Edinboro At A Glance - Great things happen here!

Offering more than 100 undergraduate and graduate majors, Edinboro University is dedicated to academic and co-curricular excellence. The University is accredited by nearly a dozen agencies with many nationally-recognized programs and was selected by U.S. News and World Report as a Third Tier classification in the North's "Best Universities-Master's" category and also ranked high as a "great school" with "great prices." Edinboro University of Pennsylvania is northwestern PA's largest and most comprehensive institution of higher education. Founded in 1857 in Edinboro, PA (pop. 6,900), the campus is located the only 18 miles from Erie and within two hours of Buffalo, Cleveland and Pittsburgh. Edinboro is one of 14 comprehensive universities within the PA System of Higher Education.

Edinboro University boasts 43 buildings on a spacious 585-acre campus, which includes a five-acre lake, open fields and woods, five on-campus traditional residence halls and four apartment style housing suites for approximately 2,000 students. Four additional housing buildings are in development. The Baron-Forness Library houses approximately 500,000 bound volumes, provides access to print and/or electronic full text for more than 30,000 periodicals and subscribes to more than 100 electronic indexes and databases. More than 75 computers in the reference area and in the second floor computer lab, as well as wireless connectivity throughout the building ensure students have access to information in any format. In addition, a writing center located on the second floor is available to assist students with their coursework and class projects. We also have great things happening in our state-of-the-art learning centers and contemporary facilities for on-campus living, dining and recreation. The thriving institution offers a new 260,000 square-foot student center, a new \$115 million suite-style student housing complex with apartment style housing suites, the new Dr. William P. Alexander Music Center, the new six-story Mike S. Zafirovski Sports and Recreation Center, and Sox Harrison Stadium, home of the Fighting Scots, was upgraded to include artificial turf, lighting, and new scoreboards. In addition, the new Human Services Building is under construction and the Cooper Science Center is under renovation. In addition, Edinboro University in Erie-The Porreco Center consists of 27 acres and 11 buildings – both day and evening classes are offered at Porreco in addition to conferences and special events. Edinboro University in Meadville - The Joseph T. Buba Center is a 20,000 square-foot, state-of-the-art educational facility that combines the latest technology and classroom design within the historical renovation of the 1800s Bessemer Railroad Complex.

More than one-half of the faculty members at Edinboro University have earned doctorates or the highest degree attainable in their field. Many of them have been recognized nationally and internationally for their outstanding research and scholarly accomplishments. In addition, a number of faculty members have held state and national leadership roles in their professional organizations. The student-faculty ratio is 19:1.

When a student is not in class or studying, there are more than 200 student-related clubs and organizations which offer a wide variety of activities. In addition, students can attend and/or take part in musical concerts, comedy shows, movies, skiing trips, fraternities, and sororities.

The Edinboro University Alumni Association has experienced dramatic growth during the past several years and now has 52,000 graduates and growing. The alumni have played a major role in fund-raising efforts for student scholarships, and they continue to be some of the best ambassadors for Edinboro University. Among the many graduate and professional schools attended by recent Edinboro graduates are American University, Berkeley, Eastman School of Music, Georgetown University, Hershey Medical School and the Massachusetts Institute of Technology. Edinboro graduates have brought credit to the University in such positions as government officials, legislators, federal agents, corporate executives and administrators, and college presidents.

Students with exceptionally high academic aptitude scores and excellent high school records are eligible to participate in the University's Honors Program. One of the leading programs in the nation, the Edinboro Honors Program has been used as a model by many colleges and universities.

The Office for Students with Disabilities provides support services dedicated to enhancing the University's commitment to equal opportunity for all students with disabilities. The campus maintains the largest community of resident students with severe disabilities attending higher education in the Commonwealth of Pennsylvania as well as one of the largest in the United States. Visitors and all members of the campus community benefit from a campus which is rich in diversity and provides high levels of accessibility for persons with disabilities.

Recognizing that classroom learning provides only part of a complete education, Edinboro University provides off-campus internships in businesses, industries and offices throughout the tri-state area. Students have successfully completed internships

with such organizations as General Electric, the Cleveland Browns, CNN, Ford Motor Company, Disney World, the American Cancer Society, and the Pennsylvania House of Representatives.

An international education program provides educational opportunities for students from 24 other countries. Visiting scholars from around the world serve as resource individuals for area schools, businesses and industries and, in addition, provide special lectures, seminars and workshops for Edinboro students and faculty.

The Integrated Postsecondary Education Data System (IPEDS), established as the core postsecondary education data collection program for NCES, is a system of surveys designed to collect data from all primary providers of postsecondary education. IPEDS is a single, comprehensive system designed to encompass all institutions and educational organizations whose primary purpose is to provide postsecondary education. The IPEDS system is built around a series of interrelated surveys to collect institution-level data in such areas as enrollments, program completions, faculty, staff, finances, and academic libraries.

University Resources

Technology and Communications Resources – Fall 2010

Mission Statement

The purpose of Technology and Communication is to provide the services and environment which:

- Enable students to use technology to meet their academic needs by providing access to technology;
- Enable the faculty to use technology for the creation of effective learning environments and for incorporation of developments within specific disciplines;
- Enable all members of our community to use technology to conduct the business of the university efficiently and effectively.

To that end, Technology and Communications will achieve its goals in a manner that is responsive to university community and reflective of the institution's resources and priorities by providing technology leadership, empowering users to work productively, maintaining a service orientation and working cooperatively and collaboratively with all departments to fulfill the mission of the university.

Technology and Communications is a University-wide function composed of three main areas:

Enterprise Systems and Research

Enterprise Systems & Research is responsible for providing "mission critical" information services to the University community to meet the instructional, research, and administrative needs of students, faculty, and staff.

This team enables the University to integrate data and synchronize processes. It strives to eliminate information fragmentation and is the point of contact for such widely used systems as:

- Enterprise Mail, Distribution Lists, Personal Calendaring
- University Site Content Management System and Portals, Directory Services
- Enterprise Security, Database Service Continuity and Disaster Recovery, Application User Accounts & Authorizations
- University's Main and Ancillary Administrative Information Systems, Database Backup and Restore Services, SIS Network Printer Configuration and Management
- Custom Services such as Application Development, Institutional & Data Reporting, 3rd Party Vendor Interfaces, Faculty Evaluations, Test Scoring, User and Technical Documentation, Technical Alerts

Edinboro has an intricate hardware and software schema which includes numerous HP servers in a clustered environment along with window-based machines that utilize not only Microsoft products but a variety of databases to ensure that systems and data that are shared by many users throughout the organization have high levels of availability and functionality.

Networks and Telecommunications

The primary purpose of Networks and Telecommunications is to provide the resilient information networks and to promote and integrate advance telecommunications techniques throughout the Edinboro community.

Networks & Telecommunications is responsible for data network connectivity including internet, intranet, dial-up and server connections, and video connectivity. Networks and Telecommunications are also responsible for the campus PBX telephone system, voicemail as well as maintenance of the entire campus wiring infrastructure. As all university communications take place over this infrastructure using one of these systems, the need for these services is among the most central in meeting the university's mission and SSHE imperatives. Additionally, Networks and Telecommunications is responsible for the student technology on campus. This includes network, telephone and cable television in the residence halls as well as computer support services offered through our Student Technology Help Desk located in Ross Hall.

Technology and Communications have significantly improved the technology infrastructure on campus. Completion of a multi-phased project called Campus-Wide Information Networks (CWIN), has allowed for a structured wiring system that provides fiber wiring from most buildings back to the operations center of Technology & Communications in Ross Hall, and voice, video and data cabling within most buildings. This multi-million dollar project has significantly expanded voice, video, and data network access on campus and substantially improved the data network speed. The campus PBX telephone system provides on-campus telephone service with voice mail, auto attendant, and other services. All campus buildings have upgraded to a gigabit backbone and 10/100 MB to the desktop to provide network speed and reliability. Internet bandwidth requirements for the campus have increased from a 2 Mbps internet pipe 7-8 years ago to a total of 100 Mbps connection encompassing connections to Internet 1, Internet 2, SAS, Mesh, D2L, KLN and video connections to meet the current demand.

All traditional residence hall rooms are wired with two high speed internet ports, one cable television jack and one telephone jack which provide local telephone service, digital cable television and data networking services to all students in the residence halls. Although voice services are no longer provided in newly constructed housing, in addition to the digital cable television services and internet connectivity, students living in the Highlands are provided with wireless internet connectivity. The residential network enjoys a 100 Mbps Internet connection thereby accommodating student academic needs and recreational demands from their campus homes. Students receive technical support for connectivity issues via the Student Technology Help Desk. Problems requiring a site visit are scheduled by StudentNet technicians who are trained and qualified to assist students. Walk-in technical support for residence hall connectivity issues, wireless configuration, virus and spyware remediation, self-help on computer management and security issues, and warranty and non-warranty repair through our contracted vendor is available through our Technology Help Center located in Ross Hall.

Technology and Communications has begun deploying 802.11n wireless technology across campus to allow highly mobile computing for both students and staff. Wireless coverage has been steadily increased to areas commonly frequented by students. Access to network resources may now be obtained in student-centered areas, academic buildings, the library, lounges, dining areas, lobbies of residence halls, some outdoor areas as well as our locations at Porreco and Meadville. Recent comparisons have shown that we are well ahead of the other universities in our region with wireless network access availability.

The State System is currently served by a wide-area network called the PASSHEnet. The PASSHEnet is a private wide-area network serving Pennsylvania's state-owned universities, including over 100,000 students, faculty, staff, and selected community networks. All PASSHE schools have installed fiber to their campus that links them to the PASSHEnet. At EUP, primary and secondary TelCove fiber links have been extended to Ross Hall and converted to an OC-3 network link. An OC-3 SONET ring from Erie has been installed, which provides EUP with a fully redundant SSHEnet link to the Internet.

In August 2007, Edinboro University became host to a second, fully operational Internet gateway and Network Operations Center (NOC) supporting all Internet connectivity to State System Universities in the western part of Pennsylvania. The new gateway also has the capability of supporting the entire PASSHEnet system in case of a major failure of the existing Eastern Internet Gateway and NOC in West Chester. This was put into place as part of a business continuity plan put forward by PASSHE allowing full redundancy for Internet connections for the entire PASSHEnet system in case of failure of either gateway.

Desktop Systems & Learning Technology

Desktop Systems & Learning Technology supports and manages microcomputer facilities for teaching and learning, distance education services, a media services function, and the Technology Help Center. The Technology Help Center provides a single point of contact for the campus community to receive assistance with software, hardware and peripheral related problems or questions.

The computer lab environment consists of 57 different computer labs and a plethora of Ethernet-based local area networks running the Windows network operating system using the TCP-IP protocol. These LANs are a component of the campus network (EUPnet) and all the computers within EUPnet require login access via a Windows authentication server known as an Active Directory server.

The purpose of the laboratories is to gain practical experience in microcomputer applications and to learn how technology is utilized within particular disciplines. Available programs include: spreadsheets, database management, graphics, various programming languages and word processing. E-mail and Internet access are also available in the majority of labs. Special technical arrangements are made for students with disabilities. All students automatically receive a network account and email account when they register, which grants access to these facilities and services. Facilities as of 10/2009 include:

Computer Labs:

- 14 General access
- 11 Instructional
- 32 Computer classrooms
- 1 Instructional at Edinboro University in Erie-The Porreco Center
- 1 Instructional Design (Learning Technology Center) for faculty only in Ross Hall
- 1 Instructional at Edinboro University in Meadville

Number of University Computers (including labs) Based on Type:

- 2509 Total Systems in Operation
- 2248 are running the Windows Operating System
- 238 are running the Apple Macintosh Operating System
- 23 are running some other type of Operating System

Breakdown of the 2509 Types

- 2131 Desktops (44 are servers)
- 378 Laptops

Desktop Systems and Learning Technology is a comprehensive support unit that provides distance education, media resources, and services to students, faculty, staff, and management in support of their respective needs and missions. It provides equipment distribution and repair services campus wide. Interactive video conferencing facilities are available for classes and conferences. Courses provided in this mode are connected to students in remote locations within the region and beyond.

Over 150 classrooms have been enhanced with technology consisting of various equipment such as DVDs, Special AV equipment, digital projectors, symposiums, and Windows and Mac workstations. Ross Hall, Porreco, Butterfield, Hendricks Hall, the R. Benjamin Wiley Arts and Sciences Center, and the Meadville Campus are also equipped with state-of-the-art video conferencing rooms.

In addition to the services listed above, Technology and Communications also has an equipment loaning service through the Learning Technology Services facility in the basement of Ross Hall. Various types of equipment are available for employees and students to sign out on an available basis. Some examples of equipment include:

	TVs	
	Tripods

Glossary
of
Data Terms

Appendix C: Glossary of Data Terms 9/2/2010

Introduction

The Glossary of Data Terms represents uniform definitions for the State System of Higher Education. The long-term goal of this project, supported by the Chancellor and University presidents, is to publish a comprehensive publication containing standard data definitions for all terms used in data collection and reporting throughout the System. This glossary is widely distributed, both electronically and in hard-copy form.

The definitions are listed alphabetically, and have been adapted from these sources: Board of Governors Policies; Annual Data Collection Plan; National Center for Education Statistics; Joint Commission on Accountability Report; Collective Bargaining Agreement; National Association of College and University Business Officers; Facilities Manual; Data Warehouse Institute; Diversity Database, University of Maryland; and the Internal Revenue Service.

While many of the definitions that follow are consistent with existing data processes, others will require changes in how data are collected and reported. Because of this, it is expected that some definitions will not be implemented until System universities have sufficient time to review them and make appropriate changes.

Review, Approval, and Audit process

This document represents an important step in establishing a comprehensive dictionary of uniform terms. Once definitions are accepted, data audits will be conducted periodically to ensure compliance with them.

Every attempt has been made to completely and correctly define the terms contained herein. In order to continuously improve this process, please pass along information about discrepancies to your Director of Institutional Research.

1. Abroad: Any geographic location not in the aggregate United States, which includes the 50 States, the District of Columbia, and U.S. territories. Linkage: international student exchange.
2. Academic Program/Major: Instructional program leading toward an associate's, bachelor's, master's, doctor's, first-professional degree or certificate or resulting in credits that can be applied to one of these degrees or certificates. Linkages: associate's degree, bachelor's degree, master's degree, doctor's degree, first-professional degree, certification student. The following categories define the various components of these terms. **Major**: A major is a program of study taken by students, usually within a discipline or group of related disciplines, consisting of a specified number of courses, credits, or achievements of increasing sophistication, subject to requirements of the degree under which it is authorized. The undergraduate major typically consists of one-third to one-half of the baccalaureate degree requirement. **Minor**: A minor shares the primary definition with the major; it may or may not complement the student's major field; its requirements typically include most of the required core of courses of a major, but fewer electives, and include at least 18 and up to 30 credits. Like the major, it is expected to have coherence, and increasing sophistication, and not be just a collection of courses with

- a common theme. **Concentration:** A concentration is a sub-specialization or emphasis within a major field, usually taken by a student majoring in that discipline. For designation, it should consist of at least one-third of the major requirement, and should be within, not in addition to, the major requirements. For example, the Biology major may concentrate in botany, the physics major in astronomy, or the Business major in Finance. In some cases, a concentration may be elected by a student with a different, but related major: e.g., a Drama major might elect to complete a concentration in Greek and Roman Tragedy, offered in a literature program, or in dance, offered with Physical Education. Other: Terms such as track, emphasis, specialization, focus, option, and sub-major are variously used in place of concentration.
3. **Academic Year:** The period of time generally extending from August to May usually equated to two semesters and including winter sessions or inter-sessions.
 4. **Accountability:** Ability to explain the worth or importance of an organization and its efforts.
 5. **Accrediting Agencies:** Agencies that establish standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings.
 6. **ACT score:** Previously known as the American College Testing Program, these scores are used for admission purposes. For the State System, the highest score is reported for all first time, full-time, baccalaureate degree-seeking students who take this test. Scores do not need to be reported for students who are out of high school for more than two years, for transfer students, or for international students. Field: ACT
 7. **Address, Local:** A student's local address is the temporary point of contact during an academic term year.
 8. **Address, Military:** A student's non-US address while serving in the military. Typically these are APO and FPO. Notes: For reporting purposes, use AP, AE or AA for the state code. Country code for these should be US. County code should be 01-67 or 98.
 9. **Address, Permanent:** A person's permanent address is determined by evidence such as a driver's license, voter registration, or tax forms. This address may be the legal residence of a parent or guardian. Fields: ADD1, ADD2, CITY, STATE, COUNTY, COUNTRY
 10. **Adjusted Cohort:** An institution's cohort minus any allowable exclusions. Exclusions include students removed from the cohort for reasons of death, military service, permanently disabled, foreign aid service (i.e., Peace Corps), or official church missions.
 11. **Administrative Unit:** The administrative office in any multi-campus environment. This may also apply to the parent or lead campus or office in a system with one or more branch campuses.
 12. **Admission Decision:** Status of an applicant who has completed an application for admission to a State System university.

13. Admission Decision Category: There are seven types of admissions decisions, each of which is described below. Regular admit: applicant admitted without restrictions. Non-degree: a student enrolled in courses for credit who is not seeking a degree or formal award. Admitted with restrictions: special classification for admitted applicants (e.g., June-January, special admit, conditional, provisional, trial, EOP, Act 101, early admit high school). Waiting list admit: applicant admitted contingent on space availability basis. Denied admission: applicant not permitted to enroll. Withdrawn: applicant who has been offered admission to the institution but chooses not to accept it. Cancelled: an applicant who has been offered admission but does not enroll for any reason. Field: ADMITSTAT
14. Admission Inquiry: Any student-initiated action to obtain admissions information about a State System university.
15. Admission Prospect: A potential applicant who has indicated interest in programs and/or activities available at a State System university.
16. Admissions Test Scores: Scores on standardized admissions tests or special admissions tests. Fields: SATM, SATV, SATC, ACT
17. Admitted Student: Applicant who is offered admission to a State System university.
18. Admitted With Restrictions: See admission decision category.
19. Adult Basic Education: According to the federal government, these are courses designed primarily for students 16 years of age and older to improve basic skills in reading, writing, and arithmetic. These courses are not intended to be part of a program leading to a high school degree, nor are they part of any academic, occupational, or vocational program.
20. Advanced Placement: Assigning students newly admitted from secondary schools to advanced courses for which they qualify on the basis of private study or test scores. Advanced placement has two types—with credit, sometimes referred to as Advanced Credit Plan, and without credit.
21. Advanced Standing: Credit hours awarded to first-time freshman at the time of admission.
22. African American: Refers to Black individuals living in the United States with African ancestry. Also refers to individuals of African heritage living in the United States having similar experiences, cultural heritage, and ancestry of former slaves. Linkage: ethnic/racial categories. Note: the federal government uses the term Black instead of African American.
23. Aggregate: Consolidating data detail to a higher level in a database. Linkage: drill down.
24. All-Pennsylvania Academic Team (APAT) The All Pennsylvania Academic Team Awards program was established in 2001 for community college students who are selected by their respective colleges as nominees for the All-Pennsylvania Academic Team. A “Special Academic Passport to a System University” is issued to all team members. It

offers guaranteed admission and a tuition waiver to any of the 14 universities in the System.

25. Allocation Formula: see Funding Formula.
26. Alumni: Former students of a member of the State System of Higher Education who may or may not have graduated from a System university. Linkage: degree alumni.
27. American Indian or Alaska Native: See Native American.
28. Animal Courses – Courses that utilize live animals for instruction or research. For the State System, typically Zoology, Biology, Psychology, and Health Sciences. These are reported as part of the facilities data collection process.
29. Annualized Year: The period of time generally extending from July to June; usually equated to summer session, two semesters and including winter sessions or inter-sessions.
30. Applicant for Admission: An individual who has submitted an application for initial admission to a State System university as a new student at your institution. Linkages: completed application, admission decision, admission inquiry, admission prospect, application fee, enrollment deposit, readmitted student.
31. Application Fee: Required fee paid by the applicant or third party to a State System university to pay for the processing of the application for admission. Linkage: waiver
32. Applied Research: An investigation used to gain knowledge or understanding necessary for determining means by which a recognized and specific need may be met.
33. Appropriations: Moneys received from and made available to the System through acts of a legislative body that have been approved by an executive body. Note: contracts and grants are not appropriations. Unrestricted: Appropriations for the purpose of meeting current operating expenses and generally not for specific projects or programs. Restricted: Moneys which have been appropriated with limitations or stipulations placed on their use for a specific purpose or project. For example, special purpose appropriations. Linkage: capital appropriation.
34. Articulation Agreements: Letters of understanding which facilitate the transfer of students with or without credits.

36. Assets: Probable future economic benefits obtained or controlled by a particular entity as a result of past transactions or events. For example, cash, furniture, equipment, library holdings.
37. Assignable Square Feet: See square feet.
