NUMBER 3

PRESIDENT'S LETTER TO THE ALUMNI

Dear Alumnus:

I have recently written a letter to every member of the Alumni whose present address is available. You will recall that I discussed a number of the outstanding problems and asked for your help and support in solving them.

I am more than ever convinced that one of our biggest problems is the selection of the finest and best of the Seniors in our high schools for teacher training. The day has gone by when we should boast of the large numbers that we are training for positions in the elementary grades and the junior and senior high schools. There was a time not far remote when it was highly desirable that every Normal School and Teachers College should prepare just as many students as possible to replace the large group of teachers who lacked standard certification. In fact all teacher training institutions were probably justified in going out into the highways and by-ways in search of students. We graduated students by the hundreds and positions were speedily filled with teachers who met the standards set up by the Department of Public Instruction. With increased scholastic and professional requirements came higher salaries and longer terms. The salaries paid teachers, while not extravagant, began to compare more favorably with those paid in other occupations to persons similarly trained. In other words,

teaching was moving rapidly toward a professional status. Thousands of young people all over the state were attracted to it—large numbers because they welcomed the opportunity to render signal service to the state. But unfortunately there were too many who turned toward it because they lacked the ambition to take a four year course in college and they looked upon a two year course as a short cut to a life position at a living wage.

Naturally there were many failures in our courses and large numbers dropped by the wayside at the end of the first year. Others persisted until finally they were graduated with records that too often betokened failure.

Now there is a large group of teachers seeking positions in our towns and cities and there is a surplus even in our more progressive rural centers. The attention of the public has become centered upon this apparent surplus and in many states an effort has been made either by legislative action or local initiative to lower the salaries paid to teachers. They fail to take into consideration the fact that the majority of teachers applying for a position in the larger towns and cities already hold positions elsewhere and that these have made application for a more remunerative position in a half dozen cities. It may be significant for a city to declare that it has a waiting list of two thousand teachers, but just how significant it is will depend upon facts that are not always apparent. In one case, examination by a research department disclosed the fact that of 2126 applicants more than 1700 already had teaching positions. These teachers were found to have filed applications in from two to six urban centers. Of the remaining four hundred, more than half were members of the graduating classes of Normal Schools and Teachers Colleges within the state and the remaining two hundred represented applicants from twenty-eight states. Thus we see that the surplus of teachers is often more apparent than real.

There is, however, more justification for the complaint of superintendents, principals, and boards of directors that a large group of teachers are inadequately prepared for the positions open to them. Only a superior type of student can be fitted for meeting the present requirements of even an elementary position in two years and such students realize how inadequate the two year course is and turn to the four year course.

Perhaps at no time within recent years has there been so widespread a demand for anything of an educational nature as is the present demand for a four year course of training for all teachers without regard to the grades they teach.

Practically every Parent-Teacher Association and every educational conference has joined in the demand for this change. Of course the same salary that is paid to High School teachers must be paid the elementary teachers of equal educational training.

This brings us to the parting of the ways. No student ranking in the lowest third of his class scholastically should be encouraged to prepare for teaching. Such students invariably fall by the wayside long before the course is completed. Their attempt to master the advanced work is often commendable because of their sincerity but it is most unfortunate that they should have been encouraged or advised to try to prepare for teaching.

It must, however, be recognized that adequate scholarship, while necessary, is not in itself sufficient. The student who enrolls in a State Teachers College should be a young man or woman of proved character, industry, and personality.

These are the young men and women, fellow Alumni, that we are anxious to secure as students. There are young men and women in the Senior class of your high schools who will meet these requirements. Won't you encourage them to come to us and prepare for teaching? There never was so fine an opportunity ahead for a live, earnest, sincere student as teaching now affords. I shall be glad to have you write me personally about such students and we will do our best to have them come to us.

I told you in my letter of the building projects now under way and those planned for the not distant future. I touched also on the new courses of study that will soon be introduced.

I want in closing to emphasize the importance of preparing for class reunions.. We invited the presidents of the classes of '86, '91, '96, '01, '06, '11, '16, '21, '26, and '29 to send an announcement of their plans for publication in this number of the Herald. We want all of you to set aside Saturday, May 23 as a big red letter day—the day on which you will meet your classmates and their husbands and wives and—yes, we hope they can come too—their children. It will be a fine thing for all of you to live over the days when you were care-free boys and girls.

Elsewhere we announce the class rooms that have been set apart for your get-to-gether meetings.

Of course we want those of you who are not represented in the reunion classes to attend the Alumni exercises, and in fact all the

Commencement services. It is a genuine pleasure to all of our faculty, including of course myself, to welcome you back to the old school.

With very best wishes, I am

Fraternally yours,

Ezra Lehman, '89

THE SUMMER SESSION AND THE FOUR YEAR COURSE

Unless all signs fail, the two year courses in State Teachers Colleges will be discontinued after 1935. The demand for a four year course with a baccalaureate degree is echoed by practically all district superintendents and by a large majority of the county superintendents. Many of the more progressive fourth class districts have announced that only graduates of four year courses will be considered for positions in the future. State after state is falling in line with this requirement.

Under the circumstances, the graduates of the two and three year courses of the State Teachers Colleges should be on the alert to meet the advanced qualifications. Our own graduates have never been backward in meeting new conditions, and we believe that hundreds of them will prepare for the higher salaries and more advanced positions that will be open to the successful teacher with the collegiate degree.

The four year elementary course is being revised so as to make it richer in content and still more attractive to the live graduate of the two year course who realizes that there is a big field in advanced elementary education. She will understand that there is no reason why she should turn to the secondary field—already greatly overcrowded—when the demand for college trained elementary teachers at advanced salaries is in excess of the supply.

We call the attention of all our two and three year graduates to the courses that will be available to them during the summer session. We urge all progressive two year graduates to take as much work as possible during the summer sessions and during the regular college year to enroll for intra-mural courses in the evenings and on Saturdays. In this way it will be possible to work off one year of the additional two years needed for the completion of the four year

course. Leave of absence can undoubtedly be secured for the last year. Are you interested in our summer courses? If so, we shall be glad to have you write us telling us what your plans are. We may be able to advise you just what courses to take.

Remember the six weeks summer session opens June 22. Free tuition is given to all residents of Pennsylvania. Board, furnished room, laundry, admission to lectures, concerts, etc., nurse's and doctor's services, registration fee, etc. costs only \$63.00. To day students the charge is \$15.00.

OPPORTUNITIES FOR STUDENT TEACHING DURING SUMMER

The Campus Training School will be in operation during the six weeks of the Summer Session. Opportunity will thus be afforded for student teaching in all grades to a limited number of students. As it will not be possible to accommodate all applicants, those who wish this opportunity are urged to apply at once, indicating the group or grades in which student teaching is desired. Such persons will be informed whether it is possible to give them the opportunity sought.

RURAL TRAINING SCHOOL

Pleasant Hills, our teacher training school will open during the six weeks of the summer Session. The school offers an opportunity for a limited number of students to do teaching under supervision; special demonstrations in grades one to eight will be given before the college methods classes.

Two types of class and study programs will be used—the typical program for one teacher schools and the Shippensburg Adaptation of the Better Teaching Unit and individual help program in one teacher schools. The latter will be of interest to experienced teachers who are eager for new ideas. This work will be in charge of Miss Hannah A. Kieffer, Director of Rural Education.

EXPENSES FOR THE SUMMER SESSION

Tuition is free to all students from Pennsylvania. Students living outside the state must pay \$35.00 tuition.

The expenses to boarding students from Pennsylvania are the enrollment-service fee of \$15.00 and \$48.00 for board, furnished room, laundry, light and nurses and doctor's services in the infirmary for a period of three days or less. A deposit of ten dollars is required so that a room may be reserved. This is credited toward the payment of the enrollment fee when the student enters.

The charge to day students is the registration and service fee of \$15.00 for the session.

Books and supplies can be secured at the supply room. The cost of these items should not exceed seven dollars.

All fees and expenses must be paid before the student will be admitted to classes.

If a student is unable for any reason to enter College for the Summer Session, the \$10.00 reservation deposit will be returned provided notice of inability to enter is given not later than June 2. No reservation deposits will be returned after that date.

Attention is called to the catalogue regulations: "Students will not be allowed to board outside the building except with parents or near relatives." By "near relatives" is meant brother or sister, uncle or aunt, or grandparents. As all boarding students can be accommodated in our dormitory during the Summer Session, this rule will be strictly enforced.

REGISTRATION FOR THE FALL TERM

The Fall Session (First Semester) will open Tuesday, September 8. Registration of boarding students began January 1. Rooms will be assigned at a later date strictly in the order in which applications were received. All applications for a room must be accompanied by an advance reservation deposit of ten dollars. This sum will be deducted from the first payment when the student enters in September.

In case a student is unable to enter as originally planned, the advance reservation deposit will be returned if notice is sent to the President of the College not less than three weeks prior to the opening of the semester.

We urge a prompt reservation of rooms. This year a large group of boarding students were unable to secure rooms in our campus dormitories and are rooming in private homes in Shippensburg. They take their meals in the college dining hall and have all the privileges accorded students who room on the campus. Every indication points to a still larger number of students next year who will be compelled to room off the campus.

All students who are residents of Pennsylvania will receive free tuition if they sign a statement indicating that it is their intention to teach at least two years in the public schools of the State after graduation. The necessary expenses, exclusive of books, supplies, etc., are:

Enrollment and service fee of \$20.00 for each semester. This fee includes registration and keeping record of students, library, athletics, lectures, entertainments, student welfare, health service (including services of registered nurse and physician and use of infirmary for a period of three days or less), laboratory fees and the college weekly paper. Boarding including furnished room, laundry, heat and light costs \$288.00 for the college year of thirty-six weeks. The total necessary expense for the items listed above is \$328.00 annually. Day students will pay an enrollment and service fee of \$20.00 a semester.

ATHLETICS

BASKETBALL

Immediately following the close of the football season, the call for basketball candidates was issued. More than forty men answered the call. The outlook for a good team was very bright for a short time, but after playing three games, injuries and failure to meet the scholastic requirements caused the loss of three men. This made it necessary for Coach Dresser to practically start at the beginning and form a new team. This of course was a great handicap. The team has not made a good showing in the winning column, yet most of the games lost were by a small margin.

The results of the games are as follows:

	Home Team	Visiting Team
December 13th—Kutztown S. T. C.	12	23
December 19th—Harrisburg A. C.	20	36

BASEBALL

As we go to print the baseball team is busily engaged in practice. Seven of last year's varsity—Fuller, Arnold, Blaine, Slaybaugh, Deihl, Bowers, Fortney are on the squad. There seems to be a wealth of new material. Coach Grove has seven men contending for the mound position. Several of these candidates look strong and should add considerable to the strength of the team in the box. A good schedule has been arranged.

TRACK

This is the first time that Shippensburg State Teachers College has had a real track schedule. It is rather difficult to predict what the outcome will be, and yet those interested in this sport believe that the track team will be able to give a good account of itself in the various meets.

The following schedule has been arranged:

- April 18th—Relay Carnival (Four State Teachers Colleges at Shippensburg)
- April 25th—Penn Relay
- May 2nd—Track and Field Meet—California, Indiana and Shippensburg State Teachers Colleges at Shippensburg.
- May 6th—Track and Field Meet—Dickinson College, Away
- May 16th—Track and Field Meet—Eastern District Meet at West Chester

THE H. MILTON ROTH SCHOLARSHIP CLASS OF 1899

It is a pleasure to announce that a gift of \$160.00 from the Class of 1899 has been placed in the hands of the Treasurer of the

"Alumni Fund, State Teachers College, Shippensburg, Pennsylvania."

By vote of those who contributed this money the Fund has been designated "The H. Milton Roth Scholarship." In so naming the Fund we honor one who is not only held in high esteem by our class members, but who for twenty-three years rendered splendid service as Superintendent of Adams County Schools. Professor Roth also served for a period on the Board of Trustees of the College and through all the years has been a local supporter of our Alma Mater.

We are much indebted to Dr. Lehman for his friendly interest and cooperation while the Fund was being raised. From year to year this Scholarship will be a source of helpfulness to worthy students. A contribution to this Scholarship involves no further obligation, but we may add to it from time to time if we wish. If any members of the class of '99 who have not yet contributed to the Scholarship can see their way clear to do so, we shall be glad to hear from such at any time.

A CALL TO THE CLASS OF 1891

Forty years ago the members of the class of '91, eighty-one in number answered to the roll-call on the day of Graduation. In these forty years we have never all been together, nor can we expect ever to meet as an unbroken class, but we can surpass the attendance record of the reunion five years ago, when practically one-third of our class spent a day that will never be forgotten.

Begin now to make arrangements for the "Hegira" to our dear Alma Mater. Cast aside for a day or two your labors and cares and let us meet as men and women strengthened by the experiences of forty years, yet possessed of the same spirit as of yore.

Do we not have a desire to walk through the halls, peer into the class-rooms, stroll on the campus, commune for a few moments with the teachers of the past, and last but not least meet your classmates and be carried back to the days of forty years ago.

A letter has already gone out to each one of you from our worthy president, W. M. Rife, Carlisle, Pa. Make him happy by sending word to him—"we will be back, fifty or sixty strong, father Rife."

Let us show Dr. Lehman and the college youth of 1931 that the class of 1891 has some of its old time "pep", and has not succumbed to Father Time.

Remember the date—May 23.

REUNION—CLASS OF 1896

We have received a copy of the letter sent by Dr. E. M. Gress, State Botanist, Department of Agriculture, Harrisburg, Pennsylvania, to all members of his class. If this letter doesn't result in a 100 per cent turn-out of the members of the class, we are inclined to believe that nothing can be done to bring it about. Dr. Gress calls attention to the date—May 23; the place—Morrison's Restaurant; the time—6 o'clock. The class of '96 was an outstanding one and we are all looking forward to having them with us once more on Alumni Day.

HEAR YE! HEAR YE! CLASS OF 1901

Get your calendar and mark Saturday, May 23, as the day you'll be back in Shippensburg, celebrating the 30th reunion of the best class ever graduated from our Alma Mater. It is just 30 years since we graduated, but we are not much older than we were then. Let us prove it by a very large percentage of our class—as nearly 100 percent as possible—at our reunion. Rehearse our class song and yells and come prepared for a good time. Mrs. Susan Fickes Heiges will be chairman of the reunion committee. You will receive an announcement of the full committee and plans for the reunion.

O. L. Underwood,
President.

THE CLASS OF 1911

The class of 1911 will hold its reunion at Shippensburg, Saturday, May 23, according to a report of its committee which met in the parlors of the Teachers College on March 17.

The committee, consisting of Aaron H. Coble, William H. Skelley, Mary Fogelsonger Kann, Margaret Hubley Crawford, Margaret Smith Berry, Frank Faust, and Howard G. Niesley, hope that all the members of the class will return on that date.

REUNION—CLASS OF 1916

Fellow Classmates—The day is Saturday, May 23. We're up. It's our fifteenth. Let's out surpass all previous records.

Five hundred may be a bit high but Cupid can do much with a class of eighty odd in fifteen years. Eighty times two is a hundred sixty and with a little addition now and then—well come, everybody. We have a fine banquet committee over there at Shippensburg and an outstanding Alma Mater awaiting our arrival.

Very Sincerely,
G. H. Quickel, President.
