TENNIS OUTLOOK 1968

Three veterans, Bob Zalonis, Jeff Miller, and Ed Dietrich returned from last year's squad which posted a 7-5 season, the first winning season in many years at Bloomsburg State College. Whether these three players will carry enough punch to offset the inexperience of the remainder of the squad is a question mark.

Zalonis has real potential and should continue to show steady improvement. Miller, who showed signs of great playing ability last year, could be the key to another winning season. More consistency in the offense of Ed Dietrich could also make a big difference. Lost through graduation from last year's team are: Frank Rishel, the number one player for the last two years, and Bill Gering, a steady Southpaw performer. Another bright prospective, Ron Dietrich, transferred to Villanova University.

Two other returnees from last year who could improve vastly as the season progresses are juniors Dale Houck and Gerald Fulmer. The outstanding sophomore prospects are Art Worley, who could move into one of the top three spots, and Tom Clewell, another solid slammer.

Many of the team members started weeks ago by working out against a backboard in the gym. As the new tennis facilities will not be available at the college until another year or two, the team will again use the facilities of the Bloomsburg Tennis Club and the courts of the Town of Bloomsburg.

Following early sessions with the team, Coach Herbert stated, "There seems to be an air of confidence and eagerness which could lead to a better than average season."

HEAD TENNIS COACH

DR. MICHAEL HERBERT

When Dr. Herbert joined the faculty of B. S. C. in 1963, he immediately became one of the staunch rooters for the Maroon and Gold. Over the past five years he has been vitally interested in the overall program of the nine varsity sports.

Two years ago when Earl Voss became head basketball coach, "Mike" became his right hand man as far as taking motion pictures of games, supervising photographs of the team, and scouting for the team. Through his keen observation and basketball sense, he soon became a radio guest commentator on B. S. C. games. His fine knowledge of camera work has resulted in some excellent films including both motion and still shots.

Last Fall Dr. Herbert was appointed head cross country coach and working with a limited squad did a very commendable job. In taking over the nucleus of the good tennis team of last year, Mike, applying his coaching precision, should produce a better than average team. Dr. Herbert is well known in local tennis circles as an amateur player.

In his teaching assignment at Bloomsburg State College, the University of Maryland, and Lehigh University graduate is a Professor of Biology. He was formerly a member of the faculty of the University of Massachusetts and John Hopkins University. He holds professional affiliations in a number of prominent science associations.
