

TRMC Meeting Minutes 2/16/18

Lab Updates:

- Cell Culture – CHCKS and Veros are good
- Prep Room – No mess, everything is good!
- Rat Room – 3 more BALB/C!
- Bd – Finishing our Bd Protein Prep and getting ready to utilize our densitometry software and make some ELISA's!
- BTV – Still purifying the mutant viruses, looking to sequence the strains.
- Acetaminophen –
- Dental Biofilm – Building up their stocks so they can start making some biofilms on their jar of teeth.
- AntiBiofilm – Making media and coverslips to get some biofilms and treat with Compound P's protein precipitate.
- Compound I –
- Compound P – Distillation went well, are going to be working with the hospital pathogenic plates! If you're interested, talk to Kaesi to culture some wicked bacteria.
- HSC – Planning for their experiments
- Annexin 1 – Repeating the binding experiment!

Smith Lab News:

- Spend any grant money that projects have left over!
- CPUB is on the 7th and 8th of April, GET DATA if you want to present!
 - Travel Grants are due 4 weeks before the conference.
- Waiting to hear back about going to pick up the rest of the equipment from the Barnes center!
- Thinking about a liquid nitrogen cryopreservation for our mammalian cell lines.

TRMC:

- Journal Club will be starting up soon! Smith is starting up the first paper
- Flu Panel is still planned for later this semester!
