

TRMC Meeting Minutes

Lab Updates:

- Cell Culture – No contaminations, Dr. Dias has a cell culture incubator set up to the left of ours, you should not be using this! It has a lower CO₂ % that what our cells require!!!
- Prep Room – All good
- Rat Room – Rats are all good – 42 rats and planning for more for summer class
- Bd – SEM imaging on Tuesday 5 pm
- BTV – Gathering data
- Acetaminophen – Compiling and analyzing data for poster
- Biofilm – Made “a shit ton of broth”
- Compound I – Nothing happening
- Compound P – Testing distillate on bacteria
- HSC – Dr. Boyden is analyzing and preparing the data
- Annexin 1 – Starting up new flasks again

CPUB:

- Poster PDF's are due to smith by Monday!

Smith Lab News:

- If you are the last one in the lab at night or you leave without anyone else in the room, Shut the door that locks!!!
- Reformat accordingly and send CPUB abstract into Dr. Prezanno or Dr. Harris for undergrad conference at CU

TRMC:

- Still looking for a GMO speaker
- Color Run
- Bake sale soon!
- Budget Proposal – Lab supplies, 4 speakers over 2 panels, \$200 fee for band at anniversary

Anniversary:

- Formal speaker invitations to be sent out ASAP
