

TRMC Meeting Minutes 2/9/18

Lab Updates:

- Cell Culture – All is good, scope is being left on so be sure it is getting shut off. Dr. Dias's research team changes the objective lens and the contrast lens so be aware of that and change it back as needed!
- Prep Room – Keep an eye out for extra pairs of oven gloves! We are done to one pair, all sets should be in the prep room bench
- Rat Room – Rats' breathing is reduced so we may insert new genes into the breeding line.
- Bd – Got our new fungus in and Plans to immunize against the new strains to get new hybridomas!
- BTV – Finishing purification of their virus to study its apoptotic mechanism
- Acetaminophen –
- Biofilm – Got lots of teeth in a jar, yay. Got their cultures growing, frozen down and growing again!!! Plan to look at growth patterns of their biofilms on different materials
- Compound I – Revived the stocks from last semester and is preparing to do a biofilm on contact lenses after confirming the species of bacteria.
- Compound P – Compound P suggests CHECK YOUR REAGENTS before you run an experiment! Did a prep and ran out of their reagent and burnt their pee :(
- HSC –
- Annexin 1 –

Smith Lab News:

- Contact Steve Harris about going to the Barnes center and collecting the rest of the equipment!
- Congrats to Alex and Kaesi for their Grad school interviews!
- Scott lab has had some things being stolen (Lab equipment, personal items). Discussing covering up the window of the lab door.

TRMC:

- BURF fundraise collected a total of over \$8,000!
- Still looking into the Vaccine Panel. Contacting Panel members
