EDINBORO UNIVERSITY

EDINBORO UNIVERSITY

After 125 years of service to the tri-state area, Edinboro experienced its most significant change in history on July 1, 1983, when the College became Edinboro University of Pennsylvania. Founded as a private academy in 1857, Edinboro University has continued its surge to the forefront as one of the leading educational institutions in western Pennsylvania. Situated on a sprawling 585-acre campus in the scenic resort community of Edinboro, the University is within 100 miles of the educational and cultural centers of Buffalo, Cleveland, and Pittsburgh. It is just 15 miles south of Erie, the third largest city in Pennsylvania, and easily accessible from all directions by interstates 79, 80 and 90.

Edinboro has the distinction of being the second normal school established in Pennsylvania and the 12th in the United States. It has grown to more than forty buildings including the 350,000-volume Baron-Forness Library, a modern seven-story structure which serves as a focal point for the spacious campus. Nearly 6,000 students representing almost every county in the Commonwealth, as well as numerous states and foreign countries attend Edinboro. Its tradition of educational service and research is matched by a distinguished faculty, more than two-thirds of whom have earned doctoral degrees.

The University now offers more than 100 undergraduate, graduate, and associate degree programs, a diversity unmatched by any other college or university in northwestern Pennsylvania. While seeking to meet the

educational needs of its region from both a professional and cultural standpoint, Edinboro now makes contributions in the fields of education, government, environmental improvement, urban and rural problems, crime prevention, and service to business and industry. Recent program developments include those in the high-demand areas of allied health, business administration, communication, computer technology, nursing, and various pre-professional offerings such as law, dentistry, medicine, pharmacy and veterinary science. Numerous student internships provide additional examples of the University's efforts to create a close working relationship with the people it serves while, at the same time, offering students intellectual and career opportunities.

Edinboro has initiated the University Honors Program to provide challenging and enriched learning experiences for academically gifted students. Undergraduate students are encouraged to strive for academic excellence both in their major fields and in other disciplines. Honors students pursue studies that are greater in depth and scope than those required of other undergraduates.

GOLDEN EAGLE OUTLOOK

The defending Pennsylvania Conference champions feature four returning All-Americans in tailback Elton Brown, wide receiver Terry McFetridge, middle guard Kevin Ewing, and defensive end Jon Haslett to lead the way for second-year coach Gene Sobolewski. The Eagles can strike through the air with junior quarterback Pat Carbol who totaled 1,688 yards in the passing lanes with 14 TD strikes to his credit. On the receiving end of most Carbol pitches was Terry McFetridge, the recipient of 50 aeriels for 945 yards and 11 tallies. Brown, an AP First Team pick, should give the Golden Ones all the firepower they need on the ground after churning out 1,214 yards and 11 TD's as the conference's leading rusher a year ago. Complementing him in the potent Clarion offense is All-PC West tailback Geoff Alexander. Ewing, with his team leading 139 tackles and Haslett, who contributed 99 hits and 17 sacks, form the nucleus of another stubborn Eagle defense.

SCOTS HOST CONFERENCE CHAMPS

Edinboro University will strive to maintain runner-up honors in the PC's Western Division race today when the 5-1 Scots host Clarion, last year's Pennsylvania Conference champions. The Scots rebounded for their first ever win over East Stroudsburg with a 40-20 scalping of the Warriors after being ambushed at Indiana the previous Saturday.

Clarion, ranked sixth in the nation two weeks ago, is striving to regroup following back-to-back league losses at the hands of Slippery Rock and Indiana, now the division leader with a perfect 3-0 mark. Coach Gene Sobolewski's Golden Eagles are 4-2 overall and carry a 2-2 slate in divisional play.

"Clarion is one of those conference schools located very close to us which just makes for a natural rivalry," explained 'Boro boss Denny Creehan. "Last year we upset them when they were undefeated and ranked third nationally. They'll remember that and would like to return the favor by spoiling our homecoming," added Creehan.

The Golden Eagles balanced offensive attack is spearheaded on the ground by All-American tailback Elton Brown, who is averaging almost 90 yards per game, and in the air by quarterback Pat Carbol, who has tossed for 936 yards and eight TD's. Brown was the conference's leading rusher a year ago and teams with Geoff Alexander, the Golden Ones' second best runner with a 50 yards per game output.

Carbol's favorite target, Terry McFetridge, has been sidelined by nagging injuries and will most likely remain out of action against the Scots. He caught 50 passes for 945 yards last fall and has been replaced by Bob Green, the current owner of 27 receptions to total an impressive 588 yards and three scores.

The Golden Eagle defense looks to All-American mention winner Kevin Ewing at middle guard who heads the tackle charts via 79 hits with his next stop notching the 400th of his career.

Edinboro got its offense back in high gear with the win over East Stroudsburg and the Scots now score at a 31.7 rate behind their 421 yards per game output.

Senior quarterback Blair Hrovat, who has passed for 4,520 career yards, has hooked up on 62 of 124 tosses for 934 yards and 15 touchdowns in six games. His present total includes 43 scoring tosses during his stint with the Scots, just two shy of the conference record.

Hrovat usually looks for the threesome of halfbacks Bob Klenk (18 receptions, 168 yards), split end Erie Bosley (16 receptions, 372 yards) and halfback Damon Chambers (13 receptions, 189 yards). On the ground where the Scots have chewed up real estate at a 260-yard pace per outing, Edinboro's top turf tearers out of the Wing-T attack are fullback Ray Rhodes (414 yards), Chambers (400 yards), and

Ray Rhodes

Ray Bracy

Sean Henderson

Hrovat (213 yards) who rely on blocking halfback Mitchell Kelly to pave the way.

Sophomore placekicker Jim Trueman continues to topple EUP records and leads the team in scoring with 40 points. His 61 PAT points surpassed the mark of 57 while his string of 27 straight challenge the existing standard of 29 consecutive PAT boots.

Edinboro's top two hopefuls for conference honors as defensive standouts, linebacker Willie Chealey and tackle Rick Jordan, were sidelined last week. Both are expected to be ready for the Clarion fray. End John Brenneman is the Scots top tackler with 38 stops followed by Chealey (36), strong safety Matt Robinson (34), linebacker Stan Tomajko (31), and middle guard Sean Henderson (26). Ray Bracy's five interceptions and Martelle Betters' four aerial thefts headline a secondary that has picked off 15 passes.

PLANNING TOGETHER FOR A BETTER FUTURE

PRESIDENT — FOSTER F. DIEBOLD

President Foster F. Diebold

Serving as the current chief executive officer of Edinboro University of Pennsylvania is Foster F. Diebold, the University's sixth president.

Since his appointment in August of 1979, President Diebold has initiated a wide variety of policies and programs which have enhanced Edinboro's level of excellence and quality. He continually strives for perfection and innovation in higher education, and the University prides itself on its reputation for distinguished faculty, modern and extensive facilities, superior academic programming and a variety of unique programs.

Under the administration of President Diebold, Edinboro University has become one of the major influences in the northwestern Pennsylvania region and, in fact, the seventh largest employer in Erie County. Efforts have been made by the University to expand and improve relationships and linkages with surrounding communities in an effort to learn of specific needs and desires and to better serve its constituencies. An improved internship program with businesses, industries, and offices in the tri-state area has provided hands-on experience for Edinboro students, as well as valuable assistance to public and private organizations.

Two of a variety of new programs put into place recently at Edinboro, or significantly enhanced, are the Disabled Students Program, one of the most extensive in the eastern United States, and the Honors Program. The Honors Program draws upon the contributions of University staff for a major part of its scholarship funds and recognizes the academic distinction of excellent students.

Recognized for his extensive background in the field of higher administration and management, President Diebold served as President of the University of Alaska Statewide System from 1977-1979. Prior to that, the Orange, New Jersey, native was Executive Secretary to the Board of Regents and special Assistant to the President of the University of Alaska Statewide System.

President Diebold is an active member of the Board of Governors Long-Range Planning Committee of the Pennsylvania State System of Higher Education. He currently serves as Chairman of the Board of Directors of the Pennsylvania State Athletic Conference and is also a member of the Educational Policy Committee of the Commission of University Presidents.

President Diebold is a member of the Senior Colleague Advisory Network (SCAN) which is an American Association of State Colleges and Universities activity designed to provide volunteer consultant services that are needed at colleges and universities across the nation. President Diebold is also a very active member of the American Association of State Colleges and Universities. Since 1980 he has served on the Government Relations Committee of this organization and just recently served as a delegate on an AASCU Mission to the Peoples Republic of China. In addition, he recently attended the annual meeting of the International Association of University Presidents held in Thailand, where he and Mrs. Diebold were honored guests of their majesties, King Bhumihol Adulyadej and Queen nee Nam Rajawangse Sirikit Kiliyakara.

A member of the Edinboro community, President Diebold is an active member of the Pittsburgh Plate Glass Corporation Scholarship Review Committee, the William G. McMannis and A. Haskell McMannis Educational Trust Fund Advisory Board, the Marine Bank Advisory Board of Erie, the Hamot Medical Center Board of Corporators and the 1984 Chairman of Government, Education, and Social Agencies Division of the Erie County United Way Campaign.

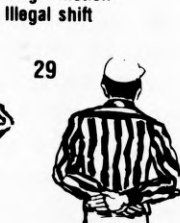

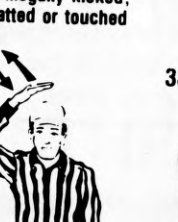

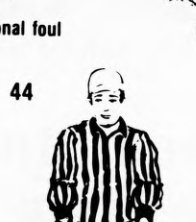

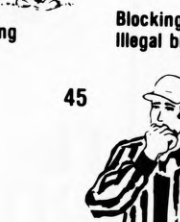

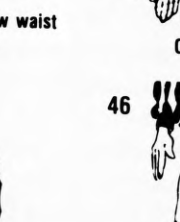

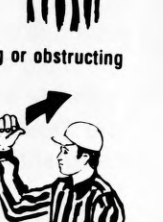

The President and his wife, Patricia, have two daughters—Jessica, nine, and Stacey, three.

ATHLETIC DIRECTOR — JIM McDONALD

Athletic Director - Jim McDonald

Edinboro University's athletic program was placed under the talented and aggressive leadership of Jim McDonald in July of 1981. Increased emphasis on fund raising to provide a sound scholarship foundation has become his top priority while numerous changes and innovations have also keyed the Scots' athletic program under his direction.

Through his efforts more than 1.3 million dollars has been raised during the past three years with an additional \$511,000 anticipated during the 1984-85 sports campaign.

The funds generated by the energetic athletic director's efforts will be used to assist Edinboro's men and women athletes who compete in the Scots seventeen intercollegiate sports.

In addition to maintaining Edinboro's respected winning tradition in intercollegiate athletics, the former health and physical education professor has vastly expanded the University's summer activities.

Fifteen summer sports camps are conducted on the University's campus along with fifteen band camps on twelve recently constructed football fields which also accommodate pre-season drills for the University of Pittsburgh Panthers and Duquesne University. Sox Harrison Stadium is the site of the Cleveland Browns vs. the Buffalo Bills annual rookie scrimmage, which has been a yearly mid-summer highlight.

The personable athletic director also introduced Edinboro's Hall of Fame program which has evolved into an annual year-ending event to honor present and past athletes. His most recent project was the completion of a \$90,000 showcase weight room which will service the entire campus community and also be a prime aid for Division I aspirations in the Scots wrestling program.

McDonald has been at Edinboro since 1962 and for 12 years served as the Fighting Scot basketball coach (1962-1975) and never experienced a losing season while his teams compiled an impressive 181 wins against only 89 losses. During that span, his cagers won four Western Division Pennsylvania Conference crowns, the PC state championship and two District 18 titles that netted trips to the NAIA National Tournament. His teams set 27 University records and made 19 post-season appearances while four of his players were named All-Americans.

Prior to accepting his position at Edinboro, McDonald served as assistant basketball coach in Erie, Pa. He is a 1956 graduate of Bridgeport High School in his home town of Bridgeport, West Virginia.

In 1960 he received a degree in chemistry and physical education from West Virginia Wesleyan College and he also holds a master's degree in health from the University of Buffalo.

OFFENSE POINT POTENT AGAIN

Edinboro University hopes to maintain its "offensive" reputation on the football field in 1984 as Coach Denny Creehan's Fighting Scots strive to continue the pace which made them one of the most explosive grid squads in the nation. The Scots, who return 13 starters and 30 lettermen, finished second nationally in offense among the NCAA's Division II competitors last year after averaging a record shattering 41.2 points and 461 yards per game. Enroute to an 8-2 season, Edinboro climbed to eighth in the polls at one point and registered 21 new school marks while tying 3 others.

"If it's the skill people who make the offense go, then we should have productive results," predicted Creehan whose clubs have been winners in 20 of their last 24 outings. "But if it's the interior line that makes it go, then we might have some question marks," cautioned the sixth-year Boro mentor.

"As far as the defense is concerned, we'll be solid at all 11 positions if we get the same kind of play out of our ends that we did last year," Creehan continued. "Tom Herman (defensive coordinator) has always managed to develop a defensive unit that's traditionally very tough and we're counting on him to give us another aggressive, but disciplined bunch of players," he added.

"You have to have a lot of talent and some luck to win in our conference anymore," Creehan offered. "It has become a real meat grinder. Giving anyone a decided edge is difficult but Clarion has 17 starters back and, on paper, Indiana has had the best two recruiting years in a row," the Scot coach indicated.

Giving Edinboro the inside track to be point potent again is one of the country's most accurate passers in senior quarterback Blair Hrovat (Northfield, OH). The talented field general directed a high-powered wing-T offense that netted 4,611 yards while accounting for 10 new records that included career plays (686), season passing attempts (181), season total offense (1,938), career total offense (4,244), season completions (99), game completions (18), career touchdown passes (35), season touchdown passes (19), career passing (3,586), and game touchdown passes (4). Hrovat, who now owns 14 Edinboro grid records, finished second nationally (NCAA II) in passing efficiency last year by connecting on 99 of 181 attempts for a sparkling 54.7 percentage.

"Blair deserves All-America recognition if he continues his pace," stated Creehan. "He's already the top passer in our school's history and this year he should finish among the all-time Conference leaders," the Scot coach projected.

Waiting to make his mark at the quarterback slot is talented sophomore Scott Dodds (Beaver, PA) who, Creehan concedes, would probably be a starter playing for anyone else. "We will definitely play Scott because he's that good and deserving of the chance," revealed Creehan after electing to redshirt the promising signal caller last fall.

Augmenting Hrovat's aerial attack is a relentless ground game spearheaded by halfbacks Bob Klenk (Pittsburgh, PA) and Damon Chambers (Willingboro, NJ), who churned out more than 500 yards each last year. Klenk threaded his way for 517 yards, led the Pennsylvania Conference in scoring with 76 points and was the sixth top scorer in the nation while Chambers sped for 507 yards and ranked third in the team's scoring parade with 8 touchdowns.

Center Buddy Carroll and tackle Rick Rosenberg, a Steeler signee, have graduated leaving Dom Grande (Pittsburgh, PA), a 6-0, 250-pound left guard, the heir apparent to their leadership roles. Joining him are tackles Mark Wallace (6-3, 225, Uniontown, PA) and Jim Ritt (6-4, 255, Chesterland, OH) who bring game experience up front with right guard Scott Weinhold (6-4, 240, Pittsburgh, PA). The early nod at center goes to Mark Merritt (5-11, 245, Industry, PA), but Dave Higham (6-2, 240, Hubbard, OH) is pushing for a full-time job. Tackle Jim Britt (6-4, 260, Girard, OH) in addition to guards Frank Lucca (6-3, 240, Mentor, OH), and Dave Nye (6-0, 225, Windsor, OH) are all challenging for regular duty.

"The only other variable we have to figure on offensively is the period of adjustment which is inevitable in a coaching change," said Creehan. The Scot mentor was referring to the recent addition of Jerry Gallagher as the team's offensive coordinator after John D'Ottavio accepted a post with the USFL's New Jersey Generals. Gallagher, however, is a D'Ottavio disciple and also a well-schooled enthusiast of the wing-T philosophy.

Not to be denied their share of the limelight is a defensive unit that ranked eighth among the nation's leaders in rushing defense with a mere 65.6 yards per game allowance. The figure ranked as the second best mark in Edinboro's history and helped limit the Scots' opposition to only 14.4 points per contest. The Boro's defensive units, under the tutelage of coordinator Tom Herman for the last five years, have been traditionally stingy in the Pennsylvania Conference where Edinboro has been the leader in rushing defense four out of the past five seasons.

DEFENSE TRADITIONALLY STUBBORN

Chealey adds to his tackling total.

Headlining the cast here are a pair of senior All-American candidates in 6-3, 230-pound tackle Rick Jordan (Jamestown, NY) and 6-0, 192-pound linebacker Willie Chealey (Orlando, FL) who combined for 186 stops last fall. Chealey, a Conference first team pick, was the team's leading tackler with 122 hits while Jordan, another first team selection, contributed 64 jolts and led the list in sacks with 12 to put his career total of 22 just 5 shy of the school record.

"Willie is one of the few linebackers around who has the speed to cover receivers coming out of the backfield," beamed Creehan, "while Rick has exceptional quickness that makes the pass rush and pursuit his forte."

Teaming with Chealey at the other backer spot in the 5-2 alignment is 6-2, 220-pound senior Bob O'Rorke (Pittsburgh, PA) tabbed by Creehan as "a fiery athlete who gets the rest of the defense 'up' and makes the big play." Sophomore Allen Ellis (5-11, 205, Albion, NY) emerged as the number one backup to O'Rorke and Chealey after spring ball.

Tackle Don Espy (6-3, 245, Brookville, PA) a three-year monogram winner, and junior middle guard Sean Henderson (6-0, 230, West Mifflin, PA) another pass rush stand-out, team up with Jordan to form the heart of the Scots' forward wall. The coaching staff is also high on sophomore tackle Chuck Murray (6-4, 240, Tyrone, PA) who made noted progress in spring camp. Adding help in pass rush situations is Matt Grebenc (Wickliffe, OH) another quick middle guard operative like Henderson.

Primary attention will be focused on the defensive end slots manned by juniors Dave Emmert (6-3, 210, Lower Burrell, PA) and John Brenneman (5-10, 225, Warren, OH). "Just as the offensive line is the unproven portion of our offense, so are the ends to our defense," theorized

Creehan. "The manpower is there, the drawback is the experience factor," he concluded. Sophomore John Cardone (Pittsburgh, PA) should also get a chance to prove he can protect the flank.

Senior strong safety Keith Rose (Coraopolis, PA) regarded as "the coach on the field," keys a solid Scot secondary where the Scots show the most depth. Free safety Ray Bracy (Youngstown, OH) the team's leader in interceptions and fumble recoveries, anchors the unit with Rose. Sophomores Terrell Clifford (Canton, OH) and Martelle Betters (Connellsville, PA) are projected as the starting corners, but redshirts Matt Robinson (Orlando, FL) and Mark Perkins (Harve de Grace, MD) are talented enough to step in at anytime.

Edinboro's kicking game appears to possess one of its strongest kicking combinations in years with placement booter Jim Trueman (Bellevue, PA) and punter Kevin Conlan (Frewsburg, NY). Trueman, in his freshman debut, was listed among the nation's scoring leaders with 69 points via 39 PAT's and 10 field goals. The PC First Team pick set Edinboro records for the most extra point boots in a season (39) and the single game PAT standard (7). Conlan, who has proved his ability to get distance and height on his punts, displayed the consistency in the spring needed to make him a valuable asset should the offense get slowed down.

KICKING GAME GETS RESPECT

"Overall our backfield will have a lot more speed as a group," forecasted Creehan. "Damon is ready to blossom into the great player we expect him to be and Bob is one of the most reliable halfbacks we have," the Edinboro University coach added.

Giving the Scots a running back bonus this year is the return of Mitchell Kelly (Canton, OH), a PC First Team selection in 1982, who is once again in the lineup. Sophomore Carmen Cicero (Niles, OH) emerged as a top young prospect after spring ball with newcomer Tony Allen (E. Carnegie, PA) ready to show his wares out of a halfback slot.

Senior fullback Ray Rhodes (5-10, 190, White Plains, NY) gives the Scots' running game an added dimension with his speed. "If he improves his blocking, he could become one of the best fullbacks we've ever had," offered Creehan.

Rounding out the arsenal of offensive weapons are wide receivers Gary McKnight (Orlando, FL) and Eric Bosley (Willingboro, NJ) who could become the top two pass catchers in the Conference if they avoid injury problems. McKnight snagged 16 tosses for 428 yards last year while Bosley, after a late start, tied an Edinboro record with 3 TD grabs in a single game. Letter winner Dave Gierlak (Buffalo, NY), the third in a trio of brothers to play for the Scots, complements the duo with sophomore Bob Suren (Parma, OH) earning the early nod at tight end.

The biggest question mark hovering over the Plaid's offensive forces concerns the offensive line. "It's not that we don't have good people on our line," indicated Creehan, "it's just that they're untested. As a matter of fact, they have the potential to become one of the best offensive lines in our conference," he summed.

Trueman kicks his way into the record book.

Why are a lot of college men and women becoming buddies in Army ROTC?

Probably because Army ROTC is full of the kind of people other people go out of their way to meet.

ROTC students tend to be high achievers who are interested in more than their studies. They're popular students with a serious side, but who like to have a good time, too.

In other words, when people join Army ROTC they often meet people a lot like themselves.

MATCH-UPS ON THE LINE

by Don Doxie, Quad-City Times

Once upon a time the line of scrimmage in a college football game resembled the Battle of the Titans.

Gigantic linemen of equal size, equal strength and equal quickness stood facemask to facemask and slugged it out in ferocious fashion. The clash between offensive and defensive lines was

a test of brute strength. Whoever could outmuscle the other guy usually won the game.

It's still pretty ferocious in there. And physical, too. But a lot more finesse goes into line play these days.

Oh, the offensive linemen are still huge. The bigger the better, most

continued

MATCH-UPS ON THE LINE

continued

recruiters will tell you. Tackles who are 6-7 and weigh 280 pounds are commonplace. But, they are almost always offensive tackles, not defensive tackles.

On defense, speed and quickness have become priorities.

"Now defenses are being geared completely to quickness," said one West Coast defensive coach. "The pass rush

that position in recent years who weighed less than 200 pounds. Ends who weigh 220 are more the norm.

It wasn't always that way. A little more than a decade ago, the biggest, most powerful players could be found as often on defense as on offense. Men like Michigan State's 6-7, 295-pound Bubba Smith and Grambling's 6-7, 287-

who can run the 40-yard dash in 4.6 or 4.7. For any other team he'd probably play middle linebacker or fullback. But the coaches put him on a structured weightlifting program for a year or two and come up with a good, quick defensive tackle.

Movement just before the snap of the ball and the use of "slants" are primary

A lot more finesse goes into line play these days, and while offensive linemen are still huge, defensive linemen are becoming faster.

is the reason. Finding guys who can put on a pass rush is the No. 1 priority when we're looking for defensive linemen. We're always looking for guys who can get to the quarterback."

"That's the whole philosophy of most coaches now," agreed another coach. "If you've got 50 linemen to work with, some are going to be fast and some aren't. That doesn't mean the slow ones aren't good players. But the great people who can really run usually end up on defense."

The trend now is toward smaller, quicker defensive linemen. A 6-2, 240-pound defensive tackle or noseguard is more than acceptable these days in major college football. A 6-2, 240-pound offensive tackle is rare.

Defensive ends are usually even lighter. A few teams have had men at

pound Buck Buchanan roamed the defensive side.

"When the other team was running the football all the time, you wanted to have those big guys who could stand up to the offensive linemen and be physical," noted one defensive line coach.

But then the option style of the running attack became popular and teams suddenly needed quicker defensive players to cope with the outside thrusts of the Wishbone and the Veer. The advent of the wide open passing attack has accelerated the trend.

One Big Ten school has been among the leaders in the defensive quickness movement. It has been doing for years what others have only started doing in recent seasons.

The formula is simple. Find a kid who's 6-2 or 6-3 with a solid build and

weapons of a quick defensive line. A defensive tackle slants by lining up directly across from an opposing offensive linemen but facing at an angle. When the ball is snapped he charges into a gap in the line.

"You try to run around the guy instead of standing there and waiting for him to come and block you," explained one line coach. "You try to get into the gaps in the line. Miami did a great job of doing that last year."

The Hurricanes also used a great deal of movement in an effort to disrupt the concentration of the offensive line. Nothing disturbs an offensive guard or tackle more than having the man across from him shift just before the snap.

While quickness has joined (and virtually replaced) size and strength as a

Now, Quaker State comes in clean, easy to pour plastic bottles. Exclusively.

That Quaker State quality America has trusted for over 70 years now comes in the most convenient containers you can buy. They're a cinch to open, pour and reseal. That means if your oil is less than a quart low you can top it off and save the rest for later.

Quaker State's leading motor oils are refined from 100% Pennsylvania Grade Crude. So now you get 100% Penn-Grade protection. And 0% mess.

Best of all, it's made to cost you nothing extra.

And if the new bottle isn't in your store now, it'll be there soon.

Today you need an oil this good in a package this good.

MATCH-UPS ON THE LINE

continued

gauge of defensive line prowess, those two old staples are still in vogue on the other side of the ball. Offensive linemen in the college ranks are bigger than ever with several teams averaging more than 260 pounds across their front five. Colorado State, not exactly a gridiron powerhouse, claimed to have the biggest line in the country last season with an average of 269 pounds per man.

"With the new rules you're able to use your hands more on pass blocking and teams are throwing the ball more anyway," said one midwestern line coach. "With those factors in mind, it's definitely to your advantage to have big offensive linemen."

"A lot of teams are trying to counter that with quickness. They're sacrificing some size to get people who can out-quick the big offensive linemen."

As a result, offensive linemen are being asked to block men 10, 20, sometimes 40 pounds lighter than themselves. So what does a 270-pound offensive tackle do when the 230-pound defensive end lines up far outside and prepares to make a beeline for the quarterback? Or what does the 260-pound guard do when the 240-pound defensive tackle lines up at a slant and looks

longingly at the gap between guard and center?

He compensates for his lack of foot speed with intelligence and good technique. In other words, he has to anticipate the actions of the defender, get the proper angle on the man he is blocking, and then utilize the blocking tactics that have been drilled into him.

Technique. That word pops up over and over again in conversations among offensive linemen and their coaches. Technique, according to one major independent school line coach, is "every physical movement that is involved in the execution of a block." That includes the use of hands, legs and shoulders, knowing proper flexion of the hips and knees, developing the correct blocking angles, learning every basic tenet of the drive block (for running plays) and the set block (for pass protection). Everything.

"The key to the whole thing is repetition," said one coach. "Offensive linemen have to be willing to work very hard."

It's also nice if they have long arms. It defrays the margin for error.

"If a guy has shorter arms, he has to be that much better with his tech-

nique," explained one coach, "whereas a kid who is 6-7 and has those long arms can be a little sloppy and get away with it. If the shorter kid makes a mistake he can really get burned."

It's a little different with the drive block, where the primary object is to beat the other guy off the line and get leverage on him. Shorter, lighter linemen have their place there, especially if they have a quick first step. No matter how big and strong the guy is across the line, if an offensive linemen can be the driver instead of the drivee, he'll probably get the job done.

Of course, height, weight, speed and wingspan aren't the only criteria for selecting offensive and defensive linemen. Coaches often base their decisions as much on aptitude, attitude and personality.

The general stereotype is something like this:

- Offensive linemen are passive, defensive linemen are aggressive.
- Offensive linemen have above average intelligence, defensive linemen have below average intelligence.
- Offensive linemen are nice, defensive linemen are mean.
- Offensive linemen work hard, defensive linemen are a little lazy.
- Offensive linemen are gentle and contemplative, defensive linemen are loud and rowdy.

You'll get varying opinions on the validity of the stereotype although most view it as having only a thread of truth.

"The offensive lineman has to keep his composure more," admitted one West Coast coach. "You don't want to put sissies on offense but you want them to have a calmer metabolism. The crazier guy who has a tendency to jump off-sides belongs on defense."

"You always hear the stories about how this guy wasn't good enough for defense so they moved him to offense," reflected an offensive line coach from the Big Ten. "But we like our guys to be aggressive, too."

"I guess the biggest difference is that an offensive lineman has to play with more control. Pass blocking is a good example. The defensive guys are waiting on you but you have to maintain your control and concentration. Defensive guys can just play a lot more loose."

"A good parallel to playing the offensive line would be hitting a golf ball or hitting a baseball. You want to be intense but you also have to be under control."

And be big and strong and tough and have good technique and be ready to cope with some lightning-footed, scaled-down "titans."

COLLEGE LANDMARKS ACROSS THE NATION

Third in a series

The figurehead "Tecumseh," named for a great Native American warrior, has played a prominent part in the U.S. Naval Academy's traditions for many years. The original wooden image was sent to the Academy in 1866 after being salvaged from the wreck of the Delaware, which had been sunk at Norfolk during the Civil War to prevent her from falling into Confederate hands. For 40 years the figurehead stood outside until weather took its toll. It was decided to immortalize Tecumseh in bronze in 1929. Today the statue, mounted on a pedestal of Vermont marble adorned with the Naval Academy seal, stands at the main entrance of the midshipmen's dormitory. It is considered a good luck symbol—students toss pennies at Tecumseh or salute it before exams and athletic contests.

One of Miami University's Oxford, Ohio campus landmarks is the McGuffey Museum. A National Historic Landmark, the Museum was the home of William Holmes McGuffey. McGuffey taught at the university and twice was offered its presidency, which he declined. He became well-known for the children's school readers which he wrote in the 1930s. His series became

the standard text in 37 states and by 1900 the editions totaled more than 100 million copies. A new edition was published in 1946, bringing the total of McGuffey Readers in print to over 125 million copies. The Museum contains a complete set of McGuffey's readers and the desk where he did much of his early writing.

Wake Forest University's new Graylyn Conference Center is housed in the restored mansion of the late Bowman Gray, former president and chairman of the board of R.J. Reynolds Tobacco Company. Built in 1927-32, Graylyn is the second largest private home (87 rooms) ever built in North Carolina. It is listed on the National Register of Historic Places as "one of the most significant domestic landmarks in the early twentieth century in North Carolina." The mansion is located on a 55-acre estate near the university's Winston-Salem campus.

FLY WITH THE EAGLES

**THIS YEAR'S FASTEST
PONTIAC HAS ONLY ONE TIRE
—EAGLE VR.**

Ask a group of car experts what's the best performance tire in the world.

Chances are, one name will dominate the conversation—Eagle VR.

Now that tire—the tire that has helped the new Corvette achieve "...absolutely astonishing limits of grip..." according to *Road & Track*—has

been selected sole original equipment tire on Pontiac's 1984 Anniversary Trans Am.

And no other high-performance radial combines Eagle VR's unidirectional tread pattern, long tread wear, steel-belted toughness and smooth ride with VR (130 MPH) speed rating.

It seems that more

and more, the builders of the world's finest performance cars are using our new Eagle VR's.

And that suits us just fine. The Goodyear Eagle VR radial. In the Eagles' Nest at your Goodyear retailer.

For a free copy of the detailed product specification book *Fly With The Eagle*, write to: The Goodyear Tire & Rubber Company, Box 9125, Dept. 69J Akron, Ohio 44305.

The world's greatest athletic shoes compete in our arena every day.

Welcome to the Olympics of athletic footwear. At Foot Locker, we've assembled the world's top names in quality and performance. And they're here in force.

Shoes for running, basketball, tennis, soccer, football, baseball, racquetball, or track and field.

Who do we favor? It all depends. On the game, on the wearer and on the commitment.

We go for the Gold, the Silver and the Bronze. A spectrum of contenders to give you all the winning options. Let our Sales Pros help you get your goals and your shoes together.

Whatever your choices are, you'll know you're running with the best. Because we're committed to it.

SOUTHPAW QUARTERBACKS

LEFTIES PROVE THEMSELVES RIGHT

by Bill Free, Baltimore Sun

Left-handed quarterback Steve Young of Brigham Young University was outstanding last season.

Oh how the myths have exploded down through the years about those wacky, crazy, flaky and zany left-handed quarterbacks.

They have been portrayed as a fun-loving, free-spirited bunch of football players who march to the beat of a different drum. The guys who throw with the so-called "wrong arm" are sup-

posed to be capable of doing anything at any time to give a coach gray hairs.

In short, it's safe to expect the unexpected from the southpaw throwers. They tantalize their coaches with flashes of brilliance one moment and near total disaster at another moment.

Many left-handed quarterbacks have overcome this nagging stigma of incon-

sistency and gone on to have superb college careers. Last season, two of the top quarterbacks in the nation—Boomer Esiason of Maryland and Steve Young of Brigham Young—threw with their left hand.

They were so brilliant and consistent

continued

SOUTHPAW QUARTERBACKS

continued

Saturday after Saturday that their coaches and fans nearly forgot that they had a left-hander at the most important position on the team.

"The only problem we came upon was if we had to demonstrate something," said a right-handed Atlantic Coast Conference coach who watched his talented left-hander win 16 games over two seasons against some of the top teams in the country.

"Some people say the spin of the ball is different from a left-hander," continued the ACC head coach. "But I don't believe there's any real difficulty unless you talk about it and think about it a lot."

But there can be no question that a left-hander does present problems for his teammates and the opposition on a regular basis, if for no other reason than the fact that he is different from most quarterbacks.

Something like 95 percent of quarterbacks are right-handers. Defenses are accustomed to playing against right-handers and get a different look of where the ball is coming from when a left-hander unloads a pass.

The lefties have also been known to gamble a little more in clutch situations and rise to the occasion when backed into a corner. Maybe they have something to prove since they grew up throwing the ball differently from almost everybody else.

A left-hander is certainly much better at rolling out to his left and putting the ball in the air. When he goes to the left, he's usually attacking the weak side of the defense—those people who don't normally get as much work on a regular afternoon.

Some defensive coaches may want to shift personnel around to compensate for the added dimension a left-hander gives a team. And they also have to be prepared for the different rotation on the football when it leaves the hand of a lefty.

"Sometimes a left-hander will throw a curve, screwball, or something like that," said a Southeastern Conference coach. "The spin on the ball is different but it doesn't matter as long as it gets there."

The different spin would create a problem for a receiver if he were catching the ball from a southpaw for the first time all week. But all receivers catch hundreds of passes every week from all the quarterbacks on the squad. By Saturday afternoon they're ready to catch the ball as long as it doesn't spin, curve, or dip too much.

When that happens, the left-handed quarterback usually says he was just

Maryland's Boomer Esiason, throwing left-handed, shattered records in '83.

being "creative" and messing up the defense. But both the quarterback and his pass-catchers know that every now and then a southpaw is going to look bad on a pass when it gets away from him.

Most coaches say they don't install any special pass patterns for a lefty. However, they'll try to attack the weak side of the defense as often as possible if they have a quarterback who is mobile enough to roll left and throw effectively on the run.

In these days of complicated and multiple defenses, the offensive coaches are always looking for a minor twist or turn to gain any kind of slight advantage a left-hander might provide. Even if the quarterback and his receiver do everything the same on a pass pattern a right-hander would do, there is still the obvious difference of trying to stop a passer who has the ball in the other hand.

The left side of the defensive line has more distance to travel to get to the football when a lefty has it. When the defensive linemen start bearing down on a left-handed quarterback, the first thing they are usually facing is his back and not the ball.

This can give the quarterback the few extra precious seconds he might need to get the pass off or to scramble out of trouble and find another receiver.

So what happens if the left-handed

starter suddenly gets hurt during a game and the coach has to call on his back-up—a right-hander—to come into the game?

The tendency is to believe the offensive team has to completely readjust its plan of attack. This could be true in some cases, but most coaches like to give their back-up quarterback enough playing time to be comfortable with the first unit.

If the No. 2 signal caller has only been in games with the second team, that's when the problems start. You can practice for days with the first team, but there's no substitute for working under game conditions with your receivers, running backs and offensive linemen.

Although there is no difference in the way a left-hander takes a snap from center, there are the usual timing factors to be concerned about. These are important when a right-hander replaces a left-hander, and are a little more ticklish when a righty subs for a southpaw.

As far as defensive adjustments a team has to make when it is going to face a left-hander are concerned, it all depends on the quarterback's strengths and weaknesses.

If he runs a well-balanced offense to both sides of the field, there isn't much an opponent can do to project what's coming on Saturday afternoon. But if the lefty has shown a tendency to favor a certain pass pattern over another, the wheels are set in motion for some defensive wizardry.

"You do make a thorough study of quarterbacks," said BYU's offensive coordinator. "You study his tendencies and see what he likes to do the most. Sometimes those traits may be a little easier to pick up with a lefty who is obviously more comfortable going to his left."

The BYU coach, who worked with record-shattering Steve Young last season, said that all left-handed quarterbacks like to say they can go to their right better than their left.

"But it's just not true," he said. "These guys like to make people believe they can roll right to prove their versatility. But you know a left-hander is naturally going to be more at ease going to his left."

No lefty likes to think he is limited, especially a quarterback who thrives on confidence and complete belief in his ability to get the job accomplished. Some have said left-handers are more cocky and brash than their right-handed counterparts.

But believers in the left-handers con-

HORMEL CHILI. ALL THE MAKIN'S OF HOMEMADE.

Good lean Hormel beef. Rich tomato sauce. Plump chili beans. And a secret blend of spices to make it taste just like home. Hearty and delicious. Serve it. And don't be surprised if they ask,

"Is it homemade or Hormel?"

Because sometimes it's really hard to tell.

Hormel

SOUTHPAW QUARTERBACKS

continued

tend that it's just the quarterback position that makes everybody seem that way. They don't think most lefties are arrogant. They have to be strong to lead 10 other guys on the field, and that strength is sometimes confused with obnoxiousness.

Unlike baseball where the southpaw is restricted to pitching, first base and the outfield, football holds no major limitations on where a left-hander can play. The only time a football coach might make a change because a player is left-handed would be in determining on which side of the line he might use the lefty.

Most coaches like their offensive and defensive linemen to be ambidextrous, but if a player is much more at ease hitting with his left arm first he will usually be put in a position where he can utilize his strengths to the utmost.

"You just see which guys are more comfortable on a certain side of the field," said a Big Ten coach. "The same can be true of right-handers as well as lefties. It's something you look at for linebackers and defensive backs as well as linemen and ends."

While the left-handed quarterback

"Sometimes a left-hander will throw a curve, screwball, or something like that," said a Southeastern Conference coach. "The spin on the ball is different but it doesn't matter as long as it gets there."

has some advantages and a few disadvantages, a running back who is left-handed would have a definite advantage if the coach wanted to use him on a pass-option play. He could carry the ball in the right hand and then suddenly switch the ball away from the defender to the left hand and throw a pass.

All-America Steve Young last season helped dispel some of those fables about left-handers. His soft touch

passes rolled up points on the scoreboard and skyrocketed his passing statistics.

"He was completely opposite from what you always hear about left-handers," said the BYU coach. "He was the most accurate quarterback we've had here and we never did anything to compensate for him being left-handed."

While Young did the job with a soft pass, Maryland's southpaw Boomer Esiason shattered passing records with a whistling pass that split defenders many times to find the open arms of receivers.

Both quarterbacks received super results with different methods, but they both used what teachers and educators once referred to as the "bad arm."

The BYU coach recalled the days when he was in elementary school and a kid in the room was reprimanded for using his left hand. It was a time when all youngsters were being taught to use their right hands.

Now that thinking has changed. As one left-hander put it, "We are more spontaneous and creative. We use the hand that is closest to our heart, which makes us more sincere."

Watch the game with a wide receiver.

A pair of Bushnell precision binoculars lets you get more of what you pay for when you buy football tickets: more excitement, more color, more action. Bushnell wide angle models have the power to put you on the field from any seat in the stadium, and the wide angle view lets you keep all the

action in focus. Bushnell makes the largest selection of wide-angle binoculars and other high-quality sports optics. See them at your Bushnell dealer.

THE RADIO COLOR MAN: PAINTING A PICTURE

by John Jones,
The New Orleans Times-Picayune

He is a man who puts the Crimson in Harvard football.

The man who never mispronounces a Cajun French surname on the roster of LSU.

The man who is a walking encyclopedia of facts, prominent and obscure, about your favorite college football team.

He is the radio color man on college football broadcasts, the scene setter, the play analyzer, the artist with words.

In the broadcast business the color man is candidly considered the second banana on a team anchored by the play-by-play announcer.

The color man's job doesn't ensure the long-term security frequently associated with the work of top play-by-play men.

Yet in the hearts of a legion of college fans from Boston to Austin, the color man *continued*

THE RADIO COLOR MAN

continued

is as singular a trademark as a team's helmet logo or mascot.

His expressions become a part of the fan's vocabulary.

His voice and rhythmic delivery are mimicked.

His descriptions of game scenes become a permanent chapter of team history for every fan who couldn't make it to the stadium on time.

Color men come from a variety of backgrounds.

Some are formerly prominent college players, often alumni of the teams they're broadcasting.

Some are full time broadcasters with years of experience.

A third group fits neither category. They weren't great players, and they're just learning the broadcasting business. But people like to hear their voices during a game.

"A good color man," says a veteran play-by-play announcer in the Big Ten, "can add a real dimension to a broadcast. He can inject a liveliness into the story line that complements the play-by-play man's job. A good play-by-play man always comes prepared to do his job. A good color man can make him sound even better."

The converse is also true.

No matter how flawless the play-by-play delivery, a weak color man can disrupt the broadcast flow more quickly than a power failure.

With each broadcast team, the color man's job varies.

In a two-man team, the color man's responsibilities are expanded beyond simply making comments during a game.

The color man in the two-man team usually gets the game show on and off the air. He handles introductions, including halftime guests. If there are no halftime guests, he describes halftime ceremonies.

Often he's also responsible for locker room interviews on the post-game show.

Every color man is expected to provide requisite game facts in his pre-game comments: who's playing, where they're playing, what the teams' records are and how weather conditions may affect the game's outcome.

Better color men go a step further, delving into the nuances of a game by briefly charting the storylines they'll follow during the afternoon: key matchups, relationships of opposing coaches, the impact the game could have on bowl game aspirations of either or both teams.

Three-man broadcast teams are distinguished by the addition of a game analyst to the roster.

The analyst, usually a former coach or player, uses his intimate knowledge of college football to apprise listeners of what strategy and tactics are being used. In this situation, the color man avoids technical aspects of the game to concentrate on other areas.

Whether two-man or three-man, the broadcast team has to learn to work together, becoming familiar with the cadence of the play-by-play man's voice and the lulls in which the color man and analyst can make their points.

"The 25 seconds between plays in a college game makes a vastly different broadcast than a pro game in which 30 seconds transpire between plays," says a veteran Southeastern Conference broadcaster who has served as both color man and play-by-play announcer for the better part of 20 years.

"The extra five seconds in the pro game can be interminable. You'll have a bit more freedom as a color man to get your thoughts on the air. The college game gives the impression of moving along so much faster. You have to know what you're going to say and say it

THE RADIO COLOR MAN

continued

The Pass is dragging
downfield like a
crippled quail and
has interception
written all
OVER IT!...

succinctly."

In the radio booth as well as on the playing field, the opening two or three games of the season are usually the proving ground.

Because the popularity of college football radio broadcasts generates big ratings — and big profits — radio executives are very critical in their reviews of broadcast teams.

A color man who can't hold his own in the two-man team, or one who steps on the lines of his compatriots in the three-man team, is immediately relegated to less air time.

An experienced broadcast team that's worked together for several seasons has a comfortable feel for the radio audience right from the season opener.

A team with one or more new members can have its ups and downs.

"The longer you work with someone, the better patterns you get into," said an announcer with five decades of college football broadcasting duty, the last two decades coming on the broadcast team of a Los Angeles-based Pac-10 team.

"The play-by-play man accepts the other guy and learns from him. The big thing is that one pair of eyes can't see it all. The play-by-play man follows the ball. The color man can more closely analyze what the defense is doing. He

sees who caused the fumble.

"A priority," he said, "is to keep it simple.

"You don't want to be too technical in the college game," he said. "College football is more a spectacle. People are dressed up and meeting old friends. There's a larger audience of women. It's a social event.

"They just aren't as involved in the technical points of the game. You don't kiss off the technical stuff altogether, but there's a lot going on at a college game beyond pure unadulterated football."

Perhaps the best way to keep the pace flowing in a college broadcast is to be well prepared.

"If you want to be a professional," said one former Big-10 color commentator, "you come in prepared. A lot of guys don't, but if you don't do your homework, you're not doing your job.

"It's extremely important to get input from the coaches. They know what a guy's strengths and weaknesses are. They know the kinds of things that can make it a long day for a player.

"So you watch for it. Pick out something you can look for that you expect to be a key and monitor the pattern through the game."

The color man's job in recent years has been immeasurably assisted by the growing intricacies of college football.

"The frequent use of statistics, for one thing," the veteran Pac-10

announcer said. "The sheer amount of information you have at your fingertips helps you do a better job. It's all changed. You're not in the press box any more. It's the communications center."

The difference in the color man's duties can be altered by the medium. On radio, he's an illustrator and educator. On television, he can be like a counterpunching boxer.

"When you're doing TV, it's not necessary to say the pass is dragging downfield like a crippled quail and has interception written all over it," says the veteran SEC color commentator.

"All that's done for you. The color man becomes analyst in a TV broadcast. Radio lets you paint the picture."

The best test of a color man's craft is how well he communicates the flavor and excitement of the game via the radio airwaves, how artfully he illustrates the scene to a fan who may be hundreds of miles away and fishing from a bass boat floating in the middle of a lake.

If he can fire up that angler, get him dialed into every play, the fisherman is going to become a cheerleader.

And the cheerleader is going to shout loud enough to drive the fish away.

The fishing trip may be ruined.

But the fisherman has enjoyed an afternoon of college football thanks to the second banana who brings the game to life—the radio color man. ●

THE FIRST COLLEGE FOOTBALL HALL OF FAMERS

Harold "Red" Grange

Alvin "Bo" McMillin

In 1951 the National Football Foundation and Hall of Fame inducted its first members. They were a distinguished group, many of them familiar legends in college football. Each year since 1951, the Hall of Fame has named new members and honored them at awards banquets.

1951 HALL OF FAME INDUCTEES

Sammy Baugh, Texas Christian, Halfback, 1934-36
 Hector Cowan, Princeton, Tackle, 1885-89
 Edward Coy, Yale, Fullback, 1907-09
 Charles Daly, Harvard, Quarterback, 1898-1900
 Army, Quarterback, 1901-02
 Benjamin Friedman, Michigan, Halfback/Quarterback, 1924-26
 George Gipp, Notre Dame, Fullback, 1917-20
 Harold "Red" Grange, Illinois, Halfback, 1923-25
 Thomas Hare, Pennsylvania, Guard, 1897-1900
 Charles Harley, Ohio State, Halfback, 1916-18
 Homer Hazel, Rutgers, Fullback, 1922-24
 W.W. "Pudge" Heffelfinger, Yale, Guard, 1888-91
 Wilbur "Fats" Henry, Washington & Jefferson, Tackle, 1917-19
 Frank Hinkey, Yale, End, 1891-94
 William Hollenback, Pennsylvania, Halfback, 1906-08

Donald Hutson, Alabama, End, 1932-34
 Frank "Bruiser" Kinard, Mississippi, Tackle, 1934-37
 Nile Kinnick, Iowa, Halfback, 1937-39
 Elmer Layden, Notre Dame, Fullback, 1922-24
 Edward Mahan, Harvard, Fullback, 1913-15
 Alvin McMillin, Center, Quarterback, 1919-21
 Harold "Brick" Muller, California, End, 1920-22
 Bronislaw "Bronko" Nagurski, Minnesota, Tackle, 1927-29
 Ernest Nevers, Stanford, Fullback, 1923-25
 Adolf "Germany" Schultz, Michigan, Center, 1904-08
 Fred "Duke" Slater, Iowa, Tackle, 1918-21
 Amos Alonzo Stagg, Yale, End, 1885-89
 James Thorpe, Carlisle, Halfback, 1908, 1911-12
 Ed Weir, Nebraska, Tackle, 1923-25
 George Wilson, Washington, Halfback, 1923-25

1983 ACADEMIC ALL-AMERICAS

UNIVERSITY DIVISION

Brian Salonen, Montana

Jeff Hostetler, West Virginia

John Bergren, Stanford

The College Sports Information Directors of America (CoSIDA) chose 23 players for the 1983 college division Academic All-America team, and 24 players for the university division team.

Heading the university division were standout quarterback Jeff Hostetler of

West Virginia, Lombardi Award finalist Doug Dawson of Texas and two-time All-America defensive back Terry Hoage of Georgia. In the college division, two top pass receivers were chosen for the team—Marc Knowles of Millikin and Bob Stefanski of Northern Michigan. Between them, these two players accounted for

nearly 1,800 yards in receptions during the 1983 season.

To be eligible for the Academic All-America teams, a player must be a regular performer for his school's team and must have at least a 3.2 grade point average (on a 4.0 scale) for the previous year.

A LOT OF THE TRAINING THAT HELPED HIM BECOME A CHAMPION HAD NOTHING TO DO WITH DIVING.

Russ Rebmann is a Pacific 10 Conference diving champion at the University of Southern California and an Army ROTC cadet.

"I feel the key to becoming a champion diver is having discipline, good concentration, and a lot of self-confidence.

My ROTC training helped me develop in all those areas.

"At ROTC Basic Camp, I got my first real taste of what it's like to be a leader, to be the man in charge. Handling that kind of responsibility has made me feel more confident about myself.

"What made me enroll in Army ROTC? I started thinking about my future. I can't dive the rest

of my life. And to be a champ in business, you've got to be a leader and a manager. I'm learning how to do that in ROTC. And I can use my training wherever I go, whatever I do."

If you're thinking about your future, think about enrolling in Army ROTC. The training you'll receive can give you the edge you need... no matter what the competition.

For more information, write: Army ROTC, Dept. AF, P.O. Box 9100, Clifton, N.J. 07015.

ARMY ROTC. BE ALL YOU CAN BE.

COLLEGE FOOTBALL

Quiz

1. Who is the only college coach to guide his team to an undefeated season and national championship in his first year? _____
2. Who was the first collegiate player to surpass 2,000 yards rushing in a single season? _____
3. He was an All-Southwestern Conference fullback at the University of Texas. He started his career at UT as a quarterback but was replaced by Bobby Layne. He is now a successful professional football coach. Can you name him? _____
4. Which former Heisman Trophy winners are now in the Professional Football Hall of Fame? _____
5. Who holds the NCAA season record for field goal accuracy? _____
6. Fordham University's rugged defensive line of 1935-36 was known as the "Seven Blocks of Granite," allowing not a single touchdown in 1936. What revered former NFL coach played guard on that line? _____
7. Who was the oldest college football coach? _____
8. Which former University of Kansas quarterback holds the NCAA record for most yards rushing (294) by a QB in a game? _____
9. Can you name the four Notre Dame quarterbacks who have won the Heisman Trophy? _____, _____, _____, _____
10. Who set NCAA receiving records in 1965 with 134 catches and 1,779 yards? _____

ANSWERS: 1) Bennie Oosterbaan, Michigan, 1948; 2) Marcus Allen, USC, 1981 (2,342 yards); 3) Tom Landry, head coach, Dallas Cowboys; 4) none; 5) Chuck Nelson, Washington, 1983, (25-26/.962); 6) Vince Lombardi; 7) Amos Alonzo Stagg, head coach until the age of 84 and served as an assistant until age 98; 8) Nolan Cromwell, 1975, vs. Oregon State; 9) Angelo Bertelli (1943), John Lujack (1947), Paul Hornung (1956), John Huarte (1964); 10) Howard Twilley, Tulsa (Photo: Marcus Allen)

80 million football fans are dreaming of a trip to Palo Alto. Enter the J&B Super Sweepstakes and win it.

It's Super Bowl XIX! With not one, but three Grand Prize Winners. Each will win a trip for two to Palo Alto and Super Bowl XIX. That means airfare, hotel, breakfasts, dinners, a rental car, and two tickets to the game of the year!

Use the coupon below or see your participating liquor retailer for entry blanks and details.

How to enter.

Official Rules. No purchase necessary.
1. Fill in the Official Entry Form or, on a plain 3" x 5" piece of paper, print your name, address, zip code, phone number, and age, plus: "I certify that I am of legal drinking age under the laws of my home state." Also include with your entry, the answer to the question: What do the initials J&B stand for on the label of a bottle of J&B Scotch?
2. This contest is only open to adults of legal drinking age. Each entry must be mailed separately to: J&B Scotch Super Sweepstakes, P.O. Box 3693, Syosset, N.Y. 11775

Entries must be received by October 31st, 1984.
3. Three Grand Prize Winners and 1,000 second prize Stadium Seat Cushion Winners will be selected. Each Grand Prize Winner will receive a trip for 2 to Super Bowl XIX including round trip airfare for two, hotel accommodations for 3 days/2 nights including breakfast and dinner, rental car and 2 tickets to Super Bowl XIX.
4. Winners will be selected at random by National Judging Institute, Inc., an independent judging organization whose decisions are final on all matters relating to this

sweepstakes. All prizes will be awarded and winners notified by mail. Only one prize to an individual or family. Prizes are nontransferable and no substitutions or cash equivalents are allowed. Taxes, if any, are the responsibility of the individual winners. Winners may be asked to execute an affidavit of eligibility and release.
5. Sweepstakes open to U.S. residents of legal drinking age in the state of their home residence as of September 1st, 1984, except employees and their families of THE PADDINGTON CORPORATION, its affiliates, subsidiaries, participating

liquor wholesalers and retail alcoholic beverage licensees, advertising agencies, Wesco Associates, Inc., printers involved in the J&B Sweepstakes and Don Jagoda Associates, Inc. This offer is void wherever prohibited, and subject to all federal, state and local laws.
6. For a list of major winners, send a stamped, self-addressed envelope after December 15th, 1984 to: J&B SCOTCH SUPER SWEEPSTAKES WINNERS, P.O. Box 3706, Syosset, N.Y. 11775
J&B. It whispers.

The initials J&B on the label of a bottle of J&B Rare Scotch stand for: _____

Name _____ (Please print)

Address _____

City _____ State _____ Zip _____

Age _____ Phone () _____

Mail to: J&B Scotch Super Sweepstakes

P.O. Box 3693, Syosset, N.Y. 11775

Entries must be received by October 31, 1984.

It takes a stress-tested oil to stay ahead of the little guys.

If you're driving one of today's higher revving, small engine cars, you need a motor oil that can stand the strain.

Here are facts that Pennzoil has worked with to exceed the lubrication requirements of today's small engines.

Situation

FACT: Small car engines are built to tighter tolerances than V-8's. Varnish and sludge build-up become an even greater problem, robbing the engine of power and performance.

FACT: Like racecars, small engines need optimum oil viscosity performance at high operating temperatures. Also, small engines are harder to start or crank when cold, so they need greater fluidity for easy start-up just like racecar engines.

FACT: Small engines work 20% harder over sustained periods. Reduced friction is critical to minimize wear in engines which are running near the edge of their operating capability.

Knowing these vital facts, Pennzoil has been stress-tested to protect small engines that work harder to do the same job as a large engine. And since a smaller engine is under the stress of working at much higher rpm, it needs all of Pennzoil's extra protection. That's why you need Pennzoil protection in your car.

Solution

FACT: Pennzoil is the leader in the development of motor oils with high tech additive properties...such as Z-7... which help prevent varnish and sludge build-up in engines.

FACT: Pennzoil led the way in developing high tech multi-viscosity racing oils. The same technology has been applied to Pennzoil Multi-Vis Motor Oil for your car.

FACT: Pennzoil was first to introduce friction reducers in all their multi-vis oils.

Pennzoil doesn't just keep up with the stress of today's small engine demands...it stays ahead. So you can depend on the latest Pennzoil state-of-the-art technology to give your car the protection it needs.

Pennzoil—quality protection worth asking for.

**HIGH TECHNOLOGY
QUALITY = PENNZOIL**

WANTED

by most college football teams in America: One quality noseguard. Must have exceptional quickness and strength. Must enjoy seeing centers stretched flat on their backs. Must figure that being double- and often triple-teamed is just part of today's work. Apply immediately.

by Billy Watkins,
Jackson Daily News

The most common defense among college football teams today is the "50" defense, consisting of five linemen, two inside linebackers and a four-deep secondary. One of those linemen is the noseguard, who is usually positioned head-up on the center.

It's the noseguard who has the biggest say in whether or not a team plays a good "50" defense or a lousy one.

"It's the most essential position of the front," says one coach in the South. "I feel very strongly that if you've got a person in there who cannot dominate, then you should play another defense. Those are pretty strong words, but that's the way I've always felt about it."

Says another coach from a southern school, "You're going to struggle or be mighty average unless you have a domi-

nant noseguard in a '50' front."

It's quite obvious why the noseguard is so important in the "50" defense. In most "50" alignments, the noseguard is over the center, the two tackles are head-up with the offensive tackles and the two ends (the outside linebackers, as they are sometimes called) are outside the tight end. Each has a certain area of responsibility.

"We use what we call gap control," says one coach. "For instance, the two tackles are responsible for the gap between the guards and the tackles. Our ends have the area from the tight end to the sideline."

That leaves the noseguard with the area from guard to guard. He's the only player on the defensive front who is asked to cover two gaps — the center-

guard gap on both sides of the football.

"And if you can find a guy who can cover two gaps," says a coach, "then you've got yourself one heckuva football player."

Says another coach, "Regardless of which side they should run to, right or left, the noseguard should be the first man on the tackle if the play goes between the guards. We tell all our people they should be in on the tackle, but they have one gap that is their primary concern until the ball is snapped. Then they can leave that area."

One coach who employs the 4-3 defense at his school says the noseguard's two-gap responsibility is the main reason he doesn't like the "50" front.

"In our 4-3 our middle linebacker has

Top Row: Black; Claiborne; Luke Lea, Manager; Suter (Princeton), Coach; L. Kirby-Smith; D. Hull. Middle Row: Kilpatrick; Poole, Keyes, Jones, Simkins. Bottom Row: Pearce, Q. Gray, Selbles, Captain; W. Wilson, Sims.

by Alf Van Hoose, Birmingham News

This is not an April Fool football story. These games happened. Believe it or not!

Sewanee 12, University of Texas 0

Sewanee 10, Texas A&M 0

Sewanee 23, Tulane 0

Sewanee 34, LSU 0

Sewanee 12, Ole Miss 0

So what? So what, indeed. But think on this: Those five games were played in a six-day period.

Five football games in six days? Right, and don't quit reading.

Sewanee won them all on the road.

Furthermore, Princeton-alumnus coach Herman Suter used only 15 of his 21-man Sewanee squad on the 2,500-mile shutout victory swing which wasn't by auto, or bus, or plane. His Purple Tigers traveled by train, with wood-burning engines.

EXPERIENCE MAZDA 626.

MAZDA 626 SPORT COUPE.
UNUSUAL PERFORMANCE,
LUXURY, AND VALUE IN
ONE GREAT ROAD CAR.

The word got out fast. *Motor Trend* magazine named the all-new front-wheel-drive Mazda 626 its 1983 Import Car of the Year. *Car and Driver* said: "The Mazda 626 does everything well, and that makes it the standard of comparison in its class as far as we're concerned."

The public responded by making it one of the most popular road cars ever introduced in America.

And why not? The innovative 626 gives you a lot to like. An

41 EST. HWY. MPG / **29** EST. MPG

advanced 2-litre overhead cam engine that moves you from zero to 50 in 8 seconds flat. A years-ahead suspension system for exceptional handling. An interior spacious enough for five people. A 6-way adjustable driver's seat. A stunning list of standard features.

Electronic Variable Shock Absorbers are controlled by buttons on the dash linked to a solenoid valve atop each shock. NORMAL setting provides a softer ride. In AUTOMATIC mode, the front shocks stiffen above 50 mph for greater stability at cruising speed. SPORT, as the name implies, gives you firmer damping in all four shocks.

In truth, the 626 is one road car that permits you to experience something highly unusual.

Namely, the performance and luxury you look for—at a price you hardly dared hope for.

1984 Mazda 626 Sport Coupe

\$8645**

Standard features include 5-speed overdrive transmission (3-speed automatic optional) • Steel-belted radial tires • Rack-and-pinion steering • Power-assisted front disc brakes • Front and rear anti-sway bars • Electric rear window defroster • 60/40 split fold-down rear seatbacks • Full cut-pile carpeting • Quartz digital clock • Tilt steering wheel • Tachometer • Carpeted trunk.

Experienced drivers buckle up.

*EPA estimates for comparison. Your mileage may vary with trip length, speed and weather. Highway mileage will probably be less. **Manufacturer's suggested retail price. Actual price set by dealer. THE MORE YOU LOOK,
THE MORE YOU LIKE.

the same gaps to cover as the nose-guard," he says. "But we think he can do a better job of it by standing up three or four yards off the ball rather than getting down face to face with the center. We think it's easier to react that way."

When searching for a nose-guard, a coach is looking for two things: he must have great quickness and he must be strong enough to battle one, two or three offensive linemen.

"The nose-guard has to move and be into the center as soon as the ball moves," says a coach who uses the "50" defense. "That's the most important thing in teaching nose-guard play: moving on the football. That's something you can develop to a degree, but it's mainly something you're born with."

"You want to move so quickly that the center would swear you're offside. And many times the good ones are offside because of that great anticipation. We really stress how important it is to move when the ball moves."

The nose-guard is taught to move through the center's block instead of trying to go around him. "If you go around him," says a coach, "the center will just cut you off. We tell our kids that if the center moves left, then you've got to work that way."

It's tough on a center. He must worry first about getting off a good snap to the quarterback. Then comes the blocking part. All this happens in a fraction of a second, and it's a demanding situation.

"More and more I think we're seeing the best athletes on the offensive line at center because of all the good nose-guards around," says a coach. "And if you can't handle the nose-guard, you'll be in for a long day."

The most obvious problem a good nose-guard could cause is poor exchanges from the center to the quarterback.

"If you've got a nose-guard going into the center every play, you're going to create some mistakes," a coach says. "The center tries to move his hands a little quicker. He might not be concentrating as much on the exchange as he is on the guy in front of him. And the quarterback may be trying to get out of there a little quicker than normal."

"Even if you don't create fumbles, you might interrupt the exchange from the quarterback to a running back. It just destroys whatever cohesiveness an offensive might have."

Offense must make adjustments to handle dominant nose-guards. "What we do," says one offensive coach, "is try to give the center as much help as possible. We'll use one guard, sometimes both guards if we have to, on the

THE NOSEGUARD

continued from page 33

nose-guard."

The new scheme may block the nose-guard, but it also leaves one-on-one blocking for the defensive tackles, which in turn makes them much more effective.

As one defensive coach bluntly puts it, "You can block my nose-guard one-on-one and he'll eat your lunch. You can double-team my nose-guard and my tackles will eat your lunch. Makes no difference to me."

If an offense does cook up a new blocking scheme to handle the nose-guard, it may do more harm to the offense than good.

"Many teams have had malfunctions against us," a defensive coach says, "because they've had to change the things they'd been doing all season. The type of guy who can force a team to change what they normally do is the type of guy we're looking for to play nose-guard."

No one can measure the effect a dominant nose-guard has on the opposition during the week before a game, but one coach believes it would be surprising.

"Those players sit there all week, watching films of your nose-guard just destroying a center," one coach says, "and they realize that 'Hey, this guy may force us into a lot of mistakes.' It works on their minds."

There are certain variations of the "50" that are frequently used. "Rarely do you see a team play a straight '50' for a whole game," says a coach. And that may change the responsibility of the nose-guard.

What a team might do is run an "overshift" to the strong (or tight end) side, then shift the secondary to the weak (away from the tight end) side for run support there.

In the "overshift," the nose-guard moves into the center-guard gap on the strong side. The tackle on the weak side moves down from head-up with the offensive tackle to directly over the guard.

One coach who uses the wide-tackle-six defense — a popular defense in years gone by, but employed by just a handful of teams these days — laughs when someone mentions the "50" overshift.

"All they're doing then," he says, "is running our defense. We take our 60-guard and put him in the guard-center gap, just like they do with the nose-guard. It's the same thing. Then, every front player is responsible for just one gap. And most teams are better when they have their players in one-gap responsibility."

But some teams using the wide-tackle-six alignment convert to the "50" in certain situations.

"Sometimes, we'll move our guard from the center-guard gap to directly over the center, just like a nose-guard, in passing situations," says one coach. "We feel like he gets a little better pass rush over the center than the guard because the center is worried about snapping the ball first, then blocking."

One coach compares finding a quality nose-guard to finding a quality quarterback. "There just aren't many around," he says. "What we've always done is take our best defensive lineman and put him there. Everything in the '50' is structured around him. That's where the heart of the defense is. He's the cog."

"That's what we tell a guy when we put him there: 'Everything revolves around you. You set up the huddle. The others come to you. When the defense is called, you're the first one to the ball. And when the ball moves, you're the first one on defense to move.'"

And what the nose-guard does on that initial move following each snap can determine who wins the game.

Remarkable story? Yes. The College Football Hall of Fame near Cincinnati ought to play it big. It doesn't now. Someday it will.

No team will match that feat.

It happened in 1899. William McKinley was the president of the U.S., while in England, Queen Victoria was still doddering around Buckingham Palace.

Sewanee was officially "The University of the South," ivy all over its 10,000-acres up the road a piece from Chattanooga, if one is headed toward Nashville.

Football is still there. It's not de-emphasized football — just football, by student-scholars. The late Shirley Majors, John's dad, coached it with distinction for years.

The NCAA knows about Sewanee football. It has awarded more of its post-graduate honors scholarships there than to any Division III institution in the land.

Sewanee is proud of its football tradition but does not boast of it from housetops. Once upon a time the Purple Tigers were the perennial southern football power.

It wasn't a power by the time the Southeastern Conference was born in 1933, but Sewanee was a member. It resigned in 1940, with an 0-37 SEC football record.

But from 1899, for 30-odd seasons Sewanee wasn't embarrassed to challenge anybody.

Its memorable team, that '99 team ignored by history, set a tone. The five wins in six days came late in a 12-0-0 season.

Sewanee archives credit Luke Lea, a big-dreaming team business manager, with assembling the players for 1899, and persuading Suter to coach them.

Lea later became a Nashville newspaper publisher and U.S. senator. He recruited men from several states, mostly players with college experience.

Warbler Wilson, quarterback, had been a second-stringer at South Carolina. Captain of the team was H. G. Seibels, of Birmingham, Ala., a lineman. Seibels was the last survivor of the team, dying in 1969, as a College Football Hall of Famer.

Sewanee opened its '99 season defeating Georgia, 12-0, and Georgia Tech, 32-0, in Atlanta on Oct. 21 and Oct. 23. It routed Tennessee, 46-0, and Southwestern, 54-0, at home within the next 11 days.

It finished the year spanking Cumberland, 71-0, on Nov. 20 at home; Auburn, 11-10, in Montgomery on Nov. 30; and North Carolina, 5-0, in Atlanta,

**Six days, five football games,
five victories—and a
bid for history.
On the seventh
day, Sewanee records it,
"they rested."**

Dec. 2.

The final game should have been called a 'bowl.' It predated the Rose Bowl by two years, with all the elements to qualify it as a major post-season game.

Sewanee heard about North Carolina claiming the Dixie championship. The Tigers challenged the boast and settled it, by a field goal (which counted five points then).

But The Trip was for the ages. Lea promoted that, too. He even talked school fathers into buying new uniforms for the team — the custom back then had players furnishing their own combat wardrobes and shoes.

A crisis developed on the team's special sleeper car five miles down the railroad from Sewanee. Lea remembered he'd forgotten to load the new uniforms off the station platform.

Lea got the conductor to wire a request that the equipment be dispatched on a following train. The uniforms caught up with the players a few minutes before kickoff in Austin.

Sewanee caught up with a fast-starting Texas early in the match. The Longhorns moved to the Tiger 15.

A story goes that at that point a Sewanee alumnus waved a fistful of money to fellow sidelining Texans, offering odds that Texas wouldn't score then, or later.

Texans covered. Texans lost.

One Sewanee version of that gamble is that most of the winning money involved represented an investment by Sewanee players.

Historians report that following the game Texans hosted Sewanee players

at a dance.

Following a late night trip to Houston, Sewanee whipped the Texas Aggies the next afternoon, a Friday.

The 400 miles left to New Orleans denied the Tigers a dance in Houston. The players did attend a theatre performance on Saturday evening, after Tulane had been trounced, 23-0.

In the play's ("Rupert of Hentzan") final act the dead hero was on stage in state when Queen Flavia rushed on in royal mourning clothes of purple.

That was Sewanee's color. The players leaped up and rendered their school's yell. Actors and audience were mystified. The dramatic spell was lost, like Texas, A&M and Tulane had.

And LSU was to lose in Baton Rouge on Monday, and Ole Miss in Memphis on Tuesday.

On Sunday, break day, Sewanee players toured a sugar plantation on a detour to Baton Rouge. They cheered for the purple cane.

LSU's color is purple also, and so were their bruises. Ole Miss colors were red and black. So were their feelings late Tuesday.

The 300-miles from Memphis to Sewanee were uneventful for a team headed home. The entire student body, 'tis written, met the train.

There was a triumphant half-mile parade up the mountain to the campus. Students had rented a hack. They roped it up the slope with 21 celebrities aboard.

Six days, five football games, five victories — and a bid for history. On the seventh day, Sewanee records it, "they rested."

**WHEN OPPORTUNITY COMES KNOCKING,

CROSS COUNTRY TEAM MARKS TIME

Edinboro University's cross country coach, Doug Watts, feels that his men distance hopefuls will be maintaining the Scots traditionally respected "status quo" this year in preparation of "great expectations" for the fall of 1985.

"Our team is young and needs another year of experience and physical maturation before we can realistically challenge for another national championship," claimed the EUP mentor who has guided the running Scots to outstanding success over the past 15 years. "We have set modest goals — another undefeated dual match season and an NCAA II national finish among the top ten," continued Watts whose teams are working on a string of 57 consecutive dual match wins that span 12 straight undefeated seasons.

In anticipation of the 1985 charge and as an indication of the wealth of talent Watts has on hand, Edinboro All-American Steve Repko (E. Aurora, NY) will sit out this campaign as a "red shirt." Still, more than a dozen runners will battle for the top spots to carry on the Scots nationally recognized reputation of distance running excellence.

"I don't think I can accurately single out who will be our top runner this year," revealed Watts. "There simply are too many talented people to predict a distinct order of finish."

The situation is one that should make any intercollegiate coach happy, and Watts is no exception.

"Our depth means that competition within our team might be more intense than against most of our opponents. As a result, our seven top runners should be as tough psychologically as they are physically," added Watts coyly.

Expected to challenge for the number one spot is junior Mike Hulme (E. Aurora, NY). A two-time national finalist in the steeplechase at the NCAA II Track Championships, Hulme could emerge as a cross country All-American for the Scots this fall. A fellow steepler, Tim Dunthorne (sophomore, Sundbury, Ont.) finished seventh at the NCAA track finals last spring and has all the tools to join Hulme in the quest for an All-American scroll. Junior Steve Stahl also has the potential to finish among the national leaders but has to "overcome personal distractions" says Watts.

The Edinboro coach can still count on another group of his talented runners to challenge for the number one position on any given day. Luke Graham (sophomore, Cochran, PA) is seen by Watts as the "team fighter" and feels "once his training catches up with his heart" Graham will be a future champion. Sidelined last year due to an injury was Genarro Manocchio (freshman, Parma, OH) who will probably start slow but make his presence known at the top through October.

Also wearing an Edinboro uniform for the first time will be transfer Scott Burns (sophomore, Pittsfield, PA) who, likewise, is a front-runner contender. Junior Bill Maloney (Hollidaysburg, PA), a consistent top five finisher for the last two seasons, has always been a dependable point-getter who continually delivers clutch performances.

The remaining roster members could, by themselves, comprise a team that might prove to be the best in the Pennsylvania Conference where the Scots compete. Only in his third year of running, senior Tom Borawski (Sharon, PA) has been selected to captain the team because of the great attitude and leadership qualities he demonstrated last fall. Sophomore Ron Beck (Kent, OH), recovering from a bout of mononucleosis over the summer, and junior Greg Cunningham (Warren, PA), a place-finisher in the Con-

ference 10,000 meter run, are threats who should surprise opponents. A pair of sophomores, Gregg Redd (Swanton, OH) and Ken Scott (Jeanette, PA) are potentially dangerous competitors as is junior Frank Tascone (Madison, OH).

A trio of Ohio freshmen recruits, who Watts believes have promising futures, have joined the squad. "These three are excellent runners," indicated Watts. "But it remains to be seen if they will be able to overtake any of the upperclassmen this early in their collegiate careers."

The threesome includes Brian Martin (Sandusky, OH), Matt Marshall (Lansing, OH) and Tim Powers (Youngstown, OH). Martin was fourth in the Buckeye State AA meet with Marshall posting a fifth in his division and Powers ending up 12th in the AAA race.

1984 CROSS COUNTRY LETTER WINNERS: (L-R, Kneeling) Luke Graham, Mike Hulme, Bill Maloney. (L-R, Standing) Steve Stahl, Tom Borawski, Ron Beck, Tim Dunthorne.

HEAD FOOTBALL COACH — DENNY CREEHAN

Head Coach - Denny Creehan

Since Denny Creehan's appointment five years ago as the ninth head coach in Edinboro's football history, the Fighting Scots have commanded respect both in the highly regarded Pennsylvania Conference as well as on the national scene. Record breaking performances have become the order of the day while riding the crest of a glossy 31-18-1 ledger over the past five seasons. The 34-year-old mentor has produced a .633 winning percentage mark to move him into first place on Edinboro's all-time coaching list.

Over the past two seasons Creehan's clubs have posted an impressive 17-4 chart while figuring in 43 school records that were either tied or broken. Following up a brilliant 9-2 slate two years ago, along with the PC's Western Division title, Creehan's charges blazed to an 8-2 card last fall while becoming Edinboro's most explosive offensive team ever.

The 1983 Scots scored a record breaking 41.2 points per game and ranked second in the nation among NCAA Division II competitors in total offense with a 461.1 yards per contest output. That output was good enough to be rated 10th among all the major college's and universities in the country ahead of such schools as Boston College (13th), Florida State (14th), and North Carolina (15th).

While producing a respected competitor on the football field is, of course, an annual goal, Creehan has continually stressed the importance of academics as a top priority for his student athletes. "We must be winners in the classroom first," indicated the Edinboro University mentor.

"My number one concern is to see that all the athletes in our program continue successfully toward and obtain their degrees," added Creehan.

Creehan was a captain of Edinboro University 1970 team that captured the Lambert Bowl, emblematic of the best college football team in the East, won the Pennsylvania Conference Championship and earned a berth in the NAIA national playoffs. He starred in the secondary as a strong safety that season when the Fighting Scots finished their regular campaign undefeated with a 9-0 record.

Prior to a three-year stint on the Edinboro staff as an assistant, Creehan served as recruiting coordinator at the University of Pittsburgh in 1974 under Coach Johnny Majors. The following year he was a member of the Carnegie-Mellon University football staff as the team's offensive coordinator.

The young mentor has likewise had an outstanding athletic career as a football player. After starring as both a halfback and strong safety at Bethel Park High School, the Castle Shannon, Pa. native accumulated numerous gridiron honors at Edinboro. At the conclusion of his senior campaign for the Fighting Scots, he was accorded first team All-East honors by the ECAC and first team All-State Associated Press accolades as the Scots' strong safety. In addition, he was named to the Pittsburgh Press All-District first team and to the NAIA District 18 All-Star squad. He was one of the three 1970 captains who accepted Edinboro's Lambert Bowl trophy at the Lambert Awards Banquet in New York City.

The son of Mr. and Mrs. Jerry Creehan of Bethel Park, the Fighting Scot coach resides in Edinboro with his wife, Linda, and their two sons, Kevin and Casey.

National Football Foundation's College Football Hall of Fame

Since the College Football Hall of Fame opened in August 1978, it has appealed to people of all ages with just about every interest imaginable ... people who like movies, sports, computer games, American history, modern museums, great athletes, colorful displays, nostalgia, memorabilia, stirring speeches, cheerleaders, marching bands, Saturday afternoons in the fall and college football.

When the Hall of Fame was dedicated in August 1978, "Red" Blaik was the keynote speaker. He spoke to the crowd on behalf of all Hall of Famers and said,

"This is the best happening in college football since the legalization of the forward pass." His comment exemplifies the excitement that awaits college football fans who visit the shrine and the experience that already has been enjoyed by thousands.

The College Football Hall of Fame is not only a place to see,

Galbreath Field

The National Collegiate Division III Football Championship (Amos Alonzo Stagg Bowl) moved to the College Football Hall of Fame's Galbreath Field in 1983. Augustana College (Illinois) came from behind for an exciting 21-17 victory over Union College (New York).

This year's championship again will be played at Galbreath Field on Saturday, December 8. The Amos Alonzo Stagg Bowl will mark the culmination of a three-week, 16-team national play-off among the nation's most outstanding small college football teams. Every aspect of the play-off is under the administration of the NCAA Division III Football Committee.

Galbreath Field is a 10,000-seat stadium located immediately adjacent to the College Football Hall of Fame at Kings Island, Ohio. The first intercollegiate game was played at Galbreath Field on September 12, 1981, between Ashland College and the University of Dayton.

learn and participate in the history of football, but a place to get to know the game as it is today. From its one-eighth mile long Time Tunnel, which traces the 2,000-year development of the game from ancient Greece to the present in more than 30 time capsules, to the Hall of Fame Room where each of the Hall of Famers are honored, to its futuristic use of computer terminals that allow the visitor to match wits with the great coaches or to call up the biographies of every Hall of Famer, the museum can and does bring the total college football experience to life. Its personalized approach and action-oriented attractions have intrigued all who have visited. As "Sleepy" Jim Crowley, one of the Notre Dame Four Horsemen, simply said, "This Hall of Fame is not in the telling or talking about, it's in the seeing."

CIMARRON '84 THIS ONE'S GOT THE TOUCH.

The Cadillac touch. It's Electronic Fuel Injection, matched by a tenacious Touring Suspension that comes to grips with the road. It's leather-faced front bucket seats with lumbar support behind a leather-trimmed steering wheel that lets you know you're in control. It's new grille and taillight styling. Laser-accurate quality fits. It's Cimarron '84...with something no other car in its class has.
The Cadillac touch.

BEST OF ALL...IT'S A CADILLAC.

Let's Get It Together...Buckle Up.

PONTIAC FIERO

BURSTS ON THE SCENE TO RAVE REVIEWS!

From the moment the hot new mid-engine Fiero hit America's streets, it became the driving sensation of the year. And the automotive critics agree.

The Fiero 2000 is a thrill look at a car to ride in or drive. —*WIRE AND WHEEL*, September 1983

Fiero features top-notch suspension, rack and pinion steering and power four wheel disc brakes. —*WIRE AND WHEEL*, September 1983

The Fiero has its own brand of fresh technology: a space frame machined to tolerances normally reserved for engines and transmissions. —*MOTOR TRENDS*, September 1983

With a top speed of 110 miles per hour, a 0-60 time of 10.5 seconds, and a 1/4 mile time of 16.5 seconds, Fiero is a real muscle car. And what about those bottom line?

With a base price of \$7,999* (Fiero Sport Coupe shown), Fiero is a real value. —*WIRE AND WHEEL*, September 1983

ROAD & TRACK, September 1983
Fiero prices start at just \$7,999*! Even at \$8,499* (Fiero Sport Coupe shown), Fiero takes its rightful place among the great cars of the world. The mid-engine Pontiac Fiero: practical, durable, economical* and flat-out exciting—only from Pontiac!

*Manufacturer's suggested retail price including dealer prep, taxes, license, destination charge and optional equipment (shown). Fiero Sport Coupe (shown) with MSRP per page. *MSRP excludes freight. Fiero Sport Coupe offers an EPA EST. MPG of 25, and a fuel economy estimate of 31. For estimated MSRP for comparison, fuel mileage may differ depending on speed, distance, weather, load, driving habits, etc.

PONTIAC WE BUILD EXCITEMENT

Introducing Firestone's S-211 Import Car Radial.

WE'VE PROVED IT AROUND THE WORLD. NOW WE'RE BRINGING IT HOME TO YOU.

Firestone's S-211 import car radial. With over 10 million sold around the world, it's proved itself in use in over 80 countries. And it's approved on the cars of 14 leading international manufacturers. From Alfa Romeo and Audi to Toyota and Honda to Volkswagen and Volvo.

Now it's come to America. In a full range of sizes to give you the performance you want for

your import or small domestic car.

Advanced design for world driving conditions. Straight sidewalls for cat-quick responsiveness and high speed handling. Elliptical footprint for outstanding dry and wet traction. Dual tread radius and laterally stable steel belt construction for long life.

The Firestone S-211. See it at your Firestone retailer. World proven performance, we're bringing it home to you.

THERE'S NEW FIRE AT FIRESTONE.

So you think college football is a rough, tough game? You're right, it certainly is, but how about all those athletes who played the great American game during the first 70 years — the "60-minute men."

Now that was really rough and tough football and it challenged an athlete's

THE 60-MINUTE MEN

stamina as much as his skills. The college football players of the "good ol' days" played both offense and defense and were in the game from the opening kickoff to the final gun.

Unlike the game today in which 11 fresh players trot onto the field whenever the ball goes from one team to the other, football in the old days was played with just 11 men.

For most of college football's 115 years, the "60-minute men" dominated the sport, and it wasn't until 1941, when the free-substitution rule was adopted, that there were full units of specialists for offense and defense.

It was a mark of courage, toughness and durability to play the entire game in the old days and the entire game actually was 90 minutes instead of 60 because the halves were 45 minutes, not 30.

Substitutions were rare (most often there were just 15 players on a team — 11 regulars and four substitutes) and a substitute could only enter the game when there was an injury.

On occasion, however, a tiring player would be asked by his coach or captain to feign an injury in order to get a fresh player in the lineup.

Force was the name of the game and the flying wedge was one of the most popular plays.

One wonders how long college football would have survived as a college sport had not President Theodore Roosevelt intervened in the early 1900s in the interests of safety and less brutal play.

The story is told that Roosevelt reacted in rage after seeing a photograph of an injured Swarthmore player who had been the object of some particularly rough play on the part of Pennsylvania.

The sight of Bob Maxwell staggering off the field caused Roosevelt to issue an ultimatum to the football fathers of the day:

"Clean up the game or it'll be banned by presidential edict."

by *Wayne DeNeff,*
The Ann Arbor News

Led by Walter Camp, often called "The Father of Football," the college football people reacted quickly to Roosevelt's demand.

Here are some of the changes instituted:

- Forward passing was legalized, making the game more a game of skill.
- Mass interference plays were eliminated.
- A neutral zone was established at the line of scrimmage.
- The yardage for a first down was increased from five yards to 10 yards.

So the game started to change from a pushing and shoving match to a game of skills in which a knack for throwing and catching the ball was as important as wrestling an opponent in a mass of bodies.

And legalization of the forward pass created the glamour boy of football — the quarterback.

Who were some of the great 60-minute football players?

Almost every outstanding football player from the birth of the game in 1869 to the free-substitution rule of 1941—Walter Camp, Pudge Heffelfinger, Knute Rockne, Red Grange, Jim Thorpe, Bronco Nagurski, Ernie Nevers, Alonzo Stagg, Frank Hinkey, Willie Heston, Chic Harley, and the list could go on and on.

The rules makers added three little words that made all the difference in the world:

A substitute could enter the game "at any time."

Previously, a player could not re-enter the game during the period in which he had left.

There are times in athletics when an innocent rule revision results in revolutionary changes of the sport itself. All it takes is some ingenuity on the part of the coaches.

And ingenuity, plus necessity, was

there on Oct. 13, 1945, when the era of "60-minute man" finally came to an end.

On that date, Michigan was scheduled to play one of the greatest Army teams of all time, led by Mr. Inside and Mr. Outside, Glenn Davis and Doc Blanchard.

It was during World War II. Some of the Army players were 22 and 23 years

old, while Michigan Coach Fritz Crisler was fielding a team of 17- and 18-year-old freshmen. Most of the older players had been drafted into military service.

The week of the game, New York sportswriters were calling Crisler's team "The Fuzz Kids" and the Cadets were solid five-touchdown favorites.

Crisler figured there was no way he was going to defeat Army with his best 11 against Army's best 11, but his idea, developed during a week of practice, was to have one Michigan unit for offense and one unit for defense.

It marked the beginning of two-platoon football.

Instead of 11 against 11, it would be something like 22 Wolverines against 11 Cadets.

"When you have a dime and the other guy has \$1,000," said Crisler, "it's time to gamble."

The 70,000 spectators in Yankee Stadium on that mid-October day looked on in amazement as a whole new group of Wolverines entered the game when Michigan took over the ball, and another new group entered when the Wolverines went on defense.

Army scored the first two touchdowns to take a 14-0 lead but the college football world was shocked when Michigan became the first team to score on Army that season and the lead was trimmed to 14-7.

The harried Cadets finally scored twice in the fourth quarter for a 28-7 victory, but Michigan's amazing Wolverines were the talk of college football that fall.

Crisler's phone was ringing off the hook the rest of that season as coaches and sportswriters sought more information on the revolutionary way of playing the game.

"Our only hope was to keep fresh players in the game and play our best tacklers on one unit and our best runners and blockers on the other unit," said Crisler.

On that day the "60-minute man" had passed into oblivion.

How to move with modern times and take your PC with you.

Meet the IBM *Portable Personal Computer*.

It's a complete PC. In a case. With a handle.
And a welcome addition to the family.

The IBM *Portable Personal Computer* is the first IBM PC system you can pick up and take with you. Across town or across the hall. Or put away easily for another day.

It's a powerful system, with 256 KB of user memory (expandable to 512 KB) and a slimline double-sided 5¼" diskette drive (and room for another). Plus a built-in

9" monitor with easy-to-read amber characters. Text and graphics capability. And an 83-key keyboard.

All fitted into a sturdy, transportable case that's easy to handle. And park.

The IBM® of portable personal computers. Make no mistake about it, this is a true IBM PC.

Which means it is part of the same dependable family as the IBM Personal Computer, the IBM PC/XT and the IBM PCjr. And that means you can use many IBM Personal Computer Software

programs to help you reach your goals.

All this and five expansion slots, ready to accept expanded memory, printers and other useful IBM Personal Computer options. Which should keep you rolling far into the future.

Pick one up at a store near you. You can see the IBM *Portable Personal Computer* at any authorized dealer or IBM Product Center.

To find the store nearest you, call 1-800-447-4700. In Alaska or Hawaii, call 1-800-447-0890.

IBM®

Michigan went to the first Rose Bowl in 1902, vs. Stanford.

FAMOUS FIRSTS IN FOOTBALL

- The first time a football with a rubber covering was used in a major college game was on October 13, 1951, at Grant Field in Atlanta, Georgia. Georgia Tech beat Louisiana State 25-7 in that game.
- The first football book was *American Football*, written by Walter "Father of American Football" Camp in 1891. It contained 175 pages with 31 portraits.
- The first football club was the Oneida Football Club, organized in 1862 at Epes Sargent Dixwell's School in Boston, Massachusetts. Members played all challengers from 1862-65. The club was never defeated and its goal line was never crossed.
- The first intercollegiate football association was the Intercollegiate Football Association organized in Springfield, Massachusetts, with Columbia, Harvard and Princeton as its charter members (Rutgers and Yale joined later). The Association standardized the number of men on the field—15—and the area of the field—140 by 70 yards.
- The first football dummy used for tackling practice was designed by Coach Amos Alonzo Stagg at Yale in the fall of 1889. He used an old gymnasium mat.
- The first all-star football game was organized by Chicago Tribune Charities, Inc., a non-profit organization, and was played on August 31, 1934 at Soldier Field, Chicago. The Chicago Bears, coached by George Halas, played the College All-Stars, coached by Noble Kizer of Purdue. The score was 0-0.
- The first Army-Navy game was played on November 29, 1890 at West Point, New York. Navy beat Army, 24-0.
- The first football game to be played at night occurred on September 29, 1892 at the Mansfield Fair, Pennsylvania. The opponents, Mansfield Teachers College and Wyoming Seminary, played under 20 electric lights of 2,000 candlepower. Neither team scored in the game, which lasted 70 minutes and consisted of only one half.
- The first college football game played in the United States and broadcast by radio in England involved Yale and Harvard. Harvard won, 13-0.
- The first game to attract 100,000 fans was played at Memorial Stadium at the University of California, Berkeley on Novem-

ber 22, 1924. Both the Bears and Stanford were undefeated coming into the game, which ended in a 20-20 score. The stadium held 76,000, while 24,000 more fans watched from "Tight Wad" hill near the stadium.

— The first indoor college game pitted Springfield Massachusetts Young Men's Christian Association against the Yale Consolidated Team, which included five Yale varsity players. It was played at the end of the 1891 season as part of a three-day winter carnival at Madison Square Garden, New York. The score was 16-10 in Yale's favor.

— The first intercollegiate football championship was won in the fall of 1876 by Yale, which played and beat Columbia, Harvard and Princeton.

— The first international college football game was played on December 6, 1873 at New Haven, Connecticut. Yale beat Eton, England two goals to one.

— The first goal post was used in a game between McGill University of Canada and Harvard, at Cambridge, Massachusetts, on May 14, 1874. Also at that game, admission was charged for the first time at a college sports event. (The proceeds were used to entertain the McGill team.)

— The first player to score 50 points in one game was Clark Hinkle of Bucknell University, Pennsylvania on November 28, 1929 vs. Dickinson College, Pennsylvania. Hinkle made eight touchdowns and two extra points. Bucknell won, 78-0.

— The first team to score more than 750 points in a season was Harvard, in 1886. The team made 765 points in 14 games; it won 12, lost two.

— The first midwestern team to play on the Pacific Coast was the University of Chicago, on December 25, 1884 vs. Stanford. The score was 24-4, Chicago.

— The first Rose Bowl game was played in 1902, matching up Michigan and Stanford.

— The first time two teams wore uniforms was on November 13, 1875 at a New Haven, Connecticut game between Yale and Harvard.

— The first time uniform numbers were worn was on December 5, 1880. The teams were the University of Pittsburgh and Washington & Jefferson University.

GET A PART-TIME JOB IN OUR BODY SHOP.

It feels great to work your body into top condition. To push it to the limit. And then exceed it.

But it takes training. To get fit. And to stay fit. And the Army National Guard will give you that training. And we'll give you the incentives to keep working at it. Incentives like a good paycheck, new skills, college tuition assistance, and many other valuable benefits.

In the Guard, you'll train to keep your body in condition while you practice your military skills. You'll be doing something good for yourself, your community and your country. Start shaping your future today by giving us one weekend a month and two weeks a year. **Call your local Army Guard recruiter or call toll-free 800-638-7600.***

You Can Call Me SID

by John Mooney,
 Salt Lake Tribune

To paraphrase that comic monologue ("You can call me Ray and you can call me Bill"), the routine of the Sports Information Director might begin, "You can call me SID, and you can call me Anytime!"

What does the SID do?

Rick Brewer of the University of North Carolina answers, "Of course, the thing the SID does more than anything else is get interrupted. That may be the SID's main function—handle interruptions."

continued

You Can Call Me SID

continued

And Will Perry, a former SID who is now assistant athletic director at Michigan, answers, "Anything the athletic director wants him to do. Don Canham had more ideas than I had arms and legs. We launched vast marketing, direct mail and advertising programs out of the SID office in 1968 (before there were promotion and marketing directors in athletic departments). Canham once told CoSIDA (College Sports Information Directors of America) years ago, 'make yourself valuable to the department or they are going to hire someone to do the job that you can do.' That's exactly what happened."

In answer to the question, Hal Bateman, the SID at the U.S. Air Force Academy, sent a job summation written by an anonymous SID:

The Sports Information Director

"He's a phenom; a mental and physical marvel. He must be able to eat like Hoss Cartwright, drink like Dean Martin, write like Grantland Rice and have Bill Toomey's stamina. El SID must be as suave as Cary Grant, as unshakable as John Wayne and as cool-headed as James Bond . . .

"The Sports Publicity Man finishes his duties at midnight and no one sees him stumbling down the steps in the dark, a typewriter under one arm, ditto machine under the other, brief case in his teeth and throbbing pain in his head . . . So if it looks like a job for Superman, it is."

However, Mark D. Colone of the University of North Carolina-Charlotte offers another viewpoint: "When I first walked into Marty Rasnake's office as a freshman I didn't know what a SID was. That's how unnoticed our profession is. I accepted a very small scholarship and began my life in this rewarding profession. My first job entailed the simple job of shagging errant soccer balls as they went out of bounds. And I went expecting to be the official scorer! I got that job after the game and my career took off! I'm now the youngest SID in Division I in the country."

One of the veterans, Bill Whitmore of Rice, a CoSIDA past president who retired this summer, offered this philosophy: "At least they let us in the game free and give us a good seat and a meal."

What does the SID do?

Maxey Parrish of Baylor answers: "The question might be better posed, 'What does the SID NOT do?' Sometimes when I look at what I do and what it takes to do my job well, it's almost scary.

"Between press releases, statistics,

brochures, media guides, recruiting material, posters, newsletters, hosting events, travel to other events and generally being the athletic department's representative to the public and the media, the different duties pile up. But the bottom line, in addition to doing all the things normally associated with a SID, is to be accessible and helpful. A SID can have lots of faults but lack of accessibility CANNOT be one of them."

"The increase in electronic media coverage has made my job more difficult now after 17 years in the business," Bateman of the Air Force submits. "This really has spread the SID very thin since the print and electronic boys constantly are vying for the SID's attention, which puts you in a difficult situation."

George Wine, SID at the University of Iowa, raises a point on a tough facet of the job: "At some schools the SID is to service the coaches, not the media. Fortunately, I have always been able to convince my bosses that I am an information person first and a publicist second. The campus phone book one year listed me as 'Sports Informant' which sounds a little like Watergate's 'Deep Throat.' But that's the toughest part of the SID job."

Johnny (Ranger) Keith, formerly of Oklahoma U. and now at New Mexico, agrees, adding, "Coaches think you are solely a promoter of their athletes. Maybe so, in a small way. But the title Sports Information Director means to me you're a news service more than a promotional tool.

"Probably the most important phase of the job," Keith adds, "is serving as a liaison between coaches, athletes, staff and the media, solving their differences, explaining to one party why the other does this or that, and getting the parties together when necessary.

"A sports information director who goes home at 5 p.m. isn't doing his job. If I came home at 5 p.m. my wife would shoot me for breaking and entering," Keith added.

David Housel of Auburn agrees, contributing, "Too many SID's are afraid of losing their jobs. The good SID must act as the middleman and he continually walks a tight rope between the media and the coach, defending the coach when necessary. He must not be afraid to tell a coach he is wrong. He — the SID — is a paid professional and he is just as important in his area of expertise as coaches are in their areas."

Not all SID's have this problem. Mike Treps of Oklahoma is a lucky one. "We are fortunate in that our coaches do not believe in closed practices or locker

rooms, so there is little trouble getting anyone you need. The fact you can promise a writer or broadcaster he or she can have access to the coach or athlete of their choice without having to contact the coach or athlete is a big help in my job."

Interviews, especially with a great star, can pose problems, as Claude Felton of Georgia reminds in the case of Herschel Walker.

"In Herschel's freshman year, we were receiving 12-15 interview requests a day, from all over the country, and 95 percent of them were for in-person interviews. Time was a premium, but one writer from San Francisco flew to Atlanta, drove 65 miles to Athens, talked to Herschel for 20 minutes and flew back home," Felton marveled.

It's the unusual which makes the SID job interesting, or heartbreaking.

Jim Garner, now athletic director at Appalachian State but formerly SID at Texas Christian, admits, "My most memorable moments deal with tragedy. In 1971, our head football coach, Jim Pittman, died on the sidelines of a heart attack during a game at Waco; in the spring of 1972, his replacement, Billy Tohill, had a terrible auto accident and had a foot amputated, and in 1974 halfback Kent Waldrep suffered a paralyzing injury in a game against Alabama. In each case, handling the media called for special tact."

Mike Wilson of Washington remembers a not-so-tragic incident involving Bob Murphy of Stanford.

"While there are many stories of coaches leaving the SID's at the airport, Murphy did one better," Mike contributes. "In the days before hijackings, it was not uncommon for the SID to drive his car loaded with media people right on the runway, unload and have the airline people turn the car in to the rental agency at the airport. That's exactly what Murphy did, and it wasn't until the plane was 10,000 feet off the ground he realized he still had the rental car keys in his pocket. He never heard how they got that car off the runway."

But maybe the biggest crisis was faced by Marv Homan of Ohio State, who reminds: "I was an assistant in the mid-'50s and the Big Ten Skywriters were making their visit to Columbus. As I was greeting the writers as they left the bus for our practice, some of the early departures were coming back. Coach Woody Hayes had barred the gates for the press. Eventually, Woody left practice and talked to the writers, but the reception was short of cordial."

THE WORLD'S FINEST BOURBON

JIM BEAM

TODAY BELONGS TO JIM BEAM.

KENTUCKY STRAIGHT BOURBON WHISKEY. 80 PROOF. DISTILLED AND BOTTLED BY JAMES B. BEAM DISTILLING CO., CLERMONT, BEAM, KY.

You Can Call ME SID

continued

Nick Vista of Michigan State still shudders over one of his embarrassing moments.

"It was Michigan State-Ohio State on national TV in 1972 when I was assistant to Fred Stabley," Nick shuddered. "For the first time in my career, I didn't check the uniform numbers. We launch a drive and I'm on the lower photo deck when it appears our drive is stalled and we'll kick a field goal. I spot a No. 5 warming up and I suddenly realize we don't have a No. 5 on the roster. Much to my horror, I realize it's a soccer player of Dutch descent brought up by Duffy late in the week from the junior varsity. His name is Dirk Kryt. I knew I had the J.V. roster in my brief case, but by the time I got there Dirk had booted a 23-yard field goal, the first of four he was to kick that afternoon.

"We finally got the word to everyone who the kicker was, but we didn't have the name spelled right nor did we pronounce it correctly. Keith Jackson never lets me forget that error."

Publicity men get blamed for many things, but Haywood Harris of Tennessee takes the prize.

"It was my duty to see the bus was at the airport when the team arrived on Friday afternoon," he admits. "But when the team was aboard, the bus wouldn't start. The driver gave the coach the bad news the fan belt was broken.

"The coach yelled, 'Hey, Haywood, didn't you check the fan belt?' and the only retort I could make was a weak, 'Well, coach, it was working last time I looked.'"

Jack Zane of Maryland won't forget the night the lights went out in Virginia, either.

"When I was at George Washington, we played a few games in Alexandria and Arlington, Va.," he prompted. "We were playing The Citadel and had the papers all on Saturday night deadlines. The moment the 12,000 fans left the stadium, all the lights were turned off. The stadium manager informed me we had rented the stadium for the game and the game was over. It took a little cash to get the lights on for the press box.

"The Oyster Bowl stadium in Norfolk had the Telex machines on the ground floor and the press stories were sent down by pneumatic tubes. I went to the Western Union with some special instructions, only to find no copy had come down the tubes, the containers being stuck between floors. Everyone had to start writing all over."

Ralph Carpenter, of Texas A & M, but then of Texas Tech, remembers a smashing experience, "The athletic di-

Among the myriad duties of a sports information director, having the press box ready for the press corps is just one.

rector and I were planning to take a plane from Lubbock to Dallas and as usual, we were late starting. In haste to get his bags in the car, I left my suitcase right behind the rear wheel and when we backed out... Well, you should see me walking through the lobby with my Fruit of the Loom undies hanging out of the battered bag."

Will Perry recalled the time the county health inspector closed all the concessions in the Michigan stadium, including the stand which sent the box lunches for the writers in the press box. He also mentions the case of the missing pencil sharpener in the press box.

"Everything was in order, until Joe Falls from the Free Press complained about the lack of a pencil sharpener, and sure enough, someone had stolen it, just as someone had from my predecessor, Les Etter, years before," Will recalled.

There are many stories of the SID facing a frozen mimeograph machine, but legend says it was Wilbur Snypp of Ohio State who solved the problem by pouring a fifth of vodka into the frozen ink well and everything came out fine.

Butch Henry of Arizona and formerly at Arkansas points out the hardships of a family-man SID.

"Our first child was born on a Saturday in October. My wife came out of the delivery room, we named the child and I caught the plane for Dayton and

walked into the press box as they were playing the National Anthem. Our second child was born on the last day of the Arkansas Relays.

"My wife called the press box to say she was ready to go to the hospital. Soon as the prelims of the mile relay were over I rushed home, took her to the hospital and told her, 'Hang on until the mile relay finals are over.'"

"Sure enough, I saw the winning team break the tape and still made it to the delivery room on time. Maybe this is why we have only two children," Butch laughed.

Maybe the best answer to "What does the SID do?" was supplied by Rich Brewer: "I got a phone call from a guy in Norfolk who told me he was interested in replacing me at Carolina and wanted to know who he should contact about it. He was quite serious and said he was tired of his job and liked Chapel Hill.

"Then he asked the key question: 'What exactly do you do?' I couldn't answer him then and I can't now."

Vista, also a former CoSIDA president, sums it up: "Write what you want, but please remember that we couldn't be in a more exciting or rewarding business. Working with the thousands of fine student-athletes over the years and meeting the hundreds of media folks has been something. We may not get our glory, or our pay, or even our just return, but kicks we do get to boot." ☐

Easy come, easy go.

With FALS One-Stop System it's never been easier to lease a new Ford.

If you're interested in leasing a new car or truck look at FALS, Ford Authorized Leasing System. Just one stop at your local FALS dealer can put you in the driver's seat of a new Ford car or truck because your vehicle, taxes, insurance, even road service can be handled at one convenient location.

The service.

FALS also offers the

optional and convenient protection of Ford's Extended Service Plan which can be included in your monthly lease payments. This program insures you against future high repair bills. And, if your car should need service, your FALS dealer's Ford-trained professionals have the experience and quality replacement parts to get the job done right. And since our service network

is nationwide, you can count on excellent service no matter where you are.

The vehicles.

When you lease through FALS, you're not limited to a few special models or certain option packages. You can choose any one of many high quality Ford cars or trucks. From the versatile Ford Escort to the sophisticated Thunderbird to the hard working F-series pickups, your FALS dealer has a vehicle to fit your needs.

The quality.

When we say "Quality is Job 1" it's more than just

a slogan, it's a commitment. A commitment to integrity and quality in both the design and manufacture of every new Ford car and truck. So check the yellow pages for your nearest Ford Authorized Leasing System dealer. In just one stop, he'll show you just how easy the going can be.

Have you driven a Ford... lately?

THE ROLE OF THE CONFERENCE COMMISSIONER

by Ron Maly,
Des Moines Register

If the assignment was to write a classified ad for the job of commissioner of an athletic conference, the listing might go something like this:

WANTED: Intelligent, mature person for commissioner. Must be skilled in public relations, dealing with people, rules interpretation and eligibility. Should have a thorough knowledge of the television industry. Law back-

ground helpful. Those who are fans of a particular team need not apply. Should be prepared to work long hours, seven-day week possible. Be on call at all hours. Salary open.

Yes, it takes a talented, well-rounded, thick-skinned person to be a conference commissioner these days. Gone is the time when someone who had been a coach or athletic director was simply

Missouri Valley Conference

Big Ten I feel I'm working in a fishbowl. We're sitting in a very large geographical base, which means we have a large number of followers, as well as some critics.

"Even though I'm a sensitive person, I can accept the criticism of people if they know what we as a conference are doing is for the good of all 10 teams."

Duke feels commissioners are often given too much credit when something good happens and too much blame when something not so good happens.

"We have a lot of influence at such things as NCAA meetings, but have different roles," Duke commented. "I hope people respect me for what I say. But I feel I don't carry any more weight than the commissioner of any other conference."

Duke is in charge of a conference office that employs 18 persons. The Big Ten, with its lucrative Rose bowl contract and its ability to put an unusual number of teams in other bowl games and national basketball tournaments, is viewed with envy around the country.

Although Duke won't say so, much of the reason the Big Ten has fared so well in those areas is because of him and his years of experience in working with influential persons at the national level.

By the same token, there also may be a "backlash" effect in other leagues because of the success the Big Ten has

"kicked upstairs" and could be a good ol' boy commissioner who showed up every Saturday in the fall at a different football stadium and at the conference meeting in the spring.

"I was the youngest commissioner in the nation when I started in the Big Eight Conference at age 34," says Wayne Duke of the Big Ten. "I thought I knew all the answers, but found out I didn't know half the questions."

Managing and maintaining peace in a conference is often rewarding, often frustrating in the ever-changing world of collegiate athletics. Indeed, because so many decisions are made in the courtroom these days, a law degree might be helpful. And with television's megabucks being such an integral part of the sports scene, a commissioner had better know about such things as ratings, markets and contracts, and be on a first-name basis with network executives.

"The role of commissioner has expanded considerably in recent years," says Dick Martin of the Missouri Valley Conference. "A commissioner must be involved with TV, promotion and marketing much more now. Frankly, much of my time is spent on TV."

"Then there are such things as eligibility and enforcement, which are very important. There are more issues today, such as financial pressures on institutions."

Martin served in various athletic capacities to prepare himself to be a commissioner. He was a high school and college football coach, a college athletic director and was a Big Eight administrator.

Duke didn't coach and wasn't an athletic director, but came from a public relations background to work for the National Collegiate Athletic Association

CONFERENCE COMMISSIONER

continued

had.

"I know my job is much more complex than it was years ago," said Duke. "In the old days, a football man might be moved upstairs to the conference office to assign officials for games, and that was about all there was to his job."

Fred Jacoby was commissioner of the Mid-American Conference from 1971-82, and has been in charge of the Southwest Conference ever since.

"My feeling is that a conference office has two functions—service and regulation," says Jacoby, who adds that his job is "on my mind seven days a week."

Jacoby wishes he had more time to digest all the things there are to read in regard to his job. He spends a considerable amount of time talking on the telephone about rules and the interpretation of them. Every night he takes home a briefcase filled with materials he hasn't had time to deal with in his office.

"We have nine men's sports and eight women's sports in the Southwest Conference," Jacoby said, "and financing is a very big item. We make money from football, TV, the conference post-season basketball tournament and a little from baseball in men's sports, but the women have no sports in which receipts exceed expenses."

Because Jacoby spent many years as a coach, he admits having a "sensitivity to coaches and the recruiting process. It would help to have a law background so you could understand the legal process," he said. "The job is more difficult than it was in the 1970s because of so many legal matters."

"But I think those of us who have a background in coaching have an advantage in being a commissioner. I can relate to the coach's position."

Jacoby said the most dramatic change in the commissioner's job has been the growth of women's programs. He feels there are more rewards than frustrations on the job "because there's so much variety."

Variety is something Tom Hansen of the Pac-10 is used to. Hansen, who has been executive director of the Pac-10 since August of 1983, spent 15 years on the staff of the National Collegiate Athletic Association (NCAA) where he was involved in all facets of the administration of intercollegiate athletics. As

Fred Jacoby
Commissioner —
Southwest Conference

head of the NCAA Communication Department he directed, among other things, all the Association's activities in public relations and marketing.

Hansen's appointment at the Pac-10 is a kind of "coming home," since he spent six years in the 1960s as director of public relations for the Athletic Association of Western Universities — the forerunner of the Pacific-10 Conference.

"I have found that being executive director or commissioner of a major conference is one of the most challenging and invigorating positions in the world of athletic administration," said Hansen. "The primary charge is to provide service and leadership to the member institutions of the conference. But there are many publics to be served. While we are primarily concerned with the administration of athletic programs, it must be remembered that these programs fall within the larger context of higher education, in the case of the Pac-10 some of the country's foremost institutions of higher learning. You also are operating in the very real world of business, and in this day and age, a solid grasp of both fiscal and legal matters are a necessity. All of this is

done under the glare of considerable attention. In short, you wear many hats."

Steve Hatchell, commissioner of the Metropolitan Intercollegiate Athletic Conference, commonly called the Metro, would like to be a fan, but knows he can't.

"You go to a game and cheer for the guys wearing the black and white shirts—the officials," said Hatchell. "You hope they make all the right calls."

The Metro is primarily a basketball conference, but all the schools play football on an independent basis. In a way, it surprised Hatchell that he was picked for the job last year.

"At my age (36), I didn't think there would be much opportunity to be a commissioner," said Hatchell, who was in the Big Eight office at the time. "But the Metro expressed an interest in me, and I pursued the job."

Patty Viverito took office as the first commissioner of the women's Gateway Collegiate Athletic Conference two years ago, and calls it a "fun job — the most rewarding I've ever had."

Viverito studied marketing in college, worked as a sales representative, went back to college to study sports management and calls herself a "frustrated jock."

"You serve as a mediator," she says. "We have 10 schools and nine sports. At national meetings, women are starting to be noticed. When those running the meetings see five or six skirts in the room, they say, 'Well, now, how will this ruling concern women?' It used to be that women weren't really heard from."

The biggest change for Lou McCullough, commissioner of the Trans-America Conference — primarily a basketball league — is that now he is responsible for 10 teams instead of one. Before going to the Trans-America, he was the athletic director at Iowa State.

"We're a small conference," said McCullough, "and money is our big problem."

Ken Free is commissioner of the Mid-eastern Athletic Conference. He thinks commissioners must be marketing experts more than in the past. "You have to be a super-salesman," Free said, "in order to bring in the needed revenue."

Free said much of his job entails "making sure our schools play by the rules and continue in the pursuit of excellence."

"HOW BIC DOES IT FOR 20¢ BEATS ME."

John McEnroe doesn't hand out compliments easily. But the extraordinary ability of a 20¢ BIC to shave this smooth, close and comfortably left him momentarily speechless. And that's not easy to do.

THE MAXWELL AWARD

Founded 1937

Founded in 1937, the primary goal of the Maxwell Football Club has never changed. That goal is to foster and promote the game of football in the name of Robert "Tiny" Maxwell, a man whose many qualities as an All-America football player (University of Chicago, 1902; Swarthmore, 1904-05), a respected and dedicated football official, and as a noted sports editor and humorist endeared him to football fans throughout the country.

The Maxwell Club organizes numerous activities annually to enhance the sport of football. These activities include sponsorship of an athletic injury clinic for area coaches and trainers, as well as financial support for sports medicine clinics at the University of Pennsylvania and Temple

University.

Perhaps the Maxwell Club's most important function is the financing, through membership fees and donations, of an awards program which is conducted during the football season. Weekly luncheons honor outstanding high school and college athletes and provide a public forum for local fans and speakers of national note.

The Maxwell Club has also given financial support to the Philadelphia City All-Star Football Game, the Philadelphia Eagles "Fly for Leukemia" campaign and to national studies on protective equipment; specifically, studies concerning improvement of football shoes and helmets.

Each year the Maxwell Club presents the Maxwell Trophy to the nation's out-

standing college player. The selection process begins with a nominating ballot which is sent to members, media representatives and former Maxwell Award winners. Each person nominates three players and the ballots are forwarded to the Maxwell Club executive committee. Using the ballots along with players' season statistics and accomplishments, the committee narrows the field to three to five names. Then the Club board of governors makes the final selection.

The Club also sponsors the Bert Bell Award honoring the outstanding professional football player of the year. ●

QANTEL® HAS PEOPLE TALKING...

Coyne Edmison, V.P. Gen. Mgr.
Skirvin Plaza Hotel
Oklahoma City, OK.

Alex Livadas, President
Athletic Express
Riverside, California

about our Hotel Management System

"I discovered the QANTEL Hotel & Leisure system while attending a trade show last year. I was very impressed. It was evident that HAL™ was written by hotel people for hotel people.

HAL clearly offered the operational control that's essential for a profitable hospitality business, as well as the flexibility to adapt to situations we might encounter years in the future. We bought the system and were operational in March with Front Office and Back Office modules, which include Reservations and Accounting. Thanks to HAL, we've never been more on top of things."

For Hoteliers, Retailers, Manufacturers, Sports and Transit Management, MDS Qantel offers industry-specific solutions that work.

about our Retail Management System

"I used to spend a lot of my time commuting from store to store. Now I can efficiently operate most of my business from the QANTEL computer that sits on my desk.

With the QANTEL FRAME™ software, I can follow each of our six stores, category by category, with Monthly Profit Profiles. I can also condense my stock of over 2,000 plus items into 50 key items, and determine, with a Hot and Cold Report, which ones to keep or drop. I can even get print-outs of sizes in a format that conforms to the footwear industry. FRAME has given me the vision to see future possibilities."

THE 1964 ALL-AMERICAS:

Where are They Now?

Gale Sayers of Kansas has been referred to as the most feared breakaway runner of all time.

by Gene Collier, Pittsburgh Post-Gazette

Coming from Dick Butkus, the fearsome and fearless Hall of Fame linebacker, the following admission of fear was filled with irony. Here was a middle linebacker whose brutality glorified his position and whose menace made offenses fidget. He'd met every foe with the glare of a grizzly and the disquieting sight of thick forearms forever caked with the obligatory mud and blood. Yet in a recent conversation, Dick Butkus uttered a sentence that had genuine fear in it.

"They put us up against Dallas," he sighed. "It was a very tough situation." The "Dallas" Dick Butkus spoke of with such apprehension is your Friday prime-time Dallas — J.R. and Sue Ellen and Cliff Barnes and all that oily money and all those Nielsen points. It was more than enough to bring about the cancellation of a show called "Blue Thunder," which starred a certain former University of Illinois and Chicago Bear linebacker — Dick Butkus himself. "Our ratings started to come up a

little at the end," Butkus said. "But it was too late." Twenty years ago it was a lot simpler. Twenty years ago, if Dick Butkus had had a problem with Larry Hagman and those other hobnobbers, he'd just have decked them. Twenty years ago, Dick Butkus was a part of the collective omnipotence of a remarkable assemblage of talent known as the 1964 All-

continued

THE 1964-ALL AMERICAS

continued

Americas.

Gale Sayers and Fred Biletnikoff and Jack Snow and Tucker Frederickson and Ralph Neely were among them as well, and while each of those players impacted the professional game and are success stories in other disciplines today, none has remained so visible as Butkus.

We watched him on television on Sunday afternoons until 1973, then we watched him accompany Bubba Smith in fruitless pursuit of culture in beer commercials. We even watched bemusedly as he toyed with a singing career. And if Dick Butkus is right, we will

Baylor's Lawrence Elkins left the football field for the oil fields.

watch him on some prime-time television venture again this fall. All that is certain is that he will not be playing Don Knotts' character on something called Mayberry RF3D.

Twenty years ago, Butkus never dreamed television dreams. In 1964, all that mattered to him was winning. Being an All-America didn't give him the rush it had the previous autumn.

"It wasn't that big a deal," he remembers. "I was an All-America my junior year (1963) and we went to the Rose Bowl. In 1964, we were picked to win the Big Ten, but at that time, you couldn't repeat as the conference representative to the Rose Bowl.

"We got off to a bad start our senior year. It was a pretty disappointing season for us."

Far more disappointing perhaps than last season and the end of "Blue

Thunder."

"Blue Thunder" was a good opportunity," he said. "I took it because it was good experience and to show that I was serious about television and about acting. I decided that maybe two years ago. I wasn't thinking about making it a career until then.

"But I began to realize that I really liked the little bit of acting I had done and I just decided to move everybody out here to California. So far it's worked out. I'm considering various offers for the next television season and there might be a movie deal coming up too."

And the beer commercials.

"Oh, yeah. I just shot another one."

And now back to Dallas.

Dallas is the real life address of Ralph Neely, who runs Ralph Neely and Associates, a real estate development corporation. Neely, a Cowboy for his entire career, played the game so well he joined Butkus and Sayers on the Pro Football Hall of Fame selection committee's all-pro team of the 1960s.

Unlike Butkus, being an All-America at Oklahoma in 1964 made a great deal of difference in Neely's future.

"It was one of the real big deals that happened to me sports-wise," Neely remembers. "I hadn't thought about playing football professionally until I got to college. I went there to get an education. I always thought that if football came along, it came along.

"Well, it came along and I played 13 years professionally, but I didn't know if I could make it at one point."

Rick Redman was a force at Washington in 1964.

All-America wide receiver Jack Snow was a standout at Notre Dame.

Helping to assuage Neely's fears was his 1964 All-America selection at offensive tackle. You see, he knew he could play defense, because he'd been selected All-America at defensive tackle in 1963.

"In 1963 I played both ways, actually," Neely said. "I averaged 50 minutes a game or something like that. In 1964, they put in the free substitution rule and the coaches told me they were going to move me to offense and keep me there."

The 1964 season was not a particularly good one at Oklahoma, which put it in common with any season in which the Sooners do not win the Big Eight Championship, but the disappointment felt in Norman, Okla. didn't sting like that felt at Auburn.

"We were picked to be No. 1 in the country," said Tucker Frederickson, now a New York investment broker. "Sports Illustrated had us on the cover."

But early season injuries shredded the Tigers' dreams and the only real bright spot of a long season was Freder-

THE 1964-ALL AMERICAS

continued

John Huarte won the Helsen Trophy in 1964 while quarterbacking the Fighting Irish.

Tucker Frederickson of Auburn was the first player taken in the pro draft following the 1964 college season.

ickson's selection as an All-America. "I guess if you really want to put it in perspective, that was a big deal," said Frederickson. "I wasn't expecting anything like that, but I wound up being the first player taken in the draft by the Giants."

The Giants selected a running back who would have a fine rookie season. But Frederickson had knee surgery in each of the next two seasons and had a very painful time hanging on until 1971, when his career ended.

"I guess being an All-America had a lot to do with me coming to New York and getting into New York business and into New York life," Frederickson said. "Those things are very important to me now."

In 1963, football was very important to Notre Dame. It just didn't look that way. And that's why what happened at South Bend 20 years ago this fall seems so incredible.

Ara Parseghian was Notre Dame's new coach charged with shaking down some of the old thunder.

Hugh Devore, in one miserable year at the helm, had gone 2-7. Joe Kuharich,

in the four years previous, did not produce a single winning team. In the three years prior to the arrival of Parseghian, Notre Dame never had to worry about the strength of its bench, specifically because the condition of its starters was plenty enough to produce widespread handwringing.

Yet from that same virtually useless bench, Parseghian would excavate two players who would not only become All-America, but who would spark Notre Dame to a national championship in the process.

They were wide receiver Jack Snow and quarterback John Huarte.

"Being an All-America in that season is something I'll always remember because of what transpired in that year," said Snow, who does color commentary for CBS college telecasts and works for IDB, a building and developing company in Seal Beach, Calif. "I hadn't done much until that year. To accomplish as much as we did accomplish that season was really something. And it was something to come off the bench and finish fifth in the Heisman voting."

Notre Dame went from a team with

100 ways to beat itself to one with 100 ways to beat everybody else and didn't bother to spare many of them on nine straight opponents in 1964.

The Irish opened with a 31-7 rout of Wisconsin on the road, won the home opener against Purdue, 34-15, went on the road to whip Air Force 34-7, blitzed UCLA 24-0 and Stanford 28-6 at Notre Dame, mauled Navy 40-0 at Philadelphia, nudged Pitt at Pitt 17-15, then ripped Michigan State 34-7 and Iowa 28-0 at home.

It wasn't until their final game at USC that the Irish stumbled.

"Typical USC stuff," Snow said. "We were No. 1 and unbeaten. We led at the half 17-0 and lost 20-17."

Nonetheless, Notre Dame was given the MacArthur Bowl as the nation's top team at season's end.

"It was just remarkable because we were under a new coach with a lot of new players who had never played together before," Snow said. "It really was a tribute to coaching and what coaching can do."

"What some of us did was remarkable,

continued

THE 1964-ALL AMERICAS

continued

but more remarkable than anyone was John Huarte."

John Huarte, now in Tempe, Ariz., explained where he is and what he does 20 years after. He is president of Arizona Tile, which imports tiles from Italy, Brazil and Germany.

"We have six regional offices," Huarte said, "from San Diego to Anaheim to Denver."

Huarte can speak much more confidently about the tile business than he could about Notre Dame football, par-

had never won a letter. I hadn't even played enough to win a letter, but I thought I was a pretty good athlete.

"I was just kind of thrust into this situation. I knew I was the best passer on the team, but I didn't even know if we were going to use much of a passing offense."

Parseghian put in plenty of passing but he put in enough of something intangible and even foreign to Notre Dame at that point in its history to make the largest portion of the improvement

finishing a collegiate career in which he gained 6.5 yards per carry. Today, he works for a public relations firm in Chicago, where he played pro ball for only seven seasons because of almost crippling knee injuries. Yet those seven seasons were a self-sculpted monument to his talent.

In 1969, the Hall of Fame selection committee picked Sayers to the all-time all-pro team, which was chosen in commemoration of the 50th anniversary of the NFL.

Dick Butkus was an All-America his junior and senior years at Illinois and was the star of the 1963 Rose Bowl.

ticularly his contribution at the start of the 1964 season.

"I still wonder about it to this day," he said. "You talk about wanting to give up. Imagine what it must have been like to sit for three years."

In 1964, John Huarte completed 114 of 205 passes for a Notre Dame record of 2,062 yards (it would later be broken by Joe Theismann) and a Notre Dame record 16 touchdowns (later tied by Theismann), nine of which were to Snow.

In the three seasons through 1963, Huarte had not so much as earned a letter. In 1964, he won the Heisman Trophy.

"Being an All-America and winning the Heisman Trophy was really a traumatic experience for me," he said. "I

Nebraska's Larry Kramer is now head football coach at Emporia State.

possible, according to Huarte.

"That was a generally inexperienced team, but it was very enthusiastic with good leadership and also very ambitious," Huarte said. "But the real key was solid coaching."

Coaching was almost an incidental element in the romantic career of one Gale Sayers, the 1964 All-Americans' foremost contribution to greatness. You don't associate Sayers with coaches for the same reason you don't associate Einstein with math teachers.

What Sayers had, what Sayers did, you couldn't coach. But you could watch and the watching was pretty good.

Twenty years ago, he was at Kansas,

Ralph Neely played both ways at Oklahoma and was a 1964 All-America selection at offensive tackle.

He has been referred to often as the most feared breakaway threat of all time.

Sayers may not be the most feared PR man of all time, but his football accomplishments are burned into our memories as are those of most of this class of memorable All-Americans.

Rick Redman, Washington's 215-pound All-America guard in 1964, is the president of Sellen Construction Company in Seattle. Larry Kramer, Nebraska's All-America tackle that year, is head football coach at Emporia State University in Emporia, Kans. Glenn Ressler, Penn State's All-America center-guard, is a Camp Hill, Pa. restaurateur, Lawrence Elkins, Baylor's All-America flanker that year, is an independent oil and gas contractor in Texas.

"If it had Jensen speakers, it would be a classic."

Presenting the Series 3000 Triax[®] and Coax speakers. Classic sound for contemporary cars.

Sizzling stereo sound that pushes sensitivity to the outer limits. Distortion is diminished. Clarity is redefined.

Precisely accurate sonic reproduction is achieved with high-tech components developed over years of research and testing.

With these technological breakthroughs showing the way, all Series 3000 speakers have been dynamic range-enhanced to maximize fidelity and performance. Dynamic range-enhanced to respond brilliantly to the acoustics of any car interior and improve the presentation of any car receiver.

That's Jensen. The sound that moves you like no other. One listen and you'll never drive anything less.

PLAYING SURFACES

Do They Make a Difference?

by Mickey Spagnola, Jackson Daily News

From the beginning, we had grass, those soft green blades to carpet our land, and most importantly, our athletic arenas.

Grass had personality. You could grow it, cut it, shape it, even vary the shades of it to suit any whim, not to mention athletic ability. Fast teams were into the crew cut. Slow teams were into the rarely cut. Accusations inevitably were levied. Advantages were gained, albeit they were mostly psychological.

Then, as we explored space, got into synthetics and were enamored with the creation of artificial substitutes for milk, potatoes, sweeteners and whatnot, grass was no exception. We created artificial grass for our athletic arenas first, then for our very own porches.

Artificial turf had no personality. You couldn't grow it, you laid it. You couldn't cut it or shape it, you sewed it. And only wear and tear and exposure to

the sun varied the shade of factory green. Fast teams insisted they became faster, but bad teams rarely became better. It became a status symbol, as do most artificial substitutes.

But now, in the year foretold by George Orwell, with Big Brother still a little ways off, the rush for artificial surfaces in college football has entered its remission stage. Since we've grown so accustomed to this stuff which does not grow, it no longer is a telltale difference — if it ever really was.

Going into this 1984 season, in Division I-A football alone 56 schools play their football on artificial turf, while the other 48 still play on the much more traditional grass. There is no rhyme or reason as to who has it or who doesn't — nothing to do with geographical location, quality of football or financial assets.

In the Big Ten Conference, only one *continued*

PLAYING SURFACES

continued

institution still plays on real, live grass — Purdue. The same holds true in the Big Eight. Only Missouri plays on grass. In the Pac-10 it's an even split, five on artificial turf and five on grass. In the Southwest Conference, it's a clean sweep for artificial turf, while in the Atlantic Coast Conference, grass fields hold a 6-2 advantage. In the Southeastern Conference, six of the 10 teams play on the real thing.

In fact, one southern school has gone in the opposite direction, digging up its artificial turf to replant grass.

"It was a situation in which the wear and tear on the field was not that important," said the school's athletic director, pointing out that half his school's home games were played in a larger city 160 miles down the road. "And when we looked at our schedule, we realized we had been playing on grass more than artificial turf.

"And maybe most of all, our climate here is very conducive to growing grass," he said.

There were some financial considerations, too. The existing artificial turf had been down eight years, and the fibers were wearing thin. So was traction. It had been the second carpet laid since 1970. It was time for a third.

To replace the artificial turf would have cost roughly \$475,000, and that did not include the possibility of having to replace the seven-to-eight inches of asphalt padding underneath. If that had been the case, the cost would have nearly doubled.

Yet to dig up the existing turf and padding and sprig a field of grass — akin to a hair transplant — the cost ran roughly \$350,000. But then, too, you must figure in yearly upkeep of the grass field. The artificial turf costs next to nothing, except for a little white-wash on the lines and maybe a new carpet every eight years or so. Maintenance of the grass field — watering, fertilizing and cutting — is estimated to run roughly \$10,000 a year, but much of that is already being paid for the upkeep of existing grass practice fields.

There was another consideration. Heat. Southern fall afternoons are not much different than August afternoons. It is no secret that these artificial turfs conduct heat, so when it's 90 degrees outside, on the playing field it's liable to be upwards of 120 degrees.

"If you have artificial turf in the South you should be playing at night," said a southern college coach. "Grass is cooler, and I do like that aspect."

There are other differences between the two surfaces. Traction is one. No matter the weather, save an ice storm,

The footing on artificial turf is much better, but bad teams don't become good and good teams better because of the surface.

the footing on artificial turf is much better. Linemen can push off better. Running backs seem to pick up speed. And wide receivers can make sharper cuts.

"Your timing is different," said one coach of moving from one surface to the other. "You see kids stumble around for a while."

Maybe the most difficult conversion is for running backs going from accustomed artificial turf to grass. They invariably lose their footing, trying to make cuts too sharp, their feet flying out from underneath. They talk of the grass slowing them down.

Many schools without artificial playing surfaces have installed 10, maybe 20, yards of the synthetic turf on their practice fields. This is used before games to be played on artificial turf, to enable linemen to acclimate themselves and kickers to adjust to the sturdy footing.

"But I think the kicking game is affected the most," said one coach. "On grass, though, it's still hard to tell, but you can nearly figure out how the ball is going to bounce. But on artificial turf the ball is liable to go anywhere. It's much more unpredictable."

The most celebrated controversy is injury susceptibility. Increasingly it has become evident more knee and ankle injuries are likely to occur on artificial turf, since there is no give in the footing. And there is this new-fangled injury called "turf toe," a direct by-product of artificial turf. It is simply the swelling of the big toe from repeated run-ins with the unmovable turf.

"We just seem to have more joint injuries on artificial turf than we have on natural grass," said the coach from the school which is reverting to a grass field. "Plus, the artificial turf would hurt your legs. It's so hard, it seemed to tire the team out. Even though we had it, we stayed off it. We'd spend 90 percent of our time on grass. We wouldn't go on it before a game until Thursday."

But on the other side of the ledger, if an indoor practice facility is not available, having an artificial turf playing field insures a school of a place to practice no matter the weather. "Most coaches just want a place to practice if the weather is bad," said one athletic director.

As for the actual playing of the game, strategy remains unchanged. No more passes are thrown on one surface than the other. No more blitzes are called. No one yet has detected an ability to rush for more yards on artificial surface than natural grass.

And maybe most importantly, bad teams do not become good and good teams do not become better just because of the surface.

"We've lost to teams that have had artificial turf and to teams that did not have artificial turf. The type of surface does not change the ability of a football team," said the southern school athletic director.

"Most teams that play well on artificial turf will play well on grass, and most teams that play well on grass will play well on artificial turf," he added.

The turf leaves no telltale difference in the final score.

to be a
better writer.

"You get to spend your energy on ideas rather than typing."

—Alan Alda

the fifth paragraph? It's just as easy to move whole paragraphs around. Are you a miserable speller? Add the new 36,000 word ATARI® Proofreader™ program and your ATARI Home Computer will search out spelling errors for you. You can even instruct the Proofreader program to check spelling on technical words you may need in your writing.

Not a word touches paper until you're sure it's right.

The AtariWriter™ program takes the drudgery out of writing by eliminating the drudgery of typing—worrying about typos, whitening out mistakes, retyping new drafts over and over and over.

Spend more time writing, no time retyping.

Whether you're writing a personal letter, a paper for school, a report for your club or magazine articles for a living, AtariWriter lets you compose and edit your text on your TV screen, before you put it on paper. Got a sentence that seems out of order? It's easy to reposition it with AtariWriter. Would the third paragraph make more sense as

"store" your text indefinitely, "just in case."

Here's what you need to start writing better.

The AtariWriter word processing program works with any ATARI Home Computer—including the new 600XL™ and 800XL™. You can choose either of two ATARI printers: the high speed ATARI 1025™ 80-column, dot matrix or the ATARI 1027 Letter Quality model. And either of two text storage systems: the ATARI 1050 Disk Drive or ATARI 1010 Program Recorder. No matter what combination you choose you'll be paying less than most other word processing systems.

Stop by your Atari Dealer today and see how much easier it is to be a better writer—now that Atari has made it so much easier to write.

Will your next AM/FM Receiver
also give you Stereoplex™ television sound?
Only if it's Technics.

Now Technics brings you stereo receivers that are so technologically advanced, they give you more than dramatically clean AM. More than brilliant FM. Now Technics receivers also tune in television sound. And electronically expand it into Stereoplex television sound.

So with Technics Stereoplex receivers, ordinary TV shows now sound extraordinary. Special effects now sound truly spectacular. And there's more.

Every new Technics Stereoplex receiver contains two microprocessors. The first controls Technics innovative Computer-Drive circuitry. To actually stop distortion before it starts. For music of astonishing clarity.

The second microprocessor controls and monitors the quartz synthesis tuner. The most accurate tuning system in the world. For locked-in, drift-free reception. In addition, there's an input to connect a Compact Disc player, a VCR or a video monitor.

The new Technics stereo receivers. More than AM. More than FM. Even more than television sound. Because they're more than ordinary stereo receivers. They're Technics.

Technics
The science of sound

THE ONE-BACK OFFENSE

Why Don't We See More of it in College Football?

by Joe McLaughlin
Houston Chronicle

The One-back Offense in college football, up to the present time, has been about as scarce as the whooping crane.

An offense which has been employed almost exclusively by the professionals has never made much of an impression in college football.

Why? To begin with, college coaches have stubbornly adhered to the belief,

with some justification, that passing teams don't win championships. And, the One-back Offense is basically a passing formation.

Historically, coaches have been correct in their assumptions. One would be hard-pressed to name a national champion or, in most cases, a conference champion which was an advocate of the One-back Offense.

College coaches, in the main, have stuck to the premise that three things can happen when you throw the football, and two of them are bad.

Proponents of the One-back Offense, however, point out legitimate reasons why this thinking has been prevalent.

One coach says, "College football has always been trendy. One team will

continued

THE ONE-BACK OFFENSE

continued

come out with something new, have some success with it, and all of a sudden everyone is trying it. It happened that way with all the offenses — the Single and Double Wings, the Split Backs, the Veer, the Wishbone, the I and the Multiple Offense.

"If a few more teams start having some success with the One-back Offense, you will see more college coaches turning to it."

In the past, the concept has been that if you are throwing the ball a lot, you are usually behind and trying to catch up. And passing is the quickest way to do it.

One-back Offense theories explain the difference: "The philosophy is this," says one coach. "You go into the game with the idea that you *want* to throw the ball, not that you *have* to.

"There are three ways to throw the ball: (1) down field; (2) control passing; and (3) option passing. The ideal is to control the ball by passing, much like running teams control it on the ground.

"You can't run the One-back Offense without a good, sharp quarterback," the coach continued, "because his hands are on the ball all the time. It's the most 'quarterback offense' in football.

"A lot of coaches don't want that much pressure on one man. But a sharp quarterback can handle it. That has been proven. The key is for your quarterback to control the ball, have a good defense and not to revert to running when you get close to scoring.

"You try to let your predominant ballcarrier have the ball. You get four receivers out real quickly, spreading the other team's defense. You hope to catch the defense in a lot of one-on-one situations.

"Once again, to control the ball passing, you throw high-percentage passes and don't often go deep down field.

"First of all, the coaches must believe in the offense and your kids must believe in it. It is a sound offense if it is organized properly."

Run properly, the One-back Offense is highly effective, proponents claim.

"In the first place," says one coach, "not many people can just line up and blow the opponent's defense away. It is easier to teach pass blocking, especially since the rules have changed where an offensive lineman can use his hands if he is in a retreat block or giving ground. That's one reason even predominant running teams now are throwing more."

Most college coaches agree that the day is gone when one team can line up and simply overpower another one

A team that employs the One-back Offense uses the pass to set up the run.

week in and week out. Consequently, the traditional running teams are now passing more.

"One reason for that," a coach says, "is that everybody is putting their best athletes on defense, and the offense has to find new ways to move the ball."

Another coach says, "If a One-back Offense team knows what it is doing, it's the hardest to defense. With four receivers going out, a defense generally can take two of them away, but with four it's tough.

"Then, they say, 'Well, the defense then will put seven defensive backs into the game.' That's what you would love to see if you are a One-back offensive coach. That way you have the other people guessing all the time. Then you can come back with your traps, draws, counters and sweeps. It's a constant cat-and-mouse game."

Ideally, a team will pass about 50 percent of the time in a One-back Offense. If you are throwing 75 percent of the time, you're usually trying to catch up.

"Many passing teams get the ball in scoring position and then turn to the

run, and most often, fail. The key to the One-back is that you start with the pass and you finish with it."

"Perhaps the most successful passing team in the college ranks is Brigham Young University," says one coach. "They are not strictly a One-back Offense, even though their philosophy is similar. A lot of the West Coast teams are using it more—probably more than any other section of the country."

Like most changes in college football strategy, the popularity of One-back Offense has developed at many places because of necessity. Most teams don't, and can't, line up and beat a Texas or a Penn State head to head. It's a fact of life. Consequently, coaches are trying to find new ways to balance those inequities.

As one coach put it, "The One-back Offense is becoming more popular in college. But you still have to have key personnel in any offense. There is no real answer to all the problems, because there is none."

But the One-back Offense is another exciting chapter in the game. ●

ATHLETIC STAFF

Kathleen Lipkovich

Bob Klingler

ASSOCIATE ATHLETIC DIRECTOR DR. KATHLEEN LIPKOVICH

Dr. Kathleen Lipkovich was named Edinboro's first associate athletic director at the outset of the 1981 school year to help administer both the men's and women's athletic program.

Originally from Youngstown, Ohio, Dr. Lipkovich has had teaching and coaching experience at West Virginia University, Central Connecticut State College, and Trinity College. The Ohio native, who graduated from Chaney High School, began her teaching and coaching career in 1972 with the Howland Local School District in Howland, Ohio, and then held a similar position from 1972 through 1975 at McDonald High School in McDonald, Ohio.

The 1972 Youngstown State graduate received her M.S. degree in 1975 from West Virginia University and was awarded a doctorate from that same institution in 1977 after majoring in educational administration and physical education. She completed a post-doctoral fellowship at Harvard in educational administration prior to her arrival at Edinboro.

TEAM TRAINER - BOB KLINGLER

Bob Klingler begins his 18th year of giving Fighting Scot athletes the tops in professional medical care. The 1952 Lock Haven grad ventured to Hermann School of Physical Therapy in Houston, Texas and became a registered physical therapist in 1954. He later received his M.S. from Bucknell. Prior to accepting his Edinboro post Klingler taught at Milton Hershey, a private boys' school in Hershey, Pa., where he served as the Spartans' head football mentor, head track coach and assistant basketball coach. His cinder and cage teams never experienced a losing season while his football eleven would consistently garner winning charts in the powerful Capitol Conference. "Doc" has provided the Edinboro athletic program with high quality student trainers who have gone on to distinguish themselves in the profession after graduation from college. Bob and his daughter, Julie, make their home in nearby Washington Township.

SPORTS INFORMATION AND PROMOTIONS DIRECTOR PAUL NEWMAN

Paul Newman begins his 18th year of publicizing Edinboro University's athletic program and now assists in sports promotion endeavors for the Fighting Scots. During his tenure he has also served as assistant to the president, public relations director and publications officer for the University. An active participant in CoSIDA and past president of the NAIA Sports Information Directors' Association, Paul is a 1964 graduate of Edinboro where he earned both his B.S. and M.Ed. degrees in English. Prior to joining the Scots in 1967 he was a teacher of English for three years in Ashtabula, Ohio. A member of the United States Basketball and Football Writers Association of America, he has earned more than 20 All-American awards of excellence for his sports publications. Paul, his wife, Connie and their children, Paul, Jr., Michele and Scott reside in Edinboro.

ASSISTANT TO THE ATHLETIC DIRECTOR HAROLD "HAL" UMBARGER

Harold "Hal" Umbarger joined Edinboro University's athletic staff a year ago as assistant to the athletic director. He brings a wealth of talent and experience to the administrative level of the athletic program and plays a vital role in overseeing the academic progress of student athletes as well as coordinating the on-going functions of the athletic director's office and the summer programs which involve the department. The West Newton, Pa., native is a 1954 Slippery Rock University graduate and also owns his masters degree from Penn State. After a three-year stint with the U.S. Army Security Agency in Europe, he coached basketball and baseball at Moshannon Valley (Pa.) High School before accepting a guidance position in the West York Area School District in 1961. He became a member of Edinboro's admissions office a year later and in 1967 was named director of admissions. During his tenure more than 40,000 students were admitted to Edinboro University.

MEMO TO THE MEDIA

Edinboro University's 1984 guide has been designed to assist members of the press in the coverage of Fighting Scot football. Press releases, photographs and statistics will be made available for your use throughout the season. Pre-game football materials (rosters, starters, statistics and records) are available in the press box. A play-by-play,

halftime and final statistics will be provided for each home game. If additional information is desired, please contact the Sports Information Office, Paul Newman, Director, Edinboro University, Edinboro, Pa. 16444. Office phone: (814) 732-2811; home phone: (814) 734-3735; press box phone (814) 732-2749.

Teamwork is a key to success
in sports, family life or employment.
From our team to your team,

"Have a great season!"

THE PENNSYLVANIA CONFERENCE

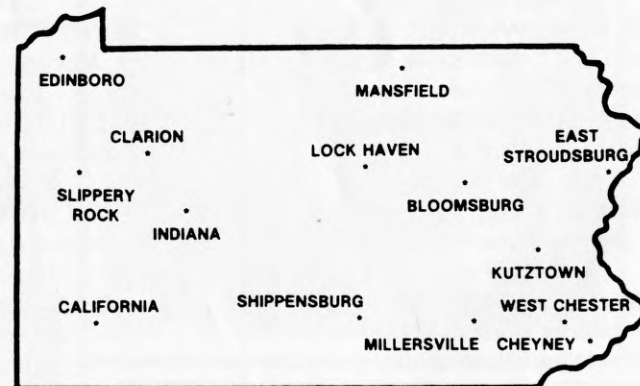

HISTORY OF PSAC FOOTBALL

The Pennsylvania State Athletic Conference is one of the few leagues in the nation to sponsor a championship game in football. The East vs. West conference championship game, known as the "State Game," has been in existence since 1960. Mythical champions were picked by sportswriters from 1934 until 1950 with the champion determined by the Saylor system from 1951 until 1959.

All members of the conference (with individual sports exceptions) compete at the NCAA Division II level and have since 1980. Athletes and teams have won numerous honors in national competitions over the years and have helped the PSAC become one of the most respected "small college" conferences in the nation.

A list of member schools with their football affiliation includes: Eastern Division — Bloomsburg University, Cheyney University, East Stroudsburg University, Kutztown University, Mansfield University, Millersville University, West Chester University; Western Division — California University, Clarion University, Edinboro University, Indiana University, Lock Haven University, Shippensburg University, Slippery Rock University.

- 1963 - West Chester 36, Slippery Rock 7
 - 1962 - Slippery Rock 13, East Stroudsburg 6
 - 1961 - West Chester 21, Slippery Rock 0
 - 1960 - West Chester 35, Lock Haven 6

WHATEVER THE SEASON THERE'S A REASON FOR S-10 BLAZER.

Chevy S-10 Blazer is that versatile. Lots to carry? Just fold down the optional rear seat for more load length than any full-size sport utility. Tote up to 1,000 lbs., including people and cargo. That's 4-passenger-plus load versatility.

Shift on the fly. S-10 Blazer 4x4 with revolutionary Insta-Trac lets you shift from free-wheeling 2-wheel drive to 4-wheel-drive High and back while driving at any speed. **Tow up to 5,000 lbs.** Properly equipped, S-10 Blazer 2WD can tow up to 5,000 lbs.

S-10 4x4 up to 4,000 lbs., including trailer and cargo. Versatile S-10 Blazer. The sport utility that's always in season.

Let's get it together... buckle up!
