Enterprise Systems is responsible for providing "mission critical" information services to the University community to meet the instructional, research, and administrative needs of students, faculty, and staff.

This team within Technology and Communications is the point of contact for such widely used systems as: Enterprise Mail, WebMail, Distribution Lists, Data Backup and Restore Services, Personal Calendaring, Enterprise Security, Central and Personal Web Services, Directory Services, Service Continuity and Disaster Recovery, User Account and Group Management, Student Employment System, Faculty Evaluations, Test Scoring, Network Printer Configuration and Management, Custom Application Development, Data Reporting, Parking and Vehicle Registration Systems, User and Technical Documentation, Technical Alerts, and the University's main Administrative Information System, Banner.

Banner by SunGardHE is an integrated system that provides students, faculty, and staff access to such areas as academic records, housing, Alumni services, purchasing, financial aid, billing information, class schedules, financial aid, on-line registration, advisee information, and class rosters. Currently, human resource and payroll information is provided by SyTEC using the SAP software.

Edinboro has an intricate hardware and software schema which includes numerous HP servers in a clustered environment along with window-based machines that utilize not only Micro-Soft products but a variety of databases to ensure that systems and data that are shared by many users throughout the organization have high levels of availability and functionality.

Networks and Telecommunications

The primary purpose of Networks and Telecommunications is to provide the resilient information networks and to promote and integrate advance telecommunications techniques throughout the Edinboro community.

Networks & Telecommunications is responsible for data network connectivity including internet, intranet, dial-up and server connections, and video connectivity. Networks and Telecommunications are also

responsible for the campus PBX telephone system, voicemail as well as maintenance of the entire campus wiring infrastructure. As all university communications take place over this infrastructure using one of these systems, the need for these services is among the most central in meeting the university's mission and SSHE imperatives.

In the past several years, Technology and Communications have significantly improved the technology infrastructure. Completion of a multi-phased project called Campus-Wide Information Networks (CWIN), has allowed for a structured wiring system that provides fiber wiring from most buildings back to the operations center of Technology & Communications in Ross Hall, and voice, video and data cabling within most buildings. This multi-million dollar project has significantly expanded voice, video, and data network access on campus and substantially improved the data network speed. The installation of the campus PBX telephone system enhanced the on-campus telephone service with voice mail, auto attendant, and other services. Voice mail, digital cable television services, and data networking to the residence halls are available to all students in the residence halls. All buildings have upgraded to a gigabit backbone and 10/100 MB to the desktop to provide network speed and reliability. Internet bandwidth requirements for the campus have increased from a 2 Mbps internet pipe 5-6 years ago to a 30 Mbps connection to Internet 1 and a 10 Mbps Internet 2 connection to meet the current demand.

All residence hall rooms are wired with two high speed internet ports, one cable television jack and one telephone jack which provide local telephone service, voice mail, digital cable television and data networking services to all students in the residence halls. The residential network enjoys a 60 Mbps Internet connection thereby accommodating student academic needs and recreational demands from their campus homes. Students receive technical support for connectivity issues via Help Desk support. Problems requiring a site visit are scheduled by StudentNet technicians who live in the residence halls and are trained and qualified to assist students. Walk-in technical support for residence hall connectivity issues, wireless configuration, warranty and non-warranty repair through our contracted vendor and self-help on computer management and security issues is available through our Technology Help Center located in Ross Hall.

Technology and Communications is committed to deploying 802.11b/g wireless technology across campus to allow highly mobile computing for both students and staff. Over the past year we have steadily increased wireless coverage to areas commonly frequented by students. Access to network resources may now be obtained in student-centered areas, academic buildings, the library, lounges, dining areas, lobbies of residence halls, some outdoor areas as well as our locations at Porreco and Meadville. Recent comparisons have shown that we are well ahead of the other universities in our region with wireless network access availability.

The State System is currently served by a wide-area network called the PASSHEnet. The PASSHEnet is a private wide-area network serving Pennsylvania's state-owned universities, including over 100,000 students, faculty, staff, and selected community networks. All PASSHE schools have installed fiber to their campus that links them to the PASSHEnet. At EUP, primary and secondary TelCove fiber links have been extended to Ross Hall and converted to an OC-3 network link. An OC-3 SONET ring from Erie has been installed, which provides EUP with a fully redundant SSHEnet link to the Internet.

In August 2007, Edinboro University became host to a second, fully operational Internet gateway and Network Operations Center (NOC) supporting all Internet connectivity to State System Universities in the western part of Pennsylvania. The new gateway also has the capability of supporting the entire PASSHEnet system in case of a major failure of the existing Eastern Internet Gateway and NOC in West Chester. This was put into place as part of a business continuity plan put forward by PASSHE allowing full redundancy for Internet connections for the entire PASSHEnet system in case of failure of either gateway.

Desktop Systems & Learning Technology

Desktop Systems & Learning Technology supports and manages microcomputer facilities for teaching and learning, distance education services, a media services function, and the Help Desk. The Help Desk provides a single point of contact for the campus community to receive assistance with computer and peripheral related problems or questions.

Several Ethernet-based local area networks run the Windows network operating system using the TCP-IP protocol. These LANs connect EUPnet with a Windows authentication server that currently provides authentication services to 56 computer labs.

The purpose of the laboratories is to gain practical experience in microcomputer applications and to learn how technology is utilized within particular disciplines. Available programs include: spreadsheets, database management, graphics, various programming languages and word processing. E-mail and Internet access are also available in the majority of labs. Special technical arrangements are made for students with disabilities. All students automatically receive a network account and email account when they register, which grants access to these facilities and services. Facilities as of 10/2009 include:

Computer Labs:

- 10 General access
- 11 Instructional
- 32 Computer classrooms
- 1 General access at Edinboro University in Erie-The Porreco Center
- 1 Instructional Design (Learning Technology Center) for faculty only
- 1 Instructional at the Meadville Campus

Number of University Computers (including labs) Based on Type:

- 1535 DOS/Windows
- 184 Macintosh
- 329 Laptop/notebook
- 42 Servers
- 156 Other

Desktop Systems and Learning Technology is a comprehensive support unit that provides distance education, media resources, and services to students, faculty, staff, and management in support of their respective needs and missions. It provides equipment distribution and repair services campus wide. Interactive video conferencing facilities are available for classes and conferences. Courses provided in this mode are connected to students in remote locations within the region and beyond.

A number of classrooms have been upgraded with additional TVs, VCRs, Special AV equipment, overhead projectors, and Gateway and Mac workstations. Ross Hall, Porreco, Butterfield, the R. Benjamin Wiley Arts and Sciences Center, and the Meadville Campus are equipped with state-of-the-art video conferencing rooms.

Glossary of Terms

Glossary of Data Terms

Introduction

This tenth edition of the Glossary of Data Terms represents the latest attempt to establish uniform definitions for the State System of Higher Education. The long-term goal of this project, supported by the Chancellor and University presidents, is to publish a comprehensive publication containing standard data definitions for all terms used in data collection and reporting throughout the System. The Glossary of Data Terms is widely distributed, both electronically and in hard-copy form. New terms in this edition are highlighted in boldface type.

The definitions are listed alphabetically, and have been adapted from these sources: Board of Governors Policies; Annual Data Collection Plan; National Center for Education Statistics; Joint Commission on Accountability Report; Collective Bargaining Agreement; National Association of College and University Business Officers; Facilities Manual; Data Warehouse Institute; Diversity Database, University of Maryland; and the Internal Revenue Service.

While many of the definitions that follow are consistent with existing data processes, others will require changes in how data are collected and reported. Because of this, it is expected that some definitions will not be implemented until System universities have sufficient time to review them and make appropriate changes.

Review, Approval, and Audit process

This document represents an important step in establishing a comprehensive dictionary of uniform terms. Once definitions are accepted, data audits will be conducted periodically to ensure compliance with them.

Although every attempt has been made to completely and correctly define the terms contained herein, it is very likely that the document includes an occasional mistake. In order to continuously improve this process, please pass along information about corrections to your Director of Institutional Research.

1. Abroad: Any geographic location not in the aggregate United States, which includes the 50 States, the District of Columbia, and U.S. territories. Linkage: international student exchange.
2. Academic Program/Major: Instructional program leading toward an associate's, bachelor's, master's, doctor's, first-professional degree or certificate or resulting in credits that can be applied to one of these degrees or certificates. Linkages: associate's degree, bachelor's degree, master's degree, doctor's degree, first-professional degree, certification student. The following categories define the various components of these terms. **Major**: A major is a program of study taken by students, usually within a discipline or group of related disciplines, consisting of a specified number of courses, credits, or achievements of increasing sophistication, subject to requirements of the degree under which it is authorized. The undergraduate major typically consists of one-third to one-half of the baccalaureate degree requirement. **Minor**: A minor shares the primary definition with the major; it may or may not complement the student's major field; its requirements typically include most of the required core of courses of a major, but fewer electives, and include at least 18 and up to 30 credits. Like the major, it is expected to have coherence, and increasing sophistication, and not be just a collection of courses with a common theme. **Concentration**: A concentration is a sub-specialization or emphasis within a major field, usually taken by a student majoring in that discipline. For designation, it should consist of at least one-third of the major requirement, and should be within, not in addition to, the major requirements. For example, the Biology major may concentrate in botany, the physics major in astronomy, or the Business major in Finance. In some cases, a concentration may be elected by a student with a different, but related major: e.g., a Drama major might elect to complete a concentration in Greek and Roman Tragedy, offered in a literature program, or in dance, offered with Physical Education. Other:

Edinboro University of Pennsylvania Fact Book 2008-2009
Section 16 - Glossary

Terms such as track, emphasis, specialization, focus, option, and sub-major are variously used in place of concentration.

3. Academic Year: The period of time generally extending from August to May usually equated to two semesters and including winter sessions or inter-sessions.
4. Accountability: Ability to explain the worth or importance of an organization and its efforts.
5. Accrediting Agencies: Agencies that establish standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings.
6. ACT score: Previously known as the American College Testing Program, these scores are used for admission purposes. For the State System, the highest score is reported for all first time, full-time, baccalaureate degree-seeking students who take this test. Scores do not need to be reported for students who are out of high school for more than two years, for transfer students, or for international students. Field: ACT
7. Address, Local: A student's local address is the temporary point of contact during an academic term year.
8. Address, Military: A student's non-US address while serving in the military. Typically these are APO and FPO. Notes: For reporting purposes, use AP, AE or AA for the state code. Country code for these should be US. County code should be 01-67 or 98.
9. Address, Permanent: A person's permanent address is determined by evidence such as a driver's license, voter registration, or tax forms. This address may be the legal residence of a parent or guardian. Fields: ADD1, ADD2, CITY, STATE, COUNTY, COUNTRY
10. Adjusted Cohort: An institution's cohort minus any allowable exclusions. Exclusions include students removed from the cohort for reasons of death, military service, permanently disabled, foreign aid service (i.e., Peace Corps), or official church missions.
11. Administrative Unit: The administrative office in any multi-campus environment. This may also apply to the parent or lead campus or office in a system with one or more branch campuses.
12. Admission Decision: Status of an applicant who has completed an application for admission to a State System university.
13. Admission Decision Category: There are seven types of admissions decisions, each of which is described below. Regular admit: applicant admitted without restrictions. Non-degree: a student enrolled in courses for credit who is not seeking a degree or formal award. Admitted with restrictions: special classification for admitted applicants (e.g., June-January, special admit, conditional, provisional, trial, EOP, Act 101, early admit high school). Waiting list admit: applicant admitted contingent on space availability basis. Denied admission: applicant not permitted to enroll. Withdrawn: applicant who has been offered admission to the institution but chooses not to accept it. Cancelled: an applicant who has been offered admission but does not enroll for any reason. Field: ADMITSTAT
14. Admission Inquiry: Any student-initiated action to obtain admissions information about a State System university.
15. Admission Prospect: A potential applicant who has indicated interest in programs and/or activities available at a State System university.
