## GUEST SPEAKER - ED SHERMAN

Ed Sherman, one of the most successful football coaches in the nation during his 22 years at Muskingum College and now Athletic Director of the Ohio-based school, is the featured speaker for tonight's Tenth Annual All-Sports Banquet.

Sherman is currently chairman of the NCAA's reorganization committee which has formulated a proposal for reconstruction of the entire NCAA Association and will present it for approval to the NCAA Council at an April 29-May 1 meeting.

Sherman is a native of Licking County, Ohio, and was an all-league quarterback for Newark High School in the tough Central Ohio League. He enrolled at Muskingum and played varsity football under the legendary Bill Lange, who is remembered as one of the great coaches in Ohio Conference history.

Graduating from Muskingum in 1936, Sherman began his coaching career the same year at Newark. In 1943, he returned to Muskingum as swimming instructor for the war-time ASTP unit and to assist in football and basketball. The next year, he went to Miami University as football assistant to Sid Gillman. Meanwhile, he obtained his Master's degree in physical education at Ohio State University.

He came back to Muskingum once more in 1945 to begin a coaching career which even eclipsed that of his idol Bill Lange. Only twice in 22 years did the Muskies experience losing seasons. In that time, they won 141, lost 43 and tied 7. Six times his teams won the Ohio Conference championship and three times went undefeated.

In 1955 and 1965, he was named Ohio College Coach of the Year and in 1967 he received the Helms Award for special service and the Sports Magazine Award. He was also honored by the 1967 football coaching clinic at Ohio State University with its annual "Winningest Coach" award.

He retired from active football coaching duties after the 1966 season, but continued as Muskingum's athletic director and coach of its track team.

He was appointed in 1967 to the six-member college division football committee of the National Collegiate Athletic Association and also serves on the NCAA television and statistical committees.
