THE STATE NORMAL SCHOOL OF SHIPPENSBURG

GENERAL STATEMENT

The purpose of the Cumberland Valley State Normal School is to prepare young men and women for the office of teacher in our public schools. To this end our course of study, methods of instruction and equipment are carefully adapted.

To teach well one must have not only knowledge of the subject to be taught, but such familiarity with it as to render his knowledge quickly and surely available.

Such intimate familiarity with the subjects taught in our common schools is the foundation of all good scholarship.

While our purpose is the training of teachers, and our course of study and methods are all selected with reference to that end, many young people who do not intend to teach find our course of instruction the best possible preparation for a business career, or for college entrance. Such students are received so far as our room will permit.

The new course of study extending over four years of forty weeks each gives time for more adequate preparation

for teaching, and also provides opportunity for a broader general culture and for laying a good foundation for higher education.

We shall, however, continue to make the training of teachers our chief concern and shall not organize any courses of study that might in any way distract the attention of teachers or students from the main purpose of the school.

The generosity of the state in aiding in the maintenance of the faculty and equipment of the school enable us to offer the opportunity of thorough education at much less expense than other schools can possibly afford. To those who can come from their homes, and who are preparing to teach, there is no expense, except for books and five dollars per year for incidental expenses. Those who board in the school pay four dollars per week for board, room, heat, light, furniture and laundry.

It is the settled policy of the school to restrict the numbers to such limits as can be well cared for and taught in small sections. To this end we employ an unusually large number of teachers in proportion to the number of students.

Our instruction in music, while not erected into a special course, offers unusually good opportunity for education in both vocal music and piano, and is directed especially to the training of teachers of music.

The department of art affords good opportunity for the study of several branches of fine art in addition to the regular course required of all students for graduation. Elocution is also taught to those who have special talent in that art, but the aim is to make good readers rather than dramatic artists. The whole aim of the school is practical; and all our energies are bent to the preparation of young people for their life's work. This preparation as we view it does not consist in mental training alone, but in the development of all the faculties and the training of the whole person in the graces of manner, soundness of body and virtues of soul that altogether constitute true and useful manhood, sweet and influential womanhood.

GYMNASIUM

FACULTY

The teaching force of the school consists of twenty-one members. Every one is not only well educated, but has had experience in teaching. Most of them have taught in the public schools of this State, and are familiar with the practical problems and duties of that office. They are selected with great care, not only as to their scholarship and experience, but also as to their personal character and common sense. The work is distributed in twelve departments, as follows: English, Mathematics, History, Natural Science, Physical Science, Philosophy, Pedagogics, Latin, Modern Languages, Music, Practical Arts and Fine Art. At the head of each department is a professor who is responsible for all the work of that department, though he may have one or more colleagues in the work.

In addition to the theoretic studies of the course, the Model School conducted by the Pedagogical Department offers valuable opportunities for the practical application of principles taught in the class room, and experience in actual teaching.

Equipment

Our equipment in library, laboratories and apparatus is adequate and of the best quality.

The Class-rooms, Library, Chapel, Gymnasium and Studios are thoroughly good and well fitted for their respective purposes.

A bright and well equipped infirmary is always ready on a moment's notice to be used by students or teachers without additional charge. Good physicians and nurses are within easy reach.

A large and well equipped laundry does good work for students and faculty.

A large stable is provided for the accommodation of students who drive to school from the neighborhood.

A fine and well furnished gymnasium and a complete equipment for military drill provide for the best physical training.

The athletic field is the finest in the Cumberland Valley.

The ladies' dormitory is a beautiful and convenient building, well heated, lighted and kept. The men's dormitory in the main building is very comfortable and well kept. In fact, nothing is lacking in our provision for the comfort and welfare of our students.

Location

The Cumberland Valley is famous for its beauty and its climate. Nothing in this latitude east of the Rocky Mountains is equal to it as a place for schools. Shippensburg is a town of some four thousand people, renowned for its churches and its prohibition. There are no saloons within ten miles of the town.

The Cumberland Valley, the Reading and the Western Maryland Railroads make it easy of access from all points.

The school buildings are situated on the edge of the town, in a large campus beautifully kept. The water supply is from mountain springs, clear and pure and wholesome.

Students

Our students are for the most part from the substantial families of Central Pennsylvania. They come from good homes and almost without exception are well taught in scripture truth and Christian morals. They are a sturdy and diligent class of young people, bent on getting the worth of their time and money. The tone of the school is remarkably earnest, but none the less bright and merry and sweet.

Everything that can be done is done to make the school days the best days, fullest of pleasant memories and freest from all that may bring sorrow or remorse.

It is the constant effort of the faculty to co-operate with the students in maintaining a bright and refined home life, and to help them in the cultivation of that grace and dignity of deportment that marks the real lady or gentleman.

The students are invited to suggest any changes in the rules that may seem to them expedient. The discipline of the school is as free as possible from irksome rules or unnecessary restrictions of individual freedom.

But the few rules which the faculty enact they endeavor to enforce with perfect fairness and absolute inflexibility.

CONDITION OF ADMISSION AND GRADUATION

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and city high schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or the third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 hours.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry bookkeeping; and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they were conditioned, and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be

conditioned by the State Board of Examiners in not more than two subjects covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

11. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

12. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefore, shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

COURSE OF STUDY FOR PENNSYLVANIA STATE NORMAL SCHOOLS

NOTE—This course is based on the "unit" plan as proposed by The Carnegie Foundation.

"A unit" represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

(This statement is designed to afford a standard of measurement for the work done in a secondary school. It takes the four-year high school course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is forty-five minutes in length and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year's work in any subject can not be accomplished in less than one hundred and sixty forty-five minute hours or their equivalent.)

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics and the Elements of Algebra to Quadratics. Test by Faculty.

FIRST YEAR.		No. of 45 Minute Periods.
Algebra		160
Latin		160
School Management and School Law		160
Orthography		40
Reading and Public Speaking		50
Ancient and Mediaeval History		100
Physical Geography		50
Arithmetic		100
Grammar		160
Vocal Music		50
Physical Training		80

Grammar	50
Methods in Arithmetic and Grammar	100
Virgil, German and French	160
Public Speaking	50
Chemistry	160
Drawing	50
Manual Training or Domestic Science	50
Physical Training	80

 1110

GOVERNMENT AND DISCIPLINE

All school government should have for its end the development of character in the individual student. Any method of government which does not secure this important end is wrong in principle.

In a Normal School, where the student is being trained to govern other students, there can be no excuse for loose government. No person is qualified to teach in the public

schools until he has attained a complete mastery over himself. The individual who has been trained in school to habits of self-control and a wise self-direction has received the best training which any school can give him.

We rely largely upon the honor and self-respect of our students in our efforts to control. A Normal School is not a reformatory, and parents and guardians are requested not to send vicious or immoral students to our institution to be educated. A few such students, if retained in a boarding school, vitiate the entire moral atmosphere of the school, and make it an unsafe place for even the well-behaved student to undertake his education.

We notify the parents when we find their children are not attentive to their studies, and if this course does not remedy the matter, the parents will be asked to withdraw them from the school. Students who are not making good use of their opportunities to receive an education, will not be retained in school.

Obedience on their part to the following rules and regulations necessary to the successful management and control of a Normal School, and also for the best interests of the students themselves. No regulations are made which we do not regard as important.

Time Regulations

1. Students will rise at 6.45 A. M. and retire at 10 P. M.
2. Recitation hours from 8.00 to 12.00 A. M. and 1.00 to 4.00 P. M.
3. Breakfast at 7.00 A. M., Lunch at 12.10 P. M. and Dinner at 5.30 P. M.
4. Chapel services at 8.45 A. M.
5. Prayer meeting on Wednesday, 7.00 P. M. Attendance voluntary.
6. "Normal" and "Philomathean" Literary Societies meet Friday evenings at 7.30.
7. Y. W. C. A. and Y. M. C. A. meetings on Sunday at 6.00 P. M.
8. Study hour from 7.00 to 10.00 P. M.

INTERIOR OF GIRLS' DORMITORY

Class Regulations

1. No student will be allowed to take more studies than he can pursue profitably nor fewer than are necessary to keep him sufficiently employed.
2. Students must attend classes up to the time of their leaving school.
3. All students must be present at the daily chapel exercises, unless excused.
4. Ladies are expected, when exercising in the gymnasium, to wear the adopted suit of two pieces, blouse and divided skirt of dark blue flannel.
5. Both ladies and gentlemen must wear the regular gymnasium shoe for gymnasium exercises.

Building and Room Regulations

1. Each student will be held responsible for the condition of his room and its furniture, and he will be charged with any loss or unnecessary damage.
2. No changes or alterations must be made in the permanent parts or fixtures of the room; nor nails driven into the walls without permission of the steward.
3. Students are requested to provide themselves with slippers for the building.
4. Students furnish their own towels, napkins, rings, soap and brushes. All articles of clothing sent to the laundry must be distinctly marked with the student's full name.
5. Students may be required to change their rooms or to board out of the building if deemed best by the Principal of the school.

Social Regulations

1. Day students may not call at the rooms of boarders, nor stay in their rooms over night, unless by permission of the Principal. Boarding students will be held responsible to the Principal for the observance of this rule.
2. Boarding students will not be permitted to visit in town on Sunday, nor remain in town over night, excepting with near relatives.

3. Visitors to the building will be regarded as under the same regulations as the students.

4. Lady students will not be permitted to leave the campus unless by permission of the Principal or a member of the Faculty.

5. Visiting the buildings or grounds on Sunday will not be permitted, nor will students be allowed to make or receive calls during study or school hours.

6. Ladies and gentlemen will not be permitted to hold prolonged conversations with one another, either in the buildings or upon the grounds, unless in connection with school duties, and then only by permission of the Principal or member of the Faculty.

7. Students will receive visits from relatives or friends in the reception room only; an exception will be made in the case of parents, who will be permitted to visit in their children's rooms.

8. Students are under the regulations of the school going to and coming from their homes.

9. Students will select their own physician without recommendation from any member of the Faculty.

10. Students wishing to visit their homes or other places during the term must present written permits from the parents to the Principal.

Health Regulations

1. Students upon entering the school must present physician's certificates showing that they have been successfully vaccinated.

2. Students during vacation, or at any time when they are absent from school, must avoid exposure to contagious or infectious diseases.

3. Students will be expected to observe proper hygienic rules during the time they are enrolled as members of the school.

Sabbath Regulations

1. Students are required to be present at the Sunday morning services of one of the churches in the town, unless

excused by the Principal. The selection of the church is left to the parent.

2. Students are required to attend the Sunday School held in the Normal Chapel every Sunday morning, unless properly excused.

3. From 3.00 P. M. to 5 P. M. will be observed as a quiet period. During this time no singing, loud talking, or other unnecessary noise will be allowed in the building.

It must not be understood that the foregoing regulations embrace all the duties and obligations devolving upon the individual student. No list of rules can be made which would cover every duty of the student under all the possible contingencies of Normal School life. And, on the other hand, there are many habits and forms of conduct so obviously out of harmony with the obligations of the person who is preparing to teach that it is not deemed necessary to prohibit them by formal rule.

Our standard of conduct for those who are preparing to teach under the tuition of the Cumberland Valley State Normal School is so high that it would preclude anyone from looking to the profession of teaching for a life calling whose habits and conduct are not worthy the imitation of the children who may be placed under his instruction.

EXPENSE

Enrollment Fee	\$5.00 per year
Tuition, \$1.50 per week	60.00 per year
Board, Room and Laundry, \$4.00 per week	160.00 per year
Total	<u>\$225.00 per year</u>

No deduction will be made on account of absence during either the first two or last two weeks of a term.

The charge for Board and Room includes furniture, bedding, light and heat. Each room accommodates two students.

During the fall and winter terms a student may have whole room by paying 50 cents per week extra.

The charge for laundry is for twelve plain pieces per week. Starched goods, such as shirt waists, men's shirts,

collars and cuffs are not included, but such articles will be laundered by the school laundry at very moderate rates.

There are no other fees for any part of the regular course.

No charge is made for use of Infirmary, but doctor's and nurse's fees and medicine is paid by student.

PAYMENTS

The enrollment fee is paid by every student when he registers for the first time each year, and is the same whatever time he enters school. One half the term's bill for tuition, board and laundry is paid at the opening of each term, and the remainder at the middle of the term.

If State aid is received it is credited at the middle of each term and deducted from the bill of second half of the term.

All books, stationery, chemicals and other supplies should be paid for when purchased, and all such bills must be paid before the end of the term.

DATES OF PAYMENT, 1912-1913

September 2.	Enrollment fee and half term's Board and Tuition	\$50.00
October 28.	Second half term's Board and Tuition	43.00
	Or if State aid is received, \$19.00.	
January 2.	Half term's Board and Tuition	30.00
February 10.	Half term's Board and Tuition	30.50
	Or if State aid is received, \$14.00.	
March 31.	Half term's Board and Tuition	35.00
May 19.	Half term's Board and Tuition	36.50
	Or if State aid is received, \$17.00.	

Total for year\$225.00

Total if State aid is received, \$165.00.

SPECIAL STUDIES

For students wishing more extended training in the following arts, special provision is made and, as they are not included in the regular course, a small additional fee is

charged. Vocal Music with special reference to teaching Piano and Harmony, Elocution, Stenography and Typewriting.

The tuition fees for these arts are extremely moderate.

FEES FOR SPECIAL STUDIES

Instruction on Piano	\$0.75 per lesson
Instruction in Vocal Music	.50 per lesson
Instruction in Elocution	.50 per lesson
Instruction in Fine Art	.50 per lesson
Instruction in Stenography	.50 per lesson
Instruction in Typewriting	5.00 per term
Use of Piano	5.00 per term

Students will be charged for the full time they agree to take lessons, and no rebate will be made on account of lessons missed by student's failure to attend.

STATE AID

COPY OF CLAUSE IN THE GENERAL APPROPRIATION BILL RELATING TO FREE TUITION IN STATE NORMAL SCHOOLS.

For the support of the public schools and Normal Schools of this Commonwealth for the two years commencing on the first day of June, one thousand nine hundred and five, the sum of eleven million dollars. * * * And provided further, That out of the amount hereby appropriated there shall be paid for the education of teachers in the State Normal Schools the sum of four hundred and seventy-five thousand dollars, or so much thereof as may be necessary, to be applied as follows: For each student over seventeen years of age who shall sign an agreement binding said student to teach in the common schools of this State two full annual terms, there shall be paid the sum of one dollar and fifty cents a week in full payment of the expenses for tuition of said student, provided that each student in a State Normal School drawing an allowance from the State must receive regular instruction in the science and art of teaching in a special class devoted to that subject for the whole time for which such allowance is drawn which amount shall be paid upon the warrants of the Superintendent of Public Instruction.

TEXT BOOKS

Junior Year

Arithmetic—*Durell and Robbins—Advanced Practical.*
 Algebra—*Wentworth's Elementary.*
 Bookkeeping—*Double Entry—Modern Illustrative.*

NOTE.—Students should bring with them such standard text books as they have for the purpose of reference.

SUPPLEMENTARY COURSE

(In addition to the Normal Course.)

Leading to the Degree of Bachelor of Pedagogics.

Philosophy of Education, Advanced Psychology.

Discussion of Educational Questions; School Supervision, including School Law; Devices for Teaching; Educational Theories, etc.

School Apparatus and Appliances; Description, Use, Preparation.

Leading to the Degree of Master of Pedagogics.

Two years' teaching after graduation in the Normal Course.

Professional Reading, with abstracts; History of Education in the United States (Boone), European Schools (Klemm), Systems of Education (Parsons).

Sanitary Science, School Architecture, etc.

Thesis.

A full equivalent will be accepted for any of the text books named above. The courses in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all Normal Schools.

CERTIFICATES AND DIPLOMAS

A student who is graduated in regular course will receive a certificate, in which will be named the branches of the course, and which will confer upon him the right to teach in the public schools of the State two years without examination.

A regular graduate who has continued his studies for two years, and has practiced his profession during two full annual terms in the common schools of the State, will receive, upon presenting to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of teaching from a Board or Boards of Directors by whom he was employed, countersigned by the proper Superintendent of Schools, a second diploma or certificate, which will give him the privilege of teaching in the public schools of the State without examination.

STATE CERTIFICATE

Practical teachers who have not attended a Normal School as students may obtain a Teacher's State Certificate on the following conditions:

1. All applicants must be twenty-one years of age, and must have taught in the common schools during three full annual terms.

2. They must present certificates in regard to moral character and skill in practical teaching, similar to those presented by the regular graduates and have them signed by the same school officers.

DEPARTMENTS OF INSTRUCTION

I. PHILOSOPHY

DR. MARTIN.

Psychology and Ethics

The study of Psychology is intended as a foundation for the study of Pedagogy.

Three hours a week throughout the Middle Year are devoted to this subject.

The course consists of a comprehensive survey of the whole field of mental activities, with some special attention to the psychology of childhood. The practical application of the principles thus learned is discussed and worked out in the study of Methods.

The Winter Term is devoted to the Philosophy of conduct.

II. PEDAGOGICS

PROF. HARRIS.

Methods

The latest improved methods of teaching the various subjects are given to the Senior class by specialists in the different departments of teaching. Both the science and art of teaching are most fully dealt with, and the student teacher is made acquainted with the very best ideas upon the subject of instruction. The various methods given are

BASKET BALL

fully exemplified before the Senior class, so that the members may fully understand how to apply them. In this department care is taken not to make the student-teacher a mere imitator, but he is left to a certain extent to work out his own special devices and methods, thus developing originality in his work.

School Management

The art of managing and conducting a school is made a prominent part of the teacher's professional training. He is given approved plans concerning the location, arrangement and ornamentation of school grounds, and the latest and best plans for the construction of school buildings. He is given the best experience in the heating, lighting, ventilating and furnishing of schoolrooms. He is taught how to organize and govern successfully, how to conduct recitations, how to keep pupils profitably employed, how to classify an ungraded school, and how to arouse an interest among parents in school work.

The importance in making moral training the primary end in school government is fully emphasized. The value of a school requirement is measured by its effects upon the moral nature of the pupils. The school is best controlled where the pupils are gradually gaining increased power of self-control and a safer self-direction.

History of Education

In the History of Education the student is given the development of the educational ideal among the leading nations of history. The various theories of education practiced in different countries at different times are clearly presented, and the student is given the data necessary in order that he may arrive at a safe judgment as to comparative value of the leading theories made use of by these countries.

The lives of the leading educational reformers are given in such a manner as to inspire the teacher with greater earnestness and zeal in his work.

Model School

MISS HARRIS.

MRS. HERR.

MISS WITMAN.

The school law of Pennsylvania requires as part of the equipment of a Normal School, a well organized training department where students may have an opportunity to teach under guidance and supervision as part of their necessary training before being graduated as teachers.

The Model School of the Cumberland Valley State Normal School numbers over a hundred and twenty pupils, divided into ten grades corresponding to the grades in the public schools. Seniors are assigned to teach these different grades and subjects according to ability and preference when possible. Though the work to be covered in a certain period is planned and the daily work supervised, the Senior teacher is given as much freedom as possible in the application of methods and in the management of the class. He is expected to put in the classroom or on the board such things as will create a pleasing and helpful atmosphere; which will cultivate taste and observation on the part of the pupil and strengthen his own ability as a teacher.

The work is so arranged that Senior teachers get experience in teaching primary and grammar grades in different subjects while specialization in Drawing, Vocal Music and Gymnastics as taught in the public schools is provided for when students desire.

While the work of the Senior-teacher is closely supervised, it is for the purpose of giving helpful suggestions, developing power and cultivating a confidence and discipline, of self and pupils, gained only by actual experience in the classroom.

The practice teaching gives opportunity for child study, a knowledge of which is necessary for successful teaching; it brings before him the problems of the school in the presentation of subject matter as well as discipline; it is a test and experience which proves to himself and friends whether he possesses the necessary qualifications of a teacher. If he possesses them, the Model School provides splendid opportunity for proper development in character as well as teaching.

Methods

The aim of the school in this department is to apply the principles of Psychology already learned to a proper development of the faculties of the child to be taught; the best methods of teaching him as well as the development of the Senior along professional lines.

The best methods of the day, those worked out by McMurray and other prominent educators, are taken as a basis for thought and study. By direction, guidance and discussion on the part of both Senior and critic teacher, keeping in mind early school experience and a knowledge of public schools as met when teaching begins, the student is led to recognize the fact, from methods learned and discussed, that he must really make his own methods to fit the class or the individual he is teaching.

The methods given are his stock in trade, to be adjusted, fitted or discarded as his judgment shows him the situation requires.

The department endeavors to give practical assistance in the shape of devices, references and general methods taken from actual experience, but it also endeavors to impress the student with the fact that the best teacher is the one who fits the method to the child and is able to handle individual situations in teaching as they arise.

III. ENGLISH

PROF. WALLIZE.

MISS LEHMAN

Orthography

Orthography, including Etymology, Pronunciation and Definition, is an important subject of the curriculum. Poor spelling is often due to carelessness, but what can be expected when lack of knowledge combines with carelessness? In addition to formal lessons in Orthography, attention is given to spelling in all classes.

Grammar

The study of Technical Grammar develops the mental powers and affords excellent drill in logical thinking. This

is especially true of oral analysis, and "any one that can analyze the English sentence is well prepared to analyze anything else." Scientific and Technical Grammar is essential to clear expression in composition.

Rhetoric and Composition

Rhetoric and Composition, as a formal study, occupies the first half of the Middle Year—recitations and themes daily. Composition is continued with the Seniors in fortnightly themes. The themes chosen are such as lie, for the most part, within the student's experience and observation. Here thoughts are abundant and composition thus becomes "synthetic and constructive."

English Literature

The primary aim in teaching literature should be to cultivate a love for the beautiful and the true through the best thoughts of great authors. The study of masterpieces of Literature enables the pupil to discriminate between what is elevating and instructive, and what is trivial or harmful.

This course consists of a brief historical outline of English and American Literature with illustrative studies. The authors selected for class room study and general reading are such as to meet college entrance requirements in English.

Reading

MISS LEHMAN.

"Reading is the chief of all the arts." To be an intelligent reader is no mean attainment. It is the open sesame to all culture. "When thou readest look steadfastly with the *mind* at the things the words symbolize." Reading without this is not reading.

Above all else the aim of this department is to train the student to read with intelligent sympathetic interpretation the best literature. Every effort is made to assist him to a better expression of himself and to make him not only a good reader but a good teacher of reading.

IV. MATHEMATICS

PROF. ELDON.

PROF. HEIGES.

Arithmetic

In Arithmetic the aim is to make the subject thoroughly practical. Students are given to understand the importance of having pupils trained to rapid and accurate work in the fundamental rules. Considerable time is spent in teaching the subjects which have a direct bearing upon the every-day affairs of life. A great deal of time is given to the methods of treating common and decimal fractions and percentage, as these subjects enter into many of the business problems of daily life.

As far as possible, we adhere to the inductive method of teaching the subject. Suggestions for the construction or original problems are frequently given throughout the course.

Algebra

It is the aim in this subject to give the student a clear and complete knowledge of what is embraced in a standard work on Elementary Algebra. An effort is made to develop the subject gradually enough to make the pupil feel that he is mastering the subject as he proceeds.

Rules are deduced from processes given in order that the student may get the principles involved. Particular attention is paid to factoring, as a thorough knowledge of this subject is necessary to success in the solution of many algebraic problems.

Geometry

The purpose of teaching Geometry is first to discipline the mind in sound reasoning. The following principles laid down by Pascal are closely followed: "To have no obscure terms undefined; to assume nothing not perfectly evident; to prove everything at all doubtful, by reference to admitted principles."

Great care is taken to have the definitions correctly given and accurately learned.

The subject of Geometry is introduced by lessons in geometrical drawing in the Junior year. The familiarity thus gained with geometrical concepts will assist the student when he comes to make use of these concepts in his demonstrations, and will also help him to a fuller comprehension of the definitions of geometrical terms.

In order that the teacher may be certain that students do their own reasoning, a great deal of attention is given to the demonstrations of original theorems.

Trigonometry and Surveying

The subject of Trigonometry has increased in its scope until it has become a practical subject. The work of calculating has been made easier by the computation of the numerical values of the trigonometric functions and the creation of a serviceable system of logarithms. An effort is made to familiarize thoroughly the student with the principles of this subject as well as with a ready use of the tables. Besides this, interesting and practical problems are selected with a view to awaken a real love for study.

The subject of surveying is presented in a clear and intelligible way, according to the methods in actual use at the present day.

V. HISTORICAL SCIENCES

MISS WYLIE

Geography

Physical and Political Geography are included in this course. Less attention is given to insignificant natural and political divisions than they have received heretofore, and more time applied to the study of the manufactures, commerce and farming and mine products.

Comparative Geography is made prominent in dealing with this important subject. By comparison the pupils get clearer ideas of geographical divisions and places, and they are able to retain their impressions longer. The railways and commercial routes are definitely traced, and numerous imaginary trips are made to different parts of the globe.

The geographical information of the pupils is often drawn upon to furnish material for composition writing.

The home geography of the pupil is carefully and accurately given as the first step in teaching this interesting subject. The primary concepts of position, direction, distance, soil, climate and natural productions are learned by the pupil as part of his first geographical knowledge.

History of the United States

History is taught primarily to impart to the student a knowledge of events and the causes which have produced them. Unless the relation of cause to effect is carefully traced, the student fails to get any real benefit from the study of the subject.

The proper teaching of United States History will develop a deeper love of country in the mind of the student, and lead him to appreciate more fully the blessings of the government under which he lives.

The study of the great lives in the history of our nation has a tendency to develop character in the pupil as well as devotion to liberty and union.

Civil Government

The proper instruction of the student in Civil Government includes a clear exposition of the great principles underlying the Constitution, with a summary of the legislative provisions in which they have been embodied. As the details of a government are usually more interesting and more important to the average student than the theories of government that may be obtained from its written Constitution, the agencies of government and its machinery are very fully presented.

General History

The work in this subject is limited to an intensive study of the history of Greece, Rome and England, and a brief consideration of the Protestant Reformation. The movement in history, and the "logically germinal facts" of history with their determining force, is the ideal of instruction.

VI. NATURAL SCIENCE

PROF. SITLER.

Physiology

The work in Physiology and Hygiene is designed to give the student such a knowledge of the structure and functions of the principal organs of the body as will enable him to understand the conditions under which these organs best perform their respective offices. The subject of Hygiene is presented with special fullness, embracing the subjects of ventilation and warming, exercise, clothing, the organs of special sense, the effects of alcohol and narcotics on the system, and the essential conditions for health in the school room.

Botany

Latter half of Middle Year.

By laboratory study careful attention to plant structure, growth and physiology is given. This work is supplemented by the study of text lectures, the assignment of topics for investigation, requiring much use of the library and frequent classroom quizzes. Toward the close of the Spring Term the members of the class are encouraged to do as much work as possible in the field, when particular emphasis is given to the habitat of the plants and the result of their environment.

Zoology

First half of Middle Year.

Much time is given to the study of structure, habits and distinctive characteristics of the different phyla and orders, and an effort is made to trace the development of the types from simplicity to their highest generalization.

The laboratory work consists of the external examination of one or more examples of each order of the orthropoda, with more detailed dissection of many of the higher types below the vertebrata, and careful study of the vertebrate forms.

Variation and development of animal functions are

INFIRMARY

carefully treated by lecture; by frequent reference to the library and the preparation of articles on the economic importance of animal life. Students are encouraged to use all means at their disposal for acquiring wide knowledge of animal life. Constant quizzing accompanies all class work.

Geology

The students of the Senior year study Geology two terms. The method used is the laboratory and field method. The school is now in possession of a large collection of geological specimens which will be arranged and classified for the instruction of next year's class and the classes following. The country around Shippensburg is a very excellent one for geological excursions. The rock formations of the surrounding country afford a good field for the collection of geological specimens.

VII. PHYSICAL SCIENCE

PROF. TAYLOR.

In this department the plan of work is three-fold:

1st. Experimental, in which natural phenomena are studied by aid of good apparatus, the students being aided by the instructor individually or in groups.

2nd. The phenomena noted are interpreted by aid of a standard text and much supplementary reading, with frequent quizz.

3rd. By practical examples, an effort is made to illustrate and fix the various laws.

In addition to the inductive study of the phenomena of physics, the students are further trained in accurate physical observation and measurement by the performance of not less than twenty-five experiments from the International Physics Course, thus qualifying for admission to colleges.

The manufacturing plants in Shippensburg and vicinity are visited for the purpose of noting the actual application of physical principles. The history of the science is carefully treated.

Chemistry

Chemistry may be pursued by the students for a whole year. To meet the demands of the new course of study, the school has recently fitted up a very fine chemical laboratory. Part of the time of the class is devoted to instruction in the theory of chemistry, but most of it is devoted to individual work, the students making their own experiments and tests and carefully recording the results of their labor.

VIII. LATIN

PROF. STEWART.

In the Latin department the Junior work consists of a thorough drill in the common forms of the declensions and conjugations and the simple rules of Syntax, with written translations of English into Latin. Then harder exercises, Roman fables and history are read. Upon the completion of this course, the student is thoroughly prepared to read Cæsar intelligently.

In the Middle Year Cæsar is read. During this year the student is required to put into practice his knowledge of Syntax and inflectional endings. The greatest effort is made to secure an elegant rendering of the text into idiomatic English and to furnish the student with a good vocabulary derived from the Latin. Latin prose composition is also studied one day each week, the exercises being based on Cæsar.

Cicero and Virgil are read during the Senior Year. It is the aim of the department in the study of these classics to introduce supplementary work on Mythology, Roman Customs and History. Latin prose composition is studied during the first half of the year, exercises being based on Cicero. During the entire course particular stress is laid upon pure English translations and particular attention is paid to English derivatives.

Greek

Greek may be elected in the Middle and Senior Years. During the first year the student is well grounded in elementary forms and common rules of Greek Grammar. A

good vocabulary and an introduction to the Anabasis is required.

During the second year the study of the Anabasis is continued. Also portions of the Iliad or the Odyssey are read.

IX. MODERN LANGUAGE

MISS ALICE HUBER.

German and French

In this department great stress is laid upon the fact that the student is benefited more by learning how to translate easy texts at sight than in the acquisition of a slight ability to speak either language. Therefore easy works are selected in order to acquaint the student with the idioms and elements of grammar, and enable him to read rapidly.

X. PRACTICAL ARTS

MISS HUBER.

MR. YOCUM.

The Practical Arts, which will include Manual Training, Sewing and Cooking, have been introduced this year.

The rooms and equipment for these classes have been prepared to meet thoroughly well the demands of the present, will be further equipped as the demand is extended—as it will probably be to include instruction in plumbing and cement work, in addition to woodwork, and dressmaking in addition to plain sewing. It is the purpose of the school to provide the very best instruction in these arts.

XI. MUSIC

MISS MATTHEWS.

Pianoforte

MISS MATTHEWS.

MISS WISE.

Constant efforts are being made to reach and maintain higher standards of excellence in the Pianoforte Department.

The facilities for practice have been immensely improved during the past few years, by the addition of new

pianos of standard make, and the gradual exchange of the old instruments for new, until now twelve pianos, all in good condition, are available.

The German method in technique as taught by Dr. Theo. Kullak, of the Royal Conservatory of Music, Berlin, is followed. As pianist, teacher and composer, Dr. Kullak is well known. Among some of his pupils were Melig, Adele Ous Der Ohe and William H. Sherwood.

COURSE OF STUDY.

FIRST YEAR.

Course of study includes:
Mastery of Tonic Chords and Triads.
Major and Minor Scales.
Arpeggios.
Octave Studies.
Melody Studies. Easy pieces selected.

SECOND YEAR.

Studies from Czerny, Heller, Kullak, Gradus ad Parnassum-Clementi, and Bach's Two Part Inventions.
Pieces of Corresponding Difficulty.

THIRD YEAR.

Chopin—Etudes.
Moscheles.
Mozart and Beethoven—Sonatas.
Selections from Standard Composers.

Voice Culture

MISS WHEELER.

In the vocal department are given free of charge, class lessons in which the pupils are taught the rudiments of music and the theory of sight singing. Practice in singing the best part songs and choruses furnish not only the necessary drill in reading music, but also a knowledge of good music.

The Course in Voice Culture has been arranged to cover three years and comprises studies from Concone Vaccai Marchesi and songs from the best composers.

A special course is given for those preparing to teach music in the public schools with the opportunity for actual teaching in all grades of the Model School under the direction of the supervisor. Particular attention is given to this line of work, as the demand for teachers is rapidly growing.

The Glee Clubs and choruses furnish an opportunity for drill in sight reading and becoming acquainted with the compositions of the best writers of music.

XII. ART

MISS I. HUBER.

Manu-mental training being the object of art education to-day, our art course has a two-fold aim; to train the hand to delicacy, grace and speed of execution; to instill ideas of beauty, and to cultivate habits of observtion, good judgment and originality of thought.

The student who arrives at these ends will, as a teacher, have ability to illustrate lessons. As a practical man of affairs, he will possess a rapid and accurate means of thought expression. Socially, he will be known as a person of cultivated taste.

Normal Art Course of the Junior Year

(Based upon the Prang system of Form Study and Drawing.)

FREE-HAND PERSPECTIVE.—From geometrical solids.

PENCIL SKETCHING.—From still life. From nature.

CONSTRUCTIVE DRAWING.—Working drawings from type forms.

CLAY MODELING.—From nature. From casts.

CHARCOAL DRAWING.—From casts. From still life.

HISTORY OF ART.—From talks relating to Architecture and Sculpture.

DESIGN.—Surface Patterns. Book covers, etc.

Penmanship

A poor penman is at almost as great a disadvantage as he who speaks with a stammering or lisping tongue. The difficulty of recognizing the words of a poor writer interferes with the quick grasping of the thought. We aim to

secure rapidity and legibility, and we use the Spencerian system as a guide in practice. The student is expected to understand the theory of an approved system, and to be able to explain it intelligently to a class of children.

XIII. TECHNICAL STUDIES

Bookkeeping

MISS QUIGLEY.

In earlier days only those who expected to become accountants and merchants thought it necessary to study bookkeeping; but public sentiment in this respect in recent years has been rapidly changing. It is now generally admitted that every person should be able to record properly common business transactions. The simpler forms of bookkeeping must, therefore, be taught in the public schools to meet the public demands for this kind of knowledge as a part of the education of every child who reaches the grammar school.

To prepare teachers to teach this subject is, therefore, an important part of the work of every Normal School.

STENOGRAPHY

MISS HORTON.

"To save time is to lengthen life," says the author of one of the best systems of stenography.

The advantages of shorthand are so many and so manifest that only a few years will elapse until it will become the universal medium for correspondence. The principles of shorthand are so simple that any ordinary child can learn them. The time has come when every writer, teacher, lawyer and clergyman should acquire this art. It saves time. It saves space. It saves paper. It quickens the mind as well as the hand.

Stenography and typewriting, when combined, offer fine business opportunities to young men and women, with fair compensation.

PHYSICAL TRAINING

PROF. ELY.

The Physical Department is equipped with a fine gymnasium, athletic field, tennis courts and ground for out-door games. It aims during the pupil's four years' stay to give a graded course in gymnastic work, including military tactics, exercises, both hygienic and corrective, together with folk dances and various kinds of rhythmic work for muscular co-ordination. This is supplemented by basket ball, base ball and other forms of athletics. Each student has access to the gymnasium every day, and during the course school hygiene and material for use in public school work is presented.

RELIGIOUS SOCIETIES

Our students are furnished excellent opportunities for spiritual growth and development. We have a prayer and lecture service every Wednesday evening, conducted by a member of the Faculty, to which all the students are invited. The service is attended by a large number of students and is full of interest and profit.

We have a Sabbath School organized among the students. This service is held every Sabbath morning, and the exercises are highly appreciated and greatly enjoyed by the school. The school is divided into classes, each class being taught by a member of the Faculty. The International Lesson is used.

Students, unless excused by the Principal, are required to attend the church of their choice every Sabbath morning. The church attendance in connection with the religious services at the school, offers to them all the spiritual advantages that they would receive at their own homes. In all proper ways Christian influences are thrown around the pupil, making his school life to conform as nearly as possible to home life in a Christian family.

A Young Men's Christian Association and a Young Women's Christian Association have been formed among the students. These societies have been doing a great work

for the growth of religious sentiment in the school. These associations are non-denominational in character.

LITERARY SOCIETIES

Among the most valuable auxiliaries to a Normal School or College are its literary societies. The Normal and Philomathean societies are strong, vigorous associations, and in their growth are keeping equal pace with the growth of the school. They meet in separate halls every Friday evening for the rendering of carefully prepared programs. These programs are highly entertaining and instructive, and those who take part in rendering them bestow ample labor and care on their preparation.

READING ROOM

The Reading Room of the Cumberland Valley State Normal School is one of its most important features. All the prominent magazines, periodicals and many newspapers, daily and weekly, are found upon the shelves and on the files in the handsome room fitted up for library and reading-room purposes.

The students are encouraged to make good use of its privileges, and the results are most gratifying. A librarian is always in charge of the room when it is open, in order that perfect quiet may reign, and that the students may get the largest profit possible from their hours spent in the reading room. The student who has graduated from a Normal School without having acquired a taste for good literature, and a knowledge of how to read with the greatest profit, is but poorly equipped for the work of teaching.

ADVANTAGES

1. A lecture course of six numbers will be given by the Normal School during the coming year. These lectures will be free to all students in attendance at the time the lectures are given. None but high-class lectures will be selected.

CHILDREN'S PLAYGROUND GYMNASTICS

2. The training our graduates get in the Model School is not surpassed and scarcely equaled by any of the other Normal Schools of the State. Our Seniors do actual teaching in the Model School under the direction of expert teachers throughout the entire Senior year.

3. Our students all come under the instruction of the heads of departments in all the subjects of the course. This is a great gain to the student, as it guarantees to him high-class teaching in all the subjects he is required to pursue.

SUGGESTIONS

1. Come at the opening of the term and remain until its close.

2. The Fall term is the best time to commence your Normal Course.

3. Take at least a year in the Junior Course.

4. Give each subject in the course its full amount of attention.

5. Establish a reputation for character as well as scholarship.

6. Make up your mind to be a close and diligent student.

7. Be prompt and regular in your attendance upon classes.

8. Do not be satisfied with anything less than the highest standing your ability will enable you to obtain.

9. Determine when you enter school to win the goodwill and respect of the entire Faculty.

10. Read as many good books as possible during the time devoted to your Normal Course.

11. Regard all the regulations of the school as intended for your benefit.

MODEL SCHOOL ROLL

NINTH GRADE

Allen, Josephine
Angle, Harold
Arter, Annie
Hoch, Lester
Lindsay, Carrie
McClay, Warren

McElhare, Mary
Nehf, Ray
Phillippy, Frank
Reid, Viola
Schleichter, Mark
Seavers, Nellie

EIGHTH GRADE

Clever, Donald
Freet, Paul
Glessner, Irvin
Hoover, Paul
Horton, Milton
Horton, Wilbur
Hosfeld, John

Kitzmiller, Bernice
McClay, Robert
McCune, Winifred
Means, Lillian
Shive, Dorothy
Wyncoop, Susie

SEVENTH GRADE

Burns, Harry
Clippinger, Ruth
Cope, Georgia
Corothers, Margaret
Funk, Henry
Funk, John
Guyer, Lottie
Hosfeld, Mary

Jones, Thomas
Mowery, Paul
McCartney, Clinton
McElhare, Harry
Neff, Rebecca
Rhinehart, Mary
Souders, Mabel

SIXTH GRADE

Allen, Jane
Bolan, Harry
Clough, Lena
Comerer, Arthur
DeHaven, John
Easterbrook, George
Fitzgerald, Bessie
Funk, Katherine
Gipe, Reabie
Horton, Richard
Kelly, Grethel
Lutz, Margaret
Lutz, Walter

Lutz, Wilbur
McClay, Charles
McCune, Margery
Neff, Byron
Nehf, Helen
Plasterer, Roy
Rine, Clarence
Russell, Leila
Shive, Susie
Smith, Helen
Zullinger, Sidney
Zullinger, Thomas

FIFTH GRADE

Coy, Cora
Easterbrook, Arthur
Gilbert, James
Kitzmiller, Bessie
Kitzmiller, Dana
Martin, Drew
Neff, Verna
Nye, Elmer

Nye, Lula
Rine, William
Salmon, Pearl
Shive, Helen
Stutenroth, Nellie
Sudors, Ethel
Winters, Mary

FOURTH GRADE

Alleman, Lena
 Angle, Ralph
 Beltzhoover, Florence
 Clugh, Frank
 Clugh, William South
 Cook, Daniel
 Cook, Sarah
 Coy, Ruth
 Funk, Mary
 Gipe, Levi
 Hoch, Richard

Hoffman, Viola
 Horton, Edward
 Martin, Elizabeth
 Means, Robert
 Mowery, Wilmot
 McKnight, David
 Rupp, Emma
 Seavers, Mary
 Smith, Edith
 Souders, Zora

THIRD GRADE

Alleman, John
 Angle, Samuel
 Bolan, Viola
 Burkholder, Earl
 Cashman, Fred
 Comerer, Joe
 Cook, Jennie
 Craig, Edwin
 Craig, Elizabeth
 Easterbrook, William
 Eaton, James
 Farner, Guy
 Fitzgerald, Violet
 Franklin, Grace
 Green, Walter
 Hawk, Dewey
 Hoffman, Leroy

Horton, John
 Hosfeld, Julia
 Ickes, Anna
 Kelly, Earl
 Keppler, Carroll
 Killion, Claire
 Kohler, Anna
 Kohler, George
 Lutz, Mildred
 McKnight, Lloyd
 Nehf, William
 Nye, Floyd
 Russell, Quinton
 Sudors, Helen
 Zeis, Margaret
 Zullinger, Emmaline

SECOND GRADE

Ankony, Anna
 Coy, Martha
 Farrow, Louise
 Gipe, Dolly
 Heffelbauer, Lucretia
 Heiges, Ralph
 Kelly, Harper

McCullough, William
 Nehf, Lester
 Railing, Samuel
 Russell, Leona
 Seavers, Esther
 Smith, Roddie
 Souders, Katherine

FIRST GRADE

Clugh, Nellie
 Easterbrook, John
 Funk, Kathrine
 Funk, Roy
 Gerster, Julia
 Hoffman, Celeste
 Horton, Margaret
 Kohler, Mary

McKnight, Grace
 McKnight, Merle
 Nye, Rhoda
 Rine, Harry
 Rupp, Edna
 Rupp, Irene
 Russell, Marie
