

In the good ol' days, one simply picked up a book or magazine at the store or mall and started turning the pages. Now, we must choose a reader and some "virtual" place from which to download our books and magazines.

Not all readers are created equal. Some excel in content access, others may have cool in-app features. It's a personal choice, which is why I would recommend multiple readers (and book sources) being installed and allowing the end user to choose their favorites.

Each listing below contains the app's icon, name, Apple Store link, and description (as presented in the Apple Store). Follow the link to see more about the app including reviews and screenshots.

The Kindle app is optimized for the iPad, iPhone, and iPod touch, giving users the ability to read Kindle books, newspapers, magazines, textbooks and PDFs on a beautiful, easy-to-use interface. You'll have access to over 1,000,000* books in the Kindle Store plus hundreds* of newspapers and magazines. Amazon Whispersync automatically syncs your last page read, bookmarks, notes, and highlights across devices (including Kindle), so you can pick up your book where you left off on another device.

Get the best reading experience available on your iPad, iPhone, and iPod touch:

- Shop the Kindle Store by visiting Amazon for the largest selection of books people want to read: over a million books, including over 800,000 at \$9.99 or less.
- Get free book samples – read the first chapter free before you decide to buy.
- Read hundreds* of newspapers and magazines including The Economist, Reader's Digest, Martha Stewart Living, and Food Network Magazine with high resolution color images. Visit the Kindle Store to subscribe to a newspaper or magazine and have each edition automatically delivered, or purchase individual issues.
- Email PDFs & other documents to your new Send-to-Kindle e-mail address and we deliver them to your device. The documents are automatically archived in the Amazon Cloud and available for re-download on your iOS or supported Kindle devices. You can also read PDFs from Mail, Safari, or by transferring them from iTunes.
- Customize your reading experience by choosing the margin size, background color, font size, and either portrait or landscape format.

- Instant dictionary word lookup with 250,000 entries and definitions. Tap and hold a word to view the definition.
- Search inside the book to find a character, topic, or section you want to revisit.
- Simply tap on either side of the screen or flick to turn pages.
- You can also read your Kindle books on your Kindle, Kindle Fire, Kindle Touch, PC, Mac, Android-based device, and Windows Phone 7-based device. Our Whispersync technology syncs your last page read, notes, bookmarks, and highlights across devices, so you can pick up where you left off.
- With Kindle textbooks you save up to 60% off print list prices when you buy, and up to 80% when you rent. Use the Notebook in your Print Replica textbooks to review your bookmarks, highlights, notes. Tag and filter the most important items to study.
- Accessibility features make it easier for blind and visually impaired customers to navigate their Kindle libraries, read & interact with books, and more. Enable VoiceOver in your device settings to begin.

* Selection and price of books and periodicals in the Kindle Store may vary by country.

If you'd like an almost endless supply of FREE books delivered directly to your iBooks, Kindle, or Nook app -- or almost any other eBook reader app -- then you'll want to install eBook Search right now.

It's like having VIP access to the world's largest bookstore... crammed to the rafters with over 2 million books, and open 24/7. Best of all, it fits into your iPhone or iPad.

No matter where you are -- lying by the pool, chilling in your local Starbucks, or waiting at the airport -- you'll always have a great book to read.

You'll simply browse through the eBook Search catalogs, pick a book, and after a couple of taps on the screen you'll be reading the book on your favorite eBook reader app -- Kindle, Nook, or iBooks (or most other reader apps)... it's up to you.

eBook Search taps into a little known supply of classic books -- by authors like Jane Austen, and Mark Twain. All the books you've promised yourself you'll read "one day."

That day is now. With eBook Search you'll catch up on all the reading you've missed, with a world of great literature at your fingertips. But it's not just the classics you get with eBook Search.

Modern-day stories -- thrillers, mysteries, fantasies, science fiction, and more -- are there at the touch of your finger. It doesn't matter which genre "floats your boat", you'll discover a huge selection to choose from. And you'll stumble on wonderful books you'd never heard of that'll send you down new paths of adventure and excitement.

All those wasted minutes, when you could've been reading "if only you'd brought a book"... are instantly transformed into hours of pleasure with eBook Search.

And remember, you can read all of these books on any eBook reader. Kindle, Nook, iBooks, MegaReader, or almost any other app, it doesn't matter. There's no need to learn how to use some new-fangled eBook reader. eBook Search puts your chosen book directly on to your favorite eBook app.

But here's where it gets really good. Every single book you get with eBook Search -- and there's over 2 million of them - is absolutely free.

When your friends are handing over their hard-earned cash for an eBook from the big name stores (and moaning about the outrageous price for a book you can't even hold in your hands), you'll have instant access to more books than you could possibly read in a lifetime... and they won't cost you a single cent.

While your friends are paying \$9.33 for "The Hound of the Baskervilles", you'll be reading it for free. While your friends are paying \$14.93 for "Tom Sawyer", you'll be reading it for free. And it's the same with thrillers, romances, science fiction, and more.

It's up to you. Keep on throwing your money away buying books from those other guys -- you know the ones. Or, keep the cash in your pocket, and get 2 million free books with eBook Search.
