Dear Mother:

We have put in a pretty faithful day today. The boss wrote asking for an abstract we were working on and we have been rushing to finish it, and at that, will not get it done by the time he said he would like to have it.

This has been a good week to work - much cooler than last week. We have done a lot of work this week after getting started.

The B. & O. was over an hour late on Monday morning and that caused me to miss a train from Wheeling up here. I did not get here until about 11:30. Dugent did not pull in until about noon Tuesday, so I put in my time on what little work I had ahead until he got here. He was sick and did not begin my-

til Wednesday morning  
we started an index  
of their Chancery  
proceedings here on  
Wednesday but had  
to quit it when the  
boss's letter came  
for the abstract.

I am getting accus-  
tomed to their sys-  
tem until I like  
it much better  
than I did at first.

It is raining here  
just a little this even-  
ing. There has not  
been scarcely any  
rain here. While

you were getting large rains up there they were not getting any here. There have been only two or three little showers here since we came. The rain I spoke of was over and the sun shining before I finished the next sentence.

I do not think that I will come home this week. I wrote to Ed Kuhn and am going out there (to Hundred) over Sunday. While

going or coming I have a little work to do at Wheeling on a title. I think I will do it Monday on my way back. I have not seen Ed. for years and decided that this would be a good time to go down. I would like to go to Burton some week while down here, also.

I had a letter from Mary this week and as I understood it she expects to get

home about Tuesday  
week.

I guess the rail-  
road strike was set-  
tled. I was glad to  
hear that.

I understood, from  
what Hufford said,  
that Bennett had  
a haystack burned  
by lightning and  
James Forner, a  
barn, on last Sun-  
day evening. The  
storms seem severe  
in that section  
this year. I guess

the storm was the cause  
of the train being so  
late on Monday morn-  
ing.

I had a letter from  
Ira and one from  
James Hall this week.

Your son,  
Guy.
