Flipboard

<https://itunes.apple.com/us/app/flipboard-your-social-news/id358801284?mt=8>

Flipboard is your personal magazine. It is the most popular way to catch up on the news you care about, discover amazing things from around the world, or stay connected to the people closest to you. Now with Flipboard 2.0, you can save and collect the things you love into your own magazines like “Trips I want to take” or “Dream Homes.”

When you first launch Flipboard simply pick a few topics to start reading everything from world news to sports, travel and more. You can also add popular publications, such as The New York Times or Vanity Fair, or add Etsy to shop right from Flipboard. You can find thousands of

websites, RSS feeds and interesting sources like Politico and Brain Pickings, or explore magazines being created on Flipboard in "By Our Readers" -- just tap the red ribbon and use the Content Guide to get started.

Flipboard also lets you enjoy all your social networks. Add Facebook, Twitter, Instagram, Tumblr and more to see updates from your social world, all in a beautiful magazine style experience. Now the news your friends share is a breeze to flip through -- with headlines and excerpts that give you an immediate glimpse into the world around you. Anything you like, comment on or favorite goes right back into your social networks, so you can easily interact and add to the conversation.

Just tap any of your tiles to start flipping through the pages of your Flipboard. And use the + button on any item to start saving things into your own magazines.

KEEP UP ON FLIPBOARD:

Free GraCalc

<https://itunes.apple.com/us/app/free-graphing-calculator/id378009553?mt=8>

A powerful, flexible graphing calculator . . . and it's free!

Does far more than most of the paid calculators out there . . . let alone the free ones.

Features:

- Scientific Calculator. Simple to grasp and easy to use, but powerful features are available when you need them. Available functions include the following:

The usual arithmetic functions and exponentiation.

- square root, cube root, nth root, natural log, log base 10, log of arbitrary base, absolute value, factorial, permutations (nPr), combinations (nCr), modulus, random integer, bell curve, cumulative normal distribution, decimal to fraction.

Graphing. Capabilities:

- Graph up to four equations at once.
- Graphs are labeled.
- You can drag the graph or pinch to zoom in or out.
- Calculator can find roots and intersections.
- Graph in polar coordinates.

- Graph parametric equations

A unit converter. With a tap, you can enter the result of your conversion into the calculator. Currently converts different units of the following: acceleration, angle, area, density, distance, energy, force, mass, power, pressure, speed, temperature, time, and volume. Great for doing physics homework!

Constants for scientific calculations -- speed of light, strength of gravity at Earth's surface, etc. etc. Tapping on a constant will insert it into your calculation -- i.e, you don't have to key in the value. Again, great for doing physics homework!

It can make a table of the values of any function you care to enter. You can choose the starting x value of the table, as well as how much x increases for each successive row.

Help screens linked directly to many of the available functions and constants. Tap the disclosure arrow to see the definition.

Forgot the quadratic formula? Or the double-angle formulas for sine and cosine? The math/science reference hits the high points of various subjects. Currently includes algebra, differential and integral calculus, geometry, trigonometry, vectors, vector calculus, and classical mechanics.

Keep track of significant figures [AKA sig figs] (requires iOS 6)

My Klips

<https://itunes.apple.com/us/app/my-klips/id530857927?mt=8>

"My Klips" is a simple tool for your reading during your leisure or at the odd moment. Through the Browser Extension or Bookmarklet which removes ads and junk from the articles, you can read easily and happily on your iOS device.

FEATURES:

- Save web articles for offline reading
- Clean content for comfortable reading.
- Optimized for readability on your iPad's screen
- Save to Evernote, never forget
- Send to Kindle, read in peace

PLUS:

- Contents page: summary + pictures, simple and clear.
- Articles page: 2-column layout and ideal line length, greatly improve the readability (especially on iPad).

All these features effectively reduce the distractions from irrelevant webpage elements and interoperation, letting users keep focus on reading.

Penultimate

<https://itunes.apple.com/us/app/penultimate/id354098826?mt=8>

The original and most popular handwriting app for iPad. Penultimate gives you the natural experience of writing on paper, with the added power and availability of Evernote. Take notes, keep sketches, or share your next breakthrough idea -- in the office, on the go, or at home on the sofa.

THE EXPERIENCE OF INK AND PAPER, MADE BETTER

Your handwriting and drawings look spectacular in black or color gel ink on your choice of three different photorealistic paper styles, or import any image to create your own personalized paper. Our inking technology produces pen strokes that look better than real ones, and the automatic Wrist Protection mode prevents stray marks from appearing on a page for writers of all grips.

ESSENTIAL. EASY TO USE. BEAUTIFUL.

As part of the Evernote family of products, Penultimate will quickly become one of the core productivity apps on your iPad. Every Penultimate note is synced to your Evernote account automatically, and every detail of the user interface has been designed and refined to be simple and intuitive with no complicated or cluttered settings.

REMEMBER EVERYTHING WITH EVERNOTE

Store your Penultimate notes in notebooks, separated by topic, project, or category. Penultimate can manage as many notebooks as you can create, then sync them directly with your Evernote account, where you can view, search and share them across all of your devices.

FIND ANYTHING FAST, EVEN HANDWRITTEN TEXT

You can search through your handwritten text within the app, or browse quickly through all pages. View your list of notebooks as a carousel or sort and scroll in a fast grid view. Penultimate also allows you to insert, delete, duplicate, and reorganize pages within and between notebooks.

SHARE YOUR PENULTIMATE NOTES

Send single page images or full notebooks in PDF format to friends and colleagues for easy feedback and collaboration.

MORE WITH PREMIUM

Penultimate is free to download and use. Evernote Premium adds great features across all of the Evernote applications. In Penultimate, Passcode Lock and unlimited Paper Shop access are included. Premium is available through an auto-renewing subscription.

Two subscription options:

- ◦ Evernote Premium monthly for \$5
- ◦ Evernote Premium annually for \$45

Subscriptions will be charged to your credit card through your iTunes account. Your subscription will automatically renew unless cancelled at least 24-hours before the end of the current period. You will not be able to cancel a subscription during the active period. Manage your subscriptions in the Account Settings after purchase.
