The Integrated Postsecondary Education Data System (IPEDS), established as the core postsecondary education data collection program for NCES, is a system of surveys designed to collect data from all primary providers of postsecondary education. IPEDS is a single, comprehensive system designed to encompass all institutions and educational organizations whose primary purpose is to provide postsecondary education. The IPEDS system is built around a series of interrelated surveys to collect institution-level data in such areas as enrollments, program completions, faculty, staff, finances, and academic libraries.

University Resources

Technology and Communications Resources – Fall 2012

Mission Statement

The purpose of Technology and Communication is to provide the services and environment which:

- Enable students to use technology to meet their academic needs by providing access to technology;
- Enable the faculty to use technology for the creation of effective learning environments and for incorporation of developments within specific disciplines;
- Enable all members of our community to use technology to conduct the business of the university efficiently and effectively.

To that end, Technology and Communications will achieve its goals in a manner that is responsive to university community and reflective of the institution's resources and priorities by providing technology leadership, empowering users to work productively, maintaining a service orientation and working cooperatively and collaboratively with all departments to fulfill the mission of the university.

Technology and Communications is a University-wide function composed of three main areas:

Enterprise Systems

Enterprise Systems is responsible for providing "mission critical" information services to the University community to meet the instructional, research, and administrative needs of students, faculty, and staff.

This team enables the University to integrate data and synchronize processes. It strives to eliminate information fragmentation and is the point of contact for such widely used systems as:

- Enterprise Mail, Distribution Lists, Personal Calendaring
- University Site Content Management System and Portals, Directory Services
- Enterprise Security, Database Service Continuity and Disaster Recovery, Application User Accounts & Authorizations
- University's Main and Ancillary Administrative Information Systems, Database Backup and Restore Services, SIS Network Printer Configuration and Management
- Custom Services such as Application Development, Data Reporting, 3rd Party Vendor Interfaces, Faculty Evaluations, Test Scoring, User and Technical Documentation, and Technical Alerts

Edinboro has an intricate hardware and software schema which includes numerous servers in a clustered environment that utilize not only Microsoft products but a variety of databases to ensure that systems and data that are shared by many users throughout the organization have high levels of availability and functionality.

Networks and Telecommunications

The primary purpose of Networks and Telecommunications is to provide the resilient information networks and to promote and integrate advance telecommunications techniques throughout the Edinboro community.

Networks & Telecommunications is responsible for voice, video and data network connectivity as well as the infrastructure over which the transport of these services take place. Networks and Telecommunications is also responsible for the student technology in the residence halls as well as computer support services offered through our Student Technology Help Desk. StudentNet is the term we use for technology services provided for students living in the residence halls. We provide internet connections, cable TV service, telephone service and technicians who are available to assist students with their technology needs. Our mission includes support and education of students on University technology so they may effectively use this technology to enhance their academic experience.

This team has responsibility for the following:

Data Network Connectivity

- Internet
- Intranet
- Video connectivity
- Wireless technology
- PASSHEnet wide area network
- PASSHe Western Internet gateway

Campus Voice Systems & Infrastructure

- Outside plant wiring infrastructure between all buildings
- Inside building wiring infrastructure
- Management of all University voice communications

Student Technology

- Student Technology Help Center
- Student Internet Connectivity
- Student Cable TV System

The State System is currently served by a wide-area network called the PASSHEnet. The PASSHEnet is a private wide-area network serving Pennsylvania's state-owned universities, including over 100,000 students, faculty, staff, and selected community networks. All PASSHE schools have installed fiber to their campus that links them to the PASSHEnet. At EUP, primary and secondary fiber links have been extended to Ross Hall and converted to an OC-3 network link. An OC-3 SONET ring from Erie provides the University with a fully redundant SSHEnet link to the Internet.

In August 2007, Edinboro University became host to a second, fully operational Internet gateway and Network Operations Center (NOC) supporting all Internet connectivity to State System Universities in the western part of Pennsylvania. The new gateway also has the capability of supporting the entire PASSHEnet system in case of a major failure of the existing Eastern Internet Gateway and NOC in West

Chester. This was put into place as part of a business continuity plan put forward by PASSHE allowing full redundancy for Internet connections for the entire PASSHEnet system in case of failure of either gateway.

Desktop Systems & Learning Technology

Desktop Systems & Learning Technology supports and manages microcomputer facilities for teaching and learning, distance education services, a media services function, and the Technology Help Center. The Technology Help Center provides a single point of contact for the campus community to receive assistance with software, hardware and peripheral related problems or questions.

The computer lab environment consists of 59 different computer labs and a plethora of Ethernet-based local area networks running the Windows network operating system using the TCP-IP protocol. These LANs are a component of the campus network (EUPnet) and all the computers within EUPnet require login access via a Windows authentication server known as an Active Directory server.

The purpose of the laboratories is to gain practical experience in microcomputer applications and to learn how technology is utilized within particular disciplines. Available programs include: spreadsheets, database management, graphics, various programming languages and word processing. E-mail and Internet access are also available in the majority of labs. Special technical arrangements are made for students with disabilities. All students automatically receive a network account when they register, which grants access to these facilities and services. Facilities as of 10/2012 include:

Computer Labs:

- 14 General access
- 10 Instructional
- 33 Computer classrooms
- 1 Instructional at Edinboro University in Erie-The Porreco Center
- 1 Instructional Design (Learning Technology Center) for faculty only in Reeder Hall

Number of University Computers (including labs) Based on Type:

- 2626 Total Systems in Operation
- 2282 are running the Windows Operating System
- 325 are running the Apple Macintosh Operating System
- 19 are running some other type of Operating System

Breakdown of the 2586 Types

- 2246 Desktops (82 are servers)

Desktop Systems and Learning Technology is a comprehensive support unit that provides distance education, media resources, and services to students, faculty, staff, and management in support of their respective needs and missions. It provides equipment distribution and repair services campus wide. Interactive video conferencing facilities are available for classes and conferences. Courses provided in this mode are connected to students in remote locations within the region and beyond.

Over 150 classrooms have been enhanced with technology consisting of various equipment such as DVDs, Special AV equipment, digital projectors, symposiums, and Windows and Mac workstations. Ross Hall, Porreco, Butterfield, Hendricks Hall, and the R. Benjamin Wiley Arts and Sciences Center are also equipped with state-of-the-art video conferencing rooms.

In addition to the services listed above, Technology and Communications also has an equipment loaning service through the Media Services Center facility in the lower level of Reeder Hall. Various types of equipment are available for employees and students to sign out on an available basis. Some examples of equipment include:

Glossary of PASSHE
Data Terms

Source: PASSHE – Annual Data Collection Plan
Appendix C: Glossary of Data Terms 9/2/2010

Introduction

The Glossary of Data Terms represents uniform definitions for the State System of Higher Education. The long-term goal of this project, supported by the Chancellor and University presidents, is to publish a comprehensive publication containing standard data definitions for all terms used in data collection and reporting throughout the System. This glossary is widely distributed, both electronically and in hard-copy form.

The definitions are listed alphabetically, and have been adapted from these sources: Board of Governors Policies; Annual Data Collection Plan; National Center for Education Statistics; Joint Commission on Accountability Report; Collective Bargaining Agreement; National Association of College and University Business Officers; Facilities Manual; Data Warehouse Institute; Diversity Database, University of Maryland; and the Internal Revenue Service.

While many of the definitions that follow are consistent with existing data processes, others will require changes in how data are collected and reported. Because of this, it is expected that some definitions will not be implemented until System universities have sufficient time to review them and make appropriate changes.

Review, Approval, and Audit process

This document represents an important step in establishing a comprehensive dictionary of uniform terms. Once definitions are accepted, data audits will be conducted periodically to ensure compliance with them.

Every attempt has been made to completely and correctly define the terms contained herein. In order to continuously improve this process, please pass along information about discrepancies to your Director of Institutional Research.

1. Abroad: Any geographic location not in the aggregate United States, which includes the 50 States, the District of Columbia, and U.S. territories. Linkage: international student exchange.
2. Academic Program/Major: Instructional program leading toward an associate's, bachelor's, master's, doctor's, first-professional degree or certificate or resulting in credits that can be applied to one of these degrees or certificates. Linkages: associate's degree, bachelor's degree, master's degree, doctor's degree, first-professional degree, certification student. The following categories define the various components of these terms. **Major**: A major is a program of study taken by students, usually within a discipline or group of related disciplines, consisting of a specified number of courses, credits, or achievements of increasing sophistication, subject to requirements of the degree under which it is authorized. The undergraduate major typically consists of one-third to one-half of the baccalaureate degree requirement. **Minor**: A minor shares the primary definition with the major; it may or may not complement the student's major field; its requirements typically include most of the required core of courses of a major, but fewer electives, and include at least 18 and up to 30 credits. Like the major, it is expected to have

coherence, and increasing sophistication, and not be just a collection of courses with a common theme. **Concentration:** A concentration is a sub-specialization or emphasis within a major field, usually taken by a student majoring in that discipline. For designation, it should consist of at least one-third of the major requirement, and should be within, not in addition to, the major requirements. For example, the Biology major may concentrate in botany, the physics major in astronomy, or the Business major in Finance. In some cases, a concentration may be elected by a student with a different, but related major: e.g., a Drama major might elect to complete a concentration in Greek and Roman Tragedy, offered in a literature program, or in dance, offered with Physical Education. Other: Terms such as track, emphasis, specialization, focus, option, and sub-major are variously used in place of concentration.

3. **Academic Year:** The period of time generally extending from August to May usually equated to two semesters and including winter sessions or inter-sessions.
4. **Accountability:** Ability to explain the worth or importance of an organization and its efforts.
5. **Accrediting Agencies:** Agencies that establish standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings.
6. **ACT score:** Previously known as the American College Testing Program, these scores are used for admission purposes. For the State System, the highest score is reported for all first time, full-time, baccalaureate degree-seeking students who take this test. Scores do not need to be reported for students who are out of high school for more than two years, for transfer students, or for international students. Field: ACT
7. **Address, Local:** A student's local address is the temporary point of contact during an academic term year.
8. **Address, Military:** A student's non-US address while serving in the military. Typically these are APO and FPO. Notes: For reporting purposes, use AP, AE or AA for the state code. Country code for these should be US. County code should be 01-67 or 98.
9. **Address, Permanent:** A person's permanent address is determined by evidence such as a driver's license, voter registration, or tax forms. This address may be the legal residence of a parent or guardian. Fields: ADD1, ADD2, CITY, STATE, COUNTY, COUNTRY
10. **Adjusted Cohort:** An institution's cohort minus any allowable exclusions. Exclusions include students removed from the cohort for reasons of death, military service, permanently disabled, foreign aid service (i.e., Peace Corps), or official church missions.
11. **Administrative Unit:** The administrative office in any multi-campus environment. This may also apply to the parent or lead campus or office in a system with one or more branch campuses.
12. **Admission Decision:** Status of an applicant who has completed an application for admission to a State System university.

13. Admission Decision Category: There are seven types of admissions decisions, each of which is described below. Regular admit: applicant admitted without restrictions. Non-degree: a student enrolled in courses for credit who is not seeking a degree or formal award. Waiting list admit: applicant admitted contingent on space availability basis. Denied admission: applicant not permitted to enroll. Withdrawn: applicant who has been offered admission to the institution but chooses not to accept it. Cancelled: an applicant who has been offered admission but does not enroll for any reason. Note: the federal government uses the term Black instead of African American.
23. Aggregate: Consolidating data detail to a higher level in a database. Linkage: drill down.
24. All-Pennsylvania Academic Team (APAT) The All Pennsylvania Academic Team Awards program was established in 2001 for community college students who are selected by their respective colleges as nominees for the All-Pennsylvania Academic Team. Restricted: Moneys which have been appropriated with limitations or stipulations placed on their use for a specific purpose or project. For example, special purpose appropriations. Linkage: capital appropriation.
 34. Articulation Agreements: Letters of understanding which facilitate the transfer of students with or without credits.
 35. Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian sub-continent. Linkage: ethnic/racial categories.
 36. Assets: Probable future economic benefits obtained or controlled by a particular entity as a result of past transactions or events. For example, cash, furniture, equipment, library holdings.
 37. Assignable Square Feet: See square feet.
 38. Assistantship: A paid appointment awarded on a semester/annual basis to a qualified graduate student that requires the performance of certain services defined

- by a college of university. This may include teaching, research, or other instructional support. Linkage: graduate assistant. Field: FAASSIST
39. Associate's Degree: An award that normally requires at least two but less than four years of full-time equivalent college work.
 40. Athletically-related Student Aid: Any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution. This definition supersedes the NCAA definition for Athletic Grant-in-Aid.
 41. Augmentation: Revenues in addition to State appropriations that are necessary to meet the Educational and General Expenditure requirements of the System or institution. For example, tuition, fees, gifts and contracts.
 42. Auxiliary Enterprises: An operation that exists to furnish goods or services to students, faculty, or staff, and charges a fee directly to the users that is intended to cover the costs of providing the goods or services. The operation must be designed to be self-supporting. Once an operation is deemed auxiliary in nature, the annual profitability must not be a factor for inclusion or exclusion on the university's audited financial statements. Activity related to residence halls, food service, student centers, and student recreational centers (as it relates to the building and its operating expenses) must be considered auxiliary enterprises. Linkage: auxiliary facility.
 43. Auxiliary Facility: A facility that is financially supported by an auxiliary enterprise operation. Residence halls, dining halls and snack bars, student centers, and student recreational centers are examples of auxiliary facilities. Linkages: facility, auxiliary enterprises.

This includes all bachelor's degrees conferred in a five-year Cooperative (work study plan) program. Also includes bachelor's degrees in which the normal four years of work are completed in three years. Linkage: academic program.

Each university

- develops criteria for awarding waivers. All Pell, PHEAA, and other aid should be exhausted and the difference then waived. Institutions must pay for all amounts waived. Linkages: full-time equivalence, PHEAA, federal Pell grant program. Fields: BDGOV, FABOG
48. Board of Governors: The governing board of the State System of Higher Education, as established in Act 188.
 49. BOG Waiver: The amount a student receives for a full or partial BOG scholar award in accordance with Policy 1984-08-a: Board of Governors' Scholars Program.
 50. Branch Institution (campus): A campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study including degrees, not just courses.
