

## Membership Meeting

3-21-16

Dr. Lillard's discussion about ALA:

It is extremely beneficial to join the ALA and its roundtables for 4 main reasons:

- it allows for networking (authors and publishing companies are members)
- allows one to find their interests (such as do you prefer to work in a public or university library and do you want to be an archives or a head librarian)
- keep current with what's going on in your field and be involved with the community
- gain leadership skills.

You are also able to join after retirement.

There is also the Society of American Archivists which you can join.

Other Information:

Courtney Young, former ALA president, will be our guest speaker on April 4<sup>th</sup> @ 8PM and we will discuss nominations for ALA Student Chapter officers.
