JEWRY FORM SECRET MURDER SOCIETY

Jewry is awake to the dangers of a national awakening to their world control plans and in their campaign to stifle the awakening, they resort to all methods of terrorism, from bluff to murder.

The recent red terror campaign against Raymond J. Healey, and Oscar C. Pfaus in Chicago, the threats against other anti-Jewish fighters and dealers who sell anti-Jewish literature, are all signs of the war that Jewry has declared upon the heralds of a new America.

The most recent example is the mysterious death of V.N. Kositsin, Berkely, Cal. V. N. Kositsin has been actively engaged in the fight against the dominion of Judaism in America for several years.

On June 29th, Mr. Kositsin wrote to a co-fighter in New York:

"Are you familiar with the Jewish Secret Service (G.P.U. of America)? Are we in America, or in Palestine? Which? Is it a nightmare, or reality?"

This first hint at the existence of a sinister secret murder society similar to the G.P.U. in Russia, was enhanced in a letter dated July 23rd:

"The Jews have organized a secret society like the K. K. Klan, called "SHIVERENS" or Night Riders, whose sworn duty it is to single out anti-Semitic leaders and put them to death as examples. Be very careful of where you go, what you drink and eat. The fight is getting very serious and the Jew, being licked, is turning to murder."

On August 7th, the following message was received in New York:

"This is to inform you that V.N.K. of Berkeley is dead. Please notify the American Bulletin. - Details later."

No details have as yet been received to clear the mystery of the death or the notes, but all appearances point to the fact that V. N. Kositsin has become a victim of the Shiverens.

COMMUNISM OR NATIONALISM?

The American Communist Party, American branch of the shock troops of international Jewry, have agitated underground since the formation of this section of the Communist International in this country. Being declared illegal by the Federal Government, it continued to function illegally, several times changing its name, until today this body looms above America like a powerful giant of destruction and death.

Communism in America? The question can no longer be ignored with a nonchalant shrug, it is the unchallengeable duty of every American man and woman to square their shoulders and deliberately face the seriousness of the threatening menace.

The strength of the Communist Party in America has been revealed by Georgi Dimitrov at the seventh World Congress of the international labor party in Moscow, and Earl Browder, the visible head of the party in America.

Communism in America has become strong enough to creep fromout its slimy subterranean holes and spread its filth upon the surface, daringly and openly.

In boasting of the work done by Communist agitators in America, Dimitrov made

Continued on page 2.

the following revealing statement:

"In view of the spreading danger of Fascism in the United States, and the peculiar type of American Fascism, it is essential that American proletarians immediately withdraw all their forces from the capitalist parties.

"This third party is necessary under American conditions. Though it should not be Socialistic or Communistic, it must be anti-Fascist but not anti-Communist."

Since the ascent to power of Adolf Hitler in Germany and the crushing defeat of Marxism in that country, with the subsequent spread of national awakening in other countries, the press and all other Jew-influenced factions have led a most intensive campaign depicting the imaginary terrors of a nationalist regime. The single purpose of this campaign was to avert a national awakening in America and to keep the people under the hypnotic Utopian illusions of Judah. Nationalism and patriotism have been stamped as the phraseology of a "sucker."

To a large extent these international enemies of nationalism have been successful in evoking a partly adverse or hostile attitude towards all nationalist forms of government. Dimitrov himself discloses in what manner mistrust is thrown into the masses of the American people, by the following words:

"The special character of American Fascism is that it operates under the mask of opposing Fascism and anti-American currents, and attempts to show itself as a fighter for the American Constitution and Democracy."

The great majority of white Americans instinctively abhor the nature of Communism, but seditious propaganda has on the other hand pitted them against the only form of salvation for America, namely some form of nationalist government adapted to the character of the American people, that will through ruthless suppression of all anti-nationalist and anti-American forces, protect the welfare of the American people. Americans who feel that the sacred creed of the Constitution has been outraged and abused by the ruthless plunge into Marxism by the Roosevelt administration, in a patriotic urge have everywhere risen to defend the principles laid down in the Constitution in an effort to stave off the danger of Communism.

Is Patriotism so-called "Fascism"?

Notwithstanding the fact that as mere defenders of the Constitution of the United States, they are labelled "Fascists," Americans who are thus engaged in "fighting" Communism unfortunately do not realize that they are fighting a NEGATIVE battle. These patriots actually believe that they are opposing National Socialism (mistakenly called Fascism), as well as Communism in fighting for Democracy. The words of Dimitrov should, however, reveal to every American that so-called nationalism or patriotism is in nature identical with National Socialism, but not opposed to it.

Knowing this fact, how will Americans who have thus far believed themselves to oppose National Socialism and defending the principles of Democracy, actually regard National Socialism, if they discover themselves to be National Socialists? How can they bring their ideas of Democracy into compatibility with National Socialism. What likeness is there between "individual liberty of American Democracy" and a liberty whose boundaries are defined by the attributes of race, dependent upon the welfare of the people as a whole, not the individual apart from the people?

Degenerated Form of Liberty.

The Constitutional conception of liberty does not recognize the inequality of the races, but is on the contrary based upon the Freemasonic philosophy that "all men are created equal." From this is deduced that every man has equal liberties and equal rights in the United States irrespective of his ability or racial character.

The science of race, however, has definitely established the fact that all races are not equal, that each race is endowed with certain inward and outward characteristics anchored in the blood of that race, that the quality of thought and act originates in the quality of blood, that the creative ability of the races vary greatly and that it is therefore necessary to differentiate between the standards of culture of the various races. The limitation of freedom lies within the circle of racial characteristics that are peculiar to each separate race.

The "individual liberty" guaranteed in the Constitution could be maintained only so long as the Government of the United States and the right to interpret its laws was in the hands of the people of such races who are of a congenial nature.

In this creed of individualistic liberalism lies the seed of today's ANARCHY OF LIBERTY. The law of nature is the eternal watchful enemy of laxness, weakness, of all weeds of sickness and decay. If this were not so, and the weak had power of growth equal to that of the strong, the world would long ago have suffocated in the strangle hold of its own weeds of weakness and decay. So it is in the government of a people, the guiding hand of a people's fate. Immediately the reigns of government grow slack, they are seized by another stronger force that may be either good or evil, visible or invisible. Freemasonry itself, a nameless, anonymous secret society, founded upon the principles of Liberty, Equality, Fraternity, was controlled by the despotic, evil forces of Judah.

By forming the Masonic principles into the foundation of governments, through the gullible Gentile Masons, Jewry succeeded in injecting the poison of liberalism into all states and by such artificial means, through the consistent propagating of false ideas, cause an anarchy of liberty. In the ensuing disorder, ferments, convulsive revolutions, Jewry then seized the throne of power and sat to rule over a colorless, shapeless, massive heap of humanity.

Example: Russia.

The perfect example to illustrate this course to power is Russia. By agitating among the nation's lowest classes, the stupid, worthless, lazy and dissatisfied, who through their own efforts could never achieve anything, but who believed in the tricky illusions Jewish propaganda conjured up in their phantasy, Marxists succeeded in sowing mistrust and finally bitter hatred into these low masses against the superiors who then were in power. The first victims of the Russian Red Revolution were the leaders of the Russian people. Thus it was that in Russia, no sooner had the Russian people helped to slaughter their own leaders, and thereby became a "free," "brancipated" people, the Jews themselves, who had instigated the murders, seized leadership, and their terrible brutal force lashed these forlorn unled and misguided people before them like a herd of cattle.

In the course of human history it has thus come that a race whose only greatness lies in its ability to destroy, has vanquished a people of superior racial stock and far higher standards of culture. But because this victorious race lacks the ability to create, and has in the past existed only by consuming the produce of laboring, creative peoples, Russia - being ruled by these leeches - is now suffering a downfall from which it will require centuries to resurrect itself, if hope for resurrection is not already too late.

Communism is not new; it is the modern personification by Marx of the ancient liberalistic, destructive spirit of Judaism. It was this liberalistic spirit, leading to race mixture, which destroyed the strong governments of Egypt, Greece and Rome, and ground to dust the ancient culture of these nations through the same process of deterioration as we have witnessed most recently in the modern history of Russia.

Freemasonic "Liberty" in Business.

A study of the history of America will reveal that this Jewish-Freemasonic influence which manifested itself in the creed that "all men are created equal," was a decisive force in determining the course of American government, the formation of all political factions, and principally, in all educational institutions. These liberalistic tendencies in the minds of the American people have made it very simple for the Jew to arrive at his present pinnacle of power in the United States.

The Jews have taken due advantage of the "equal" liberties promised them by the Masonic interpretation of liberty in the Constitution. But as they have abused every right and privilege ever extended to them, they have particularly abused the sacred right of freedom.

Their materialistic nature has turned the American system of Capitalism into cut-throat competition; the financier replaced the productive capitalist and a sound

business basis was turned into a phantastic game of speculation. The development of high finance has not only made the lot of the worker into that of a slave but the capitalist as well became the victim of the thraldom of interest. Thus, under the pretense of a boundless "liberty" the nation was made the slave of money-tyranny.

The revolution in production and manufacturing through the development of technical inventions and the replacement of man power by machinery gave birth to new social problems. Capitalism, controlled by finance, and labor were pitted against each other more bitterly than ever before. And it was the Jew, who had despoiled capitalism, knowing of the necessity for leadership among the laboring class, immediately after the war, by the same methods employed in Germany, captured leadership in the laboring classes, being particularly successful among the low racial types of America's population and Negroes.

As the foundation of the new labor movement was chosen the theory of Marx. But Marx never sought to solve the social problems which at the date of his writing already presented themselves in Germany. He merely sought to use the social difficulties which had arisen between capital and labor (through Jewish influence) for the attainment of political power, by inciting the laboring class against its own superiors and promising them "liberty," and "emancipation from toil" through the force of a revolution that would destroy all authority and make the laboring class its own leader. The Jewish nature has since time immemorial been anti-social, inspired by the consuming hate of this race against the mere existence of everything non-Jewish, and the abstract theories of the Jew Marx are in themselves hostile to true social relationship between capital and labor.

Need for New Social Adjustment.

The old system of capitalism is obsolete. The social problems of labor cannot be ignored, and the need for new social adjustments cannot be denied. It is not sufficient to denounce Communism with its constant outbursts of strikes and violence.

However, as there is no problem facing us today which does not involve the racial issue, so also can no one hope that a new social relationship taking in all classes of the American people, can be formed without a thorough elimination of the Jewish influence in national life.

National Socialism in Germany has solved this problem through the consolidated workers' front. Through the restrictions laid upon Jewry's activities in business, and strict Government surveyance of business enterprises, business has not suffered a loss of freedom in expansion or been robbed of initiative which is a necessary incentive to the organic growth of business, but it has been purged of all filthy corruption, graft and speculation. Through this measure alone, labor has profited. Furthermore, the employer or capitalist may not indulge in enterprises which are harmful to the welfare of the people as a whole and must strictly obey the obligations his position as a provider of work places upon him. The rights of both laborer and capitalist are protected by the State for the benefit of each, both being duty-bound to respect this right. All abuses of such regulations are duly investigated and the offenders punished. The result is well known to persons who have studied conditions in Germany during the past three years. Production has increased, unemployment despite extreme economic strain has greatly diminished, strikes are not imaginable and the peaceful cooperation of labor and capital has sent the nation on a miraculous upward road to permanent recovery.

Germany's problems of course are not America's. In many respects the problems of America are far graver than were those in Germany. Much of this is due to the afore-explained Masonic influence in American life and the mistaken idea of individual liberalism, which even today fears the establishment of a strong American government in place of the pink dictatorship which is today enthroned in Washington, soon threatening to assume the tyrannical dictatorial powers of Soviet Russia.

But it is natural that the unchecked cut-throat competition will stop when Jewish influence is curbed in American business. American business methods differ from the Jewish, and under the new social adjustmenst that will be based upon the

principle "THE COMMON WELFARE BEFORE THE WELFARE OF THE INDIVIDUAL" it will be the arrogant, egoistic self-interest of the Jewish business man that will require the strictest supervision by law, and be subordinated to honorable American trading. The American workingman, whose labor creates the commodities of life out of the means provided for him by the capitalist, must have the protection and security of the American State. It cannot be denied that under the present system of finance-capitalism the worker is inhumanly exploited and that existing social conditions for the workingman are utterly inadequate and a shameful example of our finance-ridden "civilization." The present system of capitalism has produced actual want for the simplest necessities of life by depriving the laborer in industry of work, condemning him to the humiliating slavedole or loading upon his shoulders the burden of today's huge taxes by reducing his wage to a mere pittance.

The labor of the American workingman must cease to be a piece of merchandise. By cleaning up the field of a swindling, racketeering finance, such conditions will be impossible. The American worker and the capitalist must learn again the true meaning and beauty of human labor. The real capitalist who invests his capital, not in the business of finance to exploit others through systematic speculation, but in the production of the needs of life, is as much a laborer as the man whom he hires to work for him. Business based upon such scrupulously honest methods benefits the welfare of the commonwealth of the nation, and only by such honest labor can a people steadily climb to a higher plateau of prosperity that is lasting because it is social justice.

The apparent liberty of free competition in a free market, was in reality the fertile soil of all evil off-shoots in the upper finance-class as well as the lower labor-classes, because there existed no boundaries of right and justice and this free-for-all-grabbing system was controlled by the might of finance-tyranny, based upon the principle of "each man for himself," and "rugged individualism" that has long been changed to mean "the welfare of the individual first and always, the rest doesn't matter."

The strife between labor and capitalism of today is actually the outward sign of a dissolution of the last vestiges of a former strength. The present system instituted by the pink dictatorship in Washington, of relief, taxation, labor provisions, etc., are not for the purpose of solving the difficulties, but for the single purpose to further confuse the masses of the American people, rob them of their last strength of resistance and in their prostrate form swing over them the whip of a red dictatorship as in Russia.

But force can only be met with force. It is futile to fight against Communism by seeking to preserve the very system - parliamentary Democracy - from which the off-shoot sprang. In fact any movement that in principle and practice opposes Communism must in its own nature oppose also the very system which made possible the growth of the poisonous weed.

Democracy but not Parliamentarism.

True Democracy is not Parliamentarism, it is capable leadership and following of free will the personality and geniality of the head who in his turn must be willing to stake his life and all for the sake of his followers. This Democracy, too, is not new. It was the Democracy of the ancient tribes of the Nordic race, and its attributes were not only Freedom and Right, but Honor and Duty. Such true Democracy is possible only among people of the same blood.

Parliamentary Democracy, lacking in leadership and incapable of action, has been used as a stepping stone for Judah. Having attained their power, it has become useless for them and is to be discarded in favor of a Bolshevik dictatorship. It is useless therefore to fight for Democracy in its present form, for it is dead. There is but one alternative - either a red dictatorship in which Judah will dominate, or a strong American Government, based upon the ancient principle of leadership of the white race. A countermovement of Communism must exceed the Communist movement in strength, and it cannot tolerate in its own system any of the weak points of the old system.

Building America was the hardy task of the white race. The spirit that created this America has not died. Years of doubting insecurities and wholesale destruction of spiritual and material wealth, will finally give birth in the laboring RACE of America the desire for new constructive work, solidify the body of the white American people as a united front against the parasitic exploiters of humanity, based upon the National Socialist principle of "The Common Welfare before the Welfare of the Individual."

JEW FORM SECRET MURDER SOCIETY (continued from Page 1).

As far as has been ascertained the Shiverens is closely allied to the Jewish Freemasonry Order, B'nai B'rith. The Government is at present engaged in investigating practically all fields of crime, but Jewish Secret Societies are immune from the touch of the law. In the Lobby Investigation in Washington, all lobbies were investigated except the lobby of the B'nai B'rith, We demand that the activities of the B'nai B'rith are investigated by the Senate and its secrets be made known to the public. We demand further to know what connection there is between the B'nai B'rith and the Shiverens "whose sworn duty it is to single out anti-Semitic leaders and kill them as examples.

Jews are organized to the last man to fight and kill Gentile Americans. Now it is for the Gentile Americans to rally to their leaders and organize against the Jews. Organize before it is too late!

The circumstances of the mysterious death of V. N. Kositsin will be made known as soon as the details are learned.

J E W D E A L S T R A T E G Y .

Tom Linder, Commissioner of Agriculture of Georgia, in an article published in The Monitor, sets forth the reason for America's import of food from foreign countries, while in America itself food is destroyed. The figures named of quantities of food imported into America are astounding.

Mr. Linder writes:

"The Wall Street bankers are systematic - they are not fools. They saw that before they could collect from foreign countries, there must be created a shortage in foodstuffs in this country, so that foodstuffs could be imported from these debtor nations.

"Immediately, a program was put on. Six million hogs were slaughtered and thrown into the river. One-fourth of the cotton was plowed up and destroyed.

"During the month of February alone, which is one-twelfth of the year, this country imported from foreign countries 320,000,000 pounds of vegetable oils and oilproducing seeds and tallow. In five months we are importing as much oil as we get from our entire crop of cotton.

"America alone can use two and one-half times as much oil as we get from our entire cottonseed crop. Yet we are hiring people not to plant cotton, the most valuable food crop that we have in America.

"During the month of February we imported, among other things, 13,000,000 pounds of cottonseed oil; 4,000,000 pounds of peanut oil; 27,000,000 pounds of coconut oil from the Philippines; 22,000,000 pounds of palm oil from the Philippines; 111,000,000 pounds of flaxseed from which the oil is to be taken; and 16,000,000 pounds of tallow.

"We have developed the rayon industry. Out of trees we are making cloth to substitute for cotton. We are shipping jute, duty-free, from India, and Mr. Wallace has even taken the processing tax off the jute, so that it can be made and sold cheaper than low-grade cotton, in order to encourage the importation of jute . . . Our cotton is stacked up under a government loan but it cannot move in world markets."

". . . Love of Money is the root of all evil."

The New Deal political as well as the financial end in Wall Street are in Jewish hands.

We need more men of the type of Mr. Linder!

GERMANY SOLVED HER UNEMPLOYMENT PROBLEM.

The almost unbelievable drop in the unemployment figures in Germany from 6,000,000 in 1933 just before Hitler's party success, to 1,754,000 as the latest statistics reveal, must have been a bitter pill of news to swallow for the Jewish press.

Our "American" papers, though publishing the fact, could but badly conceal their displeasure in being compelled to admit this remarkable feat of the National Socialist Government. Frequent reference in the reports was made to the "growing unrest" in Germany, and the decrease in unemployment was held as a cause to check violent outbreaks. Peace and order were restored in Germany through the elimination of the eternal trouble-maker, the Jew.

These deliberate distortions on the part of a Jew-attendant press, however, are too flimsy to undervalue the matter-of-fact figures which speak for themselves. Another fine example is set for the world that needs, however, copious study, before it can be adopted elsewhere.

The present leaders of Germany when they set out to recapture Germany for the Germans, knew exactly the causes for the country's ailments. They set about to remove the causes and the body of the German people grew vital with health again. Freed from the cancer which gnawed at its vitals, the Jewish materialistic spirit, and the leeches, sucking its lifeblood - the Jewish control of State, the body of that people quickly gained in strength, and acting in coordinated unity, following the advice of an intelligent head, has performed feats, that in comparison to other peoples' bodies are nothing short of miracles.

The exact figure of unemployment in the United States is not known, although it is estimated that there are about 20,000,000 jobless, besides millions of such that can barely exist on the existing wage scale. Important in the comparison of unemployment figures is the fact that the United States, although approximately 17 times as large as Germany, has only about twice as many people, and in addition, more gold and natural wealth than any other country in the world. Any clear-thinking person will realize that actual want in a country such as the United States can be brought about only through deliberate scheming, and such news as came from Germany, should cause people to seriously seek the sinister causes that would impel any people to cold-bloodedly PLAN to starve out a people and take from them the land and possessions that are their birthright. The only answer to this are the Protocols of the Elders of Zion.

THE REPUBLICAN VICTORY AT RHODE ISLAND.

The overwhelming victory of the Republicans in Rhode Island, despite the fact that Secretary Ickes on the eve of the election sought to bribe the Rhode Island voters with a promise of \$3,600,000, if they voted for the New Deal, is a barometer of the American people's disfavor of the Roosevelt administration. It is also an indication that the American people in spite of the confusion of Marxist political dogmas set up by the New Deal theorists, have retained a healthy state of mind that cannot be changed by a bribe.

As the only possibility to express their disfavor of Roosevelt and the evils of the "Democratic" party now in power, the people swerved over to the Republican party. Mr. Hoover, as a result, saw himself encouraged to issue a statement generally denouncing the New Deal and blaming Mr. Roosevelt.

Perhaps Republican leaders believe that Mr. Hoover is a "good bet" in the coming election, and many recent statements made by Mr. Hoover intimate that he would be willing to run for re-election.

But after Hoover - what?

Hoover is as much or as little to blame for the New Deal as Roosevelt. As the predecessor of Roosevelt, he had ample time to avert the coming chaos. But he was as much an errand boy for Bernard M. Baruch, the most powerful Jew in the United States, as Roosevelt is today, and as such made conditions ripe for Marxism. His

failure ushered in the New Deal.

If Hoover is elected as the next official president, or any other leader of the Republican party should win against Roosevelt, the unofficial president, Bernard M. Baruch, will remain in office, and whoever the official president, he will be the mouthpiece of Baruch, the unofficial president.

But the great American masses, who are as yet not aware of the deep issue at stake, swing back and forth like a pendulum, between the Democratic and Republican parties, hoping that the termination of one party in control of the Federal Government will bring the desired change, not realizing, that under a new camouflage the old hidden rulers safely continue in the carrying out of their program.

But while part of the nation is yet dividing itself over the issues involving America's major political parties, another part is already laying the foundation to that party which will forever end the possibility of the existence of a behind-the-scene Super-Government.

RACE VS. RELIGION

Another "Irish Rose" case was recently given much newspaper publicity. This was the case of Mrs. Helen White Miller, an Irish woman and her Jewish husband, over the religion in which the second child of this marriage, a boy, should be raised.

The marriage was first performed in a Catholic Church and the husband agreed to bring up any children that would result of the marriage, in the Catholic faith. The marriage was performed a second time by a Rabbi, where it was agreed that any children would be raised in the Jewish faith. The first child, a girl, was baptised in the Catholic faith, but when the boy was born, the father refused to go through with his original agreement.

Jewish tradition compelled to break the first agreement. According to Jewish custom, girls born of a mixed marriage, may be raised in the non-Jewish religion, as woman, according to Jewish religious laws, is inferior to the male. For this reason, too, the Jew does not oppose the marriage of a Jewish girl to a non-Jewish man as strictly as he does the marriage of a Jew to a non-Jewish girl. Investigation will prove that there are far fewer marriages of Jewish men who have married non-Jewish girls, than vice versa. Jewish law demands that the male remain in the Jewish flock.

The unfortunate mother who insisted that her children be brought up in her faith, does not know that even though she will raise her child in her own faith, the blood of the child and its nature will be Jewish. It is a question of race, not religion.

It would have been better for both children to be raised in the Jewish faith, for the rites of baptism cannot make them Aryans, and later difficulties could have been avoided.

MORE ABOUT MASONRY

It is significant to refer our readers to the "Secrets of American Freemasonry Exposed" in No. 18, August 7th issue of the American Bulletin, which was submitted to us by the American Committee of the United Christians.

On the following day the appearance of this article on Masonry, an Associated Press news despatch from Berlin announced that Chancellor Hitler had (August 8th) issued a decree ending the Masonic Lodges in Germany. In this connection we quote from the New York Herald-Tribune of August 9th, in which appears under an obscure sub-heading "Hitler Ends Mason Lodges," the following:

"Berlin, Aug. 8 (AP). Adolf Hitler's own newspaper, "Voelkischer Beobachter," announced today that all Free Mason lodges throughout the Reich would come to an end today. On that day, the newspaper said, the State Lodge of Saxony, the Dresden Great Lodge and the "German Brethren Chain" of Leipzig would be dissolved. After dissolution of the old Prussian Free Mason lodge, July 21, and the gradual disappearance of smaller lodges in a year-old campaign, the Free Masons in Germany - first so-called "state enemies" - thus would be wiped out completely.

"Hitler's organ, asserting the secret aim of Freemasonry was a Jewish world republic, said the forthcoming dissolution would finish a special chapter in world history, and the guardian of the Nazi ideal will be alert."

It is interesting to note that any mention of this particular despatch is conspicuously absent in the New York Times and other Metropolitan newspapers of the same day. Why? All Metropolitan newspapers receive Associated Press news.

MORE ABOUT THE REPROBATE ALBERT PIKE.

In a previous article called "Secrets of American Freemasonry Exposed" we quoted from the book "Morals and Dogma" of the Scottish Rite of Freemasonry, written by Albert Pike, Grand Commander of the Masons. In the same article we explained how this "highest masonic dignitary in the United States" had as a General in the Civil War maddened the Indians with liquor in opposing the North, etc. etc. Further information from a reliable source brings us more proof of the inhuman nature of this man and mason.

During the Civil War, Pike served as brigadier-general in the Confederate army. The Confederate government named him Indian Commissioner and charged him with the conduct of negotiations with the most powerful savage tribes, to raise an army of their warriors. To facilitate his organization of this army he was made Governor of Indian Territory, and once these hordes were united, they were placed under his command.

What followed can be easily understood as his troops were composed of Chickasaw, Comanches, Creeks, Cherokees, Miamis, Osages, Kansas and Choctaws, all of whom were supplied with plenty of liquor for the massacre.

It was no longer war - it was an orgy of murder and atrocities so terrible that the foreign powers interfered. Representations made by England, threatening intervention in the name of Humanity, finally compelled Jefferson Davis to disband those liquor-crazed Indian "troops."

Pike's "Exhalation" Experiment

Pike was not only an organizer and a politician, he was also, in his "religious" capacity, as Cabalist and spiritist, a mystic on whose personality the following anecdote from "Le Diable au XIX siecle" by Dr. Bataille, pages 360-61, sheds a flood of light.

"Speaking before the Supreme Council of Charleston, on October 20, 1884, he (Pike) gave an account of his recent travels through the United States and some incidental experiences. One of these, he described as follows:- "At Saint Louis, we operated the grand rites, and through Sister Ingersoll, who is a first class medium, received astonishing revelations during a solemn Palladian session at which I presided, assisted by Brother Friedman and Sister Warhnburn. Without putting Sister Ingersoll to sleep, we saturated her with the spirit of Ariel himself, but Ariel took possession of her with 329 more spirits of fire and the seance from then on was marvellous. Sister Ingersoll, lifted into space, floated over the assembly and her garments were suddenly devoured by a flame which enfolded, without burning her. We saw her thus in a state of nudity for over ten minutes. Flitting above our heads, as though borne by an invisible cloud, or upheld by beneficant spirits, she answered all questions put to her.

"We thus soon had the latest news of our very illustrious brother Adriano Lemmi. Then, Astaroth, in person, revealed himself, flying beside our medium and holding her hand. He breathed upon her and her clothes, returning from nowhere, clothed her again.

"Finally Astaroth vanished and our sister fell gently on to a chair where, with her head thrown back she gave up Ariel and the 329 spirits who had accompanied here.

"We counted 330 "exhalations" in all at the end of this most successful experiment."

Anti-Semitism: A World Survey

Ingram Hughes

The Jew, Benjamin Disraeli, Earl of Beaconsfield and Prime Minister of England often boasted of the dominant but hidden influence of the Jews in the political and economic life of Europe.

In 1844 his book "Coningsby" was published in London and contained the following revelation on pages 183-184:

"That mysterious Russian diplomacy which so alarms Western Europe was organized and principally carried on by Jews: that mighty revolution which is at this moment preparing in Germany, which will be in fact a second and greater Reformation, and of which so little is yet known in England, is entirely developing under the auspices of the Jews, who almost monopolize the professorial chairs in Germany . . . I hear of peace and war in the newspapers, but I am never alarmed, except when I am informed that the sovereigns want treasure: then I know that monarchs are serious.

"A few years ago we (viz., the Rothschild family of financiers, in whose name he speaks) were applied to by Russia . . . I resolved to go myself to St. Petersburg. I had an interview with the Russian Minister of Finance, Count Cancrin. I beheld the son of a Lithuanian Jew . . . I resolved on repairing to Spain from Russia. I had an audience with the Spanish Minister, Senor Mendezabel: I beheld one like myself, the son of a Nuovo-Christiano, a Jew of Aragon . . . I went straight to Paris to consult the President of the French Council: I beheld the son of a French Jew. 'And is Soult a Hebrew?' 'Yes! and several of the French Marshals-Massena, for example

The President of the French Council made an application to the Prussian Minister. Count Arnim entered the Cabinet, and I beheld a Prussian Jew. So you see, my dear Coningsby, that the world is governed by very different personages to what is imagined by those who are not behind the scenes."

That the hidden influences (which Disraeli here connects with Jews) dominating the Liberal governments of Europe during the last century were also closely allied with Freemasonry has since been well proven and commonly admitted.

A M E R I C A N N A Z I S

In a series of articles appearing in the New York World-Telegram about the American Nazis, which began August 12th, William A. H. Birnie lays much stress upon the German origin of National Socialism in the United States, and presents the movement of American National Socialism as an alien importation that is making a futile attempt to make America a carbon copy of Germany.

The American Bulletin was entered as "A newcomer in the Yorkville propaganda field" and decried as a "violently anti-Semitic mimeographed weekly, dedicated to the doctrine of "America for the Americans" and the "White Man's Viewpoint."

Special reference was made to an article by P.E.R., entitled: "The Incipient Decadence of America."

For the benefit of Mr. Birnie, we should like to inform him that the above-mentioned article was written by an American of the fifth generation.

Jews and their henchmen still like to delude themselves into believing that the "anti-Semitic wave" in the United States is imported and will vanish as quickly as it has come.

This is not true. It is true that National Socialism originated in Germany, but the roots of "anti-Semitism" have been sown in this country by the Jew himself and he will bear the consequences. National Socialism is not just anti-Semitism. It is philosophy born of the soul and mind of the Nordic Race.

But the Jewish Question has become a world problem, and understanding of this question has in every corner of the world begun to shake the foundation of Jewish world power. National Socialism has solved not only the Jewish problem but has given birth to a new power - the power of the White Man over the Underdog, that will inevitably crush all the dark powers emanating from the latter and bring to all peoples of the white race the victory of Light, symbol of the white man's victory.

The international brotherhood of the Jew-Freemasonry is gradually being replaced by the international brotherhood of the Aryan race!
