m., Kuster Auditorium, Hartline room B 134, INDIAN-MADE FILM FESTIVAL 7:15 p.m., NEW NORTH HALL LOUNGE (all welcome),

WHITE ROOTS OF PEACE a program of Iroquois insights into man's relation to Nature and his fellow men; discussion; Indian fellowship dance for all present; Indian-made films Sponsored by the BSC Arch-

aeology Club, courtest of Artists and Lecture Series.

(continued on page four.

The Archeology Club or Bloomsburg State College will present a two-part program centered around the American Mohawk Indians on Monday, March 16, 1970. The public is cordially invited.

Archeology Club Presents

From 3:00 to 4:00 p.m., a program entitled "Festival of Movies Made by Indian Filmmakers" will be presented in Kuster Auditorium of Hartline Science Center. The second part of the program will be presented at 7:15 p.m. in first floor lounge of North Hall and will be entitled "White Roots of Peace." This program consists of a group of nine Indians members who will be speaking in Mohawk and English on principles of Iroquois League founded by Hiawatha, Indian reverence for nature and ecological balance, and contemporary Indian aspirations. This presentation will be followed by a dance of fellowship for all present.

The White Roots of Peace group has travelled very extensively across our country. They have met with the Chickahominy, Choctaw, Cherokee, Cousha tta and the Pueblo people in New Mexico since January, 1970.

Last fall they visited the Pomos, Hoopas, Shoshones, Paiutes, and other Indians of California. They have had meetings at the University of Florida, Utah, California and Washington and about 40 other campuses during the past five months.

They are visiting Indian groups to extablish Indian unity, Indian strength, and the vitality of Indian tradition. For non-Indian

groups, they hope to bring un derstanding of Indian - non-Indian relationships, of Indian ways of peace, and of the need for better treatment of our mother, the Earth. With their current interest in ecology, intergrour relationships, peace, and Indian matters, their message is very timely.

At the college, the Indians members will be speaking to classes and possibly hold an open meeting. There will be plenty of time for informal discussions with the group during the day. It's interesting to note that the White Roots of Peace group are

(continued on page four)

Center Opened

In keeping with the need to make available a wide variety of counseling services to stu dents seeking assistance, the Community Ministeries, a group of local lay and religious leac ers, have agree to staff a "Cen ter" on campus. In keeping with widespread practice among state and private colleges across the country, the Center will work strictly on a none-sectarian bas is, with any person who seek: its help.

Staffed on a rotating basis, th Counselors will maintain a sched ule of weekly hours which will b described in a printed brochure The Center will be located i Room 203, Waller Hall. Student desiring to use the services (

٠.

A Government of Law...

by D. G. Porter

The Board of Trustees on July 7, 1969 published a statement informing students that 'Bloomsburg State College believes in a government of law and not men'. Students were further advised in the statement that they were not to engage in violent demonstrations to pressure men into change but rather were to change the laws peacefully if they didn't like things.

Not liking things last year the students tried to get a new college law adopted called the Joint Statement on Students Rights. This winter thanks to Pres. Nossen the new law was adopted by the Board of Trustees.

Unfortunately, a large number of recent incidents make it clear that the College administration does not believe with the Trustees in a government of law but rather they obviously believe that men (themselves) are above the law.

Dean Hunsinger on Feb. 16th, hearing that three students 60 miles away from the campus had allegedly gone on a drunken orgy of stealing and breaking into cars, suspended the students for two weeks. By this single action he violated the Joint Statement in three different ways (cf. pp 15, 19, 20).

When the students returned to the campus on Monday March 2nd, they had a hearing before Dean Norton. He suspended them indefinitely despite the fact that they had been cleared by the civil authorities of all charges and had violated no college rules. This action by Dean Norton involves six violations of the Joint Statement (cf. pg. 17). Even though the parents of the boys questioned his action they did not receive a hearing before the Student-Faculty Judiciary but were instead told seen the S-F Judiciary throw out a case against Elmer Chase because the Deans had violated the Joint Statement. The S-F Judiciary doesn't want to be sued. Dean Hunsinger misinformed me when he told me I couldn't accompany the boys (at the parents request) into a hearing before him. He told me that it wasn't a disciplinary hearing, that no disciplinary action was to be taken. Then he suspended them until Sept.

Pres. Nossen (sorry kids, no "new era of justice") sent me a memo on March 4th reporting on his investigation of the affair. In it he said the Executive Council of the Student Affairs Committee had decided that disciplinary action was to be taken against the three boys. According to several members of the Executive Council they made no such decision. Obviously someone on the Dean of Student's Staff is giving false information to the President. This is a practice of some members of that staff of which the President has been apprised over this past year by several people including myself.

I think there is a State law which says that public officials must not consciously utter untruths and must correct, publicly, untruths which they inadvertently spread.

A government of law and not men? I don't see any laws around here; all I see is a bunch of men.

Elections...

Rakowsky Raps on Freedoms and Responsibilities

by Stan Rakowsky "These pigs who are in power have no concern for the rights of anyone except themselves and should be removed from office. The system or the establishment which is run by these pigs, is wrong and must be changed, by force if necessary."

These are just a few of the remarks indicitive of those made by the insurrectionists who were recently found guilty in the Chicago riot trials. They made a complete mockery of our court system and a duly constituted official of the court, the Honorable Julius Hoffman. Yet in spite of the contempt in which they hold our system, they are free today because of this very system which they so despise.

Judge Hoffman should be commended for the strict manner in which he conducted the trial in view of the extenuating circumstances which engulfed the courtroom. He was definitely justified in sentencing these criminals to jail for contempt of court and that is where they should have stayed. They openly advocated the overthrow of our goyernment and should be regarded, as Judge Hoffman classified them, as detrimental to the wellbeing of our society. But as been so unfortunate with similar cases in the past, these radicals have been released by some high-up court official who is apparently listening to the whims of this vocal minority of troublemakers, who interpret the idea of personal rights beyond the point of sensibility, instead of doing what is correct. It is because of soft court officials and laxidasical state and local administrators such as these that our society is in the disheaveled condition that it is today. If after being proven guilty by trial by jury, punishment for these criminals was swift and severe, I believe that our entire society would be strengthened.

I believe that this same "gettough" policy should be applied to colleges where proven nondesirables and radical insurrecciety in which they cannot possibly function should remove themselves from the society to one which is more to their liking or should be expelled by that society as swiftly and expediently as possible!

Addendum

by Martin Kleiner

In his article, Stan Rakowsky speaks of terms indicative of the "Chicago Seven." Well, just last week District Attorney Foran "sunk" to the depths of name calling and I quote from Newsweek magazine from the week of March 2. Mr. Foran in an interview stated summarily that he thought "...that all defendants involved with the exception of Bobby Seale; were faggots."

As for his "Mockery of our Court System" Mr. Rakowsky fails to mention Hoffman's treatment of Bobby Seale; was this: not a travesty of justice or is our judicial system now allowing "cruel and unusual" punishment to go on right under its noses.

He also states that these criminals (politicos) should be dealt with quickly; so out goes our system of appeals.

Further in Mr. Rakowsky's section of Forum, he notes a vocal minority and what it's doing; could it be that Stan is insecure of his or the Nixon position, which is one of silencing any opposition to anything but agreement.

In his closing paragraphs he takes a weak and myopic slap at the Primack affair. He suggests that his is the majority op-

inion...I have yet to see the facts. In closing, when speaking of revolution I would like to leave Mr. Rakowsky with this indirect quote "that when government fails to serve the people it should be over thrown". I believe this can be found in our Declaration of Independence. To say more would be useless.

"Bang bang, Maxwell's silver hammer came down upon their heads"

Unless something desperate happens, Primack is out. And we still don't know why. Could be Principal Nossen, could be the F.I.B., we still don't know who's doing it. But the rumors go on.

Rumors, vicious ones, ones that link Primack with all sorts of things. Like moral purposes. Like being part of the Chicago conspiracy. And the stories that 100 or more students have signed a document saying when Primack goes, they go. And the whispers of confrontation. And the State Police standing by. Weird.

Weirder still, the administration is strangely silent all of a sudden. The next Academic Forum, the one to make up for the one that wasn't finished, hasn't materialized. And here we are, with no basis for Primack's ousting. But maybe, just maybe, the mum bit has a purpose. Whenever the administration is caught doing something naughty (like that still unexplained illegal questionnaire), whenever they're ques-

to take their appeal to Dean Hunsinger (a procedure nowhere prescribed). Another violation of the Joint Statement (cf. pg. 20)

Dean Hunsinger told the boys they could come back in September.

The result of all this for the boys? Parents and townspeople are making them pay in shame for what they did on Feb. 14th but on top of this they are to lose time on their education and suffer exposure to the draft.

Norton misinformed the boys when he told them that they would receive the same punishment from the Student-Faculty Judiciary as they would receive from him and Dean Hunsinger. Norton had just the previous week coincidental,

Well, it looks like the elections of the Community Dictatorship Syndicate are upon us again. The students can now exercise their perogitive of electing the most incompetent members of the college community to posts fitting their intelligence. Now is the time to throw away all morals of decency and resort to the American way of politics; namely, graft, bribery, and mudslinging.

No one in the election campaigns seems to be a better dirt-flinger and babbling idiot than that femme-fatale of BSC, Ike Sillygirly. That blood-thirsty gutter-snipe has spread malicious fabrications about his op-

cionists detrimental to the good	
of the entire community should	
be gotten rid of. This policy	
should be applied to be the stu-	
ients and faculty.	
-	

At times dissent is necessary for it keeps those who are inpower on guard against being corrupted by power. But those who advocate and take part in the overthrow or the attempted overthrow of our way of life, a so-

ponents to such an extent that it would seem VP Hagnew (a rare African animal of some sort or another) and Bean Dungslinger have finally met their match (a real flamer). These tactics may not be a good and honorable way of winning; but it's sure one way of throwing the election. Yes, the type of Sillygirly can be traced through the all time greats of history; such as: Ivan the Terrible, Attila the Hun, Cortez, Genghis Khan, Fu Manchu, Richard Nixon, and Benelux the Incompetent.

But what are those weird rumors that are spreading like the smell of a week-old corpse? One cannot simply give you the DOPE on all this without asserting that there is some PILL responsible. This blight should be sent away on an Egyptian GAL-LEY. We do not mean to RAOD the sanctity of any MANN'S apartment; but when someone takes advantage of such a situation in order to spread his foul and dispicable comments about the college thus making it easier for him to win the gallowed office of President, we cannot sit idle. Believe not the voice of this, effete, impudent snobl Fall not

BSC Sends Eight to NAIA Tournament at Wisconsin State University

Husky Grapplers Prepare to Leave for Wisconsin Journ.

Bloomsburg State College will ney: Michael Shull, Newport, 118 be represented by eight wrestlers in the NAIA wrestling tournament to be held at Wisconsin State University, Superior, Wisconsin, March 12-14,

Coach Russ Houk and his squad left Bloomsburg by plane Wednesday, March 11, and arrived in Superior late in the afternoon. pounds; Wayne Smythe, of Lancaster, at 134 lbs.; John Weiss, Summerdale, at 142 pounds; Arnold Thompson, team captain from Washington, New Jersey, at 150 lbs.; Douglas Grady, Hat-boro, 167 lbs.; Floyd "Shorty" Hitchcock, Stevensville, 177 lbs.; Ronald Sheehan, Drexel Hill, at

190 lbs.; and Robert Hummel, Lemoyne, heavyweight.

Bloomsburg had one champion last year - Ron Russo at 137 pounds who graduated last January. Arnie Thompson placed fourth at 152 lbs. and Jim Mc-Cue, Bernardsville, who had been sidelined with illness, also placed fourth at heavyweight. BSC, as a team, finished in seventh place.

Coach Houk stated that he felt the University of Nebraska at Omaha, who placed second last year, was favored for the team championship. The Huskies will be returning to the campus Sunday afternoon.

track team placed second in a three-way track meet with East Stroudsburg State College and Muhlenburg College. The meet

Mermen Dive for States

The Bloomsburg State College swimming team will participate in the Pennsylvania Conference meet to be held at West Chester State College today and tomorrow, March 13 - 14.

West Chester, who defeated the Huskies earlier this season 62-42, is favored to capture its third straight title. Bloomsburg will be out to better its third place finish last year after being nosed out by Slippery Rock for the second spot in the final event.

Captain Ralph Moerschbacher, a junior from Camp Hill, won the 200 and 500 yard freestyle events and was the only first place winner for the Huskies last

year.

Participating for the Huskies will be: Gary Hitz, Hershey, diving; Ralph Moerschbacher, Camp Hill, 100-200 freestyle and 400 freestyle relay; Lee Barthold, Bethlehem, 100-200 breaststroke, 200 Ind. Medley; Dave Kelter, Swarthmore, 200 Ind. Med. and 200 backstroke; Robert Herb, Easton, 50-100 freestvle and 400 freestyle relay; Robert Jones, Easton, 1000 freestyle and 100 backstroke; James Scalise, Hazleton, 100-200 butter. fly, 400 Med. Relay; Stephan Coleman, Reading, diving; Nath Grinder, Zelienople, 200 butter.

(Continued on page four)

Speak Out

ED. NOTE: This article was written by Mr. Ross of the economics department concerning the swimming team.

The Husky Mermen face their toughest competition of the season in the P.S.C.A.C. meet at West Chester this Friday and Saturday. The Huskles met and defeated in dual competition all but two of the teams entered this weekend. Clarion was not on the schedule this year. Most of the teams will be trying to finish ahead of the Huskies in team scoring just as the Huskies will seek to avenge their defeat at the hands of the Rams.

The unknown factor is the new

top teams could win the meet. West Chester as host team has the advantage of swimming in their own pool so the Huskies will need all the moral support lhe student body can give them. Captain Ralph Moerschbacher swimming in his last P.S.C.A.C. meet will do his best to set an example for the team and many of the team members have improved their times since the meet with West Chester. A trip to West Chester to see this competition should prove worth the time and expense since many new records will be set this year.

Mann (continued from page one)

Unrest

I would like to set up this committee to help talk about the problems you find on the Bloomsburg Campus. This committee would set up meetings twice a month where students, faculty and administration could all come together and express their views on the Bloomsburg campus. The committee would take decisions made at these meetings and bring them before the college council where action will be taken. This would be an official standing committee of College government.

5. Community Government to Student Government

This will be the biggest change in the government of the college I will work for. Since the faculty will soon be under its own constitution there is really no need for our present community government association but rather a document should be drawn together uniting the students into a governing body with powers to legislate policies involving the students. At present administrators sit on council with voting privileges. This is ridiculous and must be stopped.

This is my platform probably scary to the conservatives and not enough to the radicals, but to go along with my platform is a justification of my policies through my opinion of the relationship I see between the school and the student.

In early periods of American history the school was an authoritarian institute. The leaders realized what an important factor education would play on the existence of the nation. Because the people were all wrapped up in self survival they had no time to think about going to school therefore rules had to be made to force a boy or girl to go to school. Once the student was there strict rules had to be established to keep him there and make him learn. Since then we have come a long way. No longer does today's student need that force placed on him. He realizes the need for education and pursues those goals. Now the school is a political organization and must not hinder the students education. He has the right to decide where he wants to go to school and what he wants to study. The

Blass

(continued from page two) denly done with. Come next year he'll just be gone. The Powers That Be will have succeeded by acting like no questions were ever asked.

Oh well. At least with the questionnaire thing I can run a public service message next year something like "Do not answer those questions ya don't wish to." Because I'll BE here the next year, ya see, I have no intentions of going anywhere and there should be no reasons I have to go anywhere. That is, unless I get involved in any peace demonstrations. But Primack won't be around next year.

Firetruck but this is a mess. What can I say, I have nothing to combat but vague answers and schizo rumors. The questions still stand. Is the administration dicking Primack? Or is it the F.I.B., F.B.I., durn it? And if it IS the F.B.I., don't they have better things to worry about than imaginary conspiracies? Shouldn't they worry about the crazed Commie prevert who is plotting even as we speak to infiltrate the F.B.I. by flowing Efrem's zimbal. Don't they have other pestilences to worry about? Like global famine, the rising V.D. rate, Stan Rakowsky? Aah, it's hopeless.

But what am I bitching about? Where would the world be if we didn't have good clean evil? Huh?

Archeology

(continued from page one)

not backed by any organization and depend upon their visitations for hospitality and financing. They have made some appearances and received only a good meal, other appearances have been on a pass-the-hat basis, and still others have been for honoraria ranging up to \$400.

Daniel J. Tearpock, President of the Archeology Club, has been in charge of making arrangements for the appearance of this group with the support of the College Community Government Association.

Robert Solenberger, Professor of Archeology at the college, and his wife will entertain the group during their visit to Bloomsburg. own purposes.

Where would I be, who'd I yell at, fer Chrissake? Yeah, what a frightening thought. If the whole world were tranquil, without disease and violence, without lies and meanness, I'd be standing in the breadline-right in back of Herbert Hoover.

La Macchia

Chip on Bridge

Contract Bridge. Bridge is an intellectual card game, perhaps the only one, as compared to other card games that are basically luck orientated. Bridge offers an exciting combination of skill, luck, and psychological strategy.

Millions of people throughout the world play bridge regularly. The American Contract Bridge League alone has a quarter of a million members. Here at Bloomsburg we have approximately twenty bridge enthulasts who have formed a bridge club of their own. We meet every Sunday at 2:00 in the third floor Waller Hall lobby. Our purpose is to play regulary and to teach anyone interested in learning how to play bridge. We are eager to teach anyone interested how to play. If you would like to learn how to play come to Waller Hall on Sunday. For more information contact me at P.O. Box 477 Waller.

Next Week: The History of Bridge.

Madrigals Sing

Sunday, March 15, the college Madrigal Singers will brighten the weekend with their Pops Concert. The group gets its name from the Renaissance madrigals when friends sang in the evening for entertainment while seated about a table (usually a bottle of wine was available to brighten the spirits.) Most of the melodies deal with nymphs and lovers, and are sung in a tongue-incheek manner which makes them a delight to hear.

Although noted mostly for their madrigal songs, the Madrigal Singers are at the same time quite versatile. They will be singing folk songs such as the beautiful "I Know Where I'm Coing" which have proven themselves before audiences before.

The final portion of their program will include a selection of songs from the broadway and movie hit "Finian's Rainbow." These gay Irish tunes will be done by soloists and in duets and in a country setting with costumes.

If you're looking for good music, fun or just a way to spend the evening, don't fail to put the Madrigal Singers' Pops Concert at the head of your list for this Sunday March 15, at 8:15 p.m. in Haas.

put, pole vault, high jump, the 70-meter high hurdles, the mile run and the two-mile run. In the shot put, John Ficck

got a first place with a 45 foot, 10 inch throw. Charles Shields placed second with 45' 2".

In the pole vault, Rich Brand soard 11 feet 6 inches to take a first place for Bloomsburg. In the high jump, Bob Laycock and Mark Yanchek captured second and fourth place respectively after they both jumped 6 feet.

Andy Kusma and Walt Williams took first and third place with times of 9.2 and 9.5. Terry

FRIDAY, MARCH 13, 1970

schools purpose is to teach him what he wants to learn.

The schools purpose is not to tell you where to eat, not to tell you where to live, not to tell you what you must study, not to tell you what to do with your life out of the classroom.

The students purpose is to get an education and make sure he learns what he wants to learn. If he is being inhibited in any way, action must be taken to stop the authority involved and open the pathway to knowledge.

Bloomsburg finished its reg. ular season with a 10-3 record, posting the most victories in one season since the sport was inaugurated at the college over 10 years ago.

Lee obtained a first place in the mile run with a time of 4.33.5.

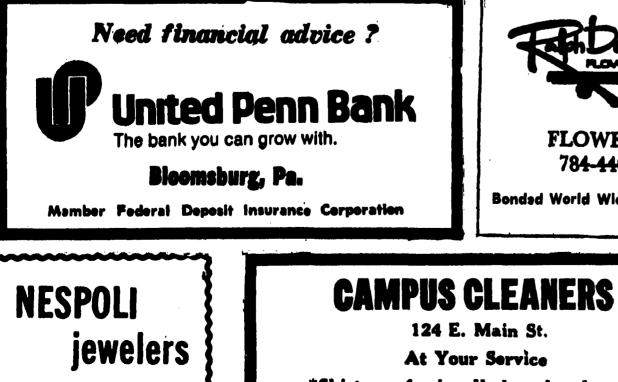

The two-mile relay was won outright by the track team with a time of 8.36.3.
