General Loan Journal, 1959-1996

3 folders

This journal contains several sections concerning student's loans. One section contains a list of paid student accounts by date paid. There is a section for cash books where they recorded the money that came in for the month each year, as well as, another section for cash books recording the 4% interest on student loans and listing the interest income on loans. There are sections listing the students who qualified for the Teacher Cancellation Certificate and the Military Cancellation Certification. There is a section labeled General Journal describing any details involving loans. There are sections for cash on hand and in depository. There are sections for funds receivable from federal government, institution, and loan principal adjustments. There are sections of federal and institutional capital contributions authorized. Other smaller sections include various other details concerning loans and the money they received from them.
