### OUTLOOK

With this, the first year of varsity competition in over twenty years, BSC will be building a squad that hopefully will soon make its presence felt in the conference. The plan is to blend a group of twenty-six returning veterans (from last year's team) and twenty-seven tentative freshman candidates into a competitive and representative unit.

Coach Mingrone states, "For our first year we have a strong schedule with some of the perennial soccer powers in the eastern part

of the country. The squad will be young but deep in talent and experience as the freshmen entering BSC in September are an outstanding group of candidates."

The Huskies look forward to an exciting year and should give a good account of themselves.
