Special to the *Titusville Herald*:

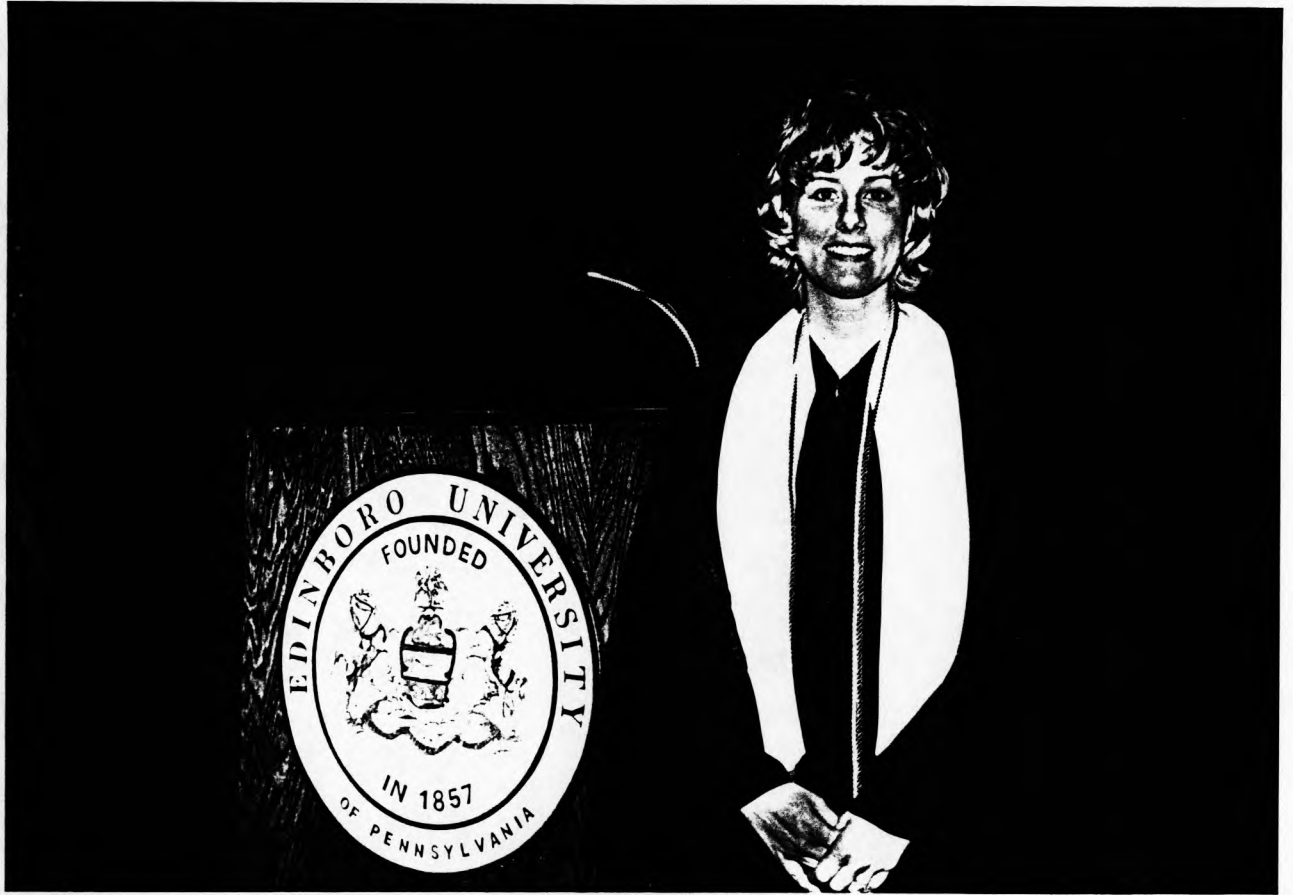

BRANDY BERLIN HONORED BY EDINBORO UNIVERSITY

Edinboro University of Pennsylvania recognized its outstanding students at the 1995 Honors Convocation on April 30. Among those honored were more than 175 seniors whose degrees will be awarded *summa cum laude*, *magna cum laude* or *cum laude*. Serving as a student marshal was Brandy Berlin of Titusville, who is majoring in history and minoring in anthropology.

Berlin is a member of the Edinboro Honors Program and has been inducted into the history honor society, Phi Alpha Theta. She has received the Keith Skelton Scholarship, an Alumni Honors Scholarship, and the Dollars for Honors Scholarship, and has been named to the National Dean's List as well as the University's dean's list each of her undergraduate semesters. Berlin is the president of the history club and a research assistant for the Edinboro Oral History project. She plans to continue her history studies after graduation at Georgia Southern University.

NICOLE WILLEY, DAVID KERSTETTER HONORED BY EDINBORO

Edinboro University of Pennsylvania recognized its outstanding students at the 1995 Honors Convocation on April 30. Among those honored were more than 175 seniors whose degrees will be awarded *summa cum laude*, *magna cum laude* or *cum laude*. Serving as a student speaker was Nicole Willey, a secondary education major from Edinboro. Also from Edinboro was student marshal David Kerstetter, a political science major.

Willey spoke about the educational, cultural and personal borders one must cross in life. "A true education is about overcoming borders," said Willey. "True learning can only take place in situations where the scholar is forced to cross borders. Our cycle of education becomes complete when we can finally become active in working toward values and beliefs we want to see in this world."

Willey is a member of the University Honors Program, Kappa Delta Pi International Education Honor Society, and the Student Pennsylvania State Education association. She has served as news editor for the *Spectator* and as a University senator. She received a National Collegiate Honors Council scholarship for a U.S.-Mexico semester, during which she studies at the University of Texas at El Paso. She was also awarded a State System of Higher Education summer program scholarship for study at Guelph University in Ontario, and an Honors at Oxford scholarship for study in Edinboro's program at Exeter College of Oxford University in England.

Willey has received numerous scholarships and was named to the National Dean's List for four years and the Edinboro University dean's list each semester. She has served as an

A member of the State System of Higher Education

Edinboro University peer tutor and is completing a student teaching assignment at Cambridge Springs High School.

Kerstetter is a participant in Edinboro's Honors Program and has been named to the National Dean's List and Who's Who of American College Students. He serves as assistant advisor to the Pennsylvania youth and government club at General McLane High School, and is a member of the U. S. Army Reserve, the Erie Rugby Club, and Phi Gamma Delta fraternity. He is a contributing writer for The Spectator, and plans to pursue a master of public policy degree at the College of William and Mary.

FOR IMMEDIATE RELEASE:

EDINBORO HONORS EIGHT FOR ART CONTRIBUTIONS

Edinboro University and its Alumni Association recently hosted their fifth annual Art Achievement Awards ceremony to recognize additional Edinboro alumni, faculty and staff who have distinguished themselves in art and art education.

Now in its fifth year, the Art Achievement Awards program at Edinboro has honored an impressive and diverse group of artists and art educators. Past award recipients – 43 honored to date – have included painters and sculptors, gallery owners and museum administrators, filmmakers and set designers, video and audio producers, and art educators at the elementary, secondary and university levels. The program has been a fitting recognition of Edinboro University's longstanding tradition of excellence in art and art education.

The eight honored in 1995 were John Chrisman, Murley Kay Boyce Kight, Michael Lane, Dana Masters, Charles Mullen, Art Sennett, Don Sexauer, and Stuart Thompson.

Chrisman ('76) currently teaches marketing at North Country Community College, N.Y. After receiving his bachelor of fine arts degree from Edinboro, he did graduate work in film and photography at Ohio University, and in 1980 received a master of fine arts degree in film and video from Yale University. Chrisman has worked as an independent producer, photographer, editor and consultant in film and has prepared on-location segments for several PBS programs, including the MacNeil-Lehrer Report and Bill Moyers' Journal. Through Northlight Studios, his freelance production company, he has produced several hundred commercials for cable stations in the Saranac Lake, N.Y., area. Unable to attend the ceremony, his award was accepted by his teacher and mentor, Edinboro University professor David Weinkauff.

-more-

A member of the State System of Higher Education

Kight ('59) an educator, artist, craftsman, writer and promoter of the arts, has taught art in grades from kindergarten through college level, and is currently teaching in the North Allegheny School District near Pittsburgh. She also works from her studio, "Foxwood," which she shares with her husband, Russell, a silversmith and also a 1959 Edinboro graduate. She is a longstanding member and eight-year director of the Pa. Art Educators Association (PAEA) and the National Art Educators Association, as well as eight other art organizations. She was the PAEA's Outstanding Art Educator in 1986, and has won many awards in art exhibits throughout the U.S. and has participated in both one-person and group shows. Among her many awards are the Carnegie Mellon Craftsmanship Award and the Bell Atlantic Craftsman Award.

Lane ('79) is one of the nation's premier golf artists, painting for some of the world's greatest golfers, capturing their greatest tournament-winning shots and their favorite holes on some of the world's most famous and prestigious golf courses. To paint these memorable scenes he has worked personally or through representatives of Arnold Palmer, Jack Nicklaus, Gary Player, Lee Trevino, Tom Watson and Nick Faldo. His most recent project – commissioned by Arnold Palmer – was an original painting and limited edition prints of the par-four, first hole at Arnie's Laurel Valley Golf Club. Among others painted in his unique style are several holes at the world-famous Augusta National, the 11th at Erie's Kahkwa Club, and scenes from the Firestone Country Club near his home and studio in Canton, Ohio. Unable to attend the ceremony, Lane's award was accepted by William Reed, Edinboro University's assistant vice president for public information.

Masters ('84) has done both freelance and full-time work in graphic design, jewelry making and wax modeling. For the past five years she has worked in the pewter manufacturing industry as a model maker and sculptor, doing projects for such notables as Karl Lagerfeld, the Walt Disney Corporation, Colonial Williamsburg, General Motors and others. In 1992, she designed and created her own line of pewter figurines and Christmas ornaments.

Mullen ('53) joined Edinboro's art department in the early 1970s and drafted its first syllabus for the bachelor of fine arts in communications graphics program, and by 1975, was teaching all six levels of the program. Retiring in 1985 he was granted faculty emeritus status for excellence in teaching and service to Edinboro University and the art profession. As a practicing artist he has received numerous prizes for his work in painting, photography, jewelry and sculpture. He continues carving and teaching waterfowl carving.

Sennett ('56) began his career as a professor of art at Potsdam College (now SUNY/Potsdam) in 1960 and served as the department chair from 1981-86, developing the department's original curriculum in ceramics. He has conducted workshops and served as a juror and exhibit curator for numerous shows, and has also been a board member for various craft organizations. His work has been exhibited regionally and nationally in more than 100 shows and is represented in collections in the U. S. and abroad. Unable to attend the ceremony, Sennett's award was accepted by retired Edinboro art professor, Henry Katzwinkle.

Sexauer ('57) became the fifth member of the East Carolina art department in 1960, and 35 years later at what is now the East Carolina School of Art, he remains active as an artist, teacher and advocate of faculty involvement in institutional governance. A leader in the introduction of the computer as both a classroom presentation vehicle and as a study tool for students, he is an active artist and printmaker, competing in more than 100 national and international juried exhibitions and receiving awards and prizes from the National Academy of Design and the Society of American Graphic Artists, among others. Numerous commissions have included folios and presentation prints for the North Carolina Governor's Award in the Arts, the City of Charlotte, N.C., and the U.S. Army Department of Military History.

Thompson ('64) is currently a professor of art and education at Seton Hill College in Greensburg, Pa., having previously served as chair of the art department and associate dean of the College. Formerly an art teacher at Juniata Jr.-Sr. High School in Alexandria, Pa., he is a Vietnam veteran and currently holds the rank of Captain in the U. S. Naval Reserve. In 1989 he was awarded the Pa. Art Educators Association's (PAEA) Higher Art Education Art Educator of the Year Award. Professional affiliations include the PAEA, where he recently completed three years as director of the Higher Education Division, the Associated Artists of Pittsburgh, and the Pittsburgh Society of Sculptors.

A commemorative bronze sculpture, named the "Waldo" for Edinboro art pioneer Waldo Bates, was created for presentation to award recipients by Chuck McCleary, a member of the Edinboro University art faculty. McCleary fashioned the sculpture using a lost wax process and based it on a floral motif to produce an abstracted still life. The original sculpture, along with a complete listing of those who have been honored, is permanently displayed in the University's Doucette Hall, near the entrance to Bruce Gallery. Each award recipient receives a statuette of that sculpture.

The selection committee for the Art Achievement Awards was formed by the Alumni Association six years ago. Committee members are retired Edinboro art professors Henry Katzwinkle ('56) and Russell McCommons ('25, '27 and a 1991 "Waldo" recipient); current art professors Donna Nicholas and James Vredevoogd; 1940 Edinboro alumna Shirley Harrison; 1967 Edinboro graduate John Snow, an art teacher at General McLane High School; and Janet Bowker ('84), Edinboro University's director of alumni affairs.

Bowker, who was emcee for the event, and David Sheneman ('64), president of the Alumni Association, presented the awards along with Jack Martin, Edinboro University's associate vice president for institutional advancement.

classroom presentation ~~presentation~~ vehicle and as a study tool for students, he is an active artist and printmaker, competing in more than 100 national and international juried exhibitions and receiving awards and prizes from the National Academy of Design and the Society of American Graphic Artists, among others. Numerous commissions have included folios and presentation prints for the North Carolina Governor's Award in the Arts, the City of Charlotte, N.C., and the U.S. Army Department of Military History.

Thompson ('64) is currently a professor of art and education at Seton Hill College in Greensburg, Pa., having previously served as chair of the art department and associate dean of the College. Formerly an art teacher at Juniata Jr.-Sr. High School in Alexandria, Pa., he is a Vietnam veteran and currently holds the rank of Captain in the U.S. Naval Reserve. In 1989 he was awarded the Pa. Art Education Association's (PAEA) Higher Art Education Art Educator of the Year Award. Professional affiliations include the PAEA, where he recently completed three years as director of the Higher Education Division, the Associated Artists of Pittsburgh, and the Pittsburgh Society of Sculptors.

A commemorative bronze sculpture, named the "Waldo" for Edinboro art pioneer Waldo Bates, was created for presentation to award recipients by Chuck McCleary, a member of the Edinboro University art faculty. McCleary fashioned the sculpture using a lost wax process and based it on a floral motif to produce an abstracted still life. The original sculpture, along with a complete listing of those who have been honored, is permanently displayed in the University's Doucette Hall, near the entrance to Bruce Gallery. Each award recipient receives a statuette of that sculpture.

The selection committee for the Art Achievement Awards was formed by the Alumni Association six years ago. Committee members are retired Edinboro art professors Henry Katzwinkle ('56) and Russell McCommons ('25, '27 and a 1991

"Waldo" recipient); current art professors Donna Nicholas and James Vredevoogd; 1940 Edinboro alumna Shirley Harrison; 1967 Edinboro graduate John Snow, an art teacher at General McLane High School; and Janet Bowker ('84), Edinboro University's director of alumni affairs.

Bowker, who was ^{EMCBE} ~~master of ceremonies~~ for the event, and David Sheneman ('64), president of the Alumni Association, presented the awards. along with Jack Martin Edinboro University's associate vice president for institutional advancement.

WAR/30

Displaying awards at Edinboro University's 1995 Art Achievement Awards ceremony were (from left): Edinboro assistant vice president William Reed (accepting for Michael Lane); Donald Sexauer; Stuart Thompson; Murley Kay Boyce Kight; retired Edinboro art professor Henry Katzwinkle (accepting for Art Sennett); Dana Masters; Charles Mullen; and Edinboro animation professor David Weinkauff (accepting for John Chrisman).

FOR IMMEDIATE RELEASE:

**EDINBORO UNIVERSITY OF PENNSYLVANIA
STUDENT INTERNS AT STATE CAPITOL**

Tacie Tonks, a senior psychology major at Edinboro University of Pennsylvania, is interning through The Harrisburg Internship Semester (THIS) program. The program was created by the State System of Higher Education to give 14 outstanding undergraduate students access to top policy-making areas of state government. THIS, which is open to the 94,600 students from the 14 State System universities, integrates internship assignments with classroom study and is designed to recruit high quality students to work with high level government officials.

Tonks is serving her internship in Harrisburg at the Pennsylvania House of Representatives Democratic Legislative Research Office as an analyst. Tonks does not come from a politically based background, and there is much to learn. "I am a psychology major, so I knew very little about the government before this internship." She said that she finds politics interesting and is learning the legislative lingo and rules quite well. "I feel that the THIS semester has been one of my most exciting experiences to date."

Tonks has many duties to accomplish during her Harrisburg internship. One duty includes researching and responding to constituent letters ranging from environmental concerns to requests for funding support. Tonks also works on legislation, "I recently wrote legislation that will provide senior citizens a 50 percent discount to state parks and recreational facilities." She also writes resolutions to be introduced in the House. One such resolution was aimed at congratulating Pennsylvania sports teams for an outstanding season.

-more-

A member of the State System of Higher Education

Tonks is also required to attend an evening seminar on debating the role that media plays in politics. The seminar includes panel speakers and an open format of debate and questions. She also keeps herself busy during her internship experience by volunteering for two organizations. Tonks reads the newspaper on the radio for the Tri-County Association for the Blind. She also volunteers as a friend in training for the Compeer Program.

The Compeer Program provides volunteer friends to help individuals with mental illness live happier, more productive lives. This friendship builds confidence and independence in the individual, along with providing a much needed support net. Compeer also educates the general public about mental illness, changing the way people view the mentally ill and removing the stigma. The Compeer Program is a non-profit organization with 115 affiliate programs across the United States, Canada, and the Netherlands. The program has also been proven to help minimize costly hospital care by providing one-to-one friendship relationships with mentally ill patients as an adjunct to therapy. A recent House Resolution named the week of April 16-23, 1995 as Pennsylvania Compeer Week.

Another activity that Tonks must participate in as part of her internship in Harrisburg is an independent project. Tonks plans to write the legislation to mandate statewide funding for the Compeer Program, and she has already lined up a representative to sponsor this bill. Eventually, Tonks hopes to implement a Compeer Program in Erie.

After completing the THIS semester and graduation, Tonks will be marrying fellow Edinboro student Mark Thomas in August of this year. In addition, she will be attending graduate school and pursuing a degree in clinical psychology at Edinboro University. She will serve as a graduate assistant and student director for the College and High School Alliance for New Growth in Elementary Students (CHANGES) program, which she founded on the Edinboro campus in 1993. The CHANGES program brings together college, high school, and elementary students to improve literacy and promote community service. Eventually, Tonks hopes to earn her doctorate in psychology from Indiana University of Pennsylvania.

Office: Legislative Research Off

Telecopy Number: 717-772-3630

~~X~~ I am interning in the Legislative Research Office as an analyst.
I work from 9-5 Monday -Friday

My job entails many different tasks.

~~X~~ I research responses to constituent letters. These letters vary greatly from environmental concerns to requests for funding support. After finding the appropriate information, I write a response to the constituent.

~~X~~ I am also working on the formulation of legislation. I recently wrote legislation that will provide senior citizens a 50% discount to state parks and recreational facilities.

~~X~~ I also write Resolutions to be introduced in the House. One such resolution was aimed at congratulating Pa sports teams for outstanding seasons. A recent resolution that was passed named April 16-23, 1995 Pennsylvania Compeer Week.

~~X~~ For my 3 credit independent project, I will be writing legislation to mandate statewide funding for the Compeer program. This program will be implemented in each of the counties or jointer counties in Pennsylvania. I have already lined up a Representative to sponsor this bill.

~~X~~ In our evening seminar, we are debating the role that the media plays in politics. We have panel speakers each class, with an open format of debate and questions.

~~X~~ I am volunteering with two organizations during my Harrisburg semester. I am reading the newspaper on the radio for the Tri-County Association for the Blind. I am also a volunteer friend in training for the Compeer Program.

~~X~~ I am learning the legislative lingo and rules. I am a psychology major so, I knew very little about the government before this internship. I feel the P.H.S. semester has been one of my most exciting experiences to date.

I called the gentleman who sent out the press release regarding THIS interns. He said that your office had received that release.

THE HARRISBURG INTERNSHIP SEMESTER (THIS)

General Information

The State System of Higher Education (SSHE), through its Dixon University Center at Harrisburg, sponsors a semester-long internship program for an outstanding undergraduate student from each of the fourteen system universities. These fourteen students work with selected senior executives and legislators in various state government offices. Some interns accept policy or research positions with regulatory agencies, boards, and commissions.

Public Policy. In the various offices, interns participate directly in research and public policy formulation. Their work and service experience includes report and speech writing, research, and direct involvement with program initiation, implementation and evaluation. Thus, the internship program provides exceptional SSHE students with a meaningful practical assignment and an enriching academic experience.

Seminar. In addition, each student takes an internship seminar, which meets in Harrisburg and is supervised by a resident faculty member. The seminar integrates each student's work experience with a rigorous academic component. The seminar exposes students to the latest scholarship in public policy formation and includes elements of the legislative process, executive operations, decision-making, governmental budgeting, public personnel administration, and more specialized state governmental topics.

During each semester, leading policy makers from the commonwealth address the seminar and participate in roundtable discussions with students. For example, the Secretary of Environmental Resources might well describe the department's involvement in combating acid rain and other pollutants in the environment. The Governor's Policy Secretary could describe the process of developing major initiatives within the upper levels of administration. With the assistance of the faculty member, students integrate the contribution of policy makers with the academic component of the seminar. Texts, structured readings, and discussions augment the work of the seminar.

Academic credit. Students earn and receive academic credit in the following ways:

1. A student earns nine credit hours for the practical learning component of the internship experience, which includes the day-to-day work, activity, and responsibility of a position in a state government office.
2. A second portion of the internship, worth three credit hours, is the successful completion of a research project involving substantial analysis. This project is selected from the work-related experience, but may go well beyond it.

Page -2-

General Information

3. The third part, also worth three credit hours, consists of a rigorous academic seminar. Since each constituent university reserves one slot for a student intern, each semester's class is limited to fourteen members.

Service learning. The above academic requirements are supplemented by a volunteer service learning assignment. Volunteer placements extend and enrich the intern's academic major, career plans, or internship placement. The time commitment approximates a half-day assignment per week.

Selection process. Selected interns may come from any academic major. They are chosen through procedures determined on each campus. As part of the selection process, an applicant must submit writing samples, letters of recommendation, and, at the time of appointment, have maintained at least a 3.0 quality point average in 45 undergraduate credit hours.

Interns are appointed and serve for one semester. The internship normally accounts for 15 credit hours of a student's academic load and may be applied toward degree requirements consistent with the policies of the student's home university. Upon successful completion of the internship, each student's grade will be included in his/her quality point average and made part of the academic transcript.

Stipend. Each selected student receives a stipend that is equal to the semester cost of room, board, and tuition.

Campus Coordinator. Each campus shall designate a faculty member to serve as the Campus Coordinator, who, under the direction of the academic vice president, develops appropriate campus procedures for recruitment, along with the process for reviewing and recommending prospective student fellows. The president of the university makes the final selection from the campus.

Faculty director. The Executive Dean of Dixon University Center appoints the Faculty Director, based on nominations and with the advice of the University Center's Academic Council. The Director shall be a member of the SSHE faculty. The Director will be responsible for the overall coordination of the program, including student placement and instruction of the internship seminar. Specifically, the faculty member's 12 hour load will consist of internship direction (6 sh), seminar instruction (3 sh), and general program administration (3 sh). The appointment of the Director will be made following consultation with the respective campus academic vice president.

COMPEER

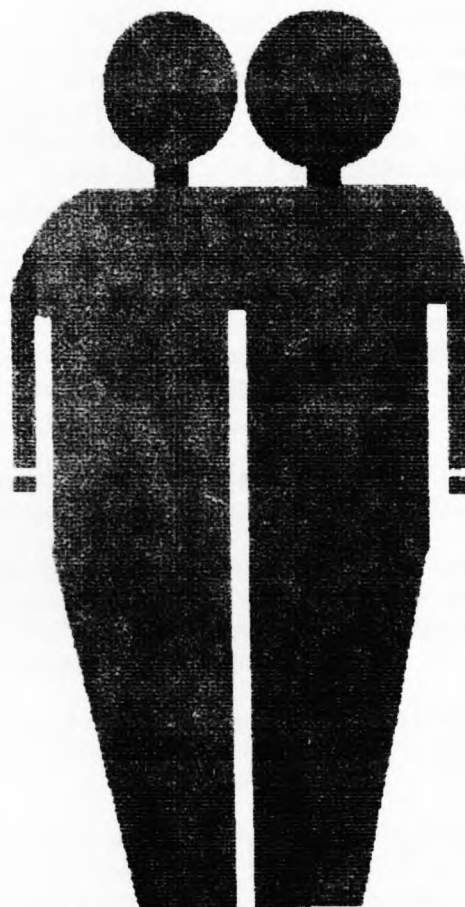

Where loneliness ends
and
restoration through
meaningful friendship
begins

*Friendship is
powerful medicine*

just one hour each
week can help to
break the cycle of
loneliness and
isolation

lend a helping hand
you'll be glad you did

**YOU CAN MAKE A
DIFFERENCE!!!**

Call 232-6675 (Aurora Club)
for details on how you can obtain
a friend, or to volunteer to be a
friend to someone experiencing
a mental illness.

Compeer's Proven Impact

• "Compeer provides a valuable alternative", says Senator Robert Dole, also Compeer's National Honorary Chairman. He adds "In these times of limited federal resources, when a program like Compeer comes along, driven by private dollars and volunteers, we should do all we can to help. Compeer Volunteers have been proven to help minimize costly hospital care."

• The essence of Compeer is volunteers sharing the healing power of friendship to help people with mental illness live happier, more productive lives. Compeer also educates the general public, changing the way people view persons with mental illness, and reducing stigma. Compeer is a vital community support system.

Compeer works, by the numbers. Compeer's numbers are clearly on the side of saving critical health care dollars.

Number 1. At any given time, between 30 and 45 million Americans are suffering from some sort of mental illness that requires treatment. The Compeer Program, a non-profit organization, matches caring, sensitive and trained volunteers with people receiving mental health treatment, in one-to-one friendship relationships, as an adjunct to therapy. There are 115 Compeer affiliate programs across the U.S., Canada and The Netherlands. **REHOSPITALIZATION.** 40 to 50% of discharged psychiatric patients are rehospitalized within six months. There is only a 7% rehospitalization rate for Compeer friends with a history of psychiatric hospitalization prior to referral.

Number 2. Psychiatric hospitalization costs an average of \$200,000 annually. The cost of a Compeer friendship, by comparison, averages \$730 per year or .00365 % as much. When you compare the numbers, it is amazing how much you can save with a good friendship. Compeer relationships reduce the use of more traditional, and costly, mental health care programs such as initial hospitalization and rehospitalization. **ANNUAL COSTS.** Average costs for individual psychiatric hospitalization annually are 274 times more compared to a Compeer friendship.

Number 3. Only four first-time hospitalizations of Compeer friends in 1993. What makes this statistic impressive is that virtually anyone being treated for mental illness is at risk for hospitalization.

Number 4. Only one suicide among the more than 4,000 Compeer friends served. Suicide now ranks eighth -- 11.5 out of 100,000 -- nationally among causes of death in the general population. Almost all suicides are attributed to a mental or substance abuse disorder. Suicide rates among persons with serious and persistent mental illness are 20 to 120 times those of the general population.

Number 5. Only three Compeer friends became homeless during the last six months of 1993. It is estimated that 160,000 of the 600,000 people who are homeless in the United States have some form of mental illness.

Number 6. Requests for Compeer help come from a variety of sources. In direct reflection of the multiple ways Compeer can benefit individuals and the communities they call home, persons are regularly referred to the Compeer Program by a variety of mental health professionals, including psychiatrists, psychologists, social workers and case managers.

Number 7. The numbers that count the most are summed up by those receiving the support of a Compeer friendship. 83% feel less alone. 82% feel better about themselves. 75% have someone to help with problem solving. 55% try new things. 56% have better social skills. 51% take part in more community activities. **THE HEALING POWER OF A COMPEER FRIENDSHIP IS A MEDICINE THAT WORKS.**

These statistics clearly prove the impact of Compeer on healthcare costs and peoples' lives. For additional information on ways Compeer friendships improve their quality of life, turn this page over. For additional information on Compeer in Southeast Pennsylvania, call toll-free in area code 215 or 610: 800-564-PEER, or write to Compeer at 904 DeKalb Street, Norristown, PA 19401-3950.

Compeer Benefits People Directly

A person matched with a Compeer Volunteer...

Gets a friend to share fun times; someone to listen and understand; "someone to accept me".

Has a helpful, supportive person to guide them through the maze of getting a job, and keeping it.

Can share a game of bowling, or a movie, or just take a walk together.

Is able to get the groceries home from the supermarket without having to pay \$8.00 for a taxi, or haul heavy bags on the bus.

Has help to find a decent place to live; to learn to budget their money; a friend to talk to on the phone between visits.

Gets an invitation to their friend's home for a family gathering; gets to feel that they belong there; begins to feel included in the community.

Has someone with whom to share lunch once a week; has something to look forward to.

Gets a friend to help them do their income taxes, saving the \$100 or more a tax preparer would charge.

 Gets their self-confidence built up; is enabled to feel that they can become a contributing, self-supporting member of society.

Matched Friends Give Personal Testimony

"I must say that it was an extremely positive relationship for me in that she was a warm, caring and compassionate young lady that always stived to build my confidence and made me feel that I could do anything that I set my mind to."

"Compeer is one of the best things that ever happened to me. He is thoughtful in so many ways, cares a great deal about me."

"I have someone to talk to (before I didn't). I don't feel so alone now."

"I feel that it was probably the most positive thing to happen to me over the past year."

"My time with my compeer is quality time. It is truly the highlight of my week."

Joy,

The article looks great. However, there are a couple of corrections. Some of them are for political correctness and some are just factual corrections.

•In paragraph 5 dealing with Compeer:

The first and second sentences should read: The Compeer program provides volunteer friends to help individuals with mental illness live happier, more productive lives. This friendship builds confidence and independence in the individual, along with providing a much needed support net.

The last sentence should read: A recent House Resolution named April 16-23, 1995, as Pennsylvania Compeer Week.

•In paragraph 8:

In the second sentence change the "to" to "the".

In the last paragraph:

Could we change it to the following?

•There are many exciting life changes coming for Tonks after the completion of the THIS semester and graduation. She will be marrying fellow Edinboro student, Mark Thomas on August 19, 1995. In addition, she will be attending graduate school in the Master of Arts program of Clinical Psychology. There she will be a graduate assistant/student director for the CHANGES program, which she founded on the Edinboro campus in 1993. Eventually, Tonks hopes to earn her doctoral degree in psychology from Indiana University of Pennsylvania.

Also, should we include the fact that I graduated from Kiski Area High School, since we are sending a copy there?

If any of these changes are not feasible please let me know. I will be in Harrisburg at 717-787-9518 till Friday morning, after that I will be at home at 455-9343. Joy, thank you for the time you put into this, it is much appreciated. May I have a copy of the final draft?

If you need anything further, please let me know.

s at SGA meeting

McGonnell

n to impeach Student Association (SGA) president Maya Kriem was the Monday, March meeting. Antoine Jending as proxy for Willie Conrad, made the charge Kriem had neglected duties in failing to record office hours, was to the student body" legally ordered executive meetings without the knowledge.

debate that followed, Jending defended herself. Jending said that two meetings executive board were not SGA president Mel McGonnell's knowledge, but claimed to initiate either meeting Jending to Kriem, SGA president Jamison called one meeting and budget Ed Montgomery the second meeting. Jending confirmed that the meeting, held before the meeting, was needed for Jending's matters.

Jending admitted she didn't have office hours. "As long as I have done, why should I be the table waiting?"

Jending reminded Kriem that by SGA officers held a meeting of ten office hours a week for the students' benefit. Jending stated that he'd left two numbers where he could be reached while intern-ship.

Jending Donald Doult returned order back to the SGA observing that the resolutions against Kriem were without proof. Doult also said Jending called an executive meeting, checking with Jamison was a successful course.

In other business, congress members approved the appointment of Chris Constantine as parliamentarian. Constantine replaces Doult who resigned the office last semester.

Perry reported to the members that he sent a letter requesting more students be added to the furniture committee. Perry said Diebold requested that buying furniture become a priority.

Also in his report, Perry said he sent an open invitation to Dr. Glenda Lawhorn, vice-president for student affairs, to attend a congress meeting to respond to questions concerning the university center.

Doult also brought up the dangerous situation of the locked emergency exit doors in the Kilt. Congress member Janet Lewis, who works in the University Center, said maintenance needs to replace the locks and to distribute keys.

Members also approved money not to exceed \$150 from the travel fund to send two students to the 26th Annual Student Symposium at the Center for Study of the Presidency in Washington, D.C. The students will represent the university.

Travel funds not exceeding \$750 were also approved for the Student Nursing Organization of Edinboro to attend the annual S.N.O.W. convention in Charlotte, N. C., April 5-8.

The Sigma Gamma Epsilon chapter of the National Honor Society of Sciences received money not exceeding \$600 to visit the Smithsonian Institution and to attend a geology conference. The organization's trip to Washington occurs April 7-9.

Members also approved Francis Constantine's *pro bono* offer of advice and consultation to the Edinboro University Corporation of Student Government Association.

ickets now available for the man of the Year Banquet

1995 Woman of the Year Award will be presented to five area women, two of whom are Edinboro University members, at the 1995 Woman of the Year Banquet on April 6, from 6 to 9 p.m. at the Bel Aire Hotel in Edinboro.

Edinboro University faculty members are Dr. Susan J. and Dr. Mary Alice Dye. Tickets selling for \$25, and reservations for the banquet are from the Women's Roundtable at P.O. Box 3922, 166508. The organization can also be reached by 833-0103.

- high quality students to work
- with high level government officials.

An Erie student is participating in a 12-week internship in Pennsylvania's capital city during the 1995 spring semester.

Tacie Tonks, an Edinboro University of Pennsylvania student, is performing an internship through The Harrisburg Internship Semester (THIS) program. The program was created by the State System of Higher Education to give students access to top policy-making areas of state government.

A senior psychology major, Tonks is interning with the Pennsylvania House of Representatives Democratic Research Office. An Erie resident, Tonks is a 1989 graduate of Kiski Area High School.

- THIS is open to students from the 14 State System universities.
- Integrating internship assignments with classroom study, the program is designed to recruit

Pennsylvania's State System of Higher Education was created on July 1, 1983. The System comprises 14 universities throughout the Commonwealth, enrolling over 94,600 students, 90 percent of whom are Pennsylvania residents. One of every 34 Pennsylvanians is attending or is a graduate of a system university. And, more than 302,000 system alumni live and work in the state. The state system is the 17th largest employer in the state, with more than 11,000 employees.

The 14 state-owned universities include Bloomsburg, California, Cheyney, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Lock Haven, Mansfield, Millersville, Shippensburg, Slippery Rock, and West Chester Universities of Pennsylvania.

FOR IMMEDIATE RELEASE:

NEW MINOR IN WOMEN'S ISSUES APPROVED AT EDINBORO UNIVERSITY

A new minor program in women's studies has been approved at Edinboro University of Pennsylvania. The interdisciplinary program focuses on the place of women in history, philosophy and literature, and includes elective courses in psychology, sociology, health, and speech communication.

Philosophy department chairman James Munro said the new minor "permits students at Edinboro to familiarize themselves in a coherent way with the tremendous number of issues about women. It encourages students to study the subject systematically and ensures a good knowledge of those issues."

The core of the new program consists of four required courses: History of Women in Europe or History of Women in the United States, Philosophy of Women, Images of Women in Literature, and Introduction to Women's Studies, which explores the theories and research pertaining to women's experiences and the status of women in contemporary society.

The women's studies minor permits students to prepare for gender-integrated workplaces, new family structures, nonsex-stereotyped or nonsex-segregated gender roles and careers. It also signals to prospective employers that applicants are gender-sensitive and gender-aware in ways useful for a variety of employment positions.

Edinboro's dean of liberal arts, Dr. Robert Weber, said the new minor fills a need in the University's liberal arts curriculum. Should the minor prove successful, a major in women's studies could be developed.

-more-

One of the professors who has taken a leading role in the new minor is philosophy professor Dr. Dana Bushnell. She has authored a soon-to-be-published book, "*Nagging Questions, Feminist Ethics in Everyday Life*". Bushnell said her interest in women's studies is a natural result of her interest in ethics. She said the program in women's studies is important to both men and women because it will increase their awareness of the inequality of the status of women in society. Those inequalities can be addressed only when men and women become aware of them.

Other women faculty members helping to get the program started are biology professor Dr. Dale Hunter, history professor Jerra Jenrette, and English professor Dr. Katherine Sotol.

NEW MINOR IN WOMEN'S ISSUES APPROVED AT EDINBORO UNIVERSITY

A new minor program in women's studies has been approved at Edinboro University of Pennsylvania. The interdisciplinary program focuses on the place of women in history, philosophy and literature, and includes elective courses in psychology, sociology, health, and speech communication.

Philosophy department chairman James Munro said the new minor "permits students at Edinboro to familiarize themselves in a coherent way with the tremendous number of issues about women. It encourages students to study the subject systematically and ensures a good knowledge of those issues."

The core of the new program consists of four required courses: History of Women in Europe or History of Women in the United States, Philosophy of Women, Images of Women in Literature, and Introduction to Women's Studies, which explores the theories and research pertaining to women's experiences and ^{the}women's status ^{of women} in contemporary society.

The women's studies minor permits students to prepare for gender-integrated workplaces, new family structures, nonsex-stereotyped or nonsex-segregated gender roles and careers. ~~And~~ ^{it also} signals to prospective employers that applicants are gender-sensitive and gender-aware in ways useful for a variety of employment positions.

Edinboro's dean of liberal arts, Dr. Robert Weber, said the new minor fills a need in the University's liberal arts curriculum. Should the minor prove successful, a major in women's studies could be developed.

One of the professors who has taken a leading role in the new minor is philosophy professor Dr. Dana Bushnell. She has authored a soon-to-be-published book, "^{of}Nagging" Questions, *Feminist Ethics in Everyday Life*. Bushnell said her interest in women's studies is a natural result of her interest in ethics. She said the program in women's studies is important to both men and women because it will increase their awareness of the inequality of the status of women in society. Those inequalities can be addressed only when men and women become aware of them.

Other women faculty members helping to get the program started are biology professor Dr. Dale Hunter, history professor Jerra Jenrette, and English professor Dr. Katherine Sotol.

Overview Presentation of The Women's Studies Minor

Consistent with the mission statement of Edinboro University the Women's Studies minor will develop ethical and cultural values contributive to good citizenship. In addition, this minor will "enhance the professional and personal development of students". We see this minor addressing the knowledge and sensitivity to gender issues which emerge in nearly all professions.

In the 5 Year Master Plan for Edinboro University (FY92) section I2.8.23 the Philosophy Department was directed to "work with other departments in Liberal Arts and other areas to develop a Women's Studies minor". Additionally, the Middle State Evaluation document in the section on women refers to the committee on women's studies as "planning a minor in women's studies".

The Women's Studies minor conforms to the SSHE's recommendations on curricular priorities found in the document Priorities for Pennsylvania's State System of Higher Education During the 1990s. Recommendation 8 g recommends (in part) "Incorporating knowledge and values related to the contribution of women and minorities into courses across the undergraduate curriculum" (P. 23) In his letter accepting the Women's Studies Committee as a subcommittee to the Commission on the Status of Women dated November 19, 1991, President Diebold reiterated the SSHE's commitment as follows: "I believe it is important to maintain some continuity in discussions and actions arising from the SSHE effort to enhance the professional role of women on campus and the available models for students". He adds "I understand that this subcommittee will be charged with examining the feasibility of a Women's Studies minor program at Edinboro".

The Women's Studies minor will be housed in the Philosophy Department as is the (PH 201) Introduction to Women's Studies course which is the basic course for the Women's Studies minor. The coordinator of the Women's Studies minor will be the chair of the Philosophy Department or the chair's designee.

The new (PH 201) Introduction to Women's Studies course will be the main source of recruitment for the Women's Studies minor. This course is presently one of the alternatives for the Cultural Diversity and Social Pluralism (Core 5) section of the General Education core. Ultimately there will be several sections offered each semester of this course. An informal poll of that class the first and only time it was offered in the spring semester of 1993 indicated a very strong interest in a women's studies minor.

Women's Studies provides a place in the curriculum for knowledge about women. The discovery of this body of information has been recognized as the most exciting explosion of knowledge in this century. It has also challenged and reformed the academic curriculum in which women,

1. SUMMARY DESCRIPTION OF NEW PROGRAM:

This minor requires students to take four 3-credit courses: PH201, Introduction to Women's Studies; HI314, History of Women in Europe; or HI315, History of Women in the United States; PH262, Philosophy of Women; ES365, Images of Women in Literature. Additionally students must take 9 more credits from a list of courses offered by several departments that deal with gender issues.

2. Briefly describe the reason this new program is being proposed:

This program fills a need at Edinboro for a minor in Women's Studies. It permits students to focus on Women's history, philosophy, and literature, which are respectable areas of academic study. Many academic positions, and other professions such as journalism, counseling, legal services, and public relations look to knowledge and sensitivity to gender issues as a necessary component of professional competence. For this reason a Women's Studies minor would also compliment such majors as criminal justice, business administration, and social work.

4. New program proposed:

WOMEN'S STUDIES MINOR

Prerequisites:

None.

Curriculum:

- | | |
|---|--------------|
| A. Required Courses | 12 sem. hrs. |
| PH201 Introduction to Women's Studies | |
| HI314 History of Women in Europe or HI315 History of Women in the United States | |
| PH262 Philosophy of Women | |
| ES365 Images of Women in Literature | |

| DS520 Communication Strategies for Women | |

formerly, occupied a problematic position. The minor takes a multi-disciplinary perspective, broadening the traditional curricular horizons so that the impact of gender is examined through a variety of methodologies and disciplines.

The women's Studies minor permits students to prepare for gender-integrated workplaces, new family structures, nonsex-stereotyped or sex-segregated gender roles and careers. And it signals to prospective employers that applicants are gender-sensitive and gender-aware in ways useful for a variety of employment positions.

What follows is a list of the catalogue descriptions of the courses involved in the proposed Women's Studies minor:

A. REQUIRED COURSES

PH201 INTRO. TO WOMEN'S STUDIES

This interdisciplinary course introduces students to theories and research pertaining to women's experiences and women's status in contemporary society.

HI314 HISTORY OF WOMEN IN EUROPE

This course studies the political, social, and economic history of women in Europe from antiquity to the present. It will examine and analyze traditional assumptions about women, but will give particular emphasis to the roles/contributions of women since the Renaissance.

- OR -

HI315 HISTORY OF WOMEN IN THE U.S.

This course studies the political, economic, and social history of women in the United States from colonization to the present.

PH362 PHILOSOPHY OF WOMEN

This course will trace the vision of woman in the philosophical tradition of western civilization. Through a careful examination and criticism of this tradition, it will move toward a philosophical anthropology of woman. The latter half of the course will deal with the effort of women to define themselves as found in contemporary feminist thought. It will conclude with a consideration of androgyny as a possible ground for an authentic philosophy of human existence.

ES365 IMAGES OF WOMEN IN LITERATURE

This course focuses upon seven images of women in literature - the submissive wife, the dominating wife, the mother, the seductive-goddess, the sex object, the old maid, and the liberated woman. *WHAT WRITER SAID.*

B. AT LEAST THREE COURSES TO BE SELECTED FROM:

NH100 CONTEMPORARY WOMEN'S HEALTH

This course focuses on contemporary health issues, emphasizing personal and preventative health across women's life spans. It examines lifestyles, coping patterns, health care advocacy, and psycho-physical and socio-economic concerns.

SW215 HUMAN DIVERSITY

This course examines human differences. Students will learn to identify and deal with conscious and unconscious stereotypes and prejudices toward diverse groups, such as Afro-americans, women, physically handicapped people, and sexual minorities.

PS275 PSYCHOLOGY OF HUMAN SEXUALITY

This course intends to help each student identify and understand the psychological basis for

B. Continued

his/her sexual motivation and behavior. In addition, it seeks to develop responsible attitudes in an individual's search for personal sexual fulfillment in his/her understanding of interpersonal relationships.

HI314 HISTORY OF WOMEN IN EUROPE

This course studies the political, economic, and social history of women in Europe from antiquity to the present. It examines and analyzes traditional assumptions about women, but gives particular emphasis to the roles/contributions of women since the Renaissance.

HI315 HISTORY OF WOMEN IN THE U.S.

This course studies the political, economic, and social history of women in the United States from colonization to the present.

HI316 WOMEN IN NON-WESTERN NATIONS

This course studies the history of women in the developing regions of Africa, Asia, Latin America, the Caribbean and the Middle East. It examines their status in precolonial times, but concentrates on women since the beginning of the independence movements, analyzing their roles in the struggles for liberation.

SO340 SOCIOLOGY OF MARRIAGE AND FAMILY

A study of the evolution of the institutions of marriage and the family in various societies with comparisons made to our own social system. Included in this will be factors in mate selection, marital stability, family roles and leadership.

SO364 RACE AND ETHNIC RELATIONS

Sociological analysis of contemporary forms of interethnic relations. The aspect of conflict, identity, ideologies, movements and change will be examined. Various approaches, both past and present, attempting to explain interethnic relations will be examined critically.

PH364 SEXUAL LOVE AND WESTERN MORALITY

The course explores several theories about the nature and meaning of human sexuality, which are then applied to the evaluation of sexual acts in both moral and non-moral terms. Several notions of love are examined in relation to the various lifestyles which could claim to be their practice.

DS520 COMMUNICATION STRATEGIES FOR WOMEN

This course offers gender-specific tools and suggestions for communicating more effectively in one-to-one situations, in superior/subordinate encounters, and in public meetings. This course is open to both women and men.

STATE SYSTEM BOARD APPROVES NEW DEGREE PROGRAMS

Harrisburg - The State System of Higher Education Board of Governors approved four new degree programs during its January quarterly meeting.

A Master of Science in Nursing (M.S.N.) degree to be offered jointly by **Clarion University of Pennsylvania** and **Slippery Rock University of Pennsylvania** was approved by the Board. Clarion University and Slippery Rock University currently offer accredited Bachelor of Science in Nursing programs. The new degree builds on these programs to address the need for more mid-level health care practitioners, especially in rural areas of Western Pennsylvania.

Several national and state studies have shown a significant need for more mid-level health care providers, especially nurse practitioners, who can provide many primary health care services at a reasonable cost and also make such services available in areas with a shortage of primary care physicians. A 1990 report, *National, State, and County Profile of America's Medically*

Underserved, indicated that over 16 percent of Pennsylvania's population was medically

underserved in terms of access to primary health care services. Six Pennsylvania counties were designated as being in "double jeopardy," due to a combination of poor overall health of residents and a shortage of primary care physicians. Two of these counties, Butler and Lawrence, are in the region directly served by Clarion and Slippery Rock Universities and a third, Beaver, is nearby. A 1993 report, *Healthcare Workforce 2000: A Western Pennsylvania Perspective*, identified an 8.9 percent shortfall of nurse practitioners in the region.

The first of three concentrations proposed for the M.S.N. degree is Family Nurse Practitioner in Primary Care, to be launched in the 1995 fall semester. Plans are to introduce the second concentration in Nursing Education in the 1997 fall semester and the third track in Nursing Administration in the 1998 fall semester.

Students will be admitted to the M.S.N. program by a joint Graduate Nursing Admissions Committee. They will be able to register for classes at either university and utilize support services, such as the library, advising, and parking, at both universities. Reinforcing the collaborative nature of the program, the academic transcript and diploma will carry the names of both universities. Clarion University will serve as the primary administrative site and repository of academic records.

The five-course core for the M.S.N program has already been coordinated with the equivalent courses in Edinboro University of Pennsylvania's M.S.N. - Family Nurse Practitioner program and further linkages with that program are anticipated over the next three years. Major health care organizations in Butler, Lawrence, and Venango counties have affirmed their support for the collaborative M.S.N. program, as well as the Northwest Pennsylvania Area Health Education Center, which will assist in identifying qualified ambulatory sites for clinical education.

MORE

A Master of Science in Nursing - Family Nurse Practitioner degree was approved for **Millersville University of Pennsylvania**. Millersville University has offered the Bachelor of Science in Nursing degree since 1979. This program will serve as a foundation for the new graduate program. The M.S.N. - Family Nurse Practitioner is in accord with the System Task Force on Graduate Nursing Education and the principles set forth in the Board of Governor's Health Care Enhancement Initiative. Designed to facilitate part-time study in pursuit of the M.S.N., the degree program includes provisions for cooperation with other System universities and for instruction at distant sites through technology.

The M.S.N. program will prepare students for professional practice either as a member of a health care team or in autonomous settings. The availability of increasing numbers of family nurse practitioners will help alleviate deficiencies in health care in Pennsylvania's rural and urban communities.

In October 1994, the Board of Governors approved a special purpose appropriation request for the System's Health Care Enhancement initiative. The Board requested \$1,000,000 for the first year of a five-year, \$5,000,000 program as part of the System's 1995-96 appropriations request to the Governor and the General Assembly. The project is designed to assemble regional consortia to provide more training and instruction for health care providers, especially at mid-levels, across the Commonwealth, with special emphasis on the needs of rural Pennsylvania. These consortia include State System universities and community-based health organizations. Regional nurse practitioner and physician's assistant programs will be given priority as new programs are developed and offered to students.

Bloomsburg University of Pennsylvania received approval to begin offering a

MORE

Master of Science in accounting degree in the 1996 fall semester. Through the new program, Bloomsburg University is responding in a timely way to changes in the accounting profession. Several years ago, the American Institute of Certified Public Accountants (AICPA) began a campaign to persuade state boards of accountancy, which regulate licensure of CPA's, to adopt a 150-credit hour education requirement as the minimum for licensure as a Certified Public Accountant. Currently, more than thirty states have adopted this new requirement; in most cases, it will become effective by the year 2000. After this date, the AICPA will not accept new members who have not completed 150 hours of instruction. While Pennsylvania has not yet adopted recommended legislation, it is likely to do so within the next few years. The proposed program is expected to serve baccalaureate students from other State System and independent colleges in the region, as well as the university's own accounting majors. Bloomsburg University has one of the largest undergraduate accounting programs in northeastern Pennsylvania with between 110 and 150 graduates annually.

A Master of Public Administration degree was approved for **Slippery Rock University**. The program has been developed for students who are already employed full-time in state or local governmental agencies or with private, non-profit organizations. The curriculum is designed to train professional public administrators to apply knowledge and advanced theory to the workplace and to practical problems facing the various publics they serve. The new program offers two options: a 42-credit option, including a three-credit thesis for students who are already employed in a related position; and a 48-credit option, including a six-credit internship for students who have not yet entered the professional workforce.

MORE

The Board also received information regarding a new minor degree program which was reviewed and approved by State System Chancellor James H. McCormick, in accordance with Board policy.

A new minor program in women's studies at **Edinboro University** has been approved.

The new minor program is similar to those that have been initiated at several other State System universities in recent years to incorporate knowledge and values related to the contributions of women into the undergraduate curriculum. The interdisciplinary program focuses on women in history, philosophy, and literature, and includes elective courses in psychology, sociology, health, and speech communication. The curriculum is comprised of 21 student credit hours: four required courses, including an Introduction to Women's Studies, and three electives to be selected from 10 courses offered by seven different departments.

Pennsylvania's State System of Higher Education was created on July 1, 1983. The System comprises 14 universities throughout the Commonwealth, enrolling over 94,600 students, 90 percent of whom are Pennsylvania residents. One of every 34 Pennsylvanians is attending a System university or is a System university graduate. And, more than 302,000 System alumni live and work in the state. The State System is the 17th largest employer in the state, with more than 11,000 employees.

The 14 state-owned universities include Bloomsburg, California, Cheyney, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Lock Haven, Mansfield, Millersville, Shippensburg, Slippery Rock, and West Chester Universities of Pennsylvania.

Subj: user group meeting wednesday at 3

Bill,

The Year of the Internet User Group meeting is being held this Wednesday at 3:15pm. One of the events is to present the award winner (a faculty member) of our Internet Hunt contest. Could we get a picture taken of the award winner receiving his prize? It would be a good way to cap off the Year of the Internet, and, after we evaluate the year-long program, a good picture to run alongside an article on the effects of the year on the faculty's perception of the Internet, etc.

Andy

Orion:

Since you are our Internet expert (having written the 8/29/94 release), please see if you and Richard can cover the "prize" ceremony this Wednesday at 3:15 p.m. and get a pic and some copy to go with it. Please let Doc Andy know you'll be there.

I've enclosed some other Internet goodies for background.

Bill 4/24

FOR IMMEDIATE RELEASE:

EDINBORO STUDENT QUARTET WINS STATEWIDE MUSIC VIDEO CONTEST

It was as easy as "ABC-123" for four Edinboro University of Pennsylvania students to win a five-night, all-expenses-paid vacation to Club Med in Florida, courtesy of Pepsi-Cola and the State System of Higher Education.

The all-freshman four – Angela Martorelli of Gibsonia, Pa.; Raquel McGowan of Washington, Pa.; and Sharon McKenney and Kimberly Sekinger, both of Bethel Park, Pa. – were the grand prize winners in the "Fun Flicks" music video contest sponsored recently by the State System of Higher Education and the Pepsi-Cola Company for students at the 14 State System universities.

Each System university was visited by Kramer International, Inc., "An Entertainment Company," which set up a video production studio for a day on each campus. Soloists or groups of no more than four were then invited to create their own music videos. Each campus selected its top video, judged by a panel of student government leaders. That video went on to the State System Grand Finals, held as part of the State System Day celebration on April 18 at Strawberry Square Mall in Harrisburg.

From more than 45 music videos produced at Edinboro University by Kramer International, local winner "ABC-123" went on to Harrisburg where it was recognized the grand prize winner by a panel of State System judges.

Edinboro's entry, a spirited, high-tech lip sync and dance routine set to the Jackson 5's "ABC-123" hit of the '70s, was the idea of McKenney and Sekinger, two of the winning four freshmen (obviously not the original Four Freshmen of another era).

"We've been Jackson fans for years," said McKenney, "and 'ABC-123' is a fun song that fits in with the 'Fun Flicks' theme."

McKenney said that she and Sekinger did a similar routine while in high school and taught the dance steps to Martorelli and McGowan for the Pepsi contest. Their idea paid off: the four are now planning the details for their five-night, expense-free Club Med Florida vacation over the summer.

The "Fun Flicks" music video contest was held as part of the agreement negotiated between the State System of Higher Education and the Pepsi-Cola Company in July 1994. The ten-year arrangement will provide the State System and its 14 universities more than \$23 million for critical-need areas such as capital funding, instructional equipment, consultancies, internships, and scholarship software. In return, Pepsi was awarded exclusive rights to market its products throughout the System. The corporate partnership, the first for the State System, was also the first for any public system of higher education and the largest of its type in the country.

Students, faculty and staff from Edinboro University of Pennsylvania's Miller Research Learning Center celebrated Arbor Day with the dedication of a memorial plaque to former Edinboro student Suzanne McCready. A tree was planted in honor of McCready who was killed in an automobile accident last June, one month following her graduation from Edinboro. Turning a spade of dirt is Eric Hamilton, president of Edinboro's Kappa Delta Pi international education honor society, of which McCready was a member. On hand for the Arbor Day ceremony were McCready's parents, Mr. and Mrs. Chalmers McCready (standing behind Hamilton), and their son, John, a student at Edinboro. A plaque with her name and the inscription: "A teacher, like a tree, sows the seeds of tomorrow," will be placed near the tree.

Eric Hamilton plants a tree at Edinboro University of Pennsylvania in honor of former student Suzanne McCready of Enon Valley who was killed in an automobile accident last June. Standing behind Hamilton at the Arbor Day ceremony at Edinboro's Miller Research Learning Center are McCready's parents, Mr. and Mrs. Chalmers McCready. Suzanne McCready was a member of Edinboro's Kappa Delta Pi international education honor society, of which Hamilton is president. A plaque with her name and the inscription: "A teacher, like a tree, sows the seeds of tomorrow," will be placed near the tree.

FOR IMMEDIATE RELEASE:

EDINBORO UNIVERSITY OFFERS SUMMER COURSES IN CORRY

For the first time ever, Edinboro University of Pennsylvania will offer summer courses in Corry, Pa. In an effort to make attending college more convenient for residents of outlying areas, the University will offer three undergraduate courses throughout the summer.

During pre-session, May 23 to June 9, students may take HI103 20th Century World History taught by Dr. Donald Hoffman. DS107 Fundamentals of Speech will be taught by Dr. Andrew Smith during regular summer session, June 13 to July 21. And, during post-session, July 25 to August 11, CJ200 Introduction to Law Enforcement and Criminal Justice will be taught by Dr. Allyn Sielaff of the University's political science department.

Registration is held the first day of each session: May 22 for pre-session, June 12 for regular session, and July 24 for post-session.

These courses, or any of the University's hundreds of summer courses taught at the main campus or at the Porreco Extension Center in Erie, are open to high school juniors and seniors, college students, and adult students enrolled at the University. For additional information, contact the Edinboro University Admissions Office at 814-732-2761 (toll-free 800-626-2203), or the Scheduling Office at 814-732-2835.

FOR IMMEDIATE RELEASE:

EDINBORO STUDENTS PERFORM COMMUNITY SERVICE PROJECTS

Student volunteers from Edinboro University of Pennsylvania were involved in two community service projects this semester. Twice a week, a group of some 25 Edinboro students assisted junior high school students from Cambridge Springs with their homework or tutored them after school.

The program was designed to promote the academic achievement of the Cambridge Springs students by developing their organizational and study skills. The Edinboro tutors benefited from the hands-on experience in their field of study. They were members of professor Jerry Dantry's sophomore field experience classes, or members of the Secondary Education Association or the Student Pennsylvania State Education Association.

The program focused on junior high students who needed extra help or motivation because of their difficulty in getting help from the existing peer tutoring program.

During Women's History Month in March, 15 members of Edinboro's Gamma Sigma Sigma sorority joined with the University's Americorps representative and volunteer coordinator Susan Wisniewski to clean the Women's Care Center in Erie. Half of the volunteers stayed inside and cleaned the windows and woodwork. The other half went outside and raked the large yard, bagged leaves and garbage and even cleaned the outdoor grill.

Established in 1993, the shelter serves women in need and their children. The residents cook their own meals and have housework duties assigned to them. The women who were at the shelter when the Edinboro group cleaned were appreciative of the help, and the volunteers were happy to help out. "It just makes you feel good to see what has been accomplished for those who are less fortunate," said one student.

The program focuses on junior high students who need extra help or motivation because it is difficult for them to get help from the existing peer tutoring program.

During Women's History Month in March, 15 members of Edinboro's Gamma Sigma Sigma sorority joined with the University's Americorps representative and volunteer coordinator Susan Wisniewski to clean the Women's Care Center in Erie. Half of the volunteers stayed inside and cleaned the windows and woodwork. The other half went outside and raked the large yard, bagged leaves and garbage and even cleaned the outdoor grill.

Established in 1993, the shelter serves women in need, but also their children. The residents cook their own meals and have housework duties assigned to them. The women who were at the shelter when the Edinboro group cleaned were appreciative of the help, and the volunteers were happy to help out. "It just makes you feel good to see what has been accomplished for those who are less fortunate," said one student.

RE: Edinboro University Student Volunteerism

I am forwarding information related to recent Edinboro University student volunteerism efforts.

Ms. Julie Fedders in the University Programming and Activities Office (x2842) can be contacted for further details. I would appreciate seeing a draft of the press release(s) before it is issued.

Once again, we would like this information forwarded to Pennsylvania Campus Compact for submission to their newsletter, *Service Scene*. The contact and address we have on file is:

Mr. Marc Osman, Editor
Service Scene
Pennsylvania Campus Compact
800 North Third Street, Suite 401
Harrisburg, Pennsylvania 17102

Please contact me with any questions. Thank you.

AFTER SCHOOL HOMEWORK ASSISTANCE & TUTORING

With the growing importance of education of our youth, Edinboro University, in cooperation with Cambridge Springs High School, has decided to implement a program to help junior high school students who need extra help and/or motivation. Student volunteers from Edinboro University will be assisting Cambridge Springs High School students with homework, or tutoring them in specific subject areas on Tuesday and Thursday afternoons, from 3:30 to 4:30 PM at the high school. Edinboro professor Jerry Dantry's Sophomore Field Experience classes, as well as two Campus organizations (Student Pennsylvania State Education Association and Secondary Education Association) are making this activity a community-service opportunity for their members.

This program is designed to promote the academic achievement of the students of Cambridge Springs. It focuses on the junior high students because it is difficult for them to get help from the existing peer tutoring program. It helps them develop organizational and study skills. This program also is very beneficial to the tutors, providing them with hands-on experience in their field of study. Twenty-five to thirty college students go twice a week and work with the students at Cambridge Springs. Edinboro University students are truly committed to this project. It has proven to be a program that is both beneficial to the high school students as well as the university students.

WOMEN'S HISTORY MONTH

On March 25, 1995 fifteen of Edinboro's Gamma Sigma Sigma sisters and Edinboro's Americorps representative and Volunteer Coordinator, Susan Wisniewski, completed a community service project. This group of young adults went to the Women's Care Center in Erie, rolled up their sleeves and did their best at cleaning the entire shelter, inside and out. The group split up, half stayed inside and half went outside. The women who cleaned inside kept busy cleaning the windows and woodwork. The group who went outside raked the large yard, bagged leaves and garbage, swept and one brave soul cleaned the outdoor grill. There was plenty of work for fifteen people to do. Everyone pitched in and worked together. The house looked like a totally new place ~~than the house the student volunteers had arrived at earlier!~~ *by the end of the day.*

The Women's Care Center was chosen primarily because of March being designated as Women's History Month. The shelter was established in 1993 and it was then that the shelter was named "The Moriah House". The shelter not only serves women who are in need but also the children of these women are welcome at the house. The women cook their own meals and have housework duties assigned to them. The women who were at the shelter when the Edinboro group cleaned were very appreciative of the extra help. The students and the representative from Americorps worked hard and had a good time in the process of helping those who are in need. It was a learning experience for all. One ~~of the~~ student volunteers was quoted as saying, "It just makes you feel good to see what has been accomplished for those who are less fortunate".

BUSINESS TODAY

HOSPODAR NELSON

THOMAS O. NELSON has been named the new chief of the Edinboro University Campus Police.

He began his career with the Erie Police Department in 1972 and served there for 23 years. Before retiring from Erie, he was commander of the vice and narcotics unit.

He is a graduate of Gannon University and has special training in narcotics investigation, clandestine laboratory investigation, interdiction, counseling and crisis intervention techniques, Caribbean organized crime schools. He has attended several classes updating search and seizure and narcotics identification and enforcement techniques.

DON SHANNON of the Erie Medicine Shoppe Pharmacy, 1210 W. 26th St., has received the Medicine Shoppe 1994 Service Award. The awards are earned by sponsoring free health care screenings and wellness programs, brown bag consultations and other community service activities.

STEVE NEHEZ of the Fairview Medicine Shoppe Pharmacy, 7686 Main St., has received the Medicine Shoppe 1994 Service Award. The awards are earned by sponsoring free health care screenings and wellness programs, brown bag consultations and other community service activities.

DAVID LESZUNOV of the Erie Medicine Shoppe Pharmacy, 3113 Buffalo Road, has received the Medicine Shoppe 1994 Service Award. The awards are earned by sponsoring free health care screenings and wellness programs, brown bag consultations and other community service activities.

DIANE NEUBURGER has been promoted to manager of The Closet, a junior woman's fashion store in the Millcreek Mall.

The store is owned by Maurices Inc., of Duluth, Minn., and she began her career with Maurices in September 1993, when she was hired at the Millcreek Mall store as a first assistant manager, the position she

held when she was promoted.

NEUBURGER BONDJ

JOSEPH BONDJ has joined the RE/MAX Real Estate Group.

He began his real estate career in 1988 and specializes in residential sales and new construction. He also has expertise in the sale of commercial and investment real estate.

He has received awards as Top Producer, PAR Excellence, Masters Club, Quality Service and Star Listing, and Sales Associate of the Year.

JANET CLARK, LPN, who works at St. Mary's Home of Erie, was elected state secretary of the Licensed Practical Nurses Association of Pennsylvania during the group's annual convention in Greensburg.

She is also the president of the Northwestern Division of LPNAP and will chair the Ethics Committee of the state association and serve on the Executive Committee.

EDWARD J. HOFFMAN of Robertson's Kitchens in Erie has completed the training school for kitchen specialists at the Wood-Mode Training Center in Kreamer. The week-long course was conducted by Don O'Connor. Hoffman said it was a comprehensive course and covered every aspect of kitchen design. IT includes design layout, technical instruction, industry terminology and consumer information were all part of the course. There was also extensive homework and a detailed final exam.

FENN M. ALLEN, associate agent with the John P. Mantsch Insurance Agency, representing the Erie Insurance Group, has successfully completed the Commercial Casualty Institute Examination. The institute is part of the Certified Insurance Counselor Program sponsored by the Society of Certified Insurance Counselors for insurance professionals who want to obtain the CIC designation. Allen is a licensed property and casualty and life insurance agent.

DONNA L. PATTERSON, a native of Franklin, has been named academic counselor in the Department of Academic Support Services at Edinboro University. She earned both bachelor's and master's de-

grees in special education from Clarion University. She received counselor certification from Indiana University of Pennsylvania, principal certification from Edinboro University and a superintendent's letter of eligibility from Westminster College. Before joining Edinboro University, she worked for the Tri-County Intermediate Unit in Edinboro as a curriculum specialist.

GREGORY H. SMITH, D.O., has begun the practice of neurological surgery at Saint Vincent Health Center.

He earned a B.S. degree from Penn State University and is a graduate of the Kirksville (Mo.) College of Osteopathic Medicine. He completed and internship and a residency in neurosurgery at Doctors Hospital, Columbus, Ohio.

Before coming to Saint Vincent, he served as an assistant professor in the Department of Surgery at the University of North Texas Health Science Center. He chaired the Department of Neurosurgery at the Naval Hospital in Portsmouth, Va., and has taught at several medical schools and has written for several publications.

He is a member of the American College of Osteopathic Surgeons, the American Osteopathic Association and the American Association of Neurological Surgeons.

SMITH ANON

JACK B. ANON, M.D., of the Saint Vincent Health Center Division of Otolaryngology, was a speaker at the recent Combined Otolaryngic Spring Meeting in Palm Desert, Calif.

While at the meeting, he was named a Fellow of the American Rhinologic Society. Fellowship is based on strict criteria, including research and publishing in the field of nasal and science disorders. There are only 70 fellows in the United States.

He is a graduate of Vanderbilt University and the University of Cincinnati College of Medicine. He has done postgraduate work in otolaryngology, maxillofacial surgery and general surgery at the University of Cincinnati Hospital. He is certified by the American Board of Otolaryngology.

MICHAEL F. GALLAGHER, M.A., has joined in a partnership with Barbara Singer, as a director of Senior Care Management Associates. In the new business, he is responsible for providing private care management services to older adults. The services include education, advocacy, counseling and the delivery of concrete services, and assisting older persons and their families in coping with the challenges of aging.

He is the coordinator of hospice social workers and volunteers at the Visiting Nurse Association of Erie County and previously served as director of gerontology at Saint Vincent Health Center. While at Saint Vincent, he was instrumental in the creation and implementation of the Senior Source Program.

He earned a B.A. in social work from Gannon University and an M.A. in gerontology from Edinboro University. He chairs the Northwest Region of the Pennsylvania Council on Aging, a division of the Pennsylvania Department of Aging. He is also a member of the Inter-Church Ministries Aging Task Force, the Pennsylvania Association of Volunteers and the National Association of Professional Geriatric Care Managers.

GALLAGHER BUSECK

THOMAS J. BUSECK has been named a partner in the McDonald Group law firm in Erie.

He joined the firm in 1989 and, besides his law degree, earned a master's degree in business administration from the University of Notre Dame.

He is a Certified Public Accountant and concentrates in the areas of business planning, real estate, estate planning, and estate administration.

He is a member of the Erie Chapter of the Pennsylvania Institute of Certified Public Accountants, and the American, Pennsylvania and Erie County Bar associations.

THE TEMPEST CORP., a new specialty business in Erie, has joined with Donn Advertising of Erie to market Tempest's multimedia development services to business-to-business, health care and consumer product clients on a regional and national level. Tempest is an Apple

multimedia developer and a member of the International Television and Video Association. Through Apple's multimedia developer program, the company has privileged access to the latest technology being introduced in the marketplace and to research resources in the New Media industry. The company also offers high-end video production and video conferencing services. Tempest offers programming capabilities that enable large amounts of information to be compressed onto a single computer diskette or CD-ROM for Macintosh or Windows-based PCs.

JEFFREY C. ZIMMERLY has joined Great Lakes Insurance Associates. He previously served as personal banking representative with PNC Bank.

He attended the University of Pittsburgh and the American Institute of Banking in Washington, D.C.

He specializes in marketing individual and business life, annuities and health insurance.

ZIMMERLY TAYLOR

CYNTHIA TAYLOR of Nan Heid Realtors, and a member of the Greater Erie Board of Realtors, has been awarded the Gold Award of the Pennsylvania Association of Realtors statewide Excellence Club.

She received the award at the District 7 Conference held at the Avalon Hotel.

In order to qualify as a Gold Award winner, the Realtor associate must amass a total of 100 points in combining monetary values of property with the number of successes in listing and selling property, education, and service and participation with the National and Pennsylvania associations of Realtors and the local Board of Realtors.

FOR IMMEDIATE RELEASE:

EDINBORO UNIVERSITY HELPED BY GE MATCHING GIFTS PROGRAM

Edinboro University of Pennsylvania has received a donation from the GE Fund (formerly the General Electric Foundation) under its Corporate Alumni Program, according to a recent announcement by University President Foster F. Diebold.

Under the program, GE matches dollar for dollar the value of any contribution of cash, securities or real estate made by a GE employee or retiree, doubling the donation.

GE began the first corporate matching gifts program in the U. S. in 1954 to encourage employees to give to institutions where they were educated. In the years since, the GE Foundation and now the GE Fund have matched more than \$57 million in gifts to colleges and universities. In 1994 alone, GE employees and retirees gave more than \$7.3 million to institutions of higher learning through the Corporate Alumni Program.

More than 1,000 U.S. companies and corporate foundations now match their employees' gifts to various non-profit organizations. Colleges and universities – the first non-profits to benefit from matching gifts – still receive the largest percentage of matching gift monies. Educational institutions have received nearly \$2 billion through various corporate and foundations programs over the last four decades.

EDINBORO – Edinboro University of Pennsylvania President Foster F. Diebold and Lt. Gen. M. Safdar (right), vice chancellor of the University of the Punjab, sign documents to renew the longstanding academic agreement between the two universities. The University of the Punjab, located in Lahore, Pakistan, is one of the eight Pakistani institutions with which Edinboro holds formal academic linkage agreements.

The pact calls for the exchange of visiting scholars, faculty and administrators, as well as consultation, planning and teaching in areas of mutual interest.

During Diebold's 16 years as Edinboro's president, the University has established more than a dozen linkages with institutions in China, Cuba, Morocco and Pakistan.

FOR IMMEDIATE RELEASE:

ANIMAL ASSISTED THERAPY MAKING A DIFFERENCE AT CHILDREN'S HOME

It's a zoo every day at the Randolph Children's Home in Randolph, New York, thanks to people like George Kelly, a biology professor at Edinboro University of Pennsylvania.

For the past two years, the Home has been using a variety of animals including dogs, horses, birds, ferrets and even a goat in its animal-assisted therapy program for teenage residents. Kelly heard about the program from Jamestown, New York, auto dealer Bill McFadden, who started using dogs in the program.

"I became interested, because I like kids and animals," said Kelly, who has a three-year-old son. "I wanted to contribute to something I have an interest in."

What Kelly contributed was a pair of his prized English setters, and whatever free time he could afford. He and McFadden show the residents how to train the dogs to be obedient and follow simple commands like "sit" and "stay." The teenagers also care for the dogs including feeding, grooming and cleaning them.

The dogs are assigned to the residential housing units, where they live and interact with the residents.

Sam Passamonte is the project manager at the Randolph Children's Home. He said studies have been done on pets and the elderly that show people are more tranquil and have lower blood pressure when animals are around. "We wanted to try it with the children, to do research and compile some actual numbers," said Passamonte.

So far, the program appears to be a big success. There is a waiting list of children for the dog care and training program.

-more-

The Randolph Children's Home takes in young men and women between the ages of 11 and 17 who have emotional or behavioral problems or come from troubled homes.

"Many of the children have trouble relating to adults," said Passamonte. "Some of them have been abused. A large number come from inner-city neighborhoods in Buffalo and Niagara Falls. Some are frightened of the animals at first, because the only dogs they know are guard dogs or attack dogs that have bitten or chased them. But most get over their fear quickly."

Passamonte said the dogs can have a dramatic effect on the residents' behavior. They tend to be less hyperactive when the dogs are around. The children will often turn to the dogs when they need emotional support. Sometimes the dogs will go to the child when he or she is emotionally upset.

"We often have a puppy in the office," said Passamonte. "When a child comes in to be admitted, he or she is often upset or withdrawn. Having the puppy there can cause them to open up. It breaks the ice."

Kelly is an avid hunter and has been interested in bird dogs since he attended graduate school. As an educator and a breeder of bird dogs he was intrigued with the idea of using working dogs in a therapy program. He said dogs are good animals for the program – especially pointers, setters and retrievers – because they are very friendly, trainable and get along well with humans. His reward is seeing the reaction of the kids to the animals. "You can see the joy in their faces," said Kelly. "They feel good about themselves because they are doing something right."

**ADMINISTRATION, FACULTY, & STAFF RESEARCH/COMMUNITY SERVICE/GRANT SURVEY
1994-95**

Please indicate the category of activity below and provide a short paragraph describing the activity. If more space is needed for the description, please include an additional sheet.

Use a separate form for each activity reported. If you have any questions regarding this form, please call 732-2672.

Name George M. Kelly
Division Biology/Health Services
Campus Address 113 Cooper Hall Campus Telephone 732-2926

Category:

- Publication or Presentation:** books, articles monographs, presentation of papers, creative activities. (Include publisher, publication title/date, organization/audience, location.)
- Community Service:** consultation, committees, panels, seminars, speeches. (Include area/topic, agency/organization/audience.)
- Grants:** (Include title, source of funding, amount, results, etc.)
- Other** _____

Provide a short, typed paragraph describing the activity in non-technical language.

Since November 1994, I have been volunteering in an animal assisted therapy program for children with emotional, behavioral, social, and family problems at the Randolph Children's Home in Randolph, NY. I learned of the program from an acquaintance who was primarily responsible for initiating it. As an educator and trainer and breeder of bird dogs, I was intrigued by the idea of using working dogs in a therapy program. I donated two English Setters to the program and have since been volunteering on a regular basis. We work with groups of children during one hour hands-on sessions and then they live with the dogs in their residential units and care for and train them based on the instruction that we give them. There is a waiting list of children who want to be accepted into this program and staff have stated that they have observed positive results in many of the children involved.

(Additional information about the program attached.)

Please return to your Dean, Director, Vice President no later than February 20, 1995.

Mr. G.M. Kelly
R.D. 2
Russell, PA 16345

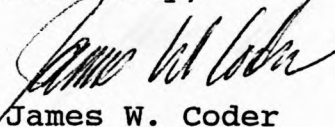

Dear Mr. Kelly:

The strength and success of our dog training program depends upon the generosity of people like yourself who have donated quality dogs and are willing to follow up their investment with involvement. On both counts, thank you!

Thank you for the gift of two registered English Setters. They will be a valuable addition to our kennel and will allow involvement of more children in our dog care and training program for which there is currently a waiting list. We also appreciate your interest in volunteering and ask that you make arrangements with Sam Passamonte to process your volunteer application and references.

The animal assisted therapy program of Randolph Children's Home has shown a wonderful effect on the lives of children with emotional, behavioral, social and family problems. Thank you for helping us develop more opportunities for helping.

Sincerely,

James W. Coder

A few thoughts on...

Changes

**"Things do not change,
we change"**

Thoreau

Q uite simply, our mission as child care providers is to initiate and support change. To understand the value of our work, is to understand the value of change. To be effective, we must be committed to the principle that change holds the potential for

growth. We must believe that change and growth are at the center of life.

Some changes at RCH are readily apparent in concrete and visible ways. When we have talked about change it has often been to describe one of our new buildings or programs. These are important tools, for each provides us the opportunity to craft a product of higher quality. To make the best use of these tools, it is important that we now embrace a broader vision - to dream and create together.

Ultimately, however, the concept of change must take root and grow within the children and families we serve. The reality, of course, is that we change no one. What we do, and do quite well, is to provide the knowledge and support needed for individuals to change themselves. Many seize the opportunity, and we celebrate their success. Some do not, and change begins anew as we search for new and better ways to be of help.

The story of Kit, one of the first dogs accepted onto a RCH residential unit, tells a lot about this process of change. Kit arrived at RCH pretty much untrained. Together, the children and staff of Unit 6 worked patiently day after day to help Kit change her behavior. It was not an easy process and many outside of the unit thought that Kit was not going to make it. Perseverance paid off however, and Kit soon became the unit's pride and joy.

As Kit matured, the man who had donated her saw that she now had the potential to become a professional field dog. He asked that he be allowed to buy the dog back and give Kit the chance to reach her full natural potential. It was a tough decision, but in the end it was felt that it would be unfair to Kit not to let her go.

Kit with former residents Fred & Ben

Although only a dog, Kit's experiences of accepting help, rising to meet challenges, experiencing success and then leaving to build a new future, became a simple illustration for the goals of residential care.

Our "Home" after all is not really a home for any one. It is a place for change, and it is a place to leave when change has been accomplished. And indeed, in our most recent group of youth leaving, one can see the dream of change realized.

Where there was once a feeling of defeat and helplessness there is now a steadily increasing sense of hopeful potential. We have provided an environment where change is possible and desirable, and these children have made it their own.

And now we begin again.

Sam Passamonte

Around 100 children live at the home.

35 kids are now in the dog training program, ranging in age from 11-17.

The animal assisted therapy program is about 2 years old. There have been studies down with pets and the elderly that when pets are around, people are more tranquil and their blood pressure is lower. We want to try it with children, do research and compile some actual numbers.

A lot of the children here have emotional problems.

The whole animal program includes dogs, horses, rabbits, ferrets, birds and goats.

They have 10 dogs now, all are registered, with setters, pointers and retrievers.

Sam is project manager. Was in charge of the girls unit for 18 years.

Less hyperactive when the dogs are around. Kids who are upset turn to the dogs for emotional support. Sometimes the dogs will go up to the kids who are emotionally upset.

We often have a puppy in the office. When a child comes in to be admitted he or she is often upset or withdrawn. The puppy often causes them to open up. It breaks the ice.

Many of the students have trouble relating to adults, some have been abused. A large number of the residents are from Buffalo and Niagra Falls. Some are frightened at first because they only dogs they know are guard dogs or attack dogs. Most get over their fear quickly.

The kids learn a lot from interacting with the animals.

Food is donated by Dads Dog Food.

George Kelly

Has been raising and training bird dogs a long time. He was at a training seminar where a man from Jamestown, (Bill McFadden) told him about the Randolph program. They needed animals. They had been using horses but they are expensive and not as responsive as dogs.

Kelly got interested because he likes dogs and kids, he has a 3-year old son.

I wanted to contribute to something that I have an interest in.

The dogs are of several different breeds. They stay in the residential units where they live and interact with them. Intercity children.

They can see results. Some of the reactions. The kids. The joy in their faces and in their expressions. They feel good about themselves because they're doing something right.

Many of the children grow up in a stressful environment. A lot of children don't know how to interact. It's a real challenge. A lot of them are sullen and withdrawn.

But they become more open.

We show them how to train the dogs. Obedience – sit, stay, – a lot of it is repetitive. They are responsible for caring for the dogs – groom, clean and feed them. They have responsibilities.

Dogs are assigned to residential housing units. They adopt a particular dog.

Bill McFadden goes over four days a week.

Kelly donated two English Setters. He is an avid hunter and has been interested in bird dogs since grad school. Before coming to Edinboro he was with Ducks Unlimited.

Some dogs don't take to it very well and are removed from the program.

Dogs can be very friendly, trainable, and human oriented.

FOR IMMEDIATE RELEASE:

EDINBORO GRADUATES 732 IN SPRING CEREMONY

Edinboro University of Pennsylvania President Foster F. Diebold, now completing the 16th year of his presidency, conferred master's, bachelor's and associate degrees to some 732 new graduates during spring 1995 commencement ceremonies Sunday at the University's McComb Fieldhouse.

The newest graduates join 813 December 1994 graduates for a total of 1,545 Edinboro degrees awarded during the 1994-95 academic year.

In his welcoming remarks to the graduating class and the Fieldhouse audience of more than 3,000, Diebold spoke on the theme that Edinboro University is a teaching university, tracing that theme back to the institution's founding as the Edinboro Academy in 1856.

The Edinboro Academy of 139 years ago was a teaching institution, Diebold said, not only for those who came to study and learn, but for its many graduates who were trained and educated here to go forth and teach others.

"Edinboro University began as a teaching and teacher training institution, and while it has expanded its 20th and soon-to-be 21st century mission to include research and community service, it has remained committed to the same basic tenet held so dearly by its founders of imparting and instilling knowledge," said Diebold.

"Edinboro University is still a teaching institution," he said, "that has remained unchanged and an enduring principle and purpose of its mission.

"The greatest contribution Edinboro University makes to society lies in the sound development of its students and graduates to be effective professionals, informed and responsible citizens, and creative leaders in their families, communities, states and nations," Diebold said.

-more-

“Nothing, therefore, is more important than what we teach, how we teach it, and what our students learn here, for there is no teaching without learning.

“The representation of our distinguished faculty assembled here today reinforces what it is we do at a teaching university. The evidence is presented in our 732 new graduates, and further evidence that Edinboro’s teaching mission – established 139 years ago this month – indeed focuses, animates and distinguishes Edinboro as truly an institution of higher learning.”

Diebold told the graduating class of his hope that Edinboro University had prepared them to make thoughtful reflection and learning a permanent part of their lives, and that they share their knowledge with others for the good of society.

Diebold and the University’s Council of Trustees also conferred the degree Doctor of Humane Letters (*litterarum humaniorum doctor, honoris cause*) upon Maestro Eiji Oue, the departing music director and conductor of the Erie Philharmonic Orchestra.

The citation on the honorary doctorate awarded Oue read: “In recognition of your leadership in the arts, which has had positive and profound effects upon the lives of individuals and institutions; for your consummate artistry and compelling advocacy for the arts; for your enthusiastic development of the Erie Philharmonic Orchestra and your many contributions to the enrichment of civic and community life; for your commitment to the training and education of young musicians, which has sustained your work with youth in Erie and around the world; and for your service in the cause of international understanding and world peace through musical expression.”

Oue completed his fifth and final season with the Erie Philharmonic this month and will become music director of the prestigious Minnesota Orchestra in Minneapolis.

He made many friends in the greater Erie area during his tenure while restoring and rebuilding the Erie Philharmonic – one of the oldest continuing orchestras in the country – to unprecedented quality and popularity. His receipt of the honorary doctorate at Edinboro University marked one of his final public appearances in the region.

Oue told the faculty and graduates that “your contribution to education is tremendous, and I am grateful to be with you today, especially on Mother’s Day.”

Oue said that he had spoken to his 68-year-old mother by phone before the ceremony, and that she told him to “stand up straight and smile” when receiving his honorary degree.

EDINBORO UNIVERSITY OF PENNSYLVANIA 1995 SPRING COMMENCEMENT

- ✓ Sunday, May 14, 2:00 p.m., McComb Fieldhouse
- ✓ 732 students received master's, bachelor's and associate degrees.
- ✓ With a December graduating class of 813 students, Edinboro granted approximately 1,545 degrees during the 1994-95 academic year.
- ✓ The degree Doctor of Humane Letters (*litterarum Humaniorum doctor, honoris causa*) was presented to Maestro Eiju Oue, music director and conductor of the Erie Philharmonic Orchestra for the past five years.
- ✓ Serving as University Marshal and leading the academic procession was Dr. Bob Wallace, professor in the department of speech and communication studies and director of television and media services. He has completed 29 years of service to Edinboro University.
- ✓ 23 undergraduate students graduated with *summa cum laude* honors (3.80 to 4.00 grade point average) 42 with *magna cum laude* honors (3.60 to 3.79), and 67 *cum laude* (3.40 to 3.59).

FOR IMMEDIATE RELEASE:

EDINBORO UNIVERSITY NAMES NEW POLICE CHIEF

Edinboro University of Pennsylvania has named Thomas O. Nelson as its new chief of campus police. Nelson, who began his new duties on the Edinboro campus last month, began his career with the Erie Police Department in 1972 and served there for 23 years. Before retiring from Erie, Nelson was commander of its vice and narcotics unit. "I had a good career with the Erie Police Department," he said, "but I was ready to move on from the vice unit. In different ways, this job will continue to offer me the challenges that I desire."

Nelson is a graduate of Gannon University and has special training in narcotics investigation, clandestine laboratory investigation, interdiction, counseling and crisis intervention techniques, Caribbean organized crime schools, and undercover narcotics investigation. He has also attended several classes relating to law enforcement such as legal updates on search and seizure and narcotics identification and enforcement techniques.

Nelson said there is currently not any major crime on the Edinboro campus, but hopes to find ways to better deal with cases of larceny, mischief, and vandalism. "I am looking forward to continuing my career as a police officer here at Edinboro," said Nelson. "Although there is less crime here on campus, it is still crime, and it is very important that it is dealt with the best way possible."

Overall, Nelson feels that he is making the transition into Edinboro quite well. "Everything now is an adjustment," he says. "By next semester, we will be taking a new approach to heading off crime. It is vital that we make sure incoming students, as well as their parents, understand that if students commit a crime, they will be dealt with by the law."

-more-

Nelson is replacing David W. Varner, chief of Edinboro campus police since 1974, who left Edinboro University earlier this year to become the first chief of police/director of security at the Pennsylvania College of Technology in Williamsport, Pa. Nelson currently lives in Erie with his wife and children.

ASSUMES POST — Edinboro University Chief of Police Thomas O. Nelson began his duties on Monday, April 10. Nelson earlier had retired from the Erie Police Department where he had completed 23 years of service. He replaces Dave Varner who left to head a department in eastern Pennsylvania.

Nelson assumes post

by Jonathan E. Lancaster
 ASSOCIATE EDITOR

Edinboro University has named Thomas O. Nelson as its new chief of campus police. Nelson, who served on the Erie Police Department for 23 years, began his new duties at EUP on Monday, April 10.

"I am looking forward to continuing my career as a police officer here at Edinboro," said Nelson. "Although there is less crime here on campus, it is still crime and it is very important that it is dealt with the best way possible."

Nelson has been a police officer in the Erie Police Department since he began his career in 1972. From February, 1991 until his retirement, Nelson was a sergeant serving as vice unit commander.

"I had a good career with the Erie PD, but I was ready to move on from the vice unit. In different ways, this job will continue to offer me the challenges that I desire," said Nelson.

Nelson said there is currently not any major crime on campus, but is looking into ways of better dealing with the many cases of larceny, mischief and vandalism that have gone on.

"I plan to focus as much as possible on the prosecution aspects of the books," said Nelson. "It is vital for the victims of crime to report it immediately, so that it may be investigated promptly. This would really give us much better odds in finding the culprit(s).

"What many people do not understand is that we are by mandate required to make all crime statistics public," said Nelson. "The statistics are officially audited on a regular basis.

We cannot drag people down here to file a complaint. All complaints made are reflected in the statistics."

Nelson believes that rumors and a lack of reports contribute to a general misunderstanding of what the police can really do.

"Although many complaints about parking — by students and faculty — are made to the police department, we are not responsible for them," said Nelson. "The administration is responsible for making the parking policies; our job is to enforce the regulations."

Nelson believes — like his predecessor David Varner — that much of the crime on campus is avoidable. "Students often become lax in security while living in the dorms because they become very relaxed and trusting of the people who live around them. Others take advantage of rooms that are left unlocked. Much of this type of crime can be avoided by using common sense."

Nelson warns that textbooks are commonly stolen at this time of the year. "It is a good idea to make sure that all of your books are marked in some way with your name," said Nelson. "If books are stolen, then the police should be contacted immediately so that we can track down the person who sold them to the bookstore."

Nelson said he is making the transition into Edinboro well. "Everything now is an adjustment," said Nelson. "By next semester, we will be taking a new approach to heading off crime. It is vital that we make sure incoming students, as well as their parents, understand that if students commit a crime, they will be dealt with by the law."

FOR IMMEDIATE RELEASE:

EDINBORO STUDENT RECEIVES SCHOLARSHIP

Edinboro University of Pennsylvania senior Sheri Hoehn, a speech language-hearing disorders major with a Spanish minor, is one of only 14 students in the nation to receive a scholarship from Phi Sigma Iota, the international foreign language honor society. Hoehn qualified for the award by composing essays in Spanish and English and by demonstrating academic excellence in both her major and minor fields. She served Edinboro's Beta Pi chapter as secretary and was recently elected vice-president/program director for the 1995-96 academic year.

In September, Hoehn will begin her graduate work at Edinboro toward the Master of Arts degree in speech language pathology. She will use her training in both Spanish and speech pathology in the public schools where she will treat language disorders among Hispanic children.

Hoehn lives in Edinboro with her husband and two daughters.

EDINBORO UNIVERSITY
O F P E N N S Y L V A N I A

May 12, 1995

FOR IMMEDIATE RELEASE:

EDINBORO UNIVERSITY AWARDED \$10,000 NEWCOMBE FOUNDATION GRANT

Edinboro University of Pennsylvania President Foster F. Diebold has announced that the prestigious Charlotte W. Newcombe Foundation of Princeton, N.J., will award a \$10,000 scholarship grant to Edinboro University in the 1995-96 academic year for financial aid to students with disabilities.

The grant is Edinboro's fifteenth in 15 years, bringing the total awarded to \$260,000.

Edinboro is one of the nine colleges and universities in the northeastern United States to share \$175,000 in Newcombe Foundation scholarships for students with disabilities in 1995-96. Funds awarded may be used for special expenses related to a student's disability or for off-campus internships or partial tuition scholarships.

In a letter notifying Diebold of the award, Newcombe Foundation executive director Janet A. Fearon said that the grant will continue the Foundation's scholarship support for students with disabilities at Edinboro University, as Edinboro's program has provided special help to a large number of needy and capable individuals over more than a decade.

"The Newcombe Foundation commends the counselors of students with disabilities who handle the distribution of Newcombe aid and provide the program reports," wrote Fearon. "Their diligence and dedication, as well as the outstanding commitment of the University to providing good services for these students, have encouraged the Newcombe Foundation trustees to continue Edinboro University in the program."

-more-

In the last 15 years, the Newcombe Foundation has committed more than \$3.5 million to their scholarship program, providing aid awards to some 5,000 college and university students with disabilities.

Another \$378,000 in 1995-96 Newcombe Foundation grants was awarded to 25 colleges and universities in Pennsylvania, New Jersey, New York City, Delaware, Maryland and Washington, D.C., for scholarship aid to mature, second-career women students.

FOR IMMEDIATE RELEASE:

TRANSITION COUNCIL TO HOLD SEMINAR AT EDINBORO UNIVERSITY

On Thursday, May 18, Edinboro University of Pennsylvania will host a day-long series of seminars sponsored by the Erie School District's Interagency Advisory Council on Transition and the Regional Transition Council to cross-train professionals involved in the transition of special-need students to adult life.

Three separate 75-minute seminars will be held on the Edinboro campus throughout the day. Panel discussions on the roles played by educators, service agencies and providers begin at 8 a.m. in Cooper Science Hall 101 and 102 and Hendricks Hall G-13.

Member organizations of the Interagency Advisory Council on Transition, along with the Erie City School District and Edinboro University's Office for Students with Disabilities, include: GECAC, the Dr. Gertrude A. Barber Center, Office of Vocational Rehabilitation, Bureau of Blindness and Visual Services, Base Service Unit for Mental Retardation, Dept. of Health and Human Services, Dept. of Public Welfare, Employment Opportunities Center, Erie Area Job Center and Job Training Partnership, Erie City-Area Vo-Tech, Erie Housing Authority, LIFT Program, Stairways, and local Navy and Marine Corps recruiting offices.

For more information, call Janet Jenkins, learning disabilities coordinator in Edinboro University's Office for Students with Disabilities, Shafer Hall, 732-2462.

FOR IMMEDIATE RELEASE:

**WAYNE MIDDLE SCHOOL STUDENTS MAKE FIELD TRIP
THANKS TO EDINBORO GRANT PROPOSAL**

Students from Erie's Wayne Middle School were able to take a field trip to the Carnegie Science Center thanks to a grant written by students at Edinboro University of Pennsylvania.

Funding for the grant came from the National Education Association's (NEA) Community Learning Through America's Schools (CLASS) program. Dr. Ken Adams, from Edinboro's education services department, said the NEA wanted to sponsor a project that engaged Edinboro students and faculty in a partnership activity. "We already had the existing Project ERIE grant, and this seemed like a good opportunity to expand on that program for the kids at Wayne Middle School."

The trip meant a lot to the 27 students who made the trip on April 20. Only two had been to Pittsburgh before, and most had never been out of Erie County.

"The Wayne students were very excited, well behaved and asked a lot of good questions," said Adams. "They saw the Omnimax presentation and all the exhibits on Antarctica. The Carnegie Science Center is so hands-on, you can't help but have a good time there."

Adams said the project was beneficial in three ways. The students of Wayne Middle School benefitted by taking a trip which they ordinarily wouldn't be able to take. The Edinboro students gained the real experience of writing a grant proposal, and both groups of students formed a friend and mentor relationship – not only from the trip, but also through visits to the campus.

-more-

A member of the State System of Higher Education

Adams approached the students in the University's Secondary Education Association and asked them if they wanted to write the grant proposal. It was their idea to take the Wayne Middle School students to Pittsburgh. The Edinboro students wrote the proposal in five evenings during September and October. "They did the work," said Adams. "I just guided them and told them what needed to be done."

The NEA encourages projects that help the economically disadvantaged. The CLASS grant covered the cost of transportation, food and admission to the Science Center.

Project ERIE will continue at the Wayne Middle School for at least another year through a State System of Higher Education Social Equity Grant. Adams said his next step is to look at how to improve the program by keeping the students involved and improving parent cooperation. He also plans to ask the Edinboro students to write CLASS grant proposals next year.

WAYNE MIDDLE SCHOOL STUDENTS MAKE FIELD TRIP THANKS TO EDINBORO GRANT PROPOSAL

Students from Erie's Wayne Middle School were able to take a field trip to the Carnegie Science Center thanks to a grant written by students at Edinboro University of Pennsylvania.

Funding for the grant came from the National Education Association's ^(NEA) Community Learning Through America's Schools (CLATS) program. Dr. Ken Adams, from Edinboro's education services department, said ~~the~~ the NEA wanted to sponsor a project that engaged Edinboro students and faculty in a partnership activity. "We already had the existing Project ERIE grant, and this seemed like a good opportunity to expand on that program for the kids at Wayne Middle School."

The trip meant a lot to the 27 ~~Wayne~~ students who made the trip on April 20. Only two had been to Pittsburgh before and most had never been out of Erie County.

"The Wayne students were very excited, well behaved and asked a lot of good questions," said Adams. "They saw the Omnimax presentation and all the exhibits on Antarctica. The Carnegie Science Center is so hands-on, you can't help but have a good time there."

Adams said the project was beneficial in three ways. The students of Wayne Middle School benefitted by taking a trip which they ordinarily wouldn't be able to take. The Edinboro students gained the real experience of writing a grant proposal, and both groups of students formed a friend and mentor relationship – not only from the trip, but also through visits to the campus.

Adams approached the students in the University's Secondary Education Association and asked them if they wanted to write the grant proposal. It was their idea to take the Wayne Middle School students to Pittsburgh. They ~~Edinboro~~ students wrote the proposal ⁱⁿ ~~by meeting~~ for five evenings ^{during} in September and October. "They did the work," said Adams. "I just guided them and told them what needed to be done."

The NEA encourages projects that help the economically disadvantaged. The ~~CLATS~~ ^{CLATS} grant covered the cost of transportation, food and admission to the Science Center.

Project ERIE will continue at the Wayne Middle School for at least another year through ~~A~~ State System of Higher Education Social Equity Grant. Adams said his next step is to look at how to improve the program by ~~such things as~~ keeping the students involved and improving parent cooperation. He also plans to ask the Edinboro students to write ~~CLATS~~ ^{CLATS} grant proposals next year.

We had received from the NEA a grant proposal packet for this CLASS grant. It looked like something I could teach students how to write. It was a pretty simple format – an 8 or 9 page proposal. The NEA wanted to sponsor activities where we had Edinboro students and faculty engaged in some sort of partnership activity. We already had the existing Project ERIE grant, this seemed like it could be an extension of that grant for the kids at Wayne Middle School.

CLASS = Community Learning through America's Schools.

When I approached the Edinboro students, the Secondary Education Association, I said, "Here's one possibility, but I would like you to consider other possibilities, and they decided they want to write the grant to allow the Wayne Middle School students to visit the Carnegie Science Center. The grant covered transportation and food and other things such as admission charges to allow them to visit the Science Center. These are inner-city, economically disadvantaged students.

So we took that Project ERIE group of kids from Wayne and we added this as an activity for them. We had 27 Wayne students go to Pittsburgh on April 20. Two faculty site coordinators from Wayne Chip Lewis and ???, five Edinboro students who had been authors of the grant – from the Secondary Ed. Assoc, and the student PSEA. He is advisor to those organizations.

We met for about five evenings, for a couple of hours each evening, in September/October, and they took responsibilities back with them, and brought something back to the next meeting. They did the work, I just guided them and told them what needed to be done.

The students of Wayne Middle School benefitted by taking this field trip which they ordinarily wouldn't be able to take. Our students benefitted from the hands-on experience of writing the grant. I think the fact that our students linked up with the Wayne students – they had met the Wayne students when they visited the campus for academic mentorships during the year. They formed a friendship/mentorship with those students which culminated in the field trip to Carnegie.

It was great. The kids were great. We left Wayne at eight. The Wayne students were very excited, well behaved, and asked a lot of questions. Our students teamed up with groups of the Wayne students as they went off on their own. We saw the Omnimax presentation of Antarctica, and the exhibits on Antarctica. The kids had a lot of good, genuine questions. It's so hands-on, you can't help but have a good time down there.

Only two of the Wayne School students had been to Pittsburgh, one had been to the Science Center. Most of them have not been out of Erie County. The two teachers I have worked with all year as part of Project Erie have just been wonderful. Chip Lewis said we need to expose all of the kids at Wayne to these kinds of opportunities. They have done a great job of facilitating the project at Wayne

We're funded for Project Erie for another year through a State System Social Equity Grant. Our next step at Wayne to look at how to modify this program – keeping kids in the program, getting parents to cooperate. We've identified three or four areas we know we want to make changes in. But we will back for the tutorial, the campus visit and the field trip.

Project Erie is only at Wayne Middle School.

We are going to work CLASS grants again next year with students from the same two organizations . We plan to meet again in September once we get the materials from NEA. I want then to make the decision on what the grant will be for. And I'll just help them write it.

Education — it pays and it takes you places! Just ask any of the Edinboro students that volunteered to help write the C.L.A.S.S. grant with Edinboro's Dr. Ken Adams from the Education Services Department. They can all tell you how to successfully receive a one thousand dollar grant from the National Education Association's C.L.A.S.S. grant program.

Of course, the National Education Association requires that this money is spent on educational purposes only. This project not only helped Edinboro students to successfully write grants but most importantly, it was used to help students from Erie's Wayne Middle School.

"I feel really good about this project because it reaches out to students from Edinboro and Wayne Middle School. It was great to see everyone so eager to volunteer for different tasks that together make this project run smoothly. We had Edinboro students assisting with grant writing, we had Edinboro faculty and students working with Wayne Middle School students that have rarely left Erie County in their whole lives!" said Dr. Adams.

Many of the students from Wayne Middle School have only travelled as far as the Millcreek Mall. The National Education Association highly encourages projects that help the economically disadvantaged and contributed the C.L.A.S.S. grant to help bring the Wayne student's to Edinboro for weekly activities and assist with the program's final goal which is to have a major field trip that will take these students to the Carnegie Science Center in Pittsburgh on April 20th.

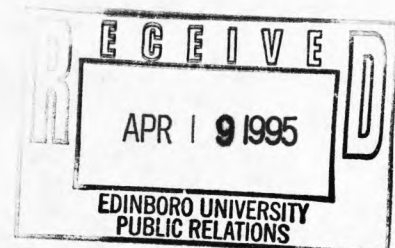

"It's a wonderful thing, helping these kids out. But you just can't successfully complete projects like these unless you've got people like we have here at Edinboro that are more than willing to help out. And of course, organizations like The National Education Association which also make these projects happen with their financial contribution. The bottom line is,

you need people that care about these kids that are all over the world and in our very own back yards," said Adams.

Edinboro's faculty, chaperones and students that contributed to the project will join Wayne Middle Schools' students on their journey, for some — their first journey, out of town and in a different city.

John Lyon, Edinboro student, helped write the grant and stressed how grateful all the students were for having Dr. Adam's help and time that was put towards helping with the entire Wayne Middle School Project.

"Most of us didn't know anything about writing grants. But, Dr. Adams knew exactly what to do and taught us how to do it as we completed the grant application. I deeply doubt we would have achieved such success with the grant if we didn't have Dr. Adams' help. He made us realize what a little effort can produce. I mean, it feels really good to know I helped those kids some where. I guess the last field trip to Carnegie is the grand finale. It looks like education really does take you places," said John Lyon.

EDINBORO UNIVERSITY RECOGNIZES HONOR STUDENTS

Edinboro University of Pennsylvania recognized its outstanding students at the 1995 Honors Convocation on April 30. Among those honored were more than 175 seniors whose degrees will be awarded *summa cum laude*, *magna cum laude* or *cum laude*. Serving as student speakers were Nicole Willey, a secondary education major from Edinboro, and Man Nei Hui, a business and accounting major from Macau. The student marshals were Brandy Berlin, a history major from Titusville, and David Kerstetter, a political science major from Edinboro.

Willey spoke about the educational, cultural and personal borders one must cross in life. "A true education is about overcoming borders," said Willey. "True learning can only take place in situations where the scholar is forced to cross borders. Our cycle of education becomes complete when we can finally become active in working toward values and beliefs we want to see in this world."

Hui spoke about the challenges one has to face in life. "Because we are always confronted with challenges, we are also provided with opportunities to learn and mature," she said. "We have better knowledge about life as we experience more challenges. Throughout our journey of life, we learn from challenges if we seize the opportunities to be challenged."

Cutline:

Participating in this year's Honors Convocation at Edinboro University of Pennsylvania are student marshals David Kerstetter of Edinboro and Brandy Berlin of Titusville, and speakers Man Nei Hui of Macau, and Nicole Willey of Edinboro.

Challenges

We always have challenges in our lives. In fact those challenges come our way anywhere, anytime. Even right now I am here facing a challenge to deliver this speech. As we grow up, our environment keeps changing and is providing us challenges. **Because we are always confronted with challenges, we are also provided with opportunities to learn and mature.** The American author Ralph Waldo Emerson says, "Life is a succession of Lessons, which must be lived to be understood." **We have better knowledge about life as we experience more challenges.**

The minute we were brought to this world, we already had challenges to breathe and to grow under our parents' protection. When we entered kindergarten, we started to interact with people other than our parents. Our new environment consisted of teachers, classmates and friends. We were in a "society". Then we went through elementary school, junior high school and high school. Each of these experiences provided different challenges.

I believe most of us would have experienced the struggling process before going to college. Should we even go to college? Which college is best for us? What major should we choose? What do we expect from college life? Those were the challenging questions we might have asked ourselves thousands of times. For international students, I could add another question: Should we even go to the United States for college? Being far away from home is a challenge, and being in a completely new country speaking a

foreign language is even a bigger challenge.

When I decided to come to the United States, I was afraid of leaving my parents, and the environment that was familiar. Distance obstacles prevented me from visiting Edinboro before I applied here. I was very worried about being unable to adapt to the new environment and to make friends.

Well, I was not the only one who was challenged. My parents were also challenged by the bitterness of sending their seventeen-year-old girl to a place far and away. Although they had many more worries than I had, they still believed it was time to let go their daughter-- otherwise she would never grow up. And so here I am, learning to deal with challenges independently and to be responsible for myself.

As I had expected, I was confronted here in my freshman year at Edinboro with a challenge to communicate with professors. I still remember that in one of my business classes, the professor noticed my weakness in communication skills and always encouraged me to explain the concepts orally in front of class. By doing so, I made great improvements not only in my communication skills, but academically. My interpersonal skills were further sharpened through team projects, club activities and the speech program in Leader Clinic for international students. Thereafter, I was more active, friendly, and talkative.

After my freshman year, I went back home to Macau to visit my parents during the summer. I volunteered to help in organizing a re-union meeting with my high school friends. They were impressed by my interesting experiences here at Edinboro University. I was no longer a girl sitting at the corner silently, or talking about tests and homework seriously.

It is amazing how much an environment can change a person. Psychologist J. B. Watson suggests, "Environment shapes behavior." Our environment provides us challenges, and we learn from those challenges.

My experience in adapting to the American environment helped me to overcome further challenges. Last summer, I was awarded an Honors Scholarship to study at Oxford University in England. It was a double challenge for me: I was going to England, a country I had never visited, and I was going to take English Literature, a subject I had never studied. In addition, I did not know anybody in our group. I was scared. Would I be able to adapt to the new environment quickly? Would I be able to handle the Literature reading? Would I make new friends? Those questions kept haunting me before I talked to my parents by telephone. They said, "Whatever you had done two years ago, do it now."

Yes. I should not be too worried. I had learned in the past how to take care of myself properly and how to adapt to a new environment. I would now have confidence to overcome the problems. I would not have discovered this big change had I not been awarded a scholarship to study in Oxford. And I would never forget the

continuous support and advice from my parents and professors.

Besides the challenges of adapting to a new environment, I also had challenges of exploring different subjects during my study at Edinboro. I used to concentrate my study on Physics, Biology and Chemistry in high school. However, when I applied to Edinboro, I decided to major in Business/Accounting, a field completely new to me. It was a big challenge since I did not even have Economics or Accounting courses in high school. I didn't even know whether I would like Accounting when I made the decision. "Try and see what will happen" was the only thing in my mind at that time. The flexible American educational system allows me to change major anyway, so why not try?

The system also emphasizes general education, which provides students with numerous access to different subjects and fields and therefore various challenges in study. In some countries, students may not have such challenging opportunities to explore their potential in subjects other than their major. For example, I always keep in touch with my high school friends in Hong Kong and England with Internet, an information super-highway that provides communication with other universities around the world. Those friends who major in Accounting told me by electronic mail that they would only have Accounting courses throughout their three years of study in university. They would not even get to business-related courses such as Marketing, Finance, Management. When I told them I was taking Business Law, International Finance, Computer Science, even English Literature, Music, Psychology, they

were not only envious of my challenging opportunities in the ocean of knowledge, but also amazed of the dynamic American educational system.

After we, as honors students, have enjoyed our challenging studies, it is almost time to graduate. What should we do after college? I believe many of us have been thinking about this for a long while.

In my case, I am facing not only the challenge of finding a job, but also the challenge of deciding where to start my career. Portuguese sovereignty of Macau will be returned to China in 1999. Many people are worried about the uncertain and unstable social environment under Chinese Government's control, and they seek every opportunity to migrate to other countries. I have been asking myself, "Should I go back when everybody is trying to leave?" The environment of Macau may or may not change dramatically, but in any case, I know there will be many opportunities along with challenges. American politician J.E. Hedges says, "Lots of people know a good thing the minute the other fellow sees it first." I should be the pioneer to accept those challenges and turn them into opportunities. So I have made up my mind to go back to Macau after graduation.

Having experienced such a struggling process, I discover that our real challenges in life begin after graduating from college. We are about to explore a new environment--our society, which will provide us with various challenges and lifelong learning opportunities. American author Alfred A. Montapert says, "If your education consists only in what you got from books, it will not be complete until you've had a postgraduate course in Experience." "Life is a great continuing and inspiring adventure...You learn until your last breath." Throughout our journey of life, we learn from challenges if we seize the opportunities to be challenged. The former British prime minister Benjamin Disraeli says, "The secret of success in life is for a man to be ready for his opportunity when it comes." I am sure our education at Edinboro University as honors students has prepared us for further challenges. Let's take a deep breath and get ready for that most important course yet to come--Experience 101!

Participating in this year's Honors Convocation at Edinboro University of Pennsylvania are student marshals David Kerstetter of Edinboro and Brandy Berlin of Titusville, and speakers Man Nei Hui of Macau, and Nicole Willey of Edinboro.
