1. Dr. Hartley is a guest tonight to talk about the accreditation process.
 - a) Clarion University is going through the Middle States accreditation, even if integration occurs, so the new “entity” will be accredited.
 - (1) Some senators are part of the Middle States working groups to be the student voice.
 - (2) The working groups have essentially completed the majority of the work. The executive committee is expecting final drafts from each group soon to bring down to a 100 page document to tell the narrative of the university and the students.
 - (3) In late October, there will be a visit from the chair to talk over the issues of the report, and then there will be a visit of about seven to eight individuals on campus to get a better sense of how the university is meeting its mission.
 - (4) The university is being accredited in the sense to tell everyone that we can produce students at rigorous levels so we deserve to be federally funded and recognized by the Department of Education.
 - (a) Accreditation for certain programs attract stronger faculty, and graduate schools and employers may prefer that students have gone through an accredited program. However, not all programs have accreditation, so it does not mean that they are useless.
 - (5) Senator Zavinski asked how do we accredit something (the integrated university) that is not already built?
 - (a) It’s a step by step process. The Board of Governors has been educated on the meaning of accreditation, and hopefully the whole integration idea will be opened for public comment soon.
 - (6) Senator Spang asked if the programs will be the same for current students, but change for incoming freshmen the year we integrate?
 - (a) The learning outcomes will be identical to the year you commit/contract to the university. While course titles may differ, you will still receive your course catalog.

D. Rules and Regulations Committee - Vice President Engelmann

1. The Rules and Regulations Committee motions to approve the modification of ABLE's constitution, which will include a name change to LEAD.
 - a) Discussion:

(1) COVID has been a struggle for a lot of clubs, but it showed the weaker parts of ABLE. There is such a divide in age among the members, so we thought this was the perfect time to make a big change. The current sophomores of the group have been working since the beginning of the semester to go over the constitution and make a bunch of

changes as a whole. Details are still being worked on, but as a whole, but the idea is solid.

(2) Why is the name being changed to LEAD?

(a) This will signify a new transition of the club, but ABLE is also supposed to stand for advisory board. We have not operated as an advisory board. Instead, we want to highlight what we already do, which is training potential leaders. Committees will also be changing to leadership opportunities.

(3) Will events like Come Together Clarion still be a thing, and will Student Senate still be involved?

(a) We are not ruling out partnering with Student Senate or anything, but our main focus is to educate leaders. If we go forward with those events, then we will definitely still want to partner.

b) Motion Passes with three abstentions.
