

THE SKIN OF OUR TEETH is a satire of the extraordinary adventures of the Antrobus family down through the ages, from the time the great wall of ice creeps over the world to the end of the war — any war. The Antrobuses have survived flood, fire, pestilence, the seven year locusts, the ice age, the black pox, the double feature, a dozen wars and as many depressions. Ultimately bewitched, befuddled and becalmed, they are the stuff from which heroes are made — heroes and buffoons. They have survived a thousand calamities by the skin of their teeth. Wilder's play is a tribute to their indestructibility. The play is a wise and wacky fantasy — a testament of faith in humanity.
